ACCESSION NUMBERS A69-10001 to A69-43818

INTERNATIONAL AEROSPACE ABSTRACTS is prepared and published semimonthly (except March, June, September, and December, which have three issues) by the Technical Information Service, American Institute of Aeronautics and Astronautics, Inc., for the Institute and the National Aeronautics and Space Administration under Contract No. NSR 33-003-009. Editorial and Subscription Offices: 750 Third Avenue, New York, N. Y. 10017. Copyright © 1969 by the American Institute of Aeronautics and Astronautics, Inc.
Telephone: 212 TN-7-8300 TWX: 212 867-7265

SUBSCRIPTION INFORMATION. Semimonthly issues: United States and Possessions, 1 year, \$54 postpaid; Foreign Countries, 1 year, \$68.25 postpaid. Cumulated Index Volumes: United States and Possessions, 1 year, \$30 postpaid; Foreign Countries, 1 year, \$35 postpaid. Second-class postage paid at Phillipsburg, N.J.

INTRODUCTION

INTERNATIONAL AEROSPACE ABSTRACTS (IAA) is an abstracting and indexing service covering the world's published literature in the field of aeronautics and space science and technology. IAA is issued semimonthly, on the 1st and 15th of each month (except March, June, September, and December, which have three issues).

Coverage of Published Literature

The following types of publications are covered in IAA:

- Periodicals (including government-sponsored journals) and books.
- Meeting papers and conference proceedings issued by professional societies and academic organizations.
- Translations of journals and journal articles.

Coverage of Reports ("Unpublished" Literature)

Abstracts and indexes of report literature are issued in SCIENTIFIC AND TECHNICAL AEROSPACE REPORTS (STAR), which is published by the Scientific and Technical Information Division, National Aeronautics and Space Administration.

By special arrangement between NASA and the American Institute of Aeronautics and Astronautics, IAA is issued in coordination with the twice-monthly schedule of STAR, which appears on the 8th and 23rd of each month.

IAA and STAR both utilize identical subject categories and indexes, which are described below.

Thus the two services provide comprehensive access to the national and international unclassified report and published literature of current significance to aerospace science and technology.

Arrangement of the Semimonthly Issues

IAA is arranged in two major sections:

- (1) Abstracts Section. This section contains complete bibliographic citations with informative abstracts, arranged by appropriate subject categories to facilitate scanning. The subject categories are numbered from 01 to 34, and the scope of each category is outlined in the Table of Contents and again at the beginning of each category in the Abstracts Section. Each abstract is prefixed by the IAA accession number.
- (2) Index Section. Five indexes are contained in this section: Subject, Personal Author, Contract Number, Meeting Paper and Report Number, and Accession Number. Each index is prefaced by explanatory notes to guide the user to the desired abstract.

Cumulated Indexes

Cumulated indexes are prepared and issued promptly at the end of each quarter year, with the 4th quarterly being the Annual Index.

Each cumulated index contains the following sections: A—Subject Index, B—Personal Author Index, C—Contract Number Index, D—Meeting Paper and Report Number Index, and E—Accession Number Index.

Indexing Vocabulary

The Preliminary Edition of the NASA THESAURUS (December 1967) (NASA SP-7030) is the authority for the indexing vocabulary that appears in the subject indexes to STAR and IAA. The NASA Thesaurus should be consulted for a total picture of the current indexing vocabulary and associated cross-reference structure. Copies of the NASA Thesaurus may be obtained from the Clearinghouse for Federal Scientific and Technical Information or the U.S. Government Printing Office at a price of \$8.50 for the three-volume set.

Information regarding SCIENTIFIC AND TECHNICAL AEROSPACE REPORTS and the availability of INTERNATIONAL AEROSPACE ABSTRACTS to organizations having contractual arrangements with NASA may be obtained from the following address:

National Aeronautics and Space Administration
Scientific and Technical Information Division
Attention: Code USI
Washington, D.C. 20546

how to obtain publications abstracted

Address all inquiries and requests to:

Technical Information Service
American Institute of Aeronautics
and Astronautics, Inc.
750 Third Avenue, New York, N. Y. 10017

Telephone: 212 TN-7-8300
TWX: 212 867-7265

All documents abstracted are available from the AIAA Technical Information Service as follows:

- Paper copies of accessions announced in IAA and of other published articles in the TIS library are available at \$3.00 per document up to a maximum of 20 pages. The charge for each additional page is \$0.25.
- Paper copies of accessions announced in *Scientific and Technical Aerospace Reports* (STAR) and of similar unpublished reports in the TIS library are available at the rate of \$0.25 per page, minimum order \$3.00.
- Microfiche of documents announced in IAA are available at the rate of \$0.50 per microfiche on demand. Documents available in this manner are identified by the symbol # following the accession number in the Abstracts Section and in the Meeting Paper and Report Number and the Accession Number Indexes.
- Minimum air-mail postage to foreign countries is \$1.00.
- A number of publications, because of their special characteristics, are available only for reference in the library.

**PLEASE REFER TO THE ACCESSION NUMBER WHEN
REQUESTING PUBLICATIONS**

CROSS REFERENCES

The subject index includes two types of cross references to aid the user of the index in locating the material being sought:

1. "USE" references (U) direct the user to alternate headings under which material on the subject will be found, for example

COLUMBIUM
U NIOBIUM

2. "NARROWER TERM" references (NT) refer the user to more specific headings in the same subject area, for example

LUMINESCENCE
NT ELECTROLUMINESCENCE

The periodicals listed in this section were scanned for material to be announced in *International Aerospace Abstracts* in 1969. The periodicals were received regularly throughout the year in all but a few instances. In the case of titles preceded by an asterisk, only the articles abstracted in *International Aerospace Abstracts* are available. All abstracted articles can be obtained from the AIAA Technical Information Service (see page iv).

A Notation of Content, rather than the title of the publication, appears under each subject heading; it is listed under several subject headings which provide multiple access to the subject content of each accession. The IAA accession number is located under and to the right of the Notation of Content. It is preceded by numbers identifying the issue and page of *International Aerospace Abstracts* where the abstract is located.

To illustrate:

Issue Number	Page Number	Accession Number
01	p0006	A69-11016

A

A STARS

Hydrogen alpha line strength in 951 O, B and early A stars from narrow band photoelectric measurements for stellar luminosity

03 p0511 A69-13435

Evolution of close spectroscopic binaries and Am stars

05 p0822 A69-15855

Element abundances in two horizontal branch A stars through coarse and fine spectroscopic analysis, noting metal deficiencies with respect to sun

08 p1385 A69-20061

Curve-of-growth abundance analysis for main sequence lambda Bootis stars, suggesting type Ap star characteristics

08 p1385 A69-20062

Brightness in blue light and radial velocity variability of metallic line star 28 Andromedae

08 p1395 A69-20637

Radial velocity, light and magnetic variations of HD 10783 from concurrent UVB photometric and Zeeman spectroscopic observations

09 p1600 A69-22197

Element abundances of sharp lined field early A stars using model atmosphere

09 p1600 A69-22198

Spectroscopic study of A stars with large Stromgren m sub one indices, discussing rotational velocity, spectral intensity and type

09 p1602 A69-22215

Effects of opacity arising from silicon bound-free transition on emergent fluxes and hydrogen line profiles for A and late B stellar atmospheres

09 p1604 A69-22403

A and B stars near North Galactic Pole and with magnitudes from 5 to 14.5, noting photoelectric UVB and four color photometric measurements

10 p1773 A69-22963

Surface gravities and detection of metallic line early A stars from spectral classification using equivalent line widths

12 p2171 A69-27151

Short period variability of B, A and F stars observed in photometry of New Delta Scuti stars

13 p2348 A69-27803

Positions, spectral types and B magnitudes for possible field horizontal-branch stars at high galactic latitudes, selected from faint A star list

13 p2348 A69-27807

Magnetic A star HD 152107 anomalous intensification of Balmer series H lines observed by spectrograms

13 p2352 A69-27873

Heavy element abundances in peculiar A stars, investigating nucleosynthesis during massive stars evolution

14 p2527 A69-29945

Canum Venaticorum variable A star spectrum, listing all lines observed between 5000 and 6650 A

15 p2692 A69-30773

Zeeman spectroscopy and UVB photometry of 17 Com and kappa Cnc, observing periodic magnetic and light variations

15 p2692 A69-30774

Metallic line /Am/ stars Zeeman observations, showing 16 Ori as spectroscopic binary, dubious binary nature of 15 Vul and doubtful presence of magnetic fields

15 p2692 A69-30775

Spectral Pt II lines in Ap stars of Hg class observed during analysis of double lined spectroscopic binary HR 4072

15 p2695 A69-30891

Two dimensional spectral classifications for bright A stars including magnitudes and colors

16 p2860 A69-32233

Effective temperature and gravity values for Mn Ap stars by comparing spectrum scans and H line profiles with predictions from atmospheric models

17 p3038 A69-33724

Spectrophotometric characteristics of Serpenteis, high metallicity A2 star and standard F zero V 9 Aurigae, analyzing chemical composition, microturbulence velocity and abundance by detailed differential growth curve

17 p3039 A69-33728

Microturbulent velocities of A and F stars observed for reciprocal effective temperature range

17 p3039 A69-33729

Galactic rotation in Cassiopeia region, studying O, B and A stars circular velocities as function of distance from galactic center

18 p3201 A69-35142

Southern stars of spectral types between O5 and A3 analyzed for equivalent widths and equatorial rotation velocity from direct intensity spectrogram tracings

20 p3600 A69-37491

Calcium K line strengths in A stars measured by narrow band spectrometer compensated for seeing and transparency variations

22 p4015 A69-40154

MK system spectral types determination for B, A and F type stars from slit spectrograms near NGC 2264

23 p4211 A69-41487

A-type stars investigation for anomalous spectral line intensities, discussing Hertzsprung-Russell diagrams, rotational velocities, magnetic fields and abundances

23 p4218 A69-42322

Model atmosphere analysis of line identifications and equivalent width data for relatively cool Ap star HD 204411, discussing atmospheric composition

24 p4376 A69-42664

A- 1 AIRCRAFT

Night vision requirements of Vietnam combat pilots investigated for relationship to Skyraider fatal crash during target strafing and H-34 helicopter crash landing

23 p4107 A69-41807

A- 6 AIRCRAFT

Low altitude atmospheric turbulence model evaluated from analysis of A-6A aircraft gust load data, comparing model estimates with aircraft response characteristics

01 p0056 A69-11053

A- 7 AIRCRAFT

A-7 Corsair 2 introduction to fleet and combat operations in Southeast Asia

06 p0867 A69-17660

TC-2 general purpose digital avionics computer in A-7D/E avionics system performing tasks in weapon delivery, navigation and guidance, display updating, self testing, etc

17 p2933 A69-34059

A-11 SATELLITE

U ECHO 1 SATELLITE

A- 300 AIRCRAFT

European A-300B airbus design, considering aerodynamics, fuselage, power plant, structure, systems, maintenance cost and autoland

11 p1822 A69-24464

A 300B twin engine short haul giant transport aircraft, discussing engines, aircraft performance and systems reliability

[RAES PAPER 11] 22 p3863 A69-40491

ABBREVIATIONS

U SYMBOLS

ABDOMEN

Decreasing barometric pressure effects on abdominal gas volume in military men under simulated flight conditions, noting abdominal fullness and pain

23 p4076 A69-41291

ABERRATION

Hologram chromatic aberration compensation by two lens system

01 p0080 A69-10430

Sectoral hoghorn as line feed for correcting spherical aberration in offset spherical reflector antennas

06 p0898 A69-17823

Escherichia coli WWU multiautotrophic revertants with nonsense suppression, noting role in aberrant morphology and in catabolizing thymidine for energy and carbon

07 p1069 A69-19503

Aberration of dielectric patches and rings attached to radome surface described by insertion phase

07 p1111 A69-19530

Single and double mirror systems geometrical optical image aberrations noting focal number, angle of field, secondary magnification and mutual position tolerances

11 p1918 A69-24836

Diffraction images of coherently illuminated objects in presence of aberrations stressing images of edges, disks and bars

13 p2297 A69-27451

Lenses spherical aberration role in studying laser induced breakdown of gases, considering intense ionization collinear regions multiplicity along optic axis

15 p2634 A69-30878

Aberrations of Fabry-Perot interferometers with small nonuniformities in plate spacing used as spectral and optical filters

17 p2972 A69-33081

Spherical aberration effect on atomic beam focusing in six pole magnetic system

19 p3380 A69-36602

ABIOTENESIS

NASA Planetary Exploration Program to gather data on origin of solar system and life, discussing planetary evolution and extraterrestrial life

02 p0200 A69-12804

Abiogenic synthesis of prebiological membranes under assumed primitive earth conditions by UV radiation of alkanes on phosphate and Mg ions aqueous solutions

11 p1828 A69-25462

Self assembly relation to origin of life and spontaneous generation applied to precellular polymers, biopolymers and cellular structures

12 p2018 A69-25776

Origin of microbial life on earth and implications for extraterrestrial forms

17 p2907 A69-32972

ABLATION

Soviet book on theories of origin, nature and evolution of life from viewpoint of dialectic materialism, covering evolution trends, cell differentiation, etc
19 p3259 A69-36746

Evolution of life as creation of order from chaos, noting molecules self ordering capability
21 p3651 A69-38577

Cell origin in self organizing natural polymers in terms of molecular evolutionary priority of polynucleotides and poly alpha amino acids
22 p3896 A69-40781

Pyrimidine polyribonucleotides or purine polyribonucleotides binding to lysine- or arginine-rich proteinoids considered for abiogenesis
23 p4113 A69-41509

Prebiological chemical evolution, studying synthesis and degradation rates relationship at primitive environment energy levels
24 p4269 A69-43514

ABLATION

Sikhote-Alin iron meteorite high temperature oxidation and ablation and simulation with Fe-Ni alloy, noting phase compositions and structure
01 p0025 A69-11373

Minerals in ablated crust of Saratov meteorite using X ray analysis
01 p0160 A69-11385

Thermal and ablative lag induced by periodic heat input to oscillating flat plate in high velocity flow, showing crossover from dynamically stabilizing to destabilizing condition as oscillation frequency increases
04 p0685 A69-14720
[AIAA PAPER 67-336]

Graphite ablation in high pressure environments, extending existing analysis of thermochemical and thermomechanical behavior to include allotropic features
04 p0686 A69-14873
[AIAA PAPER 68-1153]

Ablation surface patterns and resulting roll torques and roll behavior of hypervelocity vehicles
06 p1036 A69-18051
[AIAA PAPER 69-180]

Charring phenolic nylon ablator material pyrolysis and surface recession for cyclic and constant combined convective and radiative heating
06 p1036 A69-18055
[AIAA PAPER 69-151]

Low temperature simulation of hypersonic melting ablation and wave patterns of gas-liquid interface
06 p0907 A69-18064

Dynamic stability loss on ablating vehicles ascribed to boundary layer transition effect from turbulent aft body heating
06 p1037 A69-18087
[AIAA PAPER 69-106]

Graphite ablation in air, N, Ar and He assuming chemical equilibrium, equal diffusion coefficients and steady state ablation
06 p0947 A69-18155
[AIAA PAPER 69-148]

Ablation rate of Saint-Severin amphoterite based on heavy primary cosmic ray track densities in surface samples
08 p1406 A69-20933

Current sheet velocity in coaxial plasma accelerator, noting drag due to insulator ablation and degassing
09 p1566 A69-21258
[AIAA PAPER 69-265]

Oxygen depletion effect in chemical reactions between pyrolysis gases and air stream on surface recession of charring ablators
09 p1622 A69-21982
[AIAA PAPER 68-302]

Sample data reduction methods combined in special purpose computer for measuring ablation in reentry vehicle heat shields
10 p1660 A69-23290

Iron and stone meteorites ablation using electrodeless plasmatron and filmed onto IR films
15 p2697 A69-31252

Subliming ablation effects on boundary layer transition for cones in hypersonic flow, discussing Reynolds numbers measured in wind tunnel tests
16 p2732 A69-31881
[AIAA PAPER 68-40]

Steady inviscid compressible flow past wavy wall with simulated ablation, studying reflections effect on relationship between surface pressure and wall geometry
16 p2770 A69-31909

Saint-Severin amphoterite geometrically reconstructed from fragments in form prior to atmospheric breakup, noting agreement with track densities of iron ions
19 p3416 A69-36128

Polytetrafluoroethylene ablation in high temperature argon, nitrogen, air and oxygen jets, discussing electric heater and heat flux measurement
20 p3632 A69-37522

Dynamic model of ablation pitching moment derivative and time lag effect on spinning reentry vehicle applied to Black Knight flight results
24 p4245 A69-43249

Solid fuel ablation by nitric acid, controlling reaction interface displacement rate by mass and heat transfer phenomena
24 p4363 A69-43568

Solid fuel ablation and supersonic combustion processes for various propulsion configurations, testing plastic models in wind tunnel
24 p4414 A69-43569

Apollo afterbody heat transfer, studying ablation effects for various reentry angles of attack
24 p4415 A69-43680

ABLATIVE MATERIALS

Ablative heat shield materials for Mars and Venus atmospheric entries
02 p0333 A69-11750

Thermal protection by ablation calculated, emphasizing blocking phenomenon and effectiveness of laminated and reinforced resins
02 p0351 A69-11890

Ground simulation of reentry observables with ablation, studying ablation products interaction with flow-field of wave superheater hypersonic tunnel
02 p0229 A69-12502

Rapidly heated ablative reinforced plastics strength and stress-strain properties, considering heat shield designs
02 p0347 A69-12512

Apollo thermal protection system, noting low density ablation, flight and ground tests
03 p0519 A69-13558
[AIAA PAPER 68-1142]

Make wire, light pipe and spring wire ablation sensors development for measuring parameters of heat shield materials for reentry vehicles
04 p0602 A69-15428

High temperature directional reflectance measurements of ablative materials as function of sample temperature using paraboloid reflectometer
04 p0604 A69-15512
[AIAA PAPER 68-25]

Low density polyurethane foam with and without honeycomb as ablative material for reentry vehicles, discussing oxidation resistance
04 p0688 A69-15513

Ballistic range tests to study ablation effects on aerodynamic characteristics of ablating and nonablating slender cones
06 p1036 A69-18083
[AIAA PAPER 69-179]

Radiation profiles in ablating flat plate air- Teflon laminar boundary layer, discussing visible, UV and IR wavelengths
06 p1037 A69-18086
[AIAA PAPER 69-99]

Ablative and insulative performance of reference heat shield materials under transient heating simulating ballistic vehicle reentry trajectory, using plasma jet facility
06 p0907 A69-18110
[AIAA PAPER 69-150]

Thermal radiative reflectance characteristics of low density charring ablators subjected to planetary entry environment simulation
06 p0947 A69-18148
[AIAA PAPER 69-61]

Thermochemical and mechanical ablation mechanisms for Apollo heat shield material, comparing surface thermochemistry computer program and arc plasma tunnel data
06 p1038 A69-18149
[AIAA PAPER 69-98]

Pyrolytic carbon felt composite development and properties, measuring and tabulating mechanical, thermal and ablation properties
09 p1530 A69-22364

Stagnation point heat transfer for thin ablative coatings on sounding rockets in continuum supersonic and hypersonic flight regimes
10 p1808 A69-22934

Nozzle ablations based on chemical mechanism, discussing pure or reinforced phenolic resin
11 p1999 A69-24908

Ablation cooling application to aerodynamic heat shielding, discussing various materials, sublimation, rocket probe ascents, satellites and experimental aircraft
12 p2011 A69-25854

Nozzle erosion profile, char penetration and temperature response predicted for nozzle material for 260 SL-3 motor
12 p2118 A69-26784
[AIAA PAPER 68-504]

Ablation characteristics of heat shield materials measured in arc heated wind tunnels, considering influence of model scale, heating rate and pressure level
12 p2119 A69-26813

Ablation performances of asbestos phenolic and silica phenolic compared at higher stagnation pressures in wave-superheater hypersonic tunnel
12 p2119 A69-26814

Ablation test specimen environment at high temperature, analyzing laboratory heating, pyrolysis gas
12 p2119 A69-26814

diffusion, convective heating, critical stress and temperature profiles, etc
12 p2191 A69-26815

Ablation wedge model design for testing in wave superheater under controlled pressure gradients and constant temperature
12 p2059 A69-26816

Heating facility for testing ablative heat shield material models in combined convective and radiative heating environment with constant or transient heating conditions
13 p2243 A69-28278
[AIAA PAPER 69-342]

Passive temperature indicators for maximum temperatures attained within rocket nozzle ablative materials
15 p2613 A69-31271

Ablation injectants effect on supersonic stream pressure distribution inside cavity and upstream boundary layer velocity profiles
16 p2770 A69-31902

Ablative materials in hydrogen/oxygen thrust chamber using expansion nozzle to substitute regenerative thrust chamber assembly
16 p2747 A69-32702
[AIAA PAPER 69-442]

Nozzle throat ablative materials for controlled high regression rates in tactical rocket motors, primarily nylon reinforced thermosetting resins
16 p2804 A69-32710
[AIAA PAPER 69-423]

Metallic aerosol generator application in shock tube spectrometric measurements of radiation by molecules occurring as solids before decomposition to vapor phase
18 p3099 A69-34461

Glass overlaid B filament laminates interleaved with C and silica fabrics, evaluating ablative properties in solid rocket motor tests
19 p3354 A69-35515

Ablative materials thermal protection characteristics at low heating rates evaluated by convective heating tests, stressing polyurethane foam composite
19 p3557 A69-35536
[AIAA PAPER 69-151]

Ablative materials for solid rocket nozzles, discussing static firing tests, rating system, equipment design and cost reduction
19 p3357 A69-35537

Ablation heat shields, emphasizing dielectric low cost fabrication and application to entry vehicles
19 p3318 A69-35538

Flash X ray unit with special film transport devices to obtain sequenced dynamic radiographs of ablating models during reentry simulation tests
19 p3291 A69-35720

Ablating sphere viscous wake using image converter camera, computing luminance radial distribution by unit volume
19 p3306 A69-35739

Microwave-plasma interaction instrumentation for supersonic channel constructed to investigate turbulent boundary layers formed over ablating heat shield materials
19 p3294 A69-35754

High temperature materials for aerospace and spacecraft applications, considering carbon/carbon composites, oxides, carbides, fibers and ablative systems
19 p3346 A69-36320

Spectral emissivity measurement of ablating phenolic graphite heated by subsonic air stream to high temperature to simulate reentry condition
20 p3565 A69-37187

Ablation effect on heat transfer coefficient of carbon, silica and ceramic cloths impregnated with phenolic resin subjected to torch testing and motor firing
21 p3753 A69-39800

Speed conditions of environmental simulation of thermal scale models of reentry vehicles, considering ablative with phase-change and involved chemical reaction
22 p3922 A69-40384
[AIAA PAPER 69-1011]

Line source technique for ablative heat shield materials thermal conductivity measurements, comparing vacuum and atmospheric test results
22 p3922 A69-40386
[AIAA PAPER 69-1013]

Low density polybenzimidazole composites as ablative heat shields, discussing arc-heated wind tunnel tests of linear and crosslinked structures
23 p4179 A69-41715

Diamond shaped surface ablation patterns development mechanism for several ablation materials of ground test and recovered flight vehicles
23 p4059 A69-41891
[AIAA PAPER 68-671]

Carbon fibers and resin composites used as rocket motor systems ablative liners and structures, noting role in motor weight reduction

24 p4336 A69-43210

Dry ice ablating models for unheated supersonic and hypersonic wind tunnel tests, noting mass addition rate extension

24 p4297 A69-43255

Charring ablator char zone nonequilibrium flow and chemical reaction kinetics as function of temperature, using thermal environment simulator

24 p4409 A69-43512

Solid fuel ablation by nitric acid, controlling reaction interface displacement rate by mass and heat transfer phenomena

24 p4363 A69-43568

Diamond shaped striations development mechanism on ablative heat shield materials exposed to supersonic flow and turbulent boundary layers

24 p4248 A69-43598

ABLATIVE NOSE CONES

Ablation rate optical measurement near stagnation point of Teflon cylinder models, noting effect of nose curvature and temperature at supersonic speed

01 p0006 A69-10758

Unsteady aerodynamics of ablating flared reentry body, noting complications due to blunted nose shear flow and entropy gradient effects

02 p0189 A69-12524

Nosetip cooling system based on discrete subsonic forward liquid injection through ablative nosetip opening of blunted reentry vehicle

03 p0532 A69-13559

Charring phenolic nylon ablator material pyrolysis and surface recession for cyclic and constant combined convective and radiative heating

06 p1036 A69-18055

Nose cone reentry simulation under low temperature subliming ablators, discussing dry ice, camphor and steel calibrations models fabrication, instrumentation and boundary layer measurements

06 p0929 A69-18098

Ballistic reentry vehicle roll-pitch coupling, showing influence of nose asymmetries

06 p1018 A69-18156

Heat and mass transfer conditions in ablation of shear thinning and thickening fluids at stagnation point

13 p2374 A69-27778

Shape and surface roughness effects on turbulent ablation of reentry body nose tip, noting recession rate

17 p2952 A69-33435

ABNORMALITIES

NT MAGNETIC ANOMALIES

Boundary value problem solved for free air geoid, developing expressions for height anomaly from free air anomalies

07 p1129 A69-19396

Isotropic ideal bidimensional filter in interpretation of anomalous gravity fields, especially for separating local and regional effects

21 p3724 A69-39246

Statistical characteristics of linear transformations of gravity field anomalies by linear operators, noting computation of covariance function

21 p3716 A69-39247

Anomalies of isotropic cosmic ray secular variations at high latitudes based on supermonitor neutron data

23 p4206 A69-41854

ABORT APPARATUS

Crew survival insurance under emergency situations during manned space flight, discussing Apollo abort system refinements

24 p4272 A69-42848

ABORT TRAJECTORIES

Moon to earth trajectories analyzed numerically to determine effect of specified earth entry conditions on hyperbolic elements near moon for abort

20 p3595 A69-37174

ABORTED MISSIONS

Agreement on Rescue and Return of Astronauts and Return of Objects Launched into Outer Space, discussing unintended landing

20 p3636 A69-37113

Moon to earth trajectories analyzed numerically to determine effect of specified earth entry conditions on hyperbolic elements near moon for abort

20 p3595 A69-37174

Abort capability mission selection criterion, evaluating energy requirements, Mars flyby and velocity contours

21 p3805 A69-39209

Secondary or abort mission maximized subject to primary mission constraints by variational treatment of optimal branched trajectories

[AAS PAPER 68-138] 21 p3819 A69-39210

ABRASION

Hydrogen effects on ELI Ti-Al-Sn alloy, conducting tensile, fretting and abrasion tests on stressed and thermal cycled specimens

[AIAA PAPER 69-585] 16 p2803 A69-32760

ABRASION RESISTANCE

Yielding of matrix material and cell size of substructure relationship to dry abrasion resistance of SAP type aluminum alloy at room temperature

08 p1319 A69-19995

Abrasive wear model leading to abrasive wear equation and empirical findings on relative abrasive wear resistances

13 p2265 A69-27233

Friction wear of solid bodies based on microscopic contact system model, deriving particle distribution law from physicochemical analysis

13 p2268 A69-28051

Abrasion and corrosion resistant Cr-Co-B cast alloys in aggressive media, concluding resistance is due to chromium boride and fine dendritic structure

19 p3347 A69-36742

ABRASIVES

Abrasive wear model leading to abrasive wear equation and empirical findings on relative abrasive wear resistances

13 p2265 A69-27233

Lamellar solids abrasiveness, effects of particle shape in graphite and molybdenite samples

22 p3966 A69-39877

ABSCISSAS

U COORDINATES

ABSOLUTE TEMPERATURE SCALES

U TEMPERATURE SCALES

ABSORBERS [EQUIPMENT]

Parallel damped dynamic vibration absorbers, modifying conventional absorber by adding subsidiary undamped absorber mass

[ASME PAPER 68-WA/DE-6] 05 p0839 A69-16171

Parallel damped dynamic vibration absorbers, modifying conventional absorber by adding subsidiary undamped absorber mass

[ASME PAPER 68-WA/DE-6] 13 p2360 A69-27422

ABSORBERS [MATERIALS]

NT SOLAR ENERGY ABSORBERS

Optical pulse generator consisting of solid state laser with saturable absorber at cavity end using perturbation theory and Maxwell equations

01 p0089 A69-10179

Scattering from coated absorbing conducting bodies, considering flat plane and curved surfaces in Rayleigh region

03 p0384 A69-12908

Amino alcohol regenerable absorbers of carbon dioxides toxicological characteristics, discussing absorbing ability in rats

10 p1646 A69-23502

Traveling wave passive Q switched laser with bleachable absorber filter, analyzing unsteady processes without expanding field along natural resonator modes

10 p1705 A69-23949

Q switched carbon dioxide laser power increased by placing bleachable /boron tetrachloride/ filter in resonator

11 p1894 A69-24454

Absorption characteristics of thin metallic films in standing light wave for mode selection and conversion in lasers

12 p2104 A69-26024

Cosmic ray postinteraction nuclear active particle energy spectrum measurements with ionization calorimeter, noting energy underrating

13 p2331 A69-28392

Passive mode locking of pulsed Nd-YAG laser using saturable absorber, noting two photon fluorescence contrast ratio

16 p2797 A69-32019

Ruby laser resonator losses resulting from changes in mirror transmittance or inclination, or introduction of bleachable absorbers

19 p3331 A69-35863

Emission kinetics of passive Q switched laser without constraints on relaxation time and switching characteristics of absorption centers and medium

21 p3740 A69-39550

ABSORPTANCE

Solar absorptance, total hemispherical emittance and absorptance/emittance ratio for metals at cryogenic temperatures measured simultaneously with sinusoidally perturbed incident radiation

01 p0176 A69-10847

Energy characteristics of laser with passive Q switch, taking into account internal reflections

02 p0256 A69-11999

Aircraft measurements of stratus cloud absorption and albedo and earth surface albedo

04 p0627 A69-14914

Solar absorptance and hemispherical emittance of metals at space conditions determined with cyclic incident radiation technique

[AIAA PAPER 69-60] 06 p0945 A69-18154

IR absorptance of CO below room temperature, determining strength and half widths of lines in R branch of fundamental band

07 p1183 A69-19644

Optimal thickness of inhomogeneous absorption layer subjected to normally incident plane monochromatic wave treated as Mayer-Boltz variational problem

13 p2297 A69-27381

ABSORPTION COEFFICIENT

U ABSORPTIVITY

ABSORPTION CROSS SECTIONS

Absorption cross section for 68 Mev positive pion absorption by $1p\ 3/2$ neutron in C^{12} nucleus followed by single proton emission at 11 degrees

02 p0282 A69-11460

Radiation attenuation cross sections of monatomic and diatomic xenon gas from UV absorption measurements near resonance line

02 p0284 A69-12551

Very thin short metallic filament scattering and absorption cross sections for various values of filament conductivity

03 p0395 A69-13623

Pulsed electromagnetic signal reflection from plane boundary of absorbing medium

03 p0397 A69-13711

Photodissociation and photoionization of diatomic molecules at high temperatures with calculation of absorption cross sections

03 p0473 A69-14147

Autoionizing states effects on absorption cross sections for ejection of outer subshell electron from atomic oxygen

04 p0633 A69-15127

Transmittance and absorption cross sections of carbon particles suspended in flowing stream of nitrogen gas

06 p1034 A69-17804

Hydrogen molecule spectroscopy in vicinity of ionization limit, determining absorption and ionization cross sections and fluorescence

07 p1184 A69-18490

Hydrogenic approximation validity in evaluation of atomic energy levels and radiative absorption cross sections for computation of stellar opacity

07 p1223 A69-19626

Effective cross sections of UV radiation absorption by molecular oxygen in Schumann-Runge bands at high temperatures

11 p1921 A69-24617

Boron 10 absorption cross sections from counting ratios measurements of boron trifluoride proportional counter used to monitor neutron fluxes

17 p3008 A69-33753

Atmospheric ionization rates due to attenuation of 1-100 A nonflare solar X rays, giving solar fluxes and absorption cross sections

22 p4004 A69-40447

Cross sections of charge carrier capture by ions in gamma irradiated P-Al-Si glass with metal oxides additions measured for evaluating radiation stability improvement

23 p4180 A69-42470

ABSORPTION SPECTRA

NT FRAUNHOFER LINES

NT HERZBERG BANDS

NT TELLURIC LINES

Intrinsic absorption temperature dependence in doped p-InSb, discussing forbidden transitions

01 p0136 A69-10255

Methane IR absorption band centered near wavenumber 9050, noting R branch features and fine structure

01 p0023 A69-10289

Continuous and time-resolved absorption and emission spectra studies produced by exploding wires in

gases, discussing effects of environment, pressure and electrical energy

01 p0118 A69-10664

Copper exploding wire Kerr-cell time-resolved absorption spectra analysis, considering copper atom transition

01 p0118 A69-10665

Statistical band model and line by line calculations of transmittance for IR bands in absorption spectra of ozone and water vapor

[AFCLR-68-0505] 01 p0124 A69-10919

Spectral absorption curves of hematoxylin stains in stained tissue sections of rat thyroid

01 p0015 A69-10924

Total atmospheric moisture content by measuring radio wave absorption at water vapor molecule rotational spectrum absorption line

02 p0274 A69-11438

Atmospheric water vapor content from summer-fall 1966 measurements of atmospheric radio wave absorption of thermal radio emission, describing experimental apparatus

02 p0274 A69-11439

Nitrous oxide absorbance, deriving analytical expressions for transmission spectra

02 p0236 A69-11452

Ebert spectrometric experiment during Mars flyby aimed at detecting upper atmosphere atoms, ions and molecules in 1100-4300 angstrom spectral range

[AAS PAPER 68-184] 02 p0311 A69-11469

Absorption oscillator strengths of Ba 2 lines in UV and visible spectral regions, using cascade arc in argon with barium vapor

02 p0242 A69-11872

Absorption and emission redshift distribution in quasars, N systems and similar compact and radio galaxies

02 p0325 A69-12591

Stellar spectra observed with 2.8-14 micron IR spectrometer, noting broad absorption feature near 5 and 8 microns

02 p0327 A69-12713

Oscillator strength determination for Schumann-Runge band system in molecular oxygen

02 p0284 A69-12832

Molybdenum interband transitions noting low energy optical property anomalies and origin of two absorption bands

03 p0442 A69-12986

Radiation absorption variations in KC-19 CdSe glass during ruby laser radiation, noting microcrystals and nonlinear effects role in determining optical properties

03 p0436 A69-13036

Rapid recording microspectrophotometer for IR to UV absorption spectra of living cells, cell organelles and half micron diameter particles

03 p0428 A69-13109

Astronomical needs for atomic spectra, discussing emissions in Wolf-Rayet lines and Of stars and forbidden lines in absorption in sun and F-K stars

03 p0508 A69-13172

Molecular O 0.7620 micron absorption band in pure O and air, noting rotational lines mean half width and lower atmosphere transmission function

03 p0458 A69-13272

Telluric lines halfwidth and depth dependence on observation point altitude and intervening air mass, determining absorption line contours for isothermal atmosphere

03 p0512 A69-13695

Absorption and IR emission of nickel and cobalt doped alkali halides

03 p0490 A69-13941

Empirical growth curve determined by using equivalent widths of absorption lines of quasar 3C 191, concluding ionization is mainly due to collisional processes

03 p0514 A69-13962

Absorption oscillator strengths of S 1 and S 2 lines between 1100 and 2000 A, using arc burning light source

03 p0479 A69-13968

Optical absorption of thin film cesium between 2300 and 11000 A

03 p0491 A69-14060

Optical absorption of vacuum deposited thin rubidium films, noting similarity to sodium and potassium

03 p0491 A69-14114

Energy structure parameters for ZnTe-CdTe and ZnSe-ZnTe crystals, obtaining forbidden bandwidth dependence on composition

03 p0492 A69-14173

Mossbauer spectra of shocked and unshocked iron meteorite and fayalite

03 p0517 A69-14231

Atmospheric refractive index for IR radiation in one to six micron region

04 p0591 A69-14300

Inner corona Fraunhofer lines invisibility at solar eclipses, emphasizing uncertainty of photospheric absorption lines appearance as electron scattering

04 p0654 A69-14628

Dark equatorial belt of Jupiter atmosphere in 1962 and 1963, noting photometric contrasts, molecular absorption and possible structure

04 p0658 A69-14961

Taurus A 21 cm absorption line frequency decrease during optical path approach to sun, discussing gravitational and electromagnetic origin

04 p0661 A69-15148

Emission lines structure in quasar spectra, analyzing problem of weak absorption lines identification

04 p0662 A69-15236

Nanosecond range flash photolysis technique and application to absorption spectra of excited singlet states

05 p0760 A69-15608

Laser photolysis and spectroscopy for photographic recording of absorption spectra of transient intermediates in nanosecond reactions

05 p0772 A69-16025

Photoelectric absorption studies on molecular nitrogen indicate predissociation contributing to atomic nitrogen production in upper atmosphere

05 p0756 A69-16282

Upper limit of nonradiative relaxation time between specific states of absorption bands and fluorescence state emitting R lines in ruby laser

05 p0777 A69-16335

Continuum position location and total line absorption in solar spectrum, using Houtgast high dispersion intensity measurements of UV region

05 p0828 A69-16611

IR radiation attenuation in transparency windows of atmosphere, using searchlights as radiation sources

05 p0760 A69-16695

Oxygen absorption coefficients for atomic silicon in spectral range of Schumann-Runge bands

06 p0960 A69-17090

Oxygen line absorption at elevated temperatures in Schumann-Runge system, estimating line widths

06 p0962 A69-17803

Lunar occultations of galactic center region observed at 1667 MHz indicating OH absorption origin in uniform rotating cloud

06 p1009 A69-17961

Semiconductor lasers, discussing electron transitions, radiative band-band transitions, emission and absorption spectra, recombination rates, carrier lifetime and lasing conditions

06 p0937 A69-18009

Water vapor absorption line for nitrogen and oxygen mixtures with frequency measurements at various pressures and temperatures, discussing attenuation and line breadth

07 p1184 A69-18911

Organic dye lasers characteristics, describing broad continua production for nanosecond absorption spectroscopy

[IEEE PAPER A-3] 07 p1150 A69-19047

He-Ne laser self locking of modes and spectrum weeding out at small absorption

[IEEE PAPER G-13] 07 p1151 A69-19059

Absorption and emission spectra of ruthenium 2 complexes dissolved in rigid glasses, discussing crystal field theory and luminescence

07 p1200 A69-19219

Ce activated garnet crystals optical properties, noting IR and near UV absorption spectra and room and low temperature fluorescence

07 p1201 A69-19647

Equivalent widths of K line of single ionized calcium and central depths of unidentified broad absorption in O and B stars spectra

08 p1389 A69-20250

Carbon dioxide absorption and emission in mesosphere, discussing vibrational relaxation time and radiative heating rate

08 p1308 A69-20308

Low latitudes observations of 21 cm line of H I in galactic center direction, giving contours maps of brightness temperature

08 p1392 A69-20562

Diffuse interstellar absorption bands and doublet line, noting large intensities of forbidden transitions

08 p1395 A69-20639

Doublet structure suppression in mixtures of cesium and foreign gases, discussing absorption observations

08 p1356 A69-20736

Optical depth determination in absorption lines of interstellar neutral hydrogen clouds by spectral observation of variable intensity radio sources

08 p1398 A69-20774

Atmospheric molecular oxygen temperatures from photoelectric recordings of absorption bands, analyzing relaxation process and photoeffects in oxygen molecules

09 p1490 A69-21863

Lowest valence and Rydberg states assigned to ungerade singlet states in dipole allowed absorption spectrum of molecular nitrogen

09 p1542 A69-21916

Absorption red shifts in quasi-stellar source due to dead galaxies in cosmologically flat model of universe

09 p1602 A69-22228

Absorption red shifts in quasar spectra from spectroscopic observations of PHL 5200 and B194

09 p1604 A69-22271

Line blanketing for two level atom with spectral line formed in pure absorption and noncoherent scattering, studying wavelength and depth dependence

09 p1606 A69-22424

Fourth positive carbon monoxide system observed in absorption in vacuum UV region, discussing rotational and vibrational band structure

09 p1607 A69-22429

Intrinsic absorption temperature dependence in doped p-InSb, discussing forbidden transitions

09 p1559 A69-22648

Luminescence quantum yield in neodymium glass, noting independence to stimulating light frequency

10 p1702 A69-23211

Transitions between heavy hole and spin orbit split bands in uniaxially stressed Ge and GaAs, noting spectra for various temperatures and valence band parameters

10 p1745 A69-23359

Asymmetrical profiles of 4430 A interstellar absorption band, discussing stellar and electronographic spectra

10 p1781 A69-23676

Interstellar diffuse absorption bands due to resonance lines of impurity atoms trapped in low temperature hydrocarbon matrices

10 p1781 A69-23677

Reddened M supergiant 119 Tauri IR spectra and IR absorption by CO and SiO molecules in stellar atmosphere and silicate mineral in interstellar grains

10 p1786 A69-24104

Interstellar formaldehyde detection in absorption against galactic and extragalactic radio sources, discussing chemical evolution

10 p1786 A69-24108

Optical depth at under 110 A due to continuous absorption by N, O and Ne ions estimated in high excitation planetary nebulae

10 p1790 A69-24140

Tunable Fabry-Perot interferometer for photoelectric measurements of absorption and emission line contours and line center particle concentrations

10 p1698 A69-24212

Monograph on laser spectroscopy in megahertz range covering spark photography comparison, concept of modes, resonators, applications, etc

11 p1893 A69-24368

Methane absorption distribution in 6190 A band over Jupiter disk based on spectrograms, noting center to limb variations

11 p1960 A69-24730

Methane absorption distribution in 6190 A band over Saturn disk at center and polar latitudes based on spectrograms

11 p1960 A69-24731

Balloon-borne IR spectrometry to study atmospheric nitric acid vapor compared with absorption by ozone and methane

11 p1879 A69-25407

Image tube spectra observations of interstellar absorption band at 4430 A, noting emission band at 4400 A

11 p1965 A69-25658

Calcite IR absorption dependence on pressure, discussing calcite-aragonite transformation

12 p2141 A69-25783

Cyanogen band absorption in nuclei of elliptical and spiral galaxies derived from photoelectric measurements indicating rich metal content in central cores

12 p2153 A69-25803

IR absorption spectrum of Br-doped n-CdTe specimen, considering donor level transfer mechanism

12 p2142 A69-25979

IR absorbance data for atmospheres of ammonia and ammonia nitrogen mixtures at various wavelengths

- indicating absorption in strong line region for gas pressures used
12 p2132 A69-26247
- Shapes of extreme wings of collision-broadened carbon dioxide lines, noting absorption deviation from Lorentz-shaped lines
12 p2132 A69-26248
- Vibration and absorption bands in IR spectra of diborene hydrazine stabilized by boiling in benzene
12 p2027 A69-26917
- Quasar spectra, discussing 3C 345, 3C 191 absorption lines and model explaining quasar spectra
12 p2167 A69-27046
- Absorption line spectrum of quasar Ton 1530, discussing line widths and red shifts
13 p2334 A69-27306
- Statistical tests for cosmological hypothesis for origin of absorption lines in spectra of quasars, considering red shifts
13 p2334 A69-27307
- Rocket spectrographic observations of Alpha Virginis noting hydrogen Lyman absorption lines
13 p2338 A69-27555
- High dispersion classification of early K2-M6 giants of high and low velocity, using titanium oxide band strengths criteria tested by atomic lines estimation
13 p2338 A69-27556
- Line absorption effect on opacity and main sequence model stars noting luminosity, radius and mass of convective core
13 p2340 A69-27578
- Fine structure of absorption lines of circumstellar Ca ejected from Nova Delphini 1967, determining ejection dates and photospheric radius
13 p2346 A69-27709
- GaSe, GaSe and InSe crystals band structure from analyzing reflection spectra, noting sensitivity to visible, IR and hard radiation
13 p2317 A69-27883
- Supplementary absorption and Hall effect temperature dependence in solid solutions of gallium arsenic phosphide
13 p2318 A69-27894
- Molecular O 0.7620 micron absorption band in pure O and air, noting rotational lines mean half width and lower atmosphere transmission function
14 p2487 A69-28780
- CdS single crystals spectral dependence of photocurrent, photoconductivity quantum yield and photoelectromotive force in exciton absorption region
14 p2504 A69-28990
- Ruby laser beam effects on CdS crystals optical properties, measuring absorption spectrum and light dispersion in crystal
14 p2457 A69-28999
- Absorption band observation near 0.43 μ in solar spectra and scattered radiation of sky, determining nonelluric origin
14 p2441 A69-29407
- Absorption band edge position in p type indium antimonide thin films after heating, showing forbidden bandwidth function relationship to film thickness
15 p2666 A69-30044
- Spectral distribution of photosensitivity for p-n junctions in silicon doped GaAs, showing agreement with state density model and absorption data
15 p2666 A69-30067
- Spin temperature of interstellar neutral hydrogen calculated from 21 cm absorption spectra line profiles
15 p2681 A69-30411
- Cyanogen molecules increase attributed to nova shell compression from analyzing absorption spectrum of DQ Herculis 1934 after brightness maximum
15 p2688 A69-30558
- Submillimeter atmospheric absorption spectra, emphasizing absorption by isotopic and vibrationally excited forms of water molecules
15 p2568 A69-30699
- Quasar multiple absorption red shift lines caused by gas in extended galaxy halos, assuming broadened galactic cross section area
15 p2695 A69-30884
- Atomic H Lyman-alpha interstellar absorption line in theta Orionis spectrum, showing equivalent width relations to H column density and spin temperature
15 p2695 A69-30890
- Quasi-stellar and related objects emission and absorption red shifts tabulation suggesting absorption lines origin
15 p2701 A69-31532
- Supernovae spectra observation suggesting tracing as broad band interstellar absorption rather than emission features on continuum
15 p2701 A69-31534
- Calorimetric measurement of source and broadband spectral absorbances of spacecraft thermal control coatings during exposure to UV in vacuum environment
16 p2789 A69-31815
- Radio emission and absorption of cumulus and stratus clouds at millimeter and centimeter wavelengths, giving maximum SNR defined by brightness temperature
16 p2807 A69-32270
- Vertical ozone distribution from emission and absorption in 9.6 μ band determined during IGY in Switzerland
16 p2785 A69-32625
- Polymethine dyes in passive Q switches of neodymium lasers, noting effects of absorption band intensity, width and position on single pulse laser energy yield
17 p2983 A69-33968
- Quantitative IR spectral emissivity measurements of NO between 300-800 K made in absorption, correlating observed absorbance with optical path length and gas pressure
17 p3009 A69-34156
- Red shift table for six galaxies near Coma Cluster from spectrograms of absorption lines
17 p3044 A69-34182
- Absolute gf values for Fe I and Fe II lines between 3190 and 3315 Å measured by spectral absorption through shock heated gas containing Fe
18 p3175 A69-34304
- Dark equatorial belt of Jupiter atmosphere in 1962 and 1963, noting photometric contrasts, molecular absorption and possible structure
18 p3197 A69-34724
- Variation influence of total absorption to color excess ratio on galactic spiral structures indicating ineffective application of variable-extinction method to Q spectra
18 p3199 A69-34914
- High temperature air spectral absorption indices determined at different pressures and temperatures
18 p3231 A69-35122
- Fourier transform laboratory spectroscopy for absorption near earth atmosphere millimeter wave spectrum, discussing integrated absorption strength and dimeric effect
18 p3177 A69-35240
- Cloud layer multiple scattering in Jovian atmosphere, discussing influence on Lorentzian contour of planetary absorption lines
18 p3203 A69-35332
- Atomic and molecular absorption lines and width measurement in spectrum of WZ Cassiopeiae carbon star in visual and IR region
18 p3204 A69-35350
- Tau-luminescence in thin gamma-colored and uncolored ruby crystals containing Cr ions measured, discussing ions absorption spectrum changes
19 p3335 A69-36166
- Forbidden transitions in absorption spectra of sun and normal and peculiar stars
19 p3422 A69-36215
- Cadmium sulfide-selenide single crystals reflection coefficient polarimetric measurement, observing reflection peaks relationship to absorption spectral temperature dependence
19 p3391 A69-36607
- Spectral absorption coefficients and emissivities of thermodynamic equilibrium mixture of various combustion products at high temperatures, based on graphs
19 p3266 A69-36840
- Modular Michelson interferometer used as IR spectrometer for absorption and dispersion studies, describing instrument construction, range and accuracy
20 p3538 A69-37297
- Intensities of translational lattice mode absorptions of alpha phase solid molecular nitrogen in far IR, noting temperature dependence
20 p3579 A69-37346
- WY Gem star spectroscopic observation showing peculiarity about forbidden and absorption spectra superposition
20 p3598 A69-37464
- HD 200775 spectrum analyzed for absorption lines wavelengths and equivalent widths, noting role for NGC 7023
20 p3599 A69-37469
- Satellite onboard transmission measurements determining atmospheric water vapor influence on integrated refractivity at specific absorption line resonant frequency
20 p3545 A69-38097
- Ce II line reversal from absorption to emission in solar spectrum, noting reversal position dependence on wavelength and line source function scattering term
20 p3613 A69-38168
- Absorption spectrum of diatomic oxygen excited by AC silent discharge photographed with vacuum spectrograph, associating lines with Schumann-Runge band
20 p3581 A69-38276
- Atmospheric transmission determined in submillimeter solar radiation spectra using Bouguer law, identifying absorption lines in nocturnal and diurnal spectra
21 p3796 A69-38472
- Intensity integral inversion for Doppler core of strong solar absorption lines to obtain line source function for solar atmosphere
21 p3796 A69-38478
- Line statistics for representation of line absorption coefficient distribution for solar type stars
21 p3811 A69-38762
- Equivalent absorption line widths of supergiant B1 IA /kappa Cassiopeia/ tabulated with log NH content of atmosphere for various elements
21 p3803 A69-38844
- Spectral transmittance of mixture of carbon monoxide and nitrous oxide for overlapping absorption bands [AIAA PAPER 67-600]
21 p3819 A69-39013
- Nonograms for spectral transparency of atmosphere at 2.8-5.6 microns
21 p3759 A69-39117
- Absorption spectroscopy using resonance broadened atomic lines for two phase mixtures study
21 p3774 A69-39239
- Spectrophotometric analysis of interstellar absorption in direction of IC 1805 cluster, noting anomalies
21 p3814 A69-39576
- Absorption spectra from excited metastable states in tunable dye laser pumped atomic Ca, using fast flashlamp continuum
21 p3775 A69-39740
- Planetary spectroscopy with McDonald 107 inch telescope, discussing role of molecular and atomic absorption lines, line broadening, Doppler shifts and Rayleigh criterion
21 p3727 A69-39786
- Ti emission and absorption K spectra in Ti-Al intermetallics, suggesting hypothesis concerning long wave and fundamental subbands origin
21 p3749 A69-39787
- Singlet-singlet energy transfer kinetics dependence on emission and absorption spectra overlap via dipole-dipole interaction
22 p3895 A69-40056
- Total band absorbance of nonisothermal IR radiating gas, using wideband formulation of Curtis-Godson approximation and series expansion formulation
22 p3983 A69-40101
- Solar Zeeman triplet pseudo-pi-component at 5250 Å /Fe I/, using Unno theory to calculate visibility, contrast and displacement
22 p4019 A69-40289
- Absorption spectrum of CS atoms excited by electrical discharge and irradiated by monochromatic light and ionized by electron collisions
22 p3984 A69-40418
- King furnace absorption source used with spectrometer in relative oscillator strength measurement, with experiments on lines of Fe I
22 p4022 A69-40466
- Absorption and fluorescent spectra, relaxation times and quantum efficiencies measured for glasses doped with trivalent erbium, reviewing spectroscopic parameters involved with laser effect
22 p3962 A69-40476
- Absorption spectrum of NO molecule, analyzing f complexes electron structure, ionization potential and quadrupole moment
22 p3984 A69-40477
- Forbidden absorption bands of diatomic O in Ar continuum region, determining rotational constants of upper electronic states
22 p3896 A69-40479
- Jupiter spectrum observations in 2.8-14 micron range, describing absorption strength and brightness temperature, basing analysis on ammonia, methane and hydrogen absorption
22 p4028 A69-40662
- Molecular N UV spectrum at various pressures, showing absorption band dependence on pressure induced dipole transitions
22 p3986 A69-40723
- Amplification coefficient, luminescence power and spacing between Fermi quasi-levels in GaAs diode injection lasers, using spectral absorption dependence
22 p3965 A69-40801
- Absorption features of 21 cm neutral hydrogen line in part of Cygnus X and of W 49, showing equal velocity contour diagrams from right ascension scans
22 p4034 A69-41200

ABSORPTIVE INDEX

Absorption coefficient measurement for hydrocarbon gases for He-Ne laser beam at 3.39 microns, tabulating coefficients, noting variations from spectroscopic data
23 p4174 A69-42192

Absorption lines in stellar spectra and significance in cosmogony, discussing ionized Ca K line detection during delta Orionis study, K and H lines components, etc
24 p4383 A69-42999

Radiative transport in nongray cylindrical medium using total band absorptance
[ASME PAPER 69-HT-38] 24 p4411 A69-43534

Donor and acceptor impurity effect on absorption and reflection spectra of CdTe single crystals, analyzing In, Ga, S and Se
24 p4362 A69-43735

Optical properties of neodymium-doped YAG and glass laser materials including fluorescence lifetime and conversion efficiency, absorption spectra, sensitization effects, etc
24 p4329 A69-43751

Polycrystalline ammonium cyanide IR absorption spectrum as function of temperature, discussing ammonium ion hydrogen bonding to C or N atoms
24 p4280 A69-43809

ABSORPTIVE INDEX

U ABSORPTIVITY

ABSORPTIVITY

Optical absorption coefficients for triphenyl-methylarsonium tetracyanoquinodimethan complex single crystal, evaluating reflectance
01 p0140 A69-10934

Absorption coefficients of molecular oxygen at Lyman alpha line and vicinity measured by vacuum spectroscopy
01 p0076 A69-11230

Absorption coefficient of hydrazine and hydrogen peroxide determined with 2.5 angstrom bandwidth monochromator, giving results in graphical form
02 p0205 A69-11873

Thermal noise from passive linear multiports, noting influence of temperature and absorption coefficients
02 p0211 A69-12443

Linear absorption coefficient of semiinsulating Cr doped GaAs for IR carbon dioxide laser radiation, discussing lattice absorption mechanism
02 p0258 A69-12619

Ruby laser radiation nonlinear absorption coefficient measurement in CdS, ZnS and SiC semiconductor crystals, noting light limiting effects
03 p0436 A69-13038

Absorption coefficients of plasmas in capillary discharge tubes, discussing measurement using gas laser light source
03 p0442 A69-14218

Hydrogen spectral line broadening under combined action of ions and electrons, tabulating values for calculation of absorption coefficient
04 p0651 A69-14373

Continuous absorption of coefficient hydrogen-carbon plasma at 40,000 degrees K and 70 atm in 230-460 mm spectral range
04 p0639 A69-15371

Gas laser pulse induced attenuated and nonattenuated plasma radiation recording, determining absorption coefficients
05 p0762 A69-15900

Radiative heat transfer between parallel plates separated by nongray gas with picket fence absorption coefficient using integral equations
06 p1033 A69-17554

Radio wave absorption measurements in atmosphere at superhigh frequencies, considering earth radiation, antenna sidelobe anisotropy, instrument effects, etc
07 p1076 A69-18518

Hydrogen absorption coefficients, giving number densities in hydrogen gas or plasma for wide range of temperature and pressure
07 p1184 A69-19165

Stellar atmospheres radiative opacity, computing metal absorption coefficients
07 p1220 A69-19392

Ligand field transitions in tertiary phosphine and arsine complexes of ruthenium and osmium
07 p1075 A69-19483

Ruby absorption, fluorescence and lasing properties, calculating polarization effect on relative intensities and forms of R1 and R2 bands in macroscopic theory
07 p1201 A69-19646

Optical absorption index for molten beryllium oxide based on measurements of small beryllium/ solid propellant rocket motor exhaust plumes
08 p1351 A69-20149

Rational approximation for coefficients used in calculating hydrogenic photoionization Gaunt factors
08 p1354 A69-20153

Galactic clusters absorption, discussing optical thickness in blue and red light
09 p1587 A69-21356

Photocell base thickness for optimal power to weight ratio, noting photons spectral distribution and absorption coefficient dependence on frequency
09 p1443 A69-22719

Modified nonstationary method for determining materials absorptivity with respect to incident solar radiation through heating and cooling rate measurements
09 p1528 A69-22720

Plane and spherical albedos of planet surrounded by infinite optical thickness atmosphere, with application to Venusian atmosphere
10 p1776 A69-23210

Diffusion pump oil reflectance and absorption coefficients measured in three thicknesses using light source, monochromator and detector
10 p1725 A69-23647

Silicon dioxide coated Al reflectance, solar absorptivity and total normal and hemispherical thermal emissivity, noting application to satellite temperature control
11 p1918 A69-24835

Optical absorption cell with variable path length and temperature for measuring absorption coefficients of gases at low and high temperatures
12 p2093 A69-26482

Nuclear active cosmic ray component energy spectrum determined from calorimetric ionization burst measurements, discussing nuclear particle interactions absorption coefficients
13 p2331 A69-28393

Reflection and absorption coefficients analyzed for obliquely incident electromagnetic wave from magnetoactive plasma in constant parallel magnetic field
14 p2411 A69-28997

Reflection of electromagnetic wave from magnetoactive plasma at inclined incidence, finding reflection and absorption coefficients
14 p2417 A69-29661

Absorption coefficient in three microwave lines of O with different rotational quantum numbers calculated, examining Zeeman effect in geomagnetic field
15 p2597 A69-30941

Magneto-optical oscillation of absorption coefficient in semiconductors during direct electron transitions
16 p2824 A69-31574

Balmer line H alpha emission and absorption coefficients measured with hydrogen plasma generated in high current low voltage free burning arc
16 p2822 A69-32040

Continuous absorption of coefficient hydrogen-carbon plasma at 40,000 degrees K and 70 atm in 230-460 mm spectral range
16 p2822 A69-32118

Ozone absorption coefficients in vicinity of Hartley band maximum verified by photographic spectrophotometry
16 p2785 A69-32626

Normal and directional emittance for two dimensional emitting, absorbing and scattering semiinfinite plane slab based on Monte Carlo method compared with Bobco approximation
[AIAA PAPER 69-625] 17 p3005 A69-33301

Radio wave absorption in interstellar H I regions, considering mean absorption coefficient dependence on height above galactic plane, evaluating planar electron density
17 p3034 A69-33608

Energy dissipation in bonded structures, analyzing vibration damping, hysteresis loop and absorption coefficient dependence on deformation energy
17 p3066 A69-33943

Molecular gas absorption coefficient dependence on laser emission energy density, considering disturbed equilibrium distribution of molecules
17 p2983 A69-33973

Laser action in quantum system, analyzing absorption constant relation to spontaneous/ stimulated emission constants, energy level population inversion, pumping, etc
17 p2984 A69-34150

Galactic clusters absorption, discussing optical thickness in blue and red light
18 p3197 A69-34746

Hypersonic gas flow past blunt bodies valid for any optical thickness of gas, allowing for absorption coefficients dependence on temperature, pressure and frequency
20 p3457 A69-36993

Maser submillimeter emission lines used to determine atmospheric and water vapor absorption, noting role of pressure
20 p3553 A69-37296

Radiative energy transport quantities for hydrogen plasma including Plank and Rosseland mean absorption coefficients, discussing line and continuum radiation and optical limits
20 p3581 A69-37306

Bubble size and blood perfusion effect on gas bubbles absorption in tissues, noting decompression sickness
21 p3651 A69-38389

Line statistics for representation of line absorption coefficient distribution for solar type stars
21 p3801 A69-38762

Absorption constant and reflectivity coefficient on semiconductor samples with nonideally prepared surfaces, calculating measurement errors
21 p3782 A69-39240

Photoelectric measurements of UV absorption coefficients of high temperature air at specific temperature and wavelength ranges in pressure-driven shock tube
22 p4049 A69-40098

Absorptivity of nonuniformly heated thin walled cylindrical radiator with central radiating hole, calculated by forward-reverse and integral methods
23 p4238 A69-41332

Absorption coefficient measurement for hydrocarbon gases for He-Ne laser beam at 3.39 microns, tabulating coefficients, noting variations from spectroscopic data
23 p4174 A69-42192

Ionospheric radio waves constant absorption term obtained from sunrise and sunset data
23 p4127 A69-42424

ABSTRACTS

NASA scientific and technical information program for building technical data and literature repository for scientists, engineers and technical managers, describing IAA and STAR
[UN PAPER 68-95317] 06 p1043 A69-17068

World literature on boundary lubrication for machine design, giving 2711 abstracts and extensive bibliographies
11 p1891 A69-24925

ABUNDANCE

Age and initial helium abundance of stars in M15 globular clusters estimated from stellar evolution lifetime ratio
01 p0149 A69-10135

Solar copper abundance determined from measuring Cu I and 2 and resonance lines transition probabilities in electric arc emission under LTE conditions
02 p0204 A69-11456

Fraunhofer lines hyperfine structure effect on solar abundances of V, Mn, Co, Cu and Ba, calculating equivalent line widths by ALGOL program
02 p0311 A69-11458

Growth curve for analysis of stellar spectra, determining relative f values and abundance
03 p0508 A69-13174

Solar Fe abundance from photospheric permitted Fe and forbidden Fe II lines, noting equivalent widths of two Fe II lines
03 p0515 A69-14036

Solar wind abundance measurements at earth orbit related to solar corona
03 p0503 A69-14047

Spectra of close binary systems, analyzing abundance anomalies, noting metallicity results
05 p0822 A69-15854

Nitrogen abundances in chondritic meteorites determined by carrier gas fusion extraction
05 p0825 A69-16301

Stellar element abundance ratios determination using relative strengths of molecular lines or bands
06 p1003 A69-17320

Beryllium abundance in solar atmosphere from spectra observed at Oslo Solar Observatory
06 p1010 A69-17971

Metastable helium abundance in interstellar and intergalactic space, inferring low energy cosmic ray concentration
06 p1010 A69-17973

Element synthesis in stars of galactic halo as possible explanation for heavy elements presence in supermassive objects
07 p1219 A69-19296

Photoelectric observations for stars in and near galactic cluster NGC 3680, discussing age and metal abundance
08 p1384 A69-20054

- Element abundances in two horizontal branch A stars through coarse and fine spectroscopic analysis, noting metal deficiencies with respect to sun
08 p1385 A69-20061
- Curve-of-growth abundance analysis for main sequence lambda Bootis stars, suggesting type Ap star characteristics
08 p1385 A69-20062
- Cosmic ray nuclei energy spectra and abundances above 20 MeV/nucleon determined by OGO-1 satellite experiment, considering He, B, C, N, O, Ne, Mg, Si, Mn, Fe, Co and Ni
08 p1378 A69-20067
- Solar photosphere abundances of various heavy elements from photoelectric spectrometer measurements of equivalent width of known Fraunhofer lines
08 p1390 A69-20393
- Pu 244 and I 129 abundances in early solar system and continuous galactic synthesis model of element formation in stars
08 p1397 A69-20695
- Origin and distribution of elements - Conference, Paris, May 1967
08 p1398 A69-20892
- Galaxy formation from elements primeval abundance viewpoint stressing initial helium abundance
08 p1400 A69-20894
- S-process nucleosynthesis and temperature averaged neutron capture cross sections studied in relation to solar system, considering elemental and specific isotopic abundances
08 p1357 A69-20896
- Lead isotopes nucleosynthesis by three mechanisms and contribution of mechanisms to abundances, noting chronology in nucleosynthesis
08 p1357 A69-20897
- Formation ratios of light isotopes in spallation reactions compared to observed stellar and solar abundances of lithium, beryllium and boron, discussing astrophysical implications
08 p1401 A69-20902
- Solar system elements abundance compilation based on carbonaceous chondrites and nucleosynthesis in stars
08 p1401 A69-20903
- Chemical composition and element abundance in solar atmosphere and photosphere, noting solar absorption and emission and energy spectrum data
08 p1402 A69-20905
- Solar element abundances from nucleosynthesis standpoint, discussing measurements with high resolution spectrometer used in double pass with intermediate slit
08 p1402 A69-20906
- Present state of abundance determination in solar corona, discussing forbidden and UV lines analysis
08 p1402 A69-20907
- Chemical composition of atmospheres of oldest Galactic stars, considering element abundances, metal and helium content and nuclear activity of massive stars
08 p1402 A69-20909
- Abundance determinations and spectrum intercomparisons in late type peculiar stars, discussing carbon and heavy metal star classes
08 p1403 A69-20910
- Element abundances in magnetic stars, discussing Zeeman effect and anomalies in spectra
08 p1403 A69-20911
- Stellar abundances of lithium, deuterium, beryllium and boron indicating nonthermal atmospheric origin
08 p1403 A69-20912
- Primitive elemental abundances in solar system, discussing composition of sun, meteorites and lunar maria
08 p1403 A69-20914
- Antimony bromine and mercury abundances in meteoritic materials determined by neutron activation analysis
08 p1404 A69-20919
- Cometary origin of meteors and element abundance in primitive solar nebula, discussing neutron capture products in chondrites
08 p1406 A69-20930
- Chemical abundances in planetary atmospheres based on spectroscopic determinations, considering terrestrial and Jovian planets
08 p1406 A69-20934
- Geochemistry and element abundances for Henbury impact glass, Darwin glass and australites, noting evidence for meteorite impact on sandstone
08 p1407 A69-20937
- Statistical distribution of chemical elements average abundances in earth crust and meteorites and nucleosynthesis of elements under specific astral conditions
08 p1310 A69-20941
- Rare earths relative and absolute terrestrial abundances in shales, basalts, rhyolites and granites
08 p1310 A69-20942
- Earth crust transition elements distribution and abundance compared to rare earths
08 p1310 A69-20943
- Continental diabases and oceanic tholeiites in light of rare earth and barium abundances and partition coefficients indicating fusion process
08 p1310 A69-20945
- Abundance analysis of B3 V star in Orion association, noting titanium and strontium overabundance and oxygen underabundance
08 p1407 A69-21133
- Stellar abundance and origin of elements, discussing stellar atmospheres and gaseous nebulae spectral determination, chronology of galactic halo, etc
09 p1587 A69-21306
- Atmospheric models for metal deficient stars of K and G spectral type, studying reduced metal abundance effect on atmospheric structure
09 p1596 A69-22055
- Element abundances of sharp lined field early A stars using model atmosphere
09 p1600 A69-22198
- Primordial helium and horizontal branch star luminosity, obtaining luminosities in He burning phase for different He and metal abundances from models
09 p1601 A69-22211
- Hyperfine transition line of He 3 II for abundance in Messier 17 source by radio telescope
10 p1785 A69-24098
- Early F stars Li/Be abundance ratios estimation from change in solar Be abundance, discussing stellar Li isotopes ratios
10 p1785 A69-24099
- Nebular abundances allowing for temperature variations in nebula along line of sight, correcting changes in electron temperature along path of observation
10 p1787 A69-24116
- Models for emission line region of 3C 273, considering ionization distributions for estimation of relative abundances
10 p1790 A69-24137
- Initial Sr isotopic composition at time of planetary objects formation in solar system and precision measurements for age determination of basaltic achondrites
11 p1953 A69-24357
- Stellar evolution model for primeval He abundance in population II stars in globular clusters for big bang confirmation
12 p2156 A69-26228
- Atmospheric element contents of F stars of Cyg, Her and Boo, using Planckian gradients and computer calculations for growth curves of atmospheric models
12 p2157 A69-26335
- Element contents of supergiant HD 190603 atmosphere based on spectrophotometric analysis including temperatures, turbulent velocity, gravity acceleration and electron concentration
12 p2157 A69-26336
- Relative transition probabilities for visible Si atom lines, noting disagreement with LS coupling predictions and solar Si abundance determination
13 p2340 A69-27580
- Relative element abundances in Cyg, Her and Boo atmospheres, calculating curves of growth by Planck gradient method for stellar spectra
14 p2519 A69-29356
- Arcturus and solar rubidium abundance compared using Mount Wilson photographic spectrograms of Arcturus
14 p2522 A69-29589
- Heavy element abundances in peculiar A stars, investigating nucleosynthesis during massive stars evolution
14 p2527 A69-29945
- Supergiant HD-33579 in Magellanic cloud by model atmospheres, discussing abundances
14 p2529 A69-29979
- Validity range of nuclear quasi-equilibrium approximation for stellar silicon burning, discussing time rates of nuclear abundance changes and temperature effect
14 p2529 A69-29984
- Fe II forbidden lines profiles and equivalent widths prediction for solar photospheric spectrum, deducing photospheric Fe abundance
16 p2854 A69-31652
- Solar chromosphere metal abundance determined taking into account local thermodynamic equilibrium departures
16 p2855 A69-31657
- Stellar light element abundances, discussing evolution models for various star types
16 p2866 A69-32816
- Spectrophotometric characteristics of Serpents, high metallicity A2 star and standard F zero V 9 Aurigae, analyzing chemical composition, microturbulence velocity and abundance by detailed differential growth curve
17 p3039 A69-33728
- Photoelectric photometric stellar spectroscopy for calculating metal abundance from Fraunhofer absorption lines, relating results to star age
17 p3043 A69-34140
- Heavy nuclei origin based on empirical abundance distribution, discussing stellar, galactic and cosmic events for nuclear genesis
17 p3009 A69-34190
- RF recombination lines measurement of helium for abundance in nebulas, comparing optical and radio values for H II regions
18 p3190 A69-34293
- Ionization stratification and chemical abundances in planetary nebula NGC 7662, discussing density fluctuations effect on N II and O II lines
18 p3191 A69-34294
- Curve of growth analysis for close binary HR 5317 indicating Mg, Mn, Ca and Sr overabundance respecting standard star 110 Her
18 p3191 A69-34297
- Alpha Serpents spectrum study from model atmosphere and growth curves, finding metal abundance ratios five times as great as in Arcturus
18 p3200 A69-35130
- Meteorite and primordial matter composition related to possible fractionation processes influence, discussing nuclear species abundance
19 p3406 A69-36073
- Fractionation of abundant lithophile element ratios of Si, Mg, Ca, Al and Ti in carbonaceous, common and enstatite chondrites
19 p3409 A69-36087
- IR spectra of Eta Carinae, confirming nitrogen and sulfur abundance
19 p3423 A69-36229
- Atmospheric models for specified effective temperatures, hydrogen-to-metal ratios and surface gravities in studying metal deficiency effect on stellar atmosphere
19 p3425 A69-36338
- Solar rare earth abundances determined from high resolution tracings of solar spectrum, comparing results with nucleosynthesis theories
20 p3602 A69-37539
- Methane abundance and rotational temperature of Jupiter, considering effects of line saturation
20 p3613 A69-38174
- Revised solar iron abundance by photospheric Fe I lines analysis using Garz and Kock f values, noting influence on solar photospheric model
21 p3796 A69-38475
- Abundance compilations of elements due to nuclear processes, discussing carbonaceous chondrites character
21 p3789 A69-38812
- Stellar lithium and beryllium, discussing production and destruction processes in stellar atmospheres and abundance in various stars
21 p3810 A69-39505
- Chemical composition of galactic and solar cosmic rays, discussing differences from universal cosmic abundances, using Cerenkov counters, emulsions, etc
22 p4002 A69-40090
- Cometary nuclei composition as last samples of early solar system composition, discussing dirty snowball model and radical lifetime problem
22 p4013 A69-40097
- Neutrons, protons and alpha particles abundance resulting from nuclear evolution of nondegenerate matter exploding at very high temperatures
22 p3980 A69-40148
- C, N and O abundances in K giants alpha Boo, beta Gem and epsilon Peg, noting stellar nuclear burning and evolution
22 p4026 A69-40653
- Relative abundances U-235/U-238, Th-232/U-238, Pu-244/U-238 and I-129/I-127 at solar system formation time to obtain time evolution of gamma process nuclei
22 p3986 A69-40766

AC [CURRENT]

Extraterrestrial objects composition in defining cosmic abundance curve, including solar and meteoritic data

22 p4032 A69-40982

A-type stars investigation for anomalous spectral line intensities, discussing Hertzsprung-Russell diagrams, rotational velocities, magnetic fields and abundances

23 p4218 A69-42322

Galactic evolution using concept of stellar populations and correlation with metal and He abundances

23 p4218 A69-42323

Photoelectric measurements of emission line intensities for low density planetary nebula with moderate excitation located near north galactic pole, deriving abundances

24 p4376 A69-42662

Fe abundance in sun and carbonaceous chondrites, noting agreement between solar and meteorite abundances of Ni, Mg, Si and Li

24 p4385 A69-43223

Nuclear theory of elements origin, discussing nucleosynthesis to interpret abundances

24 p4386 A69-43334

AC [CURRENT]

U ALTERNATING CURRENT

AC GENERATORS

Final stage of three phase DC/AC converter, noting three phase control circuit for power stages with germanium transistors

08 p1285 A69-20381

Sun-like alternating field generators, discussing dynamo theory of stellar and planetary magnetic fields based on nonmirror symmetrical turbulent motion in conducting fluid

10 p1782 A69-23703

Airborne static inverter, called Digital Inverter, for conversion of DC to AC, single phase and/or three phase, noting precise frequency control

[SAE PAPER 690339] 11 p1824 A69-24495

Liquid flow MHD alternating current generator design, considering induced current in rotor and resulting magnetic field in pole gap

13 p2206 A69-27495

Spray oil cooling to reduce aircraft generator weight, enhance reliability and lengthen overhaul intervals

15 p2552 A69-30326

Transient characteristics of three phase AC alternators with rectified outputs

17 p2905 A69-34089

Cost optimization in converting brush type to brushless aircraft AC power systems, using analog computer to determine modifications

17 p2905 A69-34109

Argon turboalternator design and testing for Brayton cycle space power system, discussing inlet operating temperature and shaft bearings and rotation

23 p4071 A69-42279

ACCELERATED LIFE TESTS

Accelerated reliability tests of electronic capacitors using voltage as main forcing factor, establishing correlations between lifetimes in accelerated and long term tests

09 p1464 A69-22244

Shock testing methods using shock spectrum concept and description testing machines and instrumentation

11 p1862 A69-24408

Accelerated structural tests under creep conditions, noting isothermal structures subjected to uniaxial and complex stress loads

12 p2186 A69-26838

Third generation computer reliability including preparation and test of integrated logic circuits

15 p2626 A69-30832

Accelerated temperature tests, calculating temperature behavior of hazard rates and activation energy from failure data using computer simulation

18 p3117 A69-34509

Accelerated test parameters estimated maximum intensity, studying temperature effects on test results

[AIAA PAPER 69-1036] 22 p3925 A69-40403

ACCELERATION [PHYSICS]

NT ANGULAR ACCELERATION

NT ARTIFICIAL GRAVITY

NT DECELERATION

NT GRAVITATION

NT HIGH GRAVITY ENVIRONMENTS

NT IMPACT ACCELERATION

NT LUNAR GRAVITATION

NT LUNAR GRAVITATIONAL EFFECTS

NT PARTICLE ACCELERATION

NT PHYSIOLOGICAL ACCELERATION

NT PLANETARY GRAVITATION

NT PLASMA ACCELERATION

NT REDUCED GRAVITY

NT SOLAR GRAVITATION
NT SPIN REDUCTION

Spacecraft motion parameters determination under controlled acceleration using information from inertial sensors

01 p0161 A69-10569

Growth rate of wave instability in conducting liquid jet in perpendicular electric field and accelerating under gravity

01 p0062 A69-11207

Nonstationary wing motion in gas stream near solid surface, analyzing differential equation for acceleration potential

02 p0188 A69-12134

Accelerated plate motion effect on flow of electrically conducting viscous incompressible fluid past infinite flat plate in uniform magnetic field

02 p0289 A69-12237

Symmetric baroclinic instability role in Jupiter equatorial acceleration

03 p0508 A69-13347

Lunar high density mass concentrations effect on Lunar Orbiters accelerations, discussing lunar gravity field determination

04 p0661 A69-15145

Acceleration wave propagation and growth in elastic materials, discussing thermodynamic influences

05 p0836 A69-15931

Axisymmetric vortex free motion of ideal fluid in conical container with spherical bottom under axial acceleration

06 p0910 A69-17335

Spacecraft trajectory during atmospheric reentry determined from projections of longitudinal acceleration onto coordinate axes connected with spacecraft

06 p1014 A69-17581

Motion of gyroscopic integrator of linear accelerations, analyzing nutational vibrations imposed on precession

06 p0927 A69-17688

Incompressible laminar Falkner-Skan boundary layer suffering sudden acceleration by moving belt, noting boundary layer separation

[AIAA PAPER 69-40] 06 p0912 A69-18049

Photographic study of burning metalized composite propellant under acceleration, noting burning rate augmentation by heat transfer from alumina particles retained on propellant surface

[AIAA PAPER 69-173] 06 p0983 A69-18151

Bow shock wave position and shape in rectilinear flight with constant acceleration

09 p1433 A69-21386

Acceleration effects on forced convection in turbulent boundary layer, noting heat transfer history and rates prediction

09 p1480 A69-21480

Earth ellipsoid fundamental parameters for calculation of earth flattening and normal acceleration due to gravity

09 p1487 A69-21633

Formation and acceleration of luminescent current layer in Z pinch discharge, noting density and electron mean free path in cold gas

09 p1552 A69-22397

Space flight fuel consumption optimization as function of acceleration of nozzle control

10 p1666 A69-22919

Combustion rates of condensed systems under positive and negative accelerations at atmospheric pressure

11 p2001 A69-25195

Inertial navigation platform principles including acceleration and position of vehicle, single axis platforms and stabilized element coordination

12 p2078 A69-25872

Optimal control for minimization of heating and acceleration forces to reduce kinetic energy of reentry vehicle in space missions

13 p2352 A69-27960

Optimal linear space navigation policies including integrated nongravitational acceleration output from inertial measuring unit

14 p2479 A69-29487

Parametric resonance motion in viscous fluid column in communicating vessels during vertical oscillations, calculating critical accelerations over viscosity range

14 p2432 A69-29628

Spacecraft motion parameters determination under controlled acceleration using information from inertial sensors

15 p2702 A69-30739

Shock waves from accelerated, decelerated and stationary axisymmetric bodies flying at supersonic velocities in stratified isothermal atmosphere

15 p2551 A69-31171

Doppler tracking data from Lunar Orbiter missions for studying lunar gravity anomalies, plotting acceleration on lunar surface Mercator projection

15 p2697 A69-31313

Equations for gradually changing motion by differentiating momentum and energy equations with respect to abscissa noting wall resistance, viscosity, turbulence and Coriolis coefficients

15 p2593 A69-31489

Accelerated boundary layers classified in terms of integral balance of pressure, inertia, wall friction forces and entrainment momenta

[AIAA PAPER 69-666] 17 p2955 A69-33462

Controlled-variable prediction display based on Taylor series computation, describing acceleration system simulator and human operator performance

19 p3313 A69-36414

Stratified fluid flow past obstacle, considering steady inviscid flow with nonlinear convection and vertical acceleration

19 p3240 A69-36474

Newton gravitational constant determination from measured acceleration and known magnitude of masses, describing control system

20 p3537 A69-37140

Geotropic response reciprocity in oat seedlings grown in two axis clinostat compared with acceleration constraints of biosatellites, considering imposition of centrifugal force

20 p3477 A69-37620

Hot star photogravitational acceleration determined from difference between apex and antiapex brightness, noting constant magnitude and direction of principal component of apex force

20 p3608 A69-38046

Fluid motion in free falling partially filled cylindrical vessel due to sudden vertical velocity change, considering free surface disturbances

21 p3692 A69-38684

Acceleration effects on solid propellant rocket motors combustion characteristics

[AIAA PAPER 68-530] 21 p3786 A69-39217

Field equations for electromagnetic radiation propagation in accelerated systems including dispersive and nonisotropic media

21 p3772 A69-39466

Boundary layer development on body accelerating in viscous incompressible fluid, using straight lines approximation and asymptotic expansions

22 p3929 A69-40110

Cumulative error in flight vehicle position determination by inertial navigation system, showing dependence on constant acceleration components

22 p3978 A69-40252

Gyroscopic motion with center of mass displaced along suspension axes and kinetic moment varying as power law under linear accelerations

23 p4163 A69-41552

Accelerated motion influence on onboard vertical gyro with design based on free astatic gyro with electromagnetic compensation

23 p4163 A69-41553

One dimensional shock waves and acceleration fronts in nonlinear isotropic viscoelastic materials using constitutive equations

23 p4235 A69-42463

Stress analysis of incompressible solid propellant rocket charges by point matching technique, considering differential thermal shrinkage and axial acceleration cases

24 p4402 A69-43263

Circulatory reactions of humans under g forces in centrifuge for various periods, with or without anti-g suit

24 p4267 A69-43385

ACCELERATION PROTECTION

G suit inflation acute and prolonged effects on cardiovascular dynamics in recumbent and passively tilted individuals

06 p0883 A69-17843

Active broadband vibration isolation of human subjects from severe vertical dynamic excitations experienced in low level high speed flight

[ASME PAPER 69-VIBR-65] 10 p1650 A69-24157

Vibratory acceleration limiting equipment attachment for resonance conditions, utilizing attachment stiffness reduction above predetermined value

[ASME PAPER 69-VIBR-23] 10 p1806 A69-24170

Antihypoxic preparations protective effect on white mice and rats subjected to gravitational accelerations

17 p2906 A69-32931

ACCELERATION STRESSES [PHYSIOLOGY]
NT CENTRIFUGING STRESS

Human body dynamic response to vibration combined with linear acceleration, noting changes in body mechanical impedance and resonance
 01 p0022 A69-11335

Physiologic and psychomotor changes during various acceleration stresses
 01 p0019 A69-11340

Insignificant or recoverable changes observed in blood acetylcholine content and cholinesterase activity of rabbits subjected to 8 g acceleration
 02 p0197 A69-11491

Hypokinesia and transverse accelerations combined effect on human cardiovascular system and regional blood circulation
 02 p0197 A69-11495

Human nervous system and vestibular and auditory analyzers functional changes under combined hypokinesia and radial accelerations effects
 02 p0197 A69-11496

Physiological studies of centripetal and Coriolis accelerations effects on vestibular function of humans in rotating chamber
 02 p0197 A69-11498

Control mechanisms of hemodynamic shifts from dogs subjected to acceleration under anesthesia
 02 p0198 A69-11503

Cerebellar cortex function disorders of rats subjected to 10 g acceleration under weak anesthesia
 02 p0198 A69-11504

1.5 g angular acceleration effects on acetylcholine metabolism in guinea pig brains and hearts
 02 p0198 A69-11505

Lateral acceleration effects on human kidney functions, noting increase in diuresis and erythrocytes in urine
 02 p0198 A69-11514

Neutral buoyancy microelectrode for prolonged recording from single nerve units
 02 p0202 A69-11865

X ray investigation of repeated simulated exposures to altitude and acceleration on healthy professional flyers
 03 p0378 A69-14208

Coriolis acceleration dosages applied in vestibulometric tests of male subjects inclined in rotating chair
 05 p0710 A69-16521

X ray study of biomechanics of respiratory act under long term acceleration stresses
 05 p0710 A69-16522

Cerebral circulation under longitudinal acceleration, discussing rheoplethysmographic measurements of heart rate
 05 p0710 A69-16625

Blood circulation in brain during acceleration analyzed by tensometric sensors and electroplethysmography, noting intracranial sensitivity to gravitational changes
 06 p0874 A69-17646

Cardiac arrhythmias during positive G sub x acceleration, treadmill exercise and tilt table testing
 06 p0874 A69-17834

Increased gravitational stress effects on esophageal sphincter pressures and gastroesophageal reflux in rhesus monkeys, noting cardia competence
 06 p0874 A69-17838

Sympathoadrenal activity during and after impact stress measured from urinary excretion of catecholamines and 17-hydroxycorticosteroids
 06 p0875 A69-17839

Autonomic nervous system in control of heart rate in acceleratively stressed monkeys, discussing sympathetic, parasympathetic and bradycardiac influence
 06 p0875 A69-17844

Manual performance of aircraft pilots under sustained acceleration using measurements of hand-writing pressure
 06 p0884 A69-18030

Abrupt deceleration effects on monkey heart rate, noting occurrence of relative bradycardia
 06 p0876 A69-18031

Rules for selecting Soviet cosmonauts and physiological studies concerning heart and respiratory reactions to accelerations and weightlessness during preparation
 07 p1060 A69-18569

Gravitational effects during physiological functions formation of human organism, noting myogenic tonus rearrangement as primary response
 07 p1060 A69-18572

Physiological reactions of dogs during acceleration and weightlessness in suborbital flights of ballistic rockets
 07 p1061 A69-18577

Human vestibular reactions during weightlessness preceded and followed by acceleration
 07 p1061 A69-18581

Vestibular-vegetative reactions during angular and Coriolis accelerations alternating with weightlessness, noting increased parasympathetic and sympathetic activity
 07 p1062 A69-18587

Oculomotor muscular tonus of rabbit during rocket flight acceleration and weightlessness
 07 p1062 A69-18590

Overt motion sickness prevention by incremental exposure to Coriolis accelerations
 07 p1067 A69-19425

Viscoelastic rod model of human spine subjected to accelerations
 07 p1072 A69-19725

Clinicomorphological changes in rabbit eyes vascular system by exposing transverse accelerations
 08 p1262 A69-19832

Transverse acceleration effect on male rabbit frontal hypothalamus nuclei neurosecretory function, noting blood plasma antidiuretic activity
 08 p1262 A69-19930

Long time physiological effects of rotating systems, surveying acceleration effects and rotation experiments on humans and rats
 08 p1265 A69-21183

Coriolis acceleration in rotating environment, discussing origins and role in human existence in rotating space station
 09 p1540 A69-21891

High gradient headward acceleration effects on acid base balance of baboons and human subjects, noting arterial changes
 09 p1444 A69-22540

Mathematical, physical and physiological modeling for analysis of functional changes during varying gravity conditions
 09 p1444 A69-22541

Increased chronic acceleration physiological effects on chickens, comparing hematological observations with exercise capacity, survival and sexual development
 10 p1641 A69-23041

Acceleration effects on cellular and subcellular structures enzyme activity in humans and animals, noting changes resulting from changed permeability of membranes
 10 p1645 A69-23496

Rats sensitivity to accelerations found dependent on excitation-inhibition ratio in central nervous system and hypophyseal-adrenal system reactions during acoustic excitation
 10 p1645 A69-23497

Transverse accelerations effect on dogs gastrointestinal tract secretory activity, noting central nervous system role
 10 p1645 A69-23498

Combined effect of prolonged bed rest and acceleration exposure on human blood circulation, noting increased heart rate and arterial blood pressure
 10 p1646 A69-23584

Chronic acceleration effects on erythrocyte number, plasma volume, globulin fractions, erythrocyte size and plasma A/G ratio in chickens
 11 p1828 A69-25458

Blind goldfish behavioral responses to short lowered gravitational force cycles during vertical flight classified as vestibular reflexes resulting from otolith displacement
 11 p1828 A69-25464

Motion sickness studied with slow rotation room having controlled Coriolis accelerations, discussing oculogyril illusion, nystagmus, dizziness and neuromuscular incoordination
 12 p2019 A69-26547

Prolonged iterative accelerations and decelerations on vestibular apparatus, discussing nystagmus measurement attempt and centrifugation tests on guinea pigs
 13 p2211 A69-28592

Posture role in physiological effects of acceleration on motor activity, discussing gravitational importance to vital processes
 13 p2211 A69-28593

Acceleration component in pelvis to head direction found influencing hyperemia of brain at various g forces
 13 p2212 A69-28626

Human motion coordination under acceleration followed by weightlessness during jet flights along Keplerian orbits, discussing initial disturbance and subsequent subsiding
 17 p2907 A69-32938

High positive g sub x acceleration effects on red cells destruction rate, measuring endogenous CO production of Gemini astronauts
 17 p2908 A69-33176

Transverse acceleration overstrain effect on mice sensitivity to cystamine
 17 p2909 A69-33386

Coriolis acceleration dosages applied in vestibulometric tests of male subjects inclined in rotating chair
 18 p3096 A69-34740

X ray study of biomechanics of respiratory act under long term acceleration stresses
 18 p3096 A69-34741

Combined angular and centrifugal acceleration effects on human and animal eyes motion studied to explain weightlessness effects on humans
 20 p3471 A69-37257

Vestibular analyzer dynamic characteristics under Coriolis acceleration, measuring heart beat rate, arterial pressure, head bending aftereffects, etc
 20 p3472 A69-37262

Motion sickness prophylactic action of sodium hydrocarbonate in dogs subjected to vertical accelerations, using intravenous administration
 20 p3473 A69-37269

Electrocardiographic changes during gravitational stresses
 21 p3660 A69-39178

Cerebellar cortex reactions to sciatic nerve stimulation in rats under transverse accelerations in centrifuge
 22 p3877 A69-40279

Human heart chronotropic reactions during centrifuge acceleration tests up to tolerance limit, establishing sinus tachycardia in various degrees
 22 p3877 A69-40283

Physical training effects under normal atmospheric pressure on high altitude hypoxia and acceleration resistance in rats, including survival times
 23 p4079 A69-41383

Sequential lung emptying at varying expiratory flow rates at increasing acceleration levels using expired nitrogen analysis
 23 p4083 A69-41448

Human angular acceleration sensitivity using rotation and oculogyril illusion perception as indicators, relating to spatial orientation and flight control task precision
 23 p4101 A69-41674

Jet pilot blood pressure response during positive acceleration in actual flight measured by telemetry compared with centrifuge test
 23 p4089 A69-41822

Acceleration effect on greyhound cardiac output and regional blood flow from Sapirstein radioisotope uptake technique, studying blood, skin, skeletal muscle, etc
 23 p4089 A69-41823

M-1 Valsalva maneuver induced cardiovascular stresses effect on oculobulbar vergence of subjects observing Thorington scale, discussing probable physiological mechanisms
 24 p4266 A69-43373

High intensity and short duration acceleration effects on human beings, discussing mechanical resistance of spinal column and circulatory aspects
 24 p4266 A69-43380

Stillbirth and neonatal death in stressed rats exposed to mild and acute gravitational loads in automobile ride and aircraft flight
 24 p4266 A69-43381

Radioisotopic determination of haemodynamic and bioelectric disturbances of rat striated muscles subjected to acceleration and hypokinesia
 24 p4268 A69-43409

ACCELERATION TOLERANCE

Space environment barriers to man due to biological evolution and transition from land to space in single generation, noting orientation problems
 03 p0380 A69-14067

Organic reaction and adaptation of rabbits and dogs to simulated weightlessness and acceleration compared with orbital flight data of human responses
 03 p0376 A69-14192

Impact/injury data used to estimate human tolerance to instantaneous accelerations
 04 p0552 A69-14469

Orthostatic intolerance, with assessment of circulatory problem of weightlessness in prolonged space flight
 06 p0873 A69-17016

Human acceleration tolerance dependence on age, profession and physical training from investigation of reactions to repeated centrifugal accelerations
 07 p1065 A69-18980

Human acceleration tolerance under reduced pressures corresponding to various high altitudes, noting visual disorders

07 p1065 A69-18982

Tilt-table and acceleration tolerance of athletes and inactive students, comparing cardiovascular responses, heart rate and blackout level
[DVL-834]

09 p1444 A69-21304

Dogs orthostatic tolerance and resistance to transverse acceleration after 14-day hypodynamia, studying tachycardia and arterial pressure

10 p1645 A69-23499

Rats tolerance to impact accelerations from blood enzyme activity providing safety limits for living organisms

10 p1645 A69-23500

Human resistance to short duration high accelerations applied to aircraft ejection studies, noting bone damage, consciousness retention, etc

13 p2215 A69-28591

Physical exercises to increase cosmonaut space environment tolerance, discussing effects of acceleration, altitude and hypoxia

15 p2560 A69-31460

Antihypoxic preparations protective effect on white mice and rats subjected to gravitational accelerations

17 p2906 A69-32931

Space research centrifuge counteracting null gravity physiological deconditioning, discussing linear and angular accelerations sensitivity and deconditioning effect on reentry task performance

18 p3114 A69-34368

Threshold variations in caloric nystagmus in pigeons subjected to accelerations in head to tail direction in centrifuge at various temperatures

20 p3471 A69-37252

Vestibulo-somatic, vegetative and sensory reactions to angular acceleration, deceleration and tilting, evaluating functional state of vestibular analyzer

20 p3481 A69-37270

Vestibular function tested with angular acceleration, applying semicircular canal reflexes for flight crew selection and appraisal

20 p3481 A69-37271

Human acceleration tolerance dependence on age, profession and physical training from investigation of reactions to repeated centrifugal accelerations

20 p3479 A69-38228

Human acceleration tolerance under reduced pressures corresponding to various high altitudes noting visual disorders

20 p3480 A69-38230

Healthy, physically untrained students compared with trained athletes for differences in working capacity concerning orthostatic tolerance and blood pressure responses

22 p3889 A69-39940

Healthy, physically untrained students compared with trained athletes for differences in working capacity concerning orthostatic tolerance and blood pressure responses

23 p4108 A69-41821

ACCELERATORS

Mechanical linear accelerator simulating acceleration, shock and weightlessness, noting data acquisition and interpretation

17 p2945 A69-33423

ACCELEROMETERS

Fluidic acceleration sensor based on vibrating string principle, discussing design, suspension system, driving-oscillator circuit, beat frequency circuit and detection circuits

02 p0249 A69-12091

Nonorthogonal multisensor strapdown inertial reference unit providing redundant capabilities and optimal performance

03 p0429 A69-13211

Controlled transient signal distortion by shock monitoring instrumentation circuits using piezoelectric accelerometers

04 p0603 A69-15430

Low g accelerometers including air-film, electrically suspended, vibrating string, semiconductor and ONERA [ONERA-TP-449]

05 p0766 A69-16749

Self contained electrically servoed transducers for flight control, noting angle of attack transducer and force

05 p0766 A69-16750

Equations for instability of stabilized platform of inertial navigation system with viscous friction in accelerometers

06 p0954 A69-16824

Thermal performance of pressure transducers, accelerometers, displacement transducers, resistance

thermometers and control mechanisms for NERVA reactor

06 p0956 A69-16885

Velocity meter for precision adjustment of orbits of vehicles in space for long periods using digital integrating accelerometer

08 p1348 A69-21063

Wideband acceleration instrumentation for Rover ground test facility liquid hydrogen turbopumps to study structural and flow induced vibrations

10 p1692 A69-23250

Fluid rotor angular accelerometer design for stabilization and control, noting applications to centrifuge speed and thruster gas consumption

10 p1633 A69-23273

FM/AM telemetry circuits with three axis piezoelectric accelerometer for measurements during impact tests of soft landing models

10 p1654 A69-23279

Optimal control algorithm for spacecraft descent in atmosphere based on nominal trajectory and acceleration measurements

13 p2355 A69-27683

Accelerometer force balance used in measuring forces and moments acting on models in short duration rocket plume tests at simulated high altitude
[AIAA PAPER 69-351]

13 p2264 A69-28285

Reliability of high resolution accelerometer composed of semiconductor integrated circuits

15 p2627 A69-30843

Reciprocity method for absolute calibration of piezoelectric accelerometer mounted on electrodynamic shaker table

15 p2615 A69-31283

Atmospheric density measurements by triaxial accelerometer system, ionization gauges and orbital decay of OV1-15 satellite

15 p2602 A69-31384

Low altitude atmospheric density satellite OV1-16 measurements, showing agreement between onboard accelerometer and orbital drag data

15 p2602 A69-31385

Drag measuring requirements and comparison of accelerometer or drag-free satellite control systems usage for atmospheric density determination

16 p2788 A69-31722

Inertial navigation system theory that uses increased numbers of newtonometers /force measuring devices/ in place of gyroscopic sensitive elements

16 p2791 A69-32283

Electromagnetic accelerometer with symmetrically placed photocells detecting small steel ball position

17 p2971 A69-32897

Portable piezoelectric acceleration sensor, describing characteristics and principles of operation

17 p2975 A69-33594

Accelerometer force balance method for measuring aerodynamic rocket plume forces acting on flat plate model in short duration shock tunnel test environments

19 p3292 A69-35737

Telemetry by reflex klystron accelerometer and seismometer with on air or coaxial cable signal transmission

19 p3272 A69-36255

Charge amplifier for piezoelectric transducer used in acceleration measurements

20 p3508 A69-37913

Navigation state vector update effect on lunar mission completion capability for Saturn 5, emphasizing hardware and scheme errors and accelerometer failure
[AIAA PAPER 69-883]

21 p3764 A69-39409

Flotation technique for laboratory calibration of low level accelerometers, noting accuracy dependence on flotation fluid density stability
[AIAA PAPER 68-874]

24 p4315 A69-43242

ACCEPTOR MATERIALS

Interactions between intermediate fluorescence quenching trapping center and associated electron acceptor of oxygen evolving photosynthetic spinach chloroplast photosystem

01 p0024 A69-10928

Acceptor defect levels in cadmium telluride crystals prepared under various cadmium vapor pressures, demonstrating ionization energy variation by electrical measurements

02 p0294 A69-11546

Trapping parameters of Fe doped GaAs-GaP, measuring thermally stimulated conductivity and space charge limited currents

02 p0296 A69-11789

Electron scattering by neutral acceptors in semiconductors, noting relaxation time for Ge at very low temperatures

03 p0484 A69-13280

Photoluminescence measurements of p-type thermal conversion in GaAs grown from silica boats, noting compensation by copper and shallow acceptors

04 p0639 A69-14434

Strong p-type conductivity of silicon doped with beryllium by thermal diffusion, giving electrical and optical measurements

09 p1556 A69-21652

Electronic properties of beryllium doped silicon studied with IR absorption spectroscopy and electrical measurements, describing Be thermal diffusion

10 p1747 A69-23989

Electron scattering by neutral acceptors in semiconductors, noting relaxation time for Ge at very low temperatures

14 p2508 A69-29653

Electronic states of semiconductor acceptor centers at forbidden band deep levels, considering inner electron shell excitation in impurity ion

15 p2665 A69-30039

Energy levels of multicharge acceptor centers and level splitting in InSb and GaAs deformed crystals, using multizone approximation

21 p3781 A69-39067

Lithium doped silicon acceptor concentration resulting from electron irradiation damage decreased by annealing at 300 degrees K

23 p4197 A69-41498

Ultrahigh vacuum cleaved GaAs-Cs and GaAs-cesium monoxide photoemission acceptor densities, noting crystal parameters role

23 p4198 A69-41548

Donor and acceptor impurity effect on absorption and reflection spectra of CdTe single crystals, analyzing In, Ga, S and Se

24 p4362 A69-43735

ACCESSORIES

Aircraft engine accessories for engine control, monitoring and protection, discussing transducer redesign, equipment range for Concorde, small engine design, etc

16 p2789 A69-31813

ACCIDENT INVESTIGATION

NT AIRCRAFT ACCIDENT INVESTIGATION

Alcohol role in pilot victims of aircraft accidents

01 p0022 A69-11345

Apollo spacecraft fire, presenting recommendations for power supply, cabin atmosphere and safety measures

07 p1071 A69-18970

Epidemiology of aerial application accidents analyzed in groups of high and low wing monoplanes, biplanes and helicopters

09 p1447 A69-22554

Apollo spacecraft fire, presenting recommendations for power supply, cabin atmosphere and safety measures

20 p3483 A69-38218

ACCIDENT PREVENTION

Prevention of and protection against accidental explosion of munitions, fuels and other hazardous mixtures - Conference, New York, October 1966

04 p0644 A69-14467

Mixing function vs time relationship for liquid propellant explosion hazards prediction, noting thermocouple grid for maximum information

04 p0646 A69-14478

Government role in air transportation policy, considering growing demands on air traffic control

06 p1040 A69-16835

Ideal safety system for accident prevention, considering foreseeable and unforeseeable aspects to eliminate individual or collective human error

06 p1040 A69-16836

Air safety, emphasizing misunderstandings or unresolved problems in accident prevention connected with law/safety interface

06 p1040 A69-16837

FAA aviation safety program design standards, maintenance and inspection procedures and assessment of accidents

06 p1041 A69-16839

Aviation safety information dissemination to improve accident and incident prevention

06 p1041 A69-16841

Accident prevention and investigation procedures of National Transportation Safety Board /NTSB/, discussing management patterns

06 p1041 A69-16842

USAF accident information, reporting and retrieving, describing Directorate of Aerospace Safety structure and functioning

06 p1041 A69-16843

Aircraft accident prevention and damage control

06 p0878 A69-16961

Characteristics of accident experienced pilots based on personality and psychological tests

06 p0876 A69-18033

Qualitative and quantitative hazards analysis of potential accidents/incidents in Post Boost Propulsion System with hypergolic propellants, considering recovery

10 p1753 A69-22972

Aeromedical investigation of civil aircraft accidents by National Transportation Safety Board, noting post-mortem legal aspects and need for human factors investigation

12 p2021 A69-25840

Preventive medicine in handling airline pilots to avoid accidents attributable to disability and death from natural causes

12 p2024 A69-26559

Accident record of general aviation pilots over age 60/1965/

14 p2541 A69-29308

Jumbo jet instrument landing difficulties, suggesting specific improvements in aircraft and airport equipment

15 p2549 A69-30189

Accidental ignition during solid propellant processing in terms of hazard to facilities and personnel, emphasizing mixing operation

16 p2829 A69-31993

Aviation health service for flight safety problems with emphasis on accident prevention, emphasizing physician role in man-machine relationship of personnel surveillance

18 p3098 A69-35305

Accident prevention program of Bureau of Aviation Safety, discussing probable cause analysis and function in feedback loop, hazard analysis and accident data center

22 p3867 A69-41140

Third generation jet aircraft safety, discussing accident prevention and survival

22 p4054 A69-41142

Aircraft fuel vent line sensitivity to lightning hazards, using flame propagation and arrester experiments with high voltage and high current facilities [SAE PAPER 690434]

23 p4062 A69-41651

Aviation accidents medical aspects, discussing accident causes and remedies, training and regulation proposals, etc

23 p4106 A69-41792

ACCIDENT PRONENESS

Accident record of general aviation pilots over age 60/1965/

14 p2541 A69-29308

ACCIDENTS

NT AIRCRAFT ACCIDENTS

NT AUTOMOBILE ACCIDENTS

Deficiencies in two hazard classification system for detonating and fire producing materials from analysis of chemical industry accident fatality statistics

04 p0645 A69-14471

Air evacuation of maxilla-facially wounded persons from place of accident, noting helicopter use

24 p4270 A69-42603

ACCLIMATIZATION

NT ALTITUDE ACCLIMATIZATION

NT COLD ACCLIMATIZATION

Noise level criteria for acceptable voice communications in office environment, noting acclimatization

11 p1830 A69-24797

Artificial heat acclimatization effect on orthostatic tolerance in man exposed to stresses of heat, exercise and dehydration

16 p2746 A69-32810

Time required for acclimatization to work in high temperatures, noting rectal temperature and heart rate changes

21 p3654 A69-38905

Calorimetry-thermometry discrepancy during prolonged exercise in hot dry environment, measuring rectal temperature with increasing exposure time

23 p4098 A69-42104

Blood flow, volume and venous pressure measurements in right hand at low and high altitudes in residents and newcomers

23 p4098 A69-42106

ACCOMMODATION COEFFICIENT

Accommodation coefficient effect on linearized heat transfer in rarefied gas between parallel plates and concentric cylinders

01 p0177 A69-11405

Interaction of rarefied gas with solid surface, analyzing accommodation coefficients, energy and impulse exchange as function of atomic bulk size

04 p0632 A69-14991

Surface parameters influence on energy transfer to arc jet anode, discussing work function, accommodation coefficient and diffuse reflection coefficient of electrons [AIAA PAPER 69-107]

06 p1039 A69-18185

Thermal accommodation coefficient and critical supersaturation for nucleation of mercury vapor on pyrex glass

13 p2321 A69-28005

Low temperature thermal expansion coefficients and linear contraction of metal alloys from liquid hydrogen to room temperature tabulated as function of temperature

14 p2464 A69-29400

Disaccommodation component of magnetic aftereffect causing dynamic absorption of HF magnetic energy in ferrites

15 p2665 A69-30038

Thermal accommodation coefficients determination, comparing techniques based on free molecule flow heat flux data

18 p3230 A69-35071

ACCRETION

U DEPOSITION

ACCUMULATORS

NT DUST COLLECTORS

NT SOLAR COLLECTORS

NT SOLAR REFLECTORS

Water removal unit design for electrolyte reaction accumulation in hydrogen oxygen fuel cell systems

04 p0552 A69-15316

Collection efficiency of continuous dynode electron multiplier arrays, discussing incident electron current

06 p0897 A69-17699

Flux collectors and field imagers for IR astronomy, discussing design, construction and dimensions

13 p2239 A69-27605

Thermionic converter performance measured using test vehicles with guard ringed collectors and variable emitter-collector spacing

14 p2398 A69-29177

Close coupled accumulators for suppressing missile longitudinal oscillations (POGO) developed for Gemini and Titan 3, including pump interaction [AIAA PAPER 69-547]

16 p2869 A69-32729

ACCUMULATORS [COMPUTERS]

Large scale integrated circuit accumulator chip as control element for design of digital system by design automated techniques

12 p2037 A69-25942

ACCURACY

Laser application to machine tool accuracy and alignment [ASTME PAPER MR68-407]

02 p0252 A69-11797

Mean temperature values accuracy determined from fixed period values by frequency graphs, discussing deviations from mean

09 p1534 A69-21511

Calibration and accuracy check of measuring instruments at National Center of Space Studies in France, emphasizing reference instruments

12 p2080 A69-26123

Accuracy and variance of nonergodicity estimates for random processes associated with radiophysical applications

15 p2582 A69-30946

Satellite orbits obtained by tracking by synchronous satellites, discussing accuracy for low altitude satellites

15 p2698 A69-31340

Radar signal reflectivity and precipitation relationship revised on basis of radio signal damping for improved measurement accuracy

23 p4185 A69-42494

Gravitational constant G determination, describing accuracy enhancement

24 p4350 A69-42944

ACETATES

NT LEAD ACETATES

Acetate carbon 14 utilization in centrifuged rats, analyzing metabolism by measuring plasma glucose, FFA and lipids synthesis

07 p1067 A69-19429

Acetate-2-C 14 conversion to C 14 carbon dioxide and C 14 fatty acids in rats with 2/3 of liver removed

19 p3257 A69-35976

ACETIC ACID

Optically active alanine synthesis from oxaloacetic acid by hydrogenolytic asymmetric transamination, noting role of decarboxylation

12 p2026 A69-25780

ACETONE

Methyl alcohol, ether and acetone vapors decomposition in microwave discharge, obtaining H and CO in addition to solid polymeric films

22 p3895 A69-40103

ACETYL COMPOUNDS

Insignificant or recoverable changes observed in blood acetylcholine content and cholinesterase activity of rabbits subjected to 8 g acceleration

02 p0197 A69-11491

1.5 g angular acceleration effects on acetylcholine metabolism in guinea pig brains and hearts

02 p0198 A69-11505

Quantitative analysis for N-acetylneuraminic acid by gas-liquid chromatography using trimethylsilyl derivative

13 p2217 A69-28315

Mechanical vibrations and noise effects on acetylcholine concentration, esterase activity and synthesis ability in rat brain

23 p4079 A69-41381

Regression process in acetylcholine level in rats after mechanical vibrations and noise exposure

23 p4079 A69-41382

Optic nerve spikes elicited by acetylcholine application on isolated perfused retina of frog, varying response by prostigmine and atropine

23 p4084 A69-41465

ACETYLENE

Diacetylene burning and spontaneous combustion regularities, determining reaction kinetics at moderate temperature

02 p0351 A69-11981

Ignition time of methane and acetylene, considering concentration and thermodynamic properties during reaction [WSCI PAPER 68-41]

07 p1240 A69-18356

ACHONDRITES

NT KAPOETA ACHONDRITE

Indium abundances in chondritic and achondritic meteorites and terrestrial rocks determined by radiochemical neutron activation analysis

08 p1404 A69-20917

Initial Sr isotopic composition at time of planetary objects formation in solar system and precision measurements for age determination of basaltic achondrites

11 p1953 A69-24357

Quality assessment of quantitative data on chemical composition of stony meteorites, considering precision and accuracy

11 p1953 A69-24359

Lithophile elements relationship in chondrites and basaltic achondrites, tabulating Ca-Al ratios and Ca, Al, Ti, Zr, Sr, Ba and Sc percentages

11 p1954 A69-24360

Cosmogenic Al 26 in achondrites and chondrites measured by nondestructive gamma-gamma coincidence counting

17 p3034 A69-33584

Ca-rich achondrites genesis implied from rare earth and Ba absolute and relative concentrations

19 p3409 A69-36091

Calcium-rich achondrites age distribution determined from inert gas measurements and existing data of eucrites, shergottites and howardites

19 p3413 A69-36107

Alpha-scattering experiments by Surveyor missions, studying hypothesis regarding lunar origin of eucrites and howardites

20 p3597 A69-37341

Calcium rich achondrites radiation ages determined from measuring He, Ne and Ar in howardites, nakhlites and angrite

20 p3602 A69-37535

Chemical composition of basaltic achondrites /eucrites and howardites/, indicating dominant role of physical process over magmatic differentiation

24 p4382 A69-42928

Halogen concentrations in basaltic achondritic meteorites, discussing applications to rare gas and lunar surface studies

24 p4382 A69-42929

ACID BASE EQUILIBRIUM

High gradient headward acceleration effects on acid base balance of baboons and human subjects, noting arterial changes

09 p1444 A69-22540

ACIDITY

Relative gas phase acidities of simple aliphatic alcohols, considering effects of alkyl groups

19 p3265 A69-36289

ACIDOSIS

Relative gas phase acidities of carbon acids determined using ion cyclotron resonance spectroscopy
19 p3265 A69-36291

Relative gas phase acidities of simple aliphatic amines and ammonia noting increase in large alkyl groups substitution
19 p3265 A69-36293

ACIDOSIS

Dogs cardiovascular responses to histamine liberator /compound 48/80/, describing shock and acidosis with elevated histamine levels
22 p3873 A69-40206

ACIDS

NT ACETIC ACID
NT ADENINES
NT ALANINE
NT AMINO ACIDS
NT ASCORBIC ACID
NT BORIC ACIDS
NT BUTYRIC ACID
NT COENZYMES
NT CYSTEINE
NT DEOXYRIBONUCLEIC ACID
NT DICARBOXYLIC ACIDS
NT FATTY ACIDS
NT FORMIC ACID
NT GLUTAMIC ACID
NT GLYCINE
NT HYDROBROMIC ACID
NT HYDROCHLORIC ACID
NT HYDROFLUORIC ACID
NT LACTIC ACID
NT LEUCINE
NT LYSINE
NT METHIONINE
NT NITRIC ACID
NT NUCLEIC ACIDS
NT OXIDASE
NT PEPTIDES
NT PYRIDINE NUCLEOTIDES
NT RIBONUCLEIC ACIDS
NT TRYPTOPHAN
NT URIC ACID
NT URIDYLIC ACID

Acid fraction extraction of Green River shale identified by gas chromatography-mass spectrometry-computer system, noting trimethyl pentadecanoic acid
21 p3669 A69-38983

ACOUSTIC ATTENUATION

NT SHOCK WAVE ATTENUATION

Dispersion relation of internal acoustic gravity wave motion in compressible nonviscous and nonheatconducting atmosphere
02 p0242 A69-11868

Electronic attenuation of 10 to 130 MHz longitudinal ultrasonic waves in superconducting high purity Ti, noting energy gap anisotropy
03 p0485 A69-13293

Electronic attenuation of 10 to 130 MHz longitudinal ultrasonic waves in nonsuperconducting high purity Ti, noting anisotropy and measurements below 4.2 K
03 p0485 A69-13294

Constrained layer damping and conventional techniques combination for vibration and noise control
04 p0606 A69-14691

Absorption and amplification of sound in many valley semiconductors in strong electric field, noting dependence on electron heating and relaxation times
07 p1199 A69-18681

Field noise reduction frequency spectra afforded by spacecraft shroud, basing estimating criterion on flight test data
09 p1609 A69-21892

Ultrasonic pulse velocity and attenuation measurement in presence of noise, using coherent detection and signal averaging
14 p2449 A69-29564

Ultrasonic pulse-echo-overlap method modified for simultaneous measurement of time delay and relative voltages in determining sound velocities and attenuation of solids
14 p2450 A69-29567

Magnetoquantum-electric effect, analyzing center motion of cyclotron orbit during photon and phonon absorption and current quantity
16 p2826 A69-31823

Nonlinear response of single Helmholtz resonator subjected to finite amplitude pressure oscillations, detailing entrance, orifice and cavitation flow [AIAA PAPER 69-481]
16 p2844 A69-32719

MHD waves attenuation in ionosphere due to gyrorelaxation, reducing analysis to determination of anomalous absorption of acoustic waves
23 p4155 A69-41841

Welded honeycomb sandwich structures of Ti, steel and similar materials for use in extreme thermal and acoustical environments [AIAA PAPER 68-973]
24 p4326 A69-43716

ACOUSTIC COMBUSTION

U COMBUSTION STABILITY

ACOUSTIC DELAY LINES

Acoustic surface waves on thin film for pulse compression radar dispersive delay line, describing delay characteristic synthesis and control
19 p3267 A69-35929

Al and Mg alloys as ultrasonic wave acoustic lines, considering sound velocity, damping factor, grain size, chemical composition, etc
20 p3564 A69-38290

Ultrasonic diffraction delay lines technique to extend radar systems range without affecting target pinpointing capability
24 p4286 A69-42901

RF and microwave signal variable delay and processing using laser-acoustic interactions, photodetector and electrical-to-acoustical transducer
24 p4283 A69-43027

ACOUSTIC EXCITATION

Bounds from asymptotic behavior of solutions of nonlinear integrodifferential equation arising from nonlinear oscillators in acoustics
01 p0103 A69-10001

Threshold velocities of acoustoelectric current oscillations in elemental piezo- and nonpiezoelectric semiconductors, taking into account amplification and losses of phonons
05 p0807 A69-15956

Fatigue crack propagation and crack tip stresses measurements in tensioned cracked panels subjected to acoustic loading
10 p1797 A69-23078

Rats sensitivity to accelerations found dependent on excitation-inhibition ratio in central nervous system and hypophyseal-adrenal system reactions during acoustic excitation
10 p1645 A69-23497

Sound amplification role in increasing spread of bounded two dimensional smoke jet studied for application to fluid amplifiers [ASME PAPER 69-VIBR-3]
10 p1640 A69-24161

Cylindrical shells spectral response to random acoustic pressure excitation, noting natural modes and inner air column effects
11 p1990 A69-25506

Acoustic power transferred to plane homogeneous elastic structures and cylindrical shells by neighboring sound sources
13 p2363 A69-28186

SST fuselage response to reverberant and turbulent boundary layer noise calculated for computing equivalent reverberant acoustic fields
15 p2549 A69-30302

Sound effects on turbulent flame in gasoline-air mixture jet in Toepfer device with pulsed light source, measuring ionization in combustion zone
17 p3069 A69-33141

Response of three level particles system with equidistant spectrum under resonant action of acoustic and electromagnetic pulses sequence with different frequencies
21 p3737 A69-39068

Collisionless damping of large amplitude ion acoustic waves excited externally in thermally ionized Cs plasma
22 p3991 A69-41008

Topography of potentials induced by acoustic clicks in auditory cortex of dogs, including ectosylvian gyrus distribution
22 p3888 A69-41269

Cortical biopotentials in cats induced by strychnine under acoustic click stimuli of increasing intensity
22 p3888 A69-41270

Structural differences effect of gyrus and sulcal areas of acoustic projection cortex on primary induced acoustic responses
23 p4079 A69-41380

ACOUSTIC FATIGUE

Differential and threshold sensitivity of acoustic analyzer of humans under space flight factors
02 p0197 A69-11500

Collection of articles on noise and acoustic fatigue in aeronautics sponsored by Ministry of Aviation and USAF
05 p0703 A69-16800

ACOUSTIC GENERATORS

U SOUND GENERATORS

ACOUSTIC IMPEDANCE

Specific acoustic admittance of solid propellant burning surface for determining burning instability under rocket motor conditions
02 p0302 A69-11521

Acoustic absorbers for combustion stabilization, discussing analytical model based on temporal damping coefficient for oscillation modes and allowance for nonuniform distribution
03 p0532 A69-13133

Piezoelectric transducer theory, discussing acoustically matched sandwich type damper and calculating frequency characteristics
10 p1697 A69-24071

ACOUSTIC INSTABILITY

Doppler effect in ionospheric acoustic perturbations caused by strong ground explosion, noting accord with nonlinear acoustic wave propagation theory
09 p1488 A69-21694

Low pressure arc discharge plasma, studying ion-acoustic oscillations development in magnetic field
12 p2136 A69-26527

Pressure waves interaction with solid fuel hot surface at HF based on linear theory of acoustic instability in condensed systems
13 p2371 A69-27383

ACOUSTIC MEASUREMENTS

Noise and relations between environment and man, discussing sound perception, measurement and judgment of noise annoyance and harm
01 p0020 A69-10741

Acoustic probe for measuring pressure fluctuations on hypersonic reentry vehicle, discussing flow characteristics and heat shield ablation effects on frequency response
01 p0008 A69-11278

Differential and threshold sensitivity of acoustic analyzer of humans under space flight factors
02 p0197 A69-11500

Waveguide band transition noise of gas discharge source, discussing measurement methods for establishing excess noise ratio
02 p0212 A69-12461

Level crossing rate meter correction for boxcar-ed and receiver noise readings in incoherent weather radars
04 p0557 A69-14915

Noise signal mean square value measurement in pulse noise conditions by using noise amplitude limiter with limitation threshold in receiver
05 p0719 A69-16086

Anomalous infrasonic signals observed during launching of space vehicles with thrust greater than 200,000 lb, noting supersonic and subsonic group velocity spreads
07 p1078 A69-18853

Impulse noise damage risk criteria, discussing maximum tolerable exposure, hazardous exposure and methods of impulse noise measurement
07 p1066 A69-19171

Acoustical measurements on MD-12 passenger aircraft before and after application of insulation for noise suppression
07 p1057 A69-19704

Noise-signal receiver amplitude-limitation effect on noise measurement in presence of pulsed interference
07 p1088 A69-19754

Microwave converters structural characteristics, calculating noise figure
08 p1285 A69-20594

Interference capability of noise of different frequency bandwidths, comparing weighted sound pressure to loudness level
08 p1276 A69-20857

Modulus of elasticity changes and stress relaxation spectra of viscoelastic liquids measured by acoustic methods
11 p1887 A69-25206

Procedures and facilities applicable to sonic environmental testing of flight vehicles, discussing sonic energy sources in vehicles and potential failure modes
12 p2060 A69-26939

Supersonic boundary layer acoustic characteristics measured in wind tunnel on cylindrical model with several forebody configurations [AIAA PAPER 69-344]
13 p2249 A69-28279

Annoyance caused by noise near airports, discussing PNdB /perceived noise dB/, evaluation criteria, and French, British, American and German methods
13 p2214 A69-28588

Aircraft noisiness estimation methods
13 p2216 A69-28660

Noise measurement and scales in studying psychological and nonauditory physiological effects on human functioning
14 p2485 A69-29150

Acoustic sounding of atmospheric structure, utilizing energy backscattered from temperature fluctuations in turbulent regions
14 p2448 A69-29527

Noise sources in S band parametric amplifier with GaAs varactor diode measured at liquid nitrogen temperature, considering noise reduction
15 p2578 A69-30636

Near field flow noise generated in boundary layer of water vehicle measured for rotating cylinder, ship and buoyant unit using hydrophone
17 p3004 A69-32953

Noise intensity measurements in far field of circular nozzle for jet noise composition
17 p2957 A69-33602

Microphonic noise measuring systems for airborne radar system design for noise reduction
17 p2937 A69-33628

Acoustic spectrum averager for Mariner spacecraft environmental tests, calculating rms average 1/3 octave spectrum bands in real time [JPL-TR-32-1442]
17 p2946 A69-33658

Helicopter rotors forward-flight noise characteristics determined by wind tunnel tests compared to rotor noise during flyover
18 p3119 A69-35225

Acoustic measurements at room temperature for determining losses in rocket chamber during combustion instability, using small scale model
19 p3394 A69-35946

Crack growth in steel tested in hydrogenated condition, distilled water and in combination by acoustic emission, relating time intervals to hydrogen diffusion
19 p3350 A69-36893

Acoustic filters performance determination, standing wave tube and anechoic termination methods
20 p3464 A69-37321

Scanned receiver acoustical holography for mapping or imaging sources of radiated acoustic energy on complex vibrator in water, noting application in air
20 p3576 A69-37323

Real time analyzers of acoustic signals for aircraft engine noise, noting automatic test
20 p3462 A69-37756

Acoustic frequency response of unsteady turbulent flow in transmission lines, considering effects of small amplitude disturbances and heat transfer [ASME PAPER 69-FE-11]
20 p3516 A69-37988

Acoustic emission signals for nondestructive testing and material evaluation, determining critical stress intensity factor for stress corrosion cracking
20 p3512 A69-38270

Noise and vibration levels measured in An-24 Polish passenger aircraft indicating excess noise in crew compartment
22 p3862 A69-40005

Digital systems for acoustical or vibrational measurements reception and evaluation
22 p3945 A69-40168

Helicopter main rotor noise from square tipped blades determined as function of tip speed, blade area and thrust
22 p3864 A69-40676

Robbins-Monro stochastic approximation method using algorithms for identifying finite memory time-discrete time-stationary linear system from noisy input-output measurements
22 p3918 A69-41013

Speech interference aspects of noise measured as function of level and spectrum of speech and noise at listener ear, using simplifying nomogram
23 p4101 A69-41495

Distortion processes in ear, discussing sound pressure level /SPL/ measurements in rigid-walled couplers
23 p4085 A69-41573

Hearing adaptation measurements after aircraft noise stresses for estimation of induced noise damage
23 p4110 A69-42051

Retarded voice tests apparatus using graphical recording to determine intensity of deformations by autoaudition, considering application to recruitment investigation
24 p4270 A69-42604

Optimal focusing of acoustic system for tube defectoscopy with circular normal waves
24 p4296 A69-42655

Sonic diagnostic engine analyzer for detecting jet engine malfunctions prior to failure
24 p4312 A69-42758

Acoustic analyzer response of man during prolonged noise effect of varying pitch and intensity
24 p4278 A69-43408

ACOUSTIC PROPAGATION

Vertical propagation of acoustic waves in atmosphere without gravitational waves and with height varying atmospheric shear viscosity
02 p0274 A69-11440

Acoustic plasma waves propagation in thin films in case of film quantization, showing phase velocities close to Fermi velocities of electrons
02 p0300 A69-12649

Acoustoelectric domain propagation in N-type GaAs, noting flux influence on peak acoustic density
05 p0806 A69-15815

Acoustic and electromagnetic energy propagation in lower ionosphere and atmosphere for energy pulse generation by chemical explosion
07 p1078 A69-18844

Dispersion and average monthly numbers of whistlers for propagation trajectories during solar activity minimum, discussing electron concentrations in magnetosphere
09 p1485 A69-21531

Ion-acoustic wave experiments for disturbance travel in plasma sheath, obtaining ion number density
11 p1929 A69-25272

Acoustic waves in ionosphere relation to electron content fluctuations detected from beacon satellite BE-B signals [AFCRL-69-0291]
12 p2065 A69-26104

Turbulent boundary layer sound emission effect on elastic plate, discussing pressure pulsation spectrum reflection
13 p2246 A69-27538

Sound generation by unsteady rotational flow as singular perturbation problem solved by matched asymptotic expansions, discussing flow and radiation fields
13 p2299 A69-28187

Ion drag effects on acoustic gravity waves propagation in isothermal F region, discussing indicated wave damping
14 p2434 A69-28944

Dispersion and average monthly numbers of whistlers for propagation trajectories during solar activity minimum, discussing electron concentrations in magnetosphere
16 p2783 A69-32526

Hydrodynamic stability of solid fuel combustion in presence of acoustic disturbances in gas phase, considering material erosion and particle dispersion
18 p3231 A69-35150

Nondestructive test method using transducer action of flaw in stress field causing plastic deformation with energy release as acoustic emission
19 p3314 A69-36634

Turbulent boundary layer sound emission effect on elastic plate, discussing pressure pulsation spectrum reflection
20 p3518 A69-38204

Acoustic wave propagation in plasma, analyzing ionic and electron sound caused by oscillation and relaxation processes using Landau and Vlasov kinetic equations
23 p4196 A69-41726

Saturn F-1 rocket engine as generator of infrasonic waves and magnetic fluctuations, noting ignition and cut-off signal characteristics
24 p4365 A69-43415

ACOUSTIC PROPERTIES

NT REVERBERATION

NT SOUND INTENSITY

Acoustic paramagnetic resonance in arsenic doped germanium, measuring spin-lattice relaxation
02 p0296 A69-11835

Acoustical Bragg reflection and Debye-Sears effect with application to light and ultrasonics interaction
07 p1144 A69-18285

Hydraulic analog for determining acoustic behavior of baffle cell used in liquid rocket engines, comparing ring and spoke type baffles
09 p1570 A69-22004

Entrainment and acoustothermal effect in piezoelectric semiconductors having electrons with different energy
10 p1746 A69-23573

Acoustic effects in piezoelectric semiconductors due to sound-electrons interaction including sound absorption, sound velocity changes, electroacoustic effect, etc
14 p2503 A69-28786

Random oscillations of elastoacoustic systems, obtaining solution for spherical shell containing acoustic medium
17 p3057 A69-33199

Fluid-shell interactions, using piston theory and cylindrical-wave approximations
18 p3223 A69-35174

Acoustics and optics in terms of acoustic holography, seismic signal optical processing, acoustic and electromagnetic waveguides, etc
23 p4191 A69-42179

ACOUSTIC RADIATION

U SOUND WAVES

ACOUSTIC SCATTERING

NT REVERBERATION

Steady longitudinal motion of insulating cylinder in conducting fluid, discussing analog between steady MHD and acoustic scattering
04 p0638 A69-15192

Quasi-phonon model for acoustic scattering and diffraction from rigid real obstacle in fluid medium
05 p0797 A69-16649

Hole mobilities in InSb due to phonon and ionized impurities scattering on basis of strain potential constants
16 p2824 A69-31575

Airfield bird scaring methods including Very pistol shell cracker firing and broadcast calls on civilian and military airfields
17 p2915 A69-33365

ACOUSTIC SIMULATION

Finite amplitude standing transverse resonant acoustic field effects upon flow behavior of viscous fluid in cylindrical enclosure to acoustically model combustion instability [AIAA PAPER 69-667]
17 p2954 A69-33457

ACOUSTIC STABILITY

U FREQUENCY STABILITY

ACOUSTIC STREAMING

Acoustic streaming near small spherical obstacles, obtaining stream functions
04 p0631 A69-14904

Intense transverse resonant acoustic field interaction with viscous fluid flows [ASME PAPER 68-WA/FE-8]
05 p0748 A69-16091

Acoustic streaming near small spherical obstacles, obtaining stream functions
12 p2131 A69-26657

Intense transverse resonant acoustic field interaction with viscous fluid flows [ASME PAPER 68-WA/FE-8]
14 p2430 A69-29444

ACOUSTIC VELOCITY

Acoustic resonance excitation in axial flow compressor annulus by wake shedding from blades
01 p0142 A69-10058

Flow characteristics and sound velocity in two temperature plasma
05 p0802 A69-15796

Velocity of 1 MHz sound waves in He 4 along isotherms just above critical temperature, noting specific heat ratio for 4.5 and 5 K isotherms
06 p0957 A69-17142

Ultrasonic thermometry for nuclear reactors based on temperature dependence of sound velocity in solids, discussing simulation experiments [IEEE PAPER IC-4]
07 p1134 A69-19186

Speed of sound and shock waves in two phase flows of liquid metal MHD generators, considering droplets uniformly dispersed in gaseous phase
13 p2245 A69-27475

Ultrasonic pulse-echo-overlap method modified for simultaneous measurement of time delay and relative voltages in determining sound velocities and attenuation of solids
14 p2450 A69-29567

Weak shock waves relaxation time and amplitude and acoustic velocity as functions of thermorelaxing media
15 p2590 A69-30103

Small perturbations propagation in plasma at Newtonian acoustic velocity, determining temperature, pressure and current densities
15 p2663 A69-30993

Acoustic velocities in polymethylmethacrylate measured as functions of frequency, temperature and pressure, comparing data obtained with equation of state high pressure determinations
16 p2825 A69-31695

Polycrystalline BeO sound velocities determined as function of pressure and temperature using pulse superposition method
16 p2802 A69-32338

Flight velocity changes from sonic to supersonic through turbojet/ramjet combination possibility
17 p3020 A69-33348

Vertical structure concepts for air density, wind and sound velocity profiles in rocket climatology, discussing vertical relationship of wind shear statistics
17 p3000 A69-33794

Water jets with greater than half sound speed created by shock wave impinging on cavity within liquid, discussing mechanism, maximum speed, shape, etc
19 p3301 A69-36815

ACOUSTIC VIBRATIONS

U SOUND WAVES

ACOUSTICS

NT BIOACOUSTICS
NT LAMB WAVES
NT LAME WAVE EQUATIONS
NT MAGNETOACOUSTICS

Sonic bang intensities in stratified atmosphere obtained by geometrical acoustics and linear theory modifications to take account of nonlinear effects
01 p0008 A69-10056

Acoustical holography - Conference, Huntington Beach, California, December 1967, Volume 1
10 p1694 A69-23540

Physical principles and practical methods in light and sound holography, comparing advantages and limitations
10 p1694 A69-23541

Holographic techniques for acoustic imaging to obtain three dimensional images of opaque objects encountered in nondestructive testing
10 p1695 A69-23544

Quantitative analysis of plane waves for weak interaction of two dimensional sound and light fields in acoustical imaging by diffracted light
10 p1695 A69-23545

Acoustical transparencies illuminated by sound waves for optical imaging and ultrasonic diffraction, noting application to visualization of inhomogeneities in samples
10 p1695 A69-23546

Digital reconstruction of images from optical holograms for acoustical data, discussing image degradations
10 p1695 A69-23547

Qualitative analysis of recording phase only acoustic holograms of object wave instead of both phase and amplitude, considering fringe patterns and conjugate image
10 p1695 A69-23548

Matrix method for acoustical holograms and optical reconstruction of virtual and conjugate images using laser light of 6328 Å wavelength
10 p1696 A69-23549

Typographical spatial correlation filtering methods for reconstructing holographic images with ultrasonic waves, noting application to flaw recognition
10 p1696 A69-23551

Alphabetical listing of references and abstracts of papers on acoustical holography
10 p1696 A69-23552

Intracavity acoustooptic devices based on isotropic and anisotropic acoustic Bragg diffraction, discussing efficiency, bandwidth and acoustic column width
10 p1697 A69-23871

Acoustic holography free surface and scanning methods, noting acoustical intensity role in phase stability
11 p1883 A69-24687

Linear recording of object wave phase to produce acoustic holograms
13 p2259 A69-27243

CdS acoustoelectric oscillator steady state oscillation frequency dependence on voltage and conductivity compared with linear acoustoelectric amplification theory
13 p2227 A69-27244

Monograph on sound generation by turbulence and surfaces in arbitrary motion, discussing sound and multiple fields and governing equations
13 p2247 A69-27974

Acoustic hologram recorded by laser flying spot scanner
13 p2265 A69-28662

Magnetoelastic resonant interaction of microwave longitudinal phonons propagating at right angles to magnetic bias applied to YIG rod axis
15 p2565 A69-30184

Acoustic flow calorimeter for evaluating power transducers under loaded conditions
16 p2790 A69-32079

Systems approach in turbofan engine design acoustic evaluation, discussing noise sources and radiation patterns
[AIAA PAPER 69-491] 16 p2839 A69-32667

Machine recognition of continuous speech at acoustic level, noting low bit rate speech communication system
17 p2932 A69-34119

Acoustic visualization for nondestructive testing, describing image formation by lenses, reflectors, holography, Bragg diffraction and phase contrast
20 p3512 A69-38269

Frequency and space averaging effect on variability and standard deviation of multimode media transmission responses, with application to reverberant media
23 p4115 A69-41576

Acoustics and optics in terms of acoustic holography, seismic signal optical processing, acoustic and electromagnetic waveguides, etc
23 p4191 A69-42179

Acoustical holograms phase recording, combining external phase locked electronic reference beams
23 p4166 A69-42180

Temporal reference acoustical holography with Sokolov ultrasound camera system using double pulsed ruby or scanning CW laser
23 p4166 A69-42182

Phase and amplitude acoustical holography in opaque media, discussing medical diagnosis and underwater viewing
23 p4167 A69-42198

Acoustical holography principles and reconstruction techniques, noting advantages of liquid-surface and temporal reference holography over optical counterpart
23 p4167 A69-42199

ACQUISITION

U DATA ACQUISITION
U TARGET ACQUISITION

ACROBATICS

Differential equation for dynamic behavior of acrobatic flight navigation instruments in steep flight, considering vertical gyroscopes, gimbal platforms and time optimal control
11 p1880 A69-24328

ACRYLATES

Explosive acrylic polymers properties and preparation methods, noting chemical reactions and structure
08 p1376 A69-21152

Methyl 2-cyanoacrylate adhesive bonding characteristics, noting importance of film thickness
09 p1529 A69-22316

ACRYLIC RESINS

NT POLYMETHYL METHACRYLATE

Microbial contamination release from impact-fractured tubes, examining bacterial spores growth in fractured methyl methacrylate plastic for application to space exploration
20 p3475 A69-37614

ACRYLONITRILES

Electron beam radiation curing of mercaptan terminated butadiene-acrylonitrile liquid copolymers at ambient temperatures in air
09 p1512 A69-22368

ACTH

U ADRENOCORTICOTROPIN [ACTH]

ACTINIDE SERIES

NT PLUTONIUM ISOTOPES
NT PLUTONIUM 238
NT RADIUM 226
NT THORIUM
NT THORIUM ISOTOPES
NT URANIUM
NT URANIUM ISOTOPES
NT URANIUM 235

Superconductor research noting pressure effects, graphs and tables illustrate behavior of materials considered
20 p3584 A69-38015

ACTINIDE SERIES COMPOUNDS

U THORIUM COMPOUNDS
U THORIUM OXIDES
U URANIUM COMPOUNDS
U URANIUM FLUORIDES
U URANIUM OXIDES

ACTINOGRAPHS

U ACTINOMETERS

ACTINOMETERS

NT DICKE RADIOMETERS

NT PYRANOMETERS
NT RADIOMETERS
NT SOLAR SPECTROMETERS

NT SPECTROHELIOGRAPHS
NT SPECTROPHOTOMETERS
NT SPECTORADIOMETERS
NT ULTRAVIOLET SPECTROMETERS
NT ULTRAVIOLET SPECTROPHOTOMETERS

Satellite actinometric data computerized reduction in U.S.S.R., examining computer program features
[UN PAPER 68-95763] 06 p0916 A69-17038

Narrow and wide angle actinometric instruments on-board Cosmos 122, 144 and 156, describing optical and data acquisition systems
06 p0929 A69-17977

Calibrating long wave actinometric instruments designed for Soviet meteorological satellites
06 p0929 A69-17978

Vertical distribution of ascending long wave radiation, employing actinometric radio sondes
06 p0953 A69-17990

Computer program for processing actinometric data transmitted from Cosmos 122 satellite
11 p1913 A69-24831

Solar radiation actinometric and pyranometric observations during 20 May 1966 eclipse, examining IR component and spectral radiation energies
15 p2697 A69-31257

ACTIVATION

NT NEUTRON ACTIVATION ANALYSIS

Energy exchange between active centers in silicate and phosphate glass, comparing luminescent and lasing properties
15 p2632 A69-30053

ACTIVATION (BIOLOGY)

Biological experiments on cells with/without suppressors, discussing RNA, DNA, enzymatic and UAA codon activities
20 p3480 A69-38265

ACTIVATION ANALYSIS

NT NEUTRON ACTIVATION ANALYSIS

Silicon in iron meteorites and earth core determined by activation analysis on octahedrites, hexahedrites and ataxites
16 p2865 A69-32807

Oxygen 18 adsorption on silicon activation analysis measurements used to obtain kinetic curve for chemisorption from monolayers
18 p3183 A69-35107

Ti and Zr diborides sintering with Cr, Mo, W and Re additions, discussing activation, pressure effects and density
22 p3968 A69-39888

ACTIVATION ENERGY

Temperature dependence of semiconductivity of sintered polycrystalline EuO from current-voltage characteristics, measuring activation energy
02 p0296 A69-11875

Impurity-dislocation interaction in Al alloy by vacancy mechanism and repeated yielding phenomenon, establishing activation energy
04 p0613 A69-14440

Uniaxial compression load effect on activation energy in p-type GaSb single crystals
04 p0644 A69-15269

Activation energies in baffle stabilized flame deduced from reaction zone using gas chromatography
06 p1035 A69-17930

Finite kinetics calculations by computer programs to generate reactions among prescribed reactants
[WSCI PAPER 68-54] 07 p1072 A69-18314

Activation energies of bimolecular multivalent transfer reactions of gaseous compounds, considering bond dissociation energy, length and order
[WSCI PAPER 68-48] 07 p1239 A69-18321

Transfer coefficients for inhomogeneous systems characterized by constant density, mean free path and activation energy of carriers at each point
07 p1193 A69-19024

Oxidation kinetics of niobium titanium alloy in air and oxygen between 650 and 1000 C, analyzing activation energies and nitrogen effects
08 p1331 A69-20194

Creep of high purity Nb-Mo alloys in 800-1300 C range and at 1500-13000 lb/square inch stresses, giving activation energy for creep
10 p1711 A69-23375

Summation curves method for development of active region and time dependence of energy loss during proton flare
10 p1764 A69-23743

Alloying additions effect on plastic deformation anisotropy in GaAs single crystals, determining dislocation activation energies from creep tests
11 p1936 A69-24537

Reaction between nickel-base alloy and hydrogen sulphide at high temperatures under atmospheric pressure, discussing activation energy

12 p2115 A69-26617

Se activation energy dependence on crystals composition and Se concentration, based on Hall coefficient temperature dependence in gallium arsenic phosphides

13 p2317 A69-27875

GaAs photoelectric emission at different activation degrees by adsorbed Cs and BaO layers, noting spectral response characteristics differences and causes

14 p2504 A69-28993

Reaction rate constants of ion-molecule interchange reaction as function of temperature, flow velocity, activation energy and constant part of steric factor P

16 p2747 A69-32312

High temperature creep, discussing creep curves and activation energy

17 p2986 A69-32911

Activation energy of annealing of lattice defects in Au films deposited under irradiation with Au ions

18 p3182 A69-34349

Chemical reactions activation energy at high temperature, noting cross section shape role for deducing activation energy from rate data

18 p3099 A69-34443

Accelerated temperature tests, calculating temperature behavior of hazard rates and activation energy from failure data using computer simulation

18 p3117 A69-34509

Single and two mode laser emission dependence on pumping power distribution between four level active centers of different types

19 p3333 A69-35878

Thermal rare gas release from mineral separates of Mocs meteorite, using method giving activation energies as function of temperature

19 p3419 A69-36141

Finite chemical reaction rate detonation wave interaction with rarefaction wave, noting mixture activation energy and heating power influence

19 p3298 A69-36384

Molybdenum disilicide oxidation kinetics at various temperatures by thermal conductivity method, determining oxidation rates and activation energy

20 p3567 A69-37780

Se activation energy dependence on crystals composition and Se concentration, based on Hall coefficient temperature dependence in gallium arsenic phosphides

21 p3782 A69-39141

Einstein development of theory of fluctuations applied to homogeneous nucleation, calculating activation energy, liquid drop-vapor system equilibrium state peculiarity, etc

22 p3938 A69-40448

Antimony trisulfide single crystals spectral dependence of impurity and stimulated impurity photoconductivities, comparing optical and thermal activation energies

22 p3994 A69-41042

Mean adsorption lifetimes and activation energies of Ag and Au on polycrystalline tungsten substrate in ultrahigh vacuum system free of hydrocarbon contamination

23 p4198 A69-41542

ACTIVE SATELLITES

NT EARLY BIRD SATELLITES

NT SYNCOM SATELLITES

Experimental communication satellites Score, Courier, Telstar, Relay, Syncom, Intelsat 1 and Molniya 1, discussing equipment, results, and ATS program

09 p1608 A69-21272

Preemphasis applications compared in active communication satellite systems for frequency division multiplex telephony and for TV

09 p1449 A69-21275

ACTIVITY [BIOLOGY]

Information theory application to study of biologically stimulating effects of low ionizing radiation doses, thermal energy and other environmental factors

03 p0369 A69-13434

Sensory and motor activity of human subjects exposed to reduced gravitation during aircraft motions along parabolic trajectories

07 p1062 A69-18592

Human postural muscle activity, motor reactions and dexterity during gravitational changes

07 p1063 A69-18593

Myocardial repolarization changes in healthy persons with restricted motor activity

07 p1066 A69-18984

Hypokinesia effects on rats noting body and organ weights, liver glycogen and N content and tissue proteolysis of skeletal muscles

08 p1262 A69-19928

Prolonged hypokinesia effects on white rats resistance to convulsions induced by high altitude simulation

08 p1262 A69-19929

Stability of male cardiovascular, respiratory and motor systems functional conditions after physical activity in pure O medium at high altitude pressure

08 p1262 A69-19931

Motion sickness inhibitive effect on stomach motor activity, measuring biopotential of stomach wall, pyloric sphincter and ganglions

08 p1263 A69-19935

Corticosteroid and catecholamine metabolism change in rabbits during sharp limitation of motor activity

12 p2021 A69-26973

Integrated device to detect biological growth and catabolic and anabolic activity in extraterrestrial exploration

15 p2556 A69-31306

Biological material flow phenomena, discussing rheological approach, microcirculation, macrocirculation, instrumentation and mathematical model for quantitative observation

20 p3473 A69-37602

Myocardial repolarization changes in healthy persons with restricted motor activity

20 p3480 A69-38232

Neuronal organization of initial afferent inflow in thalamic visual center /lateral geniculate body /LGB/ of unanesthetized cats/, noting unit activity

22 p3879 A69-40845

Temperature dependence of afferent and efferent spontaneous activity of spinal cord, using filament recordings from ventral and dorsal roots in anesthetized cats

23 p4093 A69-42066

ACTIVITY CYCLES [BIOLOGY]

Latent desynchronization, discussing life system and distortion, body rhythms coordination, circadian rhythms and adaptation to new system of time

15 p2557 A69-31457

Biological clocks, discussing circadian rhythms of organisms using animal experiments and physical oscillator model

21 p3653 A69-38895

Desynchronization and resynchronization of human circadian rhythms of activity, body temperature and urine excretion during isolation in underground bunker in various conditions

21 p3660 A69-39173

ACTUATION

Jet pump actuation of intermittently operating variable density closed circuit subsonic wind tunnels, measuring wind tunnel power factor

11 p1892 A69-25371

ACTUATOR DISKS

Rotary actuator to create realistic control effects in hydraulic loading system of jet flight-training simulators

20 p3511 A69-38182

Actuator disk model for study of azimuthally nonuniform MPD arc plasma dynamics [AIAA PAPER 68-714]

24 p4359 A69-43570

ACTUATORS

NT ACTUATOR DISKS

Solid propellant cartridges, discussing uses for starting large engines and providing auxiliary power in missiles or actuating devices

02 p0302 A69-11524

Pneumatic stepping motor actuation system with pure fluid valves and signal processing and minimum number of moving mechanical parts for high g and temperature environments

02 p0196 A69-12086

Gas servo design utilizing floating flap disk switching valves and pulse-length modulated pressure waves to actuate on-off switch [AGARDOGRAPH-118]

08 p1257 A69-20950

Inertial servomechanisms actuators, discussing dynamic characteristics, power, vibration damping, matching, couplers, etc

11 p1826 A69-25119

Optimal controllers analytical design for closed loop systems with pure time delay in actuating mechanism using differential equations

12 p2045 A69-25959

Hydraulic servo actuators load effect included in control loop actuator simulation

12 p2016 A69-26266

Working fluids elastic characteristics variability effect on hydraulic actuator dynamics, studying adiabatic and isothermal conditions

14 p2405 A69-29423

Hydraulic regenerative servomechanism system for electrohydraulic actuator design, discussing specifications and test results

15 p2553 A69-31294

Detonation system for exploding missile warheads, discussing trigger detonation and safety release elements

17 p3050 A69-33698

Duplex servomechanism package sized for stabilator channel of F-4 aircraft providing compact integrated control surface positioning [AIAA PAPER 69-788]

19 p3249 A69-35640

Multilevel mathematical model of oculomotor apparatus using neuron networks and complex activators, including computer analysis

20 p3470 A69-37245

Design concepts and principles of systems for monitoring of Concorde flight control actuators, considering servo control, control interconnections and control input system

20 p3467 A69-38190

Motion stability of hydraulic actuators with open loop control system in presence of nonlinear negative resistance damping

21 p3650 A69-39716

Triple redundant actuator for fly-by-wire control system, noting electrohydraulic servomechanisms in side-by-side arrangement

22 p3870 A69-41242

All-electric nonlinear actuator steering advanced tactical missiles, noting 99.29 percent delivered unit reliability during mass production

23 p4225 A69-42458

Undissolved air effects on working fluids elastodynamics in aircraft hydraulic actuators

24 p4255 A69-43076

ACUITY

U VISUAL ACUITY

ADAPTATION

NT ACCLIMATIZATION

NT ALTITUDE ACCLIMATIZATION

NT COLD ACCLIMATIZATION

NT DARK ADAPTATION

NT DESERT ADAPTATION

NT LIGHT ADAPTATION

NT RETINAL ADAPTATION

Dog adaptation to 60 or 90 mm Hg carbon dioxide in 260 mm Hg total pressure environment, noting arterial pH and bicarbonate level

03 p0375 A69-14071

Organic reaction and adaptation of rabbits and dogs to simulated weightlessness and acceleration compared with orbital flight data of human responses

03 p0376 A69-14192

Physiological mechanisms of weightlessness on human organism, discussing adaptation to weightlessness

03 p0377 A69-14197

Human physiology advances in connection with space exploration, discussing internal medium adaptation to space environment

[UN PAPER 68-95729]

06 p0873 A69-17061

Overt motion sickness prevention by incremental exposure to Coriolis accelerations

07 p1067 A69-19425

Work capacity and adaptation characteristics of humans confined in small chamber and experiencing effects of isolation and sensory deprivation

08 p1262 A69-19838

Compensatory reactions to prolonged weightlessness in human and animal organisms emphasizing blood circulation, heart, metabolism, digestive and nervous systems

17 p2909 A69-33577

Human performance and adaptation to space flight effects under low calorie diet including optimal proportion of basic nutrients and amino acids

20 p3482 A69-37621

Colpoda maupasis resistance to Martian atmospheric pressure and oxygen partial pressure noting adaptation, reproduction and existence

20 p3478 A69-37627

Ear-hand coordination adaptability tested by exposure to auditory rearrangement entailing 30 degree rotation of interaural axis produced by electronic pseudophones

21 p3663 A69-38899

Human hearing and vision mathematical simulation, relating signal perception parameters to corresponding adaptation processes

23 p4109 A69-41979

ADAPTERS

Nonorientable five channel adapter with spherical measuring head for three dimensional gas flow measurement, noting sensitivity to mechanical disturbances in calibration

11 p1888 A69-25340

Adapter between dielectrically loaded waveguides with different cut-off frequencies and sizes for pulse compression systems

14 p2423 A69-29760

Adaptor for Debye-Scherrer powder camera to take high quality photographs even at liquid N temperature

19 p3313 A69-36493

ADAPTIVE CONTROL

NT LEARNING MACHINES

NT SELF ADAPTIVE CONTROL SYSTEMS

Adaptive detection mode for surveillance radar, using detection threshold proportional to spatially sampled clutter level estimates for regulation of false alarm probability

01 p0026 A69-10178

Comparative analysis of variable structure adaptive systems and time optimal system for control of plant described by differential equation

01 p0052 A69-10795

Multidimensional nonlinear plants adaptive control by direct integration, identifying differential equations coefficients

01 p0053 A69-10875

Optimum linear filters for signal detection against background noise using Hodges-Lehmann method

02 p0223 A69-11565

Optimal adaptive control of discrete linear systems with unknown gain, considering Gaussian distribution functions and random disturbances

02 p0224 A69-11962

Dynamic flight simulators fidelity assessment, discussing hybrid method based on pilot psychomotor responses

02 p0203 A69-12215

Gradual memory system for noise reduction in adaptive control system

02 p0212 A69-12606

Adaptive multiplex telemetry use in scientific satellite data management

02 p0212 A69-12817

Adaptive compression system for predicting and encoding video data for transmission in noiseless channel

03 p0427 A69-12869

Optimal adaptive systems synthesis by statistical theory

03 p0409 A69-12977

Adaptive processing limited memory receiver for synchronous detection of signals of unknown amplitude

03 p0400 A69-13228

Sensitivity models for adaptive and self adaptive systems design

04 p0582 A69-14797

Servosystems and control, discussing open and closed loops and parallel, decoupling, multivariable and adaptive control

04 p0550 A69-15180

Digital controller weighting function sectionalization to simplify logic in developing adaptive control system

05 p0739 A69-16386

Bayes estimator in decision directed adaptive detection problem, noting allowance for decision errors

05 p0740 A69-16583

Digital adaptive recording system /DARS/ 12 channel flight recorder

05 p0766 A69-16754

Adaptive processes - IEEE Conference, University of California, Los Angeles, December 1968

06 p0899 A69-17350

Design algorithm for adaptive control of systems using nonlinear integral equations with bounded input functions, formulating optimization as conditional minimization problem

06 p0900 A69-17351

Adaptive modeler to estimate state and future trajectory of unknown plant having automatically synthesized control

06 p0900 A69-17353

Adaptive control of reflective satellite communication system

06 p0887 A69-17356

Stochastic approximation algorithms for adaptive linear discrete time system identification using noisy input

06 p0904 A69-17940

Adaptive pattern recognition, discussing classification techniques and merging into other aspects of artificial intelligence research

07 p1088 A69-18381

Self organizing and learning control systems, adaptive systems theory and defining self organizing control systems

07 p1114 A69-18382

Learning matrices applied to mathematical relationship establishment during adaptation stage between input and output of adaptive systems

07 p1088 A69-18387

Adaptation process of management systems from point of view of control system philosophy

08 p1422 A69-20197

Function generator for approximating function of many variables without recourse to multiplication, providing continuous functions representation

08 p1278 A69-20235

Stability analysis of model reference adaptive control system with sinusoidal inputs, using reformulation of fourth order Runge-Kutta method

08 p1297 A69-20357

Welding current pulsation techniques for adaptive control of gas tungsten arc welding processes

09 p1508 A69-22334

Adaptive control algorithm operating on-line to make discrete time adjustments in controller parameters of continuous time control system

09 p1474 A69-22441

Microelectronics for digital adaptive controls, discussing digital filter design and chips required in fabrication

09 p1474 A69-22453

Adaptive logic trees with two input gates for mechanization of any desired function of variable set, deriving multilevel representations of functions

09 p1475 A69-22583

Estimation system distinction from adaptive system, discussing network of adaptive estimation systems

11 p1858 A69-24937

Spontaneous decomposition of image space into compact sets /images or classes/ using adaptive dispersion method to reduce system learning time

11 p1859 A69-24964

Kalman sequential estimation adaptation to target maneuvers without sacrificing tracking accuracy in nonmaneuvering portions of trajectory

11 p1861 A69-25455

Aircraft stability derivatives determined by adaptive method, emphasizing physical and mathematical characteristics of learning model

11 p1824 A69-25671

Passive adaptive sampled data control system with conditional feedback, discussing transfer function role and minimization of external disturbances and internal parameter variations effects

13 p2238 A69-27394

Extremal system of adaptive circuits adjusted by random search with varying random step distribution function

14 p2425 A69-28824

Adaptive signal pattern dependent feedback delta modulation for improved signal/quantization-noise ratio

15 p2565 A69-30177

Adaptive filter for estimating system noise inputs from actual residuals developed to control Kalman filter in satellite orbit estimation

18 p3110 A69-34676

State space structure of model reference adaptive control and parameter tracking systems subject to noise

18 p3111 A69-34686

Adaptive control for Mars entry based on sensitivity analysis

20 p3573 A69-37193

Adaptive compensation to minimize human task in continuous manual control system using various models

20 p3482 A69-37721

Dynamic system absolute stability and sensitivity to parameter variations in linear part of system calculated by graphical and analytical techniques

21 p3685 A69-38729

Adaptive control system for aerospace vehicles, describing model reference network for control parameter determination

21 p3688 A69-39857

Nonlinear adaptive reaction jet attitude control for long life space vehicles, providing optimal performance over bias acceleration disturbances

22 p4036 A69-40328

Adaptive control system synthesis for reducing computation labor for controlled inertialess plant, reproducing probability density function to describe unknown parameters

22 p3918 A69-40739

Optimum linear adaptive design of dominant-type systems with large parameter variations assuring system response within prescribed bounds by reducing internal noise sensitivity

22 p3918 A69-41011

Performance characteristics of multivariable model reference adaptive systems synthesized by Liapunov method analyzed using computer simulation

22 p3919 A69-41201

Flexible format adaptive telemetry encoder design, discussing system design and implementation technique with modular units

23 p4119 A69-41748

Absolute invariance of perturbations affecting dynamic plant achievable by inertial measurement of highest derivatives

23 p4145 A69-42369

Adaptive cost equations in computer programs supporting launch vehicle long range planning, based on launch vehicle anticipated usage

24 p4392 A69-42815

Adaptive control systems analysis and application, noting off-line and on-line optimization, dynamic programming, linear systems, etc

24 p4289 A69-42946

Adaptive manual control rapid variation determined by input, controlled element, task and programmed adaptation systems, discussing human strategy changes

24 p4274 A69-43022

Adaptive multicategory pattern classification system, using independent samples to form mean-square approximations to Bayes discriminant functions

24 p4285 A69-43134

Optimal hinged two body satellite configurations in circular and elliptical orbits, discussing need for adaptive attitude control for transient and steady state operation

24 p4393 A69-43247

Adaptive control function technique to design lateral stability augmentation system for hypothetical manned, lifting body entry vehicle

24 p4394 A69-43301

Adaptive model of human operator control strategy in response to sudden changes in plant dynamics and transient disturbances

24 p4276 A69-43325

ADAPTIVE FILTERS

Self adaptive systems stability analyzed using filter and correlation methods, considering higher harmonics at rectifier and synchronous detectors output

04 p0582 A69-14796

Adaptation in nonstationary environment formulated for tapped delay line filters with adjustable time varying gains

05 p0737 A69-15806

Identification of finite memory, time discrete linear systems by Kiefer-Wolfovitz stochastic approximation procedures, presenting two algorithms for sequential identification

06 p0900 A69-17359

Microelectronics for digital adaptive controls, discussing digital filter design and chips required in fabrication

09 p1474 A69-22453

Digital signal tracking module operation and stability, considering use of interconnecting modules to achieve adaptive tracking

09 p1459 A69-22477

Adaptive optimal estimation of sampled stochastic process with finite state unknown parameters, using separation technique

11 p1858 A69-24935

Polyharmonic predictive and self tunable filters synthesis based on signal periodic components detection, noting role in information transmission and processing systems

11 p1849 A69-24966

Adaptive filtering to prevent divergence observed in application of Kalman filter to orbit determination

12 p2045 A69-26059

Threshold signal gain estimated in Glaser frequency filter self adaptation process during transformation from square law summator into matched filter

15 p2576 A69-30344

Adaptive filter with operational amplifier and digital to analog converters for bandpass characteristics, discussing pattern recognition application

17 p2942 A69-34093

Adaptive filter for estimating system noise inputs from actual residuals developed to control Kalman filter in satellite orbit estimation

18 p3110 A69-34676

Adaptive predicting filter mathematical model based on information probability, using adaptive systems latent memory

19 p3287 A69-36665

Weighting coefficients calculations by recursive algorithm for designing optimal discrete adaptive Kalman filter

20 p3509 A69-37142

Adaptive tracking filter for bending mode stabilization of large flexible boosters [AIAA PAPER 69-874]

21 p3823 A69-39400

Optimum filter design for noisy analog feedback system with forward and feedback disturbances, using mean square error criterion between signal and data

21 p3687 A69-39449

Adaptive filtering to prevent divergence observed in application of Kalman filter to orbit determination

23 p4146 A69-42446

Adaptive signal processing interference rejection technique for suppression of cochannel AM interference in congested VHF tracking receiver

23 p4128 A69-42503

Microcircuit phased array electronic countermeasures system design and hardware techniques for aerospace applications, analyzing adaptive, retrodirective and combination array systems

24 p4287 A69-43110

ADDERS [CIRCUITS]

U ADDING CIRCUITS

ADDING CIRCUITS

Miniaturized adding sample and hold device with adjustable delay applied to digital filters

04 p0574 A69-14350

Weak periodic signal separation from noise using single and multichannel analog adders

04 p0597 A69-14848

Weak periodic signal separation from noise using single and multichannel analog adders

15 p2607 A69-30241

Subtractor performance for processing correlated random signals with different spectral widths in signal delay time indicator, discussing errors

15 p2572 A69-30346

ADDITION RESINS

U ACRYLIC RESINS

U POLYMETHYL METHACRYLATE

ADDITION THEOREM

Bessel functions new addition theorem suggested from mathematical investigation of ideal discriminator output voltage

19 p3266 A69-35767

ADDITIVES

NT ADMIXTURES

NT ANTIOXIDANTS

NT OIL ADDITIVES

NT OPACIFIERS

NT PLASTICIZERS

NT PROPELLANT ADDITIVES

NT PROPELLANT BINDERS

NT SOLID ROCKET BINDERS

N- and p-type InSb and GaSb single crystals microhardness, noting decrease after doping is limited to thin surface layer

01 p0139 A69-10832

Silicon doped p-n GaAs single crystals and epitaxial layers energy spectrum, studying shift in position of emission band maximum

01 p0139 A69-10833

Indium phosphide p-n junction current-voltage characteristics various temperatures, considering degree of doping effect

01 p0139 A69-10885

Tellurium-doped gallium arsenides stacking-faults transmission electron microscopic study

03 p0486 A69-13614

Absorption and IR emission of nickel and cobalt doped alkali halides

03 p0490 A69-13941

Temperature drop in combustion chamber of open cycle MHD power plant due to added potassium carbonate as function of various parameters

03 p0369 A69-14162

Temperature dependence of Hall coefficient, conductivity and carrier mobility in manganese doped indium antimonides

04 p0643 A69-15257

Nonuniform distribution and concentration of doping materials in semiconductors determined by measuring optical reflection coefficient

05 p0764 A69-16664

Active region doping effect on laser diode threshold current, noting current dependence on loss coefficient in interband transition model without selection rule

06 p0933 A69-17257

Combustion mixture composition dependence on electrical conductivity of products with potassium additive, discussing hydrocarbon fuels

06 p0870 A69-17908

Automatic test set for measuring dopant concentration profiles in epitaxial films

07 p1130 A69-18245

Adiabatic kinetic calculations of chemical additive effects on ignition delay of hydrogen-oxygen-argon gas mixtures [WSCIPAPER 68-52]

07 p1239 A69-18316

Doped silicon dioxide films as controlled reproducible diffusion sources for silicon devices fabrication

07 p1198 A69-18620

Additive processing technique for fabrication of single sided, double sided and multilayer printed circuit boards

07 p1100 A69-18621

Impurities effect on electron energy spectrum in semiconductors at zone boundary and arbitrary doping levels, using Green function

09 p1554 A69-21467

Strongly doped n-type indium antimonide, determining dependence of limiting electron concentration on dopant impurity nature

09 p1558 A69-21869

Face effect in p- and n-type gallium antimonide single crystals doped with zinc and tellurium

09 p1558 A69-21870

Noble gas additives for triggering stability of pulsed argon ion lasers, discussing repetition rate and power loss

10 p1702 A69-23341

Soviet book on highly doped semiconductors covering energy spectrum analysis, kinetic effects, optical properties, fabrication and applications

10 p1746 A69-23522

Alloying additions effect on plastic deformation anisotropy in GaAs single crystals, determining dislocation activation energies from creep tests

11 p1936 A69-24537

Gaussian summation for ion implantation profile control in semiconductors, describing computer program selecting optimum energies to fit predetermined profiles

11 p1857 A69-24546

Monograph on effect of boron, zirconium and titanium on austenite transformation of CrMo steels bainite and martensite covering carbides, nitrides, mechanical properties, etc

11 p1903 A69-24634

Molybdenum and vanadium effects on nickel steel properties, stressing brittleness avoidance and quenchability

11 p1904 A69-24642

Molybdenum, titanium and cobalt effects on nickel maraging steel strength and ductility

11 p1904 A69-24643

N and p type InSb and GaSb single crystals microhardness, noting decrease after doping is limited to thin surface layer

11 p1936 A69-24699

Silicon doped p-n GaAs single crystals and epitaxial layers energy spectrum, studying shift in position of emission band maximum

11 p1936 A69-24700

Aluminum additive effects on copper-titanium alloy decomposition, discussing Guinier complexes, heterogeneous nucleation, plastic deformation and low temperature aging

11 p1905 A69-24922

Structural imperfections of CdSb single crystals undoped and doped with tellurium and indium noting etching techniques, grain boundaries and impurities

11 p1938 A69-25030

Surface-active additives effect on crystallization kinetics of sial type glasses, discussing surface tension

11 p1907 A69-25032

Sb addition effect on electrical conductivity and Hall effect in PbTe single crystals over temperature range

11 p1939 A69-25706

Tellurium doping effect on phonon diffusion in GaSb, discussing thermal conductivity at low temperatures

12 p2142 A69-26294

Molybdenum additive role in deformed carbonylic nickel recrystallization process

12 p2114 A69-26454

Bismuth doped lead tin telluride diode lasers with low threshold currents at cryogenic temperatures, discussing doping effect

12 p2109 A69-26641

Indium phosphide p-n junction current-voltage characteristics at various temperatures, considering degree of doping effect

12 p2144 A69-26649

Thermionic converter improvements by electronegative additives and emitter surface finishes, noting cesium oxide, heat treatments with electropolishing, electroetching, etc

14 p2397 A69-29173

Polyurethane with additives for fuel fire control in aircraft structures, achieving desired protection without impairing foams mechanical properties

15 p2561 A69-30311

Impurities effect on electron energy spectrum in semiconductors at zone boundary and arbitrary doping levels, using Green function

15 p2669 A69-30712

Additives effect on flame propagation velocity and stability in N diluted hydrogen-chlorine propellants, noting entrained air role [WSCIPAPER 69-13]

16 p2831 A69-32353

Doped recrystallized ammonium perchlorate effects on composite propellant burning rates [WSCIPAPER 69-18]

16 p2831 A69-32356

Decomposition of ammonium perchlorate containing additives introduced by spray drying [AIAA PAPER 69-502]

16 p2834 A69-32752

German monograph on yttrium addition effects on tension and compression behavior of Nb and Mo at high temperature in vacuum

17 p2990 A69-33570

Lithium-doped silicon solar cells development for radiation environments, discussing contractor functions, dopants, etc

19 p3251 A69-35692

Ni base superalloy stacking fault energy, studying effects of various solute additions

19 p3343 A69-35925

InSb single crystals impurities incorporation and distribution, concluding electrical properties vary with homogeneity or heterogeneity of dopant microdistribution

19 p3389 A69-36547

Aluminum alloying additives effects on tungsten disilicide corrosion resistance, studying plasticity properties and oxidation rate

20 p3561 A69-37376

Aluminum doped silicon solar cell energy loss coefficient under proton and high energy electron irradiation

20 p3465 A69-37911

Silicon dioxide film doped with Al to increase MOS structure radiation resistance

20 p3584 A69-38070

Bcc metals strengthening and alloy softening mechanisms, studying temperature and additives effects

22 p3970 A69-40166

Strong doping criterion for Si with deep level impurity centers based on electron spectra of fast surface traps

22 p3992 A69-40604

Compactibility dependence of Fe, Co and Ni powders with Zr, Nb and Mo carbide additives on pressure, carbide content and lubricant

22 p3970 A69-40634

Doped silver carbonate defect structure and doping effect on reaction kinetics by X rays and electron paramagnetic resonance, finding new crystal structure

22 p3993 A69-40720

Defect structure of ceramic Ba titanate doped with Cr ions, evaluating visible, IR and EPR spectra

22 p3996 A69-41160

Ba titanate modifiers, classifying cations replacing Ti and Ba ions

22 p3996 A69-41161

Critical transition temperature of vanadium oxide semiconductors as function of doping element content and lattice constant, using X ray diffraction

23 p4198 A69-41564

N or He additions effects on carbon dioxide laser design and power output

24 p4327 A69-42640

ADDRESSING

Block structures and indirect addressing, discussing SNOBOL modifications and naming constraints

19 p3280 A69-36207

Digital data compression system transmission error statistical analysis, emphasizing addressing schemes effect on compression ratio

19 p3272 A69-36261

ADDUCTS

Enthalpies determination of adduct formation of sulfonides, sulfanilamides and thionylamides with

trimethylalane, noting replacement effect on electron donating ability of oxygen 07 p1074 A69-18631

ADENINES

Electron spin resonance spectra of gamma irradiated single crystals of 9-methyladenine, analyzing H abstraction radical and temperature effects 19 p3264 A69-35974

Adenylates condensation in protein-associated amino acids as clue to peptide bond synthesis within proto cellular structures 22 p3895 A69-40048

ADENOSINE TRIPHOSPHATE [ATP]

NADH stimulation of ATP dependent carbon dioxide fixation in crude extracts of *Hydrogenomonas facilis*, considering allosteric regulation of phosphoribulokinase activity 15 p2554 A69-30036

Adenosine triphosphate /ATP/ content of terrestrial soils, based on firefly bioluminescent reaction, for Mars soil problems 20 p3473 A69-37567

Adenosine triphosphate /ATP/ production in normal cells and sporulation mutants of *Bacillus subtilis*, discussing applications of ATP synthesis response to C sources 22 p3886 A69-41076

Cardiac myosin characteristics obtained from dogs with naturally occurring heart failure, showing reduced adenosinetriphosphatase activity as compared with normal dogs 24 p4258 A69-42630

ADENOSINES

U ADENOSINE TRIPHOSPHATE [ATP]

ADHEROMETERS

U ADHESION TESTS

ADHESION

Glow discharge technique for dielectric layer deposition between metal interconnection patterns in multilayer integrated circuits, noting adhesion and feedthrough problems 06 p0931 A69-17201

Fracture toughness of laminated adhesive bonded structures and monolithic aluminum, considering fracture stresses and ductile and brittle failure 09 p1526 A69-22318

Gold-underlayer film combinations adhesion to oxide substrates, describing adhesion changes as function of Au and underlayer film thickness, time, environment, etc 13 p2321 A69-28007

Friction resistance between steel and ground basal in ultrahigh vacuum, showing increase by adhesion 13 p2298 A69-28014

Collection of articles on adhesion and adhesives, Volume 2, Materials 14 p2468 A69-29338

Fiber reinforced adhesives, discussing adhesion definition and variables separation, applications and testing 14 p2455 A69-29343

Glass finish and glass resin chemical bond adhesion roles in filament wound structures response, failure and filament strength 14 p2468 A69-29345

Polyvinyl acetate and polyvinyl alcohol thermoplastic adhesives, discussing gluing properties, chemical properties, preparation, polymerization methods 14 p2469 A69-29347

Interface friction and adhesion of alloys workpieces and die materials under pressure and temperatures typical of plastic deformation 15 p2629 A69-30902

Adhesive pressure welded joints tightness and fabrication stability analyzed on duraluminum sheet samples 17 p2978 A69-32949

Quartz fiber adhesion to Re measured in LEED /low energy electron diffraction/ apparatus for clean and O layer surfaces, noting brittle fracture 18 p3156 A69-35182

Room temperature vulcanizing silicone rubber adhesive sealants strength and self bonding, describing primerless adhesion to Ti and Al alloys, Al, Ni and stainless steels 19 p3356 A69-35532

Metal fiber reinforced thermoplastic composites, analyzing unidirectional, crossed and random orientation cases taking into account adhesion efficiency between fiber and matrix 20 p3559 A69-37083

Plasma metal spray coating for Al and Mg alloy aircraft components adhesive bonding repair technique compared to welding and electroplating 21 p3728 A69-38462

Silico-organic liquid water repellant coatings for increasing binder adhesion to glass fiber in glass fiber reinforced plastic materials of aircraft components 21 p3752 A69-38876

Dynamic equilibrium of making and breaking adhesion bonds between polymer segments and dissimilar surfaces through water, allowing thermal stresses relaxation 24 p4326 A69-43458

ADHESION TESTS

Book on adhesive bonding techniques covering chemical types, mechanical and handling characteristics, application and mixing, joint design, non-destructive testing, documentation tooling, etc 01 p0084 A69-10130

Static adhesion of metals in hot oxidizing gas environment, considering dry lubrication to prevent adhesion [IME PAPER 4] 07 p1139 A69-18567

Microwave techniques for bondline defects and thickness of reentry elastomeric heat shield material bonded to titanium alloy 09 p1499 A69-22306

Pulse echo ultrasonic nondestructive testing of C-5 adhesive bonded aluminum composites with multiple bond lines 10 p1698 A69-23047

Pressure sensitive adhesives composition, tapes tacking and peeling theory and tests including electrolytic corrosion and insulation evaluation 14 p2468 A69-29342

Ultrasonic inspection systems to determine and record bond quality on all adhesive bonded assemblies of Saturn S-2 booster and Apollo Command and Service Modules 15 p2632 A69-31515

Mathematical model of yielding of adhesive bonds in form of viscous threads between elastic bodies, obtaining solution to two dimensional problem 18 p3215 A69-34569

Plating wear resistant electrodeposits of Ag, Cu, Ni and Cr on Ti, noting adhesion tests 18 p3148 A69-34654

Low temperature adhesive shear tests to measure force to break ice away from stainless steel surfaces coated with various bonded solid lubricants 19 p3323 A69-35581

Vacuum apparatus for measuring uniaxially loaded metal surfaces interfacial adhesion, showing surface oxide removal effectiveness influence in adhesion strength 21 p3689 A69-38594

Adhesive bonding of optical components, discussing material types, test methods, problem of operation at cryogenic temperature, etc 24 p4326 A69-43465

ADHESIVES

NT GLUES

NT PASTES

Phenolic and epoxy adhesives for metal-metal and honeycomb bonding, discussing cold cure adhesives for aircraft structures and aircraft floor sandwich design optimization 04 p0606 A69-14845

Bioadhesive investigation in echinoderms extended to class Holothuroidea, using electron microscope with correlative light microscopy for tube feet of sea cucumbers 05 p0708 A69-15984

Cryogenic behavior of adhesive materials used in fabrication of liquid hydrogen/liquid oxygen powered Saturn S-4B stage 05 p0784 A69-16487

Helicopter rotor blades in metal sandwich bonding, discussing component parts assembly by adhesive films 07 p1143 A69-19731

Spacecraft component heat sterilization, discussing heat effects on electrical connections, polymers and adhesives 08 p1284 A69-20267

Inhomogeneous half planes equilibrium bonded by elastic layer, noting tangential stresses at interfaces 09 p1611 A69-21482

Capacitance methods for measuring adhesives mechanical properties in thin film bonded joints, noting results for tension, compression and shear loading 09 p1500 A69-22309

Methyl 2-cyanoacrylate adhesive bonding characteristics, noting importance of film thickness 09 p1529 A69-22316

Adhesive bonded lap joint strength dependence on adherend mechanical properties under conditions of homogeneous adherend and cohesive failure 09 p1530 A69-22317

Thermoplastic resins as matrices for glass reinforced plastics and aerospace structural and nonstructural adhesives 09 p1530 A69-22365

Controlled expansion of captive silicone rubber used to achieve pressure control for adhesive bonding interface 09 p1512 A69-22367

Quality control tests for adhesives used in structural parts including ultrasonic and nondestructive tests 09 p1513 A69-22564

Aluminum bonded structures corrosion resistance through adhesive primers and surface treatments 10 p1700 A69-24088

Monograph on molecular structure and polymer properties, covering coherent adhesive layer of polymeric material for paint film in protective coatings 10 p1717 A69-24187

Metal adhesive bonding strength behavior in satellite and space vehicle applications, noting effects of various space environment factors 12 p2101 A69-25858

Metal bonded and sandwich structures application to space vehicles, launch vehicles, rocket motors, ground equipment and balloon gondolas, noting inspection methods 12 p2101 A69-25859

Adhesive metal bonding methods including continuous surface bonds, core to face bonds, lap joints and structural adhesive materials 14 p2454 A69-28847

Collection of articles on adhesion and adhesives, Volume 2, Materials 14 p2468 A69-29338

Epoxy adhesives physical chemistry, curing processes, formulation, surface application methods, testing and health hazards 14 p2468 A69-29339

Thermosetting adhesives properties and structural applications in aircraft, space and automotive use, discussing polymer systems, moisture, surface preparation, aging, etc 14 p2468 A69-29340

Elastomeric adhesives diffusion theory, tack increasing methods, cast polymer films, properties and applications in shoe manufacturing and sealants 14 p2468 A69-29341

Pressure sensitive adhesives composition, tapes tacking and peeling theory and tests including electrolytic corrosion and insulation evaluation 14 p2468 A69-29342

Fiber reinforced adhesives, discussing adhesion definition and variables separation, applications and testing 14 p2455 A69-29343

Heterocyclic-aromatic organic polymer adhesives used for high temperature structural purposes, discussing processing, testing, formulating and impact on basic research 14 p2469 A69-29346

Polyvinyl acetate and polyvinyl alcohol thermoplastic adhesives, discussing gluing properties, chemical properties, preparation, polymerization methods 14 p2469 A69-29347

High temperature structural adhesives at temperatures of 350 F and higher including epoxies, polyimides, amide-imides and polybenzimidazoles 15 p2642 A69-30329

High temperature structural adhesives developed from thermoplastic aromatic-heterocyclic polymers 19 p3357 A69-35560

Low temperature bond failures of room temperature vulcanizing methyl-phenyl adhesive bonds attributed to thermal stress cracking of primer, presenting in-process tests 19 p3321 A69-35563

Adhesives and adhesive resin bonding, describing internal stresses in joints, joints design for bonding, strength, bonding processes and testing 21 p3752 A69-38932

Load transfer to sheet metal plate from bonded strip axially loaded by single force, assuming linear viscoelastic adhesive layer 22 p4038 A69-39896

Outdoor aging effects on unstressed adhesive-bonded Al to Al lap shear joints 24 p4319 A69-42932

Adhesive joints design with uniform shear stress for prestressing wood beams 24 p4323 A69-43425

RTV silicone rubber for corrosion control coatings, high strength adhesives and low density sealants in aircraft structures

24 p4338 A69-43457

Real shear modulus and mechanical damping characteristics of cured adhesives measured for temperature effect, using torsion pendulum apparatus

24 p4338 A69-43460

Adhesive bonded joints for glass resin composite sandwich helicopter structures, describing aircraft applications

24 p4403 A69-43462

Gel permeation chromatography to measure rate of adhesive aging and curing in one shot epoxy tapes, noting handling techniques and space applications

24 p4338 A69-43463

Anaerobic adhesives for aircraft bonding tested for mechanical properties, noting advantages over epoxy adhesives

24 p4338 A69-43464

ADIABATIC CONDITIONS

Nonlinear adiabatic pulsations of sequence of massive stars of uniform composition, allowing for radiation pressure variations

01 p0149 A69-10266

Rotating star adiabatic axisymmetric motion solved numerically for small initial deviation from hydrostatic equilibrium

02 p0317 A69-11955

Adiabatic stirred reactor, discussing steady state nonlinear equations of reactant gases combustion

02 p0352 A69-12316

Short term weather forecasts by means of hydrodynamic equations in adiabatic approximation, noting atmospheric motions and processes, adiabatic invariants and meteorological fields

03 p0459 A69-13332

Thermal nonequilibrium of unsteady adiabatic gas flow in nonheat conducting tube with open ends

06 p0911 A69-17813

Radio wave propagation in unstable inhomogeneous medium with space-time dispersion, showing adiabatic compression or expansion of wave packet spectrum

10 p1658 A69-23955

Transport processes under adiabatic conditions between external magnetic field and thermal and electrical gradients in solid, defining galvanomagnetic and thermomagnetic effects

13 p2299 A69-28129

Climate studies with allowance for radiative heat inputs, constructing nonadiabatic motions model for improving prognosis

14 p2477 A69-29827

Conical shock wave-turbulent boundary layer interaction data obtained for adiabatic wall conditions at supersonic free stream Mach numbers, including suction effects

[AIAA PAPER 69-450] 16 p2773 A69-32754

Adiabatic and diabatic processes contributions to vertical atmospheric motions profile and IR cooling components comparison

17 p2962 A69-33689

Vibrational deexcitation shocks in expanding nonequilibrium nozzle flows extended to include embedded adiabatic shock

18 p3089 A69-35386

Solar protons captured in earth dipole trap, discussing conditions for nonadiabatic escape

20 p3587 A69-37042

Computer calculation of adiabatic expansion of air, allowing for specific heat ratio and compressibility factor changes

24 p4244 A69-43088

Adiabatic model deflagration limits for steady linear monopropellant burning at Lewis number of unity and one step gas phase reaction

24 p4415 A69-43670

ADIABATIC EQUATIONS

Equation describing statistically trapped particle motion under influence of fields varying in time and space

07 p1209 A69-19375

Double adiabatic MHD fluid equations for electrons and ions with pressure gradients for collisionless plasma in magnetic field

08 p1369 A69-20815

Adiabatic theory of charged particle motion in electromagnetic field, applying asymptotic methods of nonlinear oscillations theory

11 p1948 A69-24857

Group properties of adiabatic motion equations of medium in relativistic hydrodynamics, including solutions of subgroups applicable to multiple particle production

19 p3301 A69-36843

ADIABATIC FLOW

Nonisentropic simple waves in two dimensional steady flow of ideal gas

05 p0752 A69-16687

Sonic transmission of diatomic nitrogen during nozzle flow, presenting density dependence of natural oscillation energies and temperature

10 p1632 A69-22912

Dense plasma flow across transverse inhomogeneous magnetic field, proving adiabatic nature of motion

12 p2137 A69-26528

Two dimensional adiabatic transverse normal modes of inviscid compressible uniformly rotating fluid, discussing harmonic wave propagation in opposite directions and rotation effects

14 p2431 A69-29581

Turbulent base flowfields in multinozzle configurations, considering adiabatic flow and determining base pressure distribution from reverse jet impingement

[AIAA PAPER 69-570] 16 p2733 A69-32751

Adiabatic compressible turbulent boundary layer equations for two dimensional and axisymmetric flows, discussing methods of solution based on eddy viscosity formulation

[AIAA PAPER 69-687] 17 p2955 A69-33470

Adiabatic compressible turbulent equilibrium boundary layer integral method analysis extended to study nonequilibrium laminar flows, deriving dissipation integrals, presenting numerical solutions

[AIAA PAPER 69-689] 17 p2955 A69-33481

Constant pressure adiabatic turbulent boundary layer characteristics measurements correlated in incompressible reference frame, using modified Mager compressibility transformation

17 p2958 A69-34051

Film cooling slot adiabatic wall effectiveness measurement in two dimensional constant property flow, showing role of lip thickness and injection angle

20 p3585 A69-37082

Propagation characteristics of steady adiabatic one dimensional laminar flames in premixed gases, considering activation energy and Lewis number

21 p3849 A69-38802

ADIPOSE TISSUES

Nomogram for estimating body fat and specific gravity from height and weight, considering two component model of body composition and lean body weight

07 p1067 A69-19428

Norepinephrine, dinitrophenol and dicumaryl effect on brown adipose tissue of cold exposed rats

19 p3258 A69-36294

Brown adipose tissue providing internal heating jacket and metabolic heater overlying systemic vasculature, noting cold survival role

23 p4091 A69-42013

ADJOINTS

Energy transfer in circulatory force fields, noting mechanism changes for simultaneously operative original field and adjoint field energy sources

04 p0671 A69-14415

Trajectory terminal state error analysis using adjoint-generated sensitivities in nonlinear time-varying systems

13 p2296 A69-27940

Trajectory differential equations in state-variable form, presenting compatible difference equation adjoint scheme for trajectory integration

15 p2645 A69-31236

Adjoint system for determining equilibrium stability of elastic continuum subjected to follower type surface tractions

19 p3446 A69-36835

ADMINISTRATION

U MANAGEMENT

ADMITTANCE

U ELECTRICAL IMPEDANCE

ADMIXTURES

Concentration distribution of admixture in semibounded jet propagating along nonheat conducting plate, obtaining concentration profiles for various thermal and diffusion Prandtl numbers

21 p3854 A69-39844

ADRENAL GLAND

High altitude environmental effects on adrenal glands and hypothalamic neurosecretion in rats

13 p2211 A69-28615

Constant light/darkness effects on stress response rhythm of hypothalamic-pituitary-adrenocortical system in female rats

15 p2556 A69-31330

Vestibular stimulation effect on human blood composition during rocking test indicating blood eosinophil content as function of hypophysis and adrenal cortex reactions

20 p3473 A69-37268

Increased oxygen tension adaptation and effects on adrenocortical and sympatho-adreno-medullary activity in rats, indicating toxic conversion of epinephrine to indoles

23 p4087 A69-41791

Positive pressure breathing effects on cerebral arterial and venous blood pressure, hypothalamus and adrenal glands catecholamine content and cerebrum histological changes in dogs

24 p4265 A69-43371

ADRENAL METABOLISM

Brain norepinephrine effect on daily rhythmic changes in activity of tyrosine transaminase in livers of starved adrenalectomized rats

05 p0707 A69-15582

Sympathoadrenal activity during and after impact stress measured from urinary excretion of catecholamines and 17-hydroxycorticosteroids

06 p0875 A69-17839

Adrenal epinephrine and phenylethanolamine n-methyl transferase (PNMT) activity in rat bearing transplantable pituitary tumor

08 p1263 A69-20374

Corticosteroid and catecholamine metabolism change in rabbits during sharp limitation of motor activity

12 p0201 A69-26973

Aldosterone and hydrocortisone introduced into bladders of adrenalectomized dogs to restore sodium metabolism contributing to normal water-salt homeostasis

21 p3656 A69-38965

Rats adrenal corticosterone concentrations changes in response to ACTH, determining response sensitivity dependence on time after hypophysectomy

22 p3870 A69-39871

Aminazine and adrenaline effects on adrenocortical function in patients with diencephalic syndrome

22 p3888 A69-41272

Compensatory hypertrophy effects on adrenal phenylethanolamine n-methyl transferase (PNMT) activity in rats

23 p4080 A69-41404

Pituitary-adrenocortical axis of rats in oxygen atmosphere at low pressure, finding depressed norepinephrine excretion

23 p4087 A69-41790

ADRENALINE

U EPINEPHRINE

ADRENERGICS

Central adrenergic mechanisms role in neurosecretory function of hypothalamo-hypophyseal system of rabbits under transverse accelerations in centrifuge

15 p2554 A69-30055

Beta adrenergic blockade in differential diagnosis of cardiovascular changes produced by stress induced catecholamine liberation and organic disease

17 p2909 A69-33184

Olfactory bulb removal effects on uptake decline of telencephalic norepinephrine, noting use for mapping adrenergic pathways

22 p3871 A69-40055

Sotalol and propranolol cardiovascular effects, comparing toxicity and blocking action against circulatory and cardiac effects of catecholamines

23 p4080 A69-41403

Coronary circulation response to hyperoxia after vagotomy and combined alpha and beta adrenergic receptors blockade in anesthetized intact dog

23 p4096 A69-42088

Receptor and adrenergic blockade effects on blood loss, tolerated period and metabolic sequelae of hypotension in dogs

23 p4098 A69-42102

Adrenosympathetic reaction in flight, studying contributions of physical and nervous stresses in physically trained and untrained persons

23 p4099 A69-42363

ADRENOCORTICOTROPIN [ACTH]

Rats adrenal corticosterone concentrations changes in response to ACTH, determining response sensitivity dependence on time after hypophysectomy

22 p3870 A69-39871

ADSORPTION

NT CHEMISORPTION

Electron paramagnetic resonance study of interaction between adsorbed nitric oxide and NaY and deca-

tionized Y zeolites surfaces, considering catalytic activity

02 p0205 A69-11900

Liquid metal adsorption induced embrittlement, noting bond strength reduction and grain boundaries penetration

03 p0448 A69-13872

Lunar surface gas adsorption mechanism for lunar atmosphere absence

05 p0824 A69-16062

Barium, oxygen and BaO adsorption influence on Mo and Ti thin films conductivity and work functions

06 p0978 A69-16900

Gas adsorption on solids, discussing statistical mechanical theory assuming localized adsorption for first adlayer and nonlocalized mobile layer adsorption on top

06 p0980 A69-17387

Gas adsorption of molecular oxygen and hydrogen on molybdenum surface using collector section of field emission retarding potential analyzer

08 p1268 A69-20179

Adsorption kinetics of hydrocarbon oxidation on platinum electrode

08 p1268 A69-21052

Adsorption process limits when used as Cs reserve in thermionic converter

09 p1441 A69-21839

Digital computer program for heat and mass transfer characteristics of spacecraft carbon dioxide adsorption beds, discussing surface pressure of adsorbent material [AICHE PAPER 19C]

09 p1446 A69-21931

Molar heat and entropy of adsorption and activity coefficient of adsorbed phase for methane-ethane-silica gel system

10 p1652 A69-23370

Adsorption of N, H, O and CO on thick vapor deposited Be films at room temperature

13 p2322 A69-28017

CO adsorption on tungsten, determining work function changes and Fowler-Nordheim preexponentials on field emitter single crystal faces

14 p2409 A69-29093

Nuclear type cylindrical thermionic converter with porous adsorbent structure and liquid cesium tank

14 p2397 A69-29174

Langmuir S curves for tungsten single crystals in presence of adsorbed cesium, discussing orientation, theoretical and experimental correlation and instrumentation

14 p2506 A69-29271

Work function changes of tungsten single crystals as function of oxygen and CO gas pressure at high temperatures, using emission microscope

14 p2506 A69-29272

Lunar surface gas adsorption mechanism for lunar atmosphere absence

15 p2680 A69-30261

Kinetic theory and gas-surface interactions for upper atmospheric density measurements by mass spectrometers, pressure gages and satellite drag, detailing adsorption effect

16 p2776 A69-32089

Oxygen adsorption on Mo single crystals /100/ surface as function of temperature using low energy electron diffraction

16 p2748 A69-32795

Stress corrosion cracking mechanisms in liquid-solid metal combinations and solvent exposed plastics, discussing adsorption processes and cathodic polarization inhibition

19 p3349 A69-36887

Heats of adsorption of carbon dioxide on silver /I/ oxide and copper /II/ oxide by gas chromatography

20 p3485 A69-38277

Mean adsorption lifetimes and activation energies of Ag and Au on polycrystalline tungsten substrate in ultrahigh vacuum system free of hydrocarbon contamination

23 p4198 A69-41542

ADVECTION

Time dependent model of photochemical, advective and turbulent effects on meridional ozone distribution

07 p1122 A69-18253

Temperature advection dependence on local temperature changes, discussing variation with atmospheric layer thickness

09 p1534 A69-21509

Atmospheric ozone distribution as function of photochemical reactions, advection and vertical motions

16 p2787 A69-32643

Numerical wind field prediction based on advection equations and quasi-geostrophic wind assumption, considering equatorial belt in case of zonal pressure field

19 p3364 A69-36506

AEOLOTROPISM

Small twist of elastic circular cylindrical tube with nonorthogonal cylindrical aeolotropy, noting zero and nonzero warping conditions effects

05 p0831 A69-15580

Inhomogeneities in materially uniform simple bodies described in terms of third order tensor field, treating contorted aeolotropy

05 p0833 A69-15728

AERATION

Gas turbine engines smoke reduction, aerated fuel sprays for smoke control on engine design and factors affecting visibility of exhaust plumes

17 p3020 A69-33350

AERIAL EXPLOSIONS

Airplane explosion evidence, discussing examination of plastic seat cushion surface and metallic fragments

02 p0193 A69-12688

Hazards model for probabilistic prediction of casualties by exploding solid propellant rockets, deriving casualty expectation equation [AIAA PAPER 69-461]

16 p2869 A69-32749

High altitude nuclear explosions detected by distinguishing artificial from natural sudden enhancement of atmospheric /SEA/ phenomena

20 p3492 A69-37701

Radiation effects due to high altitude thermonuclear explosion measured by satellite, estimating fragments longitudinal drift velocity, plasma cloud expansion rate and fragment distribution

20 p3532 A69-37960

Photographic studies of explosive reactions with description of ultrahigh speed cameras

21 p3719 A69-38446

AERIAL PHOTOGRAPHY

Aerial color photography for terrain analysis noting development of cameras, filters, high speed emulsions and processing equipment

01 p0077 A69-10023

Avionics in forest resource inventories management, noting design of radar altimeter for low level aerial photography

01 p0080 A69-10352

Global cloud models construction techniques, discussing vertically pointing radars, airborne panoramic cameras, radiometry, meteorological satellites and light detection and ranging

02 p0275 A69-12381

Relative orientation elements of aerial photographs determined by iteration method

05 p0765 A69-16708

Individual differences and relation to Witkin concept of perceptual style in target identification in aerial photographs

06 p0880 A69-17211

Horizontal aerotriangulation by independent models using photogrammetric extension of horizontal control for small scale superwide angle photography, horizon photography and B 8 plotter

06 p0925 A69-17468

Aerial photography history, photographer qualities, airborne platforms, pilot briefing, air to air sortie, aerobatics, parachutes, etc

08 p1314 A69-20307

Aerial chronophotography of Southern Hemisphere conducted on around world polar flight analyzed for meteorological and geographical aspects and compared with satellite data

09 p1534 A69-21405

Aerial panoramic camera with instantaneous exposure using combined Bouwers concentric lens system and between lens shutter

09 p1499 A69-22246

Large scale color and color IR aerial photography evaluation to determine interpretability for improving range resource inventories

11 p1880 A69-24265

Multispectral photographic determination of reflectance of environmental features from aerial spectral photographs, noting EROS program application

11 p1880 A69-24266

Photogrammetric networks equalization by method of least squares, using external orientation elements of aerial photographs

12 p2079 A69-26032

Green flash photographed at sunset by aircraft at 10.6 km over Pacific, noting correspondence with visual observation

12 p2066 A69-26232

Photography for remote sensing, discussing aerial photography, side-looking radar and photography for recording, storing and retrieving data

12 p2096 A69-26975

Remote sensing and forest survey sampling designs, discussing nonstereo stratification, conventional photography and IR or radar imagery

12 p2097 A69-26991

Previsual detection of vigor loss and mortality signs in ponderosa pine trees subject to bark beetle attack

12 p2098 A69-26993

Multispectral and calibrated Alaskan Arctic aerial survey of sea ice, thaw lakes and polygonal soils

12 p2075 A69-26996

Remote oceanographic sensing from ships, aircraft and spaceborne platforms, using active /radar and laser/ and passive sensors in visible, IR and microwave regions

12 p2075 A69-26997

Terrain photography applications and analysis including remote sensing of photographic systems and photointerpretation

12 p2098 A69-27006

Airborne and satellite IR survey over active effusive eruption at Surtsey, Iceland, comparing thermal energy yield and radiant emission to ground measurements

12 p2076 A69-27011

Multiband aerial photography utilization for evaluating urban housing quality compared with present data collection methods

13 p2260 A69-27607

Computer based data handling and display for relating remote sensor signals to ground truth information derived from aerial photographs

14 p2416 A69-29534

Image quality of color disks in aerial photographs using panchromatic, color positive, color negative and false color films, measuring reflected sunlight

14 p2450 A69-29600

Apollo 9 multispectral photography compared with photographs taken simultaneously by aircraft using same film filter combinations

15 p2608 A69-30452

Color IR film improvement for high altitude remote sensor, using auxiliary minus-visual filters

15 p2609 A69-30457

Regional slope measurement from two monoscopic radar images of same terrain area, discussing accuracy and applications to geomorphology and hydrology

15 p2610 A69-30710

Earth resource satellites, discussing mapping, land evaluation, geological observation, agricultural and hydrological applications, electromagnetic spectrum information, sensors and photographs

16 p2881 A69-31763

Automated crop surveys from integrating observations made at different times /time dimensioning/ during growing season, noting earth resources satellites role

18 p3126 A69-34337

Aerospace images information suppressing and enhancing methods to aid interpreter in making more accurate recognition and measurement of earth resources subjects

18 p3133 A69-34338

Topographic mapping by high altitude jet aircraft photography

18 p3134 A69-34339

Aerial camera AFA-TES-10, discussing mean square aiming error, photogrammetric distortion and contrast

18 p3139 A69-35328

Aerial photography in geomorphological interpretations, noting advantages over conventional maps in slope microreliefs, soil erosion network and karst, glacial, aeolian and shore features

20 p3539 A69-37512

Errors in sighting and identifying geodetic contour points on aerial photographs, considering stereocomparators parallaxes effect

21 p3719 A69-38404

Image intensifiers and orthicons, plumbicons, vidicons as photoelectric devices in TV auroral observation from ground stations and jet aircraft

21 p3706 A69-38484

Comparative photointerpretation from panchromatic, color and Ektachrome IR aerial photography

22 p3944 A69-40039

Photogrammetric contours plotting from aerial color films

22 p3944 A69-40045

Superwide angle camera with aerial photogrammetric lens system, discussing light distribution, rotary disk shutter, etc

22 p3944 A69-40047

Surveying earth resources from space, covering orbital height photography in cartographic programs, hydrologic engineering, pollution control and geology
22 p3936 A69-40170

Tethered polyethylene balloon carrying radio controlled camera for time lapse photographs of wave generated near shore currents
22 p3865 A69-40808

Photographic platform applications of tethered balloons, discussing powered systems for low and high altitudes and free balloons
22 p3865 A69-40811

Color aerial photography - Conference, New York, June 1969
22 p3948 A69-40985

Glass filter systems for aerial color photography developed from spectral studies of sunlight, skylight and airlight in Rayleigh atmosphere
22 p3948 A69-40986

Multispectral processing of Apollo 6 earth photographs, evaluating geologic, vegetative and cultural features from red, green and blue portions of visible spectrum
22 p3941 A69-40987

Photographic properties of Cibachrome silver dye bleach materials for yielding color reflection prints directly from color transparencies, discussing applications to aerial photography
22 p3949 A69-40991

Aerial color film processing systems
22 p3949 A69-40992

Color and color IR aerial photography compared for estuarine and marshland research, considering detection of turbidity, pollution, salinity, etc
22 p3942 A69-40993

Aerial photography for near-shore ecology, noting biological cover on ocean floor, submarine biological communities and human activities on submarine life
22 p3894 A69-40995

Optical engineering and quality control of photogrammetric instruments for aerial color photography, discussing lenses, filters, projectors, plotters, electro-optical rectifier, etc
22 p3949 A69-40996

Multispectral color aerial photography using broadband spectral filters for detecting and identifying small environmental features of earth surface
22 p3949 A69-40997

Orthophotography as technique for eliminating distortions in vertical aerial photographs during conversion into uniform scale reproductions
22 p3949 A69-40998

Camera lenses and techniques for aerial color photography, discussing atmospheric influences, filters, films and exposure times
22 p3950 A69-40999

Xenon plasma continuous illumination sources design and operation for night and color aerial photography covering photogrammetric resource surveys, ground traffic, flight paths, etc
22 p3950 A69-41000

Orthophoto maps production, discussing scales, aerial photography, control points, orthoprojection, cartography and printing
22 p3951 A69-41246

Automated air photo identification of crop types, utilizing stereo height as discriminating variable
23 p4155 A69-41721

Earth orbital remote sensing applications to forest and range resources management, discussing conventional aerial photography
[AAS PAPER 69-059] 24 p4307 A69-42823

AERIAL RECONNAISSANCE

Military forward air control aircraft conversion from lightweight commercial tandem engine aircraft noting visibility, communication and navigation equipment
[SAE PAPER 690313] 11 p1822 A69-24511

Aerial multiband remote sensors for wildland resources, considering multiens photographic systems, optical mechanical scanners and radar devices
15 p2609 A69-30458

Equations derived for radar image coordinate transition to geodetic coordinates in aerial surveying by side-looking airborne radar
15 p2596 A69-30574

Satellite and aircraft use compared for earth resource surveys, discussing proposed aircraft data collection system
16 p2881 A69-31632

Spectral reflectances of objects and vegetative backgrounds to generate color photographic technique increasing detection sensitivity and rate
18 p3133 A69-34247

Aerial surveys flight functions cost plotted against degree of performance, allowing for obtainable accuracies
22 p3863 A69-40041

Instruments for obtaining auxiliary data in aerial triangulation, describing stratoscope, profile recorder, radar altimeter, horizon camera, etc
22 p3944 A69-40042

AERIAL RUDDERS

Nomogram for aircraft rudder pedals design and construction, considering thigh and knee angles
10 p1649 A69-23377

AEROBEE ROCKET VEHICLE

Conductive heat transfer between aerodynamically heated skin and barrel of Aerobee 150 sounding rocket telescope, noting effect of residual gas pressure
09 p1610 A69-22005

Aerobee rocket-borne liquid helium cooled telescope for IR night sky observations
11 p1885 A69-24852

Micrometeoroid collections, describing Gemini satellite and Aerobee rocket-borne equipment and experimental results
15 p2700 A69-31440

Artificial aurora generated at 100 km altitude by electron beam fired downward from aerobee 350 rocket above 230 km along earth magnetic field lines
18 p3127 A69-34365

AEROBES

Cellular localization of acetyl-coenzyme A synthetase in yeast, noting enzyme distribution during aerobic growth on glucose
04 p0554 A69-15333

B Coli commune cultivated on various substrates, studying oxygen consumption under aerobic/ anaerobic conditions
18 p3097 A69-35302

AEROBIOLOGY

Human intolerance to bacteria as food, considering response to Hydrogenomonas eutropha and Aerobacter aerogenes
13 p2213 A69-27265

AERODYNAMIC BALANCE

Swing wings on combat aircraft and SST, discussing suitability for aircraft carriers and problems in aerodynamic balance
03 p0367 A69-13677

Concorde fuel management, discussing trim, fuel as coolant and booster pumps
07 p1057 A69-19705

Stabilizing methods for supersonic aircraft, noting effect of aircraft characteristic parameters on magnitude of balancing coefficients of lifting force
16 p2735 A69-32127

Aerodynamic control surface/trim tab coupling coefficients in subsonic two dimensional unsteady flow using matrix method valid for motion involving harmonic oscillations
17 p2895 A69-33597

Aerospace vehicle mass property limits and dynamic balancing related, noting errors
[SAWE PAPER 772] 18 p3208 A69-34875

Mechanics of missile dispersion due to dynamic unbalance and rocket spin stabilization problems
[SAWE PAPER 741] 18 p3208 A69-34886

Dynamic balance for rotating aerospace vehicles, discussing error in principal axis location between rotor on machine and free body in space
[SAWE PAPER 740] 18 p3137 A69-34887

PDP8 digital computer and Trebel vertical balancing machine combined for real time presentation of trim weights and positions, noting noise in force components
[SAWE PAPER 738] 18 p3220 A69-34888

Moment of inertia measurements facility for spacecraft dynamic balancing operations at low angular rates
[SAWE PAPER 739] 18 p3118 A69-34889

Skin friction balance in Mach 5 wind tunnel with high heat transfer, measuring shear forces
19 p3292 A69-35734

Accelerometer force balance method for measuring aerodynamic rocket plume forces acting on flat plate model in short duration shock tunnel test environments
19 p3292 A69-35737

Wing flaps and blow-off and suction effect on longitudinal balance of landing TU-104 aircraft, noting air suction at wing leading edge
19 p3247 A69-35818

Wind tunnel model one component magnetic support and balance system for sphere drag investigation at subsonic Mach numbers
[AIAA PAPER 68-401] 24 p4298 A69-43714

AERODYNAMIC BRAKES

NT DRAG CHUTES
NT LEADING EDGE SLATS
NT TRAILING-EDGE FLAPS
NT WING FLAPS

Deceleration control system for aerobraking and skipout to orbit at Mars
[AIAA PAPER 68-1146] 03 p0520 A69-13564

Cost effective aerodynamic deceleration and retardation systems for military and space programs, noting technical research and development areas in need of advancement
03 p0364 A69-13854

Approximate method for calculating vertical velocity distribution in atmospheric braking of bodies along ballistic trajectories
04 p0541 A69-14485

Venus and Mars atmospheric braking entry and associated equipment, discussing potential cost savings
11 p1968 A69-25722

Structural and aerodynamic developments in attached inflatable decelerators for deployment of payload at supersonic speeds
[AIAA PAPER 68-929] 21 p3647 A69-39015

Deceleration control system for aerobraking and skipout to orbit at Mars
[AIAA PAPER 68-1146] 21 p3828 A69-39761

Aerodynamic deceleration systems for space missions, considering deployment of subsonic parachute and inflatable configuration following atmospheric entry
[AIAA PAPER 68-1081] 22 p4036 A69-40542

Flexible parawing lifting decelerator research data from wind tunnel and flight tests, noting manned space vehicle recovery and aircraft escape systems
[AIAA PAPER 68-967] 24 p4254 A69-43715

AERODYNAMIC BUZZ
U FLUTTER

AERODYNAMIC CHARACTERISTICS
NT INTERFERENCE LIFT
NT JET LIFT
NT LIFT
NT ROTOR LIFT
NT STATIC AERODYNAMIC CHARACTERISTICS
NT SUPERSONIC DRAG

Vortex method within slender body theory for aerodynamic interference between missile in both captive and dropped positions and carrying aircraft
01 p0007 A69-11026

One and two lobed conical, cylindrical and all-flexible parawing lift, drag and pitching moment and canopy shape
[AIAA PAPER 68-10] 01 p0007 A69-11027

Aerodynamic characteristics of delta wings for supersonic flow at large angles of attack, showing sweep-back angle influence on drag coefficient
02 p0191 A69-12585

V/STOL aircraft characteristics, emphasizing propeller, ducted fan and turbojet types
05 p0701 A69-15563

NASA research on flexible and stiffened flexible wings, discussing range of applicability, aerodynamic characteristics and wind tunnel results
05 p0701 A69-15568

Aerodynamic technology applied to takeoff and landing, discussing STOL airplanes in descent and boundary layer control/BLC/ flap system
05 p0696 A69-15569

Factors influencing development of both wind tunnel and flight test technology for determining aerodynamic derivatives of aircraft motions
05 p0741 A69-15572

Peculiarities of aerodynamic characteristics of flow past plate and pointed and blunt slender cones in viscous hypersonic thermodynamically ideal gas
05 p0699 A69-16673

Random search and multiple integral based Monte Carlo method for computer solution of nonlinear aerodynamic problems
06 p0858 A69-17334

Reciprocal interaction of combustion wave and field of turbulence, discussing aerodynamic principles, turbulence effect on flame propagation speed and measuring methods
06 p1032 A69-17420

Aircraft aerodynamic characteristics determination from numerical computer solution of supersonic gas flow past blunt body with broken generatrix
06 p0859 A69-17582

Lifting reentry spacecraft performance examined in context of realistic aerodynamic characteristics at low flight Reynolds numbers
06 p0860 A69-17634

Rolling ballistic vehicles mass and aerodynamic characteristics determined from dynamic motion data by performing Fourier analysis on roll axis equation of motion

[AIAA PAPER 69-102] 06 p0862 A69-18039

Ballistic range tests to study ablation effects on aerodynamic characteristics of ablating and nonablating slender cones

[AIAA PAPER 69-179] 06 p1036 A69-18083

Longitudinal dynamics of VTOL aircraft during hover-forward flight transition, using multiple time scale analysis

[AIAA PAPER 69-130] 06 p0869 A69-18157

Subsonic lifting surface theory including leading edge, discussing singularities in solution of integral equation for determination of aerodynamic properties

[AIAA PAPER 69-37] 06 p0865 A69-18167

Thermodynamic and aerodynamic characteristics of organic Rankine cycle working fluids for ideal applicability to manufacturing

[SAE PAPER 690063] 07 p1057 A69-18308

Aircraft propelled at Mach 7, discussing low speed and transonic characteristics, stability, power plant integration and ONERA wind tunnel experiments

[ONERA-TP-657] 07 p1052 A69-18414

Radomes design and manufacture for high speed flight vehicles, discussing interactions between aerodynamic and electrical requirements with reference to mechanism of aberration

07 p1141 A69-19510

Engineering testing of aerodynamic efficiency of helicopter rotors during hovering with and without ground effect

08 p1254 A69-20169

Variable geometry intake and convergent-divergent nozzle design for supersonic aircraft, noting subsonic installations

08 p1253 A69-21164

Complex bodies aerodynamic characteristics in free molecular gas flow by applying Monte Carlo method

09 p1430 A69-21793

Aerodynamic characteristics of propeller-wing-flap systems used on deflected slipstream STOL aircraft

09 p1431 A69-22278

Hypersonic: drag and shock wave characteristics of blunt bodies including cones, spherical nose and concave nose bodies

09 p1433 A69-22568

External burning ramjets in hypersonic stream noting applications to drag reduction, lift-drag ratio and attitude control

11 p1941 A69-24261

Flat plate in two dimensional low density hypersonic flow wind tunnel tested for aerodynamic effects on spacecraft reentry

11 p1819 A69-25424

Aerodynamic characteristics of flat plate in viscous hypersonic flow incident at zero or small angle of attack, using numerical integration

11 p1820 A69-25471

Concorde design problems due to kinetic heating, aerodynamic characteristics, structure, equipment, modified delta wing planform, etc

12 p2012 A69-26358

Apollo spacecraft command module aerodynamic characteristics during entry compared with wind tunnel test predictions

[AIAA PAPER 68-1008] 12 p2012 A69-26789

Linear and second order theory for maximum lift to drag ratio airfoils at moderate supersonics speed, considering length, thickness and area

13 p2199 A69-28214

Multirecompression heater for pure airflow tests of ballistic vehicles and hypersonic aircraft

[AIAA PAPER 69-332] 13 p2242 A69-28268

Longshot free piston gun tunnel for high Reynolds number hypersonic flow tests

[AIAA PAPER 69-333] 13 p2249 A69-28269

Hypersonic wind tunnel for erosion test of multiple particle impacts, considering dust on cork, carborazole and silicone rubber

[AIAA PAPER 69-341] 13 p2243 A69-28277

Angle of attack and blunting effect on aerodynamic lift and drag coefficients of flat plates in hypersonic flow at low Reynolds number

13 p2200 A69-28358

Diffusion characteristics of turbulent flow produced by square mesh grid in low speed wind tunnel

13 p2250 A69-28496

Supersonic aerodynamic characteristics of wings with complex planar geometry and subsonic leading and trailing edges, discussing varying geometry

14 p2391 A69-29624

Aerodynamic properties calculations of arbitrary slender supersonic wings using sum of simple integrals

15 p2548 A69-31170

Spoiler effect on aerodynamic characteristics of airfoil with hinged flap in inviscid fluid plane flow

15 p2549 A69-31223

Aeroelastic divergence and stability range for cantilevered and end supported structures computed as function of forward resistance and lift caused by wind

16 p2870 A69-31557

Perturbation solutions for planar cylindrical and spherical blast waves in air, considering third and fourth order approximations

16 p2770 A69-31900

Aerodynamic problems in future civil aircraft design, emphasizing Concorde development possibilities, discussing VTOL intercity transport, subsonic swept wing and hypersonic aircraft, all-wing airbus, etc

16 p2732 A69-32023

Turbomachinery two mode blade vibrations with emphasis on aerodynamic damping, noting shifts in natural frequencies

[ONERA-TP-678] 16 p2733 A69-32333

High temperature radial turbine design for small gas turbine engines, discussing aerodynamic, structural and thermal analyses

[AIAA PAPER 69-524] 16 p2838 A69-32662

Running test facility for study of aerodynamics and flight dynamics of V/STOL aircraft models

17 p2944 A69-32851

Aerodynamic characteristics of cone/cylinder and cone/cylinder/cone configurations with blunted cones in hypersonic flows at small angles of attack

17 p2889 A69-33122

Aerodynamic characteristics of power plant installation, discussing nacelle design from viewpoint of aircraft performance and economic efficiency

17 p2898 A69-33215

Flow simulation on wind tunnel test models for aerodynamic characteristics of aircraft design, discussing boundary layer and external flow coupling

[AIAA PAPER 69-660] 17 p2945 A69-33471

Aerodynamic interactions between two wing configurations with same aspect ratio located in same plane, discussing testing principles and initial experimental results

17 p3061 A69-33595

Drag and lift coefficients of moderate aspect ratio prismatic bodies analyzed as function of angle of attack, Reynolds number and aspect ratio

17 p2896 A69-33717

Soviet book on practical aerodynamics of An-2 aircraft covering aerodynamic characteristics, equilibrium, stability and control for various flight conditions, including icing

18 p3090 A69-34340

Aerodynamic characteristics of elliptical airfoils with jet circulation control for VTOL rotors including dual jets and cyclic results

[AIAA PAPER 69-741] 18 p3084 A69-34406

Aerodynamic and flight characteristics of variable geometry entry spacecraft during subsonic wing deployment and landing

[AIAA PAPER 69-742] 18 p3084 A69-34407

Hover and forward speed aerodynamic characteristics of tracked air cushion vehicle (TACV) models, discussing wind tunnel tests

[AIAA PAPER 69-750] 18 p3084 A69-34410

Stationary elliptic cylinders in subcritical flow, determining Strouhal number, pressure fluctuations and wake geometry as functions of angle of attack

[AIAA PAPER 69-745] 18 p3084 A69-34412

Aerodynamic characteristics of ballistic reentry vehicles from flight test dynamic measurements, illustrating results

18 p3085 A69-34670

Aerodynamic characteristics of sphere and blunt cone in highly rarefied gas flow, noting molecular collision effect

18 p3086 A69-34708

Air data system consisting of aerodynamic and thermodynamic sensors and computer calculating flight parameters for automatic flight control

18 p3169 A69-34854

Aircraft preliminary design weight and volume characteristics relation to aircraft density

[SAWE PAPER 813] 18 p3221 A69-34897

Computer programs determining gaseous properties and aerodynamic characteristics for missiles, reentry vehicles and spacecraft at angles of attack

18 p3107 A69-35068

Aerodynamic behavior of airfoil oscillating in reverse flow defined for various angles of attack and oscillatory amplitudes at low Mach numbers

18 p3087 A69-35219

Aerodynamic characteristics of two dimensional nonexpandable flexible sail in hypersonic inviscid flow discussing roles of sail length and chord and angle of attack

19 p3237 A69-35811

Aerodynamic characteristics of plane inviscid flow jets expanding over curvilinear surface, deriving force equations for surfaces in jet and rocket engines

19 p3296 A69-35812

Supersonic aerodynamic characteristics of flared cones with various flare angles studied by schlieren photography, showing geometrical parameters influence on flow patterns

19 p3239 A69-36385

Stream surface characteristics as criteria for hypersonic lifting bodies shapes for optimal aerodynamic fuel performance

19 p3248 A69-36399

VTOL aircraft lift systems, propulsion, airframe aerodynamic and aerodynamic characteristics, control systems, missions, safety, configurations and environment

[AIAA PAPER 68-977] 20 p3461 A69-37149

Aerodynamic performance tests of autorotative unpowered rotor entry vehicle model at various Mach numbers and angles of attack

[AIAA PAPER 68-950] 20 p3458 A69-37155

Vortex lattice method correlation on rotor/wing configurations for aerodynamic characteristics, noting triangular and circular hub and blades

20 p3458 A69-37163

Supersonic blowdown wind tunnel operating at Mach numbers obtained by fixed nozzles for aerodynamic optimization of wings and bodies

20 p3510 A69-37422

Nervous system relations to insect flight musculature of lift and thrust mechanism

21 p3651 A69-38780

Aircraft propelled at Mach 7, discussing low speed and transonic characteristics, stability, power plant integration and ONERA wind tunnel experiments

21 p3644 A69-39164

Reentry cones with mass and configuration asymmetries, studying nonlinear aerodynamic characteristics by wind tunnel and full scale flight tests

[AIAA PAPER 69-867] 21 p3823 A69-39393

Hypersonic lifting bodies with high lift-drag ratio, presenting flat-top wing-body combination aerodynamic characteristics

21 p3645 A69-39793

Hypersonic wave riders lift and drag coefficients, lift drag ratio, shock profile and pressure distribution, discussing wind tunnel measurements of caret wings

21 p3645 A69-39802

Aerodynamic characteristics of turbulent twisted jet in slipstream in open jet wind tunnel, determining static pressure, temperature and velocity component profiles

21 p3645 A69-39848

Internal aerodynamics of centrifugal compressor impeller, discussing impeller channel airflow model, impeller exit flow, rotating channel flow, etc

[RAES PAPER 19] 22 p3859 A69-40498

Flexible string extraction from bobbin through nozzle, solving equations of motion by neglecting bending rigidity, extensibility, drag, internal friction, etc

22 p3930 A69-40585

Aerostatic and aerodynamic characteristics of Dart Vee tethered balloon system

22 p3865 A69-40813

Proton 2 satellite orientation and motion about center of mass determined from telemetric data analysis under aerodynamic moment

22 p4037 A69-41090

Satellite aerodynamic characteristics, considering orbital position and attitude of cylindrical body and separate plate

22 p4037 A69-41102

Air mass mechanics, local lifting surface element aerodynamic response and aeroelastic blade response problems in lifting rotor technology

23 p4061 A69-41370

V/STOL propeller aerodynamics, considering thrust efficiency, roll and yaw control, flow visualization methods, etc

23 p4062 A69-41375

Rheoelectrical analog technique for low speed aerodynamic characteristics of finite wings in incompressible flow, using deep electrolytic tank for lifting surface calculations

23 p4061 A69-42351

Aerodynamic characteristics of moving and rotating bodies of revolution in free molecular rarefied gas flow assuming Maxwellian thermal velocity distribution and diffuse specular interaction

24 p4243 A69-42582

Subsonic wind tunnel balance and holders investigated for effects on lift, drag and stability of models of body of revolution
24 p4297 A69-43084

Aerodynamic frequency response calibration measurements of wind anemometer by input velocity and output drag values under unsteady flow conditions
24 p4315 A69-43262

AERODYNAMIC CHORDS

U AIRFOIL PROFILES
U CHORDS [GEOMETRY]

AERODYNAMIC COEFFICIENTS

Wing-body combinations analysis and design at supersonic and subsonic speeds by aerodynamic influence coefficients method
[AIAA PAPER 68-55] 01 p0006 A69-11016

Low Mach number airfoil profile drag calculation for various angles of attack and Reynolds numbers, noting effects of transition and airfoil thickness
01 p0006 A69-11017

Supercritical flow effects on unsteady aerodynamic coefficients used for subsonic aircraft flutter analysis, emphasizing changes due to shock and flow separation
01 p0007 A69-11020

Reattachment pressure correlated for any type of two dimensional turbulent supersonic separated flow
04 p0588 A69-14727

Blunt cone hypersonic roll damping derivative, using Mach number distribution and graphical integration
04 p0542 A69-14739

Ground effects influence on VTOL aircraft secondary forces during hovering and transitional flight, discussing component dynamic coefficients in wind tunnel
[DVL-851] 04 p0547 A69-14813

Vortex breakdown effect on aerodynamic coefficients of small aspect ratio delta wings during yawing
04 p0543 A69-14821

Wind tunnel wall constraints effects at extreme force coefficients during V/STOL testing shown different from effects in conventional aircraft testing
05 p0741 A69-15574

Lift and drag coefficients for circular cylinder immersed in time dependent flow analyzed using potential flow model
[ASME PAPER 68-FE-15] 05 p0747 A69-16072

Nonlinear equations of motion approximate solution, determining ordnance weapons aerodynamic stability coefficients from angular motion as functions of angle of attack
[AIAA PAPER 69-135] 06 p0863 A69-18120

Aerodynamic coefficients from observed motion of body in flight, eliminating need for closed form solutions by employing numerical solutions to equations of motion
[AIAA PAPER 69-134] 06 p0864 A69-18161

Bulk aerodynamic method for heat and water vapor fluxes from data obtained at Chiba /1966/, introducing modified integral diffusivity
07 p1176 A69-18965

Skin friction drag coefficient for right circular cylinder calculation coefficient on basis of Blasius solution for flow
11 p1819 A69-25384

Skin friction coefficient relation to pressure distribution in turbulent flow and development of momentum thickness along flow
11 p1819 A69-25385

Initial flow turbulence effects on drag coefficient for prismatic bodies in low velocity gas flow determined by wind tunnels
14 p2391 A69-29625

Drag and friction coefficients for laminar pulsating incompressible fluid flow in circular tubes obtained from Navier-Stokes equation
15 p2592 A69-30988

Atmospheric density determination based on long period variations of drag coefficients from satellite Proton 2, considering satellite orientation
15 p2602 A69-31392

Stabilizing methods for supersonic aircraft, noting effect of aircraft characteristic parameters on magnitude of balancing coefficients of lifting force
16 p2735 A69-32127

Blockage effects of flat plates and solid bluff bodies in closed wind tunnels compared concerning drag coefficient values
17 p2890 A69-33245

Drag measurements for sharp and blunt-nosed bodies shot into wind tunnel supersonic gas counterflows, discussing shock waves for different configurations
19 p3239 A69-36401

Lift coefficients of idealized tunnel type ram wing consisting of truncated semiconical shell computed by lifting surface theory
22 p3860 A69-40819

Stagnation point Mach number gradient, sonic point location and drag coefficient of hemisphere at zero angle of incidence
23 p4060 A69-41910

Aerodynamics of twisted jet propagating in same fluid by asymptotic expansion, analyzing twist influence on heat transfer
24 p4244 A69-43057

Optimum climb trajectories at constant lift coefficient, using variational methods with final altitude and final flight path angle as end point constraints
24 p4254 A69-43727

AERODYNAMIC CONFIGURATIONS

Aerodynamic configurations to reduce sonic boom at supersonic speeds
01 p0007 A69-11028

Supersonic interference on lateral stability of planar configurations analyzed using wind tunnel data
[AIAA PAPER 68-21] 02 p0189 A69-12377

Hypersonic lifting body configurations for maximum lift drag ratios and subject to volumetric efficiency, nose heating limit and skin friction constraints
02 p0189 A69-12378

Monte Carlo direct simulation for treating rarefied supersonic flows about bodies in transitional regime between continuum and free molecular flow
02 p0189 A69-12523

Scattering matrices of complex configuration specified by cross polarized radar cross sections based on Green function, noting wire loop and wedge scatterers
03 p0384 A69-12904

Hypersonic lifting body optimization under single and combined constraints of volumetric efficiency, heating and skin friction, using numerical search routine
[AIAA PAPER 68-1157] 03 p0362 A69-13557

Prandtl three main problems of airfoil theory interpreted and applied, discussing slender aircraft and hypothetical waverider aircraft
04 p0543 A69-14802

Conventional fuselage and streamline body shapes effect on drag at subsonic speeds, noting boundary layer development
05 p0697 A69-15827

Blockage correction for blunt based bodies of revolution in wind tunnels at low Mach numbers
05 p0699 A69-16395

Low drag three dimensional body configurations from tabulated low drag airfoil coordinates
06 p0857 A69-17000

Hypersonic body shaping for minimum drag and improved performance from view of flight regimes, discussing implications of pressure laws
[AIAA PAPER 69-181] 06 p0863 A69-18052

Aerobell extendible nozzle rocket engine design and performance, cold flow and simulated hot flow test results
[AIAA PAPER 69-4] 06 p0985 A69-18195

Optimum aerodynamic shapes theory, considering linearized and nonlinearized supersonic flow, Newton-Busemann hypersonic flow, free molecular flow, mathematical models and variational problems
08 p1253 A69-21127

Complex bodies aerodynamic characteristics in free molecular gas flow by applying Monte Carlo method
09 p1430 A69-21793

Lifting pressure distributions on oscillating surfaces in subsonic flows using doublet lattice method for various surface geometries
[AIAA PAPER 68-73] 09 p1430 A69-21946

Axissymmetric bodies longitudinal contours for hypersonic flow minimum drag, considering Newtonian pressure distribution and skin friction
10 p1632 A69-23886

Aerodynamic design of subsonic and transonic axial flow compressors, discussing blade configurations and computerized design of turbomachinery
12 p2147 A69-25792

Small gas turbine Brayton cycle analysis treating component efficiencies as dependent variables in examining single stage radial compressor and turbine aerodynamic configuration
[IME PAPER 5] 12 p2147 A69-25794

Book on hovercraft design and construction covering aerostatic and aerodynamic craft, cushion performance, ducting, fans, compressors, drag, propulsion, control, stability, economics
12 p2013 A69-26633

Ablation wedge model design for testing in wave superheater under controlled pressure gradients and constant temperature
12 p2059 A69-26816

Inviscid supersonic flow in right angle corner of varied angular intersecting wedges with bow waves remaining planar up to intersection line
13 p2200 A69-28251

Aerodynamic interactions between two wing configurations with same aspect ratio located in same plane, discussing testing principles and initial experimental results
17 p3061 A69-33595

Economics evaluation for operation of commercial fixed wing aircraft at aft center of gravity position, noting fuel saving from drag reduction
[SAWE PAPER 806] 18 p3091 A69-34902

Aerodynamic optimal shaping by multivariable search technique, comparing results with variational solutions for airfoil profiles
20 p3459 A69-37527

Optimum form for hypersonic profile with minimum drag for given bending strength solved by variational method
21 p3644 A69-39099

Book on optimal aerodynamic shapes by means of variational method, covering conventional and triangular thick wing lift systems in supersonic flow
21 p3644 A69-39667

Hypersonic wave riders lift and drag coefficients, lift drag ratio, shock profile and pressure distribution, discussing wind tunnel measurements of caret wings
21 p3645 A69-39802

Modified tailed delta configuration selection for U.S. SST, discussing power plant installation choice
[RAES PAPER 17] 22 p3863 A69-40496

Hypersonic turbulent boundary layer separation over cone-cylinder flare configuration at zero angle of attack and high Reynolds number
22 p3930 A69-40557

Transonic flows behind separated shock waves of ideal gases past bodies of various geometries
23 p4151 A69-41526

AERODYNAMIC DRAG

NT SUPERSONIC DRAG

Soviet monograph on laminar boundary layer in presence of suction covering incompressible flow through porous surface, drag reduction and optimal suction at high velocities
01 p0060 A69-10615

Low Mach number airfoil profile drag calculation for various angles of attack and Reynolds numbers, noting effects of transition and airfoil thickness
01 p0006 A69-11017

Lift efficiency of and stabilization by square flare on high speed missile, comparing wind tunnel measurements with circular conical flare
02 p0190 A69-12544

Minimum drag configurations with low heat transfer for hypersonic bodies of revolution, noting performance at supersonic speeds
02 p0191 A69-12578

Accelerometric measurement of atmospheric drag with satellite 1968-59B, obtaining upper atmosphere density profile at 130-160 km
02 p0245 A69-12728

Lift and drag parameters of axisymmetric bodies in Newtonian flow at random incidence by summation of appropriate portions
04 p0542 A69-14745

Heat transfer and drag of cylinders with cavities at hypersonic speeds measured by platinum film thermometer and strain gauge balance in gun tunnel
[DVL-850] 04 p0543 A69-14822

Flow field of impulsively started circular cylinder, noting drag due to nonlinear convection
04 p0544 A69-14897

Airplane drag prediction by wind tunnel tests
05 p0695 A69-15543

Laminar flow on swept low drag suction wings at high Reynolds numbers
05 p0696 A69-15557

Conventional fuselage and streamline body shapes effect on drag at subsonic speeds, noting boundary layer development
05 p0697 A69-15827

Low drag three dimensional body configurations from tabulated low drag airfoil coordinates
06 p0857 A69-17000

Polyvinyl chloride coating for reducing aerodynamic skin friction drag, noting water saturation effect on polyurethane foam
[AIAA PAPER 69-165] 06 p0912 A69-18043

AERODYNAMIC FORCES

MHD flow in channels with abruptly widening sections and finned walls under transverse magnetic field, discussing effects on drag
07 p1192 A69-19016

Equivalent cross section theory relating air resistance of randomly tumbling bluff objects to resistance of equivalent spheres
09 p1431 A69-22000

Small body drag in wake of large satellite using two dimensional model noting methods for calculating distribution function moments in wake regions
12 p2012 A69-26798

Mass transfer cooling data correlation for estimating mass injection effect on slender cone drag
13 p2199 A69-28224

Three dimensional effects on Stanton tube data for skin friction determination for small protruberances drag immersed in turbulent boundary layer
16 p2771 A69-31920

Trajectory calculation of axisymmetrical body during ballistic and vertical flight, assuming air drag proportional to square of velocity
17 p2889 A69-32950

Base flow component of total drag for axisymmetric supersonic afterbody with single exhaust jet, considering turbulent mixing
[AIAA PAPER 69-650] 17 p2956 A69-33485

Stratospheric winds effect on instrument package suspended from high altitude balloon, discussing package displacements, yarn shapes and air drag characteristics
17 p2961 A69-33612

Economics evaluation for operation of commercial fixed wing aircraft at aft center of gravity position, noting fuel saving from drag reduction
[SAWE PAPER 806] 18 p3091 A69-34902

Computer-generated airline fleet performance data on B-720, B-727 and DC-8 aircraft, attributing deterioration to increased drag and fuel consumption
[AIAA PAPER 69-770] 19 p3245 A69-35651

Drag influence on mission performance of hypersonic aircraft during climb and cruise, noting payload capacity
20 p3461 A69-37154

Schweikhard method for measuring changes in lift, drag and pitching moment of fixed wing aircraft as function of distance from ground
20 p3462 A69-37423

F region atmospheric density measurements obtained from aerodynamic drag on San Marco 2 satellite in equatorial orbit, comparing data with San Marco 1
21 p3704 A69-38369

Structural and aerodynamic developments in attached inflatable decelerators for deployment of payload at supersonic speeds
[AIAA PAPER 68-929] 21 p3647 A69-39015

Satellite orbits calculation in nonrotating atmospheres, considering atmospheric drag and zonal harmonics coupled effects
[AIAA PAPER 69-925] 21 p3808 A69-39352

Shear stress and free molecular drag for gas flow along concave cylindrical surface oriented at angle of attack, analyzing multiple surface collisions effect
24 p4249 A69-43660

AERODYNAMIC FORCES

- NT BLAST LOADS
- NT GUST LOADS
- NT HYPERSONIC FORCES
- NT INTERFERENCE LIFT
- NT JET LIFT
- NT LIFT
- NT ROTOR LIFT
- NT SUPERSONIC DRAG
- NT WING LOADING

Velocity field excited by wing vibrations propagating over elastic surface at supersonic velocities, considering nonvertical motion and absence of external forces
02 p0188 A69-11976

Unsteady aerodynamic forces on coplanar lifting surfaces in subsonic flow induced by wing/ horizontal tail interference
04 p0543 A69-14819

Calculation method for surface aircraft structures by treating normal forces and bending moments as unknown values
04 p0677 A69-14839

Wind tunnel wall constraints effects at extreme force coefficients during V/STOL testing shown different from effects in conventional aircraft testing
05 p0741 A69-15574

Satellite relative equilibrium stability under action of gravitational and aerodynamic moments
05 p0830 A69-16503

Aerodynamic torque on spinning spherical satellite, noting applications to accommodation coefficient measurement and study of aerodynamic gas-surface interactions
09 p1611 A69-22087

Aerodynamic stick force and speed characteristics of various horizontal tails and elevator trimmers, noting zero stick force case
09 p1434 A69-22597

Subsonic channel flow of frictionless barotropic gas through oscillating grid, investigating perturbation velocity field and aerodynamic forces on airfoils
10 p1631 A69-22905

Velocity, lifting force, pressure moment and circulation around linear array of thin foils with direction normal to profile chords calculated by Birnbaum-Glauret method
11 p1817 A69-24348

Aerodynamic forces causing deformation and breakup of liquid droplet with ellipsoid of revolution form in constant velocity gas flow
11 p1875 A69-25466

Mathematical model with straight wake airfoil to determine aerodynamic forces on oscillating rotor blades in hovering flight
11 p1821 A69-25514

External perturbation effects of near earth environment on dynamics and attitude of slowly spinning multibody satellite
[AIAA PAPER 68-856] 12 p2174 A69-26795

Accelerometer force balance used in measuring forces and moments acting on models in short duration rocket plume tests at simulated high altitude
[AIAA PAPER 69-351] 13 p2264 A69-28285

Skin friction measurement in aerodynamic tests using thin liquid crystal coatings with changes in maximum light scattering wavelength in response to shearing forces
14 p2427 A69-29029

Velocity field excited by wing vibrations propagating over elastic surface at supersonic velocities, considering nonvertical motion and absence of external forces
15 p2547 A69-30259

Atmospheric density measurement above 50 km by aerodynamic and atmosphere excitation probes, emphasizing beta ray, bremsstrahlung and molecular fluorescence densitometers
15 p2615 A69-31284

Jet influence and aerodynamic force changes on V/STOL aircraft in transitional and high speed flight investigated in wind tunnel tests for fighter aircraft
16 p2734 A69-31937

Aerodynamic forces acting on harmonically oscillating thin profile in stalled plane parallel flow of ideal incompressible fluid
16 p2732 A69-32142

Stability analysis of missile lateral supersonic flutter based on Lagrange equations, considering conservative thrust, control deviation and aerodynamic forces
17 p3045 A69-32946

Leading edge flap angle and planform effects on low speed vortex patterns of flat plate double delta wings, measuring aerodynamic forces
17 p2890 A69-33246

Hypersonic aircraft induced changes in chemical and thermodynamic properties of air influencing aerodynamic forces on vehicle
17 p2895 A69-33576

Test facility to determine factors influencing aerodynamic energy dissipation of cantilever rods oscillating in airstream
17 p2947 A69-33928

Aerodynamic energy dissipation during vibrations of bars in airstreams characterized by energy loss per cycle and logarithmic decrement
17 p3066 A69-33948

Additional yawing by gyroscopic moment of power plant and effect on aircraft maneuver during curvilinear flight, noting compensation by automatic control
18 p3092 A69-34973

Accelerometer force balance method for measuring aerodynamic rocket plume forces acting on flat plate model in short duration shock tunnel test environments
19 p3292 A69-35737

Aircraft wing aerodynamic forces and moments due to lifting engine air intake simulated by wind tunnel experiment
19 p3239 A69-36400

Finite difference scheme for primitive equation model, emphasizing two grid internal noise suppression to improve gradient force expression accuracy
19 p3364 A69-36507

Atmospheric entry-capsule dynamics, considering angle of attack motion under gravity forces influence and aerodynamic normal force stability relations
20 p3617 A69-37197

Rotary derivatives of aerodynamic forces and moments in subsonic and supersonic flow, emphasizing kinematic and dynamic oscillations
21 p3647 A69-38733

Theoretical nonlinear method for calculating aerodynamic forces on low aspect ratio wings at high angles of attack and wide range of Mach numbers
21 p3644 A69-39084

Aerodynamic and gravitational torque effects on orbiting satellites attitude stability, applying Liapunov direct method in case of conservative aerodynamic torque
[AIAA PAPER 69-832] 21 p3821 A69-39363

Flight vehicle motion in high density medium reacting with static, vortex and dynamic forces analyzed for optimal regime via Lagrange-Euler equation
21 p3768 A69-39824

Aerodynamic forces under space-like conditions measured by swing balance, using large scale molecular beams for rarefied hypersonic gas flow simulation
[AIAA PAPER 69-1032] 22 p3924 A69-40400

Mach 8 flow field effects and forces on small delta tail surfaces mounted on body of revolution at various angles of attack
[AIAA PAPER 68-891] 22 p3859 A69-40539

Helicopter main rotor noise from square tipped blades determined as function of tip speed, blade area and thrust
22 p3864 A69-40676

Forces on aircraft during ground roll with slick runway surface and cross wind for deceleration and control on ground
[SAE PAPER 690375] 23 p4062 A69-41652

Aerodynamic forces on hypersonic vehicle surfaces, deriving relations for weak interaction pressures induced in unsteady flow
24 p4306 A69-43676

LF approximation in predicting unsteady aerodynamic forces affecting large aircraft stability, analyzing velocity potential of oscillating wings
24 p4250 A69-43729

AERODYNAMIC HEAT TRANSFER

- NT HYPERSONIC HEAT TRANSFER
- NT SUPERSONIC HEAT TRANSFER

Stagnation point heat transfer for thin ablative coatings on sounding rockets in continuum supersonic and hypersonic flight regimes
10 p1808 A69-22934

Heat transfer at plate in hydrodynamically stabilized turbulent boundary layer region, obtaining formulas for calculating transfer coefficients
10 p1809 A69-23427

Local film heat transfer coefficients variations effect on longitudinal constant area fin surface under turbulent flow
[ASME PAPER 68-HT-20] 13 p2373 A69-27770

Surface pressure and heat transfer over blunt conical body in hypersonic flow with uniform mass addition of various gases
[AIAA PAPER 69-716] 17 p2891 A69-33463

Radiative energy emission by blunt vehicle shock layer under severe entry conditions, discussing flow properties and radiative transfer coupling
[AIAA PAPER 69-719] 18 p3084 A69-34416

Heat exchange in stagnation point region of blunt body, using shock test simulation of high speed flight
18 p3086 A69-35118

Transonic flow around profiles with heat input, showing drag reduction in supersonic part of flow field
23 p4061 A69-42414

Aerodynamics of twisted jet propagating in same fluid by asymptotic expansion, analyzing twist influence on heat transfer
24 p4244 A69-43057

Apollo afterbody heat transfer, studying ablation effects for various reentry angles of attack
24 p4415 A69-43680

AERODYNAMIC HEATING

Heat transfer efficiency of triangular radiating fin in diathermal medium producing aerodynamic heating
02 p0354 A69-12490

Boundary layer transition to turbulence shown to have influence on magnitude of lifting reentry body heating rate
[AIAA PAPER 68-1155] 03 p0416 A69-13674

Kinetic heating of aircraft, discussing aerodynamic boundary layer, relationship between heat transfer coefficient or boundary layer energy turbulence and skin friction
03 p0534 A69-14087

- Heat transfer and drag of cylinders with cavities at hypersonic speeds measured by platinum film thermometer and strain gauge balance in gun tunnel [DVL-850] 04 p0543 A69-14822
- Dynamic stability loss on ablating vehicles ascribed to boundary layer transition effect from turbulent aft body heating [AIAA PAPER 69-106] 06 p1037 A69-18087
- Ablative and insulative performance of reference heat shield materials under transient heating simulating ballistic vehicle reentry trajectory, using plasma jet facility [AIAA PAPER 69-150] 06 p0907 A69-18110
- Limiting speed for target tracking hypersonic vehicle due to electrons formation through aerodynamic heating, calculating allowable flow conditions, maximum speeds and electron distribution 07 p1086 A69-19509
- Hypersonic slipper bearing problem in rocket boosted sleds, discussing flow model consisting of laminar stagnation region and boundary layers [AIAA PAPER 68-736] 09 p1477 A69-22003
- Conductive heat transfer between aerodynamically heated skin and barrel of Aerobee 150 sounding rocket telescope, noting effect of residual gas pressure 09 p1610 A69-22005
- Radiant heat transfer in hypersonic aerodynamic heating, discussing radiant flux and carbon dioxide concentration in reentry problems 11 p2002 A69-25233
- Aerodynamic heating of ELDO-A booster rocket, calculating flow field, heat transfer and conduction by method of characteristics and thermal models 11 p1966 A69-25433
- Configuration, trajectory planning, instrumentation, calorimetry and aerodynamic heating for planetary atmosphere entry 11 p1968 A69-25719
- Ablation cooling application to aerodynamic heat shielding, discussing various materials, sublimation, rocket probe ascents, satellites and experimental aircraft 12 p2011 A69-25854
- Thin multiple layer superinsulation protection against reentry heat, discussing composite design considerations and refractory materials selection 12 p2060 A69-26817
- Optimal control for minimization of heating and acceleration forces to reduce kinetic energy of reentry vehicle in space missions 13 p2352 A69-27960
- Ceramic heat transfer gage for supersonic wind tunnel investigation of blunt swept wing leading edges aerodynamic heating 15 p2613 A69-31272
- Spacecraft sterilization by destructive heating with thermite or high velocity entry friction before entering planet atmosphere 15 p2560 A69-31472
- Nonuniform heating rates during laminar boundary layer transition on slender cone at hypersonic speeds 18 p3085 A69-34435
- Unsteady temperature field in plane skin of aerodynamic body in case of temperature dependent thermophysical characteristics of skin material 18 p3092 A69-34982
- Aerodynamic skin heating at high Mach numbers affecting structural design, noting use of high temperature materials, insulation systems and shell construction method 21 p3646 A69-38460
- Radiation self absorption effects on heating loads of blunt body during hyperbolic entry 21 p3644 A69-39040
- Arc-heated hypersonic wind tunnel for simulated spacecraft reentry environment, aerodynamic heating characteristics and research applications 22 p3927 A69-40595
- Unsteady aerodynamic heating at stagnation region including surface combustion in arc heated high enthalpy wind tunnel 22 p3860 A69-40597
- Structural aircraft design requirements for high flight speeds stressing aerodynamic heating, heat resistant materials, weight and geometry problems 23 p4233 A69-42164
- Boundary layer transition to turbulence shown to have influence on magnitude of lifting reentry body heating rate [CIAA PAPER 68-1155] 24 p4300 A69-43251
- AERODYNAMIC LIFT**
U LIFT
- AERODYNAMIC LOADS**
NT BLAST LOADS
NT GUST LOADS
NT WING LOADING
- Nonstationary aerodynamic load for harmonically oscillating body in fluid flow with constant mean velocity measured, determining errors as functions of system parameters 07 p1050 A69-18752
- Spherical sandwich radomes designs, discussing aerodynamic loads, wind pressure effect, electrical properties and mountings 07 p1112 A69-19538
- Disturbed index of refraction scattering cross sections and aircraft acceleration increments for clear air turbulence, deriving correlation for measurements 10 p1656 A69-23651
- Spectral model used for analysis of atmospheric turbulence as related to loads on gliders 12 p2127 A69-26931
- External and internal energy dissipation coefficients in vibrating aerodynamic rod structures 14 p2537 A69-29748
- Maximum helicopter level flight speed loads spectrum shape and severity related to rotor component fatigue design strength [AHS PAPER 372] 17 p3059 A69-33516
- Two dimensional airfoil data application to three dimensional rotor blade element environment, predicting stall induced structural loads [AHS PAPER 322] 17 p2895 A69-33536
- Shock tube calibration for aerodynamic loading, determining flow parameters by observing particle trajectories with high speed photography of smoke tracers 18 p3085 A69-34469
- Flow breakdown in wind tunnel tests of high disk loading systems at low forward speeds, investigating downwash distribution effect using disk loading and airfoil models 18 p3119 A69-35230
- Helicopter rotor blades instabilities during starting and stopping cycles, predicting aerodynamic loads by wind tunnel tests, determining negative/positive angles of attack 20 p3463 A69-37804
- Dynamic stall effect on helicopter rotor blades air-loading and blade pitching motion at high advance ratio 20 p3463 A69-37809
- Air launched sounding rockets design, development and testing noting aerodynamic loading and surface, propulsion unit, cost effectiveness, etc 21 p3820 A69-39218
- Rotor operating limits, loads, performance prediction and airfoil development in rotary wing aerodynamics research 23 p4057 A69-41371
- Numerical integration of double integral with Cauchy type singularity for calculation of aerodynamic or hydrodynamic load on lifting body 23 p4182 A69-41913
- High speed compound helicopter rotor loads flight test program, discussing measured parametric effects [AIAA PAPER 68-980] 24 p4250 A69-43712
- AERODYNAMIC MOMENTS**
U STABILITY DERIVATIVES
- AERODYNAMIC NOISE**
- Pressure fluctuations in separated flow region behind thin fence, determining recombination point position, noise sources and frequency spectra variations 04 p0544 A69-14868
- Collection of articles on noise and acoustic fatigue in aeronautics sponsored by Ministry of Aviation and USAF 05 p0703 A69-16800
- Sonic boom reduction devices, discussing supersonic electroaerodynamic flow with shock waves, gas discharge one dimensional continuum analysis, power expenditure and aerodynamic interaction [AIAA PAPER 69-38] 06 p0869 A69-18150
- Broadband sound field generated aerodynamically by relatively smooth disk rotating in own plane, noting turbulent boundary layer flow and surface roughness effect 09 p1539 A69-21718
- Radiated aerodynamic noise effects on boundary layer transition on sharp leading edge hollow cylinders in wind tunnels, noting Reynolds numbers correlation [AIAA PAPER 68-375] 13 p2241 A69-28211
- Fluctuating turbulent stress measurements in mixing layer of two dimensional jets including intensity, spatial correlation and wave-number fluctuating stress frequency spectra 14 p2431 A69-29577
- SST fuselage response to reverberant and turbulent boundary layer noise calculated for computing equivalent reverberant acoustic fields 15 p2549 A69-30302
- Sonic boom theory for steady flight in atmosphere without winds, discussing sonic boom reduction by aerodynamic means 17 p2902 A69-34017
- Discrete sound radiation theory considering rotational noise as dominant rotor noise and stressing fluctuating forces as typical of helicopter rotor 18 p3090 A69-34323
- Axial flow fan blade row noise generation, discussing equation linearization, acoustic energy prediction and effects of flowing medium [ASME PAPER 69-FE-12] 20 p3460 A69-37989
- AERODYNAMIC STABILITY**
- Active control system augmentation of inherent aerodynamic damping assuring acceptable limits on oscillatory rotational motion during hypersonic Martian atmospheric entry 02 p0333 A69-11742
- Lift efficiency of and stabilization by square flare on high speed missile, comparing wind tunnel measurements with circular conical flare 02 p0190 A69-12544
- Aeroelastic rotor and nonsteady rotor aerodynamics 05 p0695 A69-15549
- Aerodynamic interference effects arising from jet efflux of V/STOL aircraft, developing vortex sheet theory for jet interference 05 p0696 A69-15566
- Rotating turbomachinery design to minimize fluctuating lift on isolated airfoils, presenting cascade geometry by quasi-steady analysis [ASME PAPER 68-WA/FE-12] 05 p0698 A69-16092
- Roll acceleration influence on angle of attack convergence and windward meridian rotation rate of rolling reentry vehicles [AIAA PAPER 69-100] 06 p1018 A69-18089
- Nonlinear equations of motion approximate solution, determining ordnance weapons aerodynamic stability coefficients from angular motion as functions of angle of attack [AIAA PAPER 69-135] 06 p0863 A69-18120
- Dynamic stability derivatives of large angle blunted conical spacecraft near transonic speed in simulated Mars environment for various angles of attack [AIAA PAPER 69-104] 06 p1019 A69-18210
- V/STOL rotary wing and propeller aircraft dynamic and aeroelastic problems emphasizing instabilities [AIAA PAPER 69-202] 08 p1419 A69-21031
- Self excited aeroelastic galloping oscillations of long prismatic bodies subjected to wind velocity, noting effect of aerodynamically unstable cross sections 09 p1615 A69-21923
- Computer implemented analysis of aeroelastic stability for elapsed data reduction time, discussing frequency modes and digital filters 10 p1634 A69-23274
- Optimization of control systems with allowance for failures of elements in parallel operation, noting application to vehicle with clustered propulsion system 11 p1966 A69-25331
- Mechanical engineering applications to aerospace flight, discussing stability and piloting problems and experimental methods 11 p1824 A69-25672
- Membrane flutter and panel stability in supersonic flow, considering infinite aspect ratio equation solution through Galerkin method 13 p2365 A69-28236
- Analog computer simulation of helicopter dynamics after main and tail rotor blades partial loss, showing banking and controllability 14 p2393 A69-29744
- Aerodynamic failure investigation of Black Brant 2 single stage sounding rockets 15 p2703 A69-31545
- Aeroelastic nonlinear panel stability in supersonic gas stream, defining hazardous conditions of critical flutter boundary 15 p2716 A69-31549
- Reentry flight test vehicle development for West German space program, using hypersonic model to determine controllability and aerodynamic stability 16 p2867 A69-31934
- Critique of paper on comparison of dynamically scaled model rotor test data with discrete azimuth aeroelastic stability theory [AHS PAPER 341A] 17 p3059 A69-33505
- Gyro controlled rigid rotor dynamic stability studied for stoppable rotor operation, developing analytical expressions for determining stability boundary of constant and rotor speed gyros [AHS PAPER 343] 17 p2899 A69-33508

Vortex breakdown on slender sharp edged and modified delta wings with varying sweep angles investigated in wind tunnel using schlieren system for flow visualization

[AIAA PAPER 69-778] 19 p3237 A69-35644

Rotating turbomachinery design to minimize fluctuating lift on isolated airfoils, presenting cascade geometry by quasi-steady analysis

[ASME PAPER 68-WA/FE-12] 19 p3240 A69-36419

Sounding rocket aerodynamic stability as function of nose length and mass, discussing wind tunnel test data

19 p3432 A69-36761

Cylindrical concentric detonation front and stability mechanism space-time measurement

20 p3632 A69-37215

Flight control and stability of STOL transport aircraft with powered-lift boundary layer control system augmented lift

20 p3462 A69-37513

V/STOL aircraft aerodynamic roll motion control requirements at low speeds

20 p3574 A69-37514

Aeroelastic instabilities of aircraft in flight by representing motion in space function base, using natural vibration mode

[ONERA-TP-697] 20 p3626 A69-37755

Helicopter rotor blades instabilities during starting and stopping cycles, predicting aerodynamic loads by wind tunnel tests, determining negative/positive angles of attack

20 p3463 A69-37804

Passive helicopter rotor isolation for alleviating rotor induced vibration, using dynamic antiresonant vibration isolator

20 p3463 A69-37807

Dynamic stall effect on helicopter rotor blades air-loading and blade pitching motion at high advance ratio

20 p3463 A69-37809

Aerodynamic pitch-roll coupling in spinning vehicles, showing unsteady components complicating data reduction

21 p3647 A69-39038

Dynamic stability derivatives of large angle blunted conical spacecraft near transonic speed in simulated Mars environment for various angles of attack

22 p4036 A69-40550

AERODYNAMIC STALLING

Fluidic compressor bleed control unit for TF-30 jet engine to prevent stall at low rpm operation

10 p1753 A69-23559

Dynamic stall data for helicopter rotor blade analyses obtained by oscillatory tests in pitch and in vertical translation at full scale Reynolds number

11 p1819 A69-25374

Inlet produced dynamic distortion and effects on stall margin of J-85 turbojet engine from supersonic wind tunnel tests

[AIAA PAPER 69-487] 16 p2840 A69-32676

Critique of paper on comparison of dynamically scaled model rotor test data with discrete azimuth aeroelastic stability theory

[AHS PAPER 341A] 17 p3059 A69-33505

Steady state and dynamic distortion influence on performance and stall of turbofan engine, discussing compressor instrumentation, tests and simulation data

18 p3185 A69-35175

Dynamic stall effect on helicopter rotor blades air-loading and blade pitching motion at high advance ratio

20 p3463 A69-37809

Computerized pressure distribution estimation for stalled airfoil with arbitrary wake geometry

24 p4250 A69-43726

AERODYNAMICS

NT AEROTHERMODYNAMICS

NT HYPERSONICS

NT ROTOR AERODYNAMICS

Aerodynamic moments related to turbfans of subsonic transport aircraft

[ONERA-TP-629] 02 p0187 A69-11622

Wind tunnel measurement of rear parts drag of small scale aircraft models

[ONERA-TP-633] 02 p0226 A69-11624

Flight vehicle dynamics, discussing classical mechanics, fluid dynamics, structural dynamics and thermodynamics

02 p0193 A69-11985

Unsteady aerodynamics of ablating flared reentry body, noting complications due to blunted nose shear flow and entropy gradient effects

02 p0189 A69-12524

Unsteady pressure field in zone of aerodynamic proximity of free moving airscrew investigated with propeller blades replaced by surface singularities

02 p0192 A69-12827

Entry phase flight data of Missions AS-202, Apollo 4 and 6 compared with wind tunnel aerodynamics data

[AIAA PAPER 68-1143] 03 p0519 A69-13556

Nonlinear aerodynamic problems of plane and asymmetric flows solved by digital computer, using modified Monte Carlo method

03 p0364 A69-13921

Book on transonic aerodynamics, emphasizing two dimensional and three dimensional problems involving transonic flow about airfoils with and without shocks

04 p0541 A69-14580

Aerodynamics of bodies of revolution in nonplanar motion using nonlinear functional analysis of moments for motion about center of gravity

[AIAA PAPER 68-20] 04 p0542 A69-14714

Airframe subsonic aerodynamic problems for fixed wing aircraft under low speed/high lift conditions

05 p0695 A69-15542

Tensiometric aerodynamic balances in great velocity ranges, discussing measurements, elastic elements and tensiometric balance construction and measuring errors nature

05 p0762 A69-15922

Propeller at static working state using vortex theory assuming infinite blade number, discussing thrust and torque coefficients

06 p0857 A69-17194

Fifty years of N. E. Zhukovski Central Aerohydrodynamic Institute in U.S.S.R.

06 p1043 A69-17390

Flow fields about upswept rear fuselages of rear loading cargo transport aircraft

06 p0859 A69-17492

Free fall vehicle dynamics for wind tunnel measurements of research shapes used in computer simulation of vehicle trajectories

[AIAA PAPER 69-229] 06 p0864 A69-18130

Solar wind flow past earth and magnetosphere correspondence to external aerodynamics of round nosed bodies in supersonic stream

07 p1128 A69-19360

Book on wing theory in supersonic flow covering simple and cruciform wings, wings with vertical plane tail, etc

08 p1251 A69-20523

Aerodynamic design, discussing research in aeronautical engineering and European organization

09 p1433 A69-22774

Book on aerodynamics of aircraft flight covering air flow, wing geometry, forces on wings, etc

11 p1817 A69-24583

Holography for optical analysis of hypersonic aerodynamics in single shot firing tunnel

12 p2087 A69-26176

Aerodynamic field around symmetric profile two dimensional plates, visualizing velocity fields with Al particles

12 p2011 A69-26288

Potential error source in VTOL aircraft dynamics analysis suggested by dual function of symbol used in perturbation equations of motion

12 p2014 A69-26776

Shadow, schlieren and interferometric methods for study of transonic, supersonic and hypersonic fields of aerodynamics, using refractivity variations in heterogeneous medium

12 p2060 A69-26934

Equations of motion of compressible fluid with non-zero resistivity near thin foil, solving supersonic and subsonic flow by Fredholm integral equations

13 p2200 A69-28360

Aerodynamic lift and moment fluctuations of sphere at supercritical Reynolds numbers measured by hot-wire anemometers, noting dependence on time

14 p2390 A69-29573

Unsteady aerodynamic processes in centrifugal compressor stage with impeller, vaneless diffuser and annular receiver chamber

15 p2547 A69-30073

Aerodynamic losses and stage efficiency in partial admission turbines, using flat bladed rotor experiments and rotors of different blade pitch

15 p2547 A69-30290

Mechanical construction device for Carafoli profile in aerodynamics and hydraulics, establishing mechanism for tracing rounded and sharp trailing edges profiles

15 p2549 A69-31264

Aerodynamic problems posed by hypersonic flight from Mach 3 to 20, considering relationship to half cone with flat base

16 p2867 A69-31761

Slender body aerodynamics combined with wave propagation theory for sonic booms of aircraft configurations, propeller and helicopter noise, sonic boom alleviation, etc

16 p2732 A69-31867

Soviet book on rocket aerodynamics covering configurations, lifting, stabilizing and control surfaces, friction and heat transfer characteristics

17 p2889 A69-32829

Soviet collection of articles on hydroaeromechanics and elasticity theory, number 7

17 p3054 A69-33121

Book on experimental aerodynamics covering subsonic and supersonic wind tunnels, wall measurements, airfoils, aerodynamic characteristics of propellers, fixed and rotary wing aircraft

17 p2891 A69-33318

Statistical analysis in inlet air flow dynamics, discussing inlet duct design and pressure variations

[AIAA PAPER 68-649] 17 p2896 A69-34020

Turbomachinery aerodynamics, discussing secondary flow in blading and digital computer applications to annulus flow field

18 p3086 A69-34925

Aerodynamics of rotary wing and V/STOL aircraft - Conference, Buffalo, June 1969, Volume 2, Wind tunnel testing, New concepts in rotor control

18 p3088 A69-35226

Air and space research at Goettingen Aerodynamic Testing Institute

19 p3295 A69-36684

Pade method applied in aerodynamics for determining detached shock wave shapes and shock waves attached at vertex of cone

19 p3241 A69-36778

Linearized theory of subsonic gas flow past profile compared with methods based on approximations of relationship between density and pressure

19 p3241 A69-36782

Sedov formula for complex velocity of arbitrary circulation in two dimensional theory of small curvature thin wings

19 p3242 A69-36795

Drag minimization as extremization of products integrals powers, noting application to optimum wings and fuselages

19 p3242 A69-36800

Algorithm using Biot-Savart law for determining induced velocity of curved vortex lines in aerodynamics, noting required line integration method

20 p3458 A69-37169

Soviet book on theory and design of turbocompressors covering gas dynamic cascade theory, thermodynamics and aerodynamics, viscous gas flow, etc

20 p3459 A69-37238

Flow stability regions at surface of flight vehicle, considering boundary layer flow of incompressible fluid

21 p3645 A69-39827

Monograph on aerodynamic studies of effusion cooled turbine blades covering turbulent boundary layers, gas turbine performance, experimental design, etc

[AIAA PAPER 69-871] 21 p3786 A69-39867

Aerodynamics of rotary wing and V/STOL aircraft - Conference, Buffalo, June 1969, Volume 3

23 p4057 A69-41369

Aerodynamic research for rotary wing and V/STOL aircraft, suggesting analytical techniques with software packages designed around standard input/output formats

23 p4146 A69-41373

Aerodynamic research in VTOL field including rotor wake, noise reduction, airfoil sections, lift coefficient, drag, wind tunnels, etc

23 p4058 A69-41374

AEROELASTICITY

NT AEROTHERMOELASTICITY

Root locus method applied to longitudinal and lateral stability of aircraft with flexible fuselage and wing

04 p0677 A69-14835

Aeroelastic rotor and nonsteady rotor aerodynamics

05 p0695 A69-15549

Longitudinal stability derivatives prediction for rigid and elastic airplanes, using influence coefficient method

[AIAA PAPER 69-131] 06 p0868 A69-18134

V/STOL rotary wing and propeller aircraft dynamic and aeroelastic problems emphasizing instabilities

[AIAA PAPER 69-202] 08 p1419 A69-21031

Self excited aeroelastic galloping oscillations of long prismatic bodies subjected to wind velocity, noting effect of aerodynamically unstable cross sections
09 p1615 A69-21923

Computer implemented analysis of aeroelastic stability for elapsed data reduction time, discussing frequency modes and digital filters
10 p1634 A69-23274

Graphite and B filament-epoxy resin composites application to aeroelastic scaled dynamic models, analyzing weight savings, fabrication and component stiffness
11 p1990 A69-25508

Dynamic systems stability with periodically varying parameters analyzed by Hill type infinite determinant, exemplifying helicopter rotor aeroelastic stability in forward flight
11 p1990 A69-25510

Servocontrol to delay flutter onset of aeroelastic structures, discussing rapid amplitude and phase changes near instability point, wind tunnel models, instrumentation, analog simulation
11 p1992 A69-25518

Sailplanes design, discussing structural flexibility, deformations, aeroelastic effects and plastics and man-made fibers
15 p2551 A69-30899

Aeroelastic nonlinear panel stability in supersonic gas stream, defining hazardous conditions of critical flutter boundary
15 p2716 A69-31549

Aeroelastic divergence and stability range for cantilevered and end supported structures computed as function of forward resistance and lift caused by wind
16 p2870 A69-31557

Cylindrical shell aeroelastic dynamic stability subjected to supersonic flow field, considering geometric imperfections, edge constraint and prestability deformation
[AIAA PAPER 68-285] 16 p2874 A69-32159

Critical review of paper on tail rotor structural design principles covering sizing, blade frequency and response and aeroelasticity
[AHS PAPER 342A] 17 p3059 A69-33503

Dynamically scaled model rotor tested in wind tunnel to evaluate blade aeroelastic limits constructed with realistic mass and stiffness distributions
[AHS PAPER 341] 17 p3059 A69-33506

Aerodynamic interactions between two wing configurations with same aspect ratio located in same plane, discussing testing principles and initial experimental results
17 p3061 A69-33595

Structural damping effects on semiinfinite panel boundary aeroelastic limit by Galerkin variational method
19 p3437 A69-36148

Aeroelastic instabilities of aircraft in flight by representing motion in space function base, using natural vibration mode
[ONERA-TP-697] 20 p3626 A69-37755

Aeroelasticity of supersonic aircraft in flight, discussing buffeting, wing flutter and control surface flutter
22 p3862 A69-40003

Air mass mechanics, local lifting surface element aerodynamic response and aeroelastic blade response problems in lifting rotor technology
23 p4061 A69-41370

Aeroelastic stability of thin plates exposed to supersonic flow using singular perturbation methods, obtaining flutter boundary and membrane solution
24 p4403 A69-43573

AEROGYRO HELICOPTERS
U XH-51 HELICOPTER

AEROLOGY
Meteorological effects on anomalous radio echo determined from simultaneous aerological and radar observations, noting maximum signal amplitude during high humidity and low wind speeds
16 p2808 A69-32277

Optimum aerological network design, discussing atmospheric model, numerical analysis, data acquisition, weather forecasts, rms measurement error, etc
19 p3364 A69-36505

Cirrus clouds occurrence, position and wind velocities on jetstream axes based on statistical analysis of aerological data and satellite TV pictures
19 p3366 A69-36669

AEROMAGNETISM
U GEOMAGNETISM

AEROMAGNETO FLUTTER
U FLUTTER

AERONAUTICAL ENGINEERING

Human factors in aviation - Conference, Los Angeles, June 1968
01 p0010 A69-10448

Boeing 747 performance, propulsion, structural and circuit characteristics, mass production and airport passenger installations
01 p0011 A69-11067

CF6 turbofan engine technology program for improvement in performance, weight, durability, noise, etc
[SAE PAPER 680691] 03 p0496 A69-13446

Competition and aeronautical progress in aircraft industry, examining costs and effects of government limits on Boeing 707 and Douglas DC-8
03 p0536 A69-14110

Statistical analysis of aircraft programs engineering man hours, aircraft performance and weight, avionics systems, schedules, etc, as estimating standards
05 p0769 A69-16239

High turbine inlet temperature technology using thermosiphon cooling for gas turbine, possibly doubling specific horsepower of aircraft
[SAE PAPER 690034] 07 p1203 A69-18311

National tasks in civil aeronautical research and development noting technological and social factors
08 p1422 A69-20171

Composite materials based on carbon and boron filaments, discussing application in turbine blades, propeller and helicopter rotor blades and airframe components
08 p1341 A69-20601

Environmental simulation in aircraft engineering, tests concerning aerodynamic conditions and simulator design
08 p1301 A69-20603

Maritime and aeronautical engineering - Conference, Paris, May 1968
08 p1255 A69-20652

Aircraft electrohydraulic primary control systems including electrical signal transmission, engine failure detection, signal structure and digital systems
08 p1347 A69-20872

Airport evolution in London, discussing transportation, safety, international trade, economics, aircraft types and noise spectra
09 p1479 A69-22582

Aerodynamic design, discussing research in aeronautical engineering and European organization
09 p1433 A69-22774

V/STOL aircraft future, discussing Federal Government policies, economics, airport planning, engineering problems, etc
10 p1811 A69-23221

Aircraft technology for hypersonic speed range including swept wing, engine design, composite materials, lift-drag ratio, considering weight, efficiency, STOL requirements
10 p1634 A69-23598

Design management in next century covering computer methods, market needs, etc
11 p2004 A69-24371

Competition and aeronautical progress in aircraft industry, examining costs and effects of government limits on Boeing 707 and Douglas DC-8
11 p2004 A69-24372

Computerized design of optimal direct lift controller for aircraft and aerodynamic surfaces, using Kalman linear state regulator theory
12 p2014 A69-26765

CF6 turbofan engine technology program for improvement in performance, weight, durability, noise, etc
13 p2324 A69-27331

Engineering assessment and flight testing of aircraft systems in UK, discussing operational reliability, etc
13 p2201 A69-27539

Galaxy C-5A aircraft Value Control Program stressing design organization, upper management authority, budgetary adjustments, etc
13 p2383 A69-28095

Weight and cost control program for Boeing 747 aircraft through combined value and weight engineering methods
13 p2383 A69-28096

Pressure, temperature, vibrations and structural stresses data acquisition system for aeronautical applications
14 p2450 A69-29686

Turbofan engines impact on aircraft engineering development emphasizing large performances, high fan flow rates and low fuel consumption
15 p2550 A69-30322

Next generation subsonic aircraft, discussing basic concerns, aerodynamic factors, materials, noise reduction, cost effectiveness, titanium techniques, etc
15 p2550 A69-30590

Aerodynamic problems in future civil aircraft design, emphasizing Concorde development possibilities, discussing VTOL intercity transport, subsonic swept wing and hypersonic aircraft, all-wing airbus, etc
16 p2732 A69-32023

CF6 turbofan engine technology program for improvement in performance, weight, durability, noise, etc
[SAE PAPER 680691] 16 p2837 A69-32367

Airworthiness objectives for civil powered lift aircraft, discussing safety, traffic growth and accident rates
17 p2897 A69-33211

Aircraft structural weight optimization based on design consideration of grouped related elements, noting application to Boeing 747 trailing edge flap driver
[SAE PAPER 757] 18 p3220 A69-34881

Elastomeric and coating materials for aerospace systems, considering temperature, rain, sand erosion, propellant and radiation resistant properties
19 p3357 A69-35586

Aircraft directional stability in terms of ideal non-holonomic coupling on mechanical system, noting servosystem role
21 p3830 A69-39836

Wind information obtained for design and operation of tethered or hovering free floating balloon systems
22 p3864 A69-40804

Analog and digital computer elements combined in hybrid technique for aeronautic simulation
23 p4146 A69-41603

Nondestructive thermal method of measuring wall thickness and channel blockage in investment castings used in aircraft parts production
24 p4312 A69-42754

Supersonic aircraft design data, costs and benefits, discussing origin and significance of sonic boom
24 p4252 A69-42997

Elastomers for SST aircraft applications, discussing properties evaluation, material selection, sealant requirements, etc
24 p4338 A69-43455

AERONAUTICS
Maritime and aeronautical developments - Conference, Paris, April 1967
02 p0192 A69-11886

1967 yearbook on air and space travel covering airbus, astronautics, V/STOL, aerodynamics, flight mechanics, simulation and aeroelasticity
04 p0545 A69-14801

Subsonic aeronautics - Conference, New York, April 1967
05 p0699 A69-15541

Aeronautic electronics - Conference, Washington, D.C., September 1968
05 p0789 A69-16716

Soviet collection of papers on aviation climatology covering cloud covers, tropopause characteristics, icing conditions, etc
12 p2127 A69-26898

Aviation and astronautics - Conference, Tel-Aviv and Haifa, March 1969
14 p2429 A69-29011

Bibliographies for aeronautics and astronautics /AIAA/ technical disciplines
14 p2542 A69-29510

Soviet collection of articles on aviation forecasting of cloud cover, high altitude wind and turbulence
14 p2473 A69-29734

Professional programs for aeronautics, rocketry and astronautics development
18 p3233 A69-34552

Plastics applications in naval air systems command, discussing polymer families, nonstructural glass fiber-based products, radomes, electromagnetically transparent bodies, advanced composites, etc
21 p3751 A69-38532

NASA computer language CLASP coordinated with evolution of SPL /Space Programming Language/ for aeronautics and space programming
[AIAA PAPER 69-957] 22 p3905 A69-40339

AERONOMY
Upper atmosphere structure, phenomena and composition, discussing interactions between photons, electrons, atoms and molecules
02 p0242 A69-11902

Meteorological rockets for space meteorology, aeronomy and weather forecasting, noting international programs involving U.S.S.R.
06 p1043 A69-17056

Collisional processes relevant to daytime and nighttime models of upper atmosphere neutral density and temperature

07 p1130 A69-19654

Aeronomics parameters effect on ionospheric effect of SC magnetic storm, calculating maximum ionization levels, F layer ionization and vertical ionization profile parameters

09 p1486 A69-21546

Aeronomics phenomena observed near Altair and theta Aquila ascribed to Apollo 8 lunar flight

11 p1957 A69-24411

Space experiments analysis involving standardization for economy and mission thesis compromise, detailing aeronomics satellite project with integrated utilization

12 p2173 A69-26128

Photoionizing effect of hydrogen and helium UV glow in nighttime ionosphere compared with ground based IF ionosonde and sounding rocket observations

15 p2605 A69-31436

Aeronomics parameter effect on ionospheric effect of SC magnetic storm, calculating maximum ionization levels, F layer ionization and vertical ionization profile parameters

16 p2783 A69-32541

Time distribution of commencements of substantial intensity increases of geomagnetic and aeronomics phenomena

17 p2964 A69-33958

Nighttime F region time-altitude variations in aeronomics parameters calculated under conditions close to solar activity maximum

23 p4156 A69-41844

Equatorial aeronomy - Conference, Ahmedabad, India, February 1969

23 p4159 A69-42422

AEROPHYSICS

U. ATMOSPHERIC PHYSICS

AEROSOLS

NT FOG

Light polarization properties in atmosphere noting aerosols effect

01 p0075 A69-11189

Aerosol scattering indicatrix of atmospheric ground layer theoretical estimation to make up for lack of experimental values

02 p0274 A69-11443

Aerosol size distribution and variation with humidity effects on visual range, comparing computations with transmissometer and scattering recorder measurements

02 p0276 A69-12760

Mie total and differential backscattering cross sections at laser wavelengths for Junge size distribution aerosol models

04 p0609 A69-14290

Stratospheric aerosol investigation by IR and lidar, applying Mie theory to model aerosol size distribution

04 p0592 A69-14654

Terrestrial and Martian aerosols estimation based on carbon dioxide spectral and Mariner 4 RF occultation measurements

[AIAA PAPER 69-52] 06 p1011 A69-18199

Dayglow determination from aerosol spectrum obtained through data of brightness and polarization of day sky

07 p1211 A69-18545

Spatial size and velocity distributions for liquid or solid aerosols suspended in air flow using Q spoiled ruby laser and holography

09 p1492 A69-21418

Automatic counter for concentration of cloud condensation nuclei in thermal diffusion chamber, measuring light scattering coefficient of cloud

09 p1494 A69-21640

Daytime clear sky light polarization in UV and visual spectral regions calculated with considerations for aerosol components polarization effect

09 p1491 A69-22708

Scattered light mean intensity determination in twilight aerosol atmosphere from satellite observations, formulating boundary value problem

10 p1689 A69-23970

Atmospheric optics by spacecraft and high altitude probes concerning ozone and aerosol distributions, scattering indicatrix polarization and dust cloud inhomogeneities

12 p2055 A69-25815

Stratospheric aerosol attenuation factor vertical distribution statistical structure, tabulating normalized correlation matrices, eigenvectors and eigenvalues

12 p2125 A69-25956

Charged aerosols production for electrohydrodynamic processes by spraying liquids through capillary at high electric field strengths into high pressure air flows

12 p2138 A69-26631

Trapped aerosols below temperature inversions causing lidar echoes in troposphere layers, discussing simultaneous balloon refractometer, thermometer and ground based lidar soundings

13 p2254 A69-28475

Ion pair annihilation average rate by single aerosol particle action in lower ionosphere noctilucent clouds

14 p2434 A69-28941

Aerosol content of mesosphere with noctilucent clouds measured with optical radar in Norway

14 p2444 A69-29877

Polarization and angular distribution of 6328 Å He-Ne laser light scattered by latex-sphere hydrosols, comparing coherent and incoherent scattering patterns

15 p2595 A69-30223

Atmospheric aerosols influence on electric field in ground layer to account for ionization, demonstrating number and turbulent exchange coefficient relationship

17 p2996 A69-33036

Continental and maritime hygroscopic particles associated with increasing relative humidity, determining effect on backscattered power from laser beam using Mie scattering equations

17 p2981 A69-33160

Self contained hand held battery operated aerosol particle analyzer, measuring aerosol concentration and size distribution for laboratory and space flight applications

18 p3136 A69-34691

Atmospheric aerosols influence on ion density profile in stratosphere obtained from numerical solution of equilibrium ionization equation

18 p3129 A69-34962

Vertical distribution of concentration, microstructure and chemical composition of solid aerosol in troposphere and stratosphere from high altitude balloon measurements

18 p3132 A69-35340

Scattered light mean intensity determination in twilight aerosol atmosphere from satellite observations, formulating boundary value problem

21 p3717 A69-39656

Aerosol attenuation coefficients vs altitude in troposphere and stratosphere, noting seasonally dependent surface convective dust layer and temperature dependent aerosol maximum altitude

21 p3718 A69-39773

Normalized phase function and scattering coefficient of aerosols prediction from measurements of particle size distribution, density and refractivity based on Mie solution

21 p3719 A69-39774

Detonation wave instability and damping in gas containing liquid or solid inflammable aerosol, considering atomized propellants

23 p4240 A69-42339

Radiation contribution to large scale atmospheric mass circulation simulation, considering short wave radiation, temperature variations, exponential and aerosol attenuation

23 p4184 A69-42487

Scattered light meter accuracy as function of aerosol particles atmospheric distribution according to size, analyzing measurement errors

24 p4343 A69-42966

AEROSPACE ENGINEERING

NT AERONAUTICAL ENGINEERING

Aerospace technology role in economic and social benefits

[UN PAPER 68-95321] 01 p0178 A69-10467

Space program effects in education, science and engineering, noting impact of first satellite on U.S. research and technology

01 p0179 A69-10500

Inner and outer meteorological balloon assembly for fast rising and high altitude sounding

01 p0010 A69-10541

Hot pressed boron nitride properties and fabrication, noting low moisture absorptivity and aerospace applications

02 p0270 A69-11802

Rocket motor integration into Scout vehicle to improve performance

02 p0335 A69-12384

Canadian program of scientific rocket sounding of auroral phenomena, outlining systems approach, engineering and scientific cooperation requirements, etc

02 p0335 A69-12689

Automatic checkout of space systems, discussing cost effectiveness tradeoffs, ground and onboard equipment utilization, vehicle design and mission success risk

03 p0411 A69-13392

Aerospace company engineering administration criteria and functions for chief project engineer

[SAE PAPER 680682] 03 p0535 A69-13447

Astronaut safety considerations impact on design of Apollo Lunar Surface Experiments Package /ALSEP/

[SAE PAPER 680721] 03 p0433 A69-13448

Aerospace manufacturing contribution to engineering in design development

[SAE PAPER 680668] 03 p0433 A69-13451

Beryllium assemblies for aerospace and nuclear requirements, emphasizing braze joining structural components and effective manufacturing methods

[SAE PAPER 680651] 03 p0433 A69-13454

Beryllium aerospace applications, considering advantages vs disadvantages in systems engineering

[SAE PAPER 680648] 03 p0444 A69-13456

Systems analysis in aerospace engineering by adding motion pictures and TV techniques

[SMPT PAPER 104-17] 04 p0596 A69-14359

Reliability in air and space travel, quality/ quantity aspects, problems and cooperation

04 p0606 A69-14803

Permissible development direction for space research, discussing space station, required systems and cost estimates

05 p0829 A69-15920

Aerospace instrumentation - Conference, Cranfield, Beds., England, March 1968

05 p0765 A69-16747

Materials compatibility for space requirements, discussing shape retention, ductility, tensile strength, dissimilar materials stability, etc

06 p0945 A69-17872

Aircraft and spacecraft guidance and control technology including computers, optimum and Kalman filtering, strapdown inertial navigation, sensors and test pads

[AIAA PAPER 69-72] 06 p0956 A69-18136

U.S. aerospace programs, reviewing manned space missions, space applications, space science, transportation, strategic and tactical warfare and influence on aerospace industry

07 p1243 A69-18376

Aircraft communications, navigation and identification, discussing role of satellites, common waveform modulation and electronics technology

07 p1085 A69-19178

Aircraft and spacecraft guidance and control technology including computers, optimum and Kalman filtering, strapdown inertial navigation, sensors and test pads

[AIAA PAPER 69-72] 07 p1177 A69-19179

Reliability in aeronautics and astronautics, discussing safety, economic cost of technical delays and effect on public, air transport, design, development, testing, utilization, etc

07 p1053 A69-19287

Aluminum coatings compared with cadmium coatings for aerospace fasteners, discussing plating methods

[ASM PAPER D8-5.2] 07 p1142 A69-19663

Strength increase in steel components of aircraft, missiles and subsurface in relation to chronological application sequence, discussing ultimate strength

[ASM PAPER GG8-9.4] 07 p1169 A69-19675

Development of materials in aerospace structures and propulsion systems, discussing superelastic alloys, graphite fibers, composites, refractory metals and processing techniques

08 p1332 A69-20306

Flight research testing facilities at Arnold Engineering Development Center for rockets, turbojets, ramjet engines, aircraft, missiles, satellites and spacecraft

08 p1302 A69-20883

Collection of papers on applications of microelectronics to aerospace equipment, noting design and reliability of circuits and computers

[AGARDOGRAPH-114] 08 p1291 A69-20981

Electrochemical generators for space applications - Conference, Paris, December 1967

08 p1258 A69-21034

Optimum integration of aircraft equipment, subsystems and computer mechanizations for low cost navigation system consistent with mission requirements

08 p1348 A69-21065

Development and fabrication of fiber-resin and fiber-metal composites, discussing application to aerospace technology

09 p1524 A69-22069

Aerospace material investigation and fabrication techniques - Conference, Cocoa Beach, November 1968

09 p1504 A69-22301

- Friction welding of aerospace materials, discussing joint strength and dissimilar materials
09 p1508 A69-22335
- Compressive behavior of uniaxial filament reinforced epoxy tubes for aerospace structures, using hand layup method with Teflon mandrel and sleeve
09 p1508 A69-22339
- Technology Feasibility Spacecraft /TFS/ sterilization and bioassay program during assembly, analyzing sampling and cleaning procedures
09 p1446 A69-22358
- Thermoplastic resins as matrices for glass reinforced plastics and aerospace structural and nonstructural adhesives
09 p1530 A69-22365
- Electrical devices for detonation initiation in pyrotechnic equipment for space applications, tabulating characteristics
10 p1749 A69-23006
- Silver and cadmium nitrides, copper chlorotetrazolate and barium and potassium dinitrobenzofuroxannates compared for priming explosive applications
10 p1750 A69-23011
- Neutron radiography facility for production non-destructive testing inspection of aerospace components, noting collimation, neutron/gamma ray ratio optimization and neutron source
[AGN-TP-229] 10 p1699 A69-23051
- True position dimensioning and tolerancing /TPDT/ system usage in aerospace industry
10 p1700 A69-23355
- Frequency response dynamics of beam type periodic structures on elastic supports typical in flight vehicle designs
[ASME PAPER 69-VIBR-17] 10 p1804 A69-24150
- Aluminum alloys role in aerospace technology, discussing temperature characteristics, gas absorption, weldability, purity, etc
11 p1903 A69-24518
- Spray cooling techniques for thermal protection of aerospace structures including lithium spray cooling, vapor collection and condensation, etc
11 p1966 A69-24532
- Mechanical engineering applications to aerospace flight, discussing stability and piloting problems and experimental methods
11 p1824 A69-25672
- Thermally stable polymers for high stress aerospace applications, noting chemical stability and structure of high polymers
12 p2117 A69-25853
- Metal bonded and sandwich structures application to space vehicles, launch vehicles, rocket motors, ground equipment and balloon gondolas, noting inspection methods
12 p2101 A69-25859
- Aerospace applications of electric discharge interaction with fluid motion including sonic boom reduction, high lift devices, reentry vehicle pitch control, etc
12 p2136 A69-26405
- Dynamic analysis methods for airframe flight control design noting equations of motion, system criteria and analysis and synthesis methods
[AIAA PAPER 68-832] 12 p2174 A69-26758
- Thermostructural simulation of lifting vehicle panel design, considering safety and trajectory shaping of flying laboratory
12 p2060 A69-26836
- Materials rating method in pressure vessel applications, considering impact on design of minimum cost space launch vehicle
12 p2175 A69-26844
- Ballistically effective atmospheric parameters for rocket vehicle design manuals involving application of climatological concepts of meteorology
12 p2175 A69-26874
- Soviet book on solid propellant guided/unguided rocket design with emphasis on thrust control, including trajectory calculations, optimal parameters and components estimation by weight analysis
12 p2175 A69-27077
- Boosters and space vehicles including earth satellites, lunar probes and interplanetary spacecraft
13 p2356 A69-27914
- NASA manned aerospace simulation techniques and equipment as used at Ames Research Center, noting applications to various types of manned vehicles
[ASME PAPER 69-DE-56] 14 p2427 A69-28844
- Computer driven graphical techniques for aerospace design and analysis
[ASME PAPER 69-DE-27] 14 p2454 A69-28854
- Space technology difficulties, achievements and applications
14 p2527 A69-29895
- Remote manipulators applications in space, discussing joint configurations, master-slave systems design, control systems, etc
15 p2558 A69-30187
- Leak detection for aerospace hardware, discussing equipment, operations, checkout, etc
15 p2618 A69-30315
- Aerospace structures modal vibration tests data acquisition including multishake excitation methods
15 p2585 A69-30358
- Rocket motors with combustion chambers of variable geometry for hybrid propellants, stressing toroidal chamber
15 p2671 A69-30600
- Variational principles and differential equations of thin elastic panels mechanics for aerospace structures
15 p2712 A69-30974
- Centro Ricerche Aerospaziali objectives, equipment and activities in aerospace research, including space flight simulation facilities and scientific satellite launching range
15 p2724 A69-31456
- Manned space stations role in future space plans, discussing prototypes and conceptual design
16 p2866 A69-31736
- Computer programs for space engineering analytical and scientific computation using digital computers
16 p2756 A69-32555
- Design philosophy for cost reductions on future space transportation systems, exemplifying application to booster system for earth orbital logistics
[AIAA PAPER 69-439] 16 p2882 A69-32654
- Cost reduction criteria for rocket propulsion systems and components, discussing literature searches, engineering criteria, total program cost vs mission accomplished, etc
[AIAA PAPER 69-440] 16 p2883 A69-32748
- Electroforming methods in design and fabrication of liquid propellant rocket motor injectors and composite thrust chambers
[AIAA PAPER 69-583] 16 p2794 A69-32757
- General technology history, stressing space technology and programs influencing developments in other fields
17 p3076 A69-34045
- Flight performance analysis of space systems, discussing preparation, implementation and communication
18 p3206 A69-34501
- Aerospace balancing system with hydrostatic spindle, describing component construction and functions
[SAWE PAPER 737] 18 p3118 A69-34890
- Computer program for weight and center of gravity tolerance data for assembly aerospace vehicle
[SAWE PAPER 734] 18 p3221 A69-34892
- Aerospace structures optimization, discussing weight considerations and finite element techniques
[SAWE PAPER 814] 18 p3221 A69-34896
- Large solar array systems in space, discussing design and operation
18 p3094 A69-35056
- Space, technology and society - Conference, Cocoa Beach, Florida, March 1969, Volume 1
18 p3234 A69-35070
- Technological possibilities of gravity free production in space environment, discussing containerless manufacture of glass, liquid metal manipulation and defect free fibers
18 p3206 A69-35490
- Materials and processes for aerospace applications in 70s - Conference, Los Angeles, April-May 1969
19 p3315 A69-35501
- Forming, machining and joining characteristics of B-Al composite sheet metal material for space structures
19 p3318 A69-35507
- Tape placement machines to fabricate composite high modulus filamentary tape reinforced aerospace structures, anticipating future generations evolution into automatic control
19 p3323 A69-35584
- Minimum cost design /MCD/ of space launch vehicle, discussing material and process selection based on fracture-safe conditions
19 p3433 A69-35587
- Differential synthesis technique application to design of multiaxis stability augmentation systems for aerospace vehicles
[AIAA PAPER 68-834] 20 p3616 A69-37156
- Computerized optimization and testing of aerospace vehicle designs, describing simulation techniques, algorithm and computer selection, display devices, etc
20 p3498 A69-37292
- Automation application to rocketry, discussing process control in installations including control circuits and electronic direct digital control system
20 p3617 A69-37340
- Ionospheric satellite series Alouette-ISIS, discussing successive engineering and management constraints leading to ISIS-C design
20 p3618 A69-37856
- Avionics system analysis, engineering, design, fabrication and testing problems
20 p3545 A69-37929
- Precipitation hardening stainless steels applications in aerospace industry, discussing steel selection and heat treatment
20 p3563 A69-37931
- Landing shock struts of Surveyor 6, emphasizing silicone liquid springs role as absorbers and stabilizers
20 p3466 A69-38180
- Satellite Airborne Communications /STAIRCOM/ design constraints
20 p3497 A69-38314
- JR 100 F lift jet engines for Japanese national aerospace laboratory produced as part of VTOL developing program
21 p3785 A69-38608
- Thermally stable polymers chemical and structural properties, discussing polymer use in aerospace technology
21 p3751 A69-38789
- Hydrodynamic conical and spherical spiral grooved grease bearings replacement of gyro ball bearings for extended space missions
[AIAA PAPER 69-836] 21 p3732 A69-39367
- Aerospace and marine corrosion technology - Conference, Los Angeles, July 1968
21 p3747 A69-39484
- Stress corrosion cracking in aerospace situations, discussing corrective measures emphasizing fracture toughness criteria
21 p3748 A69-39491
- Filament wound composites for structures, discussing fabrication, properties and aerospace applications
21 p3753 A69-39496
- Scattered light mean intensity determination in twilight aerosol atmosphere from satellite observations, formulating boundary value problem
21 p3717 A69-39656
- Technical and economic factors of program to provide communications services via satellite facilities in continental U.S.
[AIAA PAPER 68-412] 21 p3678 A69-39762
- Aerodynamic deceleration systems for space missions, considering deployment of subsonic parachute and inflatable configuration following atmospheric entry
[AIAA PAPER 68-1081] 22 p4036 A69-40542
- Carbon materials manufacture, properties and applications in space technology, discussing carbon fibers, textiles, graphite, pyrolytic carbon, composites and vitreous carbon
23 p4180 A69-42160
- Optimum integration of aircraft equipment, subsystems and computer mechanizations for low cost navigation system consistent with mission requirements
23 p4186 A69-42538
- Technological forecasting as aid to aerospace planner in optimizing R and D resources allocation
[AAS PAPER 69-105] 24 p4417 A69-42819
- Apollo Applications Program /AAP/ spacecraft, describing contributions to space station engineering
[AAS PAPER 69-491] 24 p4392 A69-42838
- Space nuclear electric power systems applications and development, summarizing current status and near future programs
[AAS PAPER 69-305] 24 p4364 A69-42865
- Cost analysis in low cost launch vehicle studies emphasizing sustaining engineering and plant economics
24 p4393 A69-43120
- Materials in space technology - Conference, Bristol, England, April 1969
24 p4332 A69-43206
- Metallic and nonmetallic materials for space applications with launch and orbit condition requirements, examining finishes and lubricants
24 p4332 A69-43207
- Carbon fiber reinforced plastic components aerospace applications, discussing honeycomb sandwich satellite structure for investigating lamination methods, shapes, bonding and machining
24 p4336 A69-43209
- Silicon nitride ceramics fabrication technology and dimensional stability during nitridation, discussing ap-

plicability to aerospace precision or joined ceramic shapes

24 p4336 A69-43211

Design criteria for antenna control equipment for earth tracking from landing site on Martian surface [AIAA PAPER 68-868]

24 p4348 A69-43246

Aircraft Structures and Materials Application - Conference, Seattle, September 1969

24 p4321 A69-43416

Flame resistant organic fiber in cross linked polymer structure, discussing properties and aerospace applications

24 p4337 A69-43424

Aero-space pressure vessel materials selection and construction, applying Apollo program experience to future programs

24 p4324 A69-43430

Gel permeation chromatography to measure rate of adhesive aging and curing in one shot epoxy tapes, noting handling techniques and space applications

24 p4338 A69-43463

AEROSPACE ENVIRONMENTS

NT Cislunar Space

NT Deep Space

NT Interplanetary Space

NT Interstellar Space

Book on material and design problems encountered in construction of high performance missiles, rockets and spacecraft, considering influence of space environment

01 p0084 A69-10021

Electronic packaging techniques for long life spacecraft, discussing effects of mechanical and electrical stress, temperature cycling, vacuum, radiation and contamination

01 p0038 A69-10145

Space biology, discussing U.S. research program, emphasizing gravity/organism reactions, biochemistry and exobiology [UN PAPER 68-95345]

01 p0014 A69-10486

Environmental effects on aircraft and propulsion systems - Conference, Bordentown, New Jersey, October 1968

01 p0055 A69-11043

Cytological analysis of *Tradescantia paludosa* microspores for space flight influence onboard Cosmos 110

01 p0018 A69-11317

French applied and basic research in space biology including manned space flight, deep space problems, weightlessness and cosmic heavy ion radiation effects

02 p0199 A69-11909

Technological requirements for solar probe with close perihelion, discussing solar approach and space environment problems

03 p0519 A69-12855

Space environment barriers to man due to biological evolution and transition from land to space in single generation, noting orientation problems

03 p0380 A69-14067

Charged particle environment in synchronous orbit region, discussing electrons and protons under influence of geomagnetic field

07 p1204 A69-18340

European research on ultrahigh vacuum lubrication in space environments, emphasizing friction of materials under various loadings and temperatures [IME PAPER 10]

07 p1138 A69-18564

Plants growth from seeds exposed to space environment onboard Cosmos 110 biological satellite compared with control plants

07 p1064 A69-18972

Environmental simulation in aircraft engineering, tests concerning aerodynamic conditions and simulator design

08 p1301 A69-20603

Arc jet generation and control noting application to hyperthermal aerospace environment studies, wind tunnels and materials heating and fabrication

08 p1371 A69-21128

Electroexplosive element design for safe reliable devices in liftoff and space environment, considering stray electric currents, RF fields and electrostatic discharges

10 p1752 A69-23022

Human adaptation to various environments, emphasizing experimental space psychoneurology role in human behavior examinations during space missions

10 p1647 A69-23587

Soviet book on space radiobiology, discussing somatic effects, influence of flight factors, relative biological effectiveness of various radiations and radiation safety

11 p1827 A69-24263

Calculation of radiation doses in space - Conference, Toulouse, France, February 1968

11 p1947 A69-24854

Electronic systems and component reliability in space, considering electric parameter variation effects

11 p1848 A69-24867

Solar cells degradation by charged particles in space, considering protection by filter, silicon properties and use of cadmium cells

11 p1825 A69-24870

Planar transistor gain degradation under weak ionizing radiation, considering operating voltage and temperature conditions

11 p1848 A69-24874

Second tacite sounding rocket test for measuring UV radiation in transition zone between upper ionosphere and space

11 p1887 A69-25213

Microorganism survival in space for exposure to solar UV radiation on balloons, rockets and satellites

11 p1828 A69-25457

Environmental problems of entry vehicle returning from lunar or planetary mission, discussing heat protection system efficiency

11 p1968 A69-25721

Metal adhesive bonding strength behavior in satellite and space vehicle applications, noting effects of various space environment factors

12 p2101 A69-25858

Space mission medical heat problems covering thermal characteristics and heat control, protection and resistance of space vehicle and astronaut adaptation

12 p2023 A69-26493

Vacuum effects on resistance spot welds in aluminum, stainless steel and titanium alloys, noting X ray and tensile shear test results

12 p2103 A69-26622

Book on earth atmosphere and outer space influence on human physiology for life support systems design

12 p2024 A69-27074

Traveling wave tubes for high efficiency and extreme environments, discussing power output and RF drive

13 p2232 A69-28055

Spacecraft surfaces bidirectional reflectance flux distribution applications to space thermal control computations

[AIAA PAPER 68-26]

13 p2222 A69-28216

Weightlessness, increased gravitational fields and radiation effects on biological systems at organismal, cellular and subcellular levels, discussing biosatellite experiments

14 p2406 A69-29097

Military aircraft operating in various environments with low support costs emphasizing improved design, development and manufacturing standards

14 p2392 A69-29503

Reliability of electronic components for space - Conference, Grenoble, November 1968

15 p2622 A69-30816

Transient and long lasting space environment stresses, discussing accelerations, vibrations, shocks, rapid descent in vacuum, temperature variations, gravity, etc

15 p2625 A69-30824

Radiobiology of *Tradescantia* clone orbited in Biosatellite 2, analyzing space effects on spontaneous and radiation induced mutation and cytological changes

15 p2556 A69-31321

Thin foil penetration measurements for Fe microparticle impacts on metal and Mylar foils in space

15 p2641 A69-31339

Impingement pressure analysis associated with two phase cryogenic propellant venting to space environment

[AIAA PAPER 69-571]

16 p2869 A69-32753

Temperature determination of thick flat plate rotating in space in solar flux with one surface insulated compared with Apollo heat shield results

[AIAA PAPER 69-614]

17 p3071 A69-33266

Two dimensional airfoil data application to three dimensional rotor blade element environment, predicting stall induced structural loads

[AHS PAPER 322]

17 p2895 A69-33536

Gas particle concentrations on moon due to solar wind, surface emissions and atmospheric contamination by lunar operations and rocket motor products

18 p3189 A69-34236

Environmental studies using orbital photography, discussing color, color IR, black and white applications from Gemini and Apollo programs

18 p3132 A69-35275

Technological possibilities of gravity free production in space environment, discussing containerless manu-

facture of glass, liquid metal manipulation and defect free fibers

18 p3206 A69-35490

Resistance spot welds in Al, Ti and stainless steel in air and hard vacuum, showing feasibility for space assembly

19 p3319 A69-35554

Materials and products fluid state processing in space, discussing g, zero-g and induced forces effect on fluid matter and process, cost and operational effectiveness

19 p3324 A69-35588

Materials processing in space, suggesting electronic single crystals preparation, materials melting and utilization of low g earth orbit environment

19 p3324 A69-35589

Surveyor thermal vacuum test data comparison with flight results indicating performance prediction reliability of earth-based tests for vacuum and lunar environments

19 p3430 A69-36016

Boundary layer formed in miniature nozzle studied for effect on jet spreading discharged into space at high Mach numbers

19 p3395 A69-36760

Plants growth from seeds exposed to space environment onboard Cosmos 110 biological satellite compared with control plants

20 p3479 A69-38220

Vacuum integrating sphere for measuring solar absorptance in space environment to determine thermal control coatings qualifications

[AIAA PAPER 69-1021]

22 p3923 A69-40392

Space attenuation at VHF and UHF telemetry frequencies

24 p4281 A69-42622

High reliability of solenoid and pressure regulating valves under long duration space missions, considering design, tests and controls

[AAS PAPER 69-238]

24 p4319 A69-42854

Environmental stress effects on medical leech studied to determine tolerance to spacecraft launching, orbiting and reentry

24 p4268 A69-43403

AEROSPACE INDUSTRY

NT Aircraft Industry

Book on material and design problems encountered in construction of high performance missiles, rockets and spacecraft, considering influence of space environment

01 p0084 A69-10021

Fabrication of large parts in aircraft and space industry, discussing extrusion, forging, explosive forming and diffusion bonding

01 p0088 A69-11400

Stabilization and control techniques for future unmanned commercial space vehicles, emphasizing application of projected technological advances in instrumentation

[AIAA PAPER 67-878]

02 p0334 A69-12367

Aerospace research and development projects selection and planning for success in manufacturing competition

03 p0393 A69-13252

Aerospace company engineering administration criteria and functions for chief project engineer [SAE PAPER 680682]

03 p0535 A69-13447

Aerospace manufacturing contribution to engineering function in design development

[SAE PAPER 680668]

03 p0433 A69-13451

High strength carbon fibers development and applications in reinforced composite materials and aerospace industry

06 p0947 A69-18236

Tests and quality control equipment used in German aeronautical and astronautical industries

09 p1513 A69-22565

Cost-profit sharing agreement with aerospace manufacturing companies involved in Boeing 747 construction, detailing final assembly building

09 p1514 A69-22713

Instrumentation in the aerospace industry - Conference, Boston, June 1968, Volume 14

10 p1670 A69-23245

Government flight recorder regulations, detailing approved systems

10 p1691 A69-23246

Space electronic component reliability, considering suppliers and laboratory-workshop partnership

15 p2624 A69-30822

German rocket engine industry reliability and performance, discussing solid fuel, two component fuel, single fuel hydrazine, mixed fuel and ramjet engines

17 p3021 A69-33361

Life cycle maintenance costs reduction in aerospace industry by computers, describing on-line and off-line test systems

17 p2979 A69-33649

Aerospace electronics - IEEE Conference, Dayton, May 1969

17 p2939 A69-34056

Aerospace R and D marketing decisions, considering capability identification, business opportunities, strategies and independent program funding

17 p3077 A69-34127

Quantitative and qualitative reliability programs for commercial and aerospace products, considering Failure Effect Management System

18 p3143 A69-34486

Aerospace management technology transfer, discussing conceptual contributions, planning, administrative and evaluation methods

18 p3236 A69-35086

Collection of papers on aircraft construction and air fleet equipment covering aerospace vehicles theory, engines, automation, design and production

19 p3246 A69-35813

Optimized contracting for systems engineering management, discussing industry views, scope, application, depth, procurement and performance measurement

19 p3454 A69-36005

Composite materials application in aerospace industry, discussing boron and carbon filament properties, epoxy resins, etc

20 p3563 A69-37930

High quality castings unified standards for European aerospace industry

20 p3551 A69-38029

U.S. aerospace technological forecasting involving space flight, air transport and V/STOL aircraft

22 p4052 A69-39930

Management activities related to economics of failure in aerospace industry

24 p4416 A69-42777

Molded fiber composites in aerospace components applications, considering weight, stiffness, production and cost

24 p4326 A69-43448

AEROSPACE MEDICINE

Medicinal therapy and flight safety of pilots and astronauts, discussing drug use, self treatment, tolerance and environmental factors

01 p0014 A69-10583

Soviet book on space physiology covering space flight and laboratory data on cerebral cortex function, digestive system, tissue changes, etc

01 p0014 A69-10743

Gemini and Mercury space flights medical results, summarizing physiological effects noted on body systems

01 p0017 A69-11074

French applied and basic research in space biology including manned space flight, deep space problems, weightlessness and cosmic heavy ion radiation effects

02 p0199 A69-11909

Clinical problems during interplanetary flights, stressing need for diagnostic algorithms and automated medical equipment

02 p0202 A69-12121

Space biomedical research trends, noting gastroenterology and lack of research on disease processes during space travel and overemphasis on space physiology

03 p0369 A69-12859

Biological space research, discussing microecology and weightlessness effects on human space flight [DVL-847]

04 p0553 A69-14811

German Air Force Center of Aeronautical Medicine, discussing organization, work projects and proposed mutual cooperation with French counterpart

05 p0850 A69-16629

Retinal lacerations and detachment in jet pilots, discussing pathogenesis, diagnosis and surgical reattachment methods

05 p0710 A69-16630

Corneal greyish opaque arc as warning of atheromatosis in flight crews

05 p0711 A69-16631

Book on space clinical medicine covering hypoxia, ebullism, decompression, aerotitis, dehydration, hypothermia, cabin atmosphere contamination, urinary calculus, etc

05 p0711 A69-16801

Therapeutic potential of dimethyl sulfoxide in aerospace medicine

06 p0883 A69-17851

Optimum physiological parameters selection criteria for medical control of crew during space flights

07 p1071 A69-18978

Medical factors as probable cause of aircraft accidents, discussing psychological factors, CO poisoning, hypoxia, alcohol, etc

07 p1067 A69-19433

Biomedical experiment onboard Cosmos 110 concerning nonpathological changes

08 p1261 A69-19827

Collection of papers on thermal problems in aerospace medicine covering intense heat, cutaneous vasomotor and sudomotor control, water immersion, etc

08 p1263 A69-20667

High gradient headward acceleration effects on acid base balance of baboons and human subjects, noting arterial changes

09 p1444 A69-22540

Mathematical, physical and physiological modeling for analysis of functional changes during varying gravity conditions

09 p1444 A69-22541

Computer program for onboard medical checkups of spacecraft crews during extended space flights, discussing tests and intervals

10 p1649 A69-23505

Soviet space biology and medicine, discussing ecological physiology, closed system ecology, exobiology and medical tests on cosmonauts

13 p2209 A69-27356

Space travel and lunar exploration medical problems

13 p2210 A69-27909

Pharmacology for long term manned space flights

13 p2211 A69-28613

Visual, auditory and reaction-time responses in aging pilots, determining continuing capacity for choice and discrimination with advancing age

14 p2408 A69-29307

Medicinal therapy and flight safety of pilots and astronauts, discussing drug use, self treatment, tolerance and environmental factors

15 p2555 A69-30753

Aerospace medical association - Conference, San Francisco, May 1969

16 p2742 A69-32008

Aeromedical developments by NASA biomedical applications program applied to general medical equipment including cardiac sensors, surgical sterilization, ballistocardiograph, etc

16 p2882 A69-32430

Aerospace biomedical technology transfer analysis, discussing spinoff, popular interest, transfer barriers, etc

18 p3236 A69-35104

Medical and biological laboratory ground experiments role in development of life support systems and suitable environments for prolonged manned space flights

18 p3098 A69-35165

Space medicine to characterize nature and degree of changes in human functional capabilities due to space flight environment prolonged exposure

19 p3456 A69-36460

Clinical data on ambulant airmen with complete left bundle branch block discovered on electrocardiogram, finding majority with evidence of organic heart disease

19 p3263 A69-36463

Optimum physiological parameters selection criteria for medical control of crew during space flights

20 p3483 A69-38226

Aircraft pilots medical disabilities as potential flight safety hazard, discussing aerospace medical specialist role and pilot education in symptoms evaluation

22 p3894 A69-41146

Space physiology, describing laboratory and onboard experiments

23 p4086 A69-41686

Aviation and space medicine - Conference, Oslo, August 1968

23 p4103 A69-41783

Aviation accidents medical aspects, discussing accident causes and remedies, training and regulation proposals, etc

23 p4106 A69-41792

Blood pressure measurements of pilots at rest during tests under stress on bicycle ergometer revealing transient hypertension

23 p4087 A69-41795

Dynamic roentgenology of cervical spine noting ease of use in neutral profile, hyperflexion and hyperextension for aeronautical medicine

23 p4087 A69-41797

Aerospace medical educational programs for MD, post-MD and practicing physicians at medical faculties in U.S. and at Ohio State University

23 p4106 A69-41799

Space medicine to characterize nature and degree of changes in human functional capabilities due to space flight environment prolonged exposure

23 p4087 A69-41803

Nonsurgical methods of cardiac output measurement in aerospace medicine, considering simultaneous recording of carotid and femoral pulses and impedance plethysmography

23 p4088 A69-41813

Aerospace medicine - Conference, Amsterdam, September 1969

24 p4263 A69-43369

Radiology diagnosis of military jet pilots injuries during ejection and touchdown, discussing fractures, spine injuries and ejection seat spine position

24 p4266 A69-43379

Medical wastage of military and civil aviators in Great Britain /1963-1968/, discussing cardiovascular disease, fatal flying accidents and psychiatric disease

24 p4277 A69-43391

Unscheduled aircraft landing to deplane passenger for medical reasons, discussing costs, time consumption and avoidance methods

24 p4278 A69-43393

Interplanetary space travel medical problems during long duration missions, noting earth diagnostic and therapeutic methods adaptation, drugs selection, astronaut medical training, etc

24 p4278 A69-43396

White mice survival rates and blood morphology and sedimentation rates in low ambient pressure confinement following infectious bacteria injection

24 p4267 A69-43397

AEROSPACE SCIENCES

Space system engineering courses background, objectives and results at MIT and Stanford University dealing with applications of space technology [UN PAPER 68-95870]

01 p0178 A69-10485

Space techniques for application to civil aviation, discussing air to ground communications, air traffic monitoring and navigation and weather forecasting by satellite

[UN PAPER 68-95349]

01 p0179 A69-10490

Space research practical benefits in solar physics, radio astronomy, meteorology, radio physics, communications, etc [UN PAPER 68-11608]

01 p0179 A69-10496

Scientific advances from space research in communications astronomy, electronics, transportation, etc

01 p0151 A69-10498

Space program effects in education, science and engineering, noting impact of first satellite on U.S. research and technology

01 p0179 A69-10500

Science education and training, discussing student motivation [UN PAPER 68-95809]

01 p0179 A69-10515

Handbook on Soviet space science research covering rockets, satellites, space probes, biomedical investigations, atmospheric composition

01 p0154 A69-10935

Soviet literature on extraterrestrial life and civilization emphasizing establishment of contact by radio and laser sources

01 p0016 A69-10953

Space projections - Conference, Denver, July 1968, Volume 2

02 p0332 A69-11734

Space projections - AIAA-AAS Conference, Denver, July 1968, Volume 3

02 p0226 A69-11755

Space projections - Conference, Denver, July 1968, Volume 1

02 p0330 A69-12801

Space science and technology - Conference, London, February 1968

06 p0997 A69-16852

UK space research in 1970s emphasizing solar observations in UN, cosmic X ray astronomy, solar space astronomy and ionospheric investigation

06 p0997 A69-16853

Space sciences - USAF Conference, Albuquerque, June 1968

08 p1423 A69-21123

Scientific report of Rockwell polar flight, November 14-17, 1965

09 p1484 A69-21401

Auroral French rocket probe in Norway, studying low energy particles, relations between electron showers and high altitude electric fields, etc

09 p1498 A69-22160

Bibliography of reports and papers on space sciences and research activities of national institutions of COSPAR members /1966-1967/

10 p1784 A69-24001

Solar flares theories, discussing data acquisition by space research and solar radio astronomy

11 p1946 A69-24516

Minimum height of monochromatic radiation ionization in atmosphere assuming spherical earth for space science applications

13 p2256 A69-28653

Radio propagation in upper atmosphere and ionosphere noting rocket and satellite experiments including plasma physics research, tropospheric studies and space science services

14 p2526 A69-29854

Space technology difficulties, achievements and applications

14 p2527 A69-29895

Space exploration influence on science education, showing NASA instructional materials for teachers in biology, chemistry, physics, mathematics, industrial arts, etc

18 p2325 A69-35077

Air and space research at Goettingen Aerodynamic Testing Institute

19 p2395 A69-36684

Life sciences and space research on biological effects of radiation in space - COSPAR Conference, Tokyo, May 1968

20 p3474 A69-37612

Space research - COSPAR Conference, Tokyo, May 1968

21 p3698 A69-38334

Manned space flight history and spacecraft development [AAS PAPER 69-501]

24 p4380 A69-42852

Solar flare and space research - COSPAR Conference, Tokyo, May 1968

24 p4369 A69-43603

AEROSPACE SYSTEMS

Electronics and aerospace systems - IEEE Conference, Washington, D.C., September 1968

03 p0385 A69-13176

Space systems use for planetary geology and geophysics - Conference, Boston, May 1967

03 p0509 A69-13390

Automatic checkout of space systems, discussing cost effectiveness tradeoffs, ground and onboard equipment utilization, vehicle design and mission success risk

03 p0411 A69-13392

Manned reusable space transportation systems development, discussing requirements for future space mission planning

03 p0519 A69-13395

Beryllium aerospace applications, considering advantages vs disadvantages in systems engineering [SAE PAPER 680648]

03 p0444 A69-13456

Aerospace sensor systems, discussing adaptive multimode sensors and multispectral sensing, electronic recognition of image components, laser radar and Raman scattering technique

03 p0431 A69-13851

Flight test support design, developing measure of performance of test environments stated in weapon or space system terms

05 p0742 A69-15804

Orbital station projects, concepts and future uses

06 p1013 A69-17266

Spacecraft systems, education - Conference, Belgrade, September 1967

06 p1015 A69-17596

Weightless simulators effectiveness for obtaining space systems maintainability criteria, using non-parametric experimental design for performance data

06 p0882 A69-17648

Microminiature system mechanical design for aerospace environment, considering guidelines for implementation of requirements [AGARDOGRAPH-114]

08 p1291 A69-20986

Microelectronic equipment for aerospace application and integrated circuit production in UK [AGARDOGRAPH-114]

08 p1292 A69-20992

Space flight trajectory analysis of aerospace systems, discussing Analytical Trajectory Optimization Model

09 p1585 A69-21207

Space systems and radio astronomy - Conference, Geneva, September-October 1968

09 p1448 A69-21268

Radio location system based on measuring distance between object and two stationary satellites, noting application to air traffic over North Atlantic

09 p1537 A69-21269

Domestic satellite system for carrying maximum traffic by full use of rocket technology including Saturn 5 type propulsion systems, antennas, frequencies, etc

09 p1458 A69-22467

Heat resistant DIPAM and HNS explosives in aerospace applications, considering mild detonating fuse and core loading

10 p1750 A69-23014

Computerized design of optimal direct lift controller for aircraft and aerodynamic surfaces, using Kalman linear state regulator theory

12 p2014 A69-26765

Spaceborne optical telescopes requirements and development including mirror material and construction, optical design, servocontrol, etc

13 p2261 A69-27946

Book on calculus of variations and optimal control theory, discussing functional analysis for use in space science

13 p2289 A69-28054

Scientific aims, optical design, instrument data, control and orbit operation of European Large Astronomical Satellite used in UV observations

13 p2264 A69-28477

Systems engineering approach to aerospace product defects minimization, discussing scope, contract development, mainstream functions, component development, design data and subsystem integration

15 p2719 A69-30085

Leak detection for aerospace hardware, discussing equipment, operations, checkout, etc

15 p2618 A69-30315

Program stretchout in aerospace procurement, discussing costs effect in relation to incentive contracts

15 p2721 A69-31071

Demand assigned frequency division multiple access-PCM system designed by COMSAT for satellite communication

16 p2749 A69-31602

Satellite gravitational stabilization system with maximum damping rate, discussing orbital plane oscillations

16 p2867 A69-31738

Computerized Markov effectiveness models of repairable and nonrepairable complex aerospace systems

18 p3195 A69-34527

Attitude control system for Apollo Telescope Mount, discussing selection features based on manned orbital space platform requirements

18 p3168 A69-34683

Momentum control system for satellite maneuvering and pointing in pitch and roll developed by modifying existing libration damping gyrostatizer

18 p3207 A69-34684

Aerospace technology application to commercial aviation system for cost effectiveness in functions expansion, phase-over, installation, maintenance and operation, discussing added information functions

18 p3108 A69-35069

Elastomeric and coating materials for aerospace systems, considering temperature, rain, sand erosion, propellant and radiation resistant properties

19 p3357 A69-35586

Cost model to trade off competing systems designs for space communications, navigation, operational availability and ballistic missile defense

19 p3454 A69-36007

Software support package for aerospace digital computer emulation, consisting of symbolic assembly program and interpretive simulator program and subprogram [AIAA PAPER 69-974]

22 p3907 A69-40354

Flexible format generator for manned spacecraft data management system designed with memory for data sampling formats, emphasizing software counters and power strobing

23 p4133 A69-41762

Flammability control for aerospace avionics systems safety, considering risk, test method, acceptability criteria, confidence level and ignition source

24 p4336 A69-43422

Aerospace systems failures caused by stress corrosion, fatigue, overload, improper designing or inadequate processing control

24 p4323 A69-43428

AEROSPACE VEHICLES

Spacecraft illuminance by reflected solar radiation calculated by computer method

01 p0151 A69-10576

Computer program for predicting temperature distribution and heat transfer through coated and uncoated window systems of aerospace vehicles [AIAA PAPER 69-28]

06 p1038 A69-18178

Ceramic radomes for hypervelocity aerospace vehicles, considering wide temperature environment effects on stability and properties

07 p1171 A69-19511

Aerospace structures modal vibration tests data acquisition including multishake excitation methods

15 p2585 A69-30358

Spacecraft illuminance by reflected solar radiation calculated by computer method

15 p2691 A69-30746

Dynamic balance for rotating aerospace vehicles, discussing error in principal axis location between rotor on machine and free body in space [SAWE PAPER 740]

18 p3137 A69-34887

Computer program for weight and center of gravity tolerance data for assembly aerospace vehicle [SAWE PAPER 734]

18 p3221 A69-34892

Collection of papers on aircraft construction and air fleet equipment covering aerospace vehicles theory, engines, automation, design and production

19 p3246 A69-35813

Nondestructive testing for aerospace corrosion, discussing light, penetrants, X rays, sound, ultrasounds, electrical conductivity, magnetic reaction and radiation backscatter methods

21 p3733 A69-39495

AEROSPACEPLANES

Lifting body type M2-F1 and M2-F2 aircraft enabling astronauts to make own landings at choice airport

03 p0366 A69-13367

AEROTHERMOCHEMISTRY

Thermodynamics of combustion products and aerothermochemistry noting temperature calculation, heat, mass and momentum transfer in gases and deflagration wave propagation

06 p1031 A69-17414

Flame establishment and propagation in gas phase taking into account aerodynamic and chemical kinetics

06 p1031 A69-17418

Combustion in liquid propellant rockets, discussing aerothermochemical steady state and nonsteady behavior analysis and experiments

16 p2835 A69-31732

AEROTHERMODYNAMICS

Book on combustion covering aerodynamic and chemical aspects, combustion instability, detonation and rocket propellant combustion

01 p0176 A69-10906

Mission requirements influence on aerothermodynamic environment for vehicle entering Venus atmosphere, considering different entry modes

02 p0332 A69-12823

Aerothermodynamics of subsonic-aircraft propulsion, analyzing performance of bypass engine, fuel consumption and specific weight

05 p0695 A69-15551

Thermodynamics of combustion products and aerothermochemistry noting temperature calculation, heat, mass and momentum transfer in gases and deflagration wave propagation

06 p1031 A69-17414

Flame establishment and propagation in gas phase taking into account aerodynamic and chemical kinetics

06 p1031 A69-17418

Thermodynamics and aerothermodynamics for propulsion problems noting thermodynamic laws and quantities, steady flow, shock waves, nozzles, inlet and thermodynamic cycles

11 p1821 A69-25583

Aerodynamic design of axial flow compressors and turbines, using aerothermodynamic equations for compressible flow analysis

11 p1821 A69-25585

Aerothermodynamic problems during transition after activation of thrust inverter in solid propellant rocket engines

17 p3018 A69-33327

AEROTHERMOELASTICITY

Aerothermoelasticity problems for Mars entry vehicles, discussing deceleration loads, separated hot gas flow, shield thermal gradients and oscillatory body motion [AIAA PAPER 68-283]

09 p1610 A69-21991

Heated three layer plates stability under finite deflections in supersonic gas flow, deriving aerothermoelasticity equations

24 p4395 A69-42590

AEROZINE

Bipropellant propulsion systems using Aerozine 50 and nitrogen tetroxide for Symphonie telecommunications satellite

16 p2828 A69-31733

Halon 1301 /bromotrifluoromethane/ concentration for inerting Aerozine-50 spills or extinguishing fires, noting joint use of carbon dioxide and water
18 p3094 A69-35090

AFC [CONTROL]
U AUTOMATIC FREQUENCY CONTROL

AFCs [CONTROL SYSTEM]
U AUTOMATIC FLIGHT CONTROL

AFFERENT NERVOUS SYSTEMS
Visceral afferent pathways influence on vasopressin secretion, ADH levels and urinary excretory patterns of dogs during surgical stress
05 p0708 A69-15970

Ventral posterolateral potentials in anesthetized immobilized cats in response to electric stimulation of mesenteric nerves and mechanoreceptors, studying thalamus nucleus role
12 p2020 A69-26562

Labyrinth polarization effect on stimulation and neuron activity in visual cortex of cats, using electroencephalograph
20 p3469 A69-37244

Rapid component of nystagmus using photostagmography, noting dependence on afferent pulse of ampullar apparatus
20 p3481 A69-37272

Sympathetic nerve activity inhibition due to afferent baroreceptor nerves reflexes, studying carotid sinus and aortic nerves as pathways to vasomotor center
20 p3479 A69-38073

Neuronal organization of initial afferent inflow in thalamic visual center /lateral geniculate body /LGB/ of unanesthetized cats/, noting unit activity
22 p3879 A69-40845

Information transfer capacity of afferent and efferent cell system and fiber tracts of human cerebellum numerically defined with regard to cybernetics
23 p4084 A69-41467

Temperature dependence of afferent and efferent spontaneous activity of spinal cord, using filament recordings from ventral and dorsal roots in anesthetized cats
23 p4093 A69-42066

Efferent innervation influence of one ear to another in feline auditory system, based on afferent neurons responses to contralateral and binaural stimulation
23 p4094 A69-42073

Primary muscle spindle afferents from gastrocnemius muscle of cat before, during and after cold shivering, utilizing ramp stretches of same muscle
23 p4096 A69-42091

AFRICA
Geomagnetic pulsations recorded in equatorial regions of Africa found continuous and not pearl modulated
09 p1491 A69-22051

AFTERBODIES
Shoulder pressure on slender cone/afterbody combinations in hypersonic inviscid flow of perfect gas
04 p0542 A69-14735

Pressure distribution measurement over sphere with cylindrical afterbody in magnetofluid dynamic flow, showing drag decrease at large magnetic field
11 p1873 A69-25136

Free flight telemetry base pressure measurements on slender cones and domed afterbodies in hypersonic laminar flow, using shock tunnel test facility [AIAA PAPER 68-698]
24 p4249 A69-43675

Apollo afterbody heat transfer, studying ablation effects for various reentry angles of attack
24 p4415 A69-43680

AFTERBURNERS
U AFTERBURNING

AFTERBURNING
Fluorid light-off detector /FLOD/ for sensing and indicating minimum light-off or blow out conditions in turbojet engine afterburner [ASME PAPER 69-GT-36]
09 p1501 A69-22488

Acoustic frequency of longitudinal self oscillations during vibrational fuel combustion in afterburner, taking into account nonlinear properties of heat supply zone
11 p2002 A69-25339

AFTERGLOWS
NT HELIUM AFTERGLOW

Two body rate coefficients for charge transfer reactions of nitrogen, oxygen and NO positive ions to Na atoms measured using flowing afterglow system
07 p1185 A69-19303

Free fall theory for afterglow decay of average electron density and temperature in pulsed cylindrical mercury vapor discharge plasma
08 p1358 A69-19811

Ion number densities time dependence in pink afterglow of N measured with quadrupole mass spectrometer
08 p1308 A69-20292

Argon afterglow microwave and spectroscopic studies, monitoring time-varying electron density and temperature and extracting electron-ion recombination coefficients
15 p2658 A69-30173

Microwave reflection and noise emission from cylindrical rare gas afterglow plasmas in axial magnetic field measured near electron cyclotron resonance
18 p3127 A69-34436

Air afterglows electron loss mechanisms, measuring electron densities decay rates after microwave ionization
22 p4006 A69-40527

Mechanism for pink afterglow accompanying microwave discharge in pure nitrogen, emphasizing gas kinetic temperature role
24 p4353 A69-43749

AFTERIMAGES
Visual long term storage capability demonstration, describing negative aftereffect of motion perceived after fixation of moving spiral pattern
21 p3661 A69-39332

AGC [CONTROL]
U AUTOMATIC GAIN CONTROL

AGE DETERMINATION
U CHRONOLOGY

AGE FACTOR
Ophthalmic 2 percent pilocarpine effect on normal ocular dynamics of various age groups, influencing visual acuity, accommodation and refraction
01 p0022 A69-11347

Physiological functions of aged Japanese pilots, discussing height, weight, Rohrer index, obesity, vision deterioration and hearing disturbances
06 p0876 A69-18028

Period-age relations for delta Cephei stars based on stellar evolution theory and initial abundance of hydrogen
08 p1392 A69-20564

Accident record of general aviation pilots over age 60/1965/
14 p2541 A69-29308

O uptake of middle aged men, comparing short and long term endurance running effects
21 p3654 A69-38904

Age and carbon dioxide tension effects on EEG of adolescents and adults, discussing end-tidal carbon dioxide during routine hyperventilation
22 p3872 A69-40162

Subjective and objective thresholds of darkness adaptation in human subjects grouped from infancy to adulthood, using same variable intensity light source equipment
22 p3881 A69-40861

Globular cluster star age and initial He abundance from main sequence, horizontal branch and red giant tip models using radiative opacities
22 p4035 A69-41205

Pulsars turn off time compared to Galaxy age, discussing physical theory and pulsar models
24 p4389 A69-43745

AGE HARDENING
U PRECIPITATION HARDENING

AGENA ROCKET VEHICLES
Agena propulsion system performance model for predicting propellant flow rate, mixture ratio, thrust time and specific impulse [AIAA PAPER 69-453]
16 p2841 A69-32683

Agena rocket vehicle production reliability evaluation program, testing specific representative equipment randomly selected from production stores
18 p3146 A69-34510

AGGLOMERATION
Liquid alumina particles agglomeration in convergent and throat region of nozzle leading to performance decrease by increasing velocity and temperature difference between phases
22 p4001 A69-40929

AGING
Glass fiber reinforced plastics aging behavior under heat and weathering influence
03 p0454 A69-13823

Polymeric insulation materials, discussing intrinsic properties dependence on temperature and atmosphere, stressing effect on aging
13 p2285 A69-27985

Artificial aging effect on spinel structure and properties of ferrites using X ray analysis, neutron diffraction and electron microscopy
13 p2320 A69-27997

AGING [BIOLOGY]
Cardiovascular disease incidence among airline flight deck personnel in relation to increase in average age of personnel
06 p0875 A69-17848

Visual, auditory and reaction-time responses in aging pilots, determining continuing capacity for choice and discrimination with advancing age
14 p2408 A69-29307

Physiologic and psychologic aging in professional pilots analyzed on basis of cardiovascular, pulmonary, exercise tolerance and sense testing
14 p2408 A69-29309

Mortality kinetics of Drosophila melanogaster, comparing effects of gamma radiation-induced life shortening and natural aging
15 p2555 A69-30444

AGING [METALLURGY]
Natural aging effects on fracture characteristics of aluminum weldments, investigating precracked Charpy impact toughness
01 p0086 A69-10537

Deformation in aged Fe-Cr alloy studied for rate-controlling solid solution mechanism as function of stress
01 p0095 A69-10601

Atmospheric stress corrosion tests of aluminum alloys in various environments, comparing aging results with accelerated laboratory tests
01 p0100 A69-11352

Cooling rate effect during aging on heat resistance of forged blanks of nickel based chromium alloy
02 p0266 A69-12125

Superconductivity of niobium-titanium-oxygen alloy wires containing 40 percent minimum niobium weight, noting thermomechanical aging effect on critical current density
03 p0484 A69-13118

Al/Zn/Mg alloys preprecipitation, discussing Guinier-Preston and critical zone sizes and reversible vacancy trap
03 p0447 A69-13613

Alloying elements effect on mechanical and refractory properties and structure of forging of age hardenable Ni base alloys
03 p0452 A69-14122

Properties of Ni-Mo-Al age hardening steels, discussing data confirming validity of low carbon low aluminum approach
04 p0613 A69-14527

Low temperature aging prior to higher temperature artificial aging increases Al alloys strength
04 p0614 A69-14634

Ferrite-austenitic stainless steels with Ti analyzed during aging at 450-600 C for excess phase nature
04 p0615 A69-14641

High strength martensitic aging steels alloying effects, phase transformation and aging
04 p0615 A69-14644

Maraging steel with reduced Co, establishing optimal temperature range for short aging
04 p0616 A69-14650

Precipitation hardening effects on Al-Zr recrystallization with Fe and Si additions, noting peak hardness increment with decrease in aging temperature
04 p0617 A69-14931

Plastic deformation effect on structure, yield point and tensile strength of aged austenitic alloy containing Ni, Cr and Ti
04 p0618 A69-15177

Electron microscopic and microdiffraction study of structure of quenched and annealed titanium alloy foils at high temperatures
05 p0783 A69-16810

Aging and recovery effect on structure and hardness of Ag and Be doped Al-Mg alloys
05 p0783 A69-16811

Electron microscopic study of structural changes occurring during aging of martensite in Fe-Ni-Ti alloy
05 p0783 A69-16813

Plastic deformation, aging, heat treatment and machining effect on structure of thin films of AlMg11 alloy
05 p0783 A69-16814

Edge dislocations effect in perpendicular slip planes on work hardening and strain aging, calculating dilatation centers absorbed
07 p1238 A69-19695

Solution annealing and aging time and temperature effects on precipitation in quenched and aged beryllium
08 p1330 A69-20008

Retained austenite content control, strain aging and ausforming to improve toughness of high strength martensitic stainless steel without strength loss
08 p1330 A69-20010

Initial aging stage in Fe-Ni-Ti alloys using diffuse X ray scattering with electron microscopy of thin foils
10 p1712 A69-23720

Near boundary zones in VT15 Ti alloy not involved in beta phase decomposition during aging below 500 C attributed to vacancy concentration decrease
11 p1902 A69-24275

Preliminary natural aging effects on maximum strength properties obtained at various artificial aging temperatures for aluminum ternary alloy
11 p1905 A69-24921

Aging effects on hardness and tensile strength of nickel-chromium steels at various high temperatures and time periods
11 p1906 A69-25439

Heat treatment effect on Ti-Mn alloy microstructure, discussing fcc martensite transformation into alpha, beta and intermediate phases as function of aging
11 p1906 A69-25578

Precipitated phase composition and structure of Co-Ti solid solution during aging
12 p2112 A69-26037

Electrical resistivity decrease in niobium-hydrogen alloys during isothermal aging at low temperature attributed to hydride precipitation, noting reaction rate and activation energy
14 p2463 A69-29288

Growth kinetics, lattice constant changes and hardness during aging of nimonic alloy from X ray diffraction diagrams
14 p2463 A69-29310

Temperature dependent aging mechanisms in deformed Mo alloys during annealing, using transmission electron microscope
14 p2463 A69-29312

Maximum strengthening due to second phase precipitation within operating temperatures maintainable to 20 hr during aging of Nb-Hf-O and Nb-Zr-O alloys
15 p2640 A69-30632

Fatigue crack propagation in thin aluminum alloy plates under plane bending using microscopic surface observation and electron fractography, noting role of aging conditions
17 p3061 A69-33677

Ti-Al-V sheets quenched from alpha plus beta field into salt bath at various high temperatures, studying effects of bath temperature and holding time on aging and mechanical properties
21 p3730 A69-38667

Plastic deformation combined effect with aging on mechanical properties of phase-hardened austenitic Fe-Ni-Ti alloys
21 p3746 A69-38956

Coherent matrix precipitates observation in Fe-Ni-Cr alloy by transmission electron microscopy, discussing yield strength and elongation dependence on aging conditions
23 p4176 A69-41508

Cold working and aging effects on mechanical properties of TiAl-V including creep and temperature effects [DGLR-69-002]
23 p4177 A69-42163

Outdoor aging effects on unstressed adhesive-bonded Al to Al lap shear joints
24 p4319 A69-42932

AGITATION

U ULTRASONIC AGITATION

AGREEMENTS

Interpretation of term peaceful in Space Treaty and use of outer space including celestial bodies
07 p1244 A69-19234

AGRICULTURE

Aerospace research applications in agriculture and forestry, discussing information acquisition for worldwide coverage [UN PAPER 68-95393]
01 p0065 A69-10504

Agricultural remote sensing information system composed of data acquisition, processing and information extraction and interpretation phases, providing knowledge of earth resources
03 p0400 A69-13195

Radar imagery for agricultural land mapping, noting field and crop discrimination and parameters influencing radar return
12 p2097 A69-26986

Adaptive pattern recognition system simulated and tested with agricultural radar images, describing predictive environmental model mathematically
12 p2097 A69-26990

Carrot plants growing during 374 days in conveyor type aeroponic assembly, noting yield and morphological features
17 p2912 A69-32943

Agricultural and forestry applications of tethered balloons, discussing observation angle effect on spectral signature response and signal preprocessing
22 p4053 A69-40805

AILERONS

Differential gearing of aileron movements to reduce control forces in aircraft
03 p0367 A69-13786

AIR

NT ALVEOLAR AIR
NT COMPRESSED AIR
NT HIGH TEMPERATURE AIR

Sparks four meters long in atmospheric air, noting image converter photographs, electrical measurements, light output, spectra and energy balance
02 p0281 A69-12406

Air cushion effect in explosive forming of metal sheets, considering simple geometrical shape
06 p0931 A69-17526

HF breakdown of air using Boltzmann equation to determine net ionization frequency relation with electric field strength
08 p1357 A69-20810

Multicomponent diffusion coefficients of dissociated air as function of pressure, temperature and concentration, based on simplified model of binary diffusion
09 p1623 A69-22098

Kinetics of air plasma formation in wake of shock wave propagating in air, taking into account nonequilibrium ionization
12 p2062 A69-26674

Probable sign-invariant periods of air temperature anomalies based on random Gaussian processes
13 p2294 A69-27855

Corrosive wear by atmospheric air and moisture under nonsufficing conditions, noting control by dry nitrogen blanketing and oil additives [ASLE PAPER 68-LC-10]
15 p2622 A69-30608

Hypersonic aircraft induced changes in chemical and thermodynamic properties of air influencing aerodynamic forces on vehicle
17 p2895 A69-33576

Analytical, graphical and graph-analytical methods for synthesis of passive circuits ensuring air removal from chambers of pneumatic logic control and servomechanisms
18 p3093 A69-34831

Pubertal puppy and adult dog cardiovascular system during inhalation of various nitrogen-oxygen mixtures, comparing heart beat rates, minute blood volumes, etc
19 p3257 A69-36169

Emissivity of nitrogen, oxygen and air plasmas in vacuum UV region of spectrum by photographic measurement, using He recombination radiation as brightness standard
21 p3774 A69-38944

Respiratory gas exchange during workloads, comparing values for ventilation, oxygen uptake and carbon dioxide output measured in air and in helium-oxygen mixture
22 p3891 A69-40221

Differential capacitance transducer measuring small displacements in heated transformer oil, air, castor oil or glycerin
22 p3946 A69-40439

Hydrogen-air reaction kinetics analyzed using standing wave normal shock noting wall effects, ignition delay and recombination [AIAA PAPER 67-479]
23 p4239 A69-41893

Air density determination using transit time method involving microwave phase measurements
24 p4313 A69-42898

Air bubbles rise velocity and path in water based on time measurement of bubble traversing two light beams, describing electronic recording system
24 p4299 A69-42918

AIR BEARINGS

U GAS BEARINGS

AIR BLASTS

U AERIAL EXPLOSIONS

AIR BREATHING ENGINES

NT JET ENGINES

Blow-down facility for hypersonic testing of air breathing engines, describing test cell, air heating system, exhausters and data system
02 p0227 A69-11756

Supersonic ramjet propelled air breathing booster for speeds up to Mach 12, discussing flight mechanics, aerodynamics, propulsion, heating and air intake design
09 p1573 A69-22608

UV, visible and near IR spectral characteristics of hydrocarbon-air flames with particulate Al, Mg and B, noting hot metal continuum and oxide emissions
11 p1940 A69-24483

Thermodynamic cycle analysis of various gas turbines and air breathing propulsion systems noting regenerators, heat exchangers and pulsejet engine
11 p1943 A69-25584

Ramjets and air augmented rockets as propulsion systems for supersonic atmospheric flight, noting inlet design, combustors and nozzles
11 p1943 A69-25586

Supersonic combustion technology, noting air breathing propulsion systems for application to hypersonic flight
11 p2003 A69-25596

Vitiated air contamination effects on combustion and hypersonic air breathing engine ground tests [AIAA PAPER 69-338]
13 p2325 A69-28274

Boron combustion for air augmented rocket applications, discussing single boron particle ignition and combustion characteristics
16 p2828 A69-31737

Air breathing engines performance possibilities, describing design and testing difficulties, stability requirements, etc
18 p3185 A69-35139

Technology trends in airbreathing propulsion, discussing noise control for subsonic jet transports, turbine blade cooling, etc [AIAA PAPER 69-774]
19 p3244 A69-35648

Liquid, solid, hybrid propellant and nuclear, electric and air breathing rocket engines, discussing orbiting payload cost, controllability, operating environments, velocity, etc
19 p3395 A69-36321

Vitiated contamination effect on airbreathing engine ground testing, considering equilibrium, vibrational and chemical relaxation, condensation, combustion, mixing and engine performance [AIAA PAPER 69-456]
19 p3448 A69-36333

Airbreathing gas turbines construction materials including composites and Ti and austenitic alloys [ASM PAPER D8-25.2]
20 p3586 A69-38133

Thrust increase methods for air breathing turbojet engines analyzed with respect to effectiveness, taking into account environmental supporting mass and fuel expenditures
23 p4199 A69-41578

Combustion considerations in fuel rich solid and hybrid propellant systems in air breathing propulsion for comparison with metal ignition requirements
23 p4199 A69-41894

NASA programs for development of high temperature alloys for advanced air breathing engines emphasizing cast Ni-base alloy [ICAS PAPER 68-26]
24 p4335 A69-43718

AIR CARGO

Air cargo traffic increase, discussing technical and economical prospects, use of intermodal containers and transportation automation tendency
01 p0008 A69-10030

Containerized freight, discussing means of transport, methods of distribution, suitable aircraft for carriage, economic and social effects and combined air-water-land transport
02 p0228 A69-11887

Air freight transport development, characteristics and economics
02 p0356 A69-11888

Air cargo and world trade, discussing economics, cargo tariffs, customs procedures, cargo airports and convertible aircraft
03 p0536 A69-14088

Air cargo transportation in 1970s, discussing Boeing 747 and Lockheed 500 super airfreighters, terminals, rates, marketing, etc
13 p2381 A69-27336

Air cargo terminal materials handling, discussing computer control, off-airport consolidation, packaging, etc
13 p2239 A69-27337

Airport planning for large aircraft loading of passengers, baggage and cargo containers
17 p2948 A69-34208

Jumbo aircraft production technology causing economic setback, recommending added emphasis on passenger/cargo requirements and operating environments for greater profitability
18 p2322 A69-34542

Air cargo traffic, discussing planload lots, aircraft types suitable for freight transport, difficulties and solution
22 p4052 A69-40426

Civil cargo aircraft characteristics and development trends, discussing cargo and passenger traffic management, communications network, etc
22 p3863 A69-40427

Handling and processing function in air freight transportation, discussing system design approaches, cargo terminals, materials handling systems and containerization
22 p4053 A69-40483

General aviation airport application as freight consolidation terminals to reduce ground handling costs, circumvent air and ground traffic problems, etc
24 p4419 A69-43047

AIR CONDITIONING

Mathematical simulation of temperature and humidity changes in compartments of hermetically sealed space vehicle cabins
02 p0200 A69-11489

Personal cooling in inadequately air conditioned cockpits, considering dry air, air ventilated suits and liquid circulated tubes near skin
[AGARDOGRAPH-111] 08 p1267 A69-20684

Trident 2E aircraft, discussing fuel system, electric power installation, hydraulic system, air conditioning, pressurization and flying controls
13 p2202 A69-27973

Heat tolerance in case of SST aircraft air conditioning failure, discussing physiological and psychomotor reactions and time curves for metabolic activity levels
24 p4277 A69-43382

AIR CONDITIONING EQUIPMENT

Air conditioning system for transport airplane using combined simple/bootstrap cycle refrigeration unit, discussing thermodynamic performance and hardware implementation
[AIAA PAPER 69-787] 19 p3243 A69-35641

AIR CONDUCTIVITY

Air-earth current and conductivity measurements, noting greater conduction current at one mile altitude
05 p0758 A69-16419

Solar flare influence on potential gradient and air-earth current properties at high mountain stations
05 p0759 A69-16634

Electrical conductivity of air behind incident and reflected shock wave fronts as function of temperature and Mach numbers determined by electrode method
11 p1888 A69-25220

Air plasma electrical and thermal conductivity coefficients measured in wall stabilized DC arc at atmospheric pressure and high temperatures
15 p2663 A69-30979

Air electrical conductivity reduction in fog ascribed to small ions concentration, increase in droplets capture efficiency and particle concentration
24 p4347 A69-43509

AIR COOLING

Transpiration cooling of porous flat plate by injection of carbon dioxide or air into carbon dioxide and air free streams
03 p0413 A69-12996

Air film cooling of rotating turbine disk, suggesting applicability to gas flows
06 p1034 A69-17814

Gas turbine blade cooling by longitudinal air flow, discussing cooling efficiency of guide and impeller blades and blade ring
11 p1942 A69-25337

High power ferrite latching switch with forced air cooling, discussing nonreciprocal phase shifter materials and configurations
13 p2229 A69-27674

Internal heat transfer coefficients for impingement cooling of gas turbine airfoil leading edge
[AIAA PAPER 68-564] 17 p3022 A69-34021

Working fluid flow parameters compensation by expelled cooling air in air-gas flow area of turbine stage
18 p3184 A69-34985

Vortex flow air cooling system for lasers using vortex effect of gas separation, resulting in minimum weight and dimensions and high cooling efficiency
21 p3734 A69-38399

Cooling air from blades discharged into flow-through part of gas turbine, examining gas mixing with air from blade and effect on turbine efficiency
21 p3785 A69-39090

Natural convective heat transfer to gas turbine rotor blade and thermal resistance of cooling system using centrifugal pump
21 p3785 A69-39103

Temperature field in deflector cooled turbine blades for nonstationary regimes, considering heating of cooling air, thermal conductivity and thermophysical coefficient changes
21 p3786 A69-39718

Thermal design of power amplifier for airborne HF transceiver, discussing component layout, air cooling and materials
22 p3909 A69-39942

Electronic equipment environmental cooling by controlled airflow systems, reviewing systems designs, control problems, etc
22 p3954 A69-40035

Internally air cooled turbine blades and vanes emphasizing coolant aerodynamics, heat transfer and blade life, high temperature in jet engines, etc
[RAES PAPER 22] 22 p4000 A69-40500

Turbine rotors temperature reducible by increasing air cooling system flow rate
24 p4364 A69-43081

Turbine blade edge cooling efficiency, investigating Reynolds number and gas temperature to cooling air ratio influence
24 p4364 A69-43082

Edge effects in efficiency of air cooled turbine blade cascades with cooling air ejection from blade trailing edges into gas flow
24 p4364 A69-43090

AIR CURRENTS

NT JET STREAMS [METEOROLOGY]
NT MERIDIONAL FLOW
NT VERTICAL AIR CURRENTS

Air movements in lower stratosphere analyzed on basis of ozone measurements, showing correlation with north-south gradient of total ozone amount
02 p0246 A69-12762

Wind changes calculated from Doppler data and inertial system, noting role of heading and air speed
08 p1346 A69-20317

Acoustic sounding of atmospheric structure, utilizing energy backscattered from temperature fluctuations in turbulent regions
14 p2448 A69-29527

Zonal and meridional components of air circulation in troposphere and lower stratosphere for Northern Hemisphere
14 p2477 A69-29829

Ion-neutral air motion in F region under time dependent electric and constant magnetic field effect, using partial differential equations
16 p2777 A69-32181

AIR CUSHION VEHICLES
U GROUND EFFECT MACHINES

AIR DEFENSE

Helicopter self defense armament for fire support of British Army operations, discussing vulnerability, weapons selection and tactics, logistics, etc
01 p0010 A69-10869

Automated programmed instruction /API/ for training backup interceptor control personnel to conduct air defense operations
[AIAA PAPER 69-956] 22 p3905 A69-40338

AIR DUCTS

Dust particle separation from inlet flow with S-bend duct to minimize engine dust ingestion, determining particle trajectories
[AHS PAPER 211] 01 p0006 A69-10409

Turbine powered helicopter engine inlet air filtration system utilizing direct-connect S-bend duct
01 p0143 A69-11054

Air deflection and modulation /ADAM/ turbobfan propulsive wing V/STOL design
[AIAA PAPER 69-201] 07 p1056 A69-19573

Peak acoustic attenuation frequency shifts and peak power insertion losses in air flow ducts related to air specific weight changes
07 p1117 A69-19700

Monte Carlo method application to neutron streaming in hemispherical air-filled ducts in water tank to determine leakage through nuclear reactor shields
18 p3171 A69-35178

AIR FILTERS

Dust particle separation from inlet flow with S-bend duct to minimize engine dust ingestion, determining particle trajectories
[AHS PAPER 211] 01 p0006 A69-10409

Turbine powered helicopter engine inlet air filtration system utilizing direct-connect S-bend duct
01 p0143 A69-11054

Protective filter for inspiration valve of oxygen masks in high performance aircraft, reducing respiratory volume exchange with given pressure amplitude
17 p2916 A69-33773

AIR FLOW

NT JET STREAMS [METEOROLOGY]
NT MERIDIONAL FLOW
NT VERTICAL AIR CURRENTS

Heat exchange and hydraulic resistance in turbulent heat exchangers in longitudinal air flow calculated by criteria equations
01 p0173 A69-10092

Supersonic air flow around blunt body studied near critical line with allowance for viscosity, thermal conductivity and radiant energy transfer, assuming thermodynamic equilibrium
01 p0006 A69-10378

Very high temperature air flow laminar boundary layers on rotating bodies with unsteady chemical reactions, determining flow dynamic behavior
01 p0060 A69-10725

Group invariant solutions of differential equation systems applied to quasi-linear partial differential equations of motion of air masses
02 p0274 A69-11444

Arc discharge in axially turbulent airflow producing equilibrium air plasma
02 p0285 A69-11571

Numerical solution for ambipolar diffusion and kinetic decomposition of rotating body of complex chemical composition in ionized airstream
02 p0191 A69-12580

Longitudinal correlation lengths in grid turbulence air flow transport subjected to planar deformation measured from energy spectra of velocity fluctuations
02 p0192 A69-12626

Heat transfer in cooled portion of air gas flow area of high temperature gas turbines
03 p0495 A69-12957

Airflow and power requirements of compressible hovercraft jet operating under equilibrium conditions
05 p0697 A69-15708

Equations describing chemical kinetics and conservation law derived for ionization relaxation processes behind shock wave front in air
05 p0746 A69-15891

Asymmetric supersonic air flow at 60 degree angle of attack past ellipsoid with frontal spike creating separation area
06 p0858 A69-17337

Parasitic eigenvalue in integration of equations governing one dimensional flow of chemically reactive gas
07 p1118 A69-18317

Air backflow in nuclear exhaust system duct for ground testing of NERVA engines, noting overpressure effect
[AIAA PAPER 69-325] 09 p1479 A69-22390

High enthalpy air flow in hypersonic conical nozzle, calculating chemical and thermodynamic nonequilibrium effects with computer program
09 p1433 A69-22610

Combustion chamber design for advanced gas turbines, noting influence of fuel air mixing and air flow distribution
09 p1573 A69-22612

Performance analysis of combustion chambers with continuous air admission along flame tube, deriving governing equation from reaction kinetics
09 p1624 A69-22618

Airflow through open foam cellular structure, discussing mathematic model for predicting pressure buildup and foam response in shock and vibration isolation
[ASME PAPER 69-VIBR-46] 10 p1803 A69-24144

Book on aerodynamics of aircraft flight covering air flow, wing geometry, forces on wings, etc
11 p1817 A69-24583

Air flow distribution and wind velocities in cyclones constructed from Cosmos 122 TV cloud images
11 p1912 A69-24825

Statistical analysis of lee wave clouds from satellite TV pictures, determining lengths and air flow direction
11 p1912 A69-24828

Forced heat convection in steady turbulent air flow in circular cross sectioned tubes, noting laminar sublayer in wall regions
11 p2000 A69-25096

Fuel jet shape in air stream/mechanical atomization calculated as function of stream and fuel injection parameters
11 p2002 A69-25336

Gas turbine blade cooling by longitudinal air flow, discussing cooling efficiency of guide and impeller blades and blade ring
11 p1942 A69-25337

Supersonic air flow past blunt body of revolution in presence of nonequilibrium chemical reactions, ionization and molecular excitation
11 p1820 A69-25474

AIR INTAKES

Charged aerosols production for electrohydrodynamic processes by spraying liquids through capillary at high electric field strengths into high pressure air flows
12 p2138 A69-26631

Supersonic air flow around blunt body studied near critical line with allowance for viscosity, thermal conductivity and radiant energy transfer, assuming thermodynamic equilibrium
12 p2012 A69-26669

Velocity potential function for flow over disk shaped wing near screen, noting aerodynamic lift and drag
13 p2199 A69-27524

Multirecompression heater for pure airflow tests of ballistic vehicles and hypersonic aircraft
[AIAA PAPER 69-332] 13 p2242 A69-28268

Westerly air flow frequency decline resulting in lower seasonal temperatures, tabulating Lamb categories daily maximum and minimum temperatures
13 p2222 A69-28474

Heat transfer at gas flow stagnation point past blunt body under radiation from air layer in shock wave wake, using gray gas model
14 p2390 A69-29614

Finite difference method for turbulent mixing and combustion of hydrogen injected parallel to supersonic air stream, considering vitiated and unvitiated air
[AIAA PAPER 69-539] 16 p2777 A69-31844

Multiple function combination probe design for compressor and turbine air flow research
16 p2766 A69-31917

Radial blade tip clearance effect on isentropic efficiency and air delivery in axial flow compressor with allowance for casing deformations and rotor displacements
16 p2837 A69-32004

Shock tunnel facility generating short duration high velocity high density air flow with equilibrium chemical simulation of free stream flight conditions
[AIAA PAPER 68-17] 16 p2766 A69-32167

Planetary zonal flows hydrodynamic instability characteristics analysis, using quasi-geostrophic numerical model to study earth atmospheric cyclone wave role
17 p2960 A69-33149

Noise transmission from turbulent boundary layer through flexible plate into closed cavity, emphasizing nonlinear plate stiffness and mutual interaction between plate and airflow
17 p3006 A69-33409

Test facility to determine factors influencing aerodynamic energy dissipation of cantilever rods oscillating in airstream
17 p2947 A69-33928

Air resistance effect on transverse vibration damping of flat specimens of heat resistant alloy, duralumin, Ti, Mo and Nb
17 p2991 A69-33947

Aerodynamic energy dissipation during vibrations of bars in airstreams characterized by energy loss per cycle and logarithmic decrement
17 p3066 A69-33948

Normal and negative Magnus force experienced by rotating cylinder in air flow, discussing wind tunnel tests, laminar and turbulent boundary layers separation, pressure distribution, etc
17 p2958 A69-34213

Flow structure in wake of blunt bodies placed perpendicular in parallel airstream determined from hot-wire anemometry
[AIAA PAPER 69-746] 18 p3084 A69-34409

Ducted fan engine turbine air flow rate and frontal gas temperature determined from air temperature/pressure measurements behind compressor and engine fuel flow
18 p3086 A69-34986

Double knife-edged double-crossing schlieren apparatus analyzed for operation principle and applied to measure hypersonic wake characteristics in hotshot tunnel
19 p3293 A69-35740

Wall influence on thermoanemometer readings in incompressible air stream measured with wedge shaped film sensors
19 p3308 A69-35857

Nonequilibrium laminar boundary layer of dissociating air on axisymmetric body determined using concentration profiles of oxygen and nitrogen components
19 p3239 A69-36395

Cloud bank structure formation physical mechanism relationship with airflow using differential equations
20 p3569 A69-36985

Electron density distribution in laminar air boundary layer on sharp wedges and cones predicted by reducing

chemical kinetic model to ordinary differential equations
[AIAA PAPER 68-733] 20 p3458 A69-37181

Cloud physics problems of precipitation release from interaction of air motions and microphysical events, discussing raindrop growth initiation, artificial cloud modification, etc
20 p3572 A69-37906

Monograph on aerodynamic studies of effusion cooled turbine blades covering turbulent boundary layers, gas turbine performance, experimental design, etc
[AIAA PAPER 69-871] 21 p3786 A69-39867

Internal aerodynamics of centrifugal compressor impeller, discussing impeller channel airflow model, impeller exit flow, rotating channel flow, etc
[RAES PAPER 19] 22 p3859 A69-40498

Recirculation concept for air cushion vehicle air curtain evaluated by two dimensional and circular models, discussing optimum cushion area/jet exit area ratio
22 p3866 A69-40816

Heat transfer coefficient of turbulent air flow found independent of temperature head during cooling
22 p4051 A69-41026

Proportional fluid amplifiers analysis in cascade and with feedback by extended lumped parameter method, discussing dynamic characteristics of analog amplifiers with air
24 p4255 A69-43268

Molecular vibrational relaxation effect on dissociating airflow behind shock wavefront, giving relations to chemical reaction rates in diffusion approximation
24 p4302 A69-43486

AIR INTAKES

NT ENGINE INLETS

NT HYPERSONIC INLETS

NT SUPERSONIC INLETS

Engine air intake design and development for Concorde aircraft, discussing design constraints
[AIAA PAPER 67-752] 01 p0006 A69-11014

Wind tunnel pressure tests of Concorde air intake mockups in presence of aircraft wing and nose for Mach numbers 2, 2.2 and 2.35
03 p0361 A69-12879

Supersonic compressors for supersonic and subsonic air intakes, studying wave configuration at entry of circular cascade of blades with hydraulic analogy
[ONERA-TP-669] 05 p0699 A69-16340

Engine air intake for operational Harrier V/STOL strike/reconnaissance fighter, describing intake instrumentation ring, temperature and pressure probe development and pressure recording
05 p0767 A69-16673

Air intakes for fixed exhaust throat hypersonic ramjet engines, discussing configuration dependence on Mach number at beginning of combustion
[ONERA-TP-658] 07 p1203 A69-18418

V/STOL air intakes and jets simulation in wind tunnel tests, noting thrust simulation possibilities
11 p1866 A69-25431

AIR JETS

Heat transfer near stagnation point in axisymmetric turbulent jet impinging on circular disk
02 p0354 A69-12491

Air jet high temperature and low pressure influence on combustion stability in ramjet engine
03 p0531 A69-12968

Round air jet projected parallel to wall, analyzing velocity profiles, decay and growth rate
04 p0591 A69-15487

Heat transfer characteristics of single lines of circular air jets impinging on concave cylindrical surfaces, discussing nozzle target spacing effect
[ASME PAPER 68-WA/GT-1] 05 p0848 A69-16137

Jet perpendicular penetration prediction from holes or tubes, discussing resultant gas stream mixing and temperature profiles
[ASME PAPER 68-WA/GT-8] 05 p0750 A69-16143

Nickel structure alterations during interaction with high speed air flow at elevated temperatures
05 p0783 A69-16812

Soviet collection of papers on turbulent jets of air, plasma and real gas
07 p1049 A69-18392

Thin jet-flapped airfoil flow analysis in ground proximity at small angle of incidence, assuming inviscid incompressible flow
09 p1431 A69-22275

Tangential air jet for separation control of two dimensional incompressible flow along circular cylindrical wall
09 p1431 A69-22277

Turbulent circular wall air jet trajectory and spreading in perpendicular crossflow of constant and varying velocities
[ASME PAPER 69-GT-33] 09 p1483 A69-22491

Air powered fluid jet engine compressor bleed control stressing closing, reset and override operations
[ASME PAPER 69-GT-19] 09 p1571 A69-22498

Surface heat transfer coefficients under perforated plate of multiple square array round impinging air jets
[ASME PAPER 69-GT-4] 09 p1624 A69-22508

Cavity formation on water and wet cement surfaces by impingement of axisymmetric air jet noting cavity shape, depth and diameter
11 p1869 A69-24888

Ingestion and flow field characteristics of interaction of two heated parallel air jets, discussing VTOL exhaust ingestion tests
[AIAA PAPER 68-79] 12 p2012 A69-26761

Ambient air pressure effects on fatigue crack growth rate in strain hardened aluminum
13 p2276 A69-27393

Air-hydrogen supersonic mixing and combustion, characterizing hot hydrogen jet discharging into supersonic concentric air stream at atmospheric pressure
[AIAA PAPER 69-339] 13 p2378 A69-28275

Airstream parameters /temperature and velocity/ of turbulence intensity in jet core at tube exit and behind grids measured by He diffusion method
16 p2771 A69-31959

Ejector driven wind tunnel for turbulent flow generation with arbitrary velocity profile, using jet arrays
[AIAA PAPER 69-743] 18 p3114 A69-34408

Subsonic and supersonic turbulent air jets expansion over perpendicularly positioned plane disk obstacle, deriving equations for pressure distribution and stagnation temperature
18 p3123 A69-34990

Forced and periodic motion of air or water jets impinging in double input vortex chamber described in terms of oscillator deriving energy from hydrodynamic instability
[ASME PAPER 69-FLCS-19] 20 p3465 A69-37981

Integral relations method applied to air jet flow along cylinder with boundary layer control by suction or blowing
21 p3698 A69-39845

AIR LAUNCHING

Air launched sounding rockets design, development and testing noting aerodynamic loading and surface, propulsion unit, cost effectiveness, etc
21 p3820 A69-39218

AIR LOCKS

Expandable D 21 airlock scheduled for testing on NASA Orbital Workshop Flight based on elastic materials technique, noting more complex chemically rigidized concept
[IAF PAPER SD-49] 02 p0334 A69-11949

Portable multiunit low pressure chamber with locks, permitting water replenishment, feeding of animals under continuous pressure and gas mixtures
22 p3891 A69-40217

AIR MASSES

Thermodynamics of nonadiabatic vertical ascent of overheated individual air volumes in stably stratified atmosphere
02 p0274 A69-11441

Group invariant solutions of differential equation systems applied to quasi-linear partial differential equations of motion of air masses
02 p0274 A69-11444

Air mass cumulus cloud growth stimulation by means of vertical updrafts capable of perforation of retaining layers
03 p0461 A69-13409

Telluric lines halfwidth and depth dependence on observation point altitude and intervening air mass, determining absorption line contours for isothermal atmosphere
03 p0512 A69-13695

Air mass displacements and diurnal variations in potential temperature at tropopause level
13 p2252 A69-27608

Air mass analysis, discussing homogeneity, quasi-barotropic fluids, noise elimination to arrive at smooth flow pattern, etc
15 p2647 A69-30193

Air masses transformation, solving nonlinear simultaneous system of equations of motion, heat influx and turbulent energy balance
15 p2649 A69-30647

Nocturnal development of air mass stratus clouds in Texas and mechanism of formation, discussing turbulent mixing theory
15 p2649 A69-30893

Lagrangian solution for air mass element trajectory in free atmosphere using vortex invariant, noting application to atmospheric transport of contamination 16 p2805 A69-31611

Lateral mixing of air masses in jet stream by water fluid model experiments, discussing steady and non-steady state turbulent momentum exchange 17 p3000 A69-33759

Mean patterns of meridional interhemispheric flow for 40 degree equatorial sector, calculating mean air mass transport in lower troposphere over western Indian Ocean 18 p3166 A69-34420

Solar constant and spectral irradiance curve for zero air mass obtained from aircraft measurements 23 p4216 A69-42191

Cloud cover forms in circulatory-climatic zones of earth based on Zond 5 picture analysis, discussing air-mass exchanges and motions direction 23 p4184 A69-42486

Radiation contribution to large scale atmospheric mass circulation simulation, considering short wave radiation, temperature variations, exponential and aerosol attenuation 23 p4184 A69-42487

AIR NAVIGATION

NT ALL-WEATHER AIR NAVIGATION
NT TACAN

Navigational instruments developments during past fifty years emphasizing land, marine and air navigation aids 01 p0112 A69-10311

Airline area navigation system functions for developing map type pictorial display system including digital computer, cockpit control unit and microfilm charts 01 p0112 A69-10453

Navigation Service Satellite System for aiding aircraft and ships at sea in Pacific Ocean, noting equipment and functions [UN PAPER 68-95251] 01 p0112 A69-10470

Space techniques for application to civil aviation, discussing air to ground communications, air traffic monitoring and navigation and weather forecasting by satellite [UN PAPER 68-95349] 01 p0179 A69-10490

Aircraft navigation using synchronous satellites based on position location by intersection of two circles with centers below satellites 01 p0114 A69-11011

Vertical flight path navigation requirements for supersonic aircraft based on computer simulated flights of Mach 2 Concorde 02 p0277 A69-11590

Great circle route determination based on celestial spherical triangulation 02 p0278 A69-12360

Transatlantic aircraft cross-track air navigation error reducible by augmenting Doppler system with satellite ranging system 03 p0464 A69-13237

Navigational and tactical data with correlative map information provided on single CRT display in aircraft, storing map data on video tape 03 p0464 A69-13246

Navigation computer utilizing current integrators and step motors to record flight path 03 p0404 A69-13431

STOL and VTOL aircraft characteristics in operation, considering impact on terminal navigation and air traffic control [SAE PAPER 680666] 03 p0465 A69-13452

ASTRE programming language applicability to maximum memory information treatment in aerial navigation 03 p0401 A69-14180

Aerial navigation regulation and international law, discussing 1944 Chicago convention for international cooperation 05 p0849 A69-15681

Area navigation implementable by airborne course line computers, pictorial displays, Doppler radars and inertial platforms for use in ATC systems 05 p0790 A69-16720

Dioscures system for international air traffic control and navigation over North Atlantic by means of two geostationary satellites [UN PAPER 68-95832] 06 p0954 A69-17063

Air navigation and economics, discussing air traffic control and traffic density effects on fuel consumption and engine life 07 p1052 A69-18661

Aircraft communications, navigation and identification, discussing role of satellites, common waveform modulation and electronics technology 07 p1085 A69-19178

Sensor data acquisition and processing and required levels of navigation integration for increasing air space capacity 07 p1177 A69-19211

Most probable position (MPP) choosing methods accuracy, investigating relative effects of dead reckoning (DR) and celestial lines of position (LOP) errors 07 p1177 A69-19214

Airborne area navigational capability achieved by course line computer processing VOR information 07 p1178 A69-19763

Air traffic development related to control systems advances, discussing telecommunications effect and radio navigation systems enabling pilot to determine position 08 p1347 A69-20598

Long range subsonic transport navigation systems accounting for reductions in horizontal separation on high density oceanic routes 08 p1348 A69-21062

Optimum integration of aircraft equipment, subsystems and computer mechanizations for low cost navigation system consistent with mission requirements 08 p1348 A69-21065

National plan for air navigation covering R and D and operational aspects 08 p1348 A69-21192

Satellite navigation system feasibility for accurate and continuous navigation capability for Army tactical aircraft 08 p1349 A69-21193

Integrated inertial aircraft navigation with velocity and position aids, discussing in-flight calibration capabilities, performance under quick-reaction constraints and digital simulation results 08 p1349 A69-21196

Marine and aircraft satellite navigation techniques, discussing equipment requirements, related performance characteristics and limitations 08 p1349 A69-21198

Range difference air navigation equations solution, discussing error updating of satellite position and constellation geometry 09 p1538 A69-21996

Subjective and objective upper air forecasts compared for error analysis of headwinds, noting influence of geographical location 09 p1536 A69-22074

International air traffic regulations for reciprocity and conventions between contracting states 09 p1626 A69-22092

Navigation accuracy and telecommunications system capacity interrelationships in economical improvement of air traffic control system over North Atlantic 10 p1723 A69-23704

VOR/DME ground facilities accuracy improvement by complementing navigation computation with signals from inertial navigation system [SAE PAPER 690338] 11 p1914 A69-24499

Monograph on computer aided air traffic control systems design, discussing air navigation, man-machine relations, equipment requirements, programs, plan position color display, etc 11 p1914 A69-25085

Pure inertial navigation system support by supplying additional or redundant navigational information, considering space flight applications and earth related problems 12 p2128 A69-25873

Soviet book on radio navigation of flight vehicles covering systems classification, operational characteristics, satellite navigation, etc 12 p2129 A69-27076

Hyperbolic marine and air navigation including TACAN, pulse modulation, rotating hyperbolic fields, sector beacons and all-weather landing aids 13 p2296 A69-27334

Pictorial display techniques aiding air traffic and aircraft control, discussing projection and directly viewed display 13 p2296 A69-27335

Navy Navigation Satellite System (NAVSAT) applications, considering nonmilitary marine and air all-weather navigation and positioning 14 p2479 A69-29856

National plan for air navigation covering R and D and operational aspects 14 p2480 A69-29858

Optimal navigation system for supersonic Concorde aircraft, discussing in-flight and terminal navigation methods 14 p2480 A69-29859

Aircraft constant altitude-pressure flight navigation attained using Bellamy formula and loxodromic route for drift compensation 15 p2651 A69-30294

Bearing errors from radio beacons with rotating or multilobe radiation patterns 15 p2567 A69-30343

Dioscures project for telecommunication, ATC and navigation by satellites to provide continuous position determination 15 p2651 A69-30691

Doppler and inertial self contained systems for long range navigation, considering air traffic control separation standards 15 p2651 A69-31544

North Atlantic aircraft navigation and traffic control system using satellites 16 p2809 A69-32054

Airborne digital computer and display devices role in navigation management, discussing data processing and hybrid navigation systems 16 p2809 A69-32260

Aircraft electromagnetic position finding system based on Doppler shift of CW carriers 17 p3002 A69-34078

Navigation and guidance systems for low altitude aircraft flight safety noting position determination, cockpit environment and fail-safe operation 17 p3002 A69-34080

Collection of articles on avionics navigation systems covering navigation equations, airborne digital and analog computers, radio, Doppler and inertial navigation, etc 18 p3168 A69-34843

Reliability and component relationships of aircraft navigation systems, describing dead reckoning, position fixing, guidance and vertical navigation 18 p3168 A69-34844

Inertial aircraft navigation, describing instruments and error analyses with regard to simulation, error propagation and total system error 18 p3169 A69-34850

Attitude and heading reference devices for aircraft navigation, describing instruments, gyroscopes and gravity sensors 18 p3169 A69-34853

Situation displays and flight instrument development including head-up, vertical tape and map systems 18 p3170 A69-34858

Inertial navigation systems technology, discussing man machine dialog, alignment, etc 19 p3371 A69-36703

IR equipment to aid air navigation, discussing detection cells, temperature direction finding, mobile source tracking, etc 19 p3371 A69-36705

Subsonic civil air transport navigation systems, discussing flight routes redistribution across North Atlantic to meet increased traffic 20 p3574 A69-37417

Guidance and navigation flight tests, demonstrating system performance improvements by onboard inertial system communicating with external navigation aid [AIAA PAPER 69-842] 21 p3765 A69-39429

Moving map pictorial display system for on board capability of area navigation, noting crew reaction [SAE PAPER 690393] 23 p4186 A69-41663

Maritime navigation hyperbolic charts for aircraft position determination 23 p4186 A69-42026

Optimum integration of aircraft equipment, subsystems and computer mechanizations for low cost navigation system consistent with mission requirements 23 p4186 A69-42538

Omega aircraft navigation, discussing digital computer applications, SNR environment, carrier interference and accuracy requirements for signal reception 23 p4186 A69-42539

Aircraft navigation by geostationary satellites, discussing Dioscures project 24 p4280 A69-42568

Illumination effect on air navigation chart reading during flight, using questionnaire data 24 p4271 A69-42605

Surface and aerospace navigation by VLF radio network, discussing Omega transmitting station location, operational modes and daytime-nighttime accuracies [AAS PAPER 69-405] 24 p4347 A69-42834

AIR POLLUTION

Jet engine exhaust composition and methods for reducing smoke emission through burner design changes, noting primary zone fuel and airflow pattern [SAE PAPER 680348] 03 p0495 A69-13350

Control methods and designs for limiting atmospheric pollution emitted by aircraft gas turbine engines [SAE PAPER 680347] 07 p1204 A69-19729

Pollution control forecast, contamination control specialist and systems approach 08 p1265 A69-19808

Exchange coefficient of energy balance of earth surface for propagation studies of entrained atmospheric contaminants 09 p1535 A69-21514

Control methods and designs for limiting atmospheric pollution emitted by aircraft gas turbine engines 12 p2147 A69-26236

Correlation spectrometer for air pollution surveillance from airborne and spaceborne platforms, noting scanning satellite system for continuous global coverage 12 p2096 A69-26981

Vitiated air contamination effects on combustion and hypersonic air breathing engine ground tests [AIAA PAPER 69-338] 13 p2325 A69-28274

Remote optical heterodyne measurement of Doppler shift as method for determining vector wind velocity, noting influence of air pollution 14 p2448 A69-29523

Lagrangian solution for air mass element trajectory in free atmosphere using vortex invariant, noting application to atmospheric transport of contamination 16 p2805 A69-31611

Atmospheric aerosols influence on electric field in ground layer to account for ionization, demonstrating number and turbulent exchange coefficient relationship 17 p2996 A69-33036

Vitiated contamination effect on airbreathing engine ground testing, considering equilibrium, vibrational and chemical relaxation, condensation, combustion, mixing and engine performance [AIAA PAPER 69-456] 19 p3448 A69-36333

Airborne correlation spectrometer for air pollution remote sensing, describing applications [RAES PAPER 7] 22 p3896 A69-40488

Sulfur dioxide, nitrogen dioxide and Aitken nuclei washout by artificial rain of known intensity and droplet size distribution 24 p4345 A69-43146

Mixing spread of hydrogen plumes and air pollutants exhausted into open atmosphere, predicting subsonic free round jets air entrainment 24 p4300 A69-43257

AIR SAMPLING

Extraterrestrial life detection methods based on soil or atmospheric sampling, discussing enzyme activity, DNA determination, microbial growth, etc 01 p0021 A69-11093

Control and sampling in sterile rooms, noting worker introduction of contaminants 05 p0714 A69-15953

Stratospheric air sampling reliability instrumentation as part of radioactivity fallout detection program 05 p0766 A69-16751

AIR TO AIR MISSILES

Onboard radar for light interceptor aircraft /Aida III/, discussing navigation, low altitude penetration and air to air missile interception 19 p3278 A69-36701

Thermal protection for air-launched missile electronics during carry and free flight, considering active, passive and combination systems and weight penalties 22 p4049 A69-39943

AIR TO SURFACE MISSILES

Kormoran airborne missile weapon system for attacking sea-going targets, discussing navigation guidance, radar tracking and homing system 17 p3050 A69-33697

Thermal protection for air-launched missile electronics during carry and free flight, considering active, passive and combination systems and weight penalties 22 p4049 A69-39943

AIR TRAFFIC

Air cargo traffic increase, discussing technical and economical prospects, use of intermodal containers and transportation automation tendency 01 p0008 A69-10030

Ship and aircraft traffic conditions in Japan and neighboring areas and requirements for navigation satellite system [UN PAPER 68-95226] 01 p0113 A69-10520

Air traffic prediction based on mathematical econometric methods 03 p0536 A69-14105

Passenger aircraft design to cope with air traffic volume increase in 1970s, discussing economic aspects of high capacity aircraft 04 p0546 A69-14804

Elasticity of demand theory applied to fare changes effect on passenger volume, noting interdependence of aircraft size and fare formulation 04 p0689 A69-14805

Fitting airport interfaces to air traffic, considering bottleneck elimination 05 p0742 A69-15918

Aeronautic electronics - Conference, Washington, D.C., September 1968 05 p0789 A69-16716

V/STOL operations in intercity and intracity service, discussing technical feasibility and need for steep approach instrument landing system 05 p0703 A69-16723

STOL and V/STOL role in eliminating air traffic congestion at U.S. and West European airports and in short haul and municipal routes 08 p1254 A69-20093

Mathematical models for outgoing traffic flow in airport terminal used for determining service requirements 09 p1476 A69-21439

Complex climatological cloud profiles structural characteristics along given air traffic routes prepared for practical aviation problems 12 p2127 A69-26899

U.S.-Europe air traffic, attributing European lag to dense air route duplication, load factors, etc 13 p2381 A69-27338

Air transportation problems in connection with rapid aviation growth noting crisis in near future 15 p2720 A69-30588

Ground facilities long term planning, considering factors to determine air transport growth and changing commercial aviation pattern 16 p2766 A69-32020

Gate arrival approach to Kansas City airport terminal planning for facilities and operations decentralization, congestion reduction and passenger walk distance minimization 16 p2766 A69-32327

Space criteria for aircraft parking positions noting radial wedges configuration 16 p2766 A69-32328

Space requirements of departure lounges in airport buildings for large aircraft loading, discussing entry doors, boarding times, etc 16 p2766 A69-32330

Los Angeles International Airport development planning, discussing airfield improvement, tunnel reconstruction, terminal layouts, parking, roads and access, etc [AIAA PAPER 69-806] 19 p3288 A69-35590

Air terminals plans for 1975 aircraft and air traffic based on runway configurations [AIAA PAPER 69-805] 19 p3288 A69-35591

Problems caused by air traffic rate growth in London Terminal area, examining runway limits, safety and noise restrictions 19 p3371 A69-36736

STOL aircraft to serve traffic needs of northeast corridor, discussing decision making regarding size, type, cost, speed and strip-length 20 p3462 A69-37352

Air passenger traffic growth to 1980 in major sectors of air transport industry, emphasizing traffic volumes 22 p4052 A69-40425

Air cargo traffic, discussing payload lots, aircraft types suitable for freight transport, difficulties and solution 22 p4052 A69-40426

Civil cargo aircraft characteristics and development trends, discussing cargo and passenger traffic management, communications network, etc 22 p3863 A69-40427

Air traffic problems due to tourism, suggesting service modifications to meet future needs 22 p4053 A69-40434

Planning for safety of future supersonic air traffic including financing and coordination activity of government and industry 22 p4054 A69-41131

Air traffic safety enhanced through flight crew awareness of hazards, clear air turbulence detection and avoidance, collision avoidance, etc 22 p3868 A69-41151

Air traffic growth forecasting, describing various mathematical econometric models [AAS PAPER 69-329] 24 p4417 A69-42807

AIR TRAFFIC CONTROL NT RADAR APPROACH CONTROL

Space techniques for application to civil aviation, discussing air to ground communications, air traffic monitoring and navigation and weather forecasting by satellite [UN PAPER 68-95349] 01 p0179 A69-10490

Satellites and ocean platforms for civil aviation operations over North Atlantic, noting cost justification dependence on supersonic traffic increase [UN PAPER 68-95887] 01 p0113 A69-10521

Air traffic control at Los Angeles International Airport, discussing simultaneous parallel ILS approaches and departures and STOL problems 01 p0057 A69-11356

Interim radar improvement program for air route traffic control centers pending development of automated terminal radar programs 01 p0114 A69-11357

Satellite monitoring application to air traffic control in parallel track system, discussing lateral and longitudinal separation control 02 p0277 A69-11591

Navigation by satellite systems, discussing vehicle position determination and communications link for traffic control with comment on French space program 02 p0278 A69-11912

Avionics technology and systems for future SST aircraft noting improved air traffic control systems 02 p0279 A69-12364

SPOT /Speed, Position and Track/ transoceanic traffic surveillance and navigation system for aircraft and marine users 03 p0463 A69-13234

Transoceanic air traffic control system with independent surveillance of aircraft positions, decision making agency and undelayed communications, using satellites 03 p0464 A69-13236

International satellite system for commercial aircraft communications and air traffic control 03 p0464 A69-13238

STOL and VTOL aircraft characteristics in operation, considering impact on terminal navigation and air traffic control [SAE PAPER 680666] 03 p0465 A69-13452

Application satellites for air traffic control, meteorology and earth resources, considering European participation 03 p0520 A69-13587

Telecommunications network for air traffic in Central America to attain higher degree of reliability 03 p0399 A69-14182

Simulation design of multiprocessing system to provide air traffic control capabilities through use of real time operations 04 p0629 A69-15365

FAA coded broadcasting to transponder equipped aircraft for air traffic control, navigation, collision avoidance and airfield approach 04 p0629 A69-15478

Integrated guidance and traffic control system to handle VTOL traffic in Northeast Corridor 05 p0789 A69-15560

FAA research and development responsibility to National Airspace System, examining programs for ATC automation, solid state technology application, communications, etc 05 p0850 A69-16717

Air traffic control /ATC/ automation, discussing display, data acquisition, automated radar terminal systems /ARTS/, etc 05 p0790 A69-16719

Area navigation implementable by airborne course line computers, pictorial displays, Doppler radars and inertial platforms for use in ATC systems 05 p0790 A69-16720

Digital communications between aircraft and flow control computers on ground to avoid runway saturation and automating routing functions 05 p0721 A69-16722

Government role in air transportation policy, considering growing demands on air traffic control 06 p1040 A69-16835

International problems of air traffic control, discussing legal and political basis for organization and ATC liability 06 p1042 A69-16846

Automatic air traffic control systems design, development and application to civil and military aviation 06 p0955 A69-17858

Aircraft traffic control with cockpit self sufficiency for accurate and reliable navigation capability, discussing radar vector navigation and communication 07 p1177 A69-19210

Sensor data acquisition and processing and required levels of navigation integration for increasing air space capacity

07 p1177 A69-19211

Navigation satellites system designed for ATC without requirement for onboard transmitter, discussing spectrum occupancy, satellite power, lane ambiguities and computational procedures

07 p1177 A69-19212

Aircraft position and velocity in directions normal to ILS reference path by correlation with inertial navigation system, noting minimal time controller

07 p1177 A69-19213

Qualitative V/STOL air traffic control requirements, discussing airborne and ground data, procedures and equipment categories

[AIAA PAPER 69-211] 07 p1177 A69-19552

Optimum approach and departure paths for VTOL aircraft simulated by hybrid computer under constraints

[AIAA PAPER 69-209] 07 p1178 A69-19570

Aircraft separation standards, considering separate space for VTOL in automated high density airways system

[AIAA PAPER 69-210] 07 p1178 A69-19579

Air traffic development related to control systems advances, discussing telecommunications effect and radio navigation systems enabling pilot to determine position

08 p1347 A69-20598

Monograph on mathematical model for aircraft separation in air traffic safety control, analyzing aircraft motions and collision avoidance

08 p1347 A69-20712

Project Dioscures for permanent air traffic control centers, positive telecommunication links and satellite navigation

08 p1347 A69-20779

Control and recording device for parameters and information relating to takeoff and landing, using detection elements and cross wire on runway

08 p1347 A69-20780

Vector analog computer functions and applications in air traffic control, discussing area navigation equipped aircraft

08 p1349 A69-21195

Air traffic lateral separation assurance over North Atlantic for increased routes capacity without safety reduction

08 p1349 A69-21200

Radio location system based on measuring distance between object and two stationary satellites, noting application to air traffic over North Atlantic

09 p1537 A69-21269

Transponder design with planar triode for aircraft identification and air traffic control

09 p1462 A69-21411

Alphanumeric characters to identify radar targets on PPI display for air traffic control, considering technique for reducing smear

09 p1495 A69-21675

Navigation accuracy and telecommunications system capacity interrelationships in economical improvement of air traffic control system over North Atlantic

10 p1723 A69-23704

Secondary radar for air traffic control automation in France, discussing onboard equipment

10 p1723 A69-23705

Monograph on computer aided air traffic control systems design, discussing air navigation, man-machine relations, equipment requirements, programs, plan position color display, etc

11 p1914 A69-25085

Visual simulation for critical maneuvers of aircraft takeoff and landing, noting method based on limited corridor simulation and maneuver freedom

[AIAA PAPER 68-255] 11 p1866 A69-25376

Designs and capabilities of digital processing systems for automatic air traffic control radar information stressing future use of display for computerized control

13 p2295 A69-27332

Pictorial display techniques aiding air traffic and aircraft control, discussing projection and directly viewed display

13 p2296 A69-27335

Satellite networks for air traffic control and aircraft communications in North Atlantic

13 p2296 A69-27831

Aircraft noise control at source through high bypass ratio engine modification, FAA decibel standards and higher capacity aircraft for increased traffic density

14 p2509 A69-29156

Computer uses for air traffic control in Germany including flight plans and weather report data processing

15 p2650 A69-30230

Air lane longitudinal separation distance reduction for accommodating increased traffic using airborne computers for single file system

15 p2651 A69-30293

Airport problems in increasing air traffic, discussing passenger delays, runway capacity, instrument controlled takeoff and landing, fog dispersal, baggage flow, etc

15 p2589 A69-30589

Dioscures project for telecommunication, ATC and navigation by satellites to provide continuous position determination

15 p2651 A69-30691

Primary-secondary radar /SECAR/ integration for air traffic control, discussing problems of simultaneous display, transmission synchronization, signal multiplexing, etc

15 p2570 A69-31222

Economics of airport use, congestion and safety, discussing differentiated pricing systems

15 p2723 A69-31241

Secondary radar system chosen by EUROCONTROL Agency for civil air traffic control at Shannon and Brussels airports

15 p2571 A69-31501

Doppler and inertial self contained systems for long range navigation, considering air traffic control separation standards

15 p2651 A69-31544

Dioscures project for worldwide telecommunications, air traffic control and navigation by satellites, discussing technical, operational and economic characteristics

16 p2749 A69-31601

North Atlantic aircraft navigation and traffic control system using satellites

16 p2809 A69-32054

CAB decisions regarding subsidy reduction, carrier mergers, and dense route certification requiring improved clarity and timeliness

16 p2882 A69-32336

Color signal light gun for aircraft control at airport towers, noting pilot tests for familiarity with signal code

17 p2914 A69-33185

Terminal area navigation and landing guidance systems for V/STOL intercity transport aircraft, considering radio guidance, aircraft control and system interaction

17 p2897 A69-33210

Tacan navigation system developments including data transmission, links to airborne computers and air traffic control transponders

17 p3003 A69-34101

Experimental SST terminal for satellite L band communications/surveillance ATC system, establishing terminal requirements for NASA and FAA studies

17 p2932 A69-34118

Future navigation systems and ATC, discussing traffic flow factors and approach and landing systems

17 p3004 A69-34201

Air traffic control and airline operators liaison with reference to air transport priorities, considering relationship to aircraft and airport development

17 p3004 A69-34204

All-weather operations, aircraft size, air traffic and noise as airport design factors, discussing financing priorities for runway construction, facilities and personnel

17 p3004 A69-34207

Air traffic control/electronics automation developments and controllers responsibilities in Great Britain and Netherlands

18 p3168 A69-34805

Air traffic control ground equipment developments including radio direction finders, surveillance radar, interconsole marking, etc

18 p3168 A69-34806

Air traffic control, discussing objectives, governmental responsibilities and airspace organization, including U.S. system

18 p3170 A69-34859

Satellite systems for air traffic control, navigation, communications and telemetry in view of regulations of frequency allocations

18 p3103 A69-35089

Airport alternate facilities, restrictive flight schedules and fee schedules for relieving airport congestion during peak traffic hours

[AIAA PAPER 69-820] 19 p3453 A69-35595

Pictorial display area navigation system for air traffic control in terms of cockpit utilization, interface with ground navigation aids, parallel multiple routes, etc

[AIAA PAPER 69-798] 19 p3367 A69-35632

Time/frequency technology using time-ordered reporting digital data for air traffic control to avoid airborne collision

[AIAA PAPER 69-795] 19 p3367 A69-35635

FAA ARTS-III terminal air traffic control system reliability and maintainability, discussing module addition

19 p3370 A69-36000

Computerized clock sequenced ATC system, area navigation /R Nav/ systems and STOL flight control

19 p3370 A69-36317

Supersonic transport aircraft impact on air traffic control in Eurocontrol area, discussing climb, acceleration, cruise and descent

19 p3370 A69-36653

Eurocontrol Experimental Data Processor for automation in air traffic control, discussing system size configuration and environment

19 p3280 A69-36654

Transport aircraft automatic altitude transmission requirements, discussing altimeter-transponder radar system to aid air traffic control

19 p3371 A69-36700

Airborne collision avoidance system based on time-frequency techniques for use within ground based control systems, showing air/ground synchronization and collision geometry

19 p3371 A69-36735

Short haul air transportation traffic congestion problems in Northeast corridor, emphasizing STOL solution for economy

19 p3248 A69-36865

ATC systems analysis including airports, ground access and air transportation

19 p3371 A69-36866

Terminal air traffic management in future noting transition airspace, approach and departure paths and airport capacity

[AIAA PAPER 68-1101] 20 p3573 A69-37160

Subsonic civil air transport navigation systems, discussing flight routes redistribution across North Atlantic to meet increased traffic

20 p3574 A69-37417

ATC medium range radar /SRE-LL1/, describing reflectors positions, information rate, installation, antenna parameters, etc

20 p3496 A69-37932

Radar digital processing and display system for air traffic control with IC central processor and discrete data transmission over telephone lines from remote sites

21 p3760 A69-38328

STOL airline operation test programs involving aircraft, navigation equipment, systems and ATC

21 p3646 A69-38731

Correlation protected ILS implementing conventional ILS with no operational restrictions on air traffic control, taking into account changing terminal conditions

22 p3978 A69-39963

Air traffic systems and diminishing airspace capacity problems requiring additional airport facilities and STOL aircraft

22 p3925 A69-40428

Air traffic control transoceanic satellite system for minimizing navigation errors forcing wide separations, providing VHF voice communication and position surveillance

22 p3901 A69-41147

Air traffic interfaces of VTOL, STOL and CTOL aircraft serving same metropolitan terminal, emphasizing navigation systems, geographical positions, ground communication, etc

[SAE PAPER 690422] 23 p4185 A69-41646

Airline area navigation test programs involving use of VOR/DME signals and inertial navigation system within air traffic control system

23 p4185 A69-41662

Human factors in air traffic control, considering personnel, equipment, environmental and social factors

23 p4108 A69-41828

Short range aviation terminal weather predictions concerning runway visual range, cloud-base height and wind, using FAA mesometeorological network

24 p4342 A69-42892

AIR TRANSPORTATION

Air freight transport development, characteristics and economics

02 p0356 A69-11888

Air cushion landing gear in civil air transport, discussing system concept, advantages and LA 4 aircraft experimental application

02 p0193 A69-12690

Business jet aircraft use for air transport pilot training instead of simulating devices, noting pilot cabins
03 p0366 A69-13643

1967 yearbook on air and space travel covering airbus, astronautics, V/STOL, aerodynamics, flight mechanics, simulation and aeroelasticity
04 p0545 A69-14801

French air transport and airports covering aviation enterprises, air traffic density, airport activities, traffic flow, etc
04 p0689 A69-15479

Subsonic aircraft potential for short haul transportation, discussing technical problems
05 p0701 A69-15559

Fitting airport interfaces to air traffic, considering bottleneck elimination
05 p0742 A69-15918

Government role in air transportation policy, considering growing demands on air traffic control
06 p1040 A69-16835

LR-1 prototype design criteria and flight testing, discussing Model 99 airliners for commuter airlines
06 p0867 A69-17668

Future commercial VTOL transportation, considering technical, political and socio-economic problems [AIAA PAPER 69-198]
07 p1056 A69-19567

STOL and V/STOL role in eliminating air traffic congestion at U.S. and West European airports and in short haul and municipal routes
08 p1254 A69-20093

Single stage rocket vehicle design for rapid global air transportation noting size, range and economics
09 p1433 A69-21303

Airport evolution in London, discussing transportation, safety, international trade, economics, aircraft types and noise spectra
09 p1479 A69-22582

V/STOL aircraft future, discussing Federal Government policies, economics, airport planning, engineering problems, etc
10 p1811 A69-23221

Airport operation and administration, discussing supply, costs, tariffs, etc
10 p1811 A69-23602

Air carrier liability for nuclear weapons damage, discussing international agreements
11 p2003 A69-24260

Supersonic transport airline operations including safety, noise, traffic control, routing, etc
11 p2004 A69-24373

Multiengine helicopter scheduled passenger service operations in Europe
11 p2004 A69-24378

Air transport prediction for West Europe by 1980
11 p2004 A69-25216

V/STOL aircraft in commercial aviation, discussing costs, noise reduction, propulsion systems, projected routes, etc
13 p2203 A69-28039

FAA additional airworthiness standards for small aircraft in air taxi and commercial operations, noting safety levels [SAE PAPER 690320]
15 p2549 A69-30090

Space flight cost analysis, relative costs of various types of transportation and need for reusable single stage to orbit vehicles
15 p2719 A69-30186

Air transport industry safety record and variable stability research planes to simulate aircraft airborne behavior and handling qualities
15 p2558 A69-30453

Air transportation problems in connection with rapid aviation growth noting crisis in near future
15 p2720 A69-30588

Airport problems in increasing air traffic, discussing passenger delays, runway capacity, instrument controlled takeoff and landing, fog dispersal, baggage flow, etc
15 p2589 A69-30589

Book on competition in North Atlantic commercial air transport covering passengers, freight and mail from supply, demand and market point of view
16 p2881 A69-31866

Aircraft role in future transport systems for passengers and goods, emphasizing shorter distances, intercity and interurban communication, etc
16 p2881 A69-31932

Ground facilities long term planning, considering factors to determine air transport growth and changing commercial aviation pattern
16 p2766 A69-32020

Civil aircraft requirements from 1975 onward, discussing classes, categories and R and D
16 p2882 A69-32022

Airport planning, discussing air transportation and city planning problems for Hannover air terminal
16 p2882 A69-32329

Long distance air flights through different time zones, discussing circadian physiological cycles, light-dark ratio shifts effects and methods of lessening desynchronization effects
16 p2745 A69-32444

Short range transport - Royal Aeronautical Society Conference, London, May 1969
17 p2897 A69-33206

Air transport systems aspects including efficiency, performance and economics interplay for subsonic and supersonic aircraft
17 p3018 A69-33218

Skyvan 3 light passenger/freight carrier design, detailing power plant, installation and power management
17 p2902 A69-34192

Air traffic control and airline operators liaison with reference to air transport priorities, considering relationship to aircraft and airport development
17 p3004 A69-34204

Air travel and population growth requiring larger structures for office buildings, airport passenger terminals and aircraft servicing facilities [AIAA PAPER 69-809]
19 p3289 A69-35622

General aviation missions in national transportation system /1968, 1975, 1980/, considering fuel taxes, overall system economics, ground facilities, etc [AIAA PAPER 69-818]
19 p3453 A69-35624

Article 8 /I/ of Carriage by Air Act, 1932 compared to Warsaw Convention Article 8 /I/, noting definition of legal liability of carrier
19 p3455 A69-36331

Air transport development relationship to city regional planning, including analysis of Heathrow airport design
19 p3296 A69-36850

Short haul air transportation traffic congestion problems in Northeast corridor, emphasizing STOL solution for economy
19 p3248 A69-36865

ATC systems analysis including airports, ground access and air transportation
19 p3371 A69-36866

VSTOL and conventional transport aircraft compared for short haul air transport services
20 p3461 A69-37281

Subsonic civil air transport navigation systems, discussing flight routes redistribution across North Atlantic to meet increased traffic
20 p3574 A69-37417

Electronic stethoscopes for use in high background noise environments for patients on air evacuation flights
21 p3667 A69-39444

Commercial supersonic and subsonic air traffic growth forecast
22 p3862 A69-39934

Air passenger traffic growth to 1980 in major sectors of air transport industry, emphasizing traffic volumes
22 p4052 A69-40425

VTOL, STOL and CTOL transportation systems cost effectiveness comparison for Northeast Corridor operation, considering ground facilities, access time, etc [SAE PAPER 690417]
23 p4147 A69-41642

Compound helicopter transport for short haul transportation system for Northeast Corridor, discussing terminals near origin and destination, takeoff and landing patterns, etc [SAE PAPER 690419]
23 p4062 A69-41643

STOL program in Northeast Corridor demonstrating significant city-to-city block time reduction by STOL transportation system [SAE PAPER 690420]
23 p4185 A69-41644

Patient transportation and evacuation system at disposal of Paris hospital, using short and long haul aircraft, turbojets and helicopters
23 p4105 A69-41785

Jumbo jet role in air transportation, discussing future traffic growth, pilot problems and aircraft size limitations
23 p4063 A69-41819

Intercity air transportation compared with automobile and train travel, attributing air travel dead time to ground route and airspace congestion
24 p4416 A69-42561

VTOL transport aircraft to solve short haul travel problems, examining lateral and horizontal maneuvering and vertical to horizontal flight transition
24 p4250 A69-42564

Air evacuation of maxilla-facially wounded persons from place of accident, noting helicopter use
24 p4270 A69-42603

Algorithm for aeromedical airlift system stop selection and sequencing, minimizing patient in-system time and aircraft flight distance [AAS PAPER 69-385]
24 p4251 A69-42804

Operational and economical aspects of V/STOL air transportation reevaluated for civil aviation promotion [AAS PAPER 69-325]
24 p4418 A69-42870

Demand curves for VTOL intercity transportation, discussing conventional helicopters, compound helicopters, tilt rotor, tilt wing, stored rotor and fan or jet lift
24 p4254 A69-43721

AIRBORNE EQUIPMENT

Aerial radiation temperature measurement, damping factor of atmosphere and determination of ground and water surface temperatures by radiometry
01 p0110 A69-10693

Analytical reliability ratio to operational reliability for airborne equipment taking into account electrical and thermal aspects
01 p0011 A69-11069

Aircraft cockpit displays design for flight control and navigation, discussing integration, pictorial realism, moving part, pursuit tracking, frequency separation and optimum scaling
02 p0203 A69-12213

Microwave radiometer with two reference temperatures, discussing overall stability of design, sensitivity and airborne design for operation in X band [DVL-895]
02 p0220 A69-12435

Digital modified discrete Fourier transform Doppler radar processor for tactical aircraft
03 p0389 A69-13196

Radar return signal generation for computer simulations of airborne radar systems, using digital computer program for time varying radar backscatter
03 p0429 A69-13199

Navigational and tactical data with correlative map information provided on single CRT display in aircraft, storing map data on video tape
03 p0464 A69-13246

Satellite traveling wave tube for X band duplicating C and S band performance
03 p0405 A69-13678

Avionics, discussing use of electronics in control of aerospace vehicles
03 p0431 A69-14085

Airborne radiometric /8 to 14 micron/ temperature measurements, determining emissivities of ocean, stratus clouds, desert and snow
04 p0592 A69-14653

Jaguar aircraft equipment conformity to maximum standardization with equipment for other programs
04 p0550 A69-15063

He refrigerators, noting 4 K design for large scale fixed installations and 20 K small scale design for airborne applications
05 p0704 A69-15671

Multielectrode analyzers for measuring properties of ionospheric charged particles
05 p0761 A69-15702

Balloon-borne SPARMO detector SC 67 used for measuring radiation at high altitudes
05 p0762 A69-15823

Balloon-borne instrumentation X ray measurements, discussing detector electronics, telemetry, pressure transducer, power supply, environmental tests, energy limit and calibration
05 p0762 A69-15824

Industry airborne collision avoidance systems /CAS/ development program, discussing cooperative devices in aircraft
05 p0790 A69-16725

Pilot warning indicators to equip all aircraft at low cost, discussing Doppler system
05 p0790 A69-16726

Airborne polarimeter to measure Stokes parameters of linearly polarized visible atmospheric radiation in four narrow spectral regions
06 p0923 A69-16924

Arizona-NASA atlas of IR solar spectrum, reproducing photometric tracings obtained from CV-990 aircraft flights
06 p1008 A69-17808

Life raft thermal protection against exposure of aircrews to cold, noting chemically fueled heaters and IR reflective liners
06 p0883 A69-17841

Atmospheric microwave radiation and sensitivity of airborne radiometric sounding in water and moisture contents determination
06 p0954 A69-18001

Atmospheric measurements and experiments using aircraft as platforms, noting aircraft operation in severe

- weather, electrical supply problem and aircraft wake problem
[AIAA PAPER 69-157] 06 p0869 A69-18153
- Satellite and aircraft radiation measurements in cm and mm wavelength range to provide information on underlying surfaces
07 p1130 A69-18257
- Minimum operational characteristics for airborne VHF communication systems, discussing FCC requirements and system performance
07 p1077 A69-18638
- Ferrite Y junction E plane circulator for airborne high power X band radar
07 p1100 A69-18639
- High reliability magnetic tape recorders for satellite, aircraft and drone applications
07 p1133 A69-19104
- Airborne S-band telemetry antennas for omnidirectional patterns of polarization component, discussing design, pattern measurements and application
07 p1106 A69-19112
- Adaptive airborne VHF/UHF transmitter system, discussing design, ground isolation, current limiting, internal telemetry, wideband frequency response, real time video signals, etc
07 p1106 A69-19114
- Double sideband suppressed carrier FM telemetry system as airborne data recorder, discussing noise, environmental conditions, laboratory and flight tests
07 p1084 A69-19132
- Mathematical model of radar display, considering radar construction tube resolution, environment and eye perception parameters
07 p1136 A69-19504
- Radomes developments for supersonic/hypersonic aircraft and missiles, considering conditions imposed by speed and by electronic requirements
07 p1171 A69-19508
- Radomes design and manufacture for high speed flight vehicles, discussing interactions between aerodynamic and electrical requirements with reference to mechanism of aberration
07 p1141 A69-19510
- Wind tunnel investigation of damage to aircraft radomes by water droplet encounter during cloud passage and gaseous molecule friction in air
07 p1054 A69-19541
- Thermal stabilization and ethylene oxide effect on spaceborne electronic component sterilization and decontamination
08 p1283 A69-20266
- Hertzian radiometric antennas and signal processing techniques for aerial mapping project for sun
08 p1290 A69-20976
- Microelectronic multimode airborne radar system with modular construction, discussing system design, development, flight testing and operational results
[AGARDOGRAPH-114] 08 p1277 A69-20989
- Airborne ILS marker beacon receivers and secondary surveillance radar transponder using microelectronic equipment, noting thermal dissipation problems
[AGARDOGRAPH-114] 08 p1292 A69-20991
- Microelectronic studies in France noting semiconductor integrated circuits, thin film devices and application to airborne apparatus and small computer
[AGARDOGRAPH-114] 08 p1292 A69-20993
- Ion exchange fuel cells for emitter-receiver on atmospheric constant ceiling balloon, stressing pressure effect on operation and fuel storage
08 p1260 A69-21042
- Flight test performance of airborne Omega radio navigation system capable of worldwide coverage, discussing diurnal variations effects in phase velocity
08 p1348 A69-21191
- Error analysis of high resolution balloon-borne temperature sensor and comparison of temperature data with simultaneous rawinsonde measurements
09 p1494 A69-21642
- Soviet book on electronics and radio instruments of flight vehicles, covering radars and antennas, automatic pilots and design
09 p1463 A69-21930
- Flight test evaluation program for airborne multisensor electro-optical display systems performance in TV mode under variety of optical conditions
[AIAA PAPER 69-317] 09 p1500 A69-22387
- Airborne integrated in-flight data system to record and evaluate various engine parameters of operating jet engines
10 p1660 A69-23262
- Airborne integrated data acquisition and analysis systems to determine aircraft technical performance
10 p1660 A69-23264
- Flight test telemetry data processing system designed for C-5
10 p1660 A69-23269
- Secondary radar for air traffic control automation in France, discussing onboard equipment
10 p1723 A69-23705
- Airborne static inverter, called Digital Inverter, for conversion of DC to AC, single phase and/or three phase, noting precise frequency control
[SAE PAPER 690339] 11 p1824 A69-24495
- Airborne pulsed laser system for altimetry, determining height by measurement of transit time for pulse traveling to ground and back
11 p1885 A69-25035
- Apollo Range Instrumented Aircraft /ARIA/ telemetry antenna system for trajectory tracking, discussing computer program for simulation of behavior
11 p1840 A69-25309
- Airborne collision avoidance system /CAS/ performance and operational requirements
11 p1914 A69-25430
- Concorde SST equipment and systems noting microelectronics, automatic control, inertial navigation, head-up displays, linear instruments and hydraulic systems
12 p2091 A69-26360
- Barbados airborne dust collections showing metal fragments and black magnetic spherules contaminants from handling, discussing deep sea cosmic spherules and zodiacal cloud
12 p2075 A69-26964
- Electronic nonimaging polarimeter/photometer for aircraft observations of pure red pine stand, suggesting application to terrestrial, airborne and satellite remote sensing
12 p2096 A69-26983
- Airborne IR line scanning systems for latent forest fire detection, discussing discrimination module for automatic identification of hot targets
12 p2193 A69-26994
- Airborne IR remote sensing techniques for fire detection, considering marginal and submarginal targets
12 p2098 A69-26995
- Airborne magnetometer application for remote measurement of ocean wave spectra, obtaining wave noise power spectra and wave height profile
12 p2075 A69-26998
- Airborne scanning spectrometer for IR detection of clear air turbulence, presenting flight records
12 p2098 A69-26999
- Airborne IR surveys in engineering studies of terrain, discussing instrumentation technology, data interpretability, economic feasibility, etc
12 p2098 A69-27007
- Side-looking airborne radars /SLAR/ application to geological exploration of remote unmapped areas
12 p2099 A69-27009
- Connecting duct influence on slide wire vertical air-speed indicator operating on barometric principle during aerial gravimetric surveying
13 p2260 A69-27828
- Stratoscope II unmanned balloon-borne telescope design, detailing pointing, focusing and thermal characteristics
13 p2261 A69-27956
- Guiding system of Spectro-Stratoscope /balloon-borne solar telescope/, describing hydrostatic bearing and torque motor
13 p2262 A69-27957
- Atmospheric IR emission measured at high altitudes by interferometer spectrometers behind nitrogen cooled chopper
13 p2254 A69-28261
- Electronic boresight shift in space-borne monopulse radar system, expressing antenna and signal parameters in terms of equivalent branch and channel asymmetries
14 p2411 A69-28895
- A-New avionics system for carrier based VSX aircraft used in U.S. Navy aerial submarine hunting, discussing TV, lasers, sonobuoy system, radar, etc
14 p2392 A69-29430
- Solid state programmable avionics converter for signal processing, information conversion and aircraft control
14 p2405 A69-29687
- Unoccupied space utilization in aircraft compartments due to microminiaturization, considering reliability enhancement of electronic equipment
15 p2576 A69-30353
- Airborne pulsed lasers for near shore bathymetric measurements, discussing feasibility results
15 p2609 A69-30459
- Rescue locator beacons and airborne search equipment of VHF and UHF capabilities available to international civil aircraft operations
15 p2552 A69-30852
- Cadmium sulfides thin film solar cells for supplying power to instrumentation and data telemetry on longer lived balloons
15 p2553 A69-31287
- Power supplies for balloon-borne instruments, describing light flexible NiCd batteries and solar cells used in EOLE project
16 p2736 A69-31745
- Piloting errors due to false instrument readings during turbulent atmosphere flight
16 p2734 A69-32007
- Solar spectral irradiance measured by airborne instruments, discussing construction, calibration, etc, of photoelectric filter radiometer and Leiss monochromator
16 p2861 A69-32261
- Electromagnetic interference correction for airborne telemetry, illustrating actual and simulated data for interfering source signatures identification
16 p2754 A69-32575
- Ocean and water surface temperature measurement by IR remote sensing from aircraft and satellites, discussing accuracy and data correction
[AIAA PAPER 69-590] 17 p2973 A69-33286
- Onboard flight data recorder as integrated system for investigating aircraft accidents, describing German LEADS 200 model
17 p2974 A69-33429
- Airborne clock used to synchronize atomic clocks at different locations, discussing equipment and error sources
17 p2975 A69-33593
- Microphonic noise measuring systems for airborne radar system design for noise reduction
17 p2937 A69-33628
- Digital IC radiosonde system, discussing sampling, pulse width modulation, time multiplexing, follow-on subsystems, etc
17 p2937 A69-33675
- Airborne radomes reliability and high temperature environments, discussing missile nose cones, light weight ceramic techniques, circular polarization, etc
17 p2942 A69-34084
- Beam control of optically fed two axis airborne electronically scanned phased arrays by on-array and off-array processing
17 p2942 A69-34085
- Aircraft generator weight in relation to system performance requirements, using digital computer to study generator design
17 p2904 A69-34087
- Electric power quality effects on aircraft electronic utilization equipment, discussing characteristics of variable speed constant frequency /VSCF/ generating system
17 p2905 A69-34091
- Cost optimization in converting brush type to brushless aircraft AC power systems, using analog computer to determine modifications
17 p2905 A69-34109
- Airborne electric power systems maintenance aids, describing design and operation of annunciator for establishment and display of system failure causes
17 p2905 A69-34112
- Solid state broadband RF power amplifier for airborne HF radio, eliminating total servosystem and all higher voltage components
17 p2942 A69-34114
- Airborne communication receiver solid state interference blanker circuitry comprising black box insertable between antenna and RF input
17 p2943 A69-34132
- Automatic multichannel transient monitor for electrical transient detection and data processing, transmission and storage on aircraft
17 p2947 A69-34135
- Series 3 Skyvan design, describing controls, electric and electronics equipment, weather protection, environmental and fuel systems
17 p2906 A69-34194
- Midday aurora oval and polar cap region airborne observation, noting relation to sporadic E layer
18 p3126 A69-34258
- Soviet book on reliability of semiconductor radio devices of flight vehicles covering failures through production errors, power source instability, environmental induced changes, etc
18 p3108 A69-34350

Airborne radar navigation with emphasis on semiautomatic fixing, describing beacon mode, map matching and airborne weather radar

18 p3169 A69-34851

Laboratory and flight tests of airborne solid state UHF telemetry transmitter, discussing miniaturized coaxial hardware from RF power conservation viewpoint

19 p3267 A69-35996

Airborne astatic vertical gyro motion found dependent on aircraft motion along trajectory

19 p3311 A69-36194

NASA Earth Resources Survey Aircraft Program, describing aircraft and remote sensors characteristics

19 p3312 A69-36259

Airborne collision avoidance system based on time-frequency techniques for use within ground based control systems, showing air/ground synchronization and collision geometry

19 p3371 A69-36735

Geomagnetic field total vector modulus secular variations from airborne measurements

20 p3522 A69-37061

Airborne imaging radar motion compensation and sensing problems concerning perturbed signal correction, discussing spatial sensitivity measures and constraints

20 p3490 A69-37645

Phase and amplitude stability measurements in airborne pulse Doppler radar

20 p3492 A69-37711

Airborne imaging radar drawbacks and advantages, describing techniques to overcome defects

20 p3493 A69-37735

Solar IR spectrum recorded by LPL B spectrometer on NASA CV-990 aircraft using one micron grating, noting resolution

21 p3800 A69-38683

Gyroplatform to stabilize gravimetric equipment on aircraft, noting channel stabilization by electrohydraulic servomechanism

21 p3723 A69-38885

Thermal design of power amplifier for airborne HF transceiver, discussing component layout, air cooling and materials

22 p3909 A69-39942

Instruments for obtaining auxiliary data in aerial triangulation, describing stratoscope, profile recorder, radar altimeter, horizon camera, etc

22 p3944 A69-40042

Airborne electromagnetic systems measuring complex dielectric constant in earth crust for mineral and water resources exploration [RAES PAPER 8]

22 p3946 A69-40481

Airborne correlation spectrometer for air pollution remote sensing, describing applications [RAES PAPER 7]

22 p3896 A69-40488

Advances in geophysics, Volume 13, covering airborne geophysical methods, ball lightning structure, lidar, middle atmosphere energetics, etc

22 p3940 A69-40534

Tools and equipment for extra- and intravehicular activities in space and on lunar surface [AAS PAPER 69-438]

24 p4319 A69-42802

Heat pipe coupled to air cooled heat exchanger to cool high power airborne radio component by dissipating thermal load into ambient air [ASME PAPER 69-HT-16]

24 p4413 A69-43552

AIRBORNE/SPACEBORNE COMPUTERS

Channel identification coding for data compressors, deriving optimum code word length for bit compression ratio and overflow identification scheme

03 p0391 A69-13219

Onboard SDP-3 computer data system core for IMP spacecraft, considering payload

03 p0400 A69-13243

Navigation computer utilizing current integrators and step motors to record flight path

03 p0404 A69-13431

Aerospace digital computer design, discussing influence of data trends and reliability techniques

03 p0401 A69-14181

Instrument and rounding-off errors of aircraft computers as function of digital network dimensions

04 p0563 A69-14491

Space oriented programming languages and compilers for translating languages, discussing software generating tools under development for space missions

04 p0564 A69-15297

Stored program computer for small scientific spacecraft, noting program and data memory capacities

04 p0569 A69-15472

General purpose satellite computer, discussing onboard processor /OBP/ design, memory, central unit, input/output and software

05 p0725 A69-16710

Onboard digital computer evaluation of trigonometric functions for antenna pointing

07 p1089 A69-19745

Airborne area navigational capability achieved by course line computer processing VOR information

07 p1178 A69-19763

STOL aircraft intercity test flights emphasizing curved ILS approach, using onboard computer for altitude and distance data

08 p1347 A69-20602

Stellar identification system using onboard sighting equipment and computer mathematical methods

08 p1347 A69-20657

OMEGA airborne navigational computers, discussing earth ellipticity and phase variations problems for signal conversion into latitude and longitude coordinates

08 p1347 A69-20778

Collection of papers on applications of microelectronics to aerospace equipment, noting design and reliability of circuits and computers [AGARDOGRAPH-114]

08 p1291 A69-20981

Complex digital computers designed for Apollo spacecraft missions, discussing construction techniques [AGARDOGRAPH-114]

08 p1279 A69-20990

Airborne digital computers for optimization of aircraft control and monitoring functions, discussing avionics and circuit technology

08 p1349 A69-21194

Airborne computerized Omega Navigation set from combination of functional analysis of Airborne Omega Navigation Receiver with capabilities of current airborne computers

08 p1349 A69-21197

OMNITRAC general purpose airborne digital computer with permanent memory of 4096 words of 23 bits, noting modular construction

10 p1659 A69-22845

Optimum microcircuit analog to digital converter for aerospace environment by combining monolithic circuits and thin film resistors

10 p1636 A69-23282

Computer program for onboard medical checkups of spacecraft crews during extended space flights, discussing tests and intervals

10 p1649 A69-23505

Automatic computer processing of physiological data during space flights, discussing choice of computers and computer programs

10 p1649 A69-23509

Airborne computer controlled data acquisition system for real time fault detection and isolation in avionics

11 p1843 A69-25082

Computer design for booster/satellite control, discussing systems reliability, low power and tradeoffs

11 p1843 A69-25320

Apollo mission simulation, discussing Command Module Simulator /CMS/, onboard computer system and dynamic visual presentation via infinity-optics display [SMPTE PAPER 105-74]

12 p2055 A69-25768

Digital computer redundancy, analyzing triple modular redundancy in Saturn vehicles and quad design in primary processor and data storage for OAO

12 p2034 A69-26567

Air lane longitudinal separation distance reduction for accommodating increased traffic using airborne computers for single file system

15 p2651 A69-30293

Large scale integration /LSI/ and medium scale integration /MSI/ circuits evolution and requirements, noting onboard computers and space applications

15 p2625 A69-30825

Airborne digital computer and display devices role in navigation management, discussing data processing and hybrid navigation systems

16 p2809 A69-32260

Astronomical satellite direct digital attitude control using digital computer between sensor and actuator to achieve optimal filtering and stabilization

17 p3049 A69-33244

Flight command computer for V/STOL aircraft, discussing design concepts, operating modes, displays, etc [AHS PAPER 313]

17 p3001 A69-33543

TC-2 general purpose digital avionics computer in A-7D/E avionics system performing tasks in weapon delivery, navigation and guidance, display updating, self testing, etc

17 p2933 A69-34059

AN/ASN-24/V/ general purpose digital computer deployed in large worldwide jet transport fleet

17 p2933 A69-34061

Airborne data processing systems reliability, discussing software and hardware reconfiguration techniques and man-machine interface problems

17 p2977 A69-34072

Onboard hybrid computer for helicopter fire control system, generating turret pointing angles and corrections

17 p2934 A69-34074

VLF wave propagation phase velocity prediction for airborne Omega computer, using scatter model based on abnormal ionosphere

17 p3002 A69-34077

Doppler inertial system with remote attitude capability, detailing sensor operation by airborne computers

17 p3002 A69-34097

Tacan navigation system developments including data transmission, links to airborne computers and air traffic control transponders

17 p3003 A69-34101

Vertical path guidance computer, noting applications to feeder airlines and air taxi services operating from airports with VOR/TACAN only

17 p3003 A69-34104

Multisensor data processing technique for fail operational landing commands, using real time error analysis inherent in Kalman filter

17 p3003 A69-34106

Post Attack Command and Control System - Airborne Data Automation /PACCS-ADA/, describing components, operation, etc

17 p2977 A69-34116

Electromagnetic compatibility /EMC/ hardware design, discussing NDC 1060 computer configuration, requirements and service environment

17 p2947 A69-34136

Avionics of Naval E-2C airborne sentry and command and control system, discussing digital computer, search radar, etc

18 p3108 A69-34811

Airborne digital computers techniques in avionics stressing memory design, packaging, reliability and maintainability

18 p3106 A69-34846

Navigational equations solution by airborne analog computer techniques, describing electronic, electromechanical, digital reset and mechanical integrations with respect to time

18 p3107 A69-34847

Air data system consisting of aerodynamic and thermodynamic sensors and computer calculating flight parameters for automatic flight control

18 p3169 A69-34854

Aircraft terrain-following algorithm for use with airborne general purpose digital computer, discussing simulation techniques and test results [AIAA PAPER 69-817]

19 p3366 A69-35625

Real time terrain following computer for C-5A transport, discussing automatic throttle system and speed bleedoff utilization [AIAA PAPER 69-797]

19 p3367 A69-35633

Masking and standby redundancy approach to fault tolerance in space navigation computers with illustrations, discussing automatic maintenance

19 p3279 A69-35798

Strapdown electrostatic aerospace navigator /SEAN/ using electrostatically suspended gyros /ESG/ for inertial reference, including drift and computer tests

19 p3369 A69-35802

IMP-1 experiment, describing design and applications of SDP-3 computer

19 p3280 A69-36265

Onboard data processing and acquisition for aircraft and spacecraft problems based on integrated data management approach, discussing readout and display

19 p3280 A69-36315

Onboard computers on rockets and satellites - Conference, Paris, December 1968

20 p3498 A69-37377

Binary increment and residual class notation techniques for onboard spacecraft computer arithmetic

20 p3499 A69-37378

Onboard satellite computer design and programming language criteria, considering cost, reliability, weight, volume and energy requirements

20 p3499 A69-37379

Missile-borne and satellite-borne computers analogies, comparing design, operational conditions and functional requirements

20 p3500 A69-37380

Computer based onboard satellite PCM telemetry, showing improved adaptability, size and cost reduction

20 p3500 A69-37382

Spacecraft onboard processor for digital filtration and data compression, discussing prototype design, construction, sample memory, weight memory, arithmetic unit and programmer

20 p3500 A69-37383

Onboard spacecraft computer design, programming and operation based on dual bussing system

20 p3500 A69-37384

SDP-3-A general purpose stored program computer designed for small scientific spacecraft onboard data system, noting computerized simulation

20 p3500 A69-37385

Swedish satellite onboard computer for particle experiment, discussing functional design based on buffer unit for experimental data

20 p3501 A69-37386

Onboard data processor design for Swedish satellite to study spatial and temporal variations of auroral particles

20 p3501 A69-37387

Onboard satellite computer for project Roseau experiments for magnetosphere study, discussing program switches, monitors and data compilers

20 p3501 A69-37388

Roseau satellite onboard computer systems design, emphasizing simulator and assembly programs for real time operation verification

20 p3501 A69-37389

Data handling system design for large astronomical satellite /LAS/, discussing spacecraft configuration, basic aims, program functions, subsystems, signal flow, flight repair, etc

20 p3501 A69-37390

Microminiature Elliott MCS 920 M digital computer for inertial guidance of CECLES-ELDO launcher, discussing construction, code, interrupt, guidance system and functions

20 p3501 A69-37391

Microminaturized digital computers for missiles and aircraft, discussing characteristics, environmental conditions and transformation possibility for use in satellites

20 p3502 A69-37392

Spacecraft discrete automatic control system computerized simulation, discussing logic elements, applications to design, etc

20 p3502 A69-37393

Onboard computer and environment simulation for real time programs development, discussing instructions analysis, variables extraction and values and peripheral components

20 p3502 A69-37395

Roseau onboard computer simulation by IBM 360, discussing use of assembly language and FORTRAN

20 p3502 A69-37396

Symbolic language and assembly program for Roseau computer, discussing mnemonic code and program operation

20 p3502 A69-37397

Onboard navigation digital computer simulation to verify calculation principle and logic units during design and construction

20 p3502 A69-37398

Satellite onboard computers automatic reconfiguration and self repair

20 p3503 A69-37399

Onboard computer reliability, discussing missile computers and maintenance procedures

20 p3503 A69-37400

Wire type memory model for satellite onboard computers, discussing nondestructive readout, power requirements, marginal temperatures, material and volume

20 p3503 A69-37403

Digital autopilots for Apollo CSM and CSM/LM vehicles thrust vector control, describing modifications of onboard computers and programs

[AIAA PAPER 69-847] 21 p3762 A69-39377

Titan 3C launch vehicle digital flight control system using flight equations time-shared with guidance equations

[AIAA PAPER 69-878] 21 p3824 A69-39404

Strapdown gimballess inertial measurement unit with general purpose computer, describing hardware, software and test results

[AIAA PAPER 69-850] 21 p3765 A69-39426

Spacecraft atmospheric entry descent trajectory optimization by stochastic procedure, requiring onboard digital computer to realize optimal algorithms

21 p3767 A69-39648

Onboard processor servicing spacecraft sensors, programmable from ground, discussing functions and applications

22 p3903 A69-39921

Computer controlled TV cloud recognition equipment on meteorological satellites, discussing multistep process of automatic perspective distortion corrections by onboard computer

22 p3977 A69-40004

Programmatic constraints on onboard processing of data collected by payload sensors

[AIAA PAPER 69-942] 22 p3904 A69-40325

Centaur computer assimilating Centaur vehicle hardware functions performed by digital computer, discussing modules, flight control system, cost reduction, etc

[AIAA PAPER 69-943] 22 p3904 A69-40326

Kalman filter simulation for estimating aircraft position and velocity from airborne digital computer data in zero-zero landing system

[AIAA PAPER 69-944] 22 p3978 A69-40327

Spacecraft onboard computer for prelaunch targeting constants verification through checksum equation and error detection scheme, using generated number sequences

[AIAA PAPER 69-946] 22 p3974 A69-40329

Programming and checkout of computer for Eldo inertial guidance system, including flight simulation and autopilot tests

[AIAA PAPER 69-961] 22 p3978 A69-40342

LSI oriented cellular array implementation of complex arithmetic functions for aerospace computers, describing techniques of automatic switching-in of spare modules for failures

[AIAA PAPER 69-964] 22 p3906 A69-40345

Self testing and repairing /STAR/ aerospace computer for automatic maintenance of unmanned interplanetary spacecraft

[AIAA PAPER 69-966] 22 p3906 A69-40347

Computerized simulation for performance evaluation of System/4 Pi-EP multiprocessor for use in aerospace vehicle

22 p3907 A69-40353

Digital computer system for navigation, landing, fire control, monitoring and checkout aboard Saab 37 Viggen aircraft handling attack, reconnaissance and fighter missions

[AIAA PAPER 69-985] 22 p3908 A69-40365

Aircraft navigation system requiring computer and display for approach guidance to circular orbit over fixed ground area

[AIAA PAPER 69-986] 22 p3978 A69-40366

Booster digital guidance and control system, discussing communication device providing data transfer between airborne digital computer and control device

[AIAA PAPER 69-988] 22 p3978 A69-40368

Aircraft digital control hardware and applications including airborne computer proper, distributed systems, loop control, system integrity, etc

[RAES PAPER 4] 22 p3908 A69-40485

Programmable data handling and telemetry systems for scientific satellites, noting system checkout, spacecraft integration, software and ground data processing

23 p4132 A69-41735

Spaceborne stored program computer design for OAO-C, noting auxiliary command storage, spacecraft monitoring and malfunction reporting, etc

23 p4132 A69-41736

SDP-3 small serial computer for engineering experiment on IMP spacecraft, discussing design modifications to improve performance

23 p4133 A69-41737

Spacecraft onboard data handling system with MSI complementary MOS arrays, describing various components

23 p4133 A69-41739

Flexible format generator for manned spacecraft data management system designed with memory for data sampling formats, emphasizing software counters and power strobing

23 p4133 A69-41762

Spacecraft central data system for deep space solar probe data management

24 p4284 A69-42621

Digital computers effect on aircraft automatic power unit controls, discussing safety, reliability, self monitoring and redundant computer systems

24 p4253 A69-43113

On-board digital filtering applied to spectral estimation and data compression, discussing theory, techniques, computerized implementation and prototype design

[AIAA PAPER 69-969] 24 p4285 A69-43510

F-111D computer complex to provide selective functional redundancy and flexibility to accommodate mechanization changes

[AIAA PAPER 68-837] 24 p4285 A69-43719

AIRBORNE TERRAIN ANALYSIS U TERRAIN ANALYSIS

AIRCRAFT ACCIDENT INVESTIGATION

Aircraft accidents, discussing complexity analysis, wreckage, anomalies and investigator role

01 p0009 A69-10351

Airplane explosion evidence, discussing examination of plastic seat cushion surface and metallic fragments

02 p0193 A69-12688

Explosive devices to sabotage aircraft in flight, discussing evidence of sabotage in aircraft wreckage and detection of explosives before loading

04 p0549 A69-14943

Aircraft in-flight collision, discussing difficulties and procedures of medical board of inquiry

03 p0715 A69-16628

German Air Force Center of Aeronautical Medicine, discussing organization, work projects and proposed mutual cooperation with French counterpart

05 p0850 A69-16629

Accident prevention and investigation procedures of National Transportation Safety Board /NTSB/, discussing management patterns

06 p1041 A69-16842

USAF accident information, reporting and retrieving, describing Directorate of Aerospace Safety structure and functioning

06 p1041 A69-16843

Aircraft accident prevention and damage control

06 p0878 A69-16961

Commercial jet safety, analyzing aircraft accidents and accident rates

06 p0868 A69-17829

Fragments and markings produced on aircraft aluminum by explosion as means of detecting sabotage in crashes

06 p0868 A69-17833

Crash protection of flight data recorders, aircraft accident investigation, systems analysis, environment and enclosures

10 p1691 A69-23248

Medical investigation of aviation accidents - Conference, Washington, D.C., September 1966

12 p2021 A69-25837

Pathology and aircraft accident causes noting environmental factors, injuries and preexisting diseases

12 p2021 A69-25838

Aeromedical investigation of civil aircraft accidents by National Transportation Safety Board, noting post-mortem legal aspects and need for human factors investigation

12 p2021 A69-25840

Aviation pathology in aircraft accident investigation of accident survivability features and accident precipitation factors, noting cockpit structures and protective equipment

12 p2021 A69-25841

Aircraft accident toxicology, guidelines for collection, preservation, shipment and analysis of specimens and test result interpretation

12 p2022 A69-25842

FAA aircraft accident human factors investigation plan, discussing on-call pathologists, site organization and investigation, autopsy and result reporting

12 p2022 A69-25843

Civil aircraft accident investigation, discussing organization and procedures of Bureau of Aviation Safety of National Transportation Safety Board

12 p2191 A69-25844

Aircraft accident investigation procedures in Canada for routine/major accidents and public inquiries, outlining organization

13 p2201 A69-27540

Accident record of general aviation pilots over age 60 /1965/

14 p2541 A69-29308

Jet transport operation and accidents statistics, analyzing world data, accident causes and safety gap

22 p4054 A69-41130

Refused takeoff as critical maneuver in ground operations during jet transport accident investigation, emphasizing pilot anticipation of conditions and preplanning actions

[SAE PAPER 690378] 23 p4062 A69-41654

AIRCRAFT ACCIDENTS

Flight accident rate of U.S. physician pilots noting relation to number of takeoffs and landings

01 p0022 A69-11344

Alcohol role in pilot victims of aircraft accidents

01 p0022 A69-11345

Manufacturer and assembler liability for injuries caused by design defects resulting from engineering errors in aircraft products

01 p0180 A69-11392

Litigation for aircraft accidents, discussing legal and fiscal aspects and deterrent effect contributing to aviation safety

01 p0181 A69-11393

Occupant restraint systems for automobiles, aircraft and manned space vehicles, discussing cost, practicability, ease of use, acceptability and possible improvements

03 p0380 A69-13459

Coronary atherosclerosis in military pilot fatalities of aviation accidents, demonstrating irrelevance of amount of flying time and type of aircraft

03 p0376 A69-14080

Ideal safety system for accident prevention, considering foreseeable and unforeseeable aspects to eliminate individual or collective human error

06 p1040 A69-16836

Air safety, emphasizing misunderstandings or unresolved problems in accident prevention connected with law/safety interface

06 p1040 A69-16837

Aviation insurance function in providing risk capital in expanding aviation enterprises at fair and equitable rates, discussing air safety

06 p1041 A69-16845

Federal government legal liability for commercial air safety in aircraft accident suits

06 p1042 A69-16848

Aircraft parts manufacturer liability in air accidents, discussing litigation and warranties

06 p1042 A69-16849

Psychophysiologic factors in USAF aircraft mishaps involving ground egress

06 p0878 A69-16959

Airline pilot incapacitation by death or terminal collapse due to organic causes while on duty, noting incidence and resulting accidents

06 p0883 A69-17849

Characteristics of accident experienced pilots based on personality and psychological tests

06 p0876 A69-18033

Climatic factors affecting pilot vision and contributing to misjudgement during landing procedures, noting effect of downward slope in runway approach

06 p0884 A69-18036

System reliability influence on air accidents resulting from pilot errors, unforeseen obstacles, breakdowns and atmospheric effects

07 p1054 A69-19288

Spatial disorientation as factor in accidents in operational command, noting relatively high experience level of involved pilots

07 p1072 A69-19431

General aviation accidents and hazards presented by drugs, ethyl alcohol, pesticides and carbon monoxide

07 p1068 A69-19435

Passenger and crew members escape from aircraft following water accidents, discussing ditching, evacuation, survival and rescue facilities

08 p1254 A69-20453

Reaction vs time relations in accidental impact of large commercial aircraft against rigid surface, detailing stress analysis of nuclear power plants structures

09 p1613 A69-21677

Epidemiology of aerial application accidents analyzed in groups of high and low wing monoplanes, biplanes and helicopters

09 p1447 A69-22554

Air carrier liability for nuclear weapons damage, discussing international agreements

11 p2003 A69-24260

Human survivability in severe light plane slow speed accidents due to stalling, turning, takeoff or approach, discussing crash load vectors and magnitude

[SAE PAPER 690336] 11 p1822 A69-24492

Business aircraft injury protection and impact survival design considerations, stressing upper torso restraint installations

[SAE PAPER 690335] 11 p1829 A69-24493

Aircraft electronic proximity warning devices applications, discussing compatibility in ATA collision avoidance system

[SAE PAPER 690340] 11 p1914 A69-24496

Large and small fixed wing airplane crashworthiness requirements, noting occupant protection in survivable crash environment and rapid safe evacuation

[SAE PAPER 690321] 11 p2004 A69-24509

Airborne collision avoidance system /CAS/ performance and operational requirements

11 p1914 A69-25430

Pathology and aircraft accident causes noting environmental factors, injuries and preexisting diseases

12 p2021 A69-25838

Identifying human bodies torn apart or crushed in aircraft accidents, noting example of jet passenger plane crash

12 p2021 A69-25839

Preventive medicine in handling airline pilots to avoid accidents attributable to disability and death from natural causes

12 p2024 A69-26559

Air Canada flight safety system including company philosophy, safety activities, incident and accident handling and information schemes

13 p2201 A69-27541

Psychophysiologic factors in USAF aircraft mishaps involving ground egress

15 p2558 A69-30462

Crash helmet impact protection capability, considering helmet construction

17 p2913 A69-33169

Airworthiness objectives for civil powered lift aircraft, discussing safety, traffic growth and accident rates

17 p2897 A69-33211

Onboard flight data recorder as integrated system for investigating aircraft accidents, describing German LEADS 200 model

17 p2974 A69-33429

Light aircraft emergency downed position indicators installation program, discussing transmitter minimum performance standards, listening watch insurance, etc.

17 p2931 A69-34102

Aviation health service for flight safety problems with emphasis on accident prevention, emphasizing physician role in man-machine relationship of personnel surveillance

18 p3098 A69-35305

Annual general aviation aircraft accident rate variation related to annual variations in pilot flight training activity

19 p3262 A69-36448

Engine powered lift civil aircraft certification factors taking into account traffic growth, accident rates, learning rate and acceptable safety level

22 p3862 A69-39962

Statistics of jet aircraft accidents including worldwide data and safety trends

22 p4054 A69-41128

Background flying experience of tactical fighter aircraft pilots accident potential, comparing accident and nonaccident groups

23 p4103 A69-41685

Aviation accidents medical aspects, discussing accident causes and remedies, training and regulation proposals, etc.

23 p4106 A69-41792

Annual general aviation accident rate prediction from annual flight training variations

23 p4062 A69-41793

Passenger safety during aircraft accidents in Arctic, discussing survival equipment and methods

23 p4107 A69-41811

Medical aid organization after aircraft accidents at airports, examining injury probability by statistical methods

23 p4107 A69-41812

Medical aid, equipment and organization for injured passengers in large aircraft accidents at airports and immediate neighborhood

24 p4270 A69-42602

In-flight medical disorders sustained by crew members of various aircraft in French Air Force correlated with aircraft accidents, flight experience and age

24 p4277 A69-43383

AIRCRAFT ANTENNAS

Current antenna system technology, particularly airborne and spaceborne applications

04 p0576 A69-14767

Secondary radar equipment functions and features forming IFF-SIF chain, discussing displacement controller and minor lobe suppression functions technical problems

05 p0721 A69-16591

Telemetry and tracking antenna feed system in EC-135N instrumented aircraft for Apollo moon project

07 p1105 A69-19110

Aircraft radomes lightning protection, discussing evaluation by experimental methods and simulation

07 p1142 A69-19535

X band eight element matrix array construction, producing antenna suitable for aircraft

08 p1288 A69-20966

Self focusing aerial antenna arrays with full angular coverage for two way airborne communications

08 p1289 A69-20971

Siting two antennas for combining signals to obtain all-around coverage in aircraft communication

08 p1289 A69-20972

Apollo Range Instrumented Aircraft /ARIA/ telemetry antenna system for trajectory tracking, discussing computer program for simulation of behavior

11 p1840 A69-25309

Signal reflection elimination from underlying surface during aircraft flights by using two antenna array with identical radiation patterns

15 p2567 A69-30345

Mathematical model for aircraft antenna to antenna electromagnetic interference analysis, emphasizing techniques for propagation paths and shading factors

17 p2943 A69-34134

Aircraft antenna-coupled electromagnetic interference analysis, describing mathematical model for frequency coincidence, power levels and receiver thresholds

23 p4141 A69-42224

AIRCRAFT APPROACH INSTRUMENTS

U APPROACH INDICATORS

AIRCRAFT APPROACH SPACING

Satellite monitoring application to air traffic control in parallel track system, discussing lateral and longitudinal separation control

02 p0277 A69-11591

Aircraft separation standards, considering separate space for VTOL in automated high density airways system

[AIAA PAPER 69-210] 07 p1178 A69-19579

Monograph on mathematical model for aircraft separation in air traffic safety control, analyzing aircraft motions and collision avoidance

08 p1347 A69-20712

Long range subsonic transport navigation systems accounting for reductions in horizontal separation on high density oceanic routes

08 p1348 A69-21062

Air lane longitudinal separation distance reduction for accommodating increased traffic using airborne computers for single file system

15 p2651 A69-30293

Airport capacity increase in terms of operations delay, discussing computer aided approach systems and additional runways

22 p3925 A69-40429

STOL aircraft characteristics emphasizing ground and air space operations requirements and noise levels

22 p3863 A69-40430

AIRCRAFT BASES

U MILITARY AIR FACILITIES

AIRCRAFT BRAKES

NT LEADING EDGE SLATS

NT TRAILING-EDGE FLAPS

NT WING FLAPS

Soviet book on turbojet engine reverse thrust systems and systems for deflection of jet stream covering aircraft braking efficiency

04 p0647 A69-14934

HF brake excited vibration damping in aircraft landing gear, obtaining closed form solution

[AIAA PAPER 68-312] 11 p1823 A69-25370

Beryllium brake disks use on C-5A aircraft, comparing size, weight and peak temperature with steel structure

15 p2639 A69-3059

Sliding friction and wear properties of metal ceramic composites applied to aircraft brakes

17 p2987 A69-33375

Full circle Be brake disks in C-5 aircraft, discussing properties at elevated temperature and fastening of friction lining

18 p3095 A69-35424

Aircraft braking, discussing systems, brakes, tires, runway interface, heat sink materials, friction measurements, skid control, cooling and recovery equipment

[SAE PAPER 690376] 23 p4063 A69-41671

AIRCRAFT BREATHING APPARATUS

U BREATHING APPARATUS

AIRCRAFT CARRIERS

A-7 Corsair 2 introduction to fleet and combat operations in Southeast Asia

06 p0867 A69-17660

Aircraft carrier landing system performance, variations in pilot experience, aircraft types and environment, emphasizing night carrier recovery

17 p2916 A69-34012

Deterministic and statistical prediction techniques for aircraft carrier motions at sea for application to aircraft landing operations

[AIAA PAPER 68-123] 17 p2902 A69-34014

Landing guidance devices under difficult weather, discussing landing mechanics for land and carrier based aircraft
18 p3170 A69-34857

Wave-off Decision Device to define potential aircraft carrier-ramp-strike wave-off criteria for aircraft approach
20 p3573 A69-37161

Aircraft characteristics influence on longitudinal handling qualities during carrier approach from visual landings on moving base simulator
[AIAA PAPER 69-894] 21 p3648 A69-39418

Longitudinal flying qualities evaluation by pilots in carrier approach flight simulation, describing experiment apparatus, procedures and results
[AIAA PAPER 69-895] 21 p3648 A69-39419

Aircraft flying qualities research program, discussing Navy test pilot evaluations and longitudinal handling characteristics for simulated carrier landing task
[AIAA PAPER 69-897] 21 p3648 A69-39421

AIRCRAFT COMMUNICATION

Ground-air-ground communications system using pseudonoise through satellite and central ground based control facility, discussing system advantages, SNR and modulation schemes
01 p0033 A69-11009

Aeronautical satellite system to relay communications at VHF or L band frequencies from aircraft flying over oceanic routes
03 p0464 A69-13235

International satellite system for commercial aircraft communications and air traffic control
03 p0464 A69-13238

Telecommunications network for air traffic in Central America to attain higher degree of reliability
03 p0399 A69-14182

Aeronautical service satellites, considering communications, surveillance for navigation, traffic control, collision avoidance and search and rescue, weather and border control functions
04 p0666 A69-15295

Aeronautical satellite communications, discussing results with NASA ATS-1 satellite
05 p0790 A69-16721

Digital communications between aircraft and flow control computers on ground to avoid runway saturation and automating routing functions
05 p0721 A69-16722

Aircraft Searchmeter, discussing device fitted to locate emergency radio beacon signal
06 p0878 A69-16963

Aircraft communications, navigation and identification, discussing role of satellites, common waveform modulation and electronics technology
07 p1085 A69-19178

Siting two antennas for combining signals to obtain all-around coverage in aircraft communication
08 p1289 A69-20972

Satellite networks for air traffic control and aircraft communications in North Atlantic
13 p2296 A69-27831

Frequency hopping technique applied to multiple access air-to-air/ground communication for tactical fighters, noting additive recognition
17 p2931 A69-34117

Worldwide communication system via synchronous satellites for aeronautical, maritime and land mobile services
23 p4114 A69-41355

AIRCRAFT COMPARTMENTS

Aircraft cockpit and surface temperatures after solar radiation exposure in desert, showing inadequacies of meteorological data for thermal stress predictions
03 p0381 A69-14077

Synthesis of simulated aircraft cabin pure fluidic temperature control system
[ASME PAPER 68-WA/FE-30] 05 p0705 A69-16103

Convective heat exchange coefficients for human organism in aircraft surroundings under homogeneous temperature conditions, deriving acclimatization equations
[AGARDOGRAPH-111] 08 p1266 A69-20673

Bleed air environmental system utilizing air to jet pumps as flow multipliers for cabin pressurization air supply in commercial turbo-prop aircraft
[SAE PAPER 690331] 11 p1941 A69-24494

Pressurized Navajo aircraft environmental system, discussing ventilation, pressurization, heating and air cooling systems
[SAE PAPER 690330] 11 p1829 A69-24504

Passenger cabin windows on Convair liner type aircraft, describing construction, installation, strength, etc
17 p3061 A69-33667

Flight compartment and cabin layout of Skyvan 3 designed as freighter with passenger capability
17 p2903 A69-34195

Aircraft interior conversion for passenger or cargo service, discussing convertible aircraft and quick change concepts
[AIAA PAPER 69-784] 19 p3244 A69-35642

Manual extinguisher using bromochlorodifluoromethane (BCF) for aircraft cabin fire protection, discussing design and low toxicity, corrosiveness and cost
19 p3256 A69-36863

DC 3 tail wheeled single skin piston aircraft conversion into first class luxury passenger aircraft for short haul service
20 p3460 A69-36918

Technical problems in converting long service civil aircraft to obtain more volume, easier loading access or greater flexibility
20 p3461 A69-36919

Decompression study simulating supersonic aircraft cabin small structural failure at 60,000 ft, using monkeys as subjects
21 p3665 A69-39171

Autotransformer with static tap changer to provide varying power levels for controlled gradual heating of aircraft window to avoid thermal shock
22 p3869 A69-40414

Aircraft passenger cabins pressure safety limits estimating factors, discussing human respiratory gas exchange mechanism, pressure drop and smoking effects, etc
24 p4269 A69-43411

AIRCRAFT CONFIGURATIONS

Radar cross section of missile and aircraft configurations, comparing theoretical and experimental results for Convair 990 static test model
03 p0384 A69-12911

X V-4B Hummingbird 2, noting modification from XB-4A two engine ejector augmentation to six engine direct and diverted thrust configuration
03 p0366 A69-13112

Helicopter role, development and configurations, noting V/STOL competition impetus
05 p0700 A69-15547

Helicopter, compounds and composite aircraft design trends
05 p0700 A69-15548

Compound rotorcraft VTOL vehicle current programs
05 p0703 A69-16394

Lockheed 1011 Tristar with three turbofan engines for large capacity medium range service, noting configuration, aerodynamics, structure and cutaway drawings
08 p1255 A69-21143

Book on aircraft stability and control covering conventional, canard, variable sweep, slender delta wing, helicopter and other VTOL aircraft
11 p1821 A69-24370

Store separation from high speed aircraft via wind tunnel test techniques, discussing drop model, flowfield survey and captive trajectory testing
[AIAA PAPER 68-361] 11 p1819 A69-25373

Book on experimental aerodynamics covering subsonic and supersonic wind tunnels, wall measurements, airfoils, aerodynamic characteristics of propellers, fixed and rotary wing aircraft
17 p2891 A69-33318

Folding propotor V/STOL aircraft characteristics, showing configuration effects on performance and optimization of rotor, wing and propulsion systems
[AHS PAPER 302] 17 p2901 A69-33547

Weights study of V/STOL aircraft types for similar mission and payload requirements with different propulsion systems and flight profiles
[SAWE PAPER 783] 18 p3091 A69-34869

Gross weight and aircraft size estimates for configuration design of fighter aircraft
[SAWE PAPER 760] 18 p3220 A69-34880

Circulation control by blowing and application to stopped rotor aircraft, discussing data from model scale blade experiments
19 p3248 A69-36767

VTOL aircraft lift systems, propulsion, airframes, dynamic and aerodynamic characteristics, control systems, missions, safety, configurations and environment
[AIAA PAPER 68-977] 20 p3461 A69-37149

Schweikhard method for measuring changes in lift, drag and pitching moment of fixed wing aircraft as function of distance from ground
20 p3462 A69-37423

Gust absorber system configuration flight tests and analysis, emphasizing application to delta wing aircraft
[ONERA-TP-698] 20 p3462 A69-37753

Sonic boom signatures produced by diverse SST configurations during cruise, indicating aircraft length as overpressure limit factor
24 p4253 A69-43661

AIRCRAFT CONTROL

NT HELICOPTER CONTROL

Aircraft cockpit displays design for flight control and navigation, discussing integration, pictorial realism, moving part, pursuit tracking, frequency separation and optimum scaling
02 p0203 A69-12213

Advance indication based on extrapolation for aiding manual attitude control of VTOL aircraft in hovering flight, noting results on flight simulator
03 p0366 A69-13645

Differential gearing of aileron movements to reduce control forces in aircraft
03 p0367 A69-13786

Avionics, discussing use of electronics in control of aerospace vehicles
03 p0431 A69-14085

Two term and three term controllers for hovering rigs and VTOL aircraft, comparing stability, transient response and control force
04 p0547 A69-14814

Servolements and control methods for V/STOL aircraft, including lift and propulsion throttle configurations
04 p0547 A69-14815

Open class type glider design, discussing structural materials, dimensions and control
05 p0702 A69-16027

Optimum evasion tactics for aircraft pursued by missile, using steepest ascent method for maximization of distance of closest approach
06 p0866 A69-17401

Flight evaluation of direct lift control on DC-8 super 63 jet transport
06 p0867 A69-17666

Aircraft and spacecraft guidance and control technology including computers, optimum and Kalman filtering, strapdown inertial navigation, sensors and test pads
[AIAA PAPER 69-72] 06 p0956 A69-18136

Aircraft and spacecraft guidance and control technology including computers, optimum and Kalman filtering, strapdown inertial navigation, sensors and test pads
[AIAA PAPER 69-72] 07 p1177 A69-19179

Subjective pilot ratings based on Cooper scale compared with aircraft handling criterion based on Shannon information theory, discussing pilot error and accident probability
08 p1254 A69-20458

Control technique to make aircraft insensitive to parameter variations and to achieve desired response to control
08 p1255 A69-20719

Aircraft electrohydraulic primary control systems including electrical signal transmission, engine failure detection, signal structure and digital systems
08 p1347 A69-20872

Aircraft modal control systems synthesis to improve response characteristics by altering pairs of complex conjugate and real eigenvalues simultaneously
09 p1435 A69-22779

Manual control displays for instrument landing approach of large subsonic jet transport, evaluating closed loop system performance and scanning workload
10 p1650 A69-23877

Book on aircraft stability and control covering conventional, canard, variable sweep, slender delta wing, helicopter and other VTOL aircraft
11 p1821 A69-24370

Monograph on flight mechanics and control technology of low flight vehicles at high flight velocities, discussing altitude control design, power spectra, etc
11 p1823 A69-24638

Visual simulation for critical maneuvers of aircraft takeoff and landing, noting method based on limited corridor simulation and maneuver freedom
[AIAA PAPER 68-255] 11 p1866 A69-25376

VTOL aircraft flight control systems, considering computerization and automation approach with human pilot serving as monitor and emergency system
11 p1823 A69-25387

Pictorial display techniques aiding air traffic and aircraft control, discussing projection and directly viewed display
13 p2296 A69-27335

Trident 2E aircraft, discussing fuel system, electric power installation, hydraulic system, air conditioning, pressurization and flying controls
13 p2202 A69-27973

Ballistic deviations limits for aircraft vertical gyroscope taking into account aircraft vertical movements, using compensation in system

14 p2445 A69-28899

Runway roughness induced vibrations in highly flexible aircraft, noting effect on pilot control of aircraft and airframe structure

14 p2392 A69-29504

X-22A VSTOL aircraft testing, discussing control sensitivity, dutch roll mode period and performance test planning based on characteristics prediction

14 p2392 A69-29699

Digital computerized analysis and characteristics of variable stability aircraft, examining digital control system

15 p2549 A69-30229

Aircraft constant altitude-pressure flight navigation attained using Bellamy formula and loxodromic route for drift compensation

15 p2651 A69-30294

Motion equations for dynamics of aircraft control surface controlled by autopilot with rigid feedback

16 p2809 A69-32134

Color signal light gun for aircraft control at airport towers, noting pilot tests for familiarity with signal code

17 p2914 A69-33185

Book on flight mechanics of aircraft and missiles covering mass, propulsion and aerodynamic forces, TOL problems, optimization problems, etc

17 p2898 A69-33319

Lifting rotor dynamics and undesirable characteristics reduction, discussing feedback control systems for pitch and roll

[AHS PAPER 340A]

17 p2899 A69-33509

Analog correction method to suppress pilot maneuver effects during analysis of aircraft accelerations induced by atmospheric turbulence

[ICAS PAPER 68-39]

17 p2901 A69-33590

VTOL variable stability system /VSS/ for XV-4B lift jet for flight control and handling verification

17 p2902 A69-34066

Soviet book on practical aerodynamics of An-2 aircraft covering aerodynamic characteristics, equilibrium, stability and control for various flight conditions, including icing

18 p3090 A69-34340

Parametric approach for weight estimation of surface control systems of transonic and supersonic combat and subsonic transport aircraft

[SAWE PAPER 812]

18 p3221 A69-34898

Additional yawing by gyroscopic moment of power plant and effect on aircraft maneuver during curvilinear flight, noting compensation by automatic control

18 p3092 A69-34973

Aircraft terrain-following algorithm for use with airborne general purpose digital computer, discussing simulation techniques and test results

[AIAA PAPER 69-817]

19 p3366 A69-35625

Fighter aircraft higher order control system dynamics effects on longitudinal handling qualities evaluated by in-flight simulator for role of pilot induced oscillations tendencies

[AIAA PAPER 69-768]

19 p3245 A69-35655

VTOL aircraft lift systems, propulsion, airframes, dynamic and aerodynamic characteristics, control systems, missions, safety, configurations and environment

[AIAA PAPER 68-977]

20 p3461 A69-37149

Book on synchros application and design covering telemetry, torque and control systems, synchro circuits, resolvers as computer elements, etc

21 p3681 A69-38450

Analytical and graphical methods for characteristics of optima produced by quadratic performance index for VTOL prefilter model reference attitude control system

[AIAA PAPER 69-884]

21 p3764 A69-39411

Longitudinal flying qualities of aircraft, comparing attitude and altitude control data

[AIAA PAPER 69-898]

21 p3648 A69-39422

Adaptive control system for aerospace vehicles, describing model reference network for control parameter determination

21 p3688 A69-39857

Clear air turbulence /CAT/ causes effect on aircraft control, discussing monitoring device and aircraft position maintenance under CAT conditions

22 p3977 A69-40007

Aircraft digital control hardware and applications including airborne computer proper, distributed systems, loop control, system integrity, etc

[RAES PAPER 4]

22 p3908 A69-40485

Parameter optimization technique for aircraft control equipment design

22 p3919 A69-41051

Flight simulation requirements for reducing aircraft training flight time, discussing control system and instrument motion characteristics, visual simulation and critical maneuvers motion

22 p3928 A69-41139

Forces on aircraft during ground roll with slick runway surface and cross wind for deceleration and control on ground

[SAE PAPER 690375]

23 p4062 A69-41652

JT9D engine fuel and vane control systems for Boeing 747, noting computing system positioning of throttle valve for fuel flow control

[SAE PAPER 690405]

23 p4201 A69-41658

Manual vehicle control analysis based on feedback systems analysis and mathematical models for human operators engaged in control tasks

24 p4274 A69-43021

Optimal gain theory for input vector and application to regulator problem describing aircraft dynamics

24 p4293 A69-43305

AIRCRAFT DESIGN NT HELICOPTER DESIGN

Pneumatics for aircraft systems integration, proposing engine bleed air use for high power short term duties, heat recovery from cabin air conditioning, etc

01 p0012 A69-10594

Balsa wood laminates as aircraft structural material noting thermal properties, fire and fatigue resistance, weight savings, etc

01 p0101 A69-10595

Boeing 747 characteristics for passenger and cargo service noting economic gain, operational performance, control cabin, engine, etc

[AIAA PAPER 67-397]

01 p0010 A69-10636

Cost prediction equations used in perturbed environment of learning curves subjected to design change in industry

01 p0180 A69-10652

Structural testing in aircraft design, discussing costs, environmental conditions, test rigs and apparatus

01 p0170 A69-10864

Reliability and maintenance economics for jet transport operations of 1980s, discussing Aircraft Integrated Data System /AIDS/ sensors design

[AIAA PAPER 68-207]

01 p0011 A69-11022

Atmospheric turbulence power spectra for design criteria of future low altitude aircraft from LO-LOCAT program, analyzing turbulence scale lengths

[AIAA PAPER 68-216]

01 p0011 A69-11023

Emergency oxygen supply systems for aircraft, discussing simplicity, standardization, safety, reliability and maintenance

[AIAA PAPER 67-965]

01 p0013 A69-11025

Boeing 747 performance, propulsion, structural and circuit characteristics, mass production and airport passenger installations

01 p0011 A69-11067

Manufacturer and assembler liability for injuries caused by design defects resulting from engineering errors in aircraft products

01 p0180 A69-11392

Welding use in aircraft design, noting weight and cost advantages and problems of stressing, stress corrosion and inspection

02 p0253 A69-12062

Aircraft and engine parameters for maximum theoretical range of turbojet for given cruising speed

03 p0366 A69-12950

Minimum admissible spacing between supersonic jet expelled from VTOL aircraft nozzle and plane surface near nozzle exit

03 p0361 A69-12955

X V-4B Hummingbird 2, noting modification from XB-4A two engine ejector augmentation to six engine direct and diverted thrust configuration

03 p0366 A69-13112

Cost analysis techniques for aircraft design and development, considering passenger capacity, flight distances and flight frequencies for various aircraft types

03 p0366 A69-13646

VFX fighter aircraft, discussing U.S. Navy requirements influence in VFX-1 and VFX-2 design

03 p0367 A69-13675

Airframe/propulsion blending in high performance fighter aircraft, discussing thrust augmentation, fuel consumption, induction system and exhaust nozzle balance with airframe

03 p0364 A69-13676

Swing wings on combat aircraft and SST, discussing suitability for aircraft carriers and problems in aerodynamic balance

03 p0367 A69-13677

Differential gearing of aileron movements to reduce control forces in aircraft

03 p0367 A69-13786

Numerical method for explicit solution of aircraft mass problem based on linearization of equations describing individual aircraft section masses

03 p0367 A69-13790

Hovercraft range operating at constant speed as function of design efficiency, power apportionment, fuel consumption and initial specific resistance

03 p0367 A69-13909

Hovercraft and applications of air cushion principle, discussing large and small size vehicles, autobalancing, hybrids and ram wings

03 p0367 A69-14084

Soviet collection of papers on aircraft construction and air fleet equipment

04 p0672 A69-14483

Prandtl three main problems of airfoil theory interpreted and applied, discussing slender aircraft and hypothetical waverider aircraft

04 p0543 A69-14802

Passenger aircraft design to cope with air traffic volume increase in 1970s, discussing economic aspects of high capacity aircraft

04 p0546 A69-14804

Elasticity of demand theory applied to fare changes effect on passenger volume, noting interdependence of aircraft size and fare formulation

04 p0689 A69-14805

Maintainability and reliability affect utilization and operating costs of commercial aircraft

04 p0547 A69-14806

Design parameters optimization for V/STOL jet aircraft with lift engines mounted in wing pod, discussing wing loading and aspect ratio, power plant, etc

04 p0547 A69-14812

Early design stage flutter analysis for variable sweep aircraft, using subsonic flutter model

04 p0677 A69-14834

Boeing/Vertol Hybrid Facility for solving engineering problems in V/STOL design and research

04 p0567 A69-15352

Tactical support aircraft size, economy and flexibility requirements based on Vietnam experience

04 p0549 A69-15486

Airframe subsonic aerodynamic problems for fixed wing aircraft under low speed/high lift conditions

05 p0695 A69-15542

Airplane drag prediction by wind tunnel tests

05 p0695 A69-15543

Design of high lift devices in relation to fixed wing subsonic transport aircraft, considering lift, drag, stability and control

05 p0695 A69-15544

Stability derivative estimation at subsonic speeds for preliminary design engineer

05 p0700 A69-15545

Helicopter, compounds and composite aircraft design trends

05 p0700 A69-15548

Rotary wing handling qualities, discussing analytical tools, design and IFR capabilities for higher speed range

05 p0701 A69-15550

Tip turbine driven flush thin profile wing or platform lift fan design and operating considerations

05 p0696 A69-15554

Aircraft propulsion by wake regeneration, noting supersonic transport ogee layout with maximum drag fraction

05 p0811 A69-15555

Unified design approach for second generation air cushion craft based on existing first generation craft

05 p0701 A69-15567

Design parameters optimization techniques for V/STOL aircraft, noting necessary cooperation between engineering and computing facilities

05 p0701 A69-15570

Nimrod maritime reconnaissance aircraft, discussing high speed high altitude transit flights

05 p0702 A69-15885

Aircraft structure lightweight construction materials, reviewing Ti alloys and Be and Al-B bonded filament materials

05 p0779 A69-15917

Open class type glider design, discussing structural materials, dimensions and control

05 p0702 A69-16027

SST System Safety Program, discussing cosmic radiation and aerodynamic heating

06 p1041 A69-16838

Low drag three dimensional body configurations from tabulated low drag airfoil coordinates

06 p0857 A69-17000

Aircraft aerodynamic characteristics determination from numerical computer solution of supersonic gas flow past blunt body with broken generatrix
06 p0859 A69-17582

Boeing SST designs, discussing performance, flying qualities and operational characteristics of configurations
06 p0868 A69-17830

Helicopters and fixed wing STOL and VTOL aircraft for intertheater military logistics transportation, discussing C-5A role in 1970s
07 p1053 A69-19177

Small and full scale model tests for feasibility of retracted rotor aircraft for high speed flight [AIAA PAPER 69-219]
07 p1055 A69-19550

V/STOL commercial intercity jet aircraft design concept for high density short haul travel featuring low noise, high economy, reliability and tandem wing configuration [AIAA PAPER 69-200]
07 p1056 A69-19571

TRAC variable diameter rotor design based on jackscrew mechanism applied to compound helicopter [AIAA PAPER 69-221]
07 p1056 A69-19572

Air deflection and modulation /ADAM/ turbofan propulsive wing V/STOL design [AIAA PAPER 69-201]
07 p1056 A69-19573

Damage tolerance as design consideration for aircraft safety and reliability, discussing application of failed single principal member concept to airframe construction [AIAA PAPER 69-212]
07 p1056 A69-19574

Minimum drag wing flap profile design, discussing application for trailing edge flaps
08 p1251 A69-20441

Aircraft design, fabrication and finish techniques taking into account aircraft integral fuel tank corrosion due to contaminants associated with microbiological debris [NACE PAPER 49]
08 p1320 A69-20599

Environmental simulation in aircraft engineering, tests concerning aerodynamic conditions and simulator design
08 p1301 A69-20603

LFU 205 light aircraft design and construction with fiberglass reinforced plastic
08 p1321 A69-20867

Landing gear requirements for aircraft design, discussing tire pressure, wheel arrangement, brakes for loading and aircraft weight
08 p1255 A69-21161

Single stage rocket vehicle design for rapid global air transportation noting size, range and economics
09 p1433 A69-21303

Firebee 2 /BQM-34E/ turbojet-propelled recoverable supersonic aerial target construction, performance prediction and missions
09 p1434 A69-21901

Human engineering program at early design phase of SST aircraft to achieve maximum human efficiency and man machine compatibility
09 p1447 A69-22546

Boeing 747 aircraft, discussing weight and cost reduction, flap design, structural philosophy, powerplants, fuel system, flying controls, power systems, etc
09 p1435 A69-22714

Aerodynamic design, discussing research in aeronautical engineering and European organization
09 p1433 A69-22774

Buccaneer aircraft development, considering structure, air bleed, aerodynamics, controls, electric systems, flight refueling, aircrew escape, armament and weapons delivery
09 p1435 A69-22775

V/STOL undercarriage design, considering influence of aircraft operation, engine installation, rough/soft ground capability, etc
09 p1435 A69-22781

Lockheed XV-4B Hummingbird 2 VTOL aircraft propulsion, control, escape systems, with tests
10 p1634 A69-23597

Aircraft technology for hypersonic speed range including swept wing, engine design, composite materials, lift-drag ratio, considering weight, efficiency, STOL requirements
10 p1634 A69-23598

Titanium compared with aluminum in application to supersonic aircraft structures, considering tests and costs
10 p1700 A69-23600

Soviet supersonic transport Tu 144, describing wing unit, fuselage, passenger accommodation, tail unit, landing gear, power unit engine nacelle and navigation
10 p1634 A69-23838

Folding propotor VTOL aircraft configuration analytical and experimental investigations to study design requirements for cruise speeds to Mach 0.75 [AIAA PAPER 69-220]
10 p1635 A69-24087

Tilt wing executive transport aircraft designed by postgraduates at College of Aeronautics of UK, discussing costs, construction and marketability
11 p1821 A69-24321

European A-300B airbus design, considering aerodynamics, fuselage, power plant, structure, systems, maintenance cost and autoland
11 p1822 A69-24464

Light aircraft and helicopter manufacturing methods, design concepts and materials, discussing aluminum airframes, riveting, fiberglass, UV curing, etc [SAE PAPER 690341]
11 p1822 A69-24498

Aircraft and fuel supply system functional compatibility requirements and analysis noting gasolines, fuel tanks, valves, fuel transfer and metering [SAE PAPER 690308]
11 p1825 A69-24503

Military forward air control aircraft conversion from lightweight commercial tandem engine aircraft noting visibility, communication and navigation equipment [SAE PAPER 690313]
11 p1822 A69-24511

Compatibility effects of automatic test equipment on avionic hardware design
11 p1865 A69-25070

Douglas DC-10 medium range aircraft, discussing engine placement, passenger and cargo capacity, construction data, etc
11 p1823 A69-25211

Comparative evaluation of avionic installations in design stage, detailing parameters for civil aeronautical use
11 p1887 A69-25212

Minimum drag wing profile at zero angle of attack in supersonic flow, allowing for initial structural flaws and randomly varying parameters
11 p1818 A69-25328

Store separation from high speed aircraft via wind tunnel test techniques, discussing drop model, flowfield survey and captive trajectory testing [AIAA PAPER 68-361]
11 p1819 A69-25373

Aircraft structure geometry design for minimizing total mass concerning flutter requirements
11 p1989 A69-25493

Gust load predictions for aircraft design by treating aircraft load history as linear response to stationary Gaussian process excitation
11 p1823 A69-25504

Concorde design problems due to kinetic heating, aerodynamic characteristics, structure, equipment, modified delta wing planform, etc
12 p2012 A69-26358

Exhaust gas recirculation for VTOL aircraft [AIAA PAPER 67-439]
12 p2013 A69-26760

Systems design of airframe structures taking into account material characteristics noting structural stability, shell postbuckling, fail-safe designs, etc
12 p1816 A69-26833

Multicell air cushion vehicle technology based on 1/4 scale and full scale tests, noting comparison with plenum systems and costs
13 p2202 A69-27547

Trident 2E aspect ratio, wing area, high lift devices, fuel capacity, range improvement, etc
13 p2202 A69-27971

Spey 512 turbofan and RB.162 booster turbojet engines for Trident 2E and 3B power plant
13 p2325 A69-27975

Aircraft design cost control emphasizing engineering performance direct inclusion in design costs including tooling, testing, etc
13 p2382 A69-28094

Galaxy C-5A aircraft Value Control Program stressing design organization, upper management authority, budgetary adjustments, etc
13 p2383 A69-28095

Weight and cost control program for Boeing 747 aircraft through combined value and weight engineering methods
13 p2383 A69-28096

Turbofan V/STOL with separate lift units for takeoff and landing, discussing commercial and military applications, cost effectiveness and operational characteristics
13 p2203 A69-28354

Aircraft design synthesis requirement definition in hardware commitment, discussing error effects of weight, aerodynamics and propulsion
14 p2392 A69-29432

Military aircraft operating in various environments with low support costs emphasizing improved design, development and manufacturing standards
14 p2392 A69-29503

Fighter aircraft design and performance criteria including acceleration, maneuvering, interception and turning combat capabilities
14 p2393 A69-29700

Soviet book on partially liquid filled solid body dynamics from viewpoint of space and aircraft applications
14 p2530 A69-29815

Book on subdivision of aircraft structural design covering technology, economics, working conditions, performance, etc
14 p2456 A69-29860

Electron beam welding characteristics for aircraft components and design noting limitations [SAE PAPER 690318]
15 p2617 A69-30089

Helicopter weight analysis in preliminary design and proposal field
15 p2550 A69-30463

Next generation subsonic aircraft, discussing basic concerns, aerodynamic factors, materials, noise reduction, cost effectiveness, titanium techniques, etc
15 p2550 A69-30590

Beryllium brake disks use on C-5A aircraft, comparing size, weight and peak temperature with steel structure
15 p2639 A69-30591

German VFW 614 short haul commercial jet aircraft design, marketing, etc
16 p2734 A69-31805

Civil aircraft requirements from 1975 onward, discussing classes, categories and R and D
16 p2882 A69-32022

Aerodynamic problems in future civil aircraft design, emphasizing Concorde development possibilities, discussing VTOL intercity transport, subsonic swept wing and hypersonic aircraft, all-wing airbus, etc
16 p2732 A69-32023

Civil aircraft projected development regarding materials and structures, discussing new components and fuel contribution to weight and metals and composites for replacing Al
16 p2872 A69-32024

Medium range Tu-154 three jet transport aircraft, detailing fuselage, airfoil, tail unit, landing gear, propulsion unit and circuitry
16 p2735 A69-32073

Book on soviet An-24 aircraft-construction and exploitation covering fuselage, powerplant, controls, fire prevention, air conditioning, maintenance, etc
16 p2735 A69-32112

High bypass ratio engine influence on short range civil aircraft design, considering performance, noise, engine location, etc
17 p2897 A69-33212

Aircraft auxiliary power system influence on power plant installation and aerodynamic design
17 p3017 A69-33216

Heat transfer suppression techniques in high temperature low density fiberglass insulation for flight vehicles [AIAA PAPER 69-606]
17 p3072 A69-33279

Aircraft designers and operators problems with danger and damage caused by bird strikes, considering warning devices and protective windshield panels
17 p2899 A69-33363

Concorde design, discussing planform, wing twist and camber, hypersustentation, kinetic heating, aeroelasticity, R and D, tests, etc
17 p2899 A69-33380

German VTOL aircraft development excluding helicopters, discussing technical problems, safety and economy in civil application
17 p2899 A69-33381

Flow simulation on wind tunnel test models for aerodynamic characteristics of aircraft design, discussing boundary layer and external flow coupling [AIAA PAPER 69-660]
17 p2945 A69-33471

V/STOL fatigue design parameters, balancing fail-safe and safe-life design procedures [AHS PAPER 376]
17 p2900 A69-33512

Avionics systems with integration and federation applied to integrated light attack avionics system /ILAAS/ design to provide navigation, weapon delivery and flight control
17 p2976 A69-34057

Canadair CL-84 two propeller V/STOL utility tilt wing vehicle development program and flight tests to assess military potential of aircraft
17 p3077 A69-34065

Skyvan 3 light passenger/freight carrier design, detailing power plant, installation and power management
17 p2902 A69-34192

Skyvan 2 aircraft aerodynamic design, describing modifications to increase fuel capacity, directional stability and range capability

17 p2896 A69-34193

Series 3 Skyvan design, describing controls, electric and electronics equipment, weather protection, environmental and fuel systems

17 p2906 A69-34194

Flight compartment and cabin layout of Skyvan 3 designed as freighter with passenger capability

17 p2903 A69-34195

Aircraft developments affecting international airport planning

17 p2948 A69-34203

Air traffic control and airline operators liaison with reference to air transport priorities, considering relationship to aircraft and airport development

17 p3004 A69-34204

Aircraft design determined by airport environment and facilities defined as pavement strength, passenger and baggage loading and aircraft handling, noting noise abatement

17 p2948 A69-34209

Airport performance, noise and aircraft utilization influence on aircraft design and operating costs, stressing takeoff distance, obstacle clearance and noise regulations

17 p2948 A69-34210

Fixed weight aircraft growth factor variation with location of initial weight penalty along fuselage station, using static stability margin and trim capability

[SAWE PAPER 796] 18 p3220 A69-34862

Advanced design weight analysis and fixed equipment and propulsion systems weight prediction, noting error probability

[SAWE PAPER 790] 18 p3220 A69-34867

Armor selection for advanced aircraft systems based on premium value concept and cost-weight considerations

[SAWE PAPER 764] 18 p3094 A69-34878

Statistical weight estimation equations developed by constrained regression analysis, noting application to vertical tail of cargo/transport aircraft

[SAWE PAPER 762] 18 p3220 A69-34879

Gross weight and aircraft size estimates for configuration design of fighter aircraft

[SAWE PAPER 760] 18 p3220 A69-34880

Aircraft structural weight optimization based on design consideration of grouped related elements, noting application to Boeing 747 trailing edge flap drive

[SAWE PAPER 757] 18 p3220 A69-34881

Design iteration loop calculations related to fighter aircraft weight growth factor, noting asymptotic aircraft performance and strength

[SAWE PAPER 732] 18 p3221 A69-34893

Synthesis and integration of cross discipline function for weight effective design of airplanes

[SAWE PAPER 730] 18 p3221 A69-34895

Aircraft preliminary design weight and volume characteristics relation to aircraft density

[SAWE PAPER 813] 18 p3221 A69-34897

Boeing 747 design and development, discussing aircraft characteristics, performance, inertial navigation system, production costs, etc

[SAWE PAPER 746] 18 p3091 A69-34907

Tupolev Tu-154 three jet transport featuring automatic flight control system with inertial and Doppler navigation inputs, low speed wing devices

18 p3092 A69-34933

Military aircraft design, discussing reduction of specialization bias and timely application of technical advances

18 p3092 A69-35137

Aircraft engine lubrication system design, discussing bearings reduction, oil compartment scavenging, sealing, cooling, pressurization, etc

18 p3185 A69-35244

Lockheed L-500 aircraft weight consideration in structural design as all cargo lifter, describing engine thrust, payload, options, etc

18 p3092 A69-35464

Cargo aircraft future design regarding engine development, structural flexibility, airport compatibility, cargo handling, etc

18 p3092 A69-35467

Air terminals plans for 1975 aircraft and air traffic based on runway configurations

[AIAA PAPER 69-805] 19 p3288 A69-35591

L-1011 Tri-Star aircraft systems and safety provisions, discussing automatic flight control system, propulsion, noise reduction, galley, coat storage and cabin window shades

[AIAA PAPER 69-828] 19 p3243 A69-35598

Aircraft Economic Design Evaluation /AEDE/ computerized model to estimate aircraft design performance differences economic impact to carriers

[AIAA PAPER 69-814] 19 p3289 A69-35626

Quiet military aircraft design factors, considering human hearing characteristics, noise suppression methods, propeller noise-performance relationships and jet engine noise nature

[AIAA PAPER 69-792] 19 p3243 A69-35637

YF-12A interceptor aircraft development and testing, discussing titanium alloys application, aerodynamics and thermodynamics, escape systems for high speed and altitude tests

[AIAA PAPER 69-757] 19 p3245 A69-35652

Flight control systems influence on military aircraft design and performance, discussing static stability, ride quality, flutter margin and maneuver load controls

[AIAA PAPER 69-767] 19 p3245 A69-35656

Concorde aerodynamic design compromise between high and low speed requirements, kinetic heat problems and materials selection

[AIAA PAPER 69-759] 19 p3245 A69-35661

Man machine interface problems in C-5 equipment and system design

19 p3261 A69-36024

DC 10 aircraft reliability program, discussing passenger attractiveness, dispatch reliability, maintenance cost, flight safety and computer simulation for reliability engineering

19 p3248 A69-36027

C-5 air force logistic transport, discussing structural design, configuration, payload, aerodynamics and flight testing

[AIAA PAPER 69-758] 19 p3248 A69-36295

DC 10 wing design, wind tunnel models, structural and systems testing, production and marketing

[AIAA PAPER 69-830] 19 p3248 A69-36296

Cost comparison of single and twin engined layouts for tactical strike/close support aircraft

19 p3248 A69-36855

DC 3 tail wheeled single skin piston aircraft conversion into first class luxury passenger aircraft for short haul service

20 p3460 A69-36918

Technical problems in converting long service civil aircraft to obtain more volume, easier loading access or greater flexibility

20 p3461 A69-36919

Random gust design requirement and gust load covariances to define boundaries of gust-loading region for airframes

20 p3621 A69-37167

STOL aircraft to serve traffic needs of northeast corridor, discussing decision making regarding size, type, cost, speed and strip-length

20 p3462 A69-37352

Tilt propotor composite aircraft design, discussing performance and mission potential

[AHS PAPER 202] 20 p3463 A69-37805

Jaguar aircraft design and operational characteristics, noting supersonic performance at high altitudes and during maneuvers

20 p3463 A69-37928

Avionics system analysis, engineering, design, fabrication and testing problems

20 p3545 A69-37929

Hydraulic power pack for automatically raising or lowering landing gear in small aircraft

20 p3467 A69-38183

Rain erosion problems in aircraft design, reviewing protective measures for all-weather aircraft

21 p3646 A69-38393

All-plastic light passenger aircraft with inflated tube construction for shell, discussing design and performance

21 p3728 A69-38461

Northrop F-5-21 fighter design, avionics, performance and operational existence

21 p3646 A69-38732

Tail plane shape for optimal damping of rotational motion and elastic torsional deformations of aircraft body around longitudinal axis using calculus of variations

21 p3647 A69-38845

Economic effectiveness determination methods for commercial transport aircraft design analyzed quantitatively, using four engine 100-seat turboprop aircraft

21 p3855 A69-38873

Economic effectiveness of design and fabrication changes in aircraft construction industry for profitable operation of commercial transport aircraft

21 p3855 A69-38874

NF106B-VST model follower flight control system, discussing design criteria/performance index,

rigid/elastic math model development, flight test evaluation, hardware design, etc

[AIAA PAPER 69-886] 21 p3764 A69-39412

Soviet book on flight vehicle design dynamics, discussing lift effectiveness and rigidity as function of internal stresses during ground and flight operations

21 p3825 A69-39533

Design criteria for Concorde SST servoflight control system reliability and safety

21 p3650 A69-39697

Turbofan engine influence on civil transport aircraft design as function of thrust, discussing engine ratings, number of engines, APU and thrust engine

22 p3862 A69-39961

Computerized crewstation geometry evaluation and design optimization using 23-pin-joint man-model

[AIAA PAPER 69-977] 22 p3892 A69-40357

Piloted ground-based flight simulators role in tactical and VTOL aircraft design, describing simulation devices, computer programs and design information

[RAES PAPER 10] 22 p3927 A69-40490

A 300B twin engine short haul giant transport aircraft, discussing engines, aircraft performance and systems reliability

[RAES PAPER 11] 22 p3863 A69-40491

Design and economic concepts of Lockheed L-1011 wide body trijets, discussing airport and airways congestion alleviation, passenger appeal, etc

[RAES PAPER 15] 22 p3863 A69-40494

Design of Concorde wing for Mach 2 cruising speed including fuselage/wing relations, wing planform and leading edge camber, etc

[RAES PAPER 18] 22 p3859 A69-40497

Boeing 747 design, fitting to operation, airline planning for flight training, airport facilities, ground equipment, service functions, etc

[RAES PAPER 12] 22 p3864 A69-40621

Safety engineering programs for aircraft design, discussing organizational relations, failure and operational safety analyses

22 p3867 A69-41132

Safety standards for DC 10 aircraft, considering cockpit design, hydraulic, electric power, autoland and direct lift control systems, structural safety and crash worthiness

22 p3867 A69-41133

Boeing 747 safety engineering program, discussing organization, design review, system safety, systems design-analysis and tests

22 p4054 A69-41136

SNECMA thrust reverser system design on Concorde prototype, discussing performance, safety, airworthiness, operational requirements, reliability and maintenance

[SAE PAPER 690412] 23 p4200 A69-41640

Douglas DC-10 aircraft design programs and methods stressing power plant reliability, maintainability and costs

[SAE PAPER 690391] 23 p4201 A69-41664

Structural aircraft design requirements for high flight speeds stressing aerodynamic heating, heat resistant materials, weight and geometry problems

23 p4233 A69-42164

Airplane structure electromagnetic compatibility engineering problem including bonding, electrointerference suppression and static control considerations

23 p4063 A69-42234

Rolls-Royce-Bristol/SNECMA M45H medium power turbojet for VFW 614 aircraft

24 p3463 A69-42566

V/STOL commercial intercity jet aircraft design concept for high density short haul travel featuring low noise, high economy, reliability and tandem wing configuration

[AIAA PAPER 69-220] 24 p4251 A69-42648

Aircraft engine lubrication system design, discussing bearings reduction, oil compartment scavenging, sealing, cooling, pressurization, etc

24 p4363 A69-42780

MIG-21 fighter aircraft development, characteristics and technical and operational data

24 p4251 A69-42795

Beriev Be-12 cranked wing seaplane design including technical and operational data

24 p4251 A69-42796

Aero L-39 low wing cantilever monoplane jet trainer developed in Czechoslovakia

24 p4251 A69-42797

Czechoslovak L-400 high wing short range STOL transport aircraft powered turboprop engines, discussing passenger and cargo version

24 p4251 A69-42799

Commercial aircraft environmental compatibility planning, considering problems of airport traffic growth and restrictive air traffic control regulations [AAS PAPER 69-326] 24 p4252 A69-42808

SST contribution to commercial aircraft transportation, discussing economic and operational aspects, decision making process leading to fixed wing design, etc [AAS PAPER 69-323] 24 p4252 A69-42869

Supersonic aircraft design data, costs and benefits, discussing origin and significance of sonic boom 24 p4252 A69-42997

Aerodynamics, transonic performance, airframe/propulsion, compatibility, structures and materials, flight controls, takeoff and landing capabilities and combat survivability of next generation military aircraft 24 p4252 A69-43046

Orthotropic aircraft materials plasticity theory, deriving stress-strain relationships in three mutually perpendicular symmetry planes for use in engineering calculations 24 p4400 A69-43083

Maximum admissible weight of structural elements required for conventional wing conversion into variable geometry wing without performance impairment 24 p4253 A69-43092

FAA power spectral gust methods for computing design limit loads on commercial aircraft, noting British investigations 24 p4253 A69-43111

Aircraft fastener corrosion control with emphasis on surrounding joint and structure, discussing test programs, Al coatings, etc 24 p4334 A69-43442

Damage tolerance design concepts required to obtain reliability, maintainability and operational safety of complex aircraft [ICAS PAPER 68-23] 24 p4254 A69-43717

Scramjet engine active cooling with regenerative system using superalloy heat exchangers and hydrogen fuel as coolant [AIAA PAPER 68-1091] 24 p4365 A69-43725

AIRCRAFT DETECTION

Airport surface traffic control system /STRACS/ for detection of aircraft, identification, guidance on taxiways, tower display, fail-safe alarm logic, priority routings, conflict protection, etc 05 p0790 A69-16724

Statistical distribution functions for radar cross section of flying aircraft 14 p2414 A69-29500

Very short pulses effect on aircraft echoes, noting echoing area reduction as resolution cell diminishes 21 p3672 A69-38755

Clear air turbulence detection in troposphere by multifrequency radiometric sensor, noting multibeam system for supersonic aircraft 23 p4144 A69-42536

AIRCRAFT ENGINES

NT BRISTOL-SIDDELEY OLYMPUS 593 ENGINE

NT DUCTED FAN ENGINES

NT HELICOPTER ENGINES

NT J-79 ENGINE

NT J-85 ENGINE

NT PULSEJET ENGINES

NT RAMJET ENGINES

NT SUPERSONIC COMBUSTION RAMJET ENGINES

NT T-53 ENGINE

NT TURBOFAN ENGINES

NT TURBOJET ENGINES

NT TURBOPROP ENGINES

Environmental effects on aircraft and propulsion systems - Conference, Bordentown, New Jersey, October 1968 01 p0055 A69-11043

Engine inlet thermal antiicing analysis, detailing computer programs to determine air flow velocity, water impingement and thermal requirements 01 p0055 A69-11045

Titanium alloy stress corrosion behavior in atmospheric salt environments at elevated temperatures related to aircraft engine part failures 01 p0099 A69-11056

Aircraft gas turbine compressor parts erosion tests 01 p0099 A69-11058

Steam ingestion tests on carrier aircraft gas turbine engines, analyzing inlet pressure and temperature distortion in steam-air environment 01 p0143 A69-11062

Cost factors in choosing single or twin-engine layout for tactical aircraft 02 p0193 A69-12066

Onboard electric power systems of transport aircraft, analyzing constant frequency systems for supersonic aircraft 02 p0196 A69-12166

Digital electronic computer technique for control of aircraft power plant, describing self adaptive control 03 p0496 A69-14091

Aerothermodynamics of subsonic-aircraft propulsion, analyzing performance of bypass engine, fuel consumption and specific weight 05 p0695 A69-15551

High bypass turbofan design, discussing JT9D engine combustion, materials and cooling 05 p0811 A69-15552

Soviet book on design of aircraft engine component and subsystem elements, emphasizing aligning, locking and sealing methods, torque transmission, etc 05 p0812 A69-15864

Similarity conditions in turbine engine tests, analyzing flight speed, Reynolds number, combustion efficiency, heat changes, inlet turbulence and outlet nozzle 05 p0742 A69-16028

Aircraft turbine engines operation and control, discussing technology, simulation and system developments 05 p0812 A69-16528

High turbine inlet temperature technology using thermosiphon cooling for gas turbine, possibly doubling specific horsepower of aircraft [SAE PAPER 690034] 07 p1203 A69-18311

Liquid and vapor phase microscale panel cokers applied to screening synthetic lubricants for aircraft turbine engines [ASLE PAPER 68-LC-22] 07 p1140 A69-19309

Control methods and designs for limiting atmospheric pollution emitted by aircraft gas turbine engines [SAE PAPER 680347] 07 p1204 A69-19729

Aircraft gas turbine engines control systems capabilities and future requirements, considering maximum propulsion system performance with minimum fuel consumption [ASME PAPER 68-GT-62] 08 p1376 A69-19846

Supercharged bypass engines for possible application in light aircraft, noting payload fractions and total takeoff weights values 08 p1254 A69-20168

Flight research testing facilities at Arnold Engineering Development Center for rockets, turbojets, ramjet engines, aircraft, missiles, satellites and spacecraft 08 p1302 A69-20883

Jet mixing applications to aircraft engines, discussing one dimensional calculation of coaxial streams mixing inside conduit 09 p1429 A69-21305

Power systems for future aircraft emphasizing growth in performance and reduction in weight 09 p1567 A69-21387

Composite materials and alloys for jet turbine components in 1970s, discussing anticipated temperatures and material properties 09 p1523 A69-22061

Design, metallurgical and manufacturing problems of titanium application in superjet C5 and SST engines 09 p1570 A69-22062

High recovery inlet design for Boeing 747 high bypass ratio fan engine, considering throat Mach number, lip losses and auxiliary passage losses [ASME PAPER 69-GT-41] 09 p1570 A69-22482

Nickel base superalloys for aircraft gas turbines, considering strengthening mechanisms for creep resistance [ASME PAPER 69-GT-7] 09 p1527 A69-22506

Baseline requirements for commercial aircraft propulsion systems, stressing engine installation in aircraft [ASME PAPER 69-GT-57] 09 p1572 A69-22514

Gas bearings for spool gas generator for aircraft turbine engines, noting rotor bearing stability and LP spool balancing and seal leakage [ASME PAPER 69-GT-60] 09 p1513 A69-22515

Cooled turbine performance evaluation methods, noting promise of analytical methods [ASME PAPER 69-GT-63] 09 p1572 A69-22517

Jet aircraft engines condition monitoring system for detecting malfunctions without engine disassembly [ASME PAPER 69-GT-66] 09 p1501 A69-22518

Film cooling injection slots number and position over flame tube and minimum cooling airflow in aircraft gas turbines 09 p1625 A69-22623

Aircraft engine instrument displays evaluated by human factors, noting vertical scale design [SAE PAPER 690328] 11 p1829 A69-24488

Explosive fabrication of aircraft components including turbine engine exhaust components, door seals, etc [SAE PAPER 690316] 11 p1890 A69-24510

Performance correction and nonstandard day performance prediction for analyzing turbocharged reciprocating aircraft engines in light aircraft applications [SAE PAPER 690309] 11 p1942 A69-24514

Turbine engine in-flight operating conditions simulated on test stand 11 p1942 A69-24528

Aircraft engines future specifications as affected by expanding market, noting speed requirements and thrusts 11 p1942 A69-25215

Frequency characteristics of flexible compensated manifolds for aircraft engines, considering axial force 11 p1826 A69-25332

Gas turbine fuel and control systems for two and three shaft engines in military and civilian aircraft including helicopters [IME PAPER 12] 12 p2147 A69-25796

Control methods and designs for limiting atmospheric pollution emitted by aircraft gas turbine engines 12 p2147 A69-26236

Concorde SST turbojet engine integrated assembly consisting of air inlet, gas generator, reheater and convergent-divergent nozzle 12 p2147 A69-26357

Aircraft engine spark plugs development, reviewing ceramic and mica insulated plugs and four pole electrode spark plugs 13 p2324 A69-27333

Temperature measurement for aircraft gas-turbine engine development 14 p2509 A69-28886

Digital computers for aircraft engines control, discussing economic assessment, advantages and basic control system 15 p2671 A69-30323

Aircraft gas turbine parts design and fabrication, discussing role of welding techniques 15 p2629 A69-30928

Propulsion system influence on aircraft reliability from viewpoint of engine manufacturer 15 p2629 A69-31122

Eddy current and ultrasonic applications to aircraft engine inspection, discussing electric and magnetic methods for quality control during fabrication 15 p2632 A69-31516

Variable bypass ratio lift/thrust engine arrangement in relation to safety and economic requirements, using scale model of V/STOL 15 p2672 A69-31542

Subsonic transport high bypass ratio engine evaluation in terms of fuel consumption, size, thrust-weight ratio, noise and price 16 p2835 A69-31803

Aircraft engine accessories for engine control, monitoring and protection, discussing transducer redesign, equipment range for Concorde, small engine design, etc 16 p2879 A69-31813

Location effect of power plants on aft-mounted supersonic cruise exhaust nozzles at transonic speeds in flight and wind tunnel [AIAA PAPER 69-427] 16 p2734 A69-32769

Self contained lift fan concept and circulation controlled rotor aircraft power plants for high speed VTOL transports 17 p2897 A69-33208

Civil transport aircraft power plant and auxiliary systems as sources of delays, presenting critical path analysis 17 p2898 A69-33213

Power plant installation on swept winged transport aircraft, discussing interference drag sources, high lift problems, unorthodox installations, nacelle effects, etc 17 p2898 A69-33214

Aircraft auxiliary power system influence on power plant installation and aerodynamic design 17 p3017 A69-33216

Aircraft auxiliary power systems, discussing weight and power requirements, component design, driving methods and influence on power plant design 17 p3018 A69-33217

Small turbine development for long life applications in helicopters and unpurssured aircraft, describing Artouste, Turmo, Astazou and Bastan series 17 p3020 A69-33346

Aircraft turbines mechanical parts reliability tests, discussing examples of blade fatigue rupture and rotor disk fatigue 17 p3020 A69-33347

AIRCRAFT EQUIPMENT

Turboshaft engines for military aircraft, discussing size, technology and environmental factors with respect to anticipated market [AHS PAPER 331] 17 p3022 A69-33530

Vertical takeoff aircraft propeller/rotor design and performance prediction, discussing vortex model, wake contraction, blade element aerodynamic properties, etc [AHS PAPER 325] 17 p2894 A69-33534

Digital computer for aircraft engine control covering in-flight health monitoring, automatic flight checkout, diagnostic failure routines, etc 17 p3022 A69-33603

Forced pressure fluctuations in hydraulic systems of aircraft fuselages and engines, taking into account square law of losses at resistance points 18 p3094 A69-34991

Aircraft engine lubrication system design, discussing bearings reduction, oil compartment scavenging, sealing, cooling, pressurization, etc 18 p3185 A69-35244

Mechanical components life or cycles to failure probability distributions determined by Monte Carlo method, comparing theory with aircraft engine parts field data 19 p3327 A69-36031

Low smoke emission combustors for aircraft turbine engines, discussing effects on ignition and exit temperature distribution [AIAA PAPER 69-493] 19 p3394 A69-36299

Concorde Olympus 593 engines electronic control and adjustment devices 19 p3395 A69-36706

Pressure sensors, strakes, removal of full length guide vanes indicate possible difficulties with thrust of NK-8-2 turbofans in Tu-154 19 p3395 A69-36757

Cost comparison of single and twin engine layouts for tactical strike/close support aircraft 19 p3248 A69-36855

Wankel aircraft engines compared to piston and turbine aircraft engines for performance, maintenance and reliability 19 p3395 A69-36872

Supersonic aircraft and power plant structural members operating under cyclic stress at elevated temperatures tested by various methods for interaction between creep and fatigue 20 p3620 A69-37001

Airbreathing gas turbine construction materials including composites and Ti and austenitic alloys [ASM PAPER D8-25.2] 20 p3586 A69-38133

Pneumatic Vernier engines in aircraft and spacecraft, discussing weight, gas expansion and gas temperature 21 p3785 A69-39093

Dornier R and D, discussing single and twin engine aircraft, utility aircraft, helicopter, VTOL transport, safety, etc 22 p3862 A69-39931

RB 202 self contained lift fan engine design for high speed interurban civil VTOL operations, considering weight, cost, noise and fuel consumption 22 p3862 A69-39933

Wakkel engine development in Poland for powered military gliders at 18 hp and 5500 rpm 22 p3999 A69-40006

Modified tailed delta configuration selection for U.S. SST, discussing power plant installation choice [RAES PAPER 17] 22 p3863 A69-40496

Aircraft engine technology, discussing turbine entry temperatures, reheat temperatures, high pressure spools, high temperature materials and small blades fabrication [RAES PAPER 20] 22 p4000 A69-40499

TF39 high bypass ratio engine design, development and tests, noting low smoke combustor [RAES PAPER 21] 22 p4000 A69-40622

Engine oil analysis applied to commercial airline operations, ensuring lubricating qualities retention and detecting oil-wetted component failures [SAE PAPER 690423] 23 p4169 A69-41647

Aircraft gas turbine engine lubricant evaluation and systems design from standpoint of effective oil life and lubricant stability requirements [SAE PAPER 690424] 23 p4200 A69-41648

Engine fuel and geometry control design for large high bypass aircraft turbofan engines used for airbus powering [SAE PAPER 690403] 23 p4201 A69-41659

Douglas DC-10 aircraft design programs and methods stressing power plant reliability, maintainability and costs [SAE PAPER 690391] 23 p4201 A69-41664

STOL transport aircraft propulsion requirements, discussing engine cycle selection, design variables effects, etc [SAE PAPER 690380] 23 p4201 A69-41668

Numerical control as manufacturing tool, with application to aircraft engine precision components 24 p4318 A69-42710

Aircraft engine lubrication system design, discussing bearings reduction, oil compartment scavenging, sealing, cooling, pressurization, etc 24 p4363 A69-42780

Digital computers effect on aircraft automatic power unit controls, discussing safety, reliability, self monitoring and redundant computer systems 24 p4253 A69-43113

Oil high temperature and oxidation conditions in aircraft piston engines, including physicochemical changes 24 p4321 A69-43141

AIRCRAFT EQUIPMENT

Collection of papers on aircraft construction and air fleet equipment covering aerospace vehicles theory, engines, automation, design and production 19 p3246 A69-35813

Soviet book on testing aircraft electrical equipment covering climatic and mechanical tests, malfunction detection, etc 20 p3464 A69-37237

Onboard aircraft computer design criteria, considering adaptability, maintainability, reliability, cost, prototype delivery time, weight and volume 20 p3500 A69-37381

Microminiaturized digital computers for missiles and aircraft, discussing characteristics, environmental conditions and transformation possibility for use in satellites 20 p3502 A69-37392

AIRCRAFT EXHAUST U EXHAUST GASES

AIRCRAFT FUEL SYSTEMS

Liquid nitrogen inertant for continuous suppression of pressurized fuel tank explosion 05 p0703 A69-16505

Low pressure fuel system and turbine rotor blade temperature measurement method for Concorde Olympus 593 engine [ASME PAPER 68-GT-63] 06 p0984 A69-17187

Concorde fuel management, discussing trim, fuel as coolant and booster pumps 07 p1057 A69-19705

Aircraft design, fabrication and finish techniques taking into account aircraft integral fuel tank corrosion due to contaminants associated with microbiological debris [NACE PAPER 49] 08 p1320 A69-20599

Aircraft and fuel supply system functional compatibility requirements and analysis noting gasolines, fuel tanks, valves, fuel transfer and metering [SAE PAPER 690308] 11 p1825 A69-24503

Aircraft integral fuel tanks corrosion causes and prevention, discussing microorganisms, maintenance and cleaning procedures, anticorrosion additives, etc 12 p2013 A69-25946

Trident 2E aircraft, discussing fuel system, electric power installation, hydraulic system, air conditioning, pressurization and flying controls 13 p2202 A69-27973

AIRCRAFT FUELS

JP-4 fuel emulsions properties, handling characteristics and safety performance, noting satisfactory shelf life and thermal stability [ASME PAPER 68-GT-24] 06 p0982 A69-17190

Fuel requirements for flights up to Mach 3.5, discussing heat stable mineral oil based SST fuels 11 p1941 A69-25422

Monograph on spreading of explosive vapor/air mixtures during aircraft fueling, covering underlying flow technology principles 15 p2551 A69-30930

Microbiological corrosion and degradation of aircraft metals and organic materials in fuel tanks 19 p3341 A69-35569

Aviation fuel development covering internal combustion engine, antiknock compounds, isooctane rating methods, gas turbines, jet fuels, etc [AIAA PAPER 69-779] 19 p3392 A69-35643

Film vaporization of fuel in combustion chambers of aircraft turbines, determining concentration and velocity distributions of fuel and air 20 p3633 A69-37921

AIRCRAFT GUIDANCE

Navigation system for American SST noting use of Doppler radar and inertial navigation 02 p0278 A69-12238

Inertial navigation for commercial aircraft, discussing Sagem-Ferranti and Litton systems 02 p0278 A69-12239

Error reduction in initial azimuth alignment and azimuth and level axis gyro drifts in long range air transport gyro accelerometer inertial systems 02 p0278 A69-12361

Laser gyro in future inertial navigation systems for Category 1 landing without position updating 03 p0463 A69-13210

Flight inspection positioning system, discussing microwave interferometer angle calibration for instrument landing 03 p0430 A69-13680

Aircraft and spacecraft guidance and control technology including computers, optimum and Kalman filtering, strapdown inertial navigation, sensors and test pads [AIAA PAPER 69-72] 06 p0956 A69-18136

Aircraft and spacecraft guidance and control technology including computers, optimum and Kalman filtering, strapdown inertial navigation, sensors and test pads [AIAA PAPER 69-72] 07 p1177 A69-19179

Monograph on mathematical model for aircraft separation in air traffic safety control, analyzing aircraft motions and collision avoidance 08 p1347 A69-20712

Polar flight navigation charts showing feasibility of three dimensional celestial positioning 09 p1538 A69-21406

Terminal area navigation and landing guidance systems for V/STOL intercity transport aircraft, considering radio guidance, aircraft control and system interaction 17 p2897 A69-33210

Vertical path guidance computer, noting applications to feeder airlines and airtaxi services operating from airports with VOR/TACAN/only 17 p3003 A69-34104

Artificial horizon indicator design modifications to facilitate maintaining horizontal aircraft position, discussing automatic pilot advantages in turbulence and flight simulators 17 p2903 A69-34214

Landing guidance devices under difficult weather, discussing landing mechanics for land and carrier based aircraft 18 p3170 A69-34857

Sensory physiology of pilot landing guided by runway lighting, stressing visibility influence 19 p3260 A69-35987

Aircraft navigation system requiring computer and display for approach guidance to circular orbit over fixed ground area [AIAA PAPER 69-986] 22 p3978 A69-40366

Takeoff indicator design based on solution of equilibrium equation for forces acting on aircraft along drag axis 24 p4253 A69-43085

AIRCRAFT HAZARDS

Environmental effects on aircraft and propulsion systems - Conference, Bordentown, New Jersey, October 1968 01 p0055 A69-11043

Drag and spray effects due to slush and water on runways during aircraft takeoffs 01 p0011 A69-11048

Light aircraft all-weather flight feasibility, discussing storm and clear air turbulence detection and icing prevention 01 p0111 A69-11049

Icing of airframes, discussing ice formation, deicing methods and protection of aircraft 02 p0192 A69-11889

Frequencies and natural oscillation modes in sporting gliders, demonstrating horizontal oscillation induced aileron suspension brackets destruction 04 p0549 A69-15416

Predictive scale of aircraft emergencies, analyzing human error rate under stress 06 p0880 A69-17208

Supersonic aircraft radiation hazard due to solar flare proton exposure, using Monte Carlo method to estimate dosage as function of tissue slab 11 p1949 A69-24864

Sonic boom damage to structures from supersonic aircraft overflights using inductive and deductive approaches 15 p2585 A69-30370

Ozone concentrations harmful to humans in atmosphere based on U.S. and Western European observations, emphasizing lower stratosphere 15 p2596 A69-30642

Monograph on spreading of explosive vapor/air mixtures during aircraft fueling, covering underlying flow technology principles

15 p2551 A69-30930

Birds as pests - Conference, London, September 1967

17 p2898 A69-33362

Aircraft designers and operators problems with danger and damage caused by bird strikes, considering warning devices and protective windshield panels

17 p2899 A69-33363

Interspecific synthetic signals research for effective bioacoustic bird scaring techniques including optical signals

17 p2914 A69-33364

Airfield bird scaring methods including Very pistol shell cracker firing and broadcast calls on civilian and military airfields

17 p2915 A69-33365

Habitat modification for airport bird population control, discussing draining of wet areas, waste control, etc

17 p2915 A69-33368

Bird hazard in aviation, discussing aircraft/bird collisions in France, protective measures and airport environment control against nesting and breeding

18 p3090 A69-34695

Electrical failures in aircraft due to static electrification of electrically heated windscreens, noting materials for reducing surface resistivity

19 p3256 A69-36769

Absorbed dose and dose equivalent radiation rates at various depths in atmosphere due to proton spectrum of energetic solar flare

23 p4204 A69-41337

Aircraft fuel vent line sensitivity to lightning hazards, using flame propagation and arrester experiments with high voltage and high current facilities

[SAE PAPER 690434] 23 p4062 A69-41651

Ignition of aircraft fluids leaked onto hot turbofan engine surfaces, considering cooling air direction, surface temperature, nacelle engine compartment ventilation, engine power, etc

[SAE PAPER 690436] 23 p4200 A69-41653

Solar flare radiation hazard to SST crew and passengers, discussing onboard and ground based warning systems and ICAO requirements

23 p4063 A69-41830

Heat tolerance in case of SST aircraft air conditioning failure, discussing physiological and psychomotor reactions and time curves for metabolic activity levels

24 p4277 A69-43382

Physical and physiological factors involved in determining aircraft passengers time of safe unconsciousness permissible after cabin decompression

24 p4278 A69-43398

AIRCRAFT HYDRAULIC SYSTEMS

Hydraulic powered flight control system for Jaguar supersonic military training aircraft

01 p0012 A69-10634

Compact hydraulic power transfer units in aircraft with common connecting shaft for pump/motor elements, discussing integrated power package

06 p0930 A69-17168

Flapper valves in high pressure hydraulic aircraft systems, with hydrodynamic equations and charts for design and performance characteristics

09 p1435 A69-21296

Modular hydraulic power source systems for general aviation aircraft, discussing design selection, phase in and customer acceptance problems

[SAE PAPER 690329] 11 p1825 A69-24505

Trident 2E aircraft, discussing fuel system, electric power installation, hydraulic system, air conditioning, pressurization and flying controls

13 p2202 A69-27973

Aircraft hydraulic equipment ultrafine filters effect on component life and system reliability

15 p2552 A69-30069

C-5A Galaxy military transport hydraulic system, considering applications for industrial hydraulics

20 p3466 A69-38177

Hydraulic power pack for automatically raising or lowering landing gear in small aircraft

20 p3467 A69-38183

Soviet book on fluid contamination influence on aircraft hydraulic systems operational reliability covering friction, particle size, filtration, etc

21 p3649 A69-39530

Protective layer material for high sludge capacity filters for fine purification of liquids used in aircraft hydraulic system

22 p3869 A69-40637

Undissolved air effects on working fluids elastodynamics in aircraft hydraulic actuators

24 p4255 A69-43076

AIRCRAFT INDUSTRY

Military aircraft procurement trends examined to forecast military aircraft market

01 p0009 A69-10147

Boeing 747 performance, propulsion, structural and circuit characteristics, mass production and airport passenger installations

01 p0011 A69-11067

Optimal transport aircraft, considering VTOL/STOL aircraft, construction requirements and flying distances

01 p0012 A69-11293

Manufacturer and assembler liability for injuries caused by design defects resulting from engineering errors in aircraft products

01 p0180 A69-11392

Welding use in aircraft design, noting weight and cost advantages and problems of stressing, stress corrosion and inspection

02 p0253 A69-12062

Competition and aeronautical progress in aircraft industry, examining costs and effects of government limits on Boeing 707 and Douglas DC-8

03 p0536 A69-14110

Aircraft parts manufacturer liability in air accidents, discussing litigation and warranties

06 p1042 A69-16849

Tort system of U.S. law effect on air safety promotion, discussing liability influence on government, manufacturers and airlines

06 p1042 A69-16850

Aviation industry passenger liability, discussing negligence litigation, compensation standards and roles of government, manufacturers and courts

06 p1042 A69-16851

Concorde equipment, summary of British companies activities in supplying components

07 p1057 A69-19706

Manufacturer-supplier relationship in helicopter industry

09 p1502 A69-21388

Baseline requirements for commercial aircraft propulsion systems, stressing engine installation in aircraft

[ASME PAPER 69-GT-57] 09 p1572 A69-22514

Competition and aeronautical progress in aircraft industry, examining costs and effects of government limits on Boeing 707 and Douglas DC-8

11 p2004 A69-24372

Aircraft design synthesis requirement definition in hardware commitment, discussing error effects of weight, aerodynamics and propulsion

14 p2392 A69-29432

Book on subdivision of aircraft structural design covering technology, economics, working conditions, performance, etc

14 p2456 A69-29860

Stress corrosion cracking prevention by shot peening, considering aircraft industry applications

14 p2466 A69-29937

Air transport industry safety record and variable stability research planes to simulate aircraft airborne behavior and handling qualities

15 p2558 A69-30453

Propulsion system influence on aircraft reliability from viewpoint of engine manufacturer

15 p2629 A69-31122

Soviet efforts to market civil aviation equipment in West

18 p3232 A69-34538

Jumbo aircraft production technology causing economic setback, recommending added emphasis on passenger/cargo requirements and operating environments for greater profitability

18 p3232 A69-34542

Aircraft structures design, discussing reinforced sandwiches and composites, failure mechanisms, non-destructive testing and fabrication

19 p3438 A69-36325

European cooperation in aircraft industry and application to Anglo-French helicopter program

19 p3456 A69-36849

Soviet book on interchangeability of structural elements in aircraft construction, discussing experiences in serial production of aircraft and helicopters

20 p3462 A69-37443

Precipitation hardening stainless steels applications in aerospace industry, discussing steel selection and heat treatment

20 p3563 A69-37931

Economic effectiveness of design and fabrication changes in aircraft construction industry for profitable operation of commercial transport aircraft

21 p3855 A69-38874

Commercial supersonic and subsonic air traffic growth forecast

22 p3862 A69-39934

AIRCRAFT INSTRUMENTS

NT ALTIMETERS
NT APPROACH INDICATORS
NT ATTITUDE INDICATORS
NT FLIGHT RECORDERS
NT RADIO ALTIMETERS

Orbiting satellite global all-weather oceanographic data acquisition to complement higher resolution data from ships, buoys and aircraft remote sensors

[UN PAPER 68-95878] 01 p0064 A69-10491

Aircraft instrumentation system for cloud nucleation studies measures and records ice nucleus and aerosol concentration/distribution, temperature, etc

01 p0080 A69-10542

Atmospheric optical data recorded by instrumented aircraft near Crater Lake, discussing surface spectral irradiance data

01 p0111 A69-10846

Cloud instrumentation for measurement of icing conditions of airplane flight tests

01 p0055 A69-11044

Vibrating rod automatic ice detection and control system for fixed and rotary wing aircraft

01 p0083 A69-11046

Low altitude atmospheric turbulence model evaluated from analysis of A-6A aircraft gust load data, comparing model estimates with aircraft response characteristics

01 p0056 A69-11053

Avionics technology and systems for future SST aircraft noting improved air traffic control systems

02 p0279 A69-12364

Fiat G.91Y subsonic light tactical fighter, discussing fixed armaments and weapons facilities

02 p0193 A69-12679

Slide wire aircraft vertical velocity meter for application during aerogrammetric mapping, discussing calibration and gravitational force measurement accuracy

03 p0429 A69-13261

Aircraft instrument lighting color effects on posture, scotopic absolute and acuity threshold and legibility for reading of instruments

03 p0380 A69-14073

Soviet collection of papers on aircraft construction and air fleet equipment

04 p0672 A69-14483

Aircraft measurements of stratus cloud absorption and albedo and earth surface albedo

04 p0627 A69-14914

Jaguar aircraft equipment conformity to maximum standardization with equipment for other programs

04 p0550 A69-15063

Aircraft instrumentation for measuring aircraft electrostatic charge, atmospheric electric field intensity and currents of aircraft

04 p0549 A69-15107

Aircraft charge measurements in stratus clouds, noting charge sign is independent of cloud space charge

04 p0549 A69-15108

Aircraft instrument panel lighting color and intensity preference by pilots for taxiing, takeoff, cruising flight and landing

05 p0715 A69-16622

Aircraft instrument panel lighting, comparing red and white colors for general and peripheral vision

05 p0715 A69-16623

Fluidic type temperature sensor for total temperature measurement for hypersonic aircraft in atmosphere

05 p0766 A69-16755

Aerodynamic instrumentation to improve helicopter takeoff and landing piloting performance under high gross weight conditions

05 p0767 A69-16776

Reading and reliability efficiency comparison in round vs vertical aircraft displays

06 p0883 A69-18025

Aircraft nose-mounted radome refraction errors influence on directional tracking and navigation, considering fire control and terrain following radars

07 p1086 A69-19512

Wind changes calculated from Doppler data and inertial system, noting role of heading and air speed

08 p1346 A69-20317

Aircraft head-up display systems emphasizing all-weather operations and equipment characteristics
08 p1315 A69-20451

All-weather head-up displays /HUD/, discussing operational usage, hardware availability and design philosophy
08 p1315 A69-20452

Optimum integration of aircraft equipment, subsystems and computer mechanizations for low cost navigation system consistent with mission requirements
08 p1348 A69-21065

Earth rotation and aircraft speed effects on vertical gyroscopes during banking, obtaining formulas for gyro errors
09 p1498 A69-22107

Kinematics of vertical gyroscope mounted in additional servo frame, determining kinematic errors due to rotor axis deviation
09 p1498 A69-22108

Skorsky HH-3F helicopters electronic equipment, discussing communication and navigation aids, search and recovery missions, etc
10 p1662 A69-23222

Onboard aircraft weighing system /OBAWS/ for accurate gross weight and CG measurements, describing axle shear deflection transducer system
10 p1693 A69-23276

Aircraft engine instrument displays evaluated by human factors, noting vertical scale design [SAE PAPER 690328]
11 p1829 A69-24488

Onboard test instrumentation for monitoring aircraft communication, navigation and identification systems, noting adaptive programming
11 p1866 A69-25080

Onboard magnetic anomaly detection system for Canadian helicopter, discussing magnetometer location, boom design and testing and equipment installation [AIAA PAPER 68-487]
12 p2094 A69-26771

Ballistic deviations limits for aircraft vertical gyroscope taking into account aircraft vertical movements, using compensation in system
14 p2445 A69-28899

A-New avionics system for carrier based VSX aircraft used in U.S. Navy aerial submarine hunting, discussing TV, lasers, sonobuoy system, radar, etc
14 p2392 A69-29430

Low cost inertial measurement unit /IMU/ for commercial and private aircraft, evaluating components and system [SAE PAPER 690337]
15 p2606 A69-30092

Navigational information display in aircraft, discussing moving map technique and mechanization
15 p2558 A69-30692

Fatigue life gauge on operational aircraft providing in situ monitoring of fatigue damage prior to and during propagation of running fatigue cracks
15 p2613 A69-31271

Satellite and aircraft use compared for earth resource surveys, discussing proposed aircraft data collection system
16 p2881 A69-31632

Vector airspeed measuring system /VAMS/ for helicopters and V/STOL aircraft utilizing gas discharge mass flowmeter to improve takeoff performance [AHS PAPER 350]
17 p2974 A69-33527

AN/ASN-24/V/ general purpose digital computer deployed in large worldwide jet transport fleet
17 p2933 A69-34061

Situation/command system displays and maneuvers for collision avoidance systems, discussing pilot preferences
17 p3002 A69-34096

Automatic flight control, discussing equipment, components and relationship between autopilot and navigation system
18 p3170 A69-34856

Situation displays and flight instrument development including head-up, vertical tape and map systems
18 p3170 A69-34858

STAN integral weight and balance system providing aircrews with takeoff gross weight and CG data [SAWE PAPER 755]
18 p3136 A69-34882

Aircraft nucleonic fuel gauging system, using radioactive gas to emit gamma rays for fuel mass sensing
18 p3139 A69-35468

Operational flight tests of IR atmospheric turbulence detection system [AIAA PAPER 69-799]
19 p3367 A69-35631

High altitude aircraft range requirements for airborne turbulence detector, taking into account passenger comfort, turbulence geometry, maneuverability and pilot decision making
20 p3537 A69-37164

Laser profilometer to measure sea wave profiles from airborne platform, describing transmitter, receiver and signal processor
21 p3739 A69-39461

Cockpit displays for transport aircraft noting digital techniques and flight control-navigation integration
22 p3946 A69-40486

Systems approach to avionics optimization, discussing instruments, devices, display and automation techniques [RAES PAPER 6]
22 p3946 A69-40487

SST flight crew operational requirements to achieve maximum human efficiency and man/machine compatibility, discussing pilot role, advanced flight instrumentation, etc
23 p4107 A69-41820

Solar constant and spectral irradiance curve for zero air mass obtained from aircraft measurements
23 p4216 A69-42191

Optimum integration of aircraft equipment, subsystems and computer mechanizations for low cost navigation system consistent with mission requirements
23 p4186 A69-42538

Takeoff indicator design based on solution of equilibrium equation for forces acting on aircraft along drag axis
24 p4253 A69-43085

AIRCRAFT LANDING

NT CRASH LANDING

NT DITCHING [LANDING]

NT SKID LANDINGS

Piloting aspects of jet V/STOL aircraft for poor weather operations without complicated ground aids, discussing deceleration transition, forward speed and final approach angle
01 p0010 A69-10868

Low visibility instrument landing of aircraft using ILAS and inertial guidance
01 p0114 A69-11012

Air traffic control at Los Angeles International Airport, discussing simultaneous parallel ILS approaches and departures and STOL problems
01 p0057 A69-11356

Low visibility landing, discussing problems of radio guidance geometry, visibility measurement, aircraft dynamics, pilot psychology, regulation and politics
01 p0114 A69-11391

Air cushion landing gear in civil air transport, discussing system concept, advantages and LA 4 aircraft experimental application
02 p0193 A69-12690

Flight inspection positioning system, discussing microwave interferometer angle calibration for instrument landing
03 p0430 A69-13680

Low visibility aircraft landing, discussing total system approach, modern electronic developments, collision avoidance, safety and air traffic control
03 p0465 A69-13853

Heligyro type takeoff and landing maneuvers, discussing M 211 takeoff jet thrust, pressure ratio, tip speed, etc
04 p0547 A69-14816

Aerodynamic technology applied to takeoff and landing, discussing STOL airplanes in descent and boundary layer control /BLC/ flap system
05 p0696 A69-15569

Maximum downwind and crosswind vertical wind shear in boundary layer, noting effect on swept wing jet aircraft landing
06 p0951 A69-17790

Approach light efficiency, discussing Calvert bar system and strobe flash on basis of pilot questionnaire polling
06 p0884 A69-18029

Climatic factors affecting pilot vision and contributing to misjudgment during landing procedures, noting effect of downward slope in runway approach
06 p0884 A69-18036

Qualitative V/STOL air traffic control requirements, discussing airborne and ground data, procedures and equipment categories [AIAA PAPER 69-211]
07 p1177 A69-19552

Scanning beam landing systems for VTOL aircraft
07 p1178 A69-19631

Helicopters operation from small ships, describing underside harpoon mooring technique for Alouette 2 and 3
08 p1255 A69-20654

Monograph on length requirements for takeoff and landing of jet transports covering airport classification, roll distance formulas and long range transport performance nomograms
08 p1301 A69-20717

Control and recording device for parameters and information relating to takeoff and landing, using detection elements and cross wire on runway
08 p1347 A69-20780

Electronic terminal guidance requirements for all-weather VTOL operations, suggesting future first generation landing system
08 p1348 A69-21064

Landing and takeoff demonstration tests of OV-10A aircraft through rough terrain, noting pilots excessive physiological stresses [AIAA PAPER 69-316]
09 p1434 A69-22391

All-weather landing including zero-zero, discussing planning in Europe and U.S.A.
10 p1722 A69-23698

Foam carpet and airport equipment to prevent fires and explosions from retracted gear landings
10 p1674 A69-23708

Stopping barriers for jet aircraft landing design and operation
11 p1862 A69-24354

HF brake excited vibration damping in aircraft landing gear, obtaining closed form solution [AIAA PAPER 68-312]
11 p1823 A69-25370

Trident category 3 automatic landing, discussing triplex pitch and roll control, duplex rudder, autothrottle and azimuth paravision display
13 p2296 A69-27976

Jumbo jet instrument landing difficulties, suggesting specific improvements in aircraft and airport equipment
15 p2549 A69-30189

Lidar data obtained at Hamilton AFB, Calif., computer analyzed for lidar operational utility, determining cloud ceiling and visibility for aircraft landing operations
15 p2651 A69-30895

Aircraft carrier landing system performance, variations in pilot experience, aircraft types and environment, emphasizing night carrier recovery
17 p2916 A69-34012

Deterministic and statistical prediction techniques for aircraft carrier motions at sea for application to aircraft landing operations [AIAA PAPER 68-123]
17 p2902 A69-34014

Direct lift controller design for aircraft approach and landing by computer program based on Kalman linear state regulator theory
17 p2902 A69-34027

Tire test machine for tire parameter determination in aircraft landing gear shimmy stability studies [AIAA PAPER 68-311]
17 p2902 A69-34029

Aircraft landing gear cylinder reinforcement rings design for minimum weight, using optimization iteration method for planar frames with elastic supports [AIAA PAPER 68-328]
17 p3066 A69-34030

Multisensor data processing technique for fail operational landing commands, using real time error analysis inherent in Kalman filter
17 p3003 A69-34106

Landing guidance devices under difficult weather, discussing landing mechanics for land and carrier based aircraft
18 p3170 A69-34857

Wind shear effects on jet aircraft approach, discussing airspeed and glide path position maintenance requirements [AIAA PAPER 69-796]
19 p3367 A69-35634

Wing flaps and blow-off and suction effect on longitudinal balance of landing TU-104 aircraft, noting air suction at wing leading edge
19 p3247 A69-35818

Wave-off Decision Device to define potential aircraft carrier-ramp-strike wave-off criteria for aircraft approach
20 p3573 A69-37161

All-weather landing in civil air operations, discussing ground/air systems in tracking, visual reference and aircraft performance required for safe landing capability
20 p3574 A69-38119

Aircraft characteristics influence on longitudinal handling qualities during carrier approach from visual landings on moving base simulator [AIAA PAPER 69-894]
21 p3648 A69-39418

Electronic terminal guidance requirements for all-weather VTOL operations, suggesting future first generation landing system
22 p3978 A69-39875

Correlation protected ILS implementing conventional ILS with no operational restrictions on air traffic control, taking into account changing terminal conditions
22 p3978 A69-39963

- Steep descent landing systems developmental phases for VTOL aircraft, discussing noise abatement, approach angle and descent rates 22 p3978 A69-40674
- Low visibility VSTOL instrument landing system and associated electronic structures, discussing instrument to visual flight transition 22 p3979 A69-40675
- Landing performance in T-33A aircraft with loss of binocular vision compared to performance with both eyes 23 p4102 A69-41675
- Quasi-optimum control law for aircraft landing control system design based on Friedland technique, evaluating effectiveness by computer simulation 24 p4253 A69-43280
- Unscheduled aircraft landing to deplane passenger for medical reasons, discussing costs, time consumption and avoidance methods 24 p4278 A69-43393
- AIRCRAFT LANDING INSTRUMENTS**
- U LANDING INSTRUMENTS**
- AIRCRAFT LAUNCHING DEVICES**
- Aircraft steam catapult test facilities, noting construction and operational requirements 10 p1674 A69-24068
- Reusable aircraft type satellite launchers, discussing first stage recovery by parachute, ballutes, flexible wings and gyroglider 24 p4250 A69-42562
- AIRCRAFT MAINTENANCE**
- Reliability and maintenance economics for jet transport operations of 1980s, discussing Aircraft Integrated Data System /AIDS/ sensors design [AIAA PAPER 68-207] 01 p0011 A69-11022
- Emergency oxygen supply systems for aircraft, discussing simplicity, standardization, safety, reliability and maintenance [AIAA PAPER 67-965] 01 p0013 A69-11025
- Aircraft flight safety, discussing structural and aerodynamic concepts, maintenance and operations 03 p0365 A69-12886
- Electrochemical grinding application to metal cutting of refractory alloys in aircraft jet engine overhaul [SAE PAPER 680662] 03 p0433 A69-13453
- Airline operators economic oriented airframe maintenance problems, discussing cost accounting improvement 03 p0434 A69-13698
- Maintainability and reliability affect utilization and operating costs of commercial aircraft 04 p0547 A69-14806
- Tactical airfield/aircraft system effectiveness in terms of ground support resources, aircraft reliability and maximum potential sorties 05 p0743 A69-16238
- Nondestructive testing methods for civilian transport aircraft production, overhaul and maintenance 07 p1143 A69-19702
- Transport aircraft fleet management and handling of mechanical and avionic machine defects using operations research 08 p1422 A69-20626
- Symptom pattern observation technique for flight data analysis, discussing in-flight symptoms and SPOT chart in aircraft maintenance 10 p1669 A69-22982
- Maintenance recording systems for aircraft fleet, discussing operations objectives and research, data collection and implementation using systems engineering 10 p1671 A69-23261
- Howell engine hot section analyzer /HSA/ developed to improve maintenance, flight safety and costs of jet aircraft engines 10 p1671 A69-23263
- Computer controlled testing of commercial aircraft avionic systems for automatic, semiautomatic and manual operation to perform repair and calibration tasks 11 p1864 A69-25061
- Optimized automated system for direct support maintenance of AH-56A subsystem equipment 11 p1865 A69-25075
- Integrated computerized reliability monitoring program for detecting aircraft systems and components performance trends and optimizing cost, utility and response 12 p2055 A69-25972
- Efficient allocation of maintenance resources in USAF, analyzing B-52 costs and substitution of capital for labor 13 p2382 A69-28041
- Instruction manual for maintenance personnel and pilots regarding clear vision and window integrity of Convair aircraft, discussing windshield installation and replacement 14 p2391 A69-28932
- Airline aircraft maintenance programs, discussing objectives, procedures and failure analysis models 15 p2549 A69-30209
- Defense integrated management engineering system at California Naval Air Rework Facility 15 p2588 A69-30427
- VFW H3 Sprinter autogyro maintenance, reliability and operating costs 16 p2735 A69-32056
- Maintenance system in Germany for F-104-G Starfighter planes noting disassembling, system testing and test flight 17 p2979 A69-33703
- Aircraft solid state electric system logic level tested functionally by built-in test equipment /BITE/ operated on ground during preflight tests 17 p2977 A69-34110
- Aircraft secondary power sources reliability dependence on electric loads, charge control and maintenance, discussing hermetically sealed batteries features 17 p2905 A69-34113
- C-141 aircraft reliability growth history, discussing fleet performance, aging trends and delivery vs production sequence 18 p3090 A69-34521
- C-141 engine health monitoring program, applying results to maintenance costs reduction [AIAA PAPER 69-775] 19 p3244 A69-35646
- Combat fielded cargo-carrying CH-54A Flying Crane helicopter industry-government reliability/maintainability field test evaluation 19 p3247 A69-36017
- Cost and maintenance calculations for inertial navigation system /INS/ based on three systems per aircraft, assuming 4000 hr/year aircraft utilization 19 p3371 A69-36734
- Relationship between chronological and fatigue life in airframes, showing fatigue life dependence on operating conditions, pilot techniques and maintenance and inspection quality 20 p3461 A69-36920
- Optical devices for nondestructive testing of large piston engined equipment 20 p3547 A69-36921
- Soviet book on testing aircraft electrical equipment covering climatic and mechanical tests, malfunction detection, etc 20 p3464 A69-37237
- C-5A transport modular valve design for improved maintenance and high reliability due to manifold- cartridge arrangement 20 p3466 A69-38178
- Fuselage corrosion effect on structure and skin of older aircraft with emphasis on pressurized aircraft 21 p3646 A69-38392
- Jet fleet engine performance monitoring program, discussing systems design and resultant management planning 22 p3999 A69-39922
- Lockheed 1011 propulsion system design relating to system and component maintainability, reliability, performance and noise [SAE PAPER 690390] 23 p4201 A69-41665
- Military aircraft service life problems solved by alternative replacement policies comparative present value analysis 24 p4253 A69-43058
- Damage tolerance design concepts required to obtain reliability, maintainability and operational safety of complex aircraft [ICAS PAPER 68-23] 24 p4254 A69-43717
- AIRCRAFT MODELS**
- Elastic wind tunnel models used for testing at full scale dynamic pressures, discussing scaling laws and manufacturing and testing problems [AIAA PAPER 68-56] 01 p0011 A69-11018
- Flight simulator based on analog computer simulating six linearized equations of motion and aircraft model, discussing design and applications 01 p0057 A69-11300
- Wind tunnel measurement of rear parts drag of small scale aircraft models [ONERA-TP-633] 02 p0226 A69-11624
- Aircraft squadron performance effectiveness model 03 p0367 A69-13911
- Simulation of flight dynamic equations of motion for fixed wing aircraft, using variable analog computer with gimbal and servocontrolled aircraft model 04 p0585 A69-14829
- Dynamic stability tests of tilt winged V/STOL aircraft model in ultralow speed range, discussing apparatus for stability derivatives 06 p0866 A69-17091
- V/STOL air intakes and jets simulation in wind tunnel tests, noting thrust simulation possibilities 11 p1866 A69-25431
- Aircraft stability derivatives determined by adaptive method, emphasizing physical and mathematical characteristics of learning model 11 p1824 A69-25671
- Exhaust gas recirculation for VTOL aircraft [AIAA PAPER 67-439] 12 p2013 A69-26760
- Exhaust gas reingestion and inlet flow distortion in V/STOL lift engines, discussing static and wind tunnel testing using fighter configuration models [AIAA PAPER 68-78] 12 p2012 A69-26762
- C-5A aircraft model high subsonic speed tests, correlating data from three transonic wind tunnels [AIAA PAPER 69-794] 19 p3237 A69-35636
- Aircraft simulation, discussing flight simulation, real time computer assembly operation, computer-auxiliary interfaces, etc 19 p3296 A69-36707
- STOL seaplane bottom pressure distribution from tests on scale model of PX-S seaplane, discussing boundary layer control effects 22 p3864 A69-40586
- AIRCRAFT NOISE**
- NT JET AIRCRAFT NOISE**
- NT SONIC BOOMS**
- Aircraft engine noise reduction in test runs by sound insulating hangar 01 p0054 A69-10033
- VTOL aircraft design for noise reduction, discussing localities tolerance, noise sources, operating cost, etc 01 p0009 A69-10421
- Human reaction to aircraft engine noise, evaluating effective perceived noise level and constraints on engine design 02 p0204 A69-12766
- Soviet MI-8 and MI-4 passenger helicopters noise characteristics with turboprop and piston engines and during landing takeoff and horizontal flight 03 p0366 A69-13417
- Helicopter rotor noise generation, propagation, reception and reduction, discussing design charts for rotational noise spectra as function of design and flight variables [AIAA PAPER 69-195] 07 p1055 A69-19563
- Mathematical formulation of Noy tables, noting more efficient programming and minimal disagreement with original tables 08 p1266 A69-20403
- Annoyance caused by noise near airports, discussing PNdB /perceived noise dB/, evaluation criteria, and French, British, American and German methods 13 p2214 A69-28588
- Aircraft noisiness estimation methods 13 p2216 A69-28660
- Aircraft noise alleviation through flight procedures improvement, home building modification and noise standards legislation 14 p2392 A69-29154
- Aircraft noise control at source through high bypass ratio engine modification, FAA decibel standards and higher capacity aircraft for increased traffic density 14 p2509 A69-29156
- Airport noise control responsibility for airport and community planners using perceived noise level, noise and number index and community annoyance index as planning criteria 14 p2541 A69-29506
- Aircraft created pressure patterns responsible for sonic boom, discussing design techniques for noise reduction 15 p2550 A69-30369
- Aircraft noise environmental problem, discussing improvement through source, transmission and receiver control options 15 p2585 A69-30373
- Human noise tolerance laboratory and community studies, discussing proposed tone corrections for aircraft noise 15 p2719 A69-30374
- Boeing 747 problems including noise and automatic landings in CAT-II conditions 16 p2734 A69-31631

Slender body aerodynamics combined with wave propagation theory for sonic booms of aircraft configurations, propeller and helicopter noise, sonic boom alleviation, etc
16 p2732 A69-31867

Aircraft noise assessment, discussing computer programmed formula, noise contours and duration calculation, with appendices presenting engine noise characteristics, air and ground attenuation, etc
16 p2735 A69-32021

Noise abatement and smoke emission reduction from aircraft engines
[AIAA PAPER 69-489] 16 p2746 A69-32764

High bypass ratio engine influence on short range civil aircraft design, considering performance, noise, engine location, etc
17 p2897 A69-33212

Helicopter noise characteristics, discussing effects of noise reduction measures on design and operations
[AHS PAPER 352] 17 p2915 A69-33525

Helicopter rotor vortex noise data analyzed for noise suppression, obtaining sound power equations
17 p2896 A69-34034

Aircraft design determined by airport environment and facilities defined as pavement strength, passenger and baggage loading and aircraft handling, noting noise abatement
17 p2948 A69-34209

Airport performance, noise and aircraft utilization influence on aircraft design and operating costs, stressing takeoff distance, obstacle clearance and noise regulations
17 p2948 A69-34210

Far field helicopter rotor noise radiation, analyzing blade slap, rotation noise, vortex noise effects and loading harmonics utilizing computer program
18 p3090 A69-34322

Aircraft noise acceptability tests based on listening in absence and presence of speech
18 p3097 A69-34325

Distributive loading rotational theory for helicopter rotor noise generation, considering steady and fluctuating force radiation and impulsive blade slap
18 p3088 A69-35222

Vortex shedding effects on helicopter rotor noise with and without blade slap, noting far and near field noise
18 p3088 A69-35223

Helicopter rotor rotational and vortex noises prediction methods and trends
18 p3088 A69-35224

Helicopter rotors forward-flight noise characteristics determined by wind tunnel tests compared to rotor noise during flyover
18 p3119 A69-35225

Aircraft noise abatement oriented toward compatibility between airports and adjacent metropolitan environments, analyzing results for theoretical and actual airports
[AIAA PAPER 69-800] 19 p3453 A69-35593

Quiet military aircraft design factors, considering human hearing characteristics, noise suppression methods, propeller noise-performance relationships and jet engine noise nature
[AIAA PAPER 69-792] 19 p3243 A69-35637

Problems caused by air traffic rate growth in London Terminal area, examining runway limits, safety and noise restrictions
19 p3371 A69-36736

Real time analyzers of acoustic signals for aircraft engine noise, noting automatic test
20 p3462 A69-37756

Noise and vibration levels measured in An-24 Polish passenger aircraft indicating excess noise in crew compartment
22 p3862 A69-40005

STOL aircraft characteristics emphasizing ground and air space operations requirements and noise levels
22 p3863 A69-40430

Airport design for noise reduction, considering aircraft noise, runway orientation and flight paths
22 p3926 A69-40433

Helicopter main rotor noise from square tipped blades determined as function of tip speed, blade area and thrust
22 p3864 A69-40676

Lockheed 1011 propulsion system design relating to system and component maintainability, reliability, performance and noise
[SAE PAPER 690390] 23 p4201 A69-41665

Cockpit noise intensity during normal cruising operations at various altitudes for 15 different single engine general aviation light aircraft
23 p4102 A69-41676

Commercial aircraft peak cockpit noise level during cruise and high speed descent, discussing damage risk criteria and inter-pilot speech interference
23 p4102 A69-41682

Hearing adaptation measurements after aircraft noise stresses for estimation of induced noise damage
23 p4110 A69-42051

Noise levels in twin engine general aviation light aircraft cockpits, discussing protection against possible hearing damage
24 p4252 A69-42902

AIRCRAFT PARTS

Wind tunnel measurement of rear parts drag of small scale aircraft models
[ONERA-TP-633] 02 p0226 A69-11624

Explosive forming process to shape aircraft structural parts, advantages and potentials
[ASM PAPER C7-2.4] 04 p0604 A69-14524

Soviet aircraft roller bearings design, operation, service life, defect testing, etc
04 p0606 A69-14936

Aircraft gas turbine component pressure data storage and scanning
05 p0726 A69-16768

Aircraft parts manufacturer liability in air accidents, discussing litigation and warranties
06 p1042 A69-16849

Wind tunnel rain erosion testing of components of aircraft or missiles flying at high speed
07 p1117 A69-19534

Concorde equipment, summary of British companies activities in supplying components
07 p1057 A69-19706

Composite materials based on carbon and boron filaments, discussing application in turbine blades, propeller and helicopter rotor blades and airframe components
08 p1341 A69-20601

Metal castings around ceramic cores for economic manufacture of jet engines
09 p1503 A69-21907

Giant landing gear steel parts fabrication for Boeing 747 aircraft, discussing material and processing problems including Cr and Cd-Ti coatings application
09 p1434 A69-22064

Organic quenchant additive for distortion free heat treatment of dip-brazed aluminum parts
09 p1504 A69-22065

Automatic fabrication process for boron reinforced composite structures, concerning orienting and laminating jet flap skins
09 p1507 A69-22329

Nomogram for aircraft rudder pedals design and construction, considering thigh and knee angles
10 p1649 A69-23377

Explosive fabrication of aircraft components including turbine engine exhaust components, door seals, etc
[SAE PAPER 690316] 11 p1890 A69-24510

Tempered glass plates strength nondestructive testing by scattered light photoelastic method, discussing application to aircraft windshield sandwich structures
[AIAA PAPER 68-323] 12 p2118 A69-26768

Nondestructive eddy current testing of chromium steel for early stage fatigue damage of aircraft components
18 p3136 A69-34777

Reliability and component relationships of aircraft navigation systems, describing dead reckoning, position fixing, guidance and vertical navigation
18 p3168 A69-34844

Machined fastened joints for airframe structural parts, discussing fatigue life, strength and fastener hole preparation
19 p3319 A69-35553

Silico-organic liquid water repellent coatings for increasing binder adhesion to glass fiber in glass fiber reinforced plastic materials of aircraft components
21 p3752 A69-38876

Computer programming procedures in automatic control of hole boring processes for aircraft components
21 p3731 A69-38881

Stress-strain state of thick and thin walled closed shells of variable thickness during elastoplastic torsion developing in aircraft component production
21 p3835 A69-38882

Aircraft fastening systems guidelines based on mechanical strength, weight, cost and joint efficiency, discussing hole preparation and expansion design
22 p3956 A69-40822

Mechanical properties of aircraft fasteners high temperature materials
22 p3956 A69-40823

Titanium alloys for strength and weight saving in aircraft fasteners operating at cryogenic or elevated temperatures, discussing corrosion and notch sensitivity
22 p3956 A69-40824

Galvanic corrosion prevention measures for airframe fasteners, discussing crevice sealants, primers, zinc chromate, cadmium and aluminum coatings
22 p3957 A69-40825

Aircraft fastener fatigue-acceptance criteria compared with actual tests, considering unusual service conditions
22 p4045 A69-40826

Nondestructive thermal method of measuring wall thickness and channel blockage in investment castings used in aircraft parts production
24 p4312 A69-42754

Cobalt-base superalloys analysis for temperature stability, corrosion resistance, creep, fatigue and strength in aircraft structures and parts applications
24 p4334 A69-43427

AIRCRAFT PERFORMANCE

NT HELICOPTER PERFORMANCE

Aircraft flight testing for determining airframe, engine and pilot degradation, examining flutter, handling characteristics, water ballast, propulsion, etc
01 p0054 A69-10292

CH-46 Sea-Knight and CH-47 Chinook transport helicopters experience in Vietnam war, discussing missions, payloads, speeds, operating ranges, etc
01 p0009 A69-10405

T63 regenerative helicopter engine program, noting operational performance and engine-aircraft compatibility
[AHS PAPER 212] 01 p0143 A69-10410

Boeing 747 characteristics for passenger and cargo service noting economic gain, operational performance, control cabin, engine, etc
[AIAA PAPER 67-397] 01 p0010 A69-10636

BAC Three-Eleven 220 seat airliner for short and middle distance routes, discussing operating costs, thrust and range
02 p0193 A69-12067

CF6 turbofan engine technology program for improvement in performance, weight, durability, noise, etc
[SAE PAPER 680691] 03 p0496 A69-13446

Aircraft squadron performance effectiveness model
03 p0367 A69-13911

Aerodynamic technology applied to takeoff and landing, discussing STOL airplanes in descent and boundary layer control /BLC/ flap system
05 p0696 A69-15569

Factors influencing development of both wind tunnel and flight test technology for determining aerodynamic derivatives of aircraft motions
05 p0741 A69-15572

Test facilities and techniques for low speed flight problems of aircraft handling qualities, stability, control and performance
05 p0741 A69-15575

Nimrod maritime reconnaissance aircraft, discussing high speed high altitude transit flights
05 p0702 A69-15885

A-7 Corsair 2 introduction to fleet and combat operations in Southeast Asia
06 p0867 A69-17660

C-5A transport flight test and progress report, discussing taxi runs, first flights and flight-flutter program
06 p0867 A69-17665

Boeing SST designs, discussing performance, flying qualities and operational characteristics of configurations
06 p0868 A69-17830

F-111 interdiction capability, discussing avionics subsystems for low level penetration flying and Vietnam performance
07 p1052 A69-18550

Mirage G supersonic swing wing two seater aircraft performance, discussing hinging of mobile wing on pivot, fluids for airfoil-fuselage transfer, landing gear, etc
07 p1053 A69-19230

Aerial photography history, photographer qualities, airborne platforms, pilot briefing, air to air sortie, aerobatics, parachutes, etc
08 p1314 A69-20307

Optimum cruise altitude, block time and fuel relations for Convair 600/640 aircraft for various temperatures, segment distances and weight
08 p1255 A69-21007

Landing and takeoff demonstration tests of OV-10A aircraft through rough terrain, noting pilots excessive physiological stresses
[AIAA PAPER 69-316] 09 p1434 A69-22391

- JT15D business aircraft turbofan engine, discussing low costs and fuel consumption, maintenance, reliability, installation, etc
[ASME PAPER 69-GT-119] 09 p1572 A69-22524
- Airborne integrated data acquisition and analysis systems to determine aircraft technical performance 10 p1660 A69-23264
- V/STOL aircraft performance characteristics related to civil aviation operations and certification requirements [ICAS PAPER 68-05] 11 p1822 A69-24463
- Integrated computerized reliability monitoring program for detecting aircraft systems and components performance trends and optimizing cost, utility and response 12 p2055 A69-25972
- Monograph on optimal design of free-running drag turbines for boundary layer suction in aircraft, emphasizing gliders performance 12 p2011 A69-26117
- X-15 research aircraft program piloting problems, ground facilities, heat transfer, space flight and steep reentry 12 p2014 A69-26872
- Short range passenger aircraft, considering payloads, weights and economical classification 13 p2201 A69-27294
- CF6 turbofan engine technology program for improvement in performance, weight, durability, noise, etc 13 p2324 A69-27331
- Boeing 747 operational and economic considerations including capacity, airport constraints, noise factors, landing gear, compatibility, etc 13 p2201 A69-27340
- TU-134 jet passenger aircraft performance characteristics noting similarity to BAC 111 13 p2202 A69-27931
- Trident 2E aspect ratio, wing area, high lift devices, fuel capacity, range improvement, etc 13 p2202 A69-27971
- Thrust, bank angle and angle of attack of aircraft minimum fuel lateral turns at constant altitude and specified velocities 13 p2203 A69-28245
- Short takeoff aircraft characteristics, discussing aircraft certification and airfield regulation in Great Britain 13 p2203 A69-28356
- Military aircraft operating in various environments with low support costs emphasizing improved design, development and manufacturing standards 14 p2392 A69-29503
- Inverted spin testing techniques using jet trainer, emphasizing entry variations and effect on spin characteristics 14 p2392 A69-29696
- Civilian transport aircraft operation realities vs theoretical performance certification 14 p2392 A69-29698
- Fighter aircraft design and performance criteria including acceleration, maneuvering, interception and turning combat capabilities 14 p2393 A69-29700
- C-141 Category IIIB all weather landing system, discussing system concept, components, operations and performance 14 p2479 A69-29701
- Turbofan engines impact on aircraft engineering development emphasizing large performances, high fan flow rates and low fuel consumption 15 p2550 A69-30322
- CF6 turbofan engine technology program for improvement in performance, weight, durability, noise, etc [SAE PAPER 680691] 16 p2837 A69-32367
- Air transport systems aspects including efficiency, performance and economics interplay for subsonic and supersonic aircraft 17 p3018 A69-33218
- Folding propurator V/STOL aircraft characteristics, showing configuration effects on performance and optimization of rotor, wing and propulsion systems [AHS PAPER 302] 17 p2901 A69-33547
- Interim revision of military flying qualities specifications according to experimental data and characteristics of existing aircraft [AIAA PAPER 68-245] 17 p2902 A69-34026
- Performance capabilities and handling quality characteristics of aircraft equipped for in-flight thrust reversing [AIAA PAPER 68-880] 17 p2902 A69-34031
- Skyvan 2 aircraft aerodynamic design, describing modifications to increase fuel capacity, directional stability and range capability 17 p2896 A69-34193
- Fixed weight aircraft growth factor variation with location of initial weight penalty along fuselage station, using static stability margin and trim capability [SAWE PAPER 796] 18 p3220 A69-34862
- Tail tip-evacuation limits, calculating aircraft balance effect of passenger relocations by graphical method [SAWE PAPER 765] 18 p3091 A69-34877
- Design iteration loop calculations related to fighter aircraft weight growth factor, noting asymptotic aircraft performance and strength [SAWE PAPER 732] 18 p3221 A69-34893
- Synthesis and integration of cross discipline function for weight effective design of airplanes [SAWE PAPER 730] 18 p3221 A69-34895
- Monograph on weight and performance tradeoff methodology for selection of high lift devices [SAWE PAPER 761] 18 p3091 A69-34906
- Boeing 747 design and development, discussing aircraft characteristics, performance, inertial navigation system, production costs, etc [SAWE PAPER 746] 18 p3091 A69-34907
- Avionics and electronic countermeasures equipment design, development, installation and application problems for high performance military aircraft to meet hostile electronic environment [AIAA PAPER 69-822] 19 p3243 A69-35599
- Aircraft Economic Design Evaluation (AEDE)/computerized model to estimate aircraft design performance differences economic impact to carriers [AIAA PAPER 69-814] 19 p3289 A69-35626
- Aircraft performance optimization using computationally oriented strategy for handling state variable inequality constraints [AIAA PAPER 69-812] 19 p3243 A69-35628
- Takeoff and landing analysis digital computer program (TOLA)/developed by Air Force Flight Dynamics Laboratory for quantitative performance analysis [AIAA PAPER 69-810] 19 p3289 A69-35630
- Computer-generated airline fleet performance data on B-720, B-727 and DC-8 aircraft, attributing deterioration to increased drag and fuel consumption [AIAA PAPER 69-770] 19 p3245 A69-35651
- Flight control systems influence on military aircraft design and performance, discussing static stability, ride quality, flutter margin and maneuver load controls [AIAA PAPER 69-767] 19 p3245 A69-35656
- Drag influence on mission performance of hypersonic aircraft during climb and cruise, noting payload capacity 20 p3461 A69-37154
- Stability augmentation system for B-52, noting flight test performance evaluation for structural vibrations and rigid body motions of aircraft [AIAA PAPER 68-1068] 20 p3461 A69-37157
- Manned aircraft air to air combat capabilities evaluated by simulator using two cockpits, digital computer and collimated displays [AIAA PAPER 68-253] 20 p3510 A69-37159
- Tilt propurator composite aircraft design, discussing performance and mission potential [AHS PAPER 202] 20 p3463 A69-37805
- Northrop F-5-21 fighter design, avionics, performance and operational existence 21 p3646 A69-38732
- Jet fleet engine performance monitoring program, discussing systems design and resultant management planning 22 p3999 A69-39922
- Kalman filter simulation for estimating aircraft position and velocity from airborne digital computer data in zero-zero landing system [AIAA PAPER 69-944] 22 p3978 A69-40327
- MIG-21 fighter aircraft development, characteristics and technical and operational data 24 p4251 A69-42795
- Simultaneous lower atmosphere clear air turbulence analysis by multiwavelength radar, jet aircraft and special rawinsondes 24 p4342 A69-42894
- Coronary atherosclerosis in military pilot fatalities of aviation accidents, demonstrating irrelevance of amount of flying time and type of aircraft 03 p0376 A69-14080
- Retinal lacerations and detachment in jet pilots, discussing pathogenesis, diagnosis and surgical reattachment methods 05 p0710 A69-16630
- Telemetric system for in-flight measurements of jet pilot heart and circulatory system to determine flight stresses leading to pilot failure 05 p0715 A69-16707
- Airline pilot incapacitation by death or terminal collapse due to organic causes while on duty, noting incidence and resulting accidents 06 p0883 A69-17849
- Essential hypertension in selection and evaluation of airline pilots, discussing use of thiazide therapy 06 p0875 A69-17850
- Pilot protection against laser hazards, discussing protective eyeglasses, fireproof clothing and materials 07 p1072 A69-19436
- Epilepsy acquired by 25 year old jet fighter pilot, noting cardiovascular abnormalities 09 p1446 A69-22728
- Blood pressure fluctuations in multiple extra systoles during tilt table studies for flying fitness of pilot 10 p1645 A69-23379
- Preventive medicine in handling airline pilots to avoid accidents attributable to disability and death from natural causes 12 p2024 A69-26559
- Personality characteristics of jet pilots measured by Edwards Personal Preference Schedule, including percentile norms table 14 p2408 A69-29294
- Accident record of general aviation pilots over age 60/1965/ 14 p2541 A69-29308
- Inflight spontaneous pneumothorax case of civilian pilot lung collapse experience during exposure to reduced ambient pressure, discussing etiology, incidence, treatment and disposition 17 p2909 A69-33183
- Pilots mental and physical welfare, discussing roles of mental hygiene and preventive medicine in flight surgeons programs 18 p3097 A69-35301
- Fighter pilot teeth loss prevention and curative treatments, describing various suitable dentures 21 p3661 A69-39277
- Flight performance analysis of airline pilot group related to flight recording monitoring system 22 p3868 A69-41145
- Aircraft pilots medical disabilities as potential flight safety hazard, discussing aerospace medical specialist role and pilot education in symptoms evaluation 22 p3894 A69-41146
- Airline management service to cockpit team for safe operation providing safety information sources and transmission channels and undesirable trend detection and correction 22 p4054 A69-41149
- Initial training and checking of airline pilots in new equipment to ensure competency, reduce nonrevenue flight time and use minimum airspace 22 p3894 A69-41150
- Commercial aircraft peak cockpit noise level during cruise and high speed descent, discussing damage risk criteria and inter-pilot speech interference 23 p4102 A69-41682
- Civil pilots medical certification after head trauma, evaluating current methods efficiency 23 p4086 A69-41687
- Blood pressure measurements of pilots at rest during tests under stress on bicycle ergometer revealing transient hypertension 23 p4087 A69-41795
- Military pilots cervical spine dynamic X ray studies, comparing spine curvature and rectitude of jet and nonjet pilots and nonflying personnel 23 p4087 A69-41798
- Exercise prescription for hypokinetic airline pilots to prevent physiological deterioration and maintain performance, discussing predictive tests, tolerance evaluation, training regimens, etc 23 p4106 A69-41800
- Indentation tonometry for occult pathology and glaucoma in commercial pilots 23 p4088 A69-41805
- Contact lenses hazards during high altitude aircraft piloting analyzed via bubble development 23 p4106 A69-41806

**AIRCRAFT PILOTS
NT TEST PILOTS**

- Alcohol role in pilot victims of aircraft accidents 01 p0022 A69-11345
- Glaucoma in commercial airline pilots noting value and safety of routine tonometry 03 p0376 A69-14078

Jet pilot blood pressure response during positive acceleration in actual flight measured by telemetry compared with centrifuge test

23 p4089 A69-41822

Pilots body images determined by inkblot tests, considering effects of aircraft type, pilots experience, etc

23 p4112 A69-42364

Measurement methods for quantitative character of aircraft pilot rating scales for vehicle flying qualities, considering wording ambiguity, dual mission character, etc

24 p4276 A69-43326

Radiology diagnosis of military jet pilots injuries during ejection and touchdown, discussing fractures, spine injuries and ejection seat spine position

24 p4266 A69-43379

Airline pilots simulated incapacitation involving myocardial infarction or cerebrovascular accident, discussing effect on crew behavior during flight task performance

24 p4277 A69-43386

Pilots myopia incidence statistical study after initiate medical examination, emphasizing skiagram value in prognosis

24 p4267 A69-43400

Physiological and psychological variables relationship in candidate pilots, noting age and educational level

24 p4268 A69-43406

AIRCRAFT PRODUCTION

Human factors in aircraft systems, discussing personnel selection throughout design and manufacturing phases

01 p0019 A69-10449

Human engineering program plans for Phase 3 of SST Development Program in accordance with airframe and engine contracts

01 p0019 A69-10451

Electrolytic marking process for aircraft component identification without use of stamping or engraving

02 p0253 A69-12065

Compressed air in aircraft manufacture, discussing versatility in production and testing of Concorde 002

02 p0253 A69-12069

Cost analysis techniques for aircraft design and development, considering passenger capacity, flight distances and flight frequencies for various aircraft types

03 p0366 A69-13646

Soviet book on press working of aviation materials, noting granulated and powdered materials and high strength and refractory materials

03 p0451 A69-14117

Statistical analysis of aircraft programs engineering man hours, aircraft performance and weight, avionics systems, schedules, etc, as estimating standards

05 p0769 A69-16239

Nondestructive testing methods for civilian transport aircraft production, overhaul and maintenance

07 p1143 A69-19702

Forming and processing facility for producing one million titanium alloy parts per month for Boeing 747 aircraft

09 p1504 A69-22063

Incentive contracts design covering cost estimates, technical performance, realistic programs and multiple incentive arrangements

09 p1626 A69-22776

Light aircraft and helicopter manufacturing methods, design concepts and materials, discussing aluminum airframes, riveting, fiberglass, UV curing, etc [SAE PAPER 690341]

11 p1822 A69-24498

Management and control techniques for aircraft product engineering changes [ASME PAPER 69-DE-67]

14 p2540 A69-28850

Jumbo aircraft production technology causing economic setback, recommending added emphasis on passenger/cargo requirements and operating environments for greater profitability

18 p3232 A69-34542

DC 10 wing design, wind tunnel models, structural and systems testing, production and marketing [AIAA PAPER 69-830]

19 p3248 A69-36296

French helicopter industry projected development for existing types, production models or final development and long range design programs

19 p3248 A69-36848

C-5A transport aircraft airframes manufacture, discussing Lockheed profits, contract disputes and Cheyenne helicopter contract cancellation

20 p3640 A69-37355

Electron beam welding machine modifications for welded airframe components production, discussing

work chamber, vacuum system and workpiece mounting [SBAC PAPER 13]

20 p3550 A69-37455

Optimum number of test aircraft in test program to predetermine endurance and service life of same aircraft in serial production

21 p3647 A69-39098

Ti alloy aircraft components and equipment production, considering roles of temperature, deformation rate and thermal conductivity in drop forging and extrusion processes [DGLR-69-003]

23 p4170 A69-42162

AIRCRAFT PROTUBERANCES U PROTUBERANCES

AIRCRAFT RELIABILITY

Helicopter structures design for maximum practicable crashworthiness and survivability, comparing load factors and deformations with indicated human impacts tolerance [AHS PAPER 225]

01 p0009 A69-10408

Structural testing in aircraft design, discussing costs, environmental conditions, test rigs and apparatus

01 p0170 A69-10864

Reliability and maintenance economics for jet transport operations of 1980s, discussing Aircraft Integrated Data System /AIDS/ sensors design [AIAA PAPER 68-207]

01 p0011 A69-11022

Reliability in air and space travel, quality/ quantity aspects, problems and cooperation

04 p0606 A69-14803

Maintainability and reliability affect utilization and operating costs of commercial aircraft

04 p0547 A69-14806

Test equipment for rapid automatic checkout and evaluation of automatic flight control systems on commercial and jet transport aircraft

05 p0742 A69-15883

Tactical airfield/aircraft system effectiveness in terms of ground support resources, aircraft reliability and maximum potential sorties

05 p0743 A69-16238

Aviation insurance function in providing risk capital in expanding aviation enterprises at fair and equitable rates, discussing air safety

06 p1041 A69-16845

Aircraft reliability under cyclic loads in flight taking into account stress fluctuations

08 p1322 A69-21106

Large and small fixed wing airplane crashworthiness requirements, noting occupant protection in survivable crash environment and rapid safe evacuation [SAE PAPER 690321]

11 p2004 A69-24509

Engineering assessment and flight testing of aircraft systems in UK, discussing operational reliability, etc

13 p2201 A69-27539

Helicopter airworthiness requirements, discussing need for international cooperation on safety regulations

13 p2202 A69-27837

Helicopter climatic testing, discussing component, systems and field tests and facilities

14 p2427 A69-29505

Aircraft hydraulic equipment ultrafine filters effect on component life and system reliability

15 p2552 A69-30069

FAA additional airworthiness standards for small aircraft in air taxi and commercial operations, noting safety levels [SAE PAPER 690320]

15 p2549 A69-30090

Spray oil cooling to reduce aircraft generator weight, enhance reliability and lengthen overhaul intervals

15 p2552 A69-30326

Propulsion system influence on aircraft reliability from viewpoint of engine manufacturer

15 p2629 A69-31122

VFW H3 Sprinter autogyro maintenance, reliability and operating costs

16 p2735 A69-32056

Fatigue life estimation for irregularly varying loads with emphasis on ground-air-ground stress cycles in aircraft

17 p3052 A69-32977

Airworthiness objectives for civil powered lift aircraft, discussing safety, traffic growth and accident rates

17 p2897 A69-33211

Spacecraft and aircraft components failure analysis for ensuring high reliability of final products

18 p3143 A69-34483

Ballistic missile and aircraft operational effectiveness, discussing data collection, reliability, availability and capability surveillance by computer

18 p3145 A69-34500

C-141 aircraft reliability growth history, discussing fleet performance, aging trends and delivery vs production sequence

18 p3090 A69-34521

Reliability and component relationships of aircraft navigation systems, describing dead reckoning, position fixing, guidance and vertical navigation

18 p3168 A69-34844

Aircraft on board weight and balance system, discussing operations and economics programs [SAWE PAPER 805]

18 p3091 A69-34900

Product reliability program for C-5A to provide high delay/abort reliability during operational usage

19 p3247 A69-36011

System engineering to select hydraulics subsystems for advanced fighter aircraft by cost effectiveness analysis, noting maintainability and reliability

19 p3254 A69-36012

Combat fielded cargo-carrying CH-54A Flying Crane helicopter industry-government reliability/maintainability field test evaluation

19 p3247 A69-36017

DC 10 aircraft reliability program, discussing passenger attractiveness, dispatch reliability, maintenance cost, flight safety and computer simulation for reliability engineering

19 p3248 A69-36027

Airworthiness certification of civil aircraft, discussing international cooperation on inspection, accident investigation, etc

19 p3456 A69-36688

Flight vehicle motion optimization taking into account random failures of sectioned power plant with limited capacity and independent parallel units

21 p3647 A69-38893

Optimum number of test aircraft in test program to predetermine endurance and service life of same aircraft in serial production

21 p3647 A69-39098

Soviet book on fluid contamination influence on aircraft hydraulic systems operational reliability covering friction, particle size, filtration, etc

21 p3649 A69-39530

Design criteria for Concorde SST servoflight control system reliability and safety

21 p3650 A69-39697

Engine powered lift civil aircraft certification factors taking into account traffic growth, accident rates, learning rate and acceptable safety level

22 p3862 A69-39962

Reliability prediction accuracy through reliability testing with reference to interplay between design, manufacture, test programs, environmental conditions, etc

22 p3952 A69-40023

Safety implications of technological developments in aviation, discussing standards and statistical data for supersonic transports and jumbo jets

22 p3867 A69-41134

Lockheed 1011 propulsion system design relating to system and component maintainability, reliability, performance and noise [SAE PAPER 690390]

23 p4201 A69-41665

AIRCRAFT SAFETY

Aircraft accidents, discussing complexity analysis, wreckage, anomalies and investigator role

01 p0009 A69-10335

Helicopter structures design for maximum practicable crashworthiness and survivability, comparing load factors and deformations with indicated human impacts tolerance [AHS PAPER 225]

01 p0009 A69-10408

Head-Up Display /HUD/ flight information applied to civil aviation, noting operational safety improvement and pilot work load reduction

01 p0020 A69-10635

In-flight measurement of shock and vibration effects on aircraft and propulsion systems

01 p0084 A69-11051

In-flight and flight line checkout techniques for foreign object damage to jet engines

01 p0056 A69-11055

Litigation for aircraft accidents, discussing legal and fiscal aspects and deterrent effect contributing to aviation safety

01 p0181 A69-11393

Safety problems of jumbo jet Airbus and SST, discussing operational safety procedures and techniques

03 p0365 A69-12882

Aircraft flight safety, discussing structural and aerodynamic concepts, maintenance and operations

03 p0365 A69-12886

- Lightning strikes to aircraft, discussing corona discharge, electric fields and meteorological measurements during thunderstorm in cumulonimbus
03 p0458 A69-13031
- Automatic all-weather landing system for scheduled civil passenger aircraft, discussing safety, display devices, Category 2 and 3 conditions
03 p0465 A69-13697
- Temperature stresses analysis for jet lift VTOL aircraft structure during takeoff and landing, discussing fire hazard in lift pod
04 p0548 A69-14841
- Soviet book on aeronautical climatology covering methodology of climatologic indices useful for airfields, pilots and flight routes evaluation
04 p0627 A69-14935
- Explosive devices to sabotage aircraft in flight, discussing evidence of sabotage in aircraft wreckage and detection of explosives before loading
04 p0549 A69-14943
- Liquid nitrogen inertant for continuous suppression of pressurized fuel tank explosion
05 p0703 A69-16505
- Ideal safety system for accident prevention, considering foreseeable and unforeseeable aspects to eliminate individual or collective human error
06 p1040 A69-16836
- Air safety, emphasizing misunderstandings or unresolved problems in accident prevention connected with law/safety interface
06 p1040 A69-16837
- SST System Safety Program, discussing cosmic radiation and aerodynamic heating
06 p1041 A69-16838
- FAA aviation safety program design standards, maintenance and inspection procedures and assessment of accidents
06 p1041 A69-16839
- Airline safety programs focused on developing reliable automatic landing system, realistic pilot training and airborne monitoring/recording system
06 p1041 A69-16840
- Aviation safety information dissemination to improve accident and incident prevention
06 p1041 A69-16841
- USAF accident information, reporting and retrieving, describing Directorate of Aerospace Safety structure and functioning
06 p1041 A69-16843
- Aviation insurance function in providing risk capital in expanding aviation enterprises at fair and equitable rates, discussing air safety
06 p1041 A69-16845
- Air carrier legal responsibility for commercial air safety as compared to liability in other transportation modes
06 p1042 A69-16847
- Federal government legal liability for commercial air safety in aircraft accident suits
06 p1042 A69-16848
- Tort system of U.S. law effect on air safety promotion, discussing liability influence on government, manufacturers and airlines
06 p1042 A69-16850
- Rain repellent system providing transparent film on aircraft windshield surface
06 p0877 A69-16954
- Small column insulated delay /SCID/ aircraft seat ejection systems, illustrating weight saving
06 p0877 A69-16957
- Aircraft accident prevention and damage control
06 p0878 A69-16961
- Supersonic aircraft fire detection using coherent fiber bundles
06 p0926 A69-17679
- Commercial jet safety, analyzing aircraft accidents and accident rates
06 p0868 A69-17829
- Aircraft radomes lightning protection, discussing evaluation by experimental methods and simulation
07 p1142 A69-19535
- Optimum approach and departure paths for VTOL aircraft simulated by hybrid computer under constraints
[AIAA PAPER 69-209] 07 p1178 A69-19570
- Damage tolerance as design consideration for aircraft safety and reliability, discussing application of failed single principal member concept to airframe construction
[AIAA PAPER 69-212] 07 p1056 A69-19574
- System safety analysis for V/STOL aircraft, discussing fault-tree technique role in fail-safe design
[AIAA PAPER 69-216] 07 p1056 A69-19575
- NASA flight safety research, discussing size effects on aircraft handling and built-in response to failure modes
07 p1057 A69-19764
- Air safety - Conference, Seattle, July 1968
08 p1315 A69-20449
- FAA regulations for improvements on crashworthiness and emergency evacuation from viewpoint of plastic applications and fire safety in aircraft
08 p1254 A69-20497
- Air traffic lateral separation assurance over North Atlantic for increased routes capacity without safety reduction
08 p1349 A69-21200
- Airport evolution in London, discussing transportation, safety, international trade, economics, aircraft types and noise spectra
09 p1479 A69-22582
- Business aircraft injury protection and impact survival design considerations, stressing upper torso restraint installations
[SAE PAPER 690335] 11 p1829 A69-24493
- Anticing for all-weather operation of business jets, discussing atmospheric conditions, ice formations, prevention and removal systems
[SAE PAPER 690335] 11 p1822 A69-24500
- Large and small fixed wing airplane crashworthiness requirements, noting occupant protection in survivable crash environment and rapid safe evacuation
[SAE PAPER 690321] 11 p2004 A69-24509
- Passenger aircraft flight readiness verification, discussing flaw and corrosion detection and rivet joint inspection methods
11 p1822 A69-24526
- Aircraft safety hazards due to birds, discussing radar role in plotting bird migrations
11 p1837 A69-25247
- Airborne collision avoidance system /CAS/ performance and operational requirements
11 p1914 A69-25430
- Aeromedical investigation of civil aircraft accidents by National Transportation Safety Board, noting post-mortem legal aspects and need for human factors investigation
12 p2021 A69-25840
- Aviation pathology in aircraft accident investigation of accident survivability features and accident precipitation factors, noting cockpit structures and protective equipment
12 p2021 A69-25841
- Civil aircraft accident investigation, discussing organization and procedures of Bureau of Aviation Safety of National Transportation Safety Board
12 p2191 A69-25844
- Monograph on physicochemical principles of takeoff monitoring systems for large aircraft covering taxiing, safety control systems design, analog simulation, etc
12 p2128 A69-26119
- Traditional flight crew organization relevance to current and developing flight systems, discussing inadequacies, anachronisms and safety threats
12 p2023 A69-26555
- Aircraft collision avoidance systems development, current status and future prospects, discussing basic requirements, criteria and prototypes
13 p2295 A69-27330
- Runway roughness induced vibrations in highly flexible aircraft, noting effect on pilot control of aircraft and airframe structure
14 p2392 A69-29504
- Safety measures for aircraft ditching at sea, discussing low wing configuration advantages and life rafts
14 p2392 A69-29697
- FAA additional airworthiness standards for small aircraft in air taxi and commercial operations, noting safety levels
[SAE PAPER 690320] 15 p2549 A69-30090
- Air lane longitudinal separation distance reduction for accommodating increased traffic using airborne computers for single file system
15 p2651 A69-30293
- Air transport industry safety record and variable stability research planes to simulate aircraft airborne behavior and handling qualities
15 p2558 A69-30453
- Turbulence and SST, discussing subsonic accidents, probability of encountering gust induced accelerations, turbulence at cruise altitudes, radar storm return and mountain waves
16 p2808 A69-32368
- Nuclear aircraft power plant, discussing safety, economy and obstacles
[AIAA PAPER 69-554] 16 p2811 A69-32761
- Protective helmet design effectiveness against concussion and skull fracture as function of dimension, weight, load spreading, etc
17 p2913 A69-33177
- Airworthiness objectives for civil powered lift aircraft, discussing safety, traffic growth and accident rates
17 p2897 A69-33211
- Airfield bird scaring methods including Very pistol shell cracker firing and broadcast calls on civilian and military airfields
17 p2915 A69-33365
- Navigation and guidance systems for low altitude aircraft flight safety noting position determination, cockpit environment and fail-safe operation
17 p3002 A69-34080
- L-1011 Tri-Star aircraft systems and safety provisions, discussing automatic flight control system, propulsion, noise reduction, galley, coat storage and cabin window shades
[AIAA PAPER 69-828] 19 p3243 A69-35598
- Air piracy legal aspects as determined by Swiss law and Treaty of Tokyo
19 p3454 A69-35979
- Descent device for emergency egress from jumbo jets based on centrifugal brake, including test data on C-5 fuselage section
19 p3255 A69-36146
- Problems caused by air traffic rate growth in London Terminal area, examining runway limits, safety and noise restrictions
19 p3371 A69-36736
- Concorde SST fire protection equipment, discussing fire and overheat detectors, fire extinguisher, crash fire protection, explosion suppression equipment, etc
19 p3256 A69-36864
- Electrohydraulic servosystem to counteract atmospheric turbulence effects on B-52 global bombers, noting reduction in aircraft fatigue and structural damage
20 p3467 A69-38184
- Design criteria for Concorde SST servoflight control system reliability and safety
21 p3650 A69-39697
- Custody, jurisdictional conflict and prosecution problems of in-flight crimes, discussing federal judicial jurisdiction and Tokyo Convention ratification
22 p4053 A69-40708
- Air safety - Conference, Anaheim, October 1968
22 p3866 A69-41127
- Reliability engineering application to aircraft safety, considering mathematical models involving safety, human errors and accident causes
22 p3867 A69-41129
- Planning for safety of future supersonic air traffic including financing and coordination activity of government and industry
22 p4054 A69-41131
- Safety engineering programs for aircraft design, discussing organizational relations, failure and operational safety analyses
22 p3867 A69-41132
- Safety standards for DC 10 aircraft, considering cockpit design, hydraulic, electric power, autoland and direct lift control systems, structural safety and crash worthiness
22 p3867 A69-41133
- Safety implications of technological developments in aviation, discussing standards and statistical data for supersonic transports and jumbo jets
22 p3867 A69-41134
- B-747 safety assurance program, discussing organization, management, hazard sources, accident statistics, night visual approach and maintainability
22 p3867 A69-41135
- Boeing 747 safety engineering program, discussing organization, design review, system safety, systems design-analysis and tests
22 p4054 A69-41136
- Third generation jet aircraft safety, discussing accident prevention and survival
22 p4054 A69-41142
- XB-70 aircraft test data as applied to SST safety, describing aircraft design, flight characteristics, instrumentation, takeoff and landing, etc
22 p3868 A69-41143
- Airport standards analysis for safe, efficient air carrier operations including airport funding, safety programs for runways and terminal facilities
22 p4054 A69-41144
- Vertebral column fracture resulting from aircraft ejection, studying ejection seat geometry and personal equipment design influence on spinal curvature relation to catapult thrust
23 p4102 A69-41681

Civil aircraft structural components failure analysis, discussing fatigue failures and fail-safe design for accident prevention

24 p4251 A69-42779

F-5 cockpit fogging during low flights and dive bombing in South Vietnam attributed to hot humid weather, recommending cockpit temperature control and pilot diet

24 p4277 A69-43376

Damage tolerance design concepts required to obtain reliability, maintainability and operational safety of complex aircraft

[ICAS PAPER 68-23] 24 p4254 A69-43717

AIRCRAFT SPECIFICATIONS

Wind gust simulation procedures, discussing high altitude clear air turbulence and simulation of air perturbations

03 p0461 A69-13647

Lockheed 1011 Tristar with three turbofan engines for large capacity medium range service, noting configuration, aerodynamics, structure and cutaway drawings

08 p1255 A69-21143

Large and small fixed wing airplane crashworthiness requirements, noting occupant protection in survivable crash environment and rapid safe evacuation

[SAE PAPER 690321] 11 p2004 A69-24509

Douglas DC-10 medium range aircraft, discussing engine placement, passenger and cargo capacity, construction data, etc

11 p1823 A69-25211

Aircraft engines future specifications as affected by expanding market, noting speed requirements and thrusts

11 p1942 A69-25215

Concorde SST industrial project in international cooperation and stage in transport history including supersonic boom, weight, fuel consumption rates and aerodynamic heating

12 p2013 A69-26356

Short range passenger aircraft, considering payloads, weights and economical classification

13 p2201 A69-27294

Dassault Mercure high speed twin turbojet aircraft, discussing capacity, range, propulsion, profitability threshold, etc

15 p2550 A69-30318

Military V/STOL aircraft flying qualities specification, considering structure, hover and low speed requirements, forward flight, transition maneuverability and control

[AHS PAPER 363] 17 p2900 A69-33520

Interim revision of military flying qualities specifications according to experimental data and characteristics of existing aircraft

[AIAA PAPER 68-245] 17 p2902 A69-34026

Airframe cost element prediction and application to cost control, considering government specifications

[SAWE PAPER 731] 18 p3221 A69-34894

Boeing 747 design and development, discussing aircraft characteristics, performance, inertial navigation system, production costs, etc

[SAWE PAPER 746] 18 p3091 A69-34907

Aircraft interior conversion for passenger or cargo service, discussing convertible aircraft and quick change concepts

[AIAA PAPER 69-784] 19 p3244 A69-35642

AIRCRAFT STABILITY

NT HOVERING STABILITY

Supercritical flow effects on unsteady aerodynamic coefficients used for subsonic aircraft flutter analysis, emphasizing changes due to shock and flow separation

01 p0007 A69-11020

Two term and three term controllers for hovering rigs and VTOL aircraft, comparing stability, transient response and control force

04 p0547 A69-14814

Aircraft stability during sideslip, discussing influence of fuselage/wing interference

04 p0548 A69-14824

Root locus method applied to longitudinal and lateral stability of aircraft with flexible fuselage and wing

04 p0677 A69-14835

Optimal flight stabilization of VTOL aircraft in hovering mode based on linear rotation dampers system

05 p0702 A69-16024

Modal response analysis of servocontrols as deduced from vibration test, for possible application to aircraft

[ONERA-TP-668] 06 p0869 A69-17100

Longitudinal stability derivatives prediction for rigid and elastic airplanes, using influence coefficient method

[AIAA PAPER 69-131] 06 p0868 A69-18134

Variable properties aircraft for flying simulator, discussing flight control system and stability behavior

07 p1052 A69-18254

Flying qualities considerations in design and development of Huey Cobra for helicopter attack mission, describing stability and control augmentation systems

[AHS PAPER 217] 07 p1053 A69-18871

Longitudinal stability of V/STOL aircraft at low speeds, discussing three tilt wings and quad ducted propeller configurations

[AIAA PAPER 69-194] 07 p1055 A69-19566

Control technique to make aircraft insensitive to parameter variations and to achieve desired response to control

08 p1255 A69-20719

Fluidic control systems for angular rate and attitude stabilization flight-tested, noting good impact and acceleration resistance

[AGARDGRAPH-118] 08 p1257 A69-20955

Helicopter instability on ground with propulsion system operating and inoperative, discussing overturning, restoring moments and pilot training

09 p1433 A69-21385

Lateral stability of glider towed by cable in steady rectilinear horizontal flight, deriving motion equations as ordinary differential equations

09 p1433 A69-21498

Aircraft gust alleviation system for minimizing weighted sum of normal acceleration and pitch rate response by limiting control surface deflections

09 p1434 A69-22279

Newton-Raphson technique development for determining stability derivatives from flight data, noting use of a priori wind tunnel information

[AIAA PAPER 69-315] 09 p1434 A69-22379

Helicopter all-weather flight control system, using autostabilization and artificial horizon

09 p1435 A69-22778

Root sensitivity of characteristic equation of linear automatic control system to system parameter changes applied to aircraft angular stabilization

10 p1666 A69-23610

Book on aircraft stability and control covering conventional, canard, variable sweep, slender delta wing, helicopter and other VTOL aircraft

11 p1821 A69-24370

Atmospheric turbulence effects on aircraft flight noting causes of turbulence

11 p1911 A69-24527

Optimum planform stabilizer selection for damping of rotational motion and elastic torsional stresses of aircraft fuselage about longitudinal axis

11 p1966 A69-25327

Aircraft dynamic response to three dimensional turbulence, establishing unique correspondence between spatial symmetry properties of ambient fields of turbulence and aircraft

11 p1823 A69-25503

Aircraft stability derivatives determined by adaptive method, emphasizing physical and mathematical characteristics of learning model

11 p1824 A69-25671

Computer aided design of linear multivariable control systems applied to VTOL aircraft stability augmentation

12 p2013 A69-26068

Monograph on rapid rotations of aircraft with fixed controls, covering spin and roll movements differential equations

12 p2013 A69-26118

Digital computerized analysis and characteristics of variable stability aircraft, examining digital control system

15 p2549 A69-30229

Air transport industry safety record and variable stability research planes to simulate aircraft airborne behavior and handling qualities

15 p2558 A69-30453

Aircraft neutral stability empirical and mathematical aspects, considering control stabilization, damping and phugoid motion

15 p2551 A69-31012

Stabilizing methods for supersonic aircraft, noting effect of aircraft characteristic parameters on magnitude of balancing coefficients of lifting force

16 p2735 A69-32127

Stability augmentation system for CX-84 tilt wing V/STOL aircraft, using redundancy techniques to achieve fail operational performance with two active channels

[AHS PAPER 310] 17 p2901 A69-33545

VTOL variable stability system /VSS/ for XV-4B lift jet for flight control and handling verification

17 p2902 A69-34066

Soviet book on practical aerodynamics of An-2 aircraft covering aerodynamic characteristics, equilibrium, stability and control for various flight conditions, including icing

18 p3090 A69-34340

STAN integral weight and balance system providing aircrews with takeoff gross weight and CG data

[SAWE PAPER 755] 18 p3136 A69-34882

Additional yawing by gyroscopic moment of power plant and effect on aircraft maneuver during curvilinear flight, noting compensation by automatic control

18 p3092 A69-34971

Angular velocity of aircraft rotation about longitudinal axis at arbitrary point of passive trajectory section, with assumptions on roll damping, momentum, etc

18 p3092 A69-34980

Higher harmonic pitch angle inputs to eliminate oscillatory helicopter blade root shear determined through teetering rotor model

18 p3089 A69-35233

Fighter aircraft higher order control system dynamics effects on longitudinal handling qualities evaluated by in-flight simulator for role of pilot induced oscillations tendencies

[AIAA PAPER 69-768] 19 p3245 A69-35655

Differential synthesis technique application to design of multi-axis stability augmentation systems for aerospace vehicles

[AIAA PAPER 68-834] 20 p3616 A69-37156

Stability augmentation system for B-52, noting flight test performance evaluation for structural vibrations and rigid body motions of aircraft

[AIAA PAPER 68-1068] 20 p3461 A69-37157

High altitude aircraft range requirements for airborne turbulence detector, taking into account passenger comfort, turbulence geometry, maneuverability and pilot decision making

20 p3537 A69-37164

Flight control and stability of STOL transport aircraft with powered-lift boundary layer control system augmented lift

20 p3462 A69-37513

Aeroelastic instabilities of aircraft in flight by representing motion in space function base, using natural vibration mode

[ONERA-TP-697] 20 p3626 A69-37755

Equations of motion for optimal attitude of suborbital aircraft regarding time and distance range

21 p3795 A69-38440

Flight control system providing variable stability in pitch axis of NF-8D Crusader, discussing flight evaluation of power approach short period configurations

[AIAA PAPER 69-896] 21 p3648 A69-39420

In-flight test to determine variation effects in bank angle control parameters on cruise flight handling qualities, considering spiral stability

[AIAA PAPER 69-893] 21 p3648 A69-39425

Aircraft directional stability in terms of ideal non-holonomic coupling on mechanical system, noting servosystem role

21 p3830 A69-39836

Noise and vibration levels measured in An-24 Polish passenger aircraft indicating excess noise in crew compartment

22 p3862 A69-40005

Fluidic servoactuator controlled by hydraulic vortex valves using mechanical signals for helicopter stability augmentation system

24 p4255 A69-42800

LF approximation in predicting unsteady aerodynamic forces affecting large aircraft stability, analyzing velocity potential of oscillating wings

24 p4250 A69-43729

AIRCRAFT STRUCTURES

NT AIRFRAMES

NT FUSELAGES

NT PLASTIC AIRCRAFT STRUCTURES

Structural vibration problems of SA 330 helicopter from test flight data, discussing natural frequency displacement of blades and dynamic response improvement of structure

01 p0009 A69-10158

Power spectral density method of random loads analysis applied to V/STOL aircraft structural analysis, discussing statistical distribution

01 p0168 A69-10407

Balsa wood laminates as aircraft structural material noting thermal properties, fire and fatigue resistance, weight savings, etc

01 p0101 A69-10595

Structural testing in aircraft design, discussing costs, environmental conditions, test rigs and apparatus

01 p0170 A69-10864

Fabrication of large parts in aircraft and space industry, discussing extrusion, forging, explosive forming and diffusion bonding

01 p0088 A69-11400

Concorde structural tests, discussing ground test program for simulating flight temperature and stress conditions at 2.6/2.7 station of wing-fuselage section

02 p0193 A69-11892

Strain multiplier device for fatigue sensors for totalizing resistance change from aircraft service load parameters

02 p0250 A69-12230

Book on flight structure theory and analysis covering methods for digital computers, differential equations for equilibrium boundary value problems, etc

03 p0525 A69-13266

Kinetic heating of aircraft, discussing aerodynamic boundary layer, relationship between heat transfer coefficient or boundary layer energy turbulence and skin friction

03 p0534 A69-14087

Skin panel stresses for random acoustic loading, determining aircraft structure responses

03 p0530 A69-14092

Soviet collection of papers on aircraft construction and air fleet equipment

04 p0672 A69-14483

Spar attachments of aircraft wings analyzed with respect to weight and applied loads, determining optimum bolt diameter ratio to lug width

04 p0673 A69-14496

Explosive forming process to shape aircraft structural parts, advantages and potentials

04 p0604 A69-14524

Ground vibration testing of flight and space vehicles, noting structural damping asymmetries and nonlinearities

04 p0585 A69-14833

Calculation method for surface aircraft structures by treating normal forces and bending moments as unknown values

04 p0677 A69-14839

Phenolic and epoxy adhesives for metal-metal and honeycomb bonding, discussing cold cure adhesives for aircraft structures and aircraft floor sandwich design optimization

04 p0606 A69-14845

Aircraft structure lightweight construction materials, reviewing Ti alloys and Be and Al-B bonded filament materials

05 p0779 A69-15917

Open class type glider design, discussing structural materials, dimensions and control

05 p0702 A69-16027

Statistical method to investigate time varying stresses in helicopter structures, considering service life evaluation

05 p0767 A69-16775

Turbulent boundary layer loading function for use with finite element structural analysis system applied to elastic aircraft structures random vibration

06 p0914 A69-18132

Static endurance of aircraft structural elements under single and multiple loading, based on real alloys and crystalline materials theories

07 p1231 A69-18554

Concorde testing program, detailing materials, structure, systems, engine, wind tunnel and flight tests

07 p1054 A69-19294

Fail-safe design principles and criteria for helicopter structures to prevent operational failure arising from undetected fatigue damage

07 p1054 A69-19549

Fabrication and processing techniques, tooling concepts and quality control for composite materials used in large aircraft, discussing honeycomb and sandwich structures

07 p1172 A69-19670

Titanium hot forming and sizing die fabrication concepts for aircraft structures

07 p1143 A69-19671

Technology of titanium for C-5A aircraft, discussing structural and functional components and machining, welding, forging, etc

07 p1143 A69-19672

Concorde equipment, summary of British companies activities in supplying components

07 p1057 A69-19706

Al alloys application to Concorde project and other aircraft structures, noting mechanical properties

08 p1335 A69-21141

Aircraft structural aluminum alloy fatigue life, considering atmospheric relative and absolute humidity

09 p1521 A69-21390

Forming and processing facility for producing one million titanium alloy parts per month for Boeing 747 aircraft

09 p1504 A69-22063

High strength room temperature vulcanizing silicone rubber for tooling and fabrication of aircraft and missile components

09 p1507 A69-22331

Ultrasonically assisted installation of fasteners for weight savings in aircraft/spacecraft structures

09 p1478 A69-22373

Fatigue strength and aircraft structural standards based on experimentally determined safety factors

09 p1619 A69-22571

Elastoplastic stress in notch as cause of decreased lifetime of aircraft components, analyzing stress reversal and displacement during takeoff and landing

09 p1620 A69-22576

Pulse echo ultrasonic nondestructive testing of C-5 adhesive bonded aluminum composites with multiple bond lines

10 p1698 A69-23047

Titanium compared with aluminum in application to supersonic aircraft structures, considering tests and costs

10 p1700 A69-23600

Cyclic stress-strain and fatigue behavior in aircraft structural metals, discussing hardening and softening in aluminum alloys, steels and titanium alloys

10 p1714 A69-23981

Active feedback control of distributed parameter systems including elastic airplane and missile structures, noting feedback loop coupling problem

10 p1668 A69-24145

Dynamic IR inspection to detect fatigue cracks in aircraft and missile structure from distance

11 p1861 A69-24262

Aircraft structures fatigue strength determination, discussing test procedures, sample preparation, strength prediction, etc

11 p1970 A69-24525

Aircraft structures fatigue life determination based on Kordonskii method, comparing steel tests result with linear summation theory

11 p1987 A69-25345

Permissible expenditures for decreasing aircraft structural weight

11 p2005 A69-25349

Variable and fixed weight growth factor effect on aircraft, showing coincidence of minimum weight

11 p1987 A69-25432

Aircraft structure geometry design for minimizing total mass concerning flutter requirements

11 p1989 A69-25493

Servocontrol to delay flutter onset of aeroelastic structures, discussing rapid amplitude and phase changes near instability point, wind tunnel models, instrumentation, analog simulation

11 p1992 A69-25518

Fabrication, machining and contouring of boron-epoxy composite for sandwich type aircraft structure, noting F-5 supersonic fighter main landing gear strut door

12 p2103 A69-26826

Diffusion bonded Ti honeycomb sandwich, demonstrating structural integrity, efficiency, low weight and cost effectiveness

12 p2115 A69-26828

Collection of papers on aerodynamic flutter covering airfoils, flow theory, aircraft structures, etc

13 p2358 A69-27234

Trident 2E and 3B structural design and fail-safe tests, noting difference in fuselage length

13 p2202 A69-27972

Book on subdivision of aircraft structural design covering technology, economics, working conditions, performance, etc

14 p2456 A69-29860

Electron beam welding characteristics for aircraft components and design noting limitations

15 p2617 A69-30089

Polyurethane with additives for fuel fire control in aircraft structures, achieving desired protection without impairing foams mechanical properties

15 p2561 A69-30311

Civil aircraft projected development regarding materials and structures, discussing new components and fuel contribution to weight and metals and composites for replacing Al

16 p2872 A69-32024

Book on soviet An-24 aircraft construction and exploitation covering fuselage, powerplant, controls, fire prevention, air conditioning, maintenance, etc

16 p2735 A69-32112

Starting weight increments in aircraft designs having various structural features and dimensions

16 p2735 A69-32144

Numerical procedure to optimize complex structures by determining relative proportions of selected elements attaining flutter speed with minimum total mass

16 p2874 A69-32163

Aircraft and missile dynamic characteristics for heavy loads and large heat flux, noting small harmonic vibrations of heated structures in plastic domain

17 p3061 A69-33589

Passenger cabin windows on Conqair liner type aircraft, describing construction, installation, strength, etc

17 p3061 A69-33667

Damping properties of multilayer coatings for aircraft structures analyzed on duralumin samples subjected to bending at room, elevated and low temperatures

17 p2993 A69-33941

Moldable plastic shim material for structural airframe components, discussing application requirements

19 p3319 A69-35551

Static dynamic and damage tolerant strengths of advanced materials for VTOL aircraft with emphasis on Ti, cryoformed 301 stainless steels and filamentary composites

19 p3433 A69-35658

Stress coining methods for improving aircraft structure fatigue life by controlling material yielding inside holes and materials surrounding holes and slots

19 p3433 A69-35659

Collection of papers on aircraft construction and air fleet equipment covering aerospace vehicles theory, engines, automation, design and production

19 p3246 A69-35813

Aircraft structures design, discussing reinforced sandwiches and composites, failure mechanisms, non-destructive testing and fabrication

19 p3438 A69-36325

Relationship between chronological and fatigue life in airframes, showing fatigue life dependence on operating conditions, pilot techniques and maintenance and inspection quality

20 p3461 A69-36920

Soviet monograph on metal fatigue in aircraft structures, discussing effects of temperature, loading, residual stresses, surface finish and contact corrosion

20 p3622 A69-37231

Supersonic blowdown wind tunnel operating at Mach numbers obtained by fixed nozzles for aerodynamic optimization of wings and bodies

20 p3510 A69-37422

Soviet book on interchangeability of structural elements in aircraft construction, discussing experiences in serial production of aircraft and helicopters

20 p3462 A69-37443

Al alloy application to welded primary airframe structures, discussing welding processes with emphasis on fusion welding

20 p3549 A69-37445

Weld defect data analysis in relation to aerospace structure performance, emphasizing effect on fatigue behavior and acceptance standard

20 p3550 A69-37450

Welding quality control in aircraft structures, considering weld design, process, weld and materials specifications, welding equipment and inspection

20 p3550 A69-37452

Seam welded Al alloy aircraft structure fabrication problems, emphasizing stress corrosion

20 p3550 A69-37454

Electron beam welding for fabrication of aircraft structures, discussing fatigue strength of Ti and Al alloys and margining and low alloy steels

20 p3550 A69-37456

Aircraft structures efficiency and weldability as function of application, welding procedures and metallurgical factors, considering high strength Al alloys, Ti and Ni alloys, etc

20 p3550 A69-37457

Eddy current machine /nondestructive testing device/ for aircraft structures surface cracks detection

21 p3719 A69-38391

Carbon fiber reinforced plastics application to aircraft metal components for weight reduction, low cost and high mechanical properties

21 p3750 A69-38428

Ti structural components for forgings, noting problems facing die-forging industry and machining equipment

21 p3728 A69-38459

Plasma metal spray coating for Al and Mg alloy aircraft components adhesive bonding repair technique compared to welding and electroplating

21 p3728 A69-38462

Design and processing tradeoffs for preventing stress corrosion cracking in Al alloy aircraft structural forgings
[ASM PAPER W9-14.4] 21 p3729 A69-38657

Computerized aircraft structural analysis system, adopting finite element technique /direct stiffness method/ based on COSMOS system
21 p3842 A69-39307

Creep buckling strength reduction of aircraft compression structure, discussing initial eccentricity and loading mode effects on supersonic aircraft operation mode
21 p3842 A69-39308

Al-B composite aircraft structure fabrication, discussing wingspan segment, resistance spot welding, hot forming of joggles, etc
[AIME PAPER S69-1] 21 p3732 A69-39471

Book on convergence in calculation of elastoplastically deformable aircraft structures and continua, covering matrix displacement method and stepwise linearized computational technique
22 p4044 A69-40619

Aircraft fastening systems guidelines based on mechanical strength, weight, cost and joint efficiency, discussing hole preparation and expansion design
22 p3956 A69-40822

Large diameter bolts in aircraft structures resisting hydrogen embrittlement and stress corrosion, noting fatigue properties
22 p3957 A69-40827

Interference fit fasteners role in improving aircraft structure fatigue life through preload barrier against fatigue stresses
22 p3957 A69-40830

Airplane structure electromagnetic compatibility engineering problem including bonding, electrointerference suppression and static control considerations
23 p4063 A69-42234

Civil aircraft structural components failure analysis, discussing fatigue failures and fail-safe design for accident prevention
24 p4251 A69-42779

Aircraft Structures and Materials Application - Conference, Seattle, September 1969
24 p4321 A69-43416

Aircraft structure fabrication combining unidirectional strength and stiffness of B composite with metal, including test and weight/cost data
24 p4323 A69-43419

Cobalt-base superalloys analysis for temperature stability, corrosion resistance, creep, fatigue and strength in aircraft structures and parts applications
24 p4334 A69-43427

Concorde elevons sandwich construction to meet sonic environment, discussing core, adhesive, design and fabrication
24 p4403 A69-43429

Ti and Ti alloys investment castings mechanical properties, dimensional control and corrosion resistance in aircraft and aerospace structural application
24 p4324 A69-43433

SST range-payload improvement by emphasizing Ti alloys honeycomb and trusscore sandwich panels fabrication for structural boxes in wing and empennage
24 p4324 A69-43436

Aerospace fastener systems standardization proposal to reduce inventories, simplify design and provide extended structural life
24 p4325 A69-43439

Aerospace fastening system requirements to lower in-place costs, extend service life and reduce weight of aircraft
24 p4325 A69-43440

Fastener materials selection for high temperature aircraft structures, considering various physical properties influence
24 p4325 A69-43441

Orthotropic fiberglass/epoxy faced honeycomb aircraft type sandwich structure elastic properties by edgewise compression test
24 p4403 A69-43443

Boron epoxy composites evaluation for use in aircraft dynamic components, considering fatigue failure mechanism identification
24 p4337 A69-43450

Polycarbonate and polysulfone thermoplastic bonding of Al and Ti in aircraft structures, discussing peel strength and stress crazing tests
24 p4326 A69-43459

F-111 sandwich structure adhesive joints glue lines, describing thickness measurement techniques and acceptance criteria
24 p4403 A69-43461

Adhesive bonded joints for glass resin composite sandwich helicopter structures, describing aircraft applications
24 p4403 A69-43462

Anaerobic adhesives for aircraft bonding tested for mechanical properties, noting advantages over epoxy adhesives
24 p4338 A69-43464

AIRCRAFT TIRES

Aircraft tire wear determination by measuring intensity of radiation originating from point source within thread, using thulium 170 isotope
07 p1143 A69-19703

Hertz impact theory application to aircraft tire in operation, considering imperfectly elastic body with impact expressible by Newton recovery factor of about one
10 p1633 A69-22887

Tire test machine for tire parameter determination in aircraft landing gear shimmy stability studies
[AIAA PAPER 68-311] 17 p2902 A69-34029

Runway grooving to improve aircraft tire traction in adverse weather tested by F-4D and Convair 990A under wet conditions
[AIAA PAPER 69-773] 19 p3244 A69-35649

Dynamic stability of dual wheel gears for aircraft applications, discussing shimmy, tire characteristics, velocity effects, etc
[AIAA PAPER 69-769] 19 p3245 A69-35654

Aircraft tire skidding on wet surfaces, measuring interstitial water pressure for various treads, velocities and surface textures
19 p3247 A69-35910

Aircraft braking, discussing systems, brakes, tires, runway interface, heat sink materials, friction measurements, skid control, cooling and recovery equipment
[SAE PAPER 690376] 23 p4063 A69-41671

AIRCRAFT WAKES

NT HELICOPTER WAKES
NT PROPELLER SLIPSTREAMS
NT SLIPSTREAMS

Flow fields about swept rear fuselages of rear loading cargo transport aircraft
06 p0859 A69-17492

Aircraft vortex wake development prediction for turbulent flow noting vortex size, strength and peak tangential velocity
11 p1819 A69-25377

Vertical takeoff aircraft propeller/rotor design and performance prediction, discussing vortex model, wake contraction, blade element aerodynamic properties, etc
[AHS PAPER 325] 17 p2894 A69-33534

Thin jet flapped airfoil analysis with wake fully developed from leading edge and jet flow reflected from ground
22 p3861 A69-41184

Computerized pressure distribution estimation for stalled airfoil with arbitrary wake geometry
24 p4250 A69-43726

AIRCRAFTS

U FLIGHT CREWS

AIRFIELD SURFACE MOVEMENTS

Tactical airfield/aircraft system effectiveness in terms of ground support resources, aircraft reliability and maximum potential sorties
05 p0743 A69-16238

Airport surface traffic control system /STRACS/ for detection of aircraft, identification, guidance on taxiways, tower display, fail-safe alarm logic, priority routings, conflict protection, etc
05 p0790 A69-16724

Runway development for increased airport capability, discussing computer simulation model of airport operations
06 p0906 A69-17166

Automatic ground traffic control of aircraft on airport taxiway without visual detection, noting induction loop detection in surface traffic control system /STRACS/
11 p1913 A69-24267

Aircraft design determined by airport environment and facilities defined as pavement strength, passenger and baggage loading and aircraft handling, noting noise abatement
17 p2948 A69-34209

Airport performance, noise and aircraft utilization influence on aircraft design and operating costs, stressing takeoff distance, obstacle clearance and noise regulations
17 p2948 A69-34210

Los Angeles International Airport development planning, discussing airfield improvement, tunnel

reconstruction, terminal layouts, parking, roads and access, etc
[AIAA PAPER 69-806] 19 p3288 A69-35590

Forces on aircraft during ground roll with slick runway surface and cross wind for deceleration and control on ground
[SAE PAPER 690375] 23 p4062 A69-41652

Refused takeoff as critical maneuver in ground operations during jet transport accident investigation emphasizing pilot anticipation of conditions and preplanning actions
[SAE PAPER 690378] 23 p4062 A69-41654

AIRFOIL CHARACTERISTICS

U AIRFOILS

AIRFOIL PROFILES

NT WING PROFILES
NT WING SPAN

Low Mach number airfoil profile drag calculation for various angles of attack and Reynolds numbers, noting effects of transition and airfoil thickness
01 p0006 A69-11017

Arbitrary phase shift vibrations of airfoil profiles in incompressible flow reduced to Fredholm equations, allowing for trailing vortices influence
02 p0190 A69-12574

Lift from unsteady flow past cascade of slender profiles with stagger angle reduced to solution of Fredholm integral equation
02 p0190 A69-12575

Aerodynamics of flap balanced swivel airfoils, discussing lift curve slope, incidence change response and application of control forces and movements
03 p0364 A69-13908

Thickness effects on flow past sweptback wings in supersonic flight noting influence of oscillatory motion
[ASME PAPER 68-FE-31] 05 p0698 A69-16078

Low drag three dimensional body configurations from tabulated low drag airfoil coordinates
06 p0857 A69-17000

Conical flow past cruciform wing-body and tail-body systems, considering various positions of leading edges with respect to Mach cone
15 p2548 A69-31002

Natural frequencies and vibration modal shapes of asymmetrical airfoil blades analyzed by differential equations of motion, noting flexure coordinates center variations effect
17 p3067 A69-34053

Optimum pressure distribution and airfoil profiles for maximum lift without separation in incompressible flow determined by second order theory
[AIAA PAPER 69-739] 18 p3083 A69-34401

Pressure distribution in two dimensional incompressible potential flow on Joukowski airfoils with normal upper surface spoilers, emphasizing potential flow theory
[AIAA PAPER 69-737] 18 p3083 A69-34402

Numerical solutions of thick cambered jet flap in ground effect for flat plate and diamond shaped airfoil
[AIAA PAPER 69-738] 18 p3083 A69-34404

Aerodynamic characteristics of elliptical airfoils with jet circulation control for VTOL rotors including dual jets and cyclic results
[AIAA PAPER 69-741] 18 p3084 A69-34406

Linearized theory of subsonic gas flow past profile compared with methods based on approximations of relationship between density and pressure
19 p3241 A69-36782

Potential flow theory applied to determination of airfoil separated vortex flow and maximum lift and Reynolds number dependence
20 p3459 A69-37421

Aerodynamic optimal shaping by multivariable search technique, comparing results with variational solutions for airfoil profiles
20 p3459 A69-37527

AIRFOILS

NT AERIAL RUDDERS
NT AILERONS
NT CAMBERED WINGS
NT CARET WINGS
NT CRUCIFORM WINGS
NT DELTA WINGS
NT ELEVATORS (CONTROL SURFACES)
NT ELEVONS
NT FIXED WINGS
NT FLAPS (CONTROL SURFACES)
NT FLEXIBLE WINGS
NT HORIZONTAL TAIL SURFACES
NT JET FLAPS
NT LAMINAR FLOW AIRFOILS
NT LEADING EDGE SLATS
NT LIFTING ROTORS
NT LOW ASPECT RATIO WINGS
NT PARAGLIDERS
NT PARAWINGS

NT PROPELLER BLADES
 NT RIGID ROTORS
 NT RIGID WINGS
 NT RING WINGS
 NT ROTARY WINGS
 NT SLENDER WINGS

 NT THIN WINGS
 NT TILTING ROTORS
 NT TIP DRIVEN ROTORS
 NT TRAILING-EDGE FLAPS
 NT TRAPEZOIDAL WINGS
 NT TWISTED WINGS
 NT VARIABLE SWEEP WINGS
 NT WING FLAPS
 NT WINGS

Passive ice protection of aerodynamic surfaces by icephobic coating, measuring removal of ice under simulated conditions in tunnel tests

Reynolds and Mach numbers influence on loss coefficient magnitude at straight airfoil lattice

Wind tunnel and test equipment for studying flow in straight airfoil lattices at Reynolds numbers 50,000-1,200,000 and Mach numbers 0.1-1.0

Prandtl three main problems of airfoil theory interpreted and applied, discussing slender aircraft and hypothetical waverider aircraft

Ideal plane incompressible fluid flow past airfoil noting hydrodynamic effects, assuming presence of constant eddy

Trailing edge velocity and stagnation points for isolated and latticed airfoils using Zhukovskii and Weing transformations

Zhukovskii lifting force theorem application to slender wing profile and airfoil lattice in linearized supersonic flow

Lift fluctuation on airfoil due to transverse and chordwise gusts applied to rotating fan and compressor blade design

Rotating turbomachinery design to minimize fluctuating lift on isolated airfoils, presenting cascade geometry by quasi-steady analysis

Plane subcritical flow past lifting aerofoil analyzed using conformal mapping and difference scheme on angular mesh inside circle

Tandem airfoils wing-tail interaction flutter analysis, using three dimensional vortex lattice aerodynamic theory

Hodograph for lifting airfoil with subsonic velocity at infinity, using Chaplygin compressibility law for computation

Plane steady transonic flow of perfect fluid around airfoils with constant curvature using hodographic method, discussing various boundary conditions

Transonic flow around airfoils with constant curvature in uniform asymptotic stream, studying leading edges in exact form

Conformal mapping of regions with corners and large curvatures of boundary curves onto unit circle with digital computer, considering airfoil

Subsonic channel flow of frictionless barotropic gas through oscillating grid, investigating perturbation velocity field and aerodynamic forces on airfoils

Steady incompressible fluids flow around stationary wings and through rotating blades cascades based on Prandtl airfoil theory of bound vortices

Dynamic stall data for helicopter rotor blade analyses obtained by oscillatory tests in pitch and in vertical translation at full scale Reynolds number

Linear and second order theory for maximum lift to drag ratio airfoils at moderate supersonics speed, considering length, thickness and area

13 p2199 A69-28214

Book on experimental aerodynamics covering subsonic and supersonic wind tunnels, wall measurements, airfoils, aerodynamic characteristics of propellers, fixed and rotary wing aircraft

Two dimensional airfoil data application to three dimensional rotor blade element environment, predicting stall induced structural loads

Internal heat transfer coefficients for impingement cooling of gas turbine airfoil leading edge

Aerodynamic behavior of airfoil oscillating in reverse flow defined for various angles of attack and oscillatory amplitudes at low Mach numbers

Rotor airfoils design for helicopter performance optimization, noting hovering figure of merit and blade profile characteristics relationship

Flow breakdown in wind tunnel tests of high disk loading systems at low forward speeds, investigating downwash distribution effect using disk loading and airfoil models

Rotating turbomachinery design to minimize fluctuating lift on isolated airfoils, presenting cascade geometry by quasi-steady analysis

Monograph on interaction between primary and jet flapped secondary airfoils covering line-vortex use for lift augmentation, aerodynamic characteristics, etc

Dynamic stall characteristics of high speed symmetrical and cambered helicopter rotor blade airfoils from two dimensional wind tunnel determinations

Adiabatic plane ideal gas flow past airfoil, studying shock waves propagation effect on dynamic behavior

Airfoils and cascades design for incompressible flow by numerical methods

Linear small perturbation approximation for supersonic nonequilibrium flows past oscillating airfoil in two dimensional wind tunnel, noting Laplace transform solution

Incompressible fluid flow inhomogeneities effect on oscillations of airfoils cascade, noting occurrence of parametric resonance in turbine engine blades

Computerized pressure distribution estimation for stalled airfoil with arbitrary wake geometry

24 p4250 A69-43726

AIRFRAME MATERIALS

Balsa wood laminates as aircraft structural material noting thermal properties, fire and fatigue resistance, weight savings, etc

Airline operators economic oriented airframe maintenance problems, discussing cost accounting improvement

Soviet book on press working of aviation materials, noting granulated and powdered materials and high strength and refractory materials

Metal welding procedures for aircraft assembly, discussing weight, specific alloys and airframe components

Aircraft structure lightweight construction materials, reviewing Ti alloys and Be and Al-B bonded filament materials

VTOL aircraft materials for improved lightness, durability and cost, noting Be alloys, filamentary composite materials and future problems

Resin bonded glass cloth for large airframe structures rectification

Titanium fuselage skin contouring to shallow compound curvature of supersonic aircraft by elastic draping, shot peen forming and cold stretching, discussing residual stresses

Titanium compared with aluminum in application to supersonic aircraft structures, considering tests and costs

10 p1700 A69-23600

Light aircraft and helicopter manufacturing methods, design concepts and materials, discussing aluminum airframes, riveting, fiberglass, UV curing, etc

Composite materials for aerospace applications, discussing high modulus filaments, structural and non-structural design considerations, nondestructive testing techniques, etc

Systems design of airframe structures taking into account material characteristics noting structural stability, shell postbuckling, fail-safe designs, etc

Concorde aircraft and engine materials selection factors including mechanical properties of metals and nonmetals, corrosion resistance, service life, sealants, weight analysis, etc

Aircraft construction materials, discussing aluminum alloys use in Concorde project based on temperature tests, creep and fatigue properties and joint requirements

Composite ceramic armor systems for airborne vehicles and personnel, air cushion vehicles and ground troops, discussing weight and contour forming advantages

Moldable plastic shim material for structural airframe components, discussing application requirements

Structural aerospace materials development with emphasis on Be and Ti alloys, discussing material combinations and composites

Al alloy application to welded primary airframe structures, discussing welding processes with emphasis on fusion welding

Fusion welding for thin gauge corrugated core sandwich airframe structures capable of operating at high temperature, discussing equipment, techniques and quality control

Seam welded Al alloy aircraft structure fabrication problems, emphasizing stress corrosion

Aircraft structures efficiency and weldability as function of application, welding procedures and metallurgical factors, considering high strength Al alloys, Ti and Ni alloys, etc

Fracture toughness and crack propagation in annealed aircraft titanium alloys tested per ASTM procedure, comparing results with high strength steels and aluminum alloys

Orthotropic aircraft materials plasticity theory, deriving stress-strain relationships in three mutually perpendicular symmetry planes for use in engineering calculations

24 p4177 A69-42165

24 p4400 A69-43083

AIRFRAMES

Aircraft flight testing for determining airframe, engine and pilot degradation, examining flutter, handling characteristics, water ballast, propulsion, etc

Icing of airframes, discussing ice formation, deicing methods and protection of aircraft

Airframe/propulsion blending in high performance fighter aircraft, discussing thrust augmentation, fuel consumption, induction system and exhaust nozzle balance with airframe

Airframe subsonic aerodynamic problems for fixed wing aircraft under low speed/high lift conditions

Holographic interferometry, determining mechanical vibration amplitudes of compressor and turbine blades and airframe panel

Dynamic analysis methods for airframe flight control design noting equations of motion, system criteria and analysis and synthesis methods

Systems design of airframe structures taking into account material characteristics noting structural stability, shell postbuckling, fail-safe designs, etc

Exhaust nozzle/airframe interference test evaluation for twin engine supersonic fighter

16 p2733 A69-32730

Air Transport Total In-Flight Simulator-707 /AT/IFS-707/ concept for pilot training, stressing airframe and major flight systems [SAWE PAPER 747] 18 p3118 A69-34884

Airframe cost element prediction and application to cost control, considering government specifications [SAWE PAPER 731] 18 p3221 A69-34894

Machined fastened joints for airframe structural parts, discussing fatigue life, strength and fastener hole preparation 19 p3319 A69-35553

C-5A transport aircraft airframes manufacture, discussing Lockheed profits, contract disputes and Cheyenne helicopter contract cancellation 20 p3640 A69-37355

Quality control and dimensional accuracy in airframe structures fusion welding 20 p3549 A69-37446

Electron beam welding machine modifications for welded airframe components production, discussing work chamber, vacuum system and workpiece mounting [SBAC PAPER 13] 20 p3550 A69-37455

Airframe stability of VAK 191 examined by displacement method, using matrix calculations within Automatic System of Kinematic Analysis 20 p3462 A69-37515

Concorde structural tests emphasizing problems associated with thermal cycle, including fatigue test setup on complete airframe [RAES PAPER 16] 22 p4043 A69-40495

Mathematical method of processing test data airframe panels subjected to repeated static loads to obtain lifetime equations and statistical characteristics 24 p4400 A69-43086

Structural airframe fasteners, reviewing systems for fatigue critical wing/fuselage structures, honeycomb panel attachments and data on fatigue life 24 p4325 A69-43437

AIRGLOW

NT GEOCORONAL EMISSIONS

NT NIGHTGLOW

NT TWILIGHT GLOW

H alpha emission symmetrical spatial distribution of night airglow observed with high transmission diffraction spectrographs 01 p0062 A69-10128

Atmospheric temperature and airglow spectra from IR measurements noting OH bands, atmospheric structure between 10 and 200 km at midlatitude and atmospheric absorption [UN PAPER 68-95471] 01 p0108 A69-10464

Soviet rocket and satellite night, twilight, airglow and auroral studies, discussing day sky brightness, night airglow and atmospheric stratification 01 p0066 A69-10941

Tropical night F layer maintenance mechanism, noting airglow enhancement and ionization source association with plasma drifts 02 p0242 A69-11825

Fluorescence efficiency of air under electron bombardment measured at low pressure 02 p0284 A69-12734

Visible and IR nonequilibrium radiation from dilute gases of upper atmosphere, describing laboratory, ground, aircraft and rocket observations of reactions and interactions 02 p0247 A69-12810

Latitudinal distribution of auroral and airglow emissions in Northern Hemisphere photometrically surveyed by jet aircraft 05 p0754 A69-16258

IR zero one band of molecular O observed in day airglow with ground based scanning grating spectrometer 08 p1306 A69-20096

Cosmos 92 satellite observation of night airglow flare, discussing NO bands emission and origin 09 p1485 A69-21533

Daily observational results of solar phenomena, cosmic rays, geomagnetic variations, ionosphere, radio wave propagation and airglow arranged according to solar rotation number 10 p1771 A69-22808

Aeronomic phenomena observed near Altair and theta Aquila ascribed to Apollo 8 lunar flight 11 p1957 A69-24411

IR day and night airglow of upper atmosphere utilized for atmospheric energy content and reactions analysis 13 p2252 A69-27585

IR airglow spectra measured by two beam interferometer on balloon, noting carbon dioxide and OH emission bands 13 p2252 A69-27586

Dynamic Michelson interferometer equipped with Ge detector to obtain spectra of airglow from 1.2-1.6 microns 13 p2252 A69-27587

Night airglow variations observed during Cosmos 92 satellite orbits, determining atmospheric albedo wavelength dependence for solid and medium cloudiness and clear skies 14 p2435 A69-29042

Low energy electron and proton precipitation, discussing acceleration mechanisms and periodicity in relation to auroras and airglows 15 p2594 A69-30018

Airglow research, discussing emission features, observation methods and instruments, ground station network, etc 15 p2594 A69-30020

UV OGO observations of atomic hydrogen and oxygen in airglow, comparing results to exospheric models of hydrogen geocorona 15 p2603 A69-31400

Zenith and azimuthal photometric observations of red line atomic O airglow predawn enhancement over UK 16 p2775 A69-32086

Diurnal variations of IR atmospheric oxygen bands in airglow observed with filter photometer on balloon flights 16 p2776 A69-32091

Thermosphere neutral wind speed measured from observing Doppler shift in O I 6300 night airglow line with Fabry-perot interferometer 16 p2776 A69-32093

Portable photometer with red-sensitive photocathode and high SNR for O I 6300 airglow experiments 16 p2777 A69-32107

Solar corpuscular and UV radiation variation relationship to midlatitude airglow intensity in O I line 16 p2850 A69-32322

Cosmos 92 satellite observation of night airglow flare, discussing NO bands emission and origin 16 p2783 A69-32528

OGO 4 UV airglow spectrometer consisting of Ebert-Fastie monochromator and photomultipliers with cesium telluride and cesium iodide channels 19 p3315 A69-36682

Spectral intensity distribution of night airglow, noting visual spectra distribution difference from G2 stars 20 p3522 A69-37057

Upper atmosphere emission processes, comparing emission quenching lifetime with transition probability rates, plotting atomic and molecular states 21 p3711 A69-38513

Ionosphere characteristics in terms of airglow, describing daytime F/D layers formation model provided by photoionization, loss processes and ambipolar diffusion 21 p3712 A69-38517

Airglow and vertical eddy transport photochemical models, analyzing O green line and OH emission distribution 21 p3713 A69-38523

Conjugate regions 6300 A airglow enhancement during predawn, noting photoelectrons role in heating dark ionosphere region by producing fast electron flux 24 p4308 A69-43011

AIRLINE OPERATIONS

Airline crew training, requalification, recurrent, upgrading and aircraft transition training for crew and pilot 01 p0019 A69-10450

Airline area navigation system functions for developing map type pictorial display system including digital computer, cockpit control unit and microfilm charts 01 p0112 A69-10453

Redevelopment program for Newark airport noting runway construction, underground fuel system and passenger terminal complex 01 p0057 A69-11275

Aircraft high level cloud data to estimate vertical distribution of cirriform clouds and tropical tropopause levels on airline routes 03 p0458 A69-13032

Airline operators economic oriented airframe maintenance problems, discussing cost accounting improvement 03 p0434 A69-13698

Circadian rhythms disruption during long distance flights, discussing adverse effects on pilot and passenger performance 03 p0378 A69-14260

Response to technical, social and political criticism of U.S. SST program [AIAA PAPER 68-1024] 04 p0689 A69-14794

Passenger aircraft design to cope with air traffic volume increase in 1970s, discussing economic aspects of high capacity aircraft 04 p0546 A69-14804

Elasticity of demand theory applied to fare changes effect on passenger volume, noting interdependence of aircraft size and fare formulation 04 p0689 A69-14805

Maintainability and reliability affect utilization and operating costs of commercial aircraft 04 p0547 A69-14806

French air transport and airports covering aviation enterprises, air traffic density, airport activities, traffic flow, etc 04 p0689 A69-15479

FAA aviation safety program design standards, maintenance and inspection procedures and assessment of accidents 06 p1041 A69-16839

Airline safety programs focused on developing reliable automatic landing system, realistic pilot training and airborne monitoring/recording system 06 p1041 A69-16840

Medical fitness regulations for pilots, including federal and internal airline regulations 06 p1041 A69-16844

Air carrier legal responsibility for commercial air safety as compared to liability in other transportation modes 06 p1042 A69-16847

Tort system of U.S. law effect on air safety promotion, discussing liability influence on government, manufacturers and airlines 06 p1042 A69-16850

Flight deck equipment guidelines in aircraft, discussing pilots natural senses, visual information, displays, logic and memory capable computers and ground controller 08 p1266 A69-20450

Transport aircraft fleet management and handling of mechanical and avionic machine defects using operations research 08 p1422 A69-20626

Airport operation and administration, discussing supply, costs, tariffs, etc 10 p1811 A69-23602

Supersonic transport airline operations including safety, noise, traffic control, routing, etc 11 p2004 A69-24373

Operational research applications to management problems, discussing specific airlines operations cases 11 p1822 A69-24377

Multiengine helicopter scheduled passenger service operations in Europe 11 p2004 A69-24378

V/STOL aircraft performance characteristics related to civil aviation operations and certification requirements [ICAS PAPER 68-05] 11 p1822 A69-24463

Abbreviated Test Language for Avionics Systems /ATLAS/ as standard compiler input language for commercial airline automatic test equipment /ATE/ 11 p1842 A69-25064

Aircraft engines future specifications as affected by expanding market, noting speed requirements and thrusts 11 p1942 A69-25215

Traditional flight crew organization relevance to current and developing flight systems, discussing inadequacies, anachronisms and safety threats 12 p2023 A69-26555

U.S.-Europe air traffic, attributing European lag to dense air route duplication, load factors, etc 13 p2381 A69-27338

Airline ticket as international commodity, discussing regulations and agreements concerning appearance, loss, transferability, etc 13 p2381 A69-27530

Air Canada flight safety system including company philosophy, safety activities, incident and accident handling and information schemes 13 p2201 A69-27541

Litton LTN-51E inertial navigation system accuracy and reliability evaluated on basis of transpacific flights [SAE PAPER 680299] 13 p2296 A69-28103

Vertical takeoff aircraft role in British Government air industry program, noting applications to intercity passenger service 13 p2203 A69-28355

Deterministic economicomathematical models for optimum airline networks, considering transportation cost 14 p2540 A69-29141

Probabilistic forecasts in meteorological support of aviation, comparing economic implications of squall forecasting
14 p2474 A69-29739

Flight regularity and safety in complex meteorological situations, noting synoptic forecasting advantages over inertial forecasting
14 p2475 A69-29740

Airline aircraft maintenance programs, discussing objectives, procedures and failure analysis models
15 p2549 A69-30209

Airport problems in increasing air traffic, discussing passenger delays, runway capacity, instrument controlled takeoff and landing, fog dispersal, baggage flow, etc
15 p2589 A69-30589

Economics of airport use, congestion and safety, discussing differentiated pricing systems
15 p2723 A69-31241

Ground facilities long term planning, considering factors to determine air transport growth and changing commercial aviation pattern
16 p2766 A69-32020

Civil aircraft requirements from 1975 onward, discussing classes, categories and R and D
16 p2882 A69-32022

Gate arrival approach to Kansas City airport terminal planning for facilities and operations decentralization, congestion reduction and passenger walk distance minimization
16 p2766 A69-32327

Space criteria for aircraft parking positions noting radial wedges configuration
16 p2766 A69-32328

Space requirements of departure lounges in airport buildings for large aircraft loading, discussing entry doors, boarding times, etc
16 p2766 A69-32330

CAB decisions regarding subsidy reduction, carrier mergers, and dense route certification requiring improved clarity and timeliness
16 p2882 A69-32336

STOL and V/STOL short haul intercity airliners emphasizing propulsion systems, operational aspects and economics
17 p2898 A69-33356

Aircraft designers and operators problems with danger and damage caused by bird strikes, considering warning devices and protective windshield panels
17 p2899 A69-33363

Future navigation systems and ATC, discussing traffic flow factors and approach and landing systems
17 p3004 A69-34201

Air traffic control and airline operators liaison with reference to air transport priorities, considering relationship to aircraft and airport development
17 p3004 A69-34204

Large subsonic transport aircraft effect on economics of air operations with emphasis on airport facilities for Boeing 747
17 p3077 A69-34205

Technical and operational planning activities of airline resulting from airport restrictions in terms of congestion, performance and noise and runway strength
17 p2948 A69-34206

Edwards Inquiry Report into British Civil Air Transport based on cost effective economic study, involving airlines and regulatory system
18 p3231 A69-34311

Jumbo aircraft production technology causing economic setback, recommending added emphasis on passenger/cargo requirements and operating environments for greater profitability
18 p3232 A69-34542

Expected occurrences mathematical model for flight system availability under uncertainty
18 p3210 A69-35083

Los Angeles International Airport development planning, discussing airfield improvement, tunnel reconstruction, terminal layouts, parking, roads and access, etc
19 p3288 A69-35590

Aircraft Economic Design Evaluation (AEDE)/computerized model to estimate aircraft design performance differences economic impact to carriers
19 p3289 A69-35626

Aircraft interior conversion for passenger or cargo service, discussing convertible aircraft and quick change concepts
19 p3244 A69-35642

Accelerate-stop criteria examined from human engineering standpoint, discussing flight simulator study of pilot reaction times for transition to rejected takeoff configuration
19 p3244 A69-35650

Computer-generated airline fleet performance data on B-720, B-727 and DC-8 aircraft, attributing deterioration to increased drag and fuel consumption
19 p3245 A69-35651

Cost and maintenance calculations for inertial navigation system (INS)/based on three systems per aircraft, assuming 4000 hr/year aircraft utilization
19 p3371 A69-36734

Short haul air transportation traffic congestion problems in Northeast corridor, emphasizing STOL solution for economy
19 p3248 A69-36865

All-weather landing in civil air operations, discussing ground/air systems in tracking, visual reference and aircraft performance required for safe landing capability
20 p3574 A69-38119

STOL airline operation test programs involving aircraft, navigation equipment, systems and ATC
21 p3646 A69-38731

Cardiovascular illnesses incidence among airline flight personnel, discussing coronary insufficiency detection
21 p3661 A69-39271

Jet fleet engine performance monitoring program, discussing systems design and resultant management planning
22 p3999 A69-39922

Airport capacity increase in terms of operations delay, discussing computer aided approach systems and additional runways
22 p3925 A69-40429

Air traffic problems due to tourism, suggesting service modifications to meet future needs
22 p4053 A69-40434

Custody, jurisdictional conflict and prosecution problems of in-flight crimes, discussing federal judicial jurisdiction and Tokyo Convention ratification
22 p4053 A69-40708

Washington area airport efficient use plan from projections of passengers, aircraft operations and net revenue trends
22 p4053 A69-40709

Airport standards analysis for safe, efficient air carrier operations including airport funding, safety programs for runways and terminal facilities
22 p4054 A69-41144

Pilots and flight crews screening and training by supplemental air carriers
22 p4054 A69-41148

Airline management service to cockpit team for safe operation providing safety information sources and transmission channels and undesirable trend detection and correction
22 p4054 A69-41149

Telecommunication systems used in airline industry and reorganization requirements for efficient operation
23 p4114 A69-41356

Airline economics long term trends requiring management tools for cost control, operations simulation and monitoring, computer use and information data processing
23 p4241 A69-41641

VTOL, STOL and CTOL transportation systems cost effectiveness comparison for Northeast Corridor operation, considering ground facilities, access time, etc
23 p4147 A69-41642

Terminal facilities planning for STOL service to meet traffic demand, considering site selection, runway alignment, aircraft noise, ground accessibility, etc
23 p4147 A69-41645

Engine oil analysis applied to commercial airline operations, ensuring lubricating qualities retention and detecting oil-wetted component failures
23 p4169 A69-41647

Metropolitan downtown airports for STOL and VTOL aircraft stressing Los Angeles Metroport
23 p4147 A69-41660

Airline area navigation test programs involving use of VOR/DME signals and inertial navigation system within air traffic control system
23 p4185 A69-41662

Moving map pictorial display system for on board capability of area navigation, noting crew reaction
23 p4186 A69-41663

SST flight crew operational requirements to achieve maximum human efficiency and man/machine compatibility, discussing pilot role, advanced flight instrumentation, etc
23 p4107 A69-41820

Flight simulators role in airline pilot training, discussing skilled learning, performance measurements and future developments
23 p4112 A69-42366

Short haul transport aircraft development, discussing twin jet Mercure aircraft with low operation cost and Category III weather conditions landing
24 p4250 A69-42565

Component reliability effect on airline operation of VC 10 aircraft, investigating failure modes and maintenance
24 p4318 A69-42776

Air traffic growth forecasting, describing various mathematical econometric models
24 p4417 A69-42807

Commercial aircraft environmental compatibility planning, considering problems of airport traffic growth and restrictive air traffic control regulations
24 p4252 A69-42808

SST contribution to commercial aircraft transportation, discussing economic and operational aspects, decision making process leading to fixed wing design, etc
24 p4252 A69-42869

Operational and economical aspects of V/STOL air transportation reevaluated for civil aviation promotion
24 p4418 A69-42870

Unscheduled aircraft landing to deplane passenger for medical reasons, discussing costs, time consumption and avoidance methods
24 p4278 A69-43393

AIRLINERS
U COMMERCIAL AIRCRAFT
U PASSENGER AIRCRAFT

AIRPLANE PRODUCTION COSTS
Cost factors in choosing single or twin-engine layout for tactical aircraft
02 p0193 A69-12066

Deterministic model for cost effectiveness of avionics support programs based on subsystems support ability, test philosophy and test equipment design and manufacture
09 p1478 A69-22377

Effective cost improvement of product and profit planning activity in jet engines production stressing J47 and J79 engines
09 p1513 A69-22516

Cost-profit sharing agreement with aerospace manufacturing companies involved in Boeing 747 construction, detailing final assembly building
09 p1514 A69-22713

Galaxy C-5A aircraft Value Control Program stressing design organization, upper management authority, budgetary adjustments, etc
13 p2383 A69-28095

Weight and cost control program for Boeing 747 aircraft through combined value and weight engineering methods
13 p2383 A69-28096

Armor selection for advanced aircraft systems based on premium value concept and cost-weight considerations
18 p3094 A69-34878

Airframe cost element prediction and application to cost control, considering government specifications
18 p3221 A69-34894

Design and economic concepts of Lockheed L-1011 wide body trijets, discussing airport and airways congestion alleviation, passenger appeal, etc
22 p3863 A69-40494

AIRPORT LIGHTS
U RUNWAY LIGHTS

AIRPORT PLANNING
Airport warm fog dispersal, discussing full scale aircraft seeding of polyelectrolyte materials, noting ground dispenser
01 p0054 A69-10149

Boeing 747 performance, propulsion, structural and circuit characteristics, mass production and airport passenger installations
01 p0011 A69-11067

Redevelopment program for Newark airport noting runway construction, underground fuel system and passenger terminal complex
01 p0057 A69-11275

Air traffic control at Los Angeles International Airport, discussing simultaneous parallel ILS approaches and departures and STOL problems
01 p0057 A69-11356

Interim radar improvement program for air route traffic control centers pending development of automated terminal radar programs
01 p0114 A69-11357

Air cargo and world trade, discussing economics, cargo tariffs, customs procedures, cargo airports and convertible aircraft
03 p0536 A69-14088

Fitting airport interfaces to air traffic, considering bottleneck elimination

05 p0742 A69-15918

Runway development for increased airport capability, discussing computer simulation model of airport operations

06 p0906 A69-17166

Cost estimating relationships for vertiports and airports, comparing terminal costs per passenger for each facility

[AIAA PAPER 69-208] 07 p1245 A69-19564

Monograph on length requirements for takeoff and landing of jet transports covering airport classification, roll distance formulas and long range transport performance nomograms

08 p1301 A69-20717

Mathematical models for outgoing traffic flow in airport terminal used for determining service requirements

09 p1476 A69-21439

Airport evolution in London, discussing transportation, safety, international trade, economics, aircraft types and noise spectra

09 p1479 A69-22582

V/STOL aircraft future, discussing Federal Government policies, economics, airport planning, engineering problems, etc

10 p1811 A69-23221

Civil aviation statistical data and airport planning

10 p1634 A69-23601

Airport operation and administration, discussing supply, costs, tariffs, etc

10 p1811 A69-23602

All-weather landing including zero-zero, discussing planning in Europe and U.S.A.

10 p1722 A69-23698

Runways slipperiness and grooving, discussing influence of wetness, tire form and speed on friction coefficient

10 p1674 A69-23707

Stopping barriers for jet aircraft landing design and operation

11 p1862 A69-24354

Supersonic transport airline operations including safety, noise, traffic control, routing, etc

11 p2004 A69-24373

Monograph on computer aided air traffic control systems design, discussing air navigation, man-machine relations, equipment requirements, programs, plan position color display, etc

11 p1914 A69-25085

Comparative evaluation of avionic installations in design stage, detailing parameters for civil aeronautical use

11 p1887 A69-25212

Short takeoff aircraft characteristics, discussing aircraft certification and airfield regulation in Great Britain

13 p2203 A69-28356

Airport noise control responsibility for airport and community planners using perceived noise level, noise and number index and community annoyance index as planning criteria

14 p2541 A69-29506

Civil airports design standards development noting advisory circulars

15 p2588 A69-30408

Airport problems in increasing air traffic, discussing passenger delays, runway capacity, instrument controlled takeoff and landing, fog dispersal, baggage flow, etc

15 p2589 A69-30589

Economics of airport use, congestion and safety, discussing differentiated pricing systems

15 p2723 A69-31241

Ground facilities long term planning, considering factors to determine air transport growth and changing commercial aviation pattern

16 p2766 A69-32020

Gate arrival approach to Kansas City airport terminal planning for facilities and operations decentralization, congestion reduction and passenger walk distance minimization

16 p2766 A69-32327

Space criteria for aircraft parking positions noting radial wedges configuration

16 p2766 A69-32328

Airport planning, discussing air transportation and city planning problems for Hannover air terminal

16 p2882 A69-32329

Space requirements of departure lounges in airport buildings for large aircraft loading, discussing entry doors, boarding times, etc

16 p2766 A69-32330

Community planning and airport requirement interrelation, discussing land usage, satellite airport system for private aviation, etc

16 p2882 A69-32331

Habitat modification for airport bird population control, discussing draining of wet areas, waste control, etc

17 p2915 A69-33368

Future navigation systems and ATC, discussing traffic flow factors and approach and landing systems

17 p3004 A69-34201

Aircraft developments affecting international airport planning

17 p2948 A69-34203

Air traffic control and airline operators liaison with reference to air transport priorities, considering relationship to aircraft and airport development

17 p3004 A69-34204

Large subsonic transport aircraft effect on economics of air operations with emphasis on airport facilities for Boeing 747

17 p3077 A69-34205

Technical and operational planning activities of airline resulting from airport restrictions in terms of congestion, performance and noise and runway strength

17 p2948 A69-34206

All-weather operations, aircraft size, air traffic and noise as airport design factors, discussing financing priorities for runway construction, facilities and personnel

17 p3004 A69-34207

Airport planning for large aircraft loading of passengers, baggage and cargo containers

17 p2948 A69-34208

Airport performance, noise and aircraft utilization influence on aircraft design and operating costs, stressing takeoff distance, obstacle clearance and noise regulations

17 p2948 A69-34210

Airport runway surface construction materials requirements, taking into account factors different from highway pavement

17 p2948 A69-34215

Bird hazard in aviation, discussing aircraft/bird collisions in France, protective measures and airport environment control against nesting and breeding

18 p3090 A69-34695

Los Angeles International Airport development planning, discussing airfield improvement, tunnel reconstruction, terminal layouts, parking, roads and access, etc

[AIAA PAPER 69-806] 19 p3288 A69-35590

Air terminals plans for 1975 aircraft and air traffic based on runway configurations

[AIAA PAPER 69-805] 19 p3288 A69-35591

Shuttle VTOL airport access system analysis for New York area

[AIAA PAPER 69-804] 19 p3288 A69-35592

Airport alternate facilities, restrictive flight schedules and fee schedules for relieving airport congestion during peak traffic hours

[AIAA PAPER 69-820] 19 p3453 A69-35595

Mass transit rail service between Manhattan and Kennedy Airport using Long Island Railroad mainline route, discussing baggage handling and time schedules

[AIAA PAPER 69-803] 19 p3453 A69-35596

Air travel and population growth requiring larger structures for office buildings, airport passenger terminals and aircraft servicing facilities

[AIAA PAPER 69-809] 19 p3289 A69-35622

Airport facilities planning for conventional jet, STOL and SST aircraft ground handling, stressing facilities economy and transportation subsystems

[AIAA PAPER 69-808] 19 p3289 A69-35623

Problems caused by air traffic rate growth in London Terminal area, examining runway limits, safety and noise restrictions

19 p3371 A69-36736

Air transport development relationship to city regional planning, including analysis of Heathrow airport design

19 p3296 A69-36850

ATC systems analysis including airports, ground access and air transportation

19 p3371 A69-36866

Terminal air traffic management in future noting transition airspace, approach and departure paths and airport capacity

[AIAA PAPER 68-1101] 20 p3573 A69-37160

World airport planning - Conference, London, September 1969

22 p3925 A69-40424

Air cargo traffic, discussing paneload lots, aircraft types suitable for freight transport, difficulties and solution

22 p4052 A69-40426

Air traffic systems and diminishing airspace capacity problems requiring additional airport facilities and STOL aircraft

22 p3925 A69-40428

Airport capacity increase in terms of operations delay, discussing computer aided approach systems and additional runways

22 p3925 A69-40429

Airport location effect on facilities supply factors including atmospheric, environmental and economic conditions

22 p3926 A69-40431

Airport requirements in England, considering various sites, noise nuisance and integration into total transport system

22 p3926 A69-40432

Airport design for noise reduction, considering aircraft noise, runway orientation and flight paths

22 p3926 A69-40433

STOLport policy for New York City including travel time analysis, ground transport systems, political and community acceptance, aircraft noise, etc

[RAES PAPER 3] 22 p3927 A69-40484

Washington area airport efficient use plan from projections of passengers, aircraft operations and net revenue trends

22 p4053 A69-40709

Planning for safety of future supersonic air traffic including financing and coordination activity of government and industry

22 p4054 A69-41131

Airport standards analysis for safe, efficient air carrier operations including airport funding, safety programs for runways and terminal facilities

22 p4054 A69-41144

Terminal facilities planning for STOL service to meet traffic demand, considering site selection, runway alignment, aircraft noise, ground accessibility, etc

[SAE PAPER 690421] 23 p4147 A69-41645

Air traffic interfaces of VTOL, STOL and CTOL aircraft serving same metropolitan terminal, emphasizing navigation systems, geographical positions, ground communication, etc

[SAE PAPER 690422] 23 p4185 A69-41646

Metropolitan downtown airports for STOL and VTOL aircraft stressing Los Angeles Metroport

[SAE PAPER 690402] 23 p4147 A69-41660

Airport terminal planning, considering expansion, automation, backup measures, layout problems and solutions, etc

[SAE PAPER 690399] 23 p4147 A69-41661

Jet runway design, construction and operation, discussing surface texture, lightning, grooving, etc

[SAE PAPER 690377] 23 p4147 A69-41670

Air space saturation, urban surface transport network enlargement necessity and expeditious passenger processing and baggage handling

24 p4296 A69-42567

General aviation airport application as freight consolidation terminals to reduce ground handling costs, circumvent air and ground traffic problems, etc

24 p4419 A69-43047

AIRPORTS

NT HELIPORTS

Construction practice for hot-mix bituminous pavements covering production, composition, application and quality control

01 p0057 A69-11276

Soviet book on aeronautical climatology covering methodology of climatologic indices useful for airfields, pilots and flight routes evaluation

04 p0627 A69-14935

French air transport and airports covering aviation enterprises, air traffic density, airport activities, traffic flow, etc

04 p0689 A69-15479

Statistical method for determining accuracy of airfield weather reports on takeoff and landing conditions, visibility and cloud ceiling, correlating forecasts and actual conditions

11 p1913 A69-25205

Ground access routes between business districts and airports compared for passenger transport modes

[AIAA PAPER 68-1072] 12 p2059 A69-26773

Visibility changes in fog at London airport determined by transmissometer records

18 p3167 A69-35266

Aircraft noise abatement oriented toward compatibility between airports and adjacent metropolitan environments, analyzing results for theoretical and actual airports

[AIAA PAPER 69-800] 19 p3453 A69-35593

Private one doctor one nurse clinic at Sydney airport, discussing history, operating conditions, medical record and statistics

23 p4105 A69-41786

Short range aviation terminal weather predictions concerning runway visual range, cloud-base height and wind, using FAA mesometeorological network

24 p4342 A69-42892

AIRSPACE

Book on law of airspace covering property rights, legal aspects of airspace utilization, airspace transactions, courts role, damage suits, etc

07 p1244 A69-18709

Air traffic systems and diminishing airspace capacity problems requiring additional airport facilities and STOL aircraft

22 p3925 A69-40428

Intercity air transportation compared with automobile and train travel, attributing air travel dead time to ground route and airspace congestion

24 p4416 A69-42561

AIRSPEED

Low range airspeed system /LORAS/ on X-22A and P 1127 VTOL aircraft for accurate airspeed information

05 p0767 A69-16774

Aerodynamic stick force and speed characteristics of various horizontal tails and elevator trimmers, noting zero stick force case

09 p1434 A69-22597

Connecting duct influence on slide wire vertical airspeed indicator operating on barometric principle during aerial gravimetric surveying

13 p2260 A69-27828

Atmospheric stability influence on vertical spectra of refractive index and air velocity deduced from beam swinging experiments and compared with radiosondes data

17 p2960 A69-33157

Vector airspeed measuring system /VAMS/ for helicopters and V/STOL aircraft utilizing gas discharge mass flowmeter to improve takeoff performance [AHS PAPER 350]

17 p2974 A69-33527

VOR/DME information augmentation by air data /airspeed/ for positional accuracy improvement, describing error sources, optimum data filter and system sensitivity and performance [AIAA PAPER 69-841]

21 p3762 A69-39372

AIRWORTHINESS

U AIRCRAFT RELIABILITY

AIRWORTHINESS REQUIREMENTS

U AIRCRAFT RELIABILITY

AIRY FUNCTION

Asymptotic wave equation application conditions in describing field behavior near caustic surface, using Airy functions

07 p1076 A69-18520

Analytic integration of Langmuir equation for spherical space charge flow obtained in terms of Airy equation or Bessel functions solution

07 p1115 A69-18864

AJ-1000 ENGINE

U M-1 ENGINE

ALANINE

Metal oxides catalytic and inhibitory effects on photolysis of alanine by UV light

01 p0025 A69-11095

Optically active alanine synthesis from oxaloacetic acid by hydrogenolytic asymmetric transamination, noting role of decarboxylation

12 p2026 A69-25780

ALARMS

U WARNING SYSTEMS

ALBEDO

NT COSMIC RAY ALBEDO

NT EARTH ALBEDO

Gray tone differences between undisturbed lunar surface and darker ejecta observed around Surveyor 1 footpads, discussing possible albedo differences

04 p0660 A69-15124

Polarization-albedo relationship for selected lunar maria, highlands and mountains in five passbands suggest optical path length function of effective refractive index and particle size

05 p0829 A69-16663

Radiation field at optical depths within plane parallel Rayleigh scattering atmosphere subjected to generalized free surface boundary conditions

09 p1606 A69-22423

Plane and spherical albedos of planet surrounded by infinite optical thickness atmosphere, with application to Venusian atmosphere

10 p1776 A69-23210

Venus albedo dependence on wavelength in UV spectrum between 4500 and 3200 A from reflector observations

11 p1957 A69-24406

Radiation measurements by Cosmos 122 satellite over various regions, determining radiation temperature, long wave heat flux and albedo

13 p2291 A69-27726

Monograph on interstellar extinction computations covering theoretical curves for spherical metal and graphite particles, albedo, optical constants, normalization, temperature dependence, etc

14 p2516 A69-28901

Mars surface temperature calculated by applying Humphrey formula for planetary radiation energy, finding mean annual values of temperature for different albedo

17 p3034 A69-33412

Search for diffuse galactic light component between 2100-2800 A by rocket measurements of night sky brightness, showing low albedo of interstellar dust

18 p3202 A69-35210

Particle albedos and extinction cross sections computed by Mie theory showing dependence on refractivity, considering thermal radiation from cloudy planetary atmospheres

20 p3614 A69-38255

Stellar and diffuse galactic radiation intensity observations to obtain albedo values of interstellar dust particles

22 p4034 A69-41112

Venus albedo dependence on wavelength in UV spectrum between 4500 and 3200 A from reflector observations

24 p4391 A69-43796

ALBUMINS

Whole body X irradiation effect on protein degradation in mice, using radioactive I labeled albumin

23 p4099 A69-42151

ALCOHOLS

NT ETHYL ALCOHOL

NT GLYCOLS

NT METHYL ALCOHOLS

NT PHENOLS

Alcohol role in pilot victims of aircraft accidents

01 p0022 A69-11345

Amino alcohol regenerable absorbers of carbon dioxides toxicological characteristics, discussing absorbing ability in rats

10 p1646 A69-23502

Failure mechanism for intergranular stress corrosion cracking of vacuum annealed unalloyed Ti in alcohol iodine solutions

16 p2798 A69-31717

Relative gas phase acidities of simple aliphatic alcohols, considering effects of alkyl groups

19 p3265 A69-36289

ALDEHYDES

U FORMALDEHYDE

ALDOSTERONE

Aldosterone and hydrocortisone introduced into bladders of adrenalectomized dogs to restore sodium metabolism contributing to normal water-salt homeostasis

21 p3656 A69-38965

ALFVEN WAVES

U MAGNETOHYDRODYNAMIC WAVES

ALGAE

NT ANABAENA

NT BLUE GREEN ALGAE

NT CHLORELLA

NT SCENEDESMUS

Biological life support system based on continuous algae seaweed cultivation as link of closed ecological system, discussing design and performance

01 p0020 A69-11077

Biological life support system for regenerating closed atmosphere by photosynthesis, using gas exchange between man and microalgae

01 p0021 A69-11078

Chlorella and Scenedesmus unicellular algae mixture tested for biological protein value in humans for possible food source

01 p0021 A69-11079

Nutritive value of protein from discolored algae biomasses on groups of rats kept on algae biomass, casein and soybean diets

02 p0198 A69-11510

Hydrogen adaptation effect on fluorescence of normal and Mn deficient algae, noting system II photosynthesis

04 p0554 A69-15325

Algae diet more effective than soya-protein diet in recovering metabolic processes in protein deficient white rats

07 p1065 A69-18977

Manganese catalyst photoreactivation in photosynthetic oxygen evolution in Mn deficient algae Anacystis nidulans cells

13 p2210 A69-28257

Manganese deficiency effect on growth and chlorophyll content of algae with and without hydrogenase

15 p2558 A69-31551

Water purification through biological oxidation of organic wastes using controlled photosynthesis, discussing algae production and harvesting

21 p3668 A69-39711

Radiation damage in chlamydomonas, discussing dark repair activities

23 p4090 A69-41964

Gradually decreasing N concentration effects on composition, tissue production and oxygen yield of unicellular algae in continuous culture

24 p4263 A69-43201

ALGEBRA

NT ADJOINTS

NT BANACH SPACE

NT CANONICAL FORMS

NT CUBIC EQUATIONS

NT DETERMINANTS

NT DYADICS

NT EIGENVALUES

NT EIGENVECTORS

NT GROUP THEORY

NT HERMITIAN POLYNOMIAL

NT HILBERT SPACE

NT JORDAN FORM

NT LIE GROUPS

NT LINEAR EQUATIONS

NT LINEAR TRANSFORMATIONS

NT MATRICES [MATHEMATICS]

NT POLYNOMIALS

NT QUADRATIC EQUATIONS

NT SPINOR GROUPS

NT STATE VECTORS

NT STOKES THEOREM [VECTOR CALCULUS]

NT STRESS TENSORS

NT TENSORS

NT VECTOR SPACES

NT VECTORS [MATHEMATICS]

NT VORTICITY

Iterative method to solve large sets of algebraic equations in approximate solution of multidimensional partial differential equations by implicit numerical techniques

03 p0456 A69-13554

Conditional probabilities, definition and algebra

04 p0623 A69-14948

Hybrid loop properties determination using quadrupole algebra, noting frequency dependence of input impedance and voltage transmission

04 p0582 A69-15072

Volterra operator algebra for boundary value problems involving linear viscoelasticity with continuous relaxation time and delay time spectra

12 p2182 A69-26677

Algebra of quasi-homogeneous pseudodifferential operators applied to lateral boundary values of solutions of parabolic differential equations, discussing function spaces

17 p2994 A69-32842

Partially conserved axial vector currents and current algebra to obtain vertex functions at point having zero mass by extrapolations

17 p3008 A69-33004

Algebraic formulation of electromagnetic diffraction, discussing propagation of positive and negative time frequency components by dual operators

18 p3172 A69-35010

Eigenvalue conversion of second variation test for algebraic and differential constraints to Jacobi accessory minimum problem by introducing norm in coordinate perturbation space

19 p3400 A69-35672

Holor algebra with tensor notations applied to elastic structures /discrete systems/, discussing inertia and stiffness tensors

21 p3831 A69-38415

Algebraic decoding techniques, discussing channel models, errors correction, hardware and software, etc

23 p4119 A69-41746

General linear state estimation from algebraic viewpoint without probability theory concepts, establishing least squares parameter estimation

23 p4182 A69-41880

ALGOL

Computer program in ALGOL for computing satellite ephemerides applicable to satellites with direct or retrograde motion observed in Northern or Southern Hemispheres

12 p2159 A69-26448

Monograph on reduction of satellite data using fixed stars covering ALGOL programming for computing satellite direction from photographic model

14 p2446 A69-29286

ALGORITHMS

Error and sensitivity analysis of on-line algorithms for fixed point linear smoothing

01 p0050 A69-10238

Optimal rank algorithm construction for signal detection in noise investigated for use in information transmission systems

01 p0027 A69-10374

Algorithms for linear system of first order differential equations, emphasizing equations associated with computer oriented circuit design

01 p0036 A69-10708

Algorithms for three dimensional supersonic gas flow incident on bodies applied to calculating oxygen flow in asymmetric nozzle

01 p0060 A69-10724

Monte Carlo method used to construct optimal algorithms for simulating homogeneous Markov chains whose trajectories reach absorbing state with probability of one

01 p0105 A69-10726

Circuits with magnetic coupling, describing digital computer algorithms for assembly of loop current equations

01 p0036 A69-10745

Time optimal control design by algorithm method

01 p0052 A69-10794

Forced processes in continuous external control systems, proposing algorithm for designing dynamic model

01 p0052 A69-10798

Discrete time optimal control problems solved by second order variational algorithm, developing recurrence relations for perturbation equations

01 p0054 A69-11416

Atmospheric temperature profiles by regularizing algorithm, discussing influence of random errors in measured radiation and kernel of integral equation on interpretation accuracy

02 p0274 A69-11448

Reliability of eliminating multivaluedness in two scale phase measurement method resolved by algorithm formulated on white Gaussian noise interference

02 p0206 A69-11603

Algorithm for N/h ionospheric profiles calculations using both x and o magnetoionic components, taking into account interlayer and underlying ionization influence

02 p0239 A69-11687

Structure oriented parallel algorithms for matrix operations, noting applicability to real time calculations for discrete Kalman filter and control problems

02 p0224 A69-11743

Algorithms for error analysis, optimum filtering sensitivity and fixed interval smoothing solutions to linear estimation problems

02 p0224 A69-11961

Computational algorithm for determining piecewise-constant feedback gains for linear system optimal control

02 p0224 A69-11964

Algorithm minimizing performance index and sensitivity of controller design with and without saddle point

02 p0224 A69-11966

Clinical problems during interplanetary flights, stressing need for diagnostic algorithms and automated medical equipment

02 p0202 A69-12121

Algorithm for Orr-Sommerfield equation applied to stability of laminar flow, noting profile resembling mean velocity profile of turbulent flow in flat tube

02 p0233 A69-12573

Algorithm computing spherical harmonic coefficients for eccentric geomagnetic dipole potential

02 p0245 A69-12735

Equilibrium problem for fluid subjected to gravitational forces and surface tension, proposing algorithm for numerical solution

03 p0417 A69-13810

Algorithm for numerical solution of variational problems for functions of two independent variables

and boundary value problems using local variations method

04 p0622 A69-14616

Numerical algorithm for supersonic gas flow past blunt bodies with shock wave separation, using Dorodnitsyn method of integral correlation

04 p0587 A69-14621

Book on dynamic programming basic theory and standard computational algorithm and applications to optimization in diverse fields

04 p0563 A69-14652

Algorithm for Navier-Stokes and continuity equations used to derive curvilinear coordinate system

04 p0564 A69-14858

Fast Fourier transform, discussing algorithms for sampled Fourier spectra and FORTRAN programs

04 p0625 A69-15223

Algorithm for simultaneous nonlinear equations solution on computer, noting quadratic convergence for convex space

04 p0565 A69-15335

Algorithm for calculating discrete Fourier transform by computer

04 p0565 A69-15336

Functional optimization techniques for serial hybrid computer solution of partial differential equations, emphasizing algorithms handled on digital computer

04 p0566 A69-15344

Algorithm generating same stereogram for two or more selected surfaces by extending random dot stereogram technique

04 p0603 A69-15445

Algorithm for discriminating random signals with unknown mean values, discussing decision functions possible existence to minimize error probability

05 p0719 A69-16218

Pattern classification algorithms classified according to type of input information required

05 p0725 A69-16571

Design algorithm for adaptive control of systems using nonlinear integral equations with bounded input functions, formulating optimization as conditional minimization problem

06 p0900 A69-17351

Recursive algorithms for pattern classification using misclassified samples

06 p0891 A69-17357

Deterministic pattern classification algorithms, discussing abstraction problem, stochastic algorithms, minimum error scheme and modified least squares scheme

06 p0892 A69-17395

Trunk and tree searching properties of Fano sequential decoding algorithms

06 p0902 A69-17400

M measurement optimal feedback control algorithm for stochastic discrete time systems, considering nonlinear plant, constrained controls, nonquadratic cost and simulations

06 p0902 A69-17402

Nonlinear programming computational algorithm for recursive optimal estimates of constrained states of linear system

06 p0902 A69-17403

Synthesis of optimum linear antenna using algorithm

06 p0897 A69-17543

Algorithms construction for aerospace vehicle trajectory optimization, considering quasi-linearization method for computation of variable time optimum trajectories

06 p1006 A69-17569

Algorithms for polynomial results computation, considering extraneous factors, truncation errors, memory and computing speed

06 p0892 A69-17884

Stochastic approximation algorithms for adaptive linear discrete time system identification using noisy input

06 p0904 A69-17940

Digital computer algorithm for automatic processing of IR weather data transmitted by Cosmos 122 and 144 meteorological satellites

06 p0929 A69-17981

Fourier transform algorithm introduction leading to image coding technique with image transformed by Hadamard matrix operator

07 p1078 A69-18859

Algorithm for high speed digital computers to evaluate stellar radiative opacities

07 p1222 A69-19589

Algorithm for calculating Moore automaton or connected network channel capacity and source of input symbols for full capacity utilization

07 p1088 A69-19707

Space-time evolution of one Petrov type into another, obtaining algorithm, flow diagram and discontinuous hypersurfaces results

08 p1350 A69-19789

Algorithm with iterative technique for nonlinear minimax approximations

08 p1344 A69-20829

Linear shift register synthesis algorithm found to coincide with Berlekamp iterative algorithm for decoding BCH codes

09 p1470 A69-21317

Brightness curves of eclipsing systems under monotonicity of unknown functions, using stable algorithm

09 p1588 A69-21363

Differential dynamic programming algorithms of second and first order for optimal control, considering nonlinear unconstrained and constrained problems

09 p1531 A69-21415

Algorithms in electronic circuit analysis, establishing algebraic and topological analogs based on generation of fundamental relations

09 p1472 A69-21777

Linear systems analysis by generalized numbers method, discussing algorithms for manual or computer analysis

09 p1472 A69-21778

Linear electronic circuit canonical synthesis by computer, using algorithm based on linear and nonlinear programming

09 p1472 A69-21781

Specialized mathematical machine for expanding matrix determinants and solving combinatorial problems, discussing symbolic circuit

09 p1460 A69-21782

Digital computer algorithm for analyzing circuits represented as autonomous multiport networks

09 p1472 A69-21786

Nonlinear boundary value problem algorithm in shell theory, showing aid of numerical technique

09 p1614 A69-21887

Kutta-Merson algorithm for converting partial differential equation for two dimensional unsteady state heat conduction to simultaneous ordinary differential equations

09 p1623 A69-22280

Adaptive control algorithm operating on-line to make discrete time adjustments in controller parameters of continuous time control system

09 p1474 A69-22441

Algorithm for mean energy transmission coefficient of fundamental mode in beam guide with given inhomogeneities, discussing mode conversions

09 p1469 A69-22629

Reissner algorithms for displacements of bent plate represented in finite series form as solutions of Euler equations

10 p1793 A69-22883

Algorithm in fault detection and isolation, discussing test optimization for complex systems or structures subject to failure

10 p1698 A69-22978

Waveguide Y circulator electrodynamic parameters by design algorithm and computer programs

10 p1661 A69-23108

Nondifferential function minimization on entire vector space or bounded subset for application to minimax problems in function spaces, time optimal control, etc

10 p1721 A69-23863

Algorithm for determining readings dispersion during cosmic ray recording, considering cosmic rays variability, statistical nature and instrument errors

10 p1770 A69-23906

Statistical regularization for obtaining a priori probability distribution information on mathematically incorrect inverse geophysical problems, deriving algorithm

10 p1689 A69-23968

Algorithm for calculating Bayes estimates for unsteady Gaussian signals separation in presence of unsteady Gaussian noise by least squares method

11 p1833 A69-24443

Reliability of eliminating multivaluedness in two scale phase measurement method resolved by algorithm formulated on white Gaussian noise interference

11 p1835 A69-24710

Stochastic approximation procedure minimizing mean square error criterion for system identification, estimation and decomposition of mixtures

11 p1842 A69-24934

Hybrid matrix algorithm for electronic circuits analysis, showing applications to transistorized circuits

11 p1859 A69-24954

Pattern classification algorithms classified according to type of input information required

11 p1843 A69-25445

- Iterative algorithm to determine transition probability final distribution in Markov extremal systems
11 p1861 A69-25712
- Digital control algorithm based on self adaptive linear model of multivariable processes used for feed-forward control of output signals
12 p2046 A69-26063
- Minimal representation in state variables for multivariable control system, discussing algorithms, identification methods and flow graph techniques
12 p2047 A69-26070
- Load deflection equation solution based on row operations, involving three passes of coefficient matrix, using wavefront processing and modified Gauss algorithm
13 p2358 A69-27208
- Parallel processing in system of computers with identical output, including probability graph for algorithm
13 p2224 A69-27426
- Regional boundaries in control-parameter space constructed by computer algorithm, involving parameter vibration direction changes in parameter plane
13 p2225 A69-27967
- Finite difference Newton-Raphson algorithm extension to solve variational equations for simultaneous optimization of trajectories and associated parameters [AIAA PAPER 68-115]
13 p2353 A69-28203
- Independently fluctuating Poisson light signals detected by receiver with inertialess photodetector, developing algorithm for estimating amplitude of useful signals
13 p2223 A69-28552
- Algorithm for N/h/ ionospheric profiles calculations using both x and o magnetoionic components, taking into account interlayer and underlying ionization influence
13 p2258 A69-28718
- Automatic control circuit zero drift compensation during external disturbance, using algorithm for computer minimizing of losses caused by control and response inaccuracy
14 p2425 A69-29140
- Image recognition algorithm for determination of hyperplane separating two finite sets of elements in Euclidean space
14 p2418 A69-29353
- Algorithm for solving Dirichlet problem of nonlinear elliptical differential equations representing atmospheric dynamics balance equation
14 p2470 A69-29401
- Optimal control problems solved by dynamic programming algorithm based on successive approximations of elementary control operation in space of states
14 p2426 A69-29472
- Iterative solution for difference equations approximating displacement vector determination problem in theory of elasticity, investigating algorithm convergence
14 p2536 A69-29479
- Bayesian theory to determine maximum a posteriori estimation algorithms for optimum bit synchronization in digital communication systems
14 p2413 A69-29496
- Algorithm for enumerating all circuits of linear graph, noting suitability for computerization without large computer memory
14 p2421 A69-29541
- Fast folding algorithm for detection and correlation of digital data with weak noisy pulse trains of differing periods
14 p2416 A69-29548
- Error bounds for covariance matrix used in optimum filtering and smoothing algorithms for control and communications systems operation
14 p2416 A69-29549
- General algorithm for eruptive plasma instabilities in fusion plasmas, flares and novae, yielding time behavior and dissipative effects
14 p2499 A69-29850
- Hybrid computer system for real time optimum feedback controller using iterative algorithms with rapid convergence, discussing simulation and performance
15 p2582 A69-30071
- Digital simulation for radio systems nonlinear elements, outlining procedures to obtain algorithms
15 p2582 A69-30111
- Algorithms for optimal detection of signals on background of normal noise with time varying intensity
15 p2563 A69-30133
- Algorithm for processing binary-quantized echo signal packets, obtaining useful and noise signals relation
15 p2571 A69-30331
- Polygonal approximation to functional equation solution by using search algorithms, listing FORTRAN IV programs
15 p2644 A69-30424
- Algorithm for calculating recognition error by applying pattern vectors having two multivariate Gaussian distribution to optimum Bayes classifier
15 p2572 A69-31113
- Rapid convergence algorithms as second variation methods for dynamic optimization problems
15 p2645 A69-31235
- Independent operations optimum performing sequence determined for parallel machines differing in technological characteristics and with assigned time using algorithm
16 p2763 A69-31626
- Minimization algorithm for complex and switching functions using unique identifiers on Karnaugh map
16 p2764 A69-31710
- Solid propellants formulation quantitative predictability for algorithmic modeling of functional selection, discussing specific impulse and burning rate [AIAA PAPER 69-432]
16 p2828 A69-31845
- Continued fraction inversion to rational fraction of two polynomials based on state space formulation and Routh algorithm
16 p2805 A69-32470
- Quasi-linearization algorithm for solution of boundary value problems for ordinary differential equations, formulating representation and convergence theorems
17 p2994 A69-32835
- Gyrocompass differential equations of motion reduced to Volterra integral equation, proposing solution algorithm
17 p2995 A69-33617
- Adaptive random search algorithm utilizing boundary cost-function hypersurfaces measurement to implement Pontryagin maximum principle, discussing hybrid computer use, iterative solution and convergence properties
17 p2933 A69-33745
- Algorithm for assigning binary codes to inputs, internal states and outputs for sequential machines by threshold logic
18 p3105 A69-34618
- Algorithm for minimizing expected value of quadratic performance index in closed loop optimal control of linear time varying systems
18 p3111 A69-34688
- Numerical procedure for testing absolute stability and positive realness of free dynamic systems based on Routh algorithm
18 p3112 A69-34689
- Brightness curves of eclipsing systems under monotonicity of unknown functions, using stable algorithm
18 p3197 A69-34753
- Algorithm for minimum weight structures automated design, coupling strain energy criteria with linear interpolation search technique to cover stress and displacement constraints [SAWE PAPER 798]
18 p3219 A69-34861
- Plate dynamics generalized equations independent of plate theory hypotheses, discussing algorithm and initial and boundary conditions
18 p3226 A69-35376
- Parameters distinguishing analytic queueing models of time sharing algorithms, emphasizing techniques used for analyzing round-robin and multiple level queueing models
19 p3279 A69-35600
- Orbit computation by means of predictor-corrector algorithms based on nonpolynomial functions, including numerical results for two body elliptic motion
19 p3397 A69-35611
- Modified Newton-Raphson methods for preliminary orbit determination, showing fast convergence and short computation times
19 p3397 A69-35613
- Aircraft terrain-following algorithm for use with airborne general purpose digital computer, discussing simulation techniques and test results [AIAA PAPER 69-817]
19 p3366 A69-35625
- Ordinary differential equations integration method, presenting algorithm based on double constraint of maximum accuracy and stability
19 p3279 A69-35805
- Iterative algorithm applied to shell theory boundary value problem of stress concentrations at shallow shell holes
19 p3436 A69-35847
- Impulsive orbit transfer optimization using accelerated gradient program based on Newtonian algorithm for digital computer method
19 p3402 A69-35956
- Algorithms for equivalence equation to approximate transient processes in higher order linear system by transient processes of lower order linear models
19 p3286 A69-36191
- Algorithm for determining multidimensional random process from canonical representation of current state, noting minimum rms prediction error
19 p3287 A69-36663
- Perceptron probability algorithm for random events prediction based on previous histories, applying Bayes formulas, static solutions formulas and transition probability tables and graphs
19 p3287 A69-36664
- Computer-algorithm elements required for engineering design and invention problems including design requirements, selection of spaces for variables using computerized heuristics, etc
19 p3280 A69-36666
- Dispersive quadrupole network design using algorithm method
19 p3287 A69-36740
- Algorithm minimizing nonzero elements during Crout reduction of sparse matrices
20 p3497 A69-36946
- Algorithm for definite integrals evaluation, using Clenshaw-Curtis and Romberg quadratures combination in each subinterval
20 p3498 A69-36947
- Algorithm for Chernousko local variation method during application to solution of variational problems involving nonadditive functionals, assessing convergence
20 p3513 A69-36990
- Weighting coefficients calculations by recursive algorithm for designing optimal discrete adaptive Kalman filter
20 p3509 A69-37142
- Algorithm using Biot-Savart law for determining induced velocity of curved vortex lines in aerodynamics, noting required line integration method
20 p3458 A69-37169
- Failure test algorithm for sequential units with delay lines of control digital computers, detecting replacement of output terminals by sensitive paths
20 p3502 A69-37394
- Electronic computer for processing observational data from pilot balloons, utilizing algorithms of values in programming for accuracy and time saving
20 p3572 A69-37700
- Pulsar search signal processing and digital techniques, using fast folding /cross correlation/ or fast Fourier transform /FFT/ algorithms
20 p3605 A69-37824
- Brightness distribution over source, discussing regularization algorithms for radio astronomical data reduction from crossed telescope
20 p3606 A69-38033
- N strip algorithm of integral relations to analyze flow around circular cone at incidence in supersonic flow
20 p3460 A69-38128
- Discrete problems of optimal control solved by general minimum principle, proposing several algorithms for optimality problems
20 p3509 A69-38295
- Algorithms testing characteristic polynomials and differential equation classical stability relations
21 p3755 A69-38925
- Numerical algorithms for nonlinear optimal pursuit problems
21 p3757 A69-39536
- Algorithm for programming language grammars conversion into pushdown store automata translators
21 p3679 A69-39607
- Spacecraft descent trajectory optimization during atmospheric reentry, proposing algorithm for continuous trajectory determination
21 p3766 A69-39647
- Spacecraft trajectory control algorithm for hypersonic reentry, describing onboard equipment role and simulation results
21 p3767 A69-39649
- Optimal control system for earth satellite orbital transfer, using wandering ellipse technique to develop trajectory correction algorithm
21 p3767 A69-39652
- Statistical regularization for obtaining a priori probability distribution information on mathematically incorrect inverse geophysical problems, deriving algorithm
21 p3680 A69-39654
- Long range space flight trajectory correction problem, obtaining algorithm for determining minimum number of corrections
21 p3818 A69-39822

Heart electrical activity time sequence estimation based on multiple dipole binary model, deriving algorithm

21 p3668 A69-39865

Algorithmic approach to nonlinear signal estimation problem useful in fetal electrocardiography

21 p3668 A69-39866

Algorithm for numerical modeling by Monte Carlo method of diffusion bounded light beams in dispersive media, applying to light pulse in cloudlike medium

22 p3981 A69-40248

Computerized algorithm facilitating automatic synthesis of time invariant linear compensation for highly complex multiloop control systems

[AIAA PAPER 69-941]

22 p3917 A69-40324

Algorithms for close earth satellite orbit calculation developed by numerical integration methods, discussing solution efficiency

[AIAA PAPER 69-948]

22 p4021 A69-40331

Newton-Raphson function space algorithm for optimizing control systems with discontinuities and terminal constraints, discussing spacecraft examples

22 p3918 A69-41009

Robbins-Monro stochastic approximation method using algorithms for identifying finite memory time-discrete time-stationary linear system from noisy input-output measurements

22 p3918 A69-41013

Algorithm for optimal solution to secondary optimization problem in nonserial dynamic programming

22 p3976 A69-41037

Variable time of arrival (VTA)/guidance generalized, developing computational algorithms to supplement linear guidance method

22 p3979 A69-41186

Assignment algorithm for target recognition in multiradar tracking systems

22 p3902 A69-41250

Monotonic minimization algorithm for nonsmooth extremal problems of mathematical programming, game theory, approximations and optimal control in arbitrary Banach space

23 p4181 A69-41524

System: asymptotic motion stability for given parameter values using algorithms with aid of R functions

23 p4191 A69-41704

Image recognition algorithms estimated for effectiveness by formulas minimizing classification error probability

23 p4134 A69-41954

Algorithm for stress analysis of structurally orthotropic conical and cylindrical shells, resolving first order differential equations

23 p4229 A69-42000

N-terminal parent networks with symmetry constraints derived for nonredundant one port configurations through combinatorial functions test patterns, using computer algorithm

23 p4134 A69-42524

Minimization algorithm for switching systems synthesis, describing design of mass spectrometer curve function generator and autonomous shift register

23 p4146 A69-42535

Algorithm for aeromedical airlift system stop selection and sequencing, minimizing patient in-system time and aircraft flight distance

[AAS PAPER 69-385]

24 p4251 A69-42804

Algorithm minimizing personnel number and training costs to meet uncertain skill requirements, applying to army aviation contingency force training composition

[AAS PAPER 69-116]

24 p4271 A69-42818

Memory gradient algorithm for reducing computing time by minimizing quadratic function of unconstrained variables compared with Fletcher-Reeves algorithm

24 p4340 A69-42957

Nonparametric partitioning algorithm for pattern classification, discussing pattern recognition, classifiers structure, real data applications, etc

24 p4285 A69-43062

Nonblocking switching networks operating in ordinary and in simultaneous switching regime, including control algorithms for optimal space communication

24 p4289 A69-43138

Multidimensional approximation algorithm for parameter optimization of nonlinear stochastic systems, detailing application to space vehicle attitude controller

24 p4291 A69-43275

Optimal control for systems with discontinuities and terminal constraints using Newton-Raphson algorithm/successive sweep method/

24 p4294 A69-43306

Parameter identification algorithm identifying linear dynamic systems by digital computer used to identify human operator characteristics in closed loop control situation

24 p4276 A69-43320

ALIGNMENT

NT SELF ALIGNMENT

Laser application to machine tool accuracy and alignment

[ASTME PAPER MR68-407]

02 p0252 A69-11797

Astronomical alignment accuracy by rocket Cassiopeia system, discussing scientific payload rotation and orientation by celestial bodies

03 p0462 A69-12850

Rotation and orientation of cosmic dust particles due to collisions with interstellar gas particles

03 p0511 A69-13420

Optical sighting method for determining orientation of rocket on launch pad by laser collimator, noting lining up of Cassiopeia system

06 p0930 A69-17104

Optical alignment for lasers with electro-optical Q switching and mutually misaligned ruby rod, KDP crystal and polarizing prism

12 p2107 A69-26589

Fiber axis distribution resulting from mechanical working deformation of matrix containing initially randomly oriented fibers

12 p2188 A69-26933

Cosmic rays suggested as origin of interstellar grain alignment, discussing galactic central radiation, gas collisions and isotropic bombardment

13 p2333 A69-28469

Asymmetry method for precision alignment of rectilinear systems, using laser light diffraction behind misaligned target

21 p3742 A69-39781

Portable He-Ne laser design featuring positional adjustment for use in aligning optical systems

24 p4327 A69-42924

Photolysis of aliphatic amino acids by UV light in presence of salt ions forming ammonia, glyoxalic acid, acetaldehyde and formaldehyde

01 p0025 A69-11094

Metal oxides catalytic and inhibitory effects on photolysis of alanine by UV light

01 p0025 A69-11095

Halocarbon solvent for application of chlorosilane finish to heat cleaned glass fabric for reinforcement of plastic, noting relative humidity effect

08 p1341 A69-20513

Relative gas phase acidities of simple aliphatic alcohols, considering effects of alkyl groups

19 p3265 A69-36289

Relative gas phase acidities of simple aliphatic amines and ammonia noting increase in large alkyl groups substitution

19 p3265 A69-3629

Linear aliphatic polyesters preparation by acid chloride synthesis, acid exchange and ester exchange stressing products purification

19 p3265 A69-36372

Gel permeation chromatography of nominally linear aliphatic polyesters, using tetrahydrofuran solvent at 37 degrees C

21 p3670 A69-39806

DENDRAL program used to construct all possible acyclic structural isomers of C, H, N and O

23 p4114 A69-42214

Geochemical synthesis of branched chain acyclic polymers from irradiated isoprene

24 p4269 A69-43750

ALKALI HALIDES

NT CESIUM IODIDES

NT SODIUM CHLORIDES

Ruby laser light beam self focusing in sodium chloride and potassium bromide crystals

03 p0438 A69-13051

Absorption and IR emission of nickel and cobalt doped alkali halides

03 p0490 A69-13941

Halide salts, semiconductors and nonoxide glasses as materials for high power laser windows

07 p1144 A69-18401

Alkali halide crystals destruction by laser radiation for estimating optical strength, discussing impact ionization hypothesis

08 p1328 A69-21188

Alkali halide single crystals disintegration by laser radiation differs as function of crystal physicochemical properties and band structure

10 p1745 A69-23322

Alkali halide crystals destruction by laser radiation for estimating optical strength, discussing impact ionization hypothesis

18 p3152 A69-35157

F center formation and X ray and photostimulated F-band luminescence in europium ion-activated potassium halides as function of temperature and X ray dosage

19 p3383 A69-36164

Electron spin memory in optical pumping cycle of potassium halides F centers, measuring relaxed excited state g factors and spin resonance line widths

23 p4198 A69-42419

NT SODIUM 22

Vacuum distillation technique for isolation and recovery of alkali metal reaction products with Ta, Ni, V and oxygen

01 p0083 A69-10927

Alkali metal vapors thermal conductivity determination by temperature difference dilatometric measurement

02 p0247 A69-11579

Magnetic confinement of electric arc in alkali metal vapor containing gas flow, considering degree of ionization

02 p0286 A69-11585

Alkali metal ion sources noting cesium ion engine development for space propulsion

[ECS PAPER 170B]

03 p0478 A69-13859

Alkali metals thermoelectric power and energy dependence of Heine-Abarenkov pseudopotential, taking into account anisotropy effects
05 p0809 A69-16507

Alkali metals electrical resistivity variation with temperature calculated in free electron approximation with Kreh model for phonon spectrum
08 p1372 A69-20229

Rare gas-alkali plasma electrical conductivity dependence on gas temperature and preionization to determine optimum operating conditions for MHD generator
10 p1733 A69-23451

Fermi surface data of alkali metals interpreted in terms of interaction between conduction electrons and ionic lattice for deducing partial wave phase shifts
13 p2304 A69-28681

Alkaline metal adsorption on high work function metals with charge transfer, measuring polycrystalline Mo photoelectric emission as function of Cs coverage
14 p2507 A69-29275

Collisionless Ce and K plasmas measurements to determine steady state parameters and LF oscillations, noting noise relationship to drift instability
14 p2499 A69-29849

Ionization within intersecting alkali atomic and slow electron beams, observing ionization cross sections increment near ionization threshold
15 p2655 A69-30726

ALKALIES
U POTASSIUM HYDROXIDES

ALKALINE BATTERIES
Low temperature hydrogen fuel cells and basic-electrolyte batteries design, discussing electrolyte concentration regulation by elimination of water formed
08 p1258 A69-21027

Thermodynamics and polarization of zinc electrode in alkaline media, discussing anodic dissolution and passivation
08 p1268 A69-21048

Zinc oxidation in weakly alkaline media, discussing basic properties of electrochemical cells containing zinc
08 p1268 A69-21050

Thermodynamics and polarization of Zn electrode in alkaline medium for electric generators
16 p2739 A69-32419

Gamma radiation effects on behavior of nickel and cadmium electrodes in alkaline solution
20 p3466 A69-38072

ALKALINE EARTH OXIDES
U BARIUM OXIDES
U BERYLLIUM OXIDES
U CALCIUM OXIDES
U MAGNESIUM OXIDES

ALKALOIDS
U PILOCARPINE

ALKANES
NT BUTANES
NT ETHANE
NT METHANE
NT PARAFFINS
NT PENTANES
NT PROPANE

Chemical mechanism of two stage spontaneous ignition controlled by cool flames of alkane-air mixtures under engine conditions to avoid knocking
11 p1998 A69-24479

Isoprenoids and isomeric alkanes identification in carbonaceous chondrites by gas-chromatographic mass-spectrometric analyses, including results from troilite nodules
19 p3414 A69-36113

Benzines antidetonation properties improved by separating n-alkanes with synthetic zeolite
23 p4199 A69-42479

ALKENES
NT BUTADIENE
NT ETHYLENE
NT PROPYLENE

Olefins combustion studies, considering influence on hexane combustion at different oxidation stages leading to ignition
02 p0352 A69-12309

Mechanical relaxation of poly 4 methyl pentene 1 at cryogenic temperatures, discussing temperature dispersion curve and secondary absorption associated with thermal motion of side chains
05 p0785 A69-16492

Ion structure of keto and enol and McLafferty rearrangements determined by ion cyclotron resonance spectroscopy
19 p3265 A69-36288

ALKYD RESINS

High temperature organic sealants for repairing small gas leakages in vacuum devices, tabulating test results for alkyd, epoxy, silicone and polyimide resins
11 p1907 A69-24742

ALKYL COMPOUNDS

NT TRIMETHYL COMPOUNDS

Photolysis of t-butyl iodide at low temperatures as source of t-butyl peroxy radicals for synthesis of peroxides
07 p1073 A69-18375

Thermodynamic dissociation constants of alkyl phenols in aqueous and methanol media based on UV spectroscopic analysis, noting anticarcinogenic properties
11 p1831 A69-24539

Relative gas phase acidities of simple aliphatic alcohols, considering effects of alkyl groups
19 p3265 A69-36289

Relative gas phase acidities of simple aliphatic amines and ammonia noting increase in large alkyl groups substitution
19 p3265 A69-36293

ALKYNES

U ACETYLENE

ALL SKY PHOTOGRAPHY

Auroral observations from constant local time westward flights of jet plane
02 p0245 A69-12738

Irregular pulsations in morning sky brightness using all-sky photographic airborne auroral observations along auroral oval
09 p1594 A69-21666

Vilna meteorite bolide observation with all-sky camera noting seismic and analytic records
13 p2334 A69-27189

Auroral substorm westward traveling surge and poleward, eastward and equatorward motion analyzed from all sky photographs
15 p2595 A69-30214

Auroral displays observed in combined field of view of polar all sky camera networks, considering simultaneous geomagnetic disturbances over Alaska
15 p2595 A69-30215

ALL-WEATHER AIR NAVIGATION

All-weather landing factors for aircraft and pilots, describing instrument landing system, runway and visibility, pilot and crew procedures, etc
01 p0112 A69-10454

All-weather landing flight director systems and fault warning display simulator studies of Boeing 707-720B aircraft in Category 3-C environment
01 p0010 A69-10455

TRANSIT satellite navigation system for all-weather diurnal position fixing, noting Doppler frequency measurement and ionospheric signal refraction
01 p0112 A69-10457

Light aircraft all-weather flight feasibility, discussing storm and clear air turbulence detection and icing prevention
01 p0111 A69-11049

Navy Navigation Satellite System TRANSIT providing all-weather continuous worldwide service for military and civil users
02 p0277 A69-11753

Automatic all-weather landing system for scheduled civil passenger aircraft, discussing safety, display devices, Category 2 and 3 conditions
03 p0465 A69-13697

All weather wind profile monitoring system using FPS-16 radar/Jimsphere system and flight simulation for protection of space vehicle and missile launches
03 p0462 A69-13852

Military rotor blade radar antennas for all-weather low level flight and fire control
04 p0559 A69-15197

Aircraft position and velocity in directions normal to ILS reference path by correlation with inertial navigation system, noting minimal time controller
07 p1177 A69-19213

Aircraft head-up display systems emphasizing all-weather operations and equipment characteristics
08 p1315 A69-20451

All-weather head-up displays /HUD/, discussing operational usage, hardware availability and design philosophy
08 p1315 A69-20452

Electronic terminal guidance requirements for all-weather VTOL operations, suggesting future first generation landing system
08 p1348 A69-21064

Helicopter all-weather flight control system, using autostabilization and artificial horizon
09 p1435 A69-22778

All-weather landing including zero-zero, discussing planning in Europe and U.S.A.
10 p1722 A69-23698

C-141 Category IIIB all weather landing system, discussing system concept, components, operations and performance
14 p2479 A69-29701

All-weather operations, aircraft size, air traffic and noise as airport design factors, discussing financing priorities for runway construction, facilities and personnel
17 p3004 A69-34207

Landing guidance devices under difficult weather, discussing landing mechanics for land and carrier based aircraft
18 p3170 A69-34857

All-weather landing in civil air operations, discussing ground/air systems in tracking, visual reference and aircraft performance required for safe landing capability
20 p3574 A69-38119

Electronic terminal guidance requirements for all-weather VTOL operations, suggesting future first generation landing system
22 p3978 A69-39875

Head-Up Display /HUD/ incorporated with autopilot for human participation in flight control for all-weather operation
23 p4109 A69-41871

ALLOCATIONS

NT GRANTS

Efficient allocation of maintenance resources in USAF, analyzing B-52 costs and substitution of capital for labor
13 p2382 A69-28041

ALLOTROPY

Medium heating by explosion in presence of allotropic changes and thermochemical reactions concerning temperature field determination
03 p0534 A69-14159

Molybdenum disilicide allotropy influence on coating growth rate and morphology
[ONERA-TP-642] 08 p1335 A69-19967

Volumetric and allotropic changes during heating in electrolytic cobalt multiple phase transformations
12 p2114 A69-26455

Alloy elements effect on spreading of liquid titanium and zirconium alloys on graphite
03 p0446 A69-13573

Mechanical properties and stress concentration sensitivity of structural alloys at low temperature
04 p0614 A69-14574

Long term strength of Ni-Cr-Al-Ti alloys, studying gamma particles size and distribution effect
04 p0616 A69-14651

Chemical compatibility estimation of lead and tin tellurides thermoelectric materials with metallic alloys
04 p0551 A69-15315

Galvanic corrosion couples of metals and alloys tested in liquid fluorine, determining corrosion rates for possible missile components application
06 p0944 A69-17854

Transient heat evolution response to reapplied stress of alloys plastically preformed at 4.2 K attributed to thermally softened defect structures
07 p1165 A69-18906

Directional solidification of multicomponent metal alloys for matrix in fiber reinforced composites, using monovariant eutectic reactions
07 p1166 A69-19145

Atmospheric and alloying elements effects on casehardening by gas carburization of structural steels, noting carbon potential
07 p1167 A69-19344

Microstructural changes during liquid phase sintering of alloys, considering temperature effect on carbide grain growth and activation energies
07 p1168 A69-19599

Tensile strength of alloys under high pressure of hydrogen and helium, discussing embrittlement [ASM PAPER D8-14.2]
07 p1169 A69-19667

Composite materials and alloys for jet turbine components in 1970s, discussing anticipated temperatures and material properties
09 p1523 A69-22061

Pressure vessels burst tests for investigating alloys, fabrication processes and biaxial loading effects, noting vessel configurations and test temperatures
10 p1714 A69-23974

Temperature effect on amplification factor of box type dynode system of photoelectron multipliers made of alloy AMGK, using single electron method
11 p1846 A69-24626

Soviet collection of articles on atomic ordering effects on alloy properties
11 p1936 A69-24701

Order-disorder in alloys with several phase transition temperatures, discussing crystal lattices, interstitial alloys, atomic and magnetic ordering
11 p1936 A69-24702

Superstructures in multicomponent alloys, transition mode and temperature, ordered state and atomic interactions
11 p1937 A69-24703

Pressure effects on hcp crystalline lattice alloys order-disorder transformations
11 p1937 A69-24704

Laser radiation in vacuum effects on metals and alloys
11 p1906 A69-25684

Room temperature thermal conductivity of semiconducting alloys with stoichiometric distributions of vacancies in cation sublattice, discussing heat resistance
12 p2142 A69-25975

Grain size and deformation velocities effects on plasticity of dispersion hardened alloy
13 p2283 A69-28489

Ferrous and nonferrous metals shock tensile strength by elastic contact dynamometer, noting diagram shape dependence on stress growth rate
14 p2464 A69-29314

Low temperature thermal expansion coefficients and linear contraction of metal alloys from liquid hydrogen to room temperature tabulated as function of temperature
14 p2464 A69-29400

Amorphous semiconducting alloys single band model characteristics
15 p2667 A69-30199

Mechanical properties and stress concentration sensitivity of structural alloys at low temperature
15 p2638 A69-30275

Interface friction and adhesion of alloys workpieces and die materials under pressure and temperatures typical of plastic deformation
15 p2629 A69-30902

Ceramic phase reinforcement of metals and alloys, discussing interfacial energies, binding forces and elastic stress fields [ONERA-TP-661]
16 p2802 A69-32204

Alloying pairs of metal pellets to n and p type semiconducting GaAs, discussing photo effects
17 p3015 A69-32824

Structural modifications of metals and alloys accompanying various stages of creep, interpreting equations describing time-deformation relation
17 p2985 A69-32904

Alloying elements effects on low temperature metal fracture, considering changes in ductile-brittle transition flow due to solute
17 p2988 A69-33551

Electrode potential measurements for corrosion study of metals and alloys in aqueous solutions, molten salts and gaseous atmospheres
18 p3150 A69-35412

Heat resistance evaluation of ZrH₂-K alloy subjected to multicomponent surface diffusion alloying combinations of Al, B, Cr, Si, Zr
19 p3345 A69-36159

Nonferrous metals and alloys conductivity standards development program resulting in fabrication, calibration and certification of 16 primary reference standards
20 p3537 A69-37008

Qualitative interpolation formula for phonon frequency spectrum of mass disordered alloys three dimensional systems at high concentrations
20 p3583 A69-37279

Vacuum heat treating and joining process for various ferrous and nonferrous metals and alloys, discussing advantages, applications and economics [ASM PAPER D8-22.3]
20 p3551 A69-38132

Spectrographic analysis for ferrous and nonferrous alloys as nondestructive testing
20 p3551 A69-38133

Engineering alloys electrical resistivities measurement at various temperatures, noting temperature and heat treatment effects [NAS-NRC PAPER D-5]
22 p3970 A69-40633

Mounting elements alloys relaxation characteristics at various temperatures, considering effects of scale factor and stress concentrations
23 p4169 A69-41419

ALLYL COMPOUNDS

Polydiethylene glycol-bis-allyl carbonate /PBAC/ Hugoniot equation of state, reporting shock data, discussing applications to propellant testing
16 p2879 A69-32179

ALMUCANTAR

U ELEVATION ANGLE

ALOUETTE HELICOPTERS

NT SA-330 HELICOPTER

Helicopters operation from small ships, describing underside harpoon mooring technique for Alouette 2 and 3
08 p1255 A69-20654

ALOUETTE SATELLITES

Transpolar exospheric electron concentration distributions along earth-sun line parallel path of Alouette 1 satellite
03 p0425 A69-14018

Ionospheric conditions following solar proton flare observed with topside sounders of Alouette satellites, showing electron density depletion and hydromagnetic wave relationship
10 p1684 A69-23781

Ionospheric satellite series Alouette-ISIS, discussing successive engineering and management constraints leading to ISIS-C design
20 p3618 A69-37856

Alouette spacecraft design and dynamics emphasizing antenna characteristics
20 p3618 A69-37858

Sweep frequency ionospheric topside sounder design for Alouette and ISIS satellites, discussing influence of experiment requirements and spacecraft limitation and environments
20 p3507 A69-37859

Data acquisition and processing ionograms from Alouette satellites telemetered sweep frequency topside sounding data
20 p3503 A69-37860

Receiving and display telemetry system for obtaining direct ionospheric topside ionograms from Alouette 1 satellite, discussing video data tape recording cost
20 p3507 A69-37861

ALOUETTE 1 SATELLITE

Vertical incidence pulse dispersion with application to Alouette 1, discussing echo width, sounder system bandwidth and frequency gradient of ionospheric virtual height
16 p2750 A69-31977

Magnetic activity effect on electron density in topside ionospheres determined from Alouette 1 data statistical analysis
23 p4156 A69-41856

ALOUETTE 2 SATELLITE

Conjugate echoes in Alouette 2 topside sounder ionograms explained by multiple reflections between conjugate points of field line, noting magnetospheric waveguides role
08 p1274 A69-20045

Cylindrical electrostatic probes on Alouette 2 and Explorer 31 satellites used in intersatellite comparison of directly measured ionospheric electron temperature and density
20 p3544 A69-37876

Cylindrical electrostatic probe measurements on Alouette 2 and Explorer 31, considering implications for future missions
20 p3544 A69-37877

Alouette 2 ionograms secondary resonances data indicating day-night effect in relative frequency of occurrence
20 p3496 A69-37889

Two-hop signals observed on high latitude Alouette 2 topside ionograms found propagating in field aligned cylindrical ionospheric ducts
20 p3531 A69-37890

Topside ionospheric structure from Alouette 2 data, discussing thermopause temperature, plasma temperature, electron density profiles, satellite plasma frequency, etc
20 p3532 A69-37895

Plasma temperature and ion concentration profiles determined from simultaneous measurements by Alouette 2 and Explorer 31 satellites of electron density, temperature and ion abundance
20 p3532 A69-37896

ELF noise band observed by Alouette 2 receiver in interpreted in terms of electrostatic proton cyclotron harmonic waves, using digital power spectrum techniques
20 p3497 A69-38079

ALPHA PARTICLES

Angular correlation of inelastically scattered alpha particles and gamma rays emitted from 2-plus state of Sn 120
03 p0469 A69-13098

Angular correlation between inelastically scattered 42 Mev alpha particles and emitted gammas from 2-plus Ni 58
03 p0470 A69-13100

Absolute cross sections for coincidence detection of deuteron breakup by 42 Mev alpha particles, showing He 5 and Li 5 final state interaction peaks
03 p0472 A69-13469

Electrical resistance temperature dependence below room temperature for polycrystalline epitaxially grown Au and Ag films, noting effects of alpha irradiation
03 p0486 A69-13582

Asymmetry of polarized protons scattered from He 4 at 540 Mev for laboratory angles between 4 and 42 degrees
04 p0632 A69-14966

Spectra analysis of proton and He nuclei having different charge-to-mass ratios to obtain information on solar modulation and injection spectra
06 p0988 A69-17272

Helium component flux in primary cosmic rays determined, using corrected alpha particles number
06 p0988 A69-17275

Oriented nuclear emulsion stack for determining differential rigidity spectrum of primary He nuclei between 12 and 35 bv
06 p0988 A69-17276

Permanent magnet and nuclear emulsion for measuring He nuclei momentum spectra up to 100 gv rigidity
06 p0989 A69-17277

Distribution characteristics of radiation defects in materials irradiated by monoenergetic beams of protons and alpha particles
06 p0981 A69-17878

Differential energy spectrum of protons and helium nuclei using lithium drifted silicon detectors and scintillator-Cerenkov counter
07 p1204 A69-18833

Energy spectrum of primary cosmic ray helium nuclei from nuclear emulsion stacks exposed in sounding rocket flights

08 p1378 A69-20264

Time histories of Mev proton and alpha particle intensities during and after July 7, 1966 solar flare, noting abundance ratio and geophysical effects

10 p1768 A69-23768

Energetic particles observed during proton flare noting relativistic electrons, protons to alpha particles ratio, low energy particles and bidirectional proton stream

10 p1768 A69-23785

Distribution characteristics of radiation defects in materials irradiated by monoenergetic beams of protons and alpha particles

14 p2503 A69-28787

Proton and alpha particle fluxes above specified vertical geomagnetic cut-off rigidity measured by balloon-borne Cerenkov scintillation counter telescope

14 p2511 A69-28951

Earth radiation belt data, discussing origin, density, distribution, etc. of protons, electrons and alpha particles

15 p2674 A69-30016

Rocket observations of protons and alpha particles energy spectra after solar flares, noting riometer and magnetometer recordings

15 p2677 A69-31329

Low energy solar protons and alpha particles from 28 May 1967 solar flare used as probes of interplanetary medium

16 p2847 A69-31965

Solar wind model for studying long wavelength turbulence as heat source for alpha particles and protons in solar plasma

18 p3186 A69-34299

Alpha-scattering experiments by Surveyor missions, studying hypothesis regarding lunar origin of eucrites and howardites

20 p3597 A69-37341

Interplanetary proton and alpha particle radial gradients determined from Mariner data, considering Forbush decrease, particle solar origin, galactic cosmic radiation, etc

20 p3592 A69-38096

Chemical analysis of lunar surface by devices exploiting alpha particle backscattering and proton production by alphas placed by Surveyor 5, 6 and 7

22 p4012 A69-40088

Angular distributions for Sc 45-Ti 46 nuclear reactions involving 41 Mev alpha particles bombardment described by Born approximation

22 p3988 A69-41044

Geomagnetically trapped protons and alpha particles, analyzing OGO 4 data

24 p4368 A69-43184

Solar protons and alpha particles measurements at synchronous orbit altitudes providing data for solar cell shield design to prevent radiation damage

24 p4369 A69-43265

ALPHANUMERIC CHARACTERS

NT BINARY DIGITS

Alpha numerical and symbolic information combined for head up display /HUD/ systems, providing pilot with takeoff director

03 p0379 A69-12885

Alphanumeric characters to identify radar targets on PPI display for air traffic control, considering technique for reducing smear

09 p1495 A69-21675

Pattern recognition as part of statistical communication theory, using Karhunen-Loeve expansion to minimize root-mean-square errors, showing application to handwritten numerals

09 p1461 A69-22292

Alphanumeric listing and digital data x-y plotting by high speed printer, describing equipment modifications and control software

17 p2932 A69-33108

ALSEP

U APOLLO LUNAR SURFACE EXPERIMENTS PACKAGE

ALTERNATING CURRENT

Surface structure effect on flux penetration and AC losses in superconductive niobium

02 p0298 A69-12031

Current oscillations or instabilities in semiconductor wafer with one electromagnetic mode and one carrier mode, investigating resonant frequencies

03 p0408 A69-14049

Transient stability of AC generator analyzed by Liapunov direct method, considering effects of flux decay, speed governor and voltage regulator

07 p1058 A69-18644

Final stage of three phase DC/AC converter, noting three phase control circuit for power stages with germanium transistors

08 p1285 A69-20381

Welding current pulsation techniques for adaptive control of gas tungsten arc welding processes

09 p1508 A69-22334

AC diode switching circuits employed as threshold elements in functional rectifiers for approximating nonlinear functions

11 p1857 A69-25717

Single phase bidirectional AC/DC power convertor based on back-to-back SCR hybrid bridge

13 p2209 A69-28178

Charged colloids generation by electrostatic spraying for thruster concept, subjecting metal capillary needles to AC voltage

[AIAA PAPER 69-495]

16 p2846 A69-32773

Triple probes behavior in plasmas under AC electric field perturbations

17 p2920 A69-33592

Amplitude ratio measurement for two AC signals of given relative phase shift and same frequency

17 p2975 A69-33615

AC technique using lock-in power amplifier SNR for measuring galvanomagnetic and Shubnikov-de Haas effects, noting error reduction

19 p3312 A69-36375

Two dimensional analysis of junction transistor electrical behavior, analyzing DC and AC crowding effects, conduction and impedance of base and collector

22 p3911 A69-40011

Ionospheric perturbations generation by time variable alternating electrical currents at polar latitudes, constructing radiation patterns for gravitational waves

23 p4155 A69-41842

Coil under alternating current interacting with laminated conducting structure, giving recurrence formula for calculating deflector voltage

24 p4296 A69-42653

ALTERNATING CURRENT GENERATORS

U AC GENERATORS

ALTERNATIVES

Systems design value analysis including alternate solutions to cost effectiveness for design development and production phases

13 p2383 A69-28097

ALTERNATORS [GENERATORS]

U AC GENERATORS

ALTIMETERS

NT RADIO ALTIMETERS

Pressure-altitude transducers for atmospheric pressure measurements on balloon flights including diaphragm, thermoconductivity, radioactive density and hypsometer gauges

07 p1132 A69-18873

Modern barometric altimeter evolution, discussing three pointer, radio, radar and servo altimeters, emphasizing Central Air Data Computer

08 p1313 A69-20123

Airborne pulsed laser system for altimetry, determining height by measurement of transit time for pulse traveling to ground and back

11 p1885 A69-25035

Barometric altimeters development, discussing servo and three pointer types, accuracy, Central Air Data Computer repeater function and future trends

15 p2610 A69-30859

Transport aircraft automatic altitude transmission requirements, discussing altimeter-transponder radar system to aid air traffic control

19 p3371 A69-36700

ALTITUDE

NT FLIGHT ALTITUDE

NT HIGH ALTITUDE

NT LOW ALTITUDE

NT SIMULATED ALTITUDE

Ekman-Okkerblom problem for electrically conducting atmosphere located in external magnetic field, obtaining altitude distribution for wind velocity components

03 p0461 A69-13510

Altitude effects on radar attenuation in nonequilibrium solid propellant afterburning rocket exhaust plumes

04 p0685 A69-14730

Light waves refractive index distribution from balloon sounding data found to decrease with height in winter regardless of time of day

09 p1536 A69-21917

Earth radar studies, relating echo behavior to rocket altitude and surface electrical characteristics

14 p2416 A69-29531

Dispersion relation for gravity waves propagating in atmosphere with horizontal background wind variable with altitude

18 p3128 A69-34801

Vertically moving ionospheric disturbances altitude estimated from geomagnetic pulsations in earth electromagnetic field

20 p3528 A69-37686

ALTITUDE ACCLIMATIZATION

Blood volume in rats exposed to high altitude and deacclimated at ambient pressure, noting changes and control level restoration

01 p0015 A69-10922

Lactodehydrogenase activity and LDG isoenzymes ratio in various tissues of rats during exposure to prolonged hypoxia at simulated heights

02 p0199 A69-11982

Thyroid gland role in resistance and myoglobin content of skeletal muscles of flat land and high altitude acclimatized white rats

05 p0709 A69-16517

Visual feedback mechanisms in simulated high altitude conditions, discussing physiology of ocular homeostasis adaptation

06 p0882 A69-17647

Acclimation to altitude hypoxia and duration of resistance to muscular effort in white Wistar rats on treadmill

09 p1445 A69-22725

Altitude climates effects on human performance, discussing oxygen consumption at moderate altitudes during vigorous physical activity

11 p1827 A69-24924

Irreversible blunted respiratory response to ventilation in high altitude natives, considering hypoxic and hypercapnic stimuli

12 p2018 A69-26130

High altitude acclimatization effects on cardiovascular system, external respiration, blood composition, optical and vestibular analyzers in human subjected to various stresses

13 p2212 A69-28623

Physical exercises to increase cosmonaut space environment tolerance, discussing effects of acceleration, altitude and hypoxia

15 p2560 A69-31460

Thyroid gland role in resistance and myoglobin content of skeletal muscles of flat land and high altitude acclimatized white rats

18 p3096 A69-34736

O conductance nonlinear equation solution applied to O uptake at sea level and at altitude, noting blood transport problems

21 p3654 A69-38906

Peripheral chemoreceptor carbon dioxide sensitivity, measuring human respiratory response to large carbon dioxide breath in oxygen at sea level and high altitude

22 p3890 A69-40207

Hypoxia tolerances in nitrogen dilution chamber of chickens at sea level and high altitudes, discussing role of hematocrit and heart mass

22 p3874 A69-40214

Human lung ventilation-perfusion scatter decreasing gas exchange efficiency during high altitude adaptation

22 p3875 A69-40227

Protein rates and RNA synthesis in cerebra of rats analyzed as factor of high altitude hypoxia adaptation

22 p3886 A69-41122

Physical training effects under normal atmospheric pressure on high altitude hypoxia and acceleration resistance in rats, including survival times

23 p4079 A69-41383

Hypoxia acclimatization studied by subjecting groups to bicycle exercise at simulated high altitude and at ground level

23 p4086 A69-41678

Exhaustion time extension in rats by altitude acclimation, noting adaptation loss resulting from physical exercise discontinuation

23 p4086 A69-41787

Arterial oxygen partial pressures and heart beat rates measured in humans during acute hypoxia after altitude and ergometer training, noting sensorimotor performance

23 p4086 A69-41788

Blood flow, volume and venous pressure measurements in right hand at low and high altitudes in residents and newcomers

23 p4098 A69-42106

ALTITUDE CONTROL

Satellite altitude stabilization by gravity gradient capture in earth elliptical orbit, showing effect of increase in damping

10 p1791 A69-22926

ALTITUDE SICKNESS

Multiple drone aircraft automatic control system, discussing preprogrammed mission path and controls of altitude, plan position and velocity

14 p2392 A69-29495

Supersonic flight altitude stability, studying effects of velocity, lift-drag ratio, thrust law, wind direction, engine unstarts, etc
[AIAA PAPER 69-813]

19 p3366 A69-35627

Maximum trajectory for glider entering earth atmosphere at supercircular velocity, subject to maximum altitude constraint

19 p3399 A69-35667

Thrust optimization for sounding rocket to reach maximum altitude with given initial and propellant weight, using polygonal time function and multiple-parameter numerical technique

22 p4037 A69-41050

ALTITUDE SICKNESS

Decreasing barometric pressure effects on abdominal gas volume in military men under simulated flight conditions, noting abdominal fullness and pain

23 p4076 A69-41291

Altitude decompression sickness in aviation, discussing physiological mechanisms underlying syndrome and treatment of conditions

24 p4269 A69-43412

ALTITUDE SIMULATION

Increasing hypoxia effects on rabbit EEG and light flash conditioned alimentary reflex for simulated altitude ascent, noting subcortical stimulation

02 p0197 A69-11492

Hypoxia effects on vestibular analyzer function of rats in pressure chambers at simulated altitudes from 11,000 to 12,000 m

02 p0198 A69-11506

Human acceleration tolerance under reduced pressures corresponding to various high altitudes, noting visual disorders

07 p1065 A69-18982

Neurological impairment in baboons exposed to prolonged decompression simulating high altitude aircraft cabin structural failure, noting neuropathological examination results

07 p1067 A69-19426

Speech intelligibility in air at ground level and in helium-oxygen mixture at 18,000 ft

12 p2019 A69-26548

Bird respirator function at simulated high altitude, noting adequate support in case of rapid decompression

14 p2406 A69-29290

Hypoxic hypoxia effect on catecholamine content and cytochemical changes in hypothalamus of cat exposed to simulated altitude, using Euler method

14 p2407 A69-29297

Solid rocket propellants tests, considering propulsion performance measurements, altitude simulation problems, internal flow patterns, nozzle geometry, etc

16 p2765 A69-31751

Human acceleration tolerance under reduced pressures corresponding to various high altitudes noting visual disorders

20 p3480 A69-38230

Hypoxia acclimatization studied by subjecting groups to bicycle exercise at simulated high altitude and at ground level

23 p4086 A69-41678

ALTITUDE TESTS

NT HIGH ALTITUDE TESTS

Upper atmospheric models, considering satellite orbital and solar panel torques, prediction, atmospheric density and composition measurements, etc
[AIAA PAPER 69-50]

06 p1011 A69-18085

Cosmic ray penetrating component properties identical to muon component at mountain level, indicating baryon passive nuclear state nonexistence

13 p2331 A69-28400

Exercise-temperature regulation in men under constant submaximal workload at various simulated altitudes, discussing exercise core temperature equilibrium level setting mechanisms

22 p3891 A69-40219

ALTITUDE TOLERANCE

Aircrew incapacitation during high altitude flying following partial gastrectomy, discussing aeromedical evaluation

10 p1645 A69-23381

Altitude effects on body chilling rate in rats noting hypoxia role in inducing hypothermia

13 p2210 A69-28532

High altitude environmental effects on adrenal glands and hypothalamic neurosecretion in rats

13 p2211 A69-28615

ALU [COMPUTER COMPONENTS]

U ARITHMETIC AND LOGIC UNITS

ALUMINA

U ALUMINUM OXIDES

ALUMINATES

Exchange interactions in lithium ferrite aluminates, measuring spontaneous magnetization by ballistic technique from 77 K to Curie point

13 p2320 A69-27995

ALUMINIZING

U ALUMINUM COATINGS

ALUMINUM

NT POWDERED ALUMINUM

NT SINTERED ALUMINUM POWDER

Slip band continuity across grain boundaries in aluminum bicrystals reexamined for geometrical criteria

01 p0095 A69-10607

Heat transfer principles analyzed in development of new quenchants for aluminum, noting properties of inversely water soluble polyalkylene glycols

01 p0087 A69-10900

Gas content and impurities in aluminum melts, analyzing oxides and hydrogen interactions

01 p0098 A69-10958

Plastic deformation wave propagation and heat generated near yield point of annealed aluminum

02 p0342 A69-12280

Aluminum deformation at various strain rates and temperatures under combined stress, comparing results with theoretical predictions

02 p0343 A69-12282

Electroerosion effect on fabrication of small disks for direct examination by electron microscopy, using refined and heat treated aluminum

03 p0427 A69-12880

Dynamic tensile stress-strain curves for annealed Al, Cu and Fe at constant strain rates, describing experimental method

03 p0524 A69-13065

Strain rate and temperature effect on flow stress of 7075 aluminum bars

03 p0443 A69-13120

Yield curve softening in hard Al subject to cyclic torsional loading, noting deformation resistance, surface hardness and yield strength

04 p0671 A69-14411

Thermal strengthening effect in aluminum due to temperature fluctuations

04 p0615 A69-14638

Aluminum corrosion by fungi isolated from jet fuel system with predominance of Cladosporium resiniae, noting protective coatings

04 p0616 A69-14765

Aluminum corrosion characteristics immersed in ion-exchanged water with trace impurities, determining corrosion rates

04 p0617 A69-14932

Sapphire whisker reinforced aluminum composites fabrication and evaluation

06 p0939 A69-16942

Fiber orientation and morphology effect on tensile behavior of aluminum-nickel whisker reinforced aluminum

06 p0939 A69-16943

Diffusion bonded aluminum-boron composite material, discussing mechanical, metallographic and radiographic properties

06 p0939 A69-16946

Micromechanics of boron filament reinforced aluminum composites

06 p0940 A69-16948

Aluminum-silica fiber reinforced metal composite, discussing mechanical behavior and effect upon engineering applications

06 p0940 A69-16949

Aluminum-stainless steel wire reinforced metal matrix composites, analyzing strain hardening and plastic deformation

06 p0940 A69-16950

Aluminum corrosion by fungus culture isolated from jet fuel system

06 p0941 A69-17123

Absolute short term current efficiency of aluminum electrolytic cell, stressing aluminum amount determination in cathode

06 p0869 A69-17233

Diffusion bonding of whisker reinforced aluminum in closed steel die in argon atmosphere

06 p0943 A69-17238

Theoretical and experimental results on annealed tapered aluminum rods to assess one-dimensional rate independent theory of plastic wave propagation from longitudinal impact

06 p1022 A69-17365

Fragments and markings produced on aircraft aluminum by explosion as means of detecting sabotage in crashes

06 p0868 A69-178338

Anodizing effect on flexural properties of Al-aluminum oxide sandwich composites, emphasizing properties of oxide coatings as function of thickness

07 p1159 A69-18722

Aluminum and aluminum alloys surface treatment prior to adhesive bonding, discussing degreasing, anodization, shear and bond strengths

07 p1141 A69-19312

Crystal growth and deformation induced recrystallization in pure aluminum
[ONERA-TP-671]

07 p1167 A69-19341

Surface environment effects on mode of microcrack formation during fatigue of Al single crystals, noting surface void formation mechanism

07 p1235 A69-19387

Subgrain diameter relation to misorientation in melt-grown aluminum single crystals from etch pitting and X ray techniques, discussing critical shear stress

08 p1330 A69-20011

Aluminum effect on ammonium percholate/polyformaldehyde mixtures combustion properties noting heat transfer decrease into k phase

08 p1375 A69-20338

Bonded Al-B metal matrix composite materials hot press fabrication and design, discussing temperature pressure time cycles and honeycomb sandwich structures

09 p1510 A69-22351

Aluminum plates bending fatigue tests, discussing mechanical properties, structural failure, grain size, strain hardening, stress-strain-time relations, heat treatment, etc

10 p1711 A69-23356

Titanium compared with aluminum in application to supersonic aircraft structures, considering tests and costs

10 p1700 A69-23600

Very low temperature dependence of thin single crystal Al plates electrical resistance, noting Umklapp processes contribution

10 p1711 A69-23620

Dislocations velocity in high purity aluminum single crystals determined as function of applied stress at 74 and 83 K

10 p1713 A69-23840

Aluminum abundances in stony meteorites measured using nondestructive instrumental neutron activation analysis

11 p1952 A69-24334

Silicon dioxide coated Al reflectance, solar absorptivity and total normal and hemispherical thermal emissivity, noting application to satellite temperature control

11 p1918 A69-24835

Dislocation structure and surface deformation markings correlation analyzed on fatigued Al electron microscope foils

11 p1905 A69-25184

Microwave analysis of plasmas produced by laser beam on aluminum spheres, noting expansion velocity and electron density

11 p1930 A69-25287

Spectrum analysis of aluminum plasma excited by giant pulse ruby laser radiation, discussing temperature and density

12 p2134 A69-26027

Aerodynamic field around symmetric profile two dimensional plates, visualizing velocity fields with Al particles

12 p2011 A69-26288

Cryogenic solenoids with pure Al conductor for production of strong magnetic fields, discussing softness and strain resistivity problems

12 p2016 A69-26497

Three dimensional network of closely spaced oxide particles for Al strengthening investigated by transmission electron microscopy and tensile tests

13 p2276 A69-27371

Ambient air pressure effects on fatigue crack growth rate in strain hardened aluminum

13 p2276 A69-27393

Copper and aluminum fatigue in vacuum and ultrahigh vacuum, discussing effects of hydrogen, nitrogen and oxygen pressures

13 p2280 A69-28088

Aluminum double sheet target penetration resistance determined by studying high velocity pyrex glass impact effects on front/rear sheets and spacing
[AIAA PAPER 69-375]

13 p2367 A69-28305

- Aluminum-boron metal matrix composite joining methods including electron beam, resistance spot, plasma arc and fusion welding
[ASM PAPER W9-23.4] 14 p2455 A69-29449
- X ray investigation of niobium, aluminum and niobium-aluminum systems to obtain K-spectra and L-spectra
14 p2508 A69-29664
- Aluminum corrosion in ethylene glycol-water systems, discussing protection mechanisms of adsorption-type inhibitors and additives effects on corrosion rate
14 p2466 A69-29932
- Flexible aluminum elliptical waveguide design, discussing installation, economy and electrical characteristics
15 p2578 A69-30798
- Multiple repair welding effects on AL welds tensile strength, using conductivity measurements to monitor strength
15 p2631 A69-31509
- Superconductive tunneling measurements on thin Al films, discussing enhanced transition temperatures, energy gap dependence on temperature, electron microscope observation of crystallites, etc
16 p2825 A69-31634
- Inert gas diffusion of Xe 133 in aluminum and titanium at various temperature ranges, showing effects of recrystallization, plastic deformation and phase transformations
16 p2800 A69-31775
- Ultrasonic and mechanical vibration effects on superpure Al and Al-Zn-Mg alloy, showing dependence of breaking stress on cycles
16 p2801 A69-31789
- Combustion of pulse heated single Al and Be particles in various oxidizers
[WSCIPAPER 69-2] 16 p2830 A69-32343
- Creep behavior of oriented Al bicrystals, emphasizing intergranular creep types and crystal orientation
17 p2985 A69-32906
- Microfractographic observations of Al, Al alloy, Nimonic 90 and austenitic steel 18/10 after creep rupture
17 p2986 A69-32910
- Plastic failure under internal pressure of aluminum spherical shells with single radial or oblique nozzle based on limit analysis theory
17 p3052 A69-32983
- Plane strain forging of pure Al and Al-Cu alloy at low strain rates and elevated temperatures, in constant velocity compression test
17 p2979 A69-34137
- Low endurance fatigue in aluminum, Nylon 66 and epoxy resin compared, considering stress-strain relationships, fatigue damage, failure mechanisms and crack propagation
18 p3155 A69-34633
- Al cryogenic quenching using liquid N for slow and uniform heat removal to eliminate distortion
18 p3150 A69-35419
- Forming, machining and joining characteristics of B-Al composite sheet metal material for space structures
19 p3318 A69-35507
- Manufacturing ultrahigh purity aluminum strip for cryogenic magnets, discussing ingot preparation, rolling, chemical milling and cleaning, arc welding, annealing and sampling
19 p3318 A69-35541
- Spray cleaning and deoxidizing of Al surfaces for structural bonding using sulfuric acid-sodium dichromate deoxidizer, noting tests with proprietary solutions
19 p3321 A69-35564
- Anisotropy coefficients obtained during annealed Al sheet tests based on stress-strain characteristics, noting fading memory effects
19 p3447 A69-36857
- Stress corrosion cracking model for 7075 Al, correlating macroscopic yield stress and corrosion time to failure
19 p3351 A69-36897
- Boron fiber reinforced Al matrix composite material for high performance aircraft gas turbine engine compressor blading
[AIAA PAPER 68-1037] 20 p3586 A69-37153
- Surface grains orientation effect on fatigue behavior in polycrystalline Al, noting strain hardening role in failure
20 p3561 A69-37597
- Low temperature predeformation and disorientation of mosaic blocks to strengthen aluminum
20 p3562 A69-37819
- Aluminum doped silicon solar cell energy loss coefficient under proton and high energy electron irradiation
20 p3465 A69-37911
- Diffusion bonding of Al and boron filament layers into continuous structural material, studying process variables including heat treatment and cross rolling effects
[AIME PAPER S69-6] 20 p3564 A69-38197
- Al-B composite aircraft structure fabrication, discussing wingspan segment, resistance spot welding, hot forming of joggles, etc
[AIME PAPER S69-1] 21 p3732 A69-39471
- BORSIC Al composites for propeller blades, discussing designs, fabrication methods and tensile test results
[AIME PAPER S69-4] 21 p3733 A69-39473
- Al discontinuous deformation noting role of intergranular boundary surface at low temperatures
21 p3750 A69-39789
- Outgassing rates of stainless steel and Al with different surface treatments, including glass bead shot blasting, electropolishing, baking and vacuum cleaning
22 p3958 A69-41215
- Step cathodic flux cleaning of furnace brazed Al assemblies used in combination with ultrasonic and chemical conversion coating techniques
24 p4319 A69-42938
- Redesigned Al wing structure using B-epoxy composite applied to pressurized fuel carrying section, including material, fabrication and test data
24 p4323 A69-43418
- Corrosion resistant bonding materials, discussing metal-to-metal adhesive primers, Al honeycomb core and foil finish
24 p4334 A69-43421
- Al brazed Ti honeycomb sandwich structures brazed in vacuum and Ar, analyzing mechanical properties and corrosion resistance as functions of temperature and pressure
24 p4324 A69-43435
- Tensile strength improvement in Al-B composites by heat treatment to T6 condition and subsequent cold rolling
24 p4334 A69-43449
- Al-B composites fracture toughness obtained by comparing notched tensile data with unnotched specimens
24 p4335 A69-43451
- ### ALUMINUM ALLOYS
- Low cycle fatigue life of aluminum alloy in reversed biaxial bending
01 p0093 A69-10116
- Chemical composition effect on duraluminum supersaturated solid solution stability, presenting time vs temperature C curves of isothermal decomposition
01 p0094 A69-10396
- Aluminum-Zn-Mg alloys weldability, discussing base metal composition and heat treatment influence during gas-shielded arc welding
01 p0086 A69-10536
- Natural aging effects on fracture characteristics of aluminum weldments, investigating precracked Charpy impact toughness
01 p0086 A69-10537
- Irradiation influence on yield stress of Ni-Al intermetallics noting temperature dependence and electron dosage
01 p0095 A69-10608
- Moisture effects on crack propagation in high strength aluminum alloys studied by fatigue tests
01 p0098 A69-10766
- Atmospheric stress corrosion tests of aluminum alloys in various environments, comparing aging results with accelerated laboratory tests
01 p0100 A69-11352
- Long term atmospheric corrosion test program for aluminum and magnesium base alloys, comparing tensile strength of exposed and control specimens
01 p0100 A69-11353
- Weathering tests on wrought aluminum alloys exposed at U.S. sites compared to British industrial atmospheric exposure results
01 p0101 A69-11354
- Nickel-rich region of Al-Ni-Y ternary system, emphasizing identification of solid phase equilibria through analysis of equilibrated alloy specimens
02 p0265 A69-12004
- Welding with aluminum-zinc-magnesium alloys, discussing stress corrosion, embrittlement, compositions, heat treatment, material production and fabrication
02 p0266 A69-12063
- Strain gage behavior on unstressed aluminum alloy under rapid heating using radiant heating, weld strength and high temperature test equipment
02 p0341 A69-12229
- Elastic-plastic wave profiles in Al alloy under uniaxial strain load, investigating sensitivity to various strain rates
02 p0344 A69-12289
- Aging and cold work hardening effect on deformability of aluminum-magnesium-silicon-copper alloy
02 p0254 A69-12677
- Fabrication of large arched bottoms for pressure vessels from aluminum alloys, discussing sheet cutting and welding, annealing, machining, etc
02 p0254 A69-12678
- Magnified image of Al-Mg specimen microanalyzed during examination by electron microscope, studying segregation and initial precipitation at grain boundaries
03 p0442 A69-12894
- Damping capacity and resistance to resonance fatigue of titanium and aluminum based steels and alloys
03 p0443 A69-13025
- Aluminum alloy with lithium and magnesium noting mechanical properties and electrical and corrosion resistance
03 p0443 A69-13026
- Fatigue and corrosion fatigue properties of aluminum alloys, noting elastic modulus, cyclic loading strength, corrosion resistance, etc
03 p0443 A69-13027
- Creep relaxation and kinking of aluminum-nickel whiskers at elevated temperature, noting permanent plastic deformation after heat treatment
03 p0443 A69-13119
- Strain induced deformational instability of aluminum alloys
03 p0447 A69-13818
- Powdering temperature effect on mesh size, structure and mechanical properties of pressed semifinished sintered Al-Cr and Al-Fe alloys
03 p0452 A69-14119
- Si and iron impurities effects on duraluminum alloy structure and mechanical and plastic properties for fabrication from granules and rolling from ingots
03 p0452 A69-14120
- Impurity-dislocation interaction in Al alloy by vacancy mechanism and repeated yielding phenomenon, establishing activation energy
04 p0613 A69-14440
- Large hydraulic press forgings for light metals, discussing 50,000 ton machine used for Al alloys, tooling and die considerations
04 p0604 A69-14521
- Al-Mg-Si alloy strain aging, noting effect of deformation stresses on kinetics and aging mechanism for prior and concurrent deformation
04 p0614 A69-14575
- Heat treatment and shot peening effects on Al alloy fatigue strength and fine crystallographic structure
04 p0614 A69-14576
- Low temperature aging prior to higher temperature artificial aging increases Al alloys strength
04 p0614 A69-14634
- Precipitation hardening effects on Al-Zr recrystallization with Fe and Si additions, noting peak hardness increment with decrease in aging temperature
04 p0617 A69-14931
- Phase equilibria, phase transformation temperatures and relation between resistivity and chemical composition for alloys of Ti-Al-Mo-Zr system
04 p0618 A69-15079
- Cold working considered for decreasing fatigue crack propagation rate in thin duraluminum sheets with various plastic deformations
04 p0681 A69-15170
- Flow stress of iron wire reinforced aluminum alloy composites
[ASME PAPER 68-WA/MET-10] 05 p0780 A69-16150
- Fatigue crack growth in notched samples of aluminum alloy subjected to cyclic compressive loading, noting residual tensile strength at notch root
[ASME PAPER 68-WA/MET-16] 05 p0838 A69-16154
- Interaction between point defects and magnesium atoms in aluminum irradiated by neutrons, analyzing magnesium concentration effect on recovery
05 p0781 A69-16613
- Aging and recovery effect on structure and hardness of Ag and Be doped Al-Mg alloys
05 p0783 A69-16811
- Plastic yielding and strain distribution in Al reinforced with stainless steel wires determined by electron microscopy
06 p0940 A69-16947
- Superimposed stress of higher frequency and rotating bending stress effects on aluminum alloy
06 p0941 A69-17121

Controlled microstructures of eutectic aluminum-copper aluminides produced for mechanical properties studies

06 p0942 A69-17227

Stress corrosion crack initiation in aluminum alloy observed by optical microscopy

06 p0944 A69-17855

Titanium aluminum alloys two stage direct production by aluminothermal reduction of titanium tetrachloride

07 p1159 A69-18536

Plastic fractures of age hardened aluminum alloys analyzed by tensile tests and electron fractography, considering stresses, surface and intergranular effects

07 p1166 A69-18961

GP zones study in aluminum alloys during fatigue process by electrical measurement, discussing resistivity, cyclic deformation, loading and unloading

07 p1166 A69-18962

Aluminum and aluminum alloys surface treatment prior to adhesive bonding, discussing degreasing, anodization, shear and bond strengths

07 p1141 A69-19312

Impact cyclic loading fatigue tests of smooth and notched duralumin, discussing increased impact strength resulting from initial underloading

07 p1167 A69-19317

Parameters interrelating time and temperature used to present creep-rupture data for Al alloys, providing direct readings of stresses

[ASM PAPER D8-9.7] 07 p1169 A69-19665

Yielding of matrix material and cell size of substructure relationship to dry abrasion resistance of SAP type aluminum alloy at room temperature

08 p1319 A69-19995

Al alloys application to Concorde project and other aircraft structures, noting mechanical properties

08 p1335 A69-21141

Aircraft structural aluminum alloy fatigue life, considering atmospheric relative and absolute humidity

09 p1521 A69-21390

Grain morphology and preferred orientation effects on direction and propagation of stress corrosion cracking of aluminum alloy plate

09 p1521 A69-21399

Plastic yielding of tensile V-notched aluminum alloys elements with intermediate thickness and various shoulder ratios, studying thickness effect on yield load

09 p1612 A69-21499

Spinodal decomposition effect on Al-Zn alloy mechanical properties noting strengthening, brittleness and work hardening capacity

09 p1522 A69-21501

Structure of spinodal decomposition in Al-Zn alloys by X ray diffraction noting anisotropy, periodicity and stability

09 p1522 A69-21502

Microstructure for spinodal decomposition in Al-Zn alloys noting Zn precipitation, fracture mechanics, dislocations and transmission electron microscopy results

09 p1522 A69-21503

Organic quenchant additive for distortion free heat treatment of dip-brazed aluminum parts

09 p1504 A69-22065

Fretting fatigue prevention in Al alloys, noting strength reduction due to fretting

09 p1526 A69-22148

Plastic strain intensity distribution in aluminum alloy specimen with central hole measured with marked orthogonal lattice

09 p1617 A69-22221

Primary silicon crystals content and grain size effect on wear of high silicon aluminum alloys

09 p1526 A69-22281

Weld discontinuities effects on fatigue strength of Al welds tested to determine unaffected defect size and severity of discontinuities

09 p1527 A69-22372

Diffusion bonding parameters for producing hollow Ti-Al compressor blades, discussing surface preparation, postbond heat treatment quality control and mechanical properties

[ASME PAPER 69-GT-46] 09 p1513 A69-22484

Unidirectionally solidified eutectic composite of Al and Cu-Al intermetallic, noting tensile properties at room and high temperatures

10 p1708 A69-22995

Stress corrosion of nonage-hardenable Al-Mg-Cr alloy investigated for failure in absence of grain boundary precipitate, using notched specimens

10 p1709 A69-23055

Aluminum alloy thin sheets with central transverse fatigue cracks subjected to increasing static loads to fracture, investigating crack tip deformation

10 p1709 A69-23056

Electron fractography of aluminum alloy fatigue for intermetallic particles and inclusions effects on crack growth

10 p1795 A69-23065

Aluminum alloy crack propagation and fracture patterns as function of temperature under high strain amplitude and low strain rate

10 p1709 A69-23071

Debonding mechanism role in fatigue crack development in notched aluminum alloy samples using optical and electron microscopy

10 p1710 A69-23076

Environment influence on fatigue crack propagation mechanisms in aluminum alloys in vacuum, ambient air and distilled and sea water

10 p1710 A69-23084

Elastic release wave and pressure drop measurement in 2024-T4 aluminum at 313 kb for dynamic yield strength, considering surface velocity and stress

10 p1712 A69-23665

Yield points compared for axial and biaxial tensile loading of aluminum alloy sheets

10 p1801 A69-23849

Silicon particle sizes in Al-Si system investigated for interactions with dislocations as function of strain and for effect in dispersion hardening

10 p1714 A69-23980

Cyclic stress-strain and fatigue behavior in aircraft structural metals, discussing hardening and softening in aluminum alloys, steels and titanium alloys

10 p1714 A69-23981

Cyclic deformation resistance and fatigue damage accumulation in aluminum alloys, aircraft steels and titanium alloys

10 p1715 A69-23983

Aluminum bonded structures corrosion resistance through adhesive primers and surface treatments

10 p1700 A69-24088

Aluminum alloys role in aerospace technology, discussing temperature characteristics, gas absorption, weldability, purity, etc

11 p1903 A69-24518

Stress corrosion cracking of Ti-6Al-4V alloy tensile tested in anhydrous methanol by electron fractography and diffraction, noting hydrogen embrittlement

11 p1903 A69-24576

Stress-strain relation in crystalline media for pure tension and elongation epsilon several times conventional elastic limit, verifying by testing Al alloy [ONERA-TP-695]

11 p1975 A69-24754

Aluminum alloy weld tensile strength increased by heat treatment, discussing weld porosity due to surface film of absorbed hydrogen

11 p1891 A69-24896

Aluminum additive effects on copper-titanium alloy decomposition, discussing Guinier complexes, heterogeneous nucleation, plastic deformation and low temperature aging

11 p1905 A69-24922

Arc welding aluminum to steel using bimetal transition insert piece

11 p1891 A69-24929

Plastic strains in aluminum alloy under biaxial tensile and combined tensile and torsion tests, discussing small elastoplastic deformation theory

11 p1905 A69-24948

Rectangular aluminum alloy rods carrying capacity under compression loads applied eccentrically to rod ends

11 p1986 A69-25326

Weld cracking sensitivity of Inconel 713C investigated for determining aluminum content effect on weldability of nickel base heat resistant alloys

11 p1906 A69-25577

Inclination effect of fatigue cracks on plane strain fracture toughness of 7075-T651 Al alloy, discussing cantilever bending

12 p2177 A69-25958

Corrosion resistance rate of duralumin sheet in aqueous superphosphate solutions dependence on concentration

12 p2113 A69-26124

Wetting and sessile drop contact angles between liquid binary Al alloys and solid Be, boron carbide and graphite under vacuum and in He

[ACS PAPER 15-C-68F] 12 p2114 A69-26301

Incipient stress corrosion damage detection in aluminum alloys, using Rayleigh wave attenuation

12 p2114 A69-26306

Electrical conductivity measurements combined with indentation hardness measurements for non-destructive evaluation of commercial precipitation hardenable aluminum alloys

12 p2114 A69-26307

Fatigue life of Al alloy thin laminated sheets, considering cyclic frequency and temperature effects

12 p2180 A69-26359

Fatigue crack propagation and fail-safe design for stiffened large Al alloy panels with crack stoppers, using residual strength analysis method

12 p2186 A69-26835

Fatigue crack initiation and propagation correlation with substructure formation by static and alternating stresses in Al

12 p2188 A69-26915

Fatigue fracture surfaces in cast steel and Al alloys studying fracture morphology, crack propagation rate and striation spacing with microfractographic methods

12 p2116 A69-26991

Creep behavior of aluminum-alumina alloys analyzed using rupture time to determine deformation speed influence on elongation and crack formation

12 p2120 A69-26938

Metal fatigue in Al alloys subjected to stress cycles, determining macrocracks propagation stages

13 p2359 A69-27291

Composition, gamma structure and mechanical properties of three unidirectionally solidified eutectics within Ni-Al-Cb, Ni-Al-Zr and Ni-Al-Ti systems

13 p2277 A69-27407

Plasma spray quenched Al-V alloys resulting in dispersion strengthening of material

13 p2277 A69-27409

Aluminum alloys ductile fatigue striations, considering dependence on grains crystallographic orientation and vacuum effect

13 p2278 A69-27415

Fatigue crack propagation in aged aluminum alloy sheets, studying specimen geometry and stress level variations effects

13 p2280 A69-27835

Aluminum alloys precipitation hardening types requiring solution heat treatment, quenching and artificial aging, noting advantages in strength and weldability

13 p2282 A69-28180

Crack behavior and toughness of aluminum alloy parent metal and weldments, noting temperature effect

14 p2462 A69-29003

Al-Mg-Si alloy strain aging, noting effect of deformation stresses on kinetics and aging mechanism for prior and concurrent deformation

15 p2638 A69-30276

Longitudinal internal cracks in deformed Al alloys initiated by elastic stress concentration in areas of highest flow rate gradient

15 p2638 A69-30277

Heat treatment and shot peening effects on Al alloy fatigue strength and fine crystallographic structure

15 p2638 A69-30278

Discontinuous yielding characteristics of 2024 Al alloy determined for different conditions of solution, heat treatment and age hardening

15 p2639 A69-30598

Annealed aluminum rods dynamically compressive impact loading used to study longitudinal plastic waves propagation velocity

15 p2709 A69-30677

Room temperature fatigue crack propagation rates for high strength aluminum alloy in heavy water environment compared with argon and distilled water

15 p2640 A69-30815

Aluminum nonheat-treatable alloys cryogenic vessels welding, considering TIG, pulsed arc and MIG processes with respect to plate thickness, joint and accessibility

15 p2630 A69-31210

Electrical conductivity, hardness, ultimate tensile strength and yield strength correlations of age hardenable Al alloys by eddy current methods

15 p2641 A69-31513

Electrochemical test predicting stress corrosion performance of 2219 aluminum alloy in T851 and T87 tempers

16 p2798 A69-31716

Strain hardening experiments on single crystals of AlZn and AlAg alloys noting plastic behavior

16 p2800 A69-31776

Ultrasonics for wrought and cast aluminum alloys nondestructive testing, discussing ultrasonic energy damping measurements

16 p2800 A69-31778

Stress corrosion resistance of AlZnMgCu and AlZnMg alloys, discussing combinations of alloy composition, heat treatment and stable precipitation conditions

16 p2800 A69-31779

Aluminum alloys high temperature creep effects distinguished from effects of long period at high temperature, discussing tensile test data and deformation-time curves

16 p2800 A69-31781

Creep rate and temperature effect on creep resistance shown in direct correlation with Al-Mg alloys strength by long term high temperature tests

16 p2801 A69-31782

Trace elements influence on precipitation process and properties of Al-Cu, Al-Zn-Mg and Al-Mg alloys, using X ray diffraction

16 p2801 A69-31783

Ultrasonic and mechanical vibration effects on superpure Al and Al-Zn-Mg alloy, showing dependence of breaking stress on cycles

16 p2801 A69-31789

Aircraft construction materials, discussing aluminum alloys use in Concorde project based on temperature tests, creep and fatigue properties and joint requirements

16 p2801 A69-31791

Microfractographic observations of Al, Al alloy, Nimonic 90 and austenitic steel 18/10 after creep rupture

17 p2986 A69-32910

Rotating bending fatigue tests on aluminum alloys based on statistical analysis for material strength

17 p3052 A69-32979

Fracture strength of Al alloy in biaxial stress field, considering strain rate influence on material toughness

17 p2986 A69-32985

Ti-Al base alloys brittleness and stress corrosion cracking, discussing diffusion mechanism, hydrogen mobility, dislocations, etc

17 p2987 A69-33372

Fracture strength of Al alloys, discussing tests for tensile properties, linear elastic fracture mechanics techniques, yield strength, corrosive media, etc

17 p2989 A69-33555

Fatigue crack propagation in thin aluminum alloy plates under plane bending using microscopic surface observation and electron fractography, noting role of aging conditions

17 p3061 A69-33677

Plane strain forging of pure Al and Al-Cu alloy at low strain rates and elevated temperatures, in constant velocity compression test

17 p2979 A69-34137

TiNi compound alloying with Al and Fe, considering effect on hot hardness at various temperatures

18 p3157 A69-35249

Alpha Ti-Al and Ti alloys plastic deformation at low temperatures, noting slip and twin mechanisms role

18 p3158 A69-35444

Recrystallization limit effects on coarse grain growth in aluminum alloys extruded sections, studying roles of additives, extruding temperature and heat treatment duration

18 p3160 A69-35472

Lightly loaded truss structures fabricated from Be, Be-Al alloy and uniaxial B filament reinforced epoxy tubing for unmanned spacecraft applications

19 p3340 A69-35504

Silicon carbide coated boron fibers in aluminum alloy matrix, discussing tensile and structural properties of braze bonded specimens

19 p3340 A69-35509

Electroforming of Al matrix composites by codeposition of short graphite fibers, obtaining increased strength and elastic modulus

19 p3318 A69-35510

Be/Al cast duplex alloy with Be embedded as discrete particles in Al matrix, detailing fabrication techniques and mechanical properties

19 p3340 A69-35524

Outdoor aging effects on unstressed Al-Al lap shear joints bonded by various polymeric adhesives

19 p3320 A69-35562

Adhesive bonding of Al sheets for honeycomb sandwich material, using electrical conductivity to measure sheets age hardening progress during high temperature curing

19 p3321 A69-35565

Exposure tests of corrosion resistant claddings for high strength Al alloys protection, finding higher purity alloy cladding superiority

19 p3322 A69-35571

Be and BeAl alloy stress corrosion behavior in aqueous NaCl solution, discussing metallography and electron fractography

19 p3341 A69-35572

Fatigue characteristics of Al alloys by fatigue tests with complex stress patterns, finding secondary stress wave effects

19 p3342 A69-35772

Stoichiometric NiAl slip line and dislocation structures during creep at high temperatures, considering possible creep mechanisms

19 p3343 A69-35923

Silicon carbide coated boron fiber reinforced /Bor-sic/ Al composites tensile strength and elastic properties

19 p3344 A69-35926

Ti-Al alloys yield and fracture characteristics as function of high exposure temperatures, studying causes of embrittlement

19 p3344 A69-35927

Surface alloying of high melting point metals in Al melts, noting prior oxidation enhancement and simplifying of calorizing techniques

19 p3328 A69-36158

Axial load fatigue crack propagation tests on Al alloy sheets for stress ratio effects

19 p3346 A69-36435

Fabrication effects on high strength Al alloy plate properties, comparing texture, plane strain fracture toughness, yield stress, ultimate tensile stress and elongation

19 p3346 A69-36437

Stress corrosion cracking mechanism in Al alloys, discussing requisites for stress corrosion cracking

19 p3350 A69-36895

Aluminum 7 percent Mg alloys stress corrosion cracking, presenting aging kinetics and depletion zone dislocations at grain boundaries

19 p3350 A69-36896

Precipitation hardening, microstructure and dislocation influence on intergranular stress corrosion cracking /SCC/ of high strength Al alloys examined by transmission electron microscopy

19 p3351 A69-36898

Electrochemical analysis of stress corrosion cracking in Al-Zn-Mg alloy, noting oxide film growth at grain boundary

19 p3351 A69-36899

Yield strength, deformation modes and fracture characteristics of Ti-Al alloys, examining strength and fracture characteristics as function of structure and chemical composition

20 p3557 A69-36959

Elements substitution for Al in gamma prime of Ni-Al alloy to change aged hardness by gamma prime mismatch and coherency strains

20 p3558 A69-36963

Aluminum alloying additives effects on tungsten disilicide corrosion resistance, studying plasticity properties and oxidation rate

20 p3561 A69-37376

Al alloy application to welded primary airframe structures, discussing welding processes with emphasis on fusion welding

[SBAC PAPER 4] 20 p3549 A69-37445

Seam welded Al alloy aircraft structure fabrication problems, emphasizing stress corrosion

[SBAC PAPER 5] 20 p3550 A69-37454

Boron fiber reinforced Al alloys spall failure and shock induced filament damage, using flyer plate technique

20 p3562 A69-37772

Large aperture Al alloy telescope mirrors consisting of Tenzalloy Al coated with Ni alloy, presenting performance data

20 p3546 A69-38193

Al and Mg alloys as ultrasonic wave acoustic lines, considering sound velocity, damping factor, grain size, chemical composition, etc

20 p3564 A69-38290

Design and processing tradeoffs for preventing stress corrosion cracking in Al alloy aircraft structural forgings

[ASM PAPER W9-14.4] 21 p3729 A69-38657

Shock hardening of Al alloys in annealed, solution heat treated and aged conditions compared with cold-rolled materials

[ASM PAPER W9-10.4] 21 p3729 A69-38664

Ti honeycomb sandwich panels, comparing properties of Ti and Al based brazing alloys

21 p3730 A69-38665

Inconel and aluminum tested in pressurized hydrogen at room temperature, using surface flawed fracture toughness specimens and preflawed pressure vessels

21 p3730 A69-38666

Al alloys properties evaluated to determine tensile and static fracture behavior

21 p3743 A69-38668

Al alloys sheet, plate and weldments crack behavior and fracture toughness at cryogenic temperatures, using notched and surface flawed plane strain specimens

[ASM PAPER W9-19.3] 21 p3743 A69-38669

Fatigue resistance of bimetallic sheets of steel and Al alloys by fatigue resonant machine, analyzing lifetime distribution and failure probability

21 p3835 A69-38773

Creep measurements in Al alloy during uniaxial tensile stresses between 200-350 C, determining deformation dependence on time and stress

21 p3744 A69-38871

Aluminum alloy laminates composed of two metal-lurgically bonded Al alloys of different composition

21 p3745 A69-38936

Melt cooling rates effect on supersaturated solid solutions in Al ternary systems

21 p3745 A69-38955

Deformation rates effect on failure of cast aluminum alloys under various loading rates for tension and compression

21 p3746 A69-38958

Bending creep tests on fabricated Al alloy box beams under constant load and temperature using continuous deflection and strain measurement

21 p3842 A69-39309

Creep accumulation under time varying stress of Al alloy sheet, using creep recovery analysis to determine anelastic strain growth

21 p3747 A69-39323

Corrosion and stress effects separation in stress corrosion of Al-Zn-Mg-Cu alloy, considering machined surface finishing role

21 p3747 A69-39435

Stress corrosion cracking of welded Al alloys in sea water solution, showing combined action of sustained stress, corrosive environment and heat treatment

21 p3748 A69-39492

Recovery process observation in pure binary Al-Cu alloy and commercial Al-Cu-Mg-Pb alloy, noting electron microscope applicability

22 p3968 A69-40062

Cu, Ni, Co, Cr and Ti effect on high temperature mechanical properties and stability after prolonged annealing of Al-Si alloy with added 1 percent Mg

22 p3968 A69-40063

Weld porosity in Al alloys as function of composition variations, discussing water vapor contamination of welding arc

22 p3956 A69-40461

Dual filler metals for increasing joint efficiency by changing fusion zone composition, discussing mechanical properties in Ti and Al plates welding

22 p3956 A69-40462

Solid solutions precipitation effect during deformation process on static and dynamic tensile tests of Al alloy by electric resistance measurement

22 p3972 A69-41082

Al-Ni-Co alloys precipitation mechanism effect on magnetic properties, including heat treatment and Ti alloying effects

23 p4175 A69-41298

Aluminum alloys fracture strength tabulated data showing trends regarding yield strength, specimen orientation effects and product size

23 p4175 A69-41476

Ingot dendrite arm spacing and thermomechanical treatment effects on fracture behavior and mechanical properties of Al alloy, finding ultimate and yield strengths

23 p4176 A69-41506

Ni plated 40-cm lightweight Al alloy telescope mirror, noting weldment stress relief by annealing

23 p4164 A69-41624

Stress corrosion cracks propagation from fatigue precrack in Al alloy exposed to organic liquid environments

23 p4178 A69-42452

Notch effect on corrosion fatigue behavior of high strength Al alloy under bending and direct stresses

24 p4330 A69-42553

Al-Mn-V ternary system equilibrium diagram at various aluminum concentrations determined by magnetic and microhardness measurements, microstructural observations and X ray analysis

24 p4330 A69-42601

Seam welding processes and power supply effects on control efficacy based on electrode displacement for Al-Mg alloys

24 p4319 A69-42919

Cyclic stress tests of stainless steel fiber Al alloy matrix composite, including strain hardening and stiffness characteristics

24 p4331 A69-42925

ALUMINUM CHLORIDES

Outdoor aging effects on unstressed adhesive-bonded Al to Al lap shear joints
24 p4319 A69-42932

Porosity and inclusions effects on Al arc weld fatigue properties at ambient and cryogenic temperatures
24 p4331 A69-42940

Fracture and tensile properties of electron beam welded Al alloy for pressure vessels compared to tungsten arc welding results
24 p4319 A69-42941

Sonic riveting of aircraft Al alloys, noting no evidence of forging bursts, cracking, splitting, tearing and springback
24 p4320 A69-43060

Lap-shear strengths of Mg-Al alloy bonded with nylon-epoxy adhesive, including anodized coating rolling schedule and honeycomb core fabrication
24 p4323 A69-43417

Ti-Al alloy structure manufacturing technology covering forming, cleaning, chem-milling, machining, fastening and welding
24 p4324 A69-43431

ALUMINUM CHLORIDES

Conditions for obtaining concentrated Ti-containing melts free of Al and V chlorides by cementing with metallic Ti and Ti-containing materials
22 p3957 A69-40918

ALUMINUM COATINGS

Aluminum plastic sandwich products production costs compatibility with conventional materials
02 p0348 A69-12749

Aluminum coatings compared with cadmium coatings for aerospace fasteners, discussing plating methods
[ASM PAPER D8-5.2] 07 p1142 A69-19663

Semiconducting films as collector work function in thermionic converters, with regard to I-V characteristics
09 p1558 A69-21825

Metallographic analysis techniques for high aluminum activity pack cementation coating on nickel-base alloy
13 p2282 A69-28163

Dielectric overcoating effects on electromigration Al interconnections, showing dependence on thickness and surface passivation
17 p2935 A69-32889

Al interconnections discontinuities at integrated circuit contact windows observed by scanning electron microscope, noting catastrophic failure and Si presence
17 p2936 A69-32893

Hypervelocity micrometeor impact sites identification on aluminized glass, using conchoidal pattern as criterion in analysis
18 p3199 A69-34952

Beryllium wire reinforced Al composites, discussing layup techniques and coated filament advantages
19 p3340 A69-35508

Cleaning, deoxidizing and chromating process effects on chromate coated Al, using salt spray corrosion tests
19 p3321 A69-35570

Ion beam sputtering, evaporation and electrical degradation of Al contacted Si solar cells observed in high temperature cyclic tests
19 p3250 A69-35686

Al effect on B and Cr diffusion in protective coating on Cr-Ni heat resistant alloy, noting thermochemical kinetics for homogeneous layers
19 p3345 A69-36157

Surface alloying of high melting point metals in Al melts, noting prior oxidation enhancement and simplifying of calorizing techniques
19 p3328 A69-36158

Fabry-Perot interferometer with Al coating reflecting surface deposited on unbacked thin films
20 p3536 A69-36933

Aluminizing and operational effects on surface layer and core of first and second stage turbine blades
20 p3561 A69-37370

Large aperture Al alloy telescope mirrors consisting of Tenzalloy Al coated with Ni alloy, presenting performance data
20 p3546 A69-38193

Anodic Al oxide films mechanical and fracture properties, studying roles of environmental water vapor and film thickness
[ECS PAPER 81] 22 p3973 A69-40736

Aircraft fastener corrosion control with emphasis on surrounding joint and structure, discussing test programs, Al coatings, etc
24 p4334 A69-43442

ALUMINUM COMPOUNDS NT ALUMINATES

NT ANDESITE
NT BERYL
NT CORDIERITE
NT CRYOLITE
NT FELDSPARS
NT LITHIUM ALUMINUM HYDRIDES
NT MONTMORILLONITE
NT NEPHELINE
NT ORGANIC ALUMINUM COMPOUNDS
NT SAPPHIRE

Ferromagnetic ordering effect on gadolinium dialuminate thermoelectric power, measuring temperature dependence of power and electrical resistivity
03 p0485 A69-13322

Cross slip model for work hardening of nickel aluminate crystals, discussing temperature dependence
05 p0779 A69-15760

Composites reinforcement with single crystal flakes of aluminum diboride
05 p0785 A69-16581

Injection characteristics of n-aluminum gallium arsenides-p-GaAs heterojunctions from recombination radiation spectra
06 p0979 A69-16993

Niobium aluminide-niobium germanide alloys superconductivity and heat treatment influence on critical temperature
13 p2316 A69-27659

Structural formula of slowly cooled Mg and Al-Mg microwave ferrites, noting ion mobility during cooling
15 p2670 A69-31184

ALUMINUM NITRIDES

Vacuum deposition of thin film microwave acoustic transducers of piezoelectric aluminum nitride
05 p0761 A69-15820

Nitrogen solubility measured in liquid Fe-Cr-Ni-Al alloys, noting solubility increase with increasing Al content
06 p0942 A69-17228

Resistivity, capacitance and dielectric loss measurements for diode reactive sputtering grown AlN films and film sandwich structures of Ta, Au and Al films
13 p2322 A69-28013

ALUMINUM OXIDES

NT SAPPHIRE
Polycrystalline corundum thermal conductivity coefficients determination, describing measuring procedures at low temperatures
01 p0101 A69-10108

Pressure and temperature dependence of isotropic elastic moduli of polycrystalline alumina, noting Grueneisen parameter, equation of state and Debye temperature
02 p0268 A69-12407

Reflection indicatrices of aluminum oxide, MgO, Au and Pt surfaces for normal irradiation noting temperature and surface treatment effects
03 p0534 A69-14161

Tank collection and spectrophotometric tests in determining aluminum oxide particle size produced by small rocket engine
[AIAA PAPER 69-146] 06 p0984 A69-18117

Potential barrier curvature influence in aluminum trioxide tunnel junctions, noting ionic space-charge effect on shape
07 p1196 A69-18243

Anodizing effect on flexural properties of Al-aluminum oxide sandwich composites, emphasizing properties of oxide coatings as function of thickness
07 p1159 A69-18723

Band profiles and emission spectra of shock heated AlO compared for self absorption of blue-green system, discussing electronic transition moment
07 p1184 A69-19163

Fiber reinforced plastic and metallic composites for longevity and endurance of materials at high temperatures and extreme loads, discussing alumina whiskers
07 p1167 A69-19290

Metal bath surface conditions for floating aluminum trioxide inclusions in pure iron and carbon steels
07 p1167 A69-19342

Alumina radomes manufacture by flame spraying process, discussing raw materials quality control, spraying operation, sintering and final inspection
07 p1142 A69-19529

Alumina radomes fabrication and control techniques to assure reproducibility of electrical and mechanical properties, detailing finished product inspection methods
07 p1142 A69-19529

Arc driven shock tube with alumina ceramic liner to reduce driver gas contamination, noting shock speed and test time increase
[AIAA PAPER 68-366] 09 p1570 A69-21957

Silicated alumina attachment for high temperature radomes and leading surface heat shields, discussing radome concentration and load transfer
09 p1477 A69-22370

Micromin alumina substrates design data, determining dielectric constant, impedance vs line width and wavelength vs frequency
09 p1460 A69-22792

Electrolytic hydrogen evolution reaction on Al covered by thin oxide in aqueous buffered acetate solutions
11 p1832 A69-25674

Creep behavior of aluminum-alumina alloys analyzed using rupture time to determine deformation speed influence on elongation and crack formation
12 p2120 A69-26938

Three dimensional network of closely spaced oxide particles for Al strengthening investigated by transmission electron microscopy and tensile tests
13 p2276 A69-27371

Optical measurement method for burning surface temperature of condensed systems, realizing radiation from surface of combustion by light guide of monocrystalline aluminum oxide
13 p2379 A69-28453

Oxygen K-shell X ray production cross section and stopping power of aluminum oxide thin films for 20-100 kev protons
14 p2489 A69-29994

MOS devices for radiation environments utilizing aluminum oxide as gate insulator for developing resistance to radiation damage
15 p2577 A69-30595

Microfibrous boehmite as binder for molybdenum disulfide in formation of ductile water resistant dry lubricant films
[ASLE PAPER 68-LC-14] 15 p2642 A69-30606

Electrical resistivity of aluminum oxide films deposited on tubular substrates by plasma and gas flame spraying, noting dependence on film thickness and substrate
15 p2630 A69-31179

Alpha alumina whiskers grown by vapor reaction examined by X ray microtopography and etching
16 p2802 A69-32341

Neutron bombardment and ionizing radiation resistance of aluminum oxide MOS devices using gate insulator fabricated by plasma anodization
17 p2935 A69-32888

Aluminum oxide relative grain boundary energy and surface diffusion coefficient, considering thermal grooving of bicrystals with symmetrical tilt boundaries
17 p2993 A69-34191

Andalusite crystals as active media in paramagnetic quantum amplifiers, discussing design and performance
19 p3333 A69-35881

Radiative heat transfer in polycrystalline corundum, studying photon thermal conductivity influence on lattice thermal resistivity
20 p3565 A69-36975

Aluminum oxide droplets condensation from atmosphere of metal vapor and oxygen, studying temperature and time effects on particle nucleation, growth and distribution
21 p3783 A69-38799

Anodic Al oxide films mechanical and fracture properties, studying roles of environmental water vapor and film thickness
[ECS PAPER 81] 22 p3973 A69-40736

Liquid alumina particles agglomeration in convergent and throat region of nozzle leading to performance decrease by increasing velocity and temperature difference between phases
22 p4001 A69-40929

Silicate glass impurity droplet formations on alumina single crystals polished surfaces analyzed by electron microprobe as function of high temperature
23 p4176 A69-41597

Static and cyclic tensile fatigue of alumina by ring test method, measuring time to failure
24 p4334 A69-43343

ALUMINUM SILICATES

NT ANDESITE
NT MONTMORILLONITE

Quantum paramagnetic amplifier using andalusite single crystal and operating with three level pumping system
04 p0577 A69-14780

ALUMINUM 26

Accretion rate of cosmic dust estimation from cosmogenic aluminum-26
03 p0514 A69-13935

Cosmogenic Al 26 in achondrites and chondrites measured by nondestructive gamma-gamma coincidence counting
17 p3034 A69-33584

ALVEOLAR AIR
Sampled data regulator for maintenance of constant alveolar carbon dioxide during steady state and transient ventilatory responses to hypoxic stimulation
07 p1072 A69-19480
Digital computer program for determining aveolar and capillary blood gas compositions corresponding to ventilation-perfusion values, considering dissolved oxygen and inert gas exchange
22 p3875 A69-40230

ALVEOLI
Gas vacuoles development in blue green algae by cell transfer from defined medium to distilled water
10 p1644 A69-23184
Blood sheet flow velocity distribution and pressure gradients in pulmonary alveolar septa determined, allowing for system elasticity
22 p3874 A69-40216
Alveolar and pleural pressures affecting pulmonary interstitial pressure in anesthetized dogs, applying Starling law of transcapillary exchange
24 p4257 A69-42627

AMBIENT TEMPERATURE
Temperature field calculation in infinite plate with heat transfer coefficient and ambient temperature arbitrary functions of time
10 p1809 A69-23430
Combined hypoxic hypoxia and high ambient temperature found relieving strain on humans by increasing heat release by evaporation
13 p2212 A69-28628
Human sweat glands reflex responses to diverse skin cooling rates in hot room, discussing bath temperature step decrease effect on lower limb
23 p4082 A69-41446

AMBIGUITY
Ambiguity function interaction with target scattering function in range-Doppler radar, discussing matched filtering application
20 p3490 A69-37641

AMBIPOLAR DIFFUSION
Numerical solution for ambipolar diffusion and kinetic decomposition of rotating body of complex chemical composition in ionized airstream
02 p0191 A69-12580
Interstellar gas field dynamic instability, discussing enhanced ambipolar diffusion in twisted field
02 p0326 A69-12707
Ambipolar motion of light injected photocarriers in cadmium-mercury-telluride in terms of diffusion and drift in electric fields
06 p0979 A69-17154
Ambipolar diffusion in electron concentration inhomogeneities of weakly ionized plasma in magnetic field analyzed by linearized quasi-hydrodynamic equations
08 p1362 A69-20426
Ions and electrons in ionosphere diffusion tensor components and ambipolar diffusion coefficient expressions derived for nonisothermal plasma
12 p2071 A69-26700
Ion cloud ambipolar diffusion and motion dependence on initial configuration and close magnetic field alignment above 95 km, discussing observations of meteor trails
12 p2074 A69-26961
Mass transfer due to plasma recombination, ambipolar diffusion and electrode erosion and resistance forces effects on electrodynamic accelerated plasma
13 p2315 A69-28555
Steady state density profile dependence on electron density dependence of net volume ionization rate by analyzing ambipolar diffusion in RF excited magnetized plasmas
16 p2818 A69-31672
Surface type airborne electrostatic probes in ambipolar diffusion flux, measuring ion saturation current, discussing electrode contamination and temperature and ablation tests
17 p2974 A69-33443
Equilibrium Couette flow of ionized multicomponent ideal gas from moving catalytic plates, obtaining thermal flow formulas and thermal conductivity coefficient
19 p3240 A69-36403
Electron-ion gas ambipolar diffusion effect on F 2 layer electron density vertical distribution variations
20 p3525 A69-37655

AMBIT
U FIELD THEORY [PHYSICS]

AMBULANCES

Helicopter evacuation role in mortality rate among wounded in battle in Korea and Vietnam, discussing air ambulance unit organization
23 p4107 A69-41809

AMIDES

NT POLYIMIDES
NT UREAS
Enthalpies determination of adduct formation of sulfoxides, sulfanimides and thionylamides with trimethylalane, noting replacement effect on electron donating ability of oxygen
07 p1074 A69-18631
Reaction kinetics between hydrazine and esters in benzene solution at 55 C, using amides as catalytic agents
14 p2409 A69-29033

AMINES

NT AMPHETAMINES
NT CATECHOLAMINE
NT CYSTEAMINE
NT DIAMINES
NT HYDROXYLAMINE SULFATE
NT TETRAFLUOROHYDRAZINE
NT TETRYL
NT TRYPTAMINES
IR and Raman spectra of solid and matrix isolated methylamine and deuterium derivatives, locating amine twisting vibration in solid phase IR spectra
01 p0023 A69-10287
Amino alcohol regenerable absorbers of carbon dioxides toxicological characteristics, discussing absorbing ability in rats
10 p1646 A69-23502
Solvent effect in catalytic hydrogenation reaction of Schiff bases of alpha-keto acids with optically active alpha-alkylbenzylamine
12 p2026 A69-25779
Jet fuel quality improvement by adding isopropylotadecylamine and other substances because of surface-active and sorptive qualities
16 p2828 A69-31562
Electric quadrupole coupling for N 14 in aminedisulfonite studied by observation of second order transitions in electron spin resonance spectra
18 p3178 A69-35474
Relative gas phase acidities of simple aliphatic amines and ammonia noting increase in large alkyl groups substitution
19 p3265 A69-36293
Electron transport chain of monovalent and divalent cations and of polyamines, studying effects on menadione reductase activity to determine salt dependence
22 p3886 A69-41077

AMINO ACIDS

NT ADENINES
NT ADENOSINE TRIPHOSPHATE [ATP]
NT ALANINE
NT COENZYMES
NT CYSTEINE
NT GLUTAMIC ACID
NT GLYCINE
NT LEUCINE
NT LYSINE
NT METHIONINE
NT PEPTIDES
NT PYRIDINE NUCLEOTIDES
NT TRYPTOPHAN
NT URIDYLIC ACID
Tyrosine transaminase activity estimation by radioactive isotopic assay method, discussing application to rat liver and other organs
01 p0014 A69-10902
Photolysis of aliphatic amino acids by UV light in presence of salt ions forming ammonia, glyoxalic acid, acetaldehyde and formaldehyde
01 p0025 A69-11094
Hypoxia effect on animal brain gamma-aminobutyric acid levels
04 p0552 A69-14482
Amino acid composition of organic matrix in modern and fossil calcareous oolites
04 p0553 A69-14978
Thermal reaction kinetics of pyrolytic products of proline, leucine, arginine and lysine in aqueous solution
05 p0716 A69-15627
Amino acid biosynthesis control in microorganisms by end product/feedback/ inhibition of enzyme action
06 p0876 A69-18238
Reagent menthyl chloroformate use in optical analysis of asymmetric amino and hydroxyl compounds by gas chromatography
07 p1075 A69-19499

Solvent effect in catalytic hydrogenation reaction of Schiff bases of alpha-keto acids with optically active alpha-alkylbenzylamine
12 p2026 A69-25779
Gas-liquid chromatography of natural protein amino acids in biological substances, noting separation characteristics
13 p2217 A69-28258
Quantitative gas-liquid chromatography of sulfur amino acids trimethylsilyl derivatives
13 p2217 A69-28259
Organosilicon-containing derivatives of 2-aminoethanethiols and 2-aminoethanethiosulphuric acids as radiation protective agents
13 p2210 A69-28486
Mice convulsions at varying hyperbaric oxygen pressures and carbon dioxide content correlated with decreasing brain alpha aminobutyric acid levels
19 p3257 A69-35972
Cations of sulphates photosensitizing role in photolysis of amino acids and peptides in various atmospheres
20 p3477 A69-37626
ESR comparative study of selenoamino acids and S analog radical formation and radiation resistance, noting selenium groups ability as acceptors for unpaired electrons
21 p3668 A69-38425
Amino acid components in paleozoic plant fossils and rock samples noting glycine, serine and glutamic acid
21 p3662 A69-39535
Adenylates condensation in protein-associated amino acids as clue to peptide bond synthesis within protocellular structures
22 p3895 A69-40048
NonDarwinian evolution of protein and DNA, comparing expectations of evolution models for protein and amino acid changes
22 p3871 A69-40060
Scenedesmus ferredoxin amino acid sequence
22 p3896 A69-40435
Cell origin in self organizing natural polymers in terms of molecular evolutionary priority of polynucleotides and poly alpha amino acids
22 p3896 A69-40781
DNA interaction with ribosomes enhancing amino acid incorporation into cell-free protein synthesizing system extracted from *Chlorella pyrenoidosa*
23 p4080 A69-41430
Tension effects on amino acid incorporation rate into proteins of cross-striated muscles of rats
23 p4083 A69-41458
Transesterification of amino acid peptide alkyl and fatty acid esters by treatment with anion-exchange resin
24 p4280 A69-43513

AMMONIA
NT LIQUID AMMONIA
Ammonia gas molecules in interstellar medium, discussing detection in direction of galactic center by means of microwave emission
03 p0518 A69-14258
Charge exchange cross sections in methane and ammonia, noting dissociative charge exchange role
06 p0884 A69-17114
Shock tube study of ammonia oxidation at high temperature, detecting molecular species in reaction zone by IR emission
06 p0885 A69-17936
Further microwave emission lines and ammonia clouds in Sagittarius region, tabulating relevant transitions in ammonia and water
09 p1597 A69-22150
Laser emission lines produced by pulsed electrical discharge through ammonia
10 p1704 A69-23666
IR absorptance data for atmospheres of ammonia and ammonia nitrogen mixtures at various wavelengths indicating absorption in strong line region for gas pressures used
12 p2132 A69-26247
Ammonia gas diffusion from line source in turbulent boundary layer, discussing concentration profile discrepancy due to eddy diffusivity and plume shear
13 p2250 A69-28343
Jupiter photochemistry above 1000 A, noting methane and ammonia photolysis zones, atmospheric pressures and hydrogen recombinations
17 p3032 A69-33165
Relative gas phase acidities of simple aliphatic amines and ammonia noting increase in large alkyl groups substitution
19 p3265 A69-36293

Ammonia inversion radiation in Sgr B2 region, observing distribution of density, velocity and rotational excitation

21 p3799 A69-38647

Turbulent premixed ammonia-air flame stabilization on flameholders, discussing secondary oxygen injection into circulation zone at blowoff limits

21 p3849 A69-38808

Ammonia addition effect on laminar flame speeds of propane-air mixtures

21 p3849 A69-38809

Ammonia resistojet thruster, describing ammonia physicochemical properties and systems characteristics of pulsed mode operation and continuous thrust resistojets

23 p4203 A69-41931

Chlorella enzymes activity in reducing nitrate to nitrite and nitrite to ammonia

24 p4263 A69-43136

AMMONIUM CHLORIDES

Polymethyl methacrylate burning rates in mixture with ammonium perchlorate or in hybrid systems when mixed with ammonium chloride

13 p2324 A69-28503

AMMONIUM COMPOUNDS

NT HYDROXYLAMMONIUM PERCHLORATES

Ammonium chlorate thermal decomposition by measuring formed noncondensable gas pressure and weight loss in solid state kinetic investigation

21 p3669 A69-38800

Polycrystalline ammonium cyanide IR absorption spectrum as function of temperature, discussing ammonium ion hydrogen bonding to C or N atoms

24 p4280 A69-43809

AMMONIUM NITRATES

Chromium oxide additions effects on reaction rates decrease during ammonium perchlorate and nitrate combustion

08 p1375 A69-20340

Ammonium nitrate thermal decomposition activation by dyes and halides, noting endothermic and exothermic reactions, proposing models to study impurities role

17 p3016 A69-32830

AMMONIUM PERCHLORATES

Ammonium perchlorate base propellant and polyurethane binder heat stability, dangers of aging under abnormal conditions and reaction products for components and tolylene diisocyanate

02 p0303 A69-11529

Thermal decomposition of ammonium perchlorate and ammonium perchlorate-copper chromite mixtures

02 p0304 A69-12312

Detonation capacity of mixture of ammonium perchlorate base and polymethyl methacrylate and polystyrene, noting critical particle size dependence on composition

02 p0305 A69-12674

Ammonium perchlorate thermal decomposition, studying point defects role

03 p0494 A69-12896

Rocket engine combustion mechanism of ammonium perchlorate composite propellants

03 p0532 A69-13002

Burning rate of composite propellant with gamma irradiated ammonium perchlorate, noting enhancement at atmospheric pressure

04 p0647 A69-15519

Unstable combustion of ammonium perchlorate/AP, discussing correlation between propellant particle diameter and frequency in burning rate

06 p1036 A69-18063

Ammonium perchlorate high temperature decomposition by using carbon dioxide laser pyrolysis/mass spectrometry

06 p0885 A69-18111

Ammonium perchlorate exothermic decomposition control noting effects of preheating and ammonium fluoroborate additives

07 p1202 A69-18363

Catalytic effect of potassium bichromate and chromic oxide additives on burning of ammonium perchlorate and mixtures

08 p1375 A69-19997

Aluminum effect on ammonium perchlorate/polyformaldehyde mixtures combustion properties noting heat transfer decrease into k phase

08 p1375 A69-20338

Ammonium perchlorate decomposition kinetics at high temperatures by measuring loss of weight in samples and gas evolution

08 p1375 A69-20339

Chromium oxide additions effects on reaction rates decrease during ammonium perchlorate and nitrate combustion

08 p1375 A69-20340

Vanadium pentoxide addition effect on combustion rates of mixtures of ammonium perchlorate and metallic fuels in nitrogen atmosphere

08 p1375 A69-20342

Pure ammonium perchlorate single crystal self deflagration, determining energy transfer mechanisms from pressure effects, combustion characteristics and subsurface profile

[AIAA PAPER 69-142] 09 p1560 A69-21900

Shock initiation and sensitivity of granular explosives, noting heterogeneity effect in ammonium perchlorate

10 p1751 A69-23016

Sublimation in ammonium perchlorate propellants combustion, discussing low temperature isothermal processes, linear regression rates measurements and low ambient pressure

11 p1940 A69-24481

Infinite diameter detonation velocity vs loading density curve for ammonium perchlorate, finding quadratic mean error

11 p1940 A69-24486

Critical diameter of ammonium perchlorate stable detonation as function of initial temperature, water content, density and particle size

11 p1940 A69-24553

Ionizing radiation effects on combustion of ammonium perchlorate compacts with and without fuel addition, considering X ray, electron and plasma radiation

11 p1941 A69-25194

Component ratio effect on pressure dependence of burning rate in ammonium and potassium perchlorate mixed with organic compounds, graphite and tungsten

12 p2027 A69-24744

Limiting pressure for deflagration related to initial solid temperature of single crystals and pressed pellets of ammonium perchlorate

13 p2324 A69-27364

Polyester/ammonium perchlorate combustion, determining degradation rate by loss in weight method at different intervals

13 p2324 A69-28234

Polymethyl methacrylate burning rates in mixture with ammonium perchlorate or in hybrid systems when mixed with ammonium chloride

13 p2324 A69-28503

Compressed ammonium perchlorate combustion rate and pressure requirements established from initial temperature effects

14 p2508 A69-28914

Solid rocket motor propellant burning rate increased by adding special fine ammonium perchlorate/SEAP/ to optimize particle size distribution

[AIAA PAPER 69-519] 16 p2793 A69-31850

Combustion bomb testing of propellants containing fluorocarbon binder and ammonium perchlorate, noting unique ignition, combustion and extinction properties

[WSCI PAPER 69-9] 16 p2831 A69-32349

Linear pyrolysis of thermoplastics during combustion of composite solid propellants and ammonium perchlorate solid propellant deflagration mechanism studied by loose granule analog

[WSCI PAPER 69-16] 16 p2831 A69-32354

Point defect structure to control ammonium perchlorate burning rate, discussing thermal analysis data correlations, isothermal decomposition, etc

[WSCI PAPER 69-17] 16 p2831 A69-32355

Doped recrystallized ammonium perchlorate effects on composite propellant burning rates

[WSCI PAPER 69-18] 16 p2831 A69-32356

Granular ammonium perchlorate thermal decomposition analyzed by cinematography, discussing sublimation role

[WSCI PAPER 69-20] 16 p2832 A69-32358

Ammonium perchlorate sublimation models, discussing low temperature decomposition influence on pressure dependence of sublimation rate

[WSCI PAPER 69-22] 16 p2832 A69-32360

Ammonium perchlorate pyrolysis by convective surface heating, monitoring IR emission as measure of surface temperature

[WSCI PAPER 69-23] 16 p2832 A69-32361

Ammonium and magnesium perchlorate mixture thermal stability study with differential scanning calorimetry, noting exothermic decomposition of AP

[AIAA PAPER 69-500] 16 p2833 A69-32661

Ammonium perchlorate grinding and blending facility, discussing process flow, machinery, etc

[AIAA PAPER 69-516] 16 p2767 A69-32664

Premature exothermic decomposition suppression in propellant grade ammonium perchlorate, using differential thermal analysis

[AIAA PAPER 69-503] 16 p2833 A69-32688

Compositional and oxidizer particle size effects on combustion instability of plastic propellant based on ammonium perchlorate and polyisobutene

[AIAA PAPER 69-478] 16 p2834 A69-32734

Decomposition of ammonium perchlorate containing additives introduced by spray drying

[AIAA PAPER 69-502] 16 p2834 A69-32752

Ammonium perchlorate linear pyrolysis by convective surface heating, discussing propellant deflagration models

[AIAA PAPER 69-501] 16 p2835 A69-32758

ELDO/PAS rocket motor for satellite launching from elliptic orbit apogee to synchronous orbit powered by ammonium perchlorate with organic binder and Al

17 p3022 A69-33604

Ammonium perchlorate melting point estimate taking into account theory of corresponding states encompassing two sets of experimental independent data

20 p3585 A69-37217

Ammonium perchlorate experimental heat capacity data significance for rotational freedom of ammonium ion

20 p3484 A69-37344

Proton transfer mechanism of copper chromite catalyzed thermal decomposition of ammonium perchlorate, noting electron transfer

21 p3783 A69-38810

Shock front reaction and detonation initiation in low density ammonium perchlorate

21 p3784 A69-39590

Ammonium perchlorate decomposition, discussing high and low temperature reactions, combustion, catalysts and gaseous environment effects

21 p3784 A69-39593

AMMONIUM PHOSPHATES

Electrooptical ADP modulator design for use with helium-neon laser, considering temperature stability and crystal faces parallelism

13 p2272 A69-28191

AMORPHOUS MATERIALS

Semiconductor devices development based on amorphous materials, reviewing solid state physics implications

23 p4198 A69-41560

AMORPHOUSNESS

U CRYSTALLINITY

AMPERAGE

U ELECTRIC CURRENT

AMPHETAMINES

Antimotion sickness drugs tested in slow rotation room with controlled Coriolis accelerations, noting summation effect of dextroamphetamine sulfate and scopolamine hydrobromide

03 p0381 A69-14079

D-amphetamine effect on single tectal neurons activity of cat optium recorded by steel microelectrodes before and after intravenous injection

23 p4084 A69-41466

AMPHIBIA

U FROGS

AMPHIBIOUS AIRCRAFT

Maritime and aeronautical engineering - Conference, Paris, May 1968

08 p1255 A69-20652

Helicopter seaworthiness, comparing full scale sea landing and flotation studies with model test results

08 p1255 A69-20653

HRV-1 navy research pusher amphibian aircraft, discussing hydrofoils and operational problems

10 p1633 A69-23223

AMPHIBIOUS VEHICLES

NT CAPTURED AIR BUBBLE VEHICLES

Semi-amphibious Vosper VT 1 hovercraft for passengers and cars, discussing design, water contact propulsion, peripheral skirt, supercavitating propellers, structure, performance, etc

04 p0549 A69-15187

Mountbatten class hovercraft for truly amphibious craft

06 p0867 A69-17664

U.S. policy for commercial surface effects ships regulation, discussing operational, construction and design requirements

08 p1254 A69-20199

AMPLIFICATION

NT POWER GAIN

NT SOUND AMPLIFICATION

Amplification process for VLF whistler mode radio signals observed in study of magnetosphere frequency shifting mechanism

01 p0077 A69-11241

Impedance and gain approximation in transistor configurations, noting gyrator circuit

02 p0213 A69-11532

Regenerative amplification stability in nonretarded wave helitron and traveling wave mitron type devices

02 p0214 A69-11610

Optimal adaptive control of discrete linear systems with unknown gain, considering Gaussian distribution functions and random disturbances

02 p0224 A69-11962

Gain and radiation pattern of conical horn excited by circular waveguide, using geometric theory of diffraction

02 p0218 A69-12327

Gain factor of offset-fed paraboloidal reflector as function of angular aperture and offset angle, noting phase error effects

02 p0218 A69-12329

Simultaneous measurement of gain and noise of linear two port device using noise generators as signal sources

02 p0210 A69-12430

Frequency and time dependent gains of dye solution lasers for pumping by lasers and flashlamps

02 p0257 A69-12616

Logarithmic variation criteria for stability of feedback systems with time varying gains

03 p0409 A69-13073

Traveling wave tube segmentation, analyzing effects of drift, grouping and selecting sections on efficiency and amplification

03 p0407 A69-13985

Emission amplification coefficients of gas laser using pure carbon dioxide, carbon dioxide/air mixtures and carbon dioxide/air/helium mixtures

04 p0611 A69-14426

Stimulated emission of cyanine dyes, discussing amplification coefficients

04 p0612 A69-15373

Adaptation in nonstationary environment formulated for tapped delay line filters with adjustable time varying gains

05 p0737 A69-15806

Pc 1 micropulsation and magnetospheric amplification of hydromagnetic waves

05 p0754 A69-16263

Double diffused Si transistors, discussing temperature dependence of gain, injection efficiency, emitter and base regions energy gaps and excess noise

05 p0733 A69-16558

Critical electron drift velocity threshold in surface wave amplification in semiconductor in magnetic field, noting partial effect of diffusion

05 p0810 A69-16648

He-Ne laser gain dependence on temperature noting influence of pumping conditions, discharge tube filling and geometry

06 p0934 A69-17260

Synthesized aperture method of measuring antenna gain and radiation patterns

06 p0894 A69-17452

Nonsaturated gain of laser radiation in gas discharge in carbon dioxide with N and He

07 p1151 A69-19060

Pulse generation in Q switched traveling wave laser, noting effect of field amplification [IEEE PAPER Q-5]

07 p1154 A69-19077

Amplification curve change of active substance due to saturation by self field of He-Ar laser, discussing axial operation modes instability

08 p1323 A69-19942

Large aperture satellite communication antenna gain measurement technique, using extraterrestrial radio wave source or satellite

09 p1456 A69-22116

Superdirective aerial endfire array of four unequally spaced half wave dipoles and only one fed element, calculating and measuring maximum gain

09 p1468 A69-22603

Telemetry data channel gain and phase correction with frequency response calibration technique using digital filtering

10 p1654 A69-23291

Atmospheric turbulence effect on linear antenna gain in direction of radiation pattern maximum determined together with antenna dimensions

11 p1844 A69-24435

Temperature effect on amplification factor of box type dynode system of photoelectron multipliers made of alloy AMGK, using single electron method

11 p1846 A69-24626

Regenerative amplification stability in nonretarded wave helitron and traveling wave mitron type devices

11 p1847 A69-24717

Planar transistor gain degradation under weak ionizing radiation, considering operating voltage and temperature conditions

11 p1848 A69-24874

Gain decrease due to saturation during amplification of pulses from Q switched carbon dioxide laser oscillator, noting rotational sublevels relaxation rate

11 p1899 A69-25055

Synchrotron radiation amplification by monoenergetic electron stream helically gyrating in static magnetic field of cold plasma, discussing amplification rate frequency dependence

11 p1931 A69-25361

Upconverter with gain and stabilized frequency, using sideband locking of IMPATT diode oscillator

12 p2036 A69-25909

Tracking system for gain and time delay parameter measurements of compensatory control crossover model

12 p2022 A69-25930

Statistical gain characteristics of radar antennas at very short Fresnel zone ranges compared to Fraunhofer zone

12 p2040 A69-26470

Collector supply voltage and base width effects on transistor amplification and frequency characteristics at microampere currents

12 p2042 A69-26879

Statistical linearization of strong nonlinearity in series with random-gain amplifier element, deriving formulas for statistical gain parameters

14 p2425 A69-28920

Threshold signal gain estimated in Glaser frequency filter self adaptation process during transformation from square law summator into matched filter

15 p2576 A69-30344

Stimulated emission of cyanine dyes, discussing amplification coefficients

16 p2797 A69-32120

Pulse height distributions, gain and counting rate characteristics of two magnetic strip multipliers and two channel multipliers in 1.5 to 44 A region of soft solar X-rays

17 p2972 A69-33082

Automatic radar station for meteor observations, discussing separate transmitting and receiving antennas directive gain and radio echo power

17 p2939 A69-33902

Electrostatically focused klystron /EFSK/ small signal gain calculations based on lens cell space charge wave analysis

18 p3109 A69-35294

Gallium arsenide junction lasers operating above threshold, showing resonant modes dependence of steady state gain function and frequency dependence of spatial gain distribution

19 p3338 A69-36691

Amplification stability region in overexcited regenerative traveling wave amplifier with respect to parasitic emission buildup

20 p3506 A69-37724

Synthesized aperture method of measuring antenna gain and radiation patterns

20 p3508 A69-37937

Amplification saturation in spatially inhomogeneous laser field, relating power to active medium and resonator parameters

21 p3740 A69-39549

Gain modification from spectral splitting of optical transition by incident light wave on higher frequency coupled transition

22 p3965 A69-41125

Carbon dioxide laser amplifier operation, showing photon-induced current changes dependence on amplifier gain

23 p4172 A69-41398

Weak magnetic field amplification in turbulent flow with velocity field as random function of space and time

24 p4375 A69-42657

Small signal amplitude/frequency response or transfer gain of volume-terminated pneumatic lines with circular and rectangular cross sections

24 p4301 A69-43288

AMPLIFIER DESIGN

Amplifier with logarithmic transfer function noting use as null detector

01 p0038 A69-10075

Monolithic sense amplifier for laminated-ferrite memories including provision for strobing, detecting, pulse forming and internal inversion logic using thermal feedback control

01 p0039 A69-10174

Microwave amplifier design with hybrid integrated circuits of thin film lumped elements, noting gain and efficiency of transistor circuits

01 p0039 A69-10190

Hybrid integrated parametric amplifier design considerations for fabrication in microstrip transmission line

01 p0040 A69-10193

Microwave transistor amplifier computerized design, discussing wide bandwidth and flat in-band gain response optimization on high dielectric substrates

01 p0040 A69-10194

Transistor distributed amplifier theory, noting effect of collector line and base line delay difference on gain and transient responses

01 p0041 A69-10203

Voltage tunable magnetron used in conjunction with ferrite circulator as phase locked amplifier

01 p0045 A69-10632

Signal to cross modulation noise ratio in TWT tube during amplification of sinusoidal signals

01 p0031 A69-10780

Transient process in n stage nonlinear amplifiers analyzed on basis of structural circuit

01 p0047 A69-10781

Punch-through microwave negative resistance diode explained and contrasted with similar Read and Shockley structures

02 p0215 A69-11938

Curved wall fluid amplifier performance under high or low supply pressure

02 p0196 A69-12083

RF feedback amplifier analytical design, deriving open and closed loop feedback noise figure expressions by use of equivalent noise model

02 p0217 A69-12150

Liquid helium cooled broadband parametric amplifier, discussing circuits and noise performance

02 p0221 A69-12458

CW klystron amplifiers design limitations at Ku and Ka bands, discussing operation characteristics

03 p0405 A69-13724

Low noise broadband parametric amplifier for communication satellite ground stations

03 p0406 A69-13733

Linear analysis of operation of multistage magnetron amplifiers using injected electron flux and stepwise varying dimensions of interaction space

03 p0407 A69-13977

Output power, efficiency and gain of two stage magnetron-type cascade amplifier

03 p0407 A69-13978

Transistorized two stage amplifiers with common feedback operating under steady conditions and for short times

04 p0575 A69-14466

258 GHz reflection amplifier with saturated gas resonance, analyzing amplification variation with gas pressure, pumping power, frequency, Q values and cavity tuning

04 p0557 A69-14754

Stability limits of regenerative echo amplifier during simultaneous variation of network capacitance and negative resistance

04 p0577 A69-14778

Servosystems components design, discussing detector, corrector, amplifier and motor

04 p0550 A69-15181

Reading amplifier for thin magnetic film memory stores permitting tunnel diode register positioning

04 p0579 A69-15319

Performance characteristics of variable geometry bistable fluid amplifiers [ASME PAPER 68-WA/FE-18]

05 p0748 A69-16094

Circuit with tunnel diodes and transistors for nonlinear amplification, noting current-voltage characteristics dependence on circuit parameters

05 p0730 A69-16221

Frequency and power stable backward wave oscillators as energy pumps for molecular and wideband parametric amplifiers used in satellite receivers

07 p1095 A69-18430

Design of coupled cavity extended interaction output resonators for klystron amplifiers

07 p1095 A69-18431

Double gap catchers for klystron amplifiers and oscillators

07 p1095 A69-18432

UHF high power klystron for DESY synchrotron, discussing design, short circuited load operation, phase variations and optimum RF outputs
07 p1096 A69-18434

Helium cooled low noise high gain parametric preamplifier for satellite communication by stagger tuning stages
07 p1098 A69-18460

Helium closed cycle cooled very low noise high gain parametric amplifier for investigating interstellar atomic hydrogen radiation
07 p1098 A69-18461

Helium cooled low noise high gain wideband parametric amplifier for spacecraft communication
07 p1099 A69-18462

Wideband uncooled two stage reflecting parametric amplifiers with low noise temperature, noting application to space stations for telecommunications by satellites
07 p1099 A69-18463

Tunnel diode amplifiers for amplifying weak microwave signals, discussing low noise wideband preamplifier for communication satellites
07 p1099 A69-18464

Precision monolithic circuits fabrication techniques, describing differential amplifier design incorporating emitter feedback and direct DC errors compensation
07 p1102 A69-18875

Monolithic operational amplifier design combining junction FET with n-p-n transistor
07 p1103 A69-18876

Multistage amplifier design with frequency compensation by eliminating stages in HF region
07 p1103 A69-18877

Monolithic planar process to fabricate DC coupled amplifiers having less than nanosecond risetime
07 p1103 A69-18878

Integrated four transistor bridge network used for self neutralized active element in tuned RLC amplifier design
07 p1103 A69-18884

Direct coupled monolithic IF amplifier with active gain control, analyzing large signal response, stability, available gain and noise behavior
07 p1104 A69-18885

Lithium niobate based parametric image converter for IR to visible operation, discussing design factors performance calculations
[IEEE PAPER B-3] 07 p1150 A69-19048

Miniature power amplifier stage for telemetry transmitters, discussing equipment size and weight reduction methods and hermetic envelope
07 p1106 A69-19115

Design criteria for pneumatic servo controls with fluidic elements stressing final transient, pilot circuits and amplifier elements
08 p1256 A69-20305

Flapper-nozzle type electrohydraulic amplifier design with emphasis on elements and subsystems
08 p1256 A69-20459

Noise properties of junction diodes and bipolar transistors as basis for low noise amplifiers design
08 p1286 A69-20839

Cascaded avalanche diodes in negative resistance amplifying mode for increased output power and extended dynamic range
09 p1462 A69-21408

Transistorized amplifier stage noise factor dependence on parameters and modes of operation of transistors
09 p1463 A69-21724

Multichannel microwave amplifier at L band frequencies, using several amplifiers in parallel
09 p1466 A69-22446

Discontinuous vortex power amplifier and diode design, noting supply regulator effects and load matching
09 p1443 A69-22737

Vortex amplifiers design and performance, noting nonvented and vented amplifiers and fluid valving applications
09 p1443 A69-22741

Signal to cross modulation noise ratio in TWT tube during amplification of sinusoidal signals
10 p1653 A69-23109

Transient process in n stage nonlinear amplifiers analyzed on basis of structural circuit
10 p1661 A69-23110

Signal conditioning amplifiers covering carrier and DC amplifiers, differential amplifiers, charge amplifiers and active filters
10 p1691 A69-23230

Fluidic jet beam deflection amplifier, discussing basic principles, operating characteristics and design criteria
10 p1638 A69-23554

High gain proportional and bistable fluidic amplifier design, noting high impedance role in pressure sensing and computer circuits in aircraft engine control
10 p1638 A69-23555

Parametric amplifying systems with lumped reactive nonlinear elements, emphasizing UHF systems
11 p1844 A69-24448

Thin film lumped passive elements for microwave power amplifier integrated circuits, discussing distributed reactances, element size and fabrication, etc
11 p1856 A69-25654

P-n-p planar epitaxial germanium microwave transistor used as amplifier in 1-4 GHz range and as high speed switch, summarizing design, fabrication and characterization
12 p2037 A69-25940

Bandwidth potential increase of parametric amplifier obtained by adding active filter elements to signal circuit, noting satellite communication band
12 p2039 A69-26380

Transistorized LF-HF RC filters and current amplifiers design, exhibiting polynomial type characteristics
12 p2040 A69-26488

Traveling wave tube for European communication satellite power amplifiers, showing nonlinear distortions dependence on RF input/output power and helix voltage
[AIAA PAPER 68-430] 12 p2041 A69-26786

Negative resistance parametric amplifier used as tracking filter, noting resonant frequency dependence on pumping frequency and input and idler circuits
13 p2225 A69-27183

Integrated S-band parametric amplifier design, combining low noise performance at room temperature with broadband flat gain and linear phase response
13 p2230 A69-27678

Two stage tunnel diode amplifier synthesis with gain stabilization circuit widening passband, discussing operating frequency and maximally flat amplitude frequency response
13 p2236 A69-28575

L-band parametric amplifier operated in liquid N for noise reduction, discussing measurement circuit for gain, bandwidth and noise figure
13 p2237 A69-28644

High gain broadband amplifiers with triple tuned coaxial resonators and gridded power tubes, discussing phase stability
14 p2418 A69-28892

Negative resistance amplifier with stabilizing resistor in compensating circuit for operation in microwave duct mismatched beyond amplifier passband range
15 p2573 A69-30118

Bulk negative resistance material stability, discussing amplifier skin effect limitation and instability beyond critical length
15 p2575 A69-30172

Automatic frequency control of laser and regenerative amplifier, considering frequency stability
15 p2633 A69-30238

Resonant fixtures used for mechanical amplification of vibrator output to desired test levels
15 p2588 A69-30404

Wideband tunnel diode amplifier design, discussing implementation to out-of-band circulator characteristics and VSWR suppression
15 p2578 A69-30804

Linear fluid amplifier with beam-deflection proportional active element, discussing optimum maximally flat frequency response
15 p2553 A69-31299

Fluidic operational amplifier design and applications
15 p2554 A69-31300

Fluidic digital position sensor consisting of fluidic monostable amplifier, analyzing operation by characteristics method
15 p2554 A69-31301

Servosystems' components design, discussing detector, corrector, amplifier and motor
16 p2741 A69-32431

Wideband selective amplifier design methods proposed by Martini and Schiaffino
16 p2761 A69-32442

Four terminal silicon planar p-n-p-n model operating as semiconductor small signal linear tetrode amplifier, discussing properties and mathematical models
18 p3109 A69-35293

Book on field effect and bipolar junction transistors and microcircuits, covering ideal and practical amplifiers, circuit characteristics, etc
20 p3505 A69-37147

One kw HF ground grid wideband untuned power amplifier in transformer coupled cascade stages
20 p3488 A69-37286

Transistorized amplifier stage noise factor dependence on parameters and modes of operation of transistors
20 p3505 A69-37460

Charge amplifier for piezoelectric transducer used in acceleration measurements
20 p3508 A69-37913

Fluidic direct impact modulator design, studying effects of pressure levels and nozzle geometries
[ASME PAPER 69-FLCS-38] 20 p3465 A69-37983

Proportional fluid jet amplifier with flat saturation characteristics, describing gain, differential output pressures and noise levels
[ASME PAPER 69-FLCS-21] 20 p3466 A69-37985

Solid state SHF transmission amplifiers design using rectangular waveguides and biased bulk GaAs
21 p3683 A69-39452

Thermal design of power amplifier for airborne HF transceiver, discussing component layout, air cooling and materials
22 p3909 A69-39942

Two loop resonant amplifiers design, considering mismatched, matched and optimally matched regimes
22 p3912 A69-40258

Carbon dioxide laser development, discussing gain, static amplifier and high pressure operations
22 p3962 A69-40474

Fluidic amplifiers development and logic applications, describing various elements and circuits
22 p3870 A69-41239

Design of vortex fluid amplifiers operating in incompressible flow regime, based on fluid properties and geometry effects on amplifier behavior
24 p4256 A69-43299

AMPLIFIERS

NT BEAM PLASMA AMPLIFIERS
NT BROADBAND AMPLIFIERS
NT CARCINOTRONS
NT CROSSED FIELD AMPLIFIERS
NT CURRENT AMPLIFIERS
NT DIFFERENTIAL AMPLIFIERS
NT DISTRIBUTED AMPLIFIERS
NT FEEDBACK AMPLIFIERS
NT FLUID AMPLIFIERS
NT INTERMEDIATE FREQUENCY AMPLIFIERS

NT LIGHT AMPLIFIERS
NT LIMITER AMPLIFIERS
NT MICROWAVE AMPLIFIERS
NT PARAMETRIC AMPLIFIERS
NT PHOTOMULTIPLIER TUBES
NT POWER AMPLIFIERS
NT PREAMPLIFIERS
NT PUSH-PULL AMPLIFIERS
NT SERVOAMPLIFIERS
NT TRANSISTOR AMPLIFIERS
NT TRAVELING WAVE AMPLIFIERS
NT VOLTAGE AMPLIFIERS

Amplifying channel processes of DC amplifier, discussing relations to couple channel with HF channels of operational operators and to synthesize amplifier frequency characteristics
01 p0053 A69-10802

Electromagnetic wave propagation and amplification in periodic structures, including travel wave and parametric amplifiers, reactance diodes, lasers and quantum amplification
03 p0396 A69-13701

Reflections from input and output ducts influence on gain of TWT strophotron amplifier with/without allowance for back radiation
03 p0407 A69-13980

Current mode amplifier circuit used with carbon resistors for measuring low flow rates of liquid hydrogen from small containers
04 p0577 A69-15025

Resonant amplifier response having stages identical to radio pulse with exponential envelope
05 p0720 A69-16444

Automatic phase control and transient processes in resonant amplifier in presence of phase discontinuities of input signal
05 p0721 A69-16533

Si IMPATT diode oscillator and amplifier for CW operation at 50 GHz noting fabrication, performance and phase locking properties
05 p0733 A69-16560

Noise measure formula for negative resistance amplifiers imbedded in lossy passive network
05 p0735 A69-16731

Frequency dependence of input impedance of voltage controlled bootstrap amplifier stages
07 p1090 A69-18294

Oscillators and amplifiers based on intervalley electron transfer in bulk GaAs
07 p1096 A69-18442

Tunnel diode amplifier operation in presence of noise
09 p1469 A69-22630

DC conversion amplifier commutation induced noise and signal ratio as function of shunt capacitance across vibrator load investigated for increased noise stability
11 p1845 A69-24555

Small signal, HF equivalent circuit for intrinsic metal oxide semiconductor field effect transistor, considering nonpinchoff and pinchoff modes
13 p2238 A69-28429

VHF surface acoustoelectric amplifier investigated in DC drift field using composite spatially adjacent structure of lithium niobate and silicon film
14 p2422 A69-29559

Equivalent circuits of dielectric loaded and unloaded rectangular waveguide Esaki diode reflection amplifier
15 p2578 A69-30801

Electronic-ultrasonic amplifiers with external electron stream and longitudinal or surface wave studied for damping influence, deriving dispersion equation
16 p2761 A69-32061

Automatic phase control and transient processes in resonant amplifier in presence of phase discontinuities of input signal
16 p2753 A69-32474

Resonant amplifier response having stages identical to radio pulse with exponential envelope
16 p2753 A69-32476

Amplifier working in conjunction with solid state phase sensitive detector replacing existing commutator in Dobson ozone spectrophotometer
16 p2792 A69-32641

Carrier frequency monitoring amplifier with automatic bridge tuning for coupling to passive sensors including strain gages, inductive transmitters, etc
22 p3915 A69-40937

Frequency and phase instability characteristics of negative resistance amplifier due to changes in circuit parameters
22 p3916 A69-40962

AMPLITRONS [TRADEMARK]
U PLANOTRONS

AMPLITUDE DISTRIBUTION ANALYSIS

Critical parameters for optimum design of Cassegrain antenna used in space communications
[UN PAPER 68-95280] 01 p0043 A69-10481

Reliability of binary message in Gaussian noise impaired by amplitude limiting in case of evaluation by integration
01 p0031 A69-10736

Phase and amplitude variation at output of tuned amplifier, noting graphs and formulas
01 p0047 A69-10786

Amplitude-frequency characteristics of rotor mounted on hydrostatic bearings calculated by equations of dynamic compliance method
03 p0432 A69-12961

Atmospheric noise amplitude distribution relation to rms phase errors in frequency components of VLF timing pulse
03 p0396 A69-13629

Atmospheric fine structure studied by amplitude distribution and autocorrelation functions for different heights of scatter volume in microwave range
04 p0628 A69-15306

Difference radiation patterns of circular aperture with axisymmetric amplitude distribution
05 p0717 A69-15636

Statistical theory of traveling wave antennas for random phase-amplitude distribution of current, discussing phase errors
06 p0898 A69-17797

Natural amplitude and phase fluctuations of originally monochromatic oscillations at output of regenerative frequency divider with thermal and shot noise
07 p1099 A69-18526

Reflected radio wave amplitude distributions related to distributions of curvature at reflector
07 p1086 A69-19225

Recursive method for estimating number, amplitudes and time delays of signals overlapping in time and in presence of additive white Gaussian noise
08 p1270 A69-19854

Atmospheric radio noise at 27 kc measured at European stations, showing field strength variations, latitude dependence and amplitude distribution
09 p1491 A69-22163

Microwave antennas optical simulation, discussing given phase amplitude distribution problems
09 p1469 A69-22625

Phase and amplitude variation at output of tuned amplifier, noting graphs and formulas
10 p1662 A69-23115

Dual reflector antenna design methods for obtaining necessary phase and amplitude illumination across secondary aperture in low noise applications
11 p1852 A69-25316

Angle of arrival in amplitude comparison monopulse radars in presence of internally generated thermal noise
13 p2220 A69-27942

Antenna system synthesis for amplitude distribution along linear emitter, considering radiation patterns
13 p2235 A69-28521

Large amplitude pulsations in magnetic field magnitude and proton fluxes observed by satellite during magnetic storm compared with various models
14 p2434 A69-28947

Amplitude and frequency spectra for Ipc pulsations during geomagnetic storms
14 p2441 A69-29417

Log amplitude fluctuations of laser beam in turbulent atmosphere, obtaining asymptotic expressions for near field of transmitter aperture
14 p2460 A69-29638

Log amplitude variance calculation methods compared in statistics of optical scintillation by application to measurements with laser
14 p2486 A69-29642

Logarithmic amplifiers amplitude characteristics accuracy obtained by gain variations or successive summation of voltages, plotting curves illustrating error variations vs gain
15 p2574 A69-30128

Waveform amplitude variation of phase modulation pulses affected by band limitation
15 p2569 A69-30803

Wave reflection in laser resonators with ferrite end faces, determining oscillation spectra and wave amplitudes
15 p2579 A69-30954

Amplitude distribution and correlation functions of signals reflected from precipitations at various polarizations of waves emitted and received
16 p2807 A69-32269

Gaussian amplitude distribution of 1/f noise by oscilloscope display and scanning with movable slit
16 p2752 A69-32383

Difference radiation patterns of circular aperture with axisymmetric amplitude distribution
16 p2754 A69-32494

Whistlers propagation in cold plasma in uniform magnetic field, considering amplitude dispersion effect
18 p3179 A69-34437

Modified pulse height analyzer /PHA/ for sample amplitude height occurrence frequency measurements obtaining amplitude probability distribution /APD/ and three moments of atmospheric noise
18 p3102 A69-34960

Amplitude and intensity distributions of plane periodic Fresnel diffraction grating calculated by Fraunhofer theory, noting applicability to spectrometric and meteorological instruments
19 p3372 A69-35906

Electron beam pumped semiconductor laser light beam amplitude and phase distribution, studying effects of inhomogeneous excitation by model
21 p3737 A69-39041

Satellite scintillating signals amplitude distribution, correlating observations and theoretical results
23 p4115 A69-41486

Cophase antenna aperture with shaded central region, considering sidelobe radiation reduction by varying field amplitude distribution
23 p4138 A69-41939

Dielectric materials permittivity determined by measuring amplitude ratios of reflected and transmitted plane electromagnetic waves
23 p4123 A69-41950

AMPLITUDE MODULATION

Amplitude modulation factors expressed as carrier and sideband power for sinusoid and square wave signals, considering negative clipping by modulator cut-off
01 p0028 A69-10419

Optimal reception methods noise stability for AM radio signals based on nonlinear filtration of information parameters of signals received on noise background
01 p0030 A69-10589

Optimal AM radio reception in presence of fluctuating noise and one AM interference signal with random initial phase of carrier oscillation
01 p0031 A69-10782

Zero memory frequency independent nonlinearities response to modulated input noting FM limiter, band-pass limiter and AC carrier control systems
01 p0034 A69-11142

Solar and galactic cosmic rays measurement data to investigate variation in time of relations between cosmic rays modulation amplitude and solar activity variations
02 p0306 A69-11658

Superposition of discrete number of collinear amplitude modulated harmonic oscillations
02 p0281 A69-12252

AM and FM noise in mutually synchronized oscillators
02 p0220 A69-12449

Microwave measurements of AM and FM noise spectra with video frequency and RF coverage flexibility and high sensitivity
02 p0221 A69-12455

Amplitude noise spectra of X band microwave oscillators with Si avalanche diodes, noting various contributions and dependence on circuit and operating parameters
02 p0221 A69-12456

AM/PM noise conversion in solid state FM microwave signal sources, relating baseband noise power contribution to PM baseband noise power
02 p0212 A69-12462

Phase input power characteristics of TWT, TDA and parametric amplifiers, noting crosstalk calculations and AM-PM conversion coefficients
04 p0573 A69-14336

Reflected radar signal random fluctuations suppressed by using antenna, receiving channels and logarithmic amplifiers
04 p0556 A69-14490

Single band millimeter wave amplitude modulator for phase meters with homodyne frequency conversion
04 p0577 A69-14850

Nonlinear demodulation of amplitude modulated wave propagating in plasma
04 p0559 A69-15210

Microwave generator of FM oscillations using two reflex klystrons and modified by wideband regenerative amplifier to minimize intrinsic AM
05 p0736 A69-16791

External and internal modulation methods in lasers noting phase, amplitude and frequency modulation, birefringence, electrooptics and Stark and Zeeman effects
06 p0937 A69-18010

Nonlinear computer analysis of TWT small amplitude compression and small AM to PM conversion, noting coupling and circuit breaker effects
07 p1094 A69-18422

Tape flutter and additive noise time base errors in coherent demodulation of suppressed carrier AM multiplex
07 p1082 A69-19119

Cross modulation of amplitude modulated wave propagating in nonlinear dispersive plasma, obtaining electric vector
07 p1086 A69-19228

Amplitude modulation of radiation pulses of two level paramagnetic maser as affected by inhomogeneous broadening and spinning of resonance line
07 p1158 A69-19751

Radio signal from magnetron transmitter, noting slow amplitude phase fluctuations distribution according to log-normal law
08 p1275 A69-20424

Noise power ratio at output of wideband amplifier with angle modulated multicarrier input, obtaining intermodulation products from Bessel functions expansion
08 p1285 A69-20595

Ionospheric scattered radio wave field amplitude and phase variations assessed for diffraction at regular phase screen
09 p1453 A69-21526

Thermal effects on modulation sensitivity and inherent AM percentage as functions of modulation frequency in IMPATT oscillators
09 p1468 A69-22588

Intrinsic amplitude and frequency fluctuations in transistor autooscillator, examining natural additive noise influence
09 p1469 A69-22632

Envelope shock waves transitions between modulated wave amplitude and frequency in dispersive medium with relaxing nonlinearity
09 p1483 A69-22660

Optimal reception methods noise stability for AM radio signals based on nonlinear filtration of information parameters of signals received on noise background
10 p1653 A69-23104

Optimal AM radio reception in presence of fluctuating noise and one AM interference signal with random initial phase of carrier oscillation
10 p1653 A69-23111

Analytic expressions for predicted widths of AM and FM mode locked pulses in homogeneous lasers
13 p2270 A69-27191

Signal strength of two beam interferometers with laser illumination, considering modulation depth of interference pattern
13 p2259 A69-27450

Solar and galactic cosmic rays measurement data used to investigate variation in time of relations between cosmic rays modulation amplitude and solar activity variations
13 p2333 A69-28689

Power spectrum analysis and linear filtering for 27 day variation amplitude of geomagnetic disturbance subject to semiannual amplitude modulation
14 p2434 A69-28955

Amplitude modulator with field effect tetrode transistor (FETT), discussing linear mode operation of modulator circuit
14 p2420 A69-29459

Amplitude modulation of electromagnetic waves by modulated magnetic fields for communications through rocket exhausts and reentry plasma sheaths during blackout
14 p2417 A69-29591

Noise parameters at output of logarithmic detector separating two AM signals with overlapping spectra
15 p2564 A69-30148

AM sinusoidal current pulse generator for semiconductor lasers, describing solid state circuit
15 p2633 A69-30235

Single band millimeter wave amplitude modulator for phase meters with homodyne frequency conversion
15 p2575 A69-30242

Spectral correlation characteristics of amplitude modulated signal with background noise at envelope detector output
15 p2576 A69-30348

General autocorrelation function for input signal composed of two amplitude modulated noise waves and background noise from detecting system composed of half wave element
15 p2569 A69-30805

Ionospheric scattered radio wave field amplitude and phase variations assessed for diffraction at regular phase screen
16 p2754 A69-32521

Oscillator without reactive components for integrated circuit biotelemetry, noting transmission in AM broadcast band
19 p3261 A69-36244

Baseband automatic gain control in AM/FM systems, determining time constant and steady state and tracking error
19 p3274 A69-36276

Receiving circuit for AM signal envelope separation in presence of AM interference and fluctuation noise, using converter cascades to effect input signal frequency spectrum symmetry
19 p3277 A69-36568

Phase and amplitude stabilization during phase modulated discrete data transmission
19 p3277 A69-36571

Array aperture amplitude and phase distortions effect on radiation field uniformity
23 p4138 A69-41940

AMPLITUDES

NT PULSE AMPLITUDE

NT SCATTERING AMPLITUDE

Quasi-sinusoidal tunnel diode oscillator studied for frequency and amplitude of harmonic voltage components
01 p0038 A69-10070

Vibrational characteristics of sonar transducer analyzed by optical holographic interferometry
04 p0598 A69-14871

Limiting amplitude of output shaft vibrations of servodrive operated in linear region as function of frequency
04 p0584 A69-15417

Blade oscillations in cascade flow of axial turbomachinery calculated as function of pitch ratio, stagger angle, angle of attack and camber
05 p0837 A69-16069

Amplitude fluctuations and line width of traveling wave and standing wave He-Ne laser, considering saturation effects
10 p1701 A69-23135

Qualitative analysis of recording phase only acoustic holograms of object wave instead of both phase and amplitude, considering fringe patterns and conjugate image
10 p1695 A69-23548

Phase and amplitude changes of arbitrary-Q self excited oscillator under external disturbance, using differential equations
13 p2300 A69-28574

Vortex breakdown in rotating fluids associated with wave motion along axis of rotation, considering effects of nonzero wave amplitude
17 p2892 A69-33478

Amplitude ratio measurement for two AC signals of given relative phase shift and same frequency
17 p2975 A69-33615

AN-24 AIRCRAFT

Book on soviet An-24 aircraft-construction and exploitation covering fuselage, powerplant, controls, fire prevention, air conditioning, maintenance, etc
16 p2735 A69-32112

ANABAENA

Blue green alga Anabaena flos-aquae A-37 growth limitation by absence of K or Na from culture medium
23 p4079 A69-41386

Electrodialysis method for depleting positive Na, K, Ca and Mg ions from Anabaena flos-aquae A-37, noting algae survival rate
23 p4079 A69-41387

ANAEROBES

B Coli commune cultivated on various substrates, studying oxygen consumption under aerobic/ anaerobic conditions
18 p3097 A69-35302

Anaerobic adhesives for aircraft bonding tested for mechanical properties, noting advantages over epoxy adhesives
24 p4338 A69-43464

ANALOG CIRCUITS

Mechanization of analog electrical-to-fluidic transducer using carrier circuit techniques and piezoelectric bender drive assembly
24 p4315 A69-43026

ANALOG COMPUTERS

Combustion chamber equation for liquid fuel rocket engine, considering time varying ignition lag
01 p0142 A69-10090

Semiautomatic computer for determining torsional oscillation natural frequency in multimass in-line systems
01 p0035 A69-10596

Flight simulator based on analog computer simulating six linearized equations of motion and aircraft model, discussing design and applications
01 p0057 A69-11300

Zener diode function generators used in analog computers for solution of complex problems involving nonlinear relationship
02 p0214 A69-11595

Hybrid computers, discussing analog and digital devices combination and distinction between use of computer for general purpose computation and control purposes
02 p0212 A69-11997

Vertical contact analog display (VCAD) design, emphasizing need for integrated and supplementary information to pilots in systematic way
03 p0379 A69-13361

Nonlinear system on-line identification in presence of noise, using stochastic methods and analog equipment
03 p0401 A69-13764

Baird-Hitchcock iterative method analog computer simulation by steepest descent
05 p0723 A69-15933

Semidiscrete approximate solution by analog computer of inverse problem of transient heat conduction [ASME PAPER 68-WA/HT-26]
05 p0848 A69-16127

Pontryagin maximum principle used to solve optimal control problems on analog computer
05 p0739 A69-16473

Analog to digital converter parameters, considering selection of conversion technique
05 p0726 A69-16760

Analog-hybrid computer configurations for average and rms values of signals with respect to time
06 p0891 A69-17220

Analog computer modeling of human systemic arterial tree, based on lump parameter circuit approximation
07 p1072 A69-19727

Single purpose analog computer with analog and hybrid elements for calculating Nyquist diagrams for feedback circuits
08 p1278 A69-20397

Analog study of periodic permanent magnet focusing, considering ray equation, beam radius dependence on distance, amplitude variations, etc
08 p1285 A69-20555

Analog video processor in omnidirectional radar system for flight safety, discussing construction, transistorization and circuitry
08 p1276 A69-20605

Vector analog computer functions and applications in air traffic control, discussing area navigation equipped aircraft
08 p1349 A69-21195

Analog multiplier with controlled current splitting devices and feedback technique for stabilization of transfer characteristics, noting implementation in bipolar transistor
09 p1475 A69-22584

Automatic plotting devices for graphic readouts in analog and digital computers
12 p2091 A69-26303

Digital differential analyzer as control element, analyzing performance limitations imposed by scaling constraints with canonical realization of transfer functions
12 p2053 A69-26509

Linear two dimensional partial differential equations solved by Laplace transforms on analog computer
12 p2123 A69-26717

Resonance circuit application to harmonic analysis of periodic functions on analog computer, considering transient period and sequential order
12 p2123 A69-26718

Dynamic multistable analog integrator capable of prolonged retention of integration, giving differential equation of device
13 p2224 A69-27427

Error analysis involved in calculating tangent functions defined by nonlinear differential equation solution, using digital differential analyzer
13 p2225 A69-27968

Computer model for avalanche transit time diode oscillator with single and double resonant circuit
15 p2577 A69-30615

Time delay errors compensation methods in analog-digital computation loops, finding digital scheme inferior to analog
15 p2572 A69-30618

Cantilever beam profile optimization methods using iterative analog computation to achieve minimum deflection, showing application of Pontryagin maximum principle
15 p2709 A69-30671

Universal transfer function computer based on synchronous spectrum analyzer having outputs combined in cross spectrum correlation computer to yield plot in Bode form
15 p2615 A69-31282

Analog computer for design of control systems used in nonnuclear testing of nuclear rocket engine components and subsystems
15 p2589 A69-31289

Automated patching system design for analog and hybrid computers to reduce number of switches required
16 p2756 A69-32551

Planar distributed function generator for analog computing scheme, considering operation, cosine circuit and temperature error
17 p2934 A69-34123

Automated analog scaling for in hybrid computer systems imposing magnitude and frequency constraints, using equations for amplifier input factors
18 p3105 A69-34617

Numerical methods using analog computer in linear one dimensional transient heat conduction
18 p3229 A69-34835

Navigational equations solution by airborne analog computer techniques, describing electronic, electromechanical, digital reset and mechanical integrations with respect to time
18 p3107 A69-34847

Analog device to compute running ten minute average and store latest ten minute peak of unipolar data input for wind speed sensors
19 p3312 A69-36278

HF direction finder for display of time varying multimode propagation phenomena, using analog computer and phase sensitive interferometer
21 p3677 A69-39456

Steady state digital-analog integrator for solving nonlinear heat conduction type equations
21 p3680 A69-39852

ANALOG DATA

Hybrid digital transmission systems, discussing joint optimization of analog and digital repeaters and information rate of coaxial cable systems
01 p0027 A69-10248

Quantizing noise effect on reconstructed analog signal at reception terminal of digital data transmission system
01 p0027 A69-10250

Analog to digital converter parameters, considering selection of conversion technique
05 p0726 A69-16760

Joint filter optimization in combination analog-digital hybrid multilevel transmission system
09 p1457 A69-22465

Magnetic tape recorder/reproducer for FM analog test data
10 p1691 A69-23233

Vortex amplifier as active element in analog circuits
10 p1639 A69-23556

Analog signal transmission through randomly fading channels, proposing pseudorandom phase reversals method for slowly varying multipath communication channels
11 p1834 A69-24552

Optimum recording conditions for analog recorders with continuous recording in rectangular coordinate system
12 p2091 A69-26332

Analog correlator performance interpreted as output SNR dependence on input signals and integrating system characteristics, covering filters and finite time integrators
14 p2413 A69-29485

Analog signal processing concepts based on models simulating mechanical function of ear cochlea
17 p2911 A69-34092

Analog telemetry signals generalizing frequency and pulse position modulations over coherent channels, noting added degrees of freedom function
20 p3492 A69-37713

Numerical and analog data acquisition system /CARINA/ for processing rocket, balloon and satellite data, describing distributor characteristics, control console, etc
20 p3511 A69-37914

Noiseless feedback schemes for digital and analog transmission over additive white Gaussian noise channels
21 p3671 A69-38405

Integrated adaptive data transmission system accepting analog inputs through information compressing sampler or digital inputs by sampling
23 p4121 A69-41760

Analog feedback system for digital data transmission, describing feedback channel, error rate and SNR effects
24 p4289 A69-42977

ANALOG SIMULATION

Efficiency curve for step recovery diode frequency multipliers, using analog computer simulation
02 p0215 A69-11947

Equalization of multiple electromagnetic shakers for environmental vibration testing, using analog computer [JPL-TR-32-1364]
02 p0229 A69-12374

Difference schemes for heat conduction analog simulation on electric integrators
03 p0410 A69-13300

Analog sampled data simulator using field effect transistors and single value of holding capacitor for covering sample frequency variation
03 p0405 A69-13600

Simulation of flight dynamic equations of motion for fixed wing aircraft, using variable analog computer with gimbaled and servocontrolled aircraft model
04 p0585 A69-14829

Engineering solution for integrodifferential equations of physical systems with electronic circuits
05 p0724 A69-16468

Mathematical model simulation of structures using building block approach
05 p0842 A69-16471

Analog simulation of water hammer type phenomena governed by linear constant coefficient partial differential equations
05 p0751 A69-16475

Error and noise sources in analog differentiators, discussing signal distortion minimization techniques and augmentation with linear phase filter
06 p0897 A69-17702

Analog simulation of chemically reacting system applied to thermal decomposition of oxygen difluoride [WSCI PAPER 68-49]
07 p1073 A69-18318

Hydraulic analog for determining acoustic behavior of baffle cell used in liquid rocket engines, comparing ring and spoke type baffles
09 p1570 A69-22004

Mathematical model, analog computer simulation and information comparison of closed Brayton cycle systems for power conversion [ASME PAPER 69-GT-50]
09 p1442 A69-22479

Bilinear hysteretic system undergoing random vibration, substantiating linearization analysis with analog computer simulation and comparing lifetime to linear system [ASME PAPER 69-VIBR-25]
10 p1806 A69-24173

Analog simulation of cylinder wake potential for hypersonic motion in collisionless plasma
11 p1926 A69-24756

Canonical transformations of unsteady control system motion equations, simplifying control process study and controller simulation on analog computer
12 p2045 A69-25960

Monograph on physicochemical principles of takeoff monitoring systems for large aircraft covering taxiing, safety control systems design, analog simulation, etc
12 p2128 A69-26119

Analog simulation of nonlinear functions of single independent variable compared digital to analog representation principles
13 p2224 A69-27531

Minimum vibration frequency and compressive force for freely supported rectangular, triangular and circular plates simulated on analog computer
15 p2708 A69-30665

Linear pyrolysis of thermoplastics during combustion of composite solid propellants and ammonium perchlorate solid propellant deflagration mechanism studied by loose granule analog [WSCI PAPER 69-16]
16 p2831 A69-32354

Numerical integration of Eole satellite attitude equations compared with results obtained by analog simulation or hybrid computation
17 p3048 A69-33232

Spinning satellite attitude perturbations due to oscillating mass in satellite rigid frame, discussing analytical approach and analog simulation results
20 p3618 A69-37912

Robot command and control by computer assembly, describing engineering analog of vertebrate nervous system
21 p3679 A69-39603

Computer assisted electrocardiography, discussing multidipole analog simulation of heart electrical activity and vectorcardiogram recording
23 p4105 A69-41784

Nerve and muscle tissues subthreshold reactions on analog model, discussing transient characteristics under various excitations
23 p4109 A69-41980

Human thermal regulatory mechanism using analog simulation compared with experimental results of resting subjects responses to climatic chamber
23 p4111 A69-42079

ANALOG TO DIGITAL CONVERTERS

Microwave carrier graycode analog to digital converter capable of 1200 megabits per second
01 p0044 A69-10627

Pneumatic analog to digital and digital to analog converters, noting diaphragm force balance capsules, converters using stepping motors and factors affecting accuracy [ASME PAPER 68-WA/AUT-16]
05 p0706 A69-16176

Computer programs and analysis methods for digitalization of continuous feedback network in missile control systems
05 p0725 A69-16470

Analog to digital converter parameters, considering selection of conversion technique
05 p0726 A69-16760

X ray proportional counter, analog to digital converter and power supply for gamma ray spectrometry used in satellite applications [IEEE PAPER 3A-7]
07 p1134 A69-19194

Delta modulation for analog to PCM encoding due to tapped binary shift register and up-down counter
09 p1455 A69-21844

Analog to digital conversion for data sampling systems including scanning, distributors, multiplexing, automatic ranging, noise reduction and data storage techniques
10 p1660 A69-23232

Optimum microcircuit analog to digital converter for aerospace environment by combining monolithic circuits and thin film resistors
10 p1636 A69-23282

High speed ten-bit analog to digital converter with medium scale integration (MSI) elements, considering conversion accuracy and time
11 p1845 A69-24520

Time-pulse function generator with piecewise parabolic approximation for converting value given by DC voltage or time interval into DC voltage for arbitrary functional relation
12 p2079 A69-25968

Digital method to produce radar reflectivity from analog audio frequency Doppler data extracted from terrain echo signal of CW scatterometer radar
15 p2572 A69-31111

Analog to digital conversion, describing successive approximation technique with built-in sample and hold and discrete analog amplitude modification
17 p2934 A69-34124

Integrated circuit ultrahigh speed analog to digital converter, considering interactions at high digital rates and video bandwidths
17 p2943 A69-34125

High speed analog to digital multiple channel wide-band data acquisition system designed for short pulse Doppler radar and probe measurements
19 p3307 A69-35745

Nonlinear encoding for picture transmission using nonlinear analog to digital converter
23 p4119 A69-41747

ANALOGIES

NT HYDRAULIC ANALOGIES

Jet line in rotational incompressible plane flows around shrouded propeller blade, using electrical analog
01 p0058 A69-10037

Electrohydrodynamic analogies to known MHD effects studied by differential equations for hydrodynamic and electric field energy relations
01 p0131 A69-10775

Hydrodynamics-electrodynamics analogies for electromagnetic flight
01 p0121 A69-11134

Lifting wing profiles in uniform transonic compressible fluid flow calculated by analog method, noting hodograph method simplification
02 p0187 A69-11536

Electrical analogs with passive elements in combination with stepping switches for simulation of plants with distributed parameters
09 p1471 A69-21436

Transient heat flow in isotropic solids by electrical analog modeling in orthogonal curvilinear coordinate system
09 p1477 A69-22241

Analogy between differential equations for skew isotropic plates and rectangular anisotropic plates
13 p2371 A69-28678

Linear passive electrical analog model of human systemic arterial tree, discussing artery segment modeling, vessels input impedance, wave travel, etc
17 p2908 A69-33007

Solid propellant motor extinction by depressurization, determining extinction conditions by electrical analogy
17 p3021 A69-33355

Side force problem for shallow helicoidal shell, shown as static geometric analog of pure bending problem, solved by applying analogy [ASME PAPER 69-APM-11]
18 p3213 A69-34387

Solid propellant motor extinction by depressurization, determining extinction conditions by electrical analogy [ONERA-TP-722]
18 p3184 A69-34637

Analog method for determining structural creep displacement by setting up boundaries for linear elasticity and perfect plasticity
20 p3628 A69-37915

Temperature-vorticity analogy for viscous two dimensional fluid flow extended to compressible flows, noting enthalpy and shear stress analogy
22 p3929 A69-39892

Coherent light focusing by helicoidal guide- extension to particle focusing, discussing analogy between index distribution for classical optics and potential distribution for electronic optics

22 p3981 A69-40475

Linear electrical analogs for two dimensional optical data processing systems, discussing diffraction field model, quadratic phase filters, thin lenses, photographic film applications, etc

24 p4286 A69-42619

ANALOGS

Mean seasonal atmospheric and synoptic circulation types examined by criterion for identifying analog types

13 p2295 A69-28652

Finite difference analogs with increasing error terms applied to simple differential Laplace operator for accuracy determination

19 p3365 A69-36510

Atmospheric predictability as revealed by naturally occurring analogs, noting superposed error

20 p3573 A69-38057

Analog problem solution for semiinfinite medium with Newtonian cooling at boundary, noting first term of asymptotic expansion in heat conduction equation

22 p4052 A69-41126

Collection of Soviet papers on mathematical physics
11 p1916 A69-24770

Boltzmann H theorem and related mathematical topics, noting applications to subsonic gas flow and continuum flow around and over body

11 p1870 A69-25008

Stability of stationary motion, analyzing gyroscopically unstabilizable systems and extension to continuous spectrum case

11 p1919 A69-25437

Pattern recognition and analysis, discussing definitions, rules of image transformation, pure and deformed patterns, etc

14 p2470 A69-29360

Exact analytic solution for thermal conductance of two dimensional eccentric constriction in dimensionless numbers

18 p3228 A69-34375

Analytical relations in phenomenological model theories for turbulent flow near wall

21 p3695 A69-39010

Mathematical analysis of dendrite design of solid propellant grains for variant of modified wagon wheel design

22 p3997 A69-40553

ANALYTIC FUNCTIONS

NT ENTIRE FUNCTIONS

Eigenvalue problem for Laplace operator for two dimensional region with boundary composed of piecewise-analytic simple closed curves solved by finite difference method

02 p0271 A69-11650

Equilibrium problem of elastic medium with stress couples in linearized elasticity theory, representing biharmonic function with aid of analytical functions

02 p0340 A69-12035

One to one mappings of Fourier series of analytic almost periodic functions and Dirichlet series, discussing satisfaction of functional equation

05 p0786 A69-15882

Circle theorem extensions and applications to mechanics of continua, noting supersonic and subsonic compressible fluid flow

10 p1723 A69-22877

Sommerfeld type and Fermi type approximation analytical solutions of Thomas-Fermi differential equations for positive ions

10 p1726 A69-23525

Convergence of zeta function for flows and diffeomorphisms

10 p1720 A69-23639

Theory for approximation of analytic functions given on closed spaces with piecewise smooth boundaries

12 p2120 A69-26198

Analytic continuation of Appell hypergeometric series into linear combination of four infinite series

12 p2123 A69-26605

Quasi-L-analytic functions for ordinary linear operator L

13 p2290 A69-28484

Integral representation of p-analytic functions of complex variable, applying axisymmetric boundary value problems of elasticity theory for cylindrical surfaces and paraboloid of revolution

15 p2714 A69-31191

Nonlinear differential equations of mechanical systems with restoring forces approximated by odd power displacement functions and energy dissipation approximated by displacement and velocity functions

17 p3007 A69-33914

Reduction of partitioned submatrices functions for expediting calculations of hypercirculant and hyperhyper Jacobi analytic functions

18 p3163 A69-34330

Analytic functions representation and application to theory of singular integral equations in continuum mechanics, noting Cauchy kernels and boundary value problems

19 p3361 A69-36813

Solution procedure for torus with given surface loads or displacements, using series expansion of generalized analytical functions, discussing stress concentration near toroidal cavity

21 p3839 A69-39192

Inequalities for coefficients of univalent functions

22 p3975 A69-40453

Iterative integration method of numerical quadrature over finite interval for analytic function, taking into account simple nonanalytic singularities in integrand

24 p4341 A69-43229

Human taste perception mechanism and taste system anatomy
 21 p3652 A69-38783

ANDESITE

Trace element geochemistry of calc-alkaline andesites, discussing crustal composition models and trace elements distribution
 08 p1309 A69-20940

ANDROMEDA CONSTELLATION

Forbidden emission transition probabilities in high excitation symbiotic stars, novae, Cygni stars and peculiar binaries
 19 p3423 A69-36227

Omicron Andromedae radial velocity measurements /1961-1966/ during normal B star periods
 22 p4028 A69-40755

ANDROMEDA GALAXIES

Novas in M 31 on Tautenburg Schmidt photographs
 08 p1382 A69-19873

Andromeda M 31 galactic model, using luminosity and velocity data from optical and radio observations to construct nucleus, kernel, disk and flat component
 19 p3426 A69-36579

M 31 nebula radio continuum survey, describing discrete sources catalog and Andromeda nebula radiation distribution
 20 p3601 A69-37493

Andromeda galaxy brightness distribution, discussing nuclear region, energy distribution, surface brightness, brightness profile, etc
 20 p3610 A69-38141

ANECHOIC CHAMBERS

Acoustic filters performance determination, standing wave tube and anechoic termination methods
 20 p3464 A69-37321

ANELASTICITY

Creep accumulation under time varying stress of Al alloy sheet, using creep recovery analysis to determine anelastic strain growth
 21 p3747 A69-39323

High temperature anelastic effect in Mo single crystals ascribed to internal friction peak due to electronic interactions between dislocations and C interstitials
 24 p4332 A69-43031

ANEMOMETERS

NT HOT-WIRE ANEMOMETERS
 NT SONIC ANEMOMETERS

Laser Doppler velocity profile measurement at localized points in flow stream without disturbing flow
 01 p0090 A69-10298

Theoretical response of cup and vane anemometers to steady and varying flows derived analytically and by using analog computer
 08 p1314 A69-20315

Anemometer based on neon helium ring laser with four mirror resonator
 13 p2260 A69-27857

Aerodynamic frequency response calibration measurements of wind anemometer by input velocity and output drag values under unsteady flow conditions
 24 p4315 A69-43262

ANEMOMETRY

U VELOCITY MEASUREMENT

ANESTHETICS

NT CHLOROFORM

Energy cost of muscular exercise in gastrocnemius muscle of dogs anesthetized with morphine, chloralose and urethane
 23 p4093 A69-42065

ANGELS

Angel type radar echoes from coherent pulses in centimeter and decimeter wavelengths characterized by daytime convection and presence of inversion/ isothermal layers
 09 p1491 A69-22706

Depolarization degree of angel echo signals measured by radar station, indicating insects and other foreign particles in atmosphere as reflection sources
 16 p2779 A69-32274

Angle nature from backscattering patterns at radar station with one transmitting and two receiving antennas
 16 p2779 A69-32275

Angel sources rate of motion observed at automatic tracking coherent pulse station, obtaining coincidence with wind and insect velocities
 16 p2779 A69-32276

Angel type radar echoes from coherent pulses in centimeter and decimeter wavelengths characterized by daytime convection and presence of inversion/ isothermal layers
 16 p2753 A69-32486

ANGLE OF ATTACK

NT ZERO ANGLE OF ATTACK

Mach-Zehnder interferometer for studying temperature distribution and heat transfer in turbulent jets, noting temperature dependence on jet thickness at different angles of attack
 01 p0005 A69-10101

Propeller static performance calculations for infinite number of blades applied to four blade propeller at different blade angles
 02 p0188 A69-11957

Hypersonic perfect gas flow past delta wing with blunt edges at small angles of attack, noting constant drag coefficient
 02 p0191 A69-12584

Aerodynamic characteristics of delta wings for supersonic flow at large angles of attack, showing sweep-back angle influence on drag coefficient
 02 p0191 A69-12585

Soviet book on hypersonic flow past truncated cones at various angles of attack with allowance for physicochemical equilibrium transformations
 03 p0362 A69-13633

Three dimensional boundary layers on cones at small angle of attack, presenting numerical solutions with heat transfer effects for wind tunnel model
 [ASME PAPER 68-WA/APM-24]
 04 p0541 A69-14389

Angle of attack effect on motion throughout entry of spinning descending vehicle, noting effects of transverse angular velocity and spin rate
 04 p0666 A69-15522

Delta wing head wave at zero angle of attack in steady supersonic flow during transition from subsonic to supersonic leading edges
 [DVL-871]
 06 p0858 A69-17242

Asymmetric supersonic air flow at 60 degree angle of attack past ellipsoid with frontal spike creating separation area
 06 p0858 A69-17337

Roll acceleration influence on angle of attack convergence and windward meridian rotation rate of rolling reentry vehicles
 [AIAA PAPER 69-100]
 06 p1018 A69-18089

Anomalous roll behavior of spinning ballistic reentry vehicles with compound aerodynamic asymmetry consisting of lateral offset combined with trim angle of attack
 [AIAA PAPER 69-103]
 06 p1019 A69-18168

Three dimensional hypersonic steady flow around blunt and pointed cones at nonzero angles of attack calculated by method of characteristics
 [AIAA PAPER 69-187]
 06 p0865 A69-18176

Mixed three dimensional separation of boundary layer on ellipsoid of revolution at ten degree angle of attack, ignoring heat flux
 08 p1251 A69-19876

Angle of attack and bank angle for orbiting reentry glider, determining optimal trajectory for ground landing at given point
 [ICAS PAPER 68-41]
 11 p1966 A69-24750

Angle of attack and Reynolds number effect on hypersonic flow past circular cone, obtaining shock wave shape
 [ONERA-TP-692]
 11 p1818 A69-24751

Propeller performance prediction for nonnegligible angle of attack, determining tip loss factor with model similar to Prandtl model for axial flight
 11 p1819 A69-25375

Free transonic gas flow incident on symmetrical profile at angle of attack with given velocity at infinity calculated using difference scheme
 11 p1820 A69-25469

Aerodynamic characteristics of flat plate in viscous hypersonic flow incident at zero or small angle of attack, using numerical integration
 11 p1820 A69-25471

Supersonic and hypersonic flow of rarefied gas around blunted cylinders at various angles of attack, noting pressure distribution on model surface
 11 p1821 A69-25478

Laminar compressible subsonic boundary layer flow on symmetrical cylinder bounded by circular arcs noting zero/nonzero angle of attack
 12 p2062 A69-26272

Thrust, bank angle and angle of attack of aircraft minimum fuel lateral turns at constant altitude and specified velocities
 13 p2203 A69-28245

Angle of attack and blunting effect on aerodynamic lift and drag coefficients of flat plates in hypersonic flow at low Reynolds number
 13 p2200 A69-28358

Supersonic gas flow past wedge at zero angle of attack with separated shock wave, calculating velocity gradient at stagnation point and pressure and drag distribution
 14 p2390 A69-29615

Three dimensional periodic boundary layer on ellipsoid in harmonic motion at given angle of attack, using successive approximations
 15 p2548 A69-31008

Wall pressure and heat flux distribution in hypersonic flow on delta wings at variable angle of attack for low Reynolds numbers
 16 p2731 A69-31605

Aerodynamic characteristics of cone/cylinder and cone/cylinder/cone configurations with blunted cones in hypersonic flows at small angles of attack
 17 p2889 A69-33122

Drag and lift coefficients of moderate aspect ratio prismatic bodies analyzed as function of angle of attack, Reynolds number and aspect ratio
 17 p2896 A69-33717

Stationary elliptic cylinders in subcritical flow, determining Strouhal number, pressure fluctuations and wake geometry as functions of angle of attack
 [AIAA PAPER 69-745]
 18 p3084 A69-34412

Computer programs determining gaseous properties and aerodynamic characteristics for missiles, reentry vehicles and spacecraft at angles of attack
 18 p3107 A69-35068

Aerodynamic behavior of airfoil oscillating in reverse flow defined for various angles of attack and oscillatory amplitudes at low Mach numbers
 18 p3087 A69-35219

Inverse transformation method for plane subsonic flow extended to flow past cambered profiles at angle of attack, obtaining velocity distribution
 19 p3240 A69-36473

Theoretical nonlinear method for calculating aerodynamic forces on low aspect ratio wings at high angles of attack and wide range of Mach numbers
 21 p3644 A69-39084

Axisymmetric supersonic flow around spherically blunted body at small angles of attack, deriving equations for shock deformation perturbations and surface pressure
 22 p3861 A69-41179

Windward shock angle parameters on yawed cones correlated in single variable for hypersonic flow
 23 p4060 A69-41918

Second order differential equations of supersonic flows past bodies at small angles of attack, showing linearized characteristics method applicability for conical nose
 24 p4243 A69-42581

Pressure distribution correlation over blunted slender cone at various angles of attack by tangent cone method, describing hypersonic wind tunnel tests
 24 p4249 A69-43681

ANGLES [GEOMETRY]

NT BRAGG ANGLE

NT BREWSTER ANGLE

Reflection measurements in IR, investigating effect of angle of incidence and collimated beam on reflection spectra

01 p0120 A69-10891

Maximum probability technique for measuring angular coordinate with unknown signal and noise intensity

03 p0399 A69-14132

Angle of incidence influence on unpolarized and linear polarized light of solar cell short circuit current

04 p0551 A69-15312

Mechanical calculators for solving spherical triangle problem of navigation

07 p1135 A69-19207

Radar target detection and angular location estimation in amplitude comparison monopulse radar by simultaneous observation with group of antennas

09 p1452 A69-21312

Refraction angles for objects between 5-300 km and zenith distances between 1-88 degrees, describing calculation method for corrections

09 p1490 A69-21918

Optical sensing devices for angle measurement between celestial body and satellite axes

12 p2078 A69-25871

Fourth angle driving law for different four gimbal systems used for simulation display and inertial platform isolation

12 p2055 A69-26265

X-15 research aircraft program piloting problems, ground facilities, heat transfer, space flight and steep reentry

12 p2014 A69-26872

Angular dependence of ocean surface-cloudless atmosphere reflectance for solar radiation studied with digitized camera signals from ATS 1 satellite

21 p3704 A69-38372

Isoclinic angle errors effects on photoelastic fringe order measurements accuracy

22 p3945 A69-40082

Photomultiplier tubes performance enhancement by light incidence on photocathode at oblique angles explained by reflection

23 p4191 A69-42194

ANGULAR ACCELERATION

1.5 g angular acceleration effects on acetylcholine metabolism in guinea pig brains and hearts

02 p0198 A69-11505

Rotational velocity estimates by observers during angular acceleration, noting vestibular function interpretation

04 p0554 A69-15332

Strapdown gyros in back to back connection for reduction of component cross coupling errors

04 p0603 A69-15473

Psychophysical methods for determining perception threshold of angular acceleration in man during vertical rotation

05 p0708 A69-15969

Vestibular-vegetative reactions during angular and Coriolis accelerations alternating with weightlessness, noting increased parasympathetic and sympathetic activity

07 p1062 A69-18587

Fluidic control systems for angular rate and attitude stabilization flight-tested, noting good impact and acceleration resistance

[AGARDOGRAPH-118] 08 p1257 A69-20955

High sensitivity gyroscopic HF angular acceleration sensor using special differentiator, obtaining motion equations and dynamic response

09 p1498 A69-22109

Torsiograph systems analysis for rotors angular acceleration recording, discussing dynamic characteristics, system, environmental problems, etc

10 p1692 A69-23252

Fluid rotor angular accelerometer design for stabilization and control, noting applications to centrifuge speed and thrustor gas consumption

10 p1633 A69-23273

Optimal parameters of hydraulic sensor of angular accelerations for given dynamic and geometrical requirements

13 p2259 A69-27432

Dynamic stresses in case bonded cylinder due to transient angular accelerations, presenting numerical results for incompressible elastic cylinder

13 p2364 A69-28209

Vestibulo-somatic, vegetative and sensory reactions to angular acceleration, deceleration and tilting, evaluating functional state of vestibular analyzer

20 p3481 A69-37270

Human angular acceleration sensitivity using rotation and oculogyral illusion perception as indicators,

relating to spatial orientation and flight control task precision

23 p4101 A69-41674

Human physiological responses to angular acceleration during breath holding, MI, Valsalva and Mueller respiratory maneuvers in hollow spherical simulator

23 p4102 A69-41679

ANGULAR CORRELATION

Critical values of laser formed solid angle determined in plasma diagnostics of scattering spectrum density distribution

02 p0251 A69-12416

Angular correlation of inelastically scattered alpha particles and gamma rays emitted from 2-plus state of Sn 120

03 p0469 A69-13098

Angular correlation between inelastically scattered 42 Mev alpha particles and emitted gammas from 2-plus Ni 58

03 p0470 A69-13100

Ionizing electron collisions with He, determining energies and angular correlation distributions of scattered and ejected electrons

06 p0962 A69-17191

Angle of arrival in amplitude comparison monopulse radars in presence of internally generated thermal noise

13 p2220 A69-27942

ANGULAR DISTRIBUTION

Emission and frequency shift angles of antiStokes radiation from trapped filaments of laser light in liquids

01 p0114 A69-10012

Angular distribution of radiation scattered by microscopic polyvinyl toluene sphere monolayer, noting intensity distribution approximation using Mie theory [AIAA PAPER 68-30]

02 p0282 A69-12503

Glass pleats and cold cathodes in laser discharging tube, discussing angular displacements

03 p0435 A69-12981

Angular and spectral distribution of earth IR radiation near horizon from satellite observation and spectrograms

03 p0422 A69-13506

Directional intensity of radiation emerging from top and bottom of Rayleigh scattering atmosphere

03 p0426 A69-14026

Angular distribution of particles sputtered from GaAs and GaP single crystals, bombarding faces with Ar ions at low energy

04 p0640 A69-14452

Angular distribution of reactive elastic scattering by opacity function/reaction probability/

04 p0554 A69-14859

Histograms construction for azimuthal distribution of atmospheric from visual and photographic data obtained by CRT display goniometer

04 p0593 A69-15102

CRT direction finder with linear scanning to determine statistical data for azimuthal distribution of atmospheric

04 p0600 A69-15104

Expansion anisotropy in angular distribution of laser produced plasmas in terms of drifting and expanding sphere model, discussing particle velocities, currents and time integrated counts

05 p0804 A69-16460

Angular dependence of low energy electron impact excitation cross section of lowest molecular hydrogen triplet states

06 p0962 A69-17820

Angular distribution measurements of visible and near IR radiation reflected from carbon dioxide cryodeposits formed on liquid nitrogen cooled surface in vacuum

[AIAA PAPER 69-63] 06 p0959 A69-18131

Angular intensity distribution of corpuscular radiation in time independent geomagnetic field characterized by particle velocity distribution

07 p1210 A69-19619

Angular distribution of photon radiance of spherical satellite irradiated by Lambertian earth, assuming nonemissive satellite

08 p1311 A69-21095

Angular dependence of EPR line widths of trivalent Cr ions in zinc tungstate in rotating magnetic field, noting spin-phonon mechanism

10 p1743 A69-23131

Angular energy distribution in gamma quanta beam during collision between laser photons and relativistic electrons

10 p1701 A69-23132

Nonthermal cosmic radio emission spectral index angular variations during scanning of sky by receiver antenna, analyzing dependence on galactic latitude

10 p1784 A69-23940

Radio sources optical positions for independent calibration sources

11 p1958 A69-24465

Ruby laser light scattered at 90 degrees by dense plasma focus, analyzing signal detection

11 p1899 A69-25324

Angular distribution of electrons leaving plasma at electrode boundary, using kinetic Boltzmann equation with scattering function and specular reflection

11 p1933 A69-25544

Interplanetary scintillation and angular spectrum of radio waves scattered by solar plasma, noting magnetospheric tail and solar wind

12 p2161 A69-26942

Light scattering from high reflectivity dielectric mirrors, measuring angular power distribution from beam axis by scanning with narrow slit

13 p2298 A69-27663

Angular distribution of penetrating shower particles produced in nuclear interaction of cosmic rays with C, Sn, Cu and Pb

13 p2330 A69-28381

Angular distribution of nuclear particles dispersed during motion determined from photon energy and inelasticity coefficient

13 p2303 A69-28390

Angular distribution function calculations for avalanche electrons at various stages of cascade development, discussing electron energies and primary electron roles

13 p2303 A69-28414

Cosmic ray muons energy and angular distribution measurements, obtaining curve with respect to projection angles

13 p2332 A69-28420

Cosmic ray muons angular distribution measuring device for determining pion/kaon ratio

13 p2332 A69-28421

Double light scattering near critical point, examining angular distribution

14 p2482 A69-28738

Cosmic ray angular distribution spectrum and interplanetary magnetic field properties determined from semidiurnal cosmic ray variations data

14 p2512 A69-29046

Optophotoclectric pickup design for angular displacement measurements, considering application of moire pattern produced by radial diffraction gratings

14 p2447 A69-29327

Polarization and angular distribution of 6328 A He-Ne laser light scattered by latex-sphere hydrosols, comparing coherent and incoherent scattering patterns

15 p2595 A69-30223

Plasma three electrode source ion-optical characteristics, noting beam angular divergence dependence on spacing between discharge cavity and intermediate electrode

15 p2658 A69-30240

Plane electromagnetic wave refraction and scattering in solar corona during eclipsed observations of cosmic sources, calculating angular distribution of radiation intensity

15 p2688 A69-30555

Earth reflected solar radiation spatial, angular and spectral distributions measured by telephotometers onboard Cosmos 149

15 p2596 A69-30650

Resonance cones in angular distribution of short antenna RF electric field in anisotropic plasma noting variation with incident, cyclotron and plasma frequency

15 p2659 A69-30876

Noctilucent clouds thickness determinable from angular dimensions of visible edge

15 p2598 A69-31254

Angular structure of second optical harmonic for cylindrical lens focusing of ND laser beam into negative KDP crystal

17 p2981 A69-33110

Angular dependence of lunar nighttime IR radiation by invariant tensor techniques, noting surface roughness effect on radiation pattern

[AIAA PAPER 69-597] 17 p3032 A69-33276

Azimuth angle distribution of secondary particles forming cosmic ray diffused cone with high energy, showing asymmetry and deducing particle transverse momentum upper limit

17 p3024 A69-33763

Angular spectrum representation of diffracted wave fields expressible by plane wave expansions containing only homogeneous waves

17 p3007 A69-34153

Optical constants changes in germanium determined by modulation method of measuring light reflected at different angles

18 p3173 A69-35014

Velocity and angular distributions of KBr formed in reactive collisions between crossed molecular beams of K and thermal HBr/DBr/

18 p3178 A69-35476

Relation between angular divergence, spectral characteristics and kinetic behavior of laser operating in various pulsed modes

19 p3333 A69-35879

Thermal molecular beam sources fabricated from multichannel arrays, describing molecular flux leak rates and angular distributions

19 p3376 A69-36175

Auroral electron and proton fluxes precipitation measurements by satellite, studying data in terms of spatial, energy and angular distributions

21 p3709 A69-38500

Deposited beta active thallium isotope materials angular distribution after vaporization by Q switched laser beam determined by target fragment recoil

21 p3737 A69-38992

Cosmic ray electron recorder for measuring intensity, energy spectrum and angular distribution of electron fluxes within specific energy range

21 p3724 A69-39074

Accelerating electric field model to interpret energy and angular distribution of auroral particles, noting electric potential limitations

22 p3938 A69-40445

Angular distributions for Sc 45-Ti 46 nuclear reactions involving 41 Mev alpha particles bombardment described by Born approximation

22 p3988 A69-41044

Angular distribution of He-Ne laser beam scattered by artificial fog from data by light detection devices at various angles

24 p4328 A69-43503

Diffractive coupling of power from carbon dioxide laser, computing angular distribution of output light

24 p4329 A69-43753

ANGULAR MOMENTUM

Origin of binaries from angular momentum vectors orientation and separation distribution

05 p0822 A69-15856

Laminar flow stability parameter presenting coupling ratio between angular momentum change and loss rate by frictional drag

05 p0750 A69-16187

Equilibria of orbiting gyrostal satellite with internal angular momenta along principal axes

07 p1227 A69-18336

Interhemispheric transfer of atmospheric angular momentum, noting hemispheric angular momentum contents and annual variations

07 p1127 A69-19258

Galactic angular momentum of rotation, applying rotation theory to gravitational instability model of galactic formation

08 p1383 A69-20050

Meridional flow, angular momentum and energy flux in atmosphere calculated from IGY data

08 p1346 A69-20312

Stellar rotation braking due to mass loss from coronae through stellar wind based on calculation of acoustic energy generation from convective zone

08 p1396 A69-20644

Angular inertia of lubricant in MHD hydrostatic thrust bearings, obtaining critical angular speed of rotor

09 p1503 A69-21443

Angular momenta of stars, planets and asteroids, plot log of angular momentum per unit mass against log of mass of astronomical object

09 p1608 A69-22716

Binary eclipsing visual star systems angular momenta, discussing evolution

10 p1777 A69-23313

Penfield-Haus solution to magnetodynamic effect problem as inertial effect of orbital angular momentum, deriving Bohr magneton formula from Einstein equivalence principle

11 p1919 A69-25098

Spacecraft attitude control and stabilization by three degree of freedom control moment gyro with controllable gyro spin angular velocity

13 p2355 A69-27445

Isotropic and anisotropic dust cosmological models density perturbation growth, considering angular momentum conservation in expanding universe

13 p2343 A69-27619

Angular momentum-gravitational field coupling in collapsing star, applying rotational perturbation to spherically symmetric time dependent interior solution of Einstein field equation

14 p2520 A69-29374

Lunar origin theories, considering moon/earth mass ratio, earth-moon system angular momentum deficiency and differential volatilization in earth

14 p2527 A69-29882

Self maintenance of absolute angular momentum in atmosphere as explanation of subtropical jet stream origin

15 p2647 A69-30192

Plasma viscosity relation to stellar magnetic fields generation, taking into consideration angular momentum transfer

15 p2700 A69-31492

Regional distribution of relative angular momentum transport over equator, noting advective and turbulent transfer

16 p2773 A69-31793

Gimbal torquing as function of gimbal structure response resulting in free gyro erection system, using any angular momentum at any initial starting angle

16 p2792 A69-32553

Line widths of 48 galaxies at 21 cm and spectroscopic data, estimating masses and angular momenta, finding mass-angular momentum relation

16 p2866 A69-32818

Planetary systems interrelationship with binaries and rotating stars, emphasizing occurrence frequency study based on stellar angular momentum orientation

17 p3032 A69-33105

Solar wind phenomenon, discussing angular momentum loss to sun, fluctuations at earth orbit and wind conditions at terminus and regions unvisited by spacecraft

17 p3023 A69-33370

Turbulent boundary layer on disk rotating in free air, using circumferential and radial momentum integral equations and entrainment equation

17 p2957 A69-33601

Quiet solar wind model with magnetic field numerically calculated, obtaining coronal electron densities and angular momentum near earth

18 p3186 A69-34301

Time and fuel optimization of angular momentum alignment and nutation elimination of spin stabilized bodies with inertial reference direction

18 p3208 A69-34775

Protosun and solar system angular momentum losses analyzed from equations for convective star rotation change, noting almost total protosun initial momentum loss possibility

18 p3203 A69-35346

Finite electrical conductivity effect on sun angular momentum loss due to solar wind

18 p3189 A69-35398

Primitive solar nebula physical model considered under angular momentum conservation in collapsing fragment

19 p3406 A69-36074

Forbidden transitions in diatomic molecules with nonzero spin and zero orbital angular momentum, stressing application in outer planets and M stars hydrogen spectra

19 p3421 A69-36213

Time scale of diffusion of angular momentum estimated by model for disturbances occurring in star with secularly unstable angular velocity distribution

20 p3605 A69-37826

Earth polar wanderings attributed to rotation axis angular displacements generated by density redistribution on geologic time scale

20 p3535 A69-38192

Order-disorder transitions in solid hydrogen, discussing model to explain molecular rotation angular momentum operator fluctuations

24 p4350 A69-43119

ANGULAR RESOLUTION

Angular separation of two point sources measured through expressing antenna resolving power by a posteriori probability laws

08 p1288 A69-20961

Solar radio burst fringes at 21 cm observed with high angular resolution using two element E-W interferometers

17 p3040 A69-33809

Radiant heat transfer integral equations solutions accuracy determined from differences between geometric and resolving angular emission factors

18 p3230 A69-35119

Ring laser bias in angular rotation measurement using optical phase shifters

21 p3735 A69-38651

ANGULAR VELOCITY

Variable thickness circular annular disk bending in centrifugal force field, establishing dependence between angular velocity and axial pressure intensity

01 p0168 A69-10401

Gyrovibrator /angular rate measuring device/, discussing output signal and natural frequency dependence on moments of inertia

01 p0083 A69-11004

Solid body automatic orientation, discussing data units for angular error and angular velocity

01 p0122 A69-11302

Unsteady slow rotational motion of viscoelastic liquid contained between two concentric spheres rotating with constant angular velocities

02 p0230 A69-11563

Atmospheric circulation influence on earth rotation velocity, discussing estimation methods

02 p0236 A69-11641

Einstein equations obtained for axisymmetric distribution of masses in approximation of square of stellar rotation angular velocity in empty space

02 p0317 A69-11956

Angular motion during first stage cut-off of Europa 1 launch vehicle from flight tests compared with theoretical predictions

03 p0519 A69-12856

Relation between amplitude of light and radial velocity variations of beta Canis Majoris stars

03 p0517 A69-14126

Rotational velocity estimates by observers during angular acceleration, noting vestibular function interpretation

04 p0554 A69-15332

Vortex value and angular rate sensor based on amplification of tangential velocity component of swirl achieved by control jet or rotation

05 p0746 A69-16006

Liquid rise in partially filled circular cylinder with free surface accelerated from rest to constant angular velocity [ASME PAPER 68-FE-13]

05 p0747 A69-16065

Three axis attitude servomechanism design to adjust attitude and angular velocity of spacecraft

06 p0955 A69-17589

Angular velocity of rotation measurement using angular gas laser undergoing axial torsional vibrations

07 p1147 A69-18523

Galactic rotation constant calculated from radial velocities of O, B and A stars in Cassiopeia constellation, using Fehrenbach objective prism

07 p1214 A69-18664

Meteor angular velocities distribution over sky in showers, considering effect of altitude, night hour, season and azimuth

08 p1393 A69-20607

Magnetic field decay modes due to nonuniform rotation having angular velocity as increasing function of distance from axis in infinite circular conducting fluid cylinder

08 p1369 A69-20999

Gyrostatic moments effects on critical angular velocities of varying and constant cross section rigidly and elastically supported hinged rotors

09 p1567 A69-21384

Symmetrical body rotational motion with asymmetrical mass distribution about center of mass, determining minimum initial value of angular velocity

09 p1595 A69-21762

Bubble spiral path motion toward axis of rotation of liquid rotating at constant angular velocity

09 p1483 A69-22006

Radial velocities of stars near cluster NGC 7380, discussing discovered stars, double lined spectroscopic binaries and photometric information

09 p1597 A69-22060

Increasing rotation of axisymmetric body about velocity vector ascribed to asymmetry in mass distribution, defining conditions for occurrence

09 p1431 A69-22077

Self oscillations in angular velocity sensor using electric spring and potentiometric pickup, examining friction moment and inductance coil effects

09 p1497 A69-22106

ANIMALS

Solar interior rotational angular velocity influence on solar oblateness, noting reduction by turbulent mixing

09 p1600 A69-22201

Stellar model with magnetic field accelerating central core rotation to instability for determining rotating star energy and angular velocity distribution dependence

11 p1952 A69-24249

Solar quiescent prominences spectra with bright metallic lines, discussing turbulent angular velocity and kinematic temperature of filaments

11 p1945 A69-24387

Differential solar rotation noting strong quasi-kineticity effect on solar convective zone and rotation influence on viscosity tensor and rotation law

11 p1955 A69-24390

Rotor angular velocity and flexural strain interdependence at critical velocity

11 p1987 A69-25390

Thin liquid film equilibrium on rotating sphere, determining conditions for detachment as function of angular velocity

12 p2061 A69-25886

Torsional flow of incompressible anisotropic fluid between parallel circular plates rotating with constant angular velocity, showing resemblance to shear flow

12 p2062 A69-26277

Space vehicle angular velocities reduced to zero through linear and nonlinear optimal feedback control systems

12 p2054 A69-26516

Nonrelativistic theory of rotating configurations in terms of gravitational potential, center mass density and variable angular velocity

12 p2159 A69-26662

Viscous heat conducting compressible fluid response to abrupt change in circular cylinder angular velocity at stable temperature distribution, considering Boussinesq approximation

13 p2245 A69-27378

Triaxial gyrostabilizer systematic drifts during rocking at large platform displacement angles, analyzing drift direction and rate dependence

13 p2259 A69-27430

Arc plasma jets radial velocity profiles measured by two probes in cyclic movement between jet edge and middle, including error estimation

13 p2307 A69-27611

Planetary mantles thermal and nonthermal convection model, solving sphere density variations and radial velocity components due to internal time-independent motions

13 p2344 A69-27644

Messier 51 ionized hydrogen observations, discussing H II regions, radial velocities and galactic mass, rotation and noncircular nuclear motions

13 p2347 A69-27720

Astronomical unit determined by measuring radial velocity of radio wavelength spectral line source

13 p2350 A69-27822

Internal structure of rotating stars, analyzing physical changes, circulation influence on mixing during evolution and angular velocity

15 p2683 A69-30512

Self excited vibrations of rotors supported in gas bearings from analyzing solutions to equations of rotor motion

16 p2875 A69-32250

Turbopump weight minimization and low suction pressure requirements realized using high rotating speeds, hydraulic turbine driven upstream inducer and computer testing

16 p2741 A69-32747

Spectral lines radial velocities and profiles observed on 48 Librae from 1950-1962

17 p3038 A69-33722

Radial velocities differences as indicator of stellar atmospheric turbulence, applying method to sun

17 p3044 A69-34177

Mean rotational velocity of finite width gaseous ring in close binary system from rotational velocity measured on spectrograms

17 p3044 A69-34180

Angular velocity effects on meteors apparent brightness

17 p3045 A69-34222

Elastohydrodynamic solution for ball torque spinning without rolling in nonconforming groove, showing increase in torque with stress and spinning and decreasing conformity

18 p3140 A69-34381

Angular velocity of aircraft rotation about longitudinal axis at arbitrary point of passive trajectory section, with assumptions on roll damping, momentum, etc

18 p3092 A69-34989

Microwave background angular fluctuations investigated for relationship between whirl motion velocity and temperature dispersion, noting role of scattering by moving plasma

18 p3188 A69-35208

Vibrarotor gyroscope operated as rate gyro for simultaneously indicating two components of angular velocity by amplitude and phase of periodic output signal

18 p3139 A69-35299

Viscoelastic shaft stability rotating at harmonically variable angular velocity, considering internal and external damping

18 p3224 A69-35300

Angular velocity torsional oscillations of solid sphere under elastic force couple rotating in viscous liquid bounded by immobile concentric sphere

18 p3175 A69-35320

Asynchronous gyrostatt postimpact drift direction found orthogonal with respect to initial impulse by averaging method

19 p3311 A69-36192

Tangential and radial velocities in vortex boundary layer flow, relating diminishing amplitudes to increasing height using iterative method

19 p3363 A69-36499

Dimensionless radial and transverse velocity profiles for unsteady incompressible boundary layer on rotating disk in rotating fluid

19 p3300 A69-36720

Curved beams ultimate strength using angular velocity considerations for collapse load

20 p3629 A69-38031

Magnetic field fluctuations and radial velocity in undisturbed photosphere, discussing magnetic field relation to radial velocity, cross correlation asymmetry, etc

20 p3535 A69-38300

Gaseous rotating stars radial oscillations by perturbation method, considering angular velocity effects

21 p3795 A69-38470

Interferogram observations of central velocity of M 31 under constant rotational velocity assumption, noting galaxy inclination

21 p3797 A69-38481

Fluidic angular rate sensor, obtaining rate information by sensing laminar jet flow deflection from nozzle, discussing advantages over mechanical rate sensors

21 p3722 A69-38766

Rotating stratified fluid in thermally insulated cylinder, studying angular velocity abrupt change effects under stable temperature distribution

21 p3694 A69-38768

Satellite attitude stabilization synthesis by flywheels allowing independent control of angular motions, assessing perturbation type influence

21 p3768 A69-39831

Neutral exosphere model for nonrotating planet permitting barosphere uniform rotation at certain angular velocity, determining velocity distribution and density

22 p4023 A69-40524

Angular velocity of visual stimulus effect on human torsional eye movements using sectorized disks

22 p3883 A69-40874

Increasing rotation of axisymmetric body about velocity vector ascribed to asymmetry in mass distribution, defining conditions for occurrence

23 p4060 A69-41968

Carroll Fourier transform method applied to stellar spectra lines to determine small rotational velocities

23 p4222 A69-42404

Nadai and Zyczkowski stress analysis for Tresca yield condition reexamined for determination of critical angular velocity of solid elastic perfectly plastic disk

23 p4235 A69-42480

Pointing vector and angular rate relationships for various optical elements, discussing analytical models development for precision electro-optical stabilization systems

23 p4131 A69-42544

Solar quiescent prominences spectra with bright metallic lines, discussing turbulent angular velocity and kinematic temperature of filaments

24 p4375 A69-43777

Differential solar rotation noting strong quasi-kineticity effect on solar convective zone and rotation influence on viscosity tensor and rotation law

24 p4390 A69-43780

Pituitary-adrenocortical axis and neuro-endocrine functions in animals maintained in oxygen atmosphere, discussing norepinephrine and epinephrine excretion values, etc

01 p0019 A69-11343

Acceleration, hypoxia and stress effects on humans and animals, noting latent functional disorders of organisms requiring special techniques for detection

02 p0197 A69-11488

Physiological processes occurring in voluntary movements of animals under space flight weightlessness conditions

02 p0199 A69-11827

Organic reaction and adaptation of rabbits and dogs to simulated weightlessness and acceleration compared with orbital flight data of human responses

03 p0376 A69-14192

Weightlessness effect on blood circulation system of human beings and animals during suborbital/ orbital space flight

03 p0376 A69-14194

Hypoxia effect on animal brain gamma-aminobutyric acid levels

04 p0552 A69-14482

Bioadhesive investigation in echinoderms extended to class Holothuroidea, using electron microscope with correlative light microscopy for tube feet of sea cucumbers

05 p0708 A69-15984

High oxygen concentration influence on animal organisms noting respiration, pulmonary gas exchange, hypoxia, brain phosphorylation, immunological indices and morphological structure of rats and mice

05 p0709 A69-16512

Decrease in bioelectric activity of skeletal muscles in animals and man during intermittent acceleration and weightlessness

07 p1062 A69-18591

Telemetry with unrestrained animals, discussing radio tracking of game animals and instrumentation requirements for studying green sea turtle goal finding ability

07 p1071 A69-19136

Visceral lesions observed in mice and rats exposed to ultrashort waves indicating no pathological modification of physiology of reproduction

08 p1266 A69-20679

Animals in weightless state, noting vigilance, attention, sensorial and motor reaction time, muscular tone at rest and muscles electrical activity in movement

09 p1445 A69-22721

Hydrogenomonas eutropha as means of protein food source independent of conventional agriculture for animal feed supplement

10 p1644 A69-23306

Acceleration effects on cellular and subcellular structures enzyme activity in humans and animals, noting changes resulting from changed permeability of membranes

10 p1645 A69-23496

ANIMALS
NT BABOONS

Heart rate and bodily fluid changes in aestivating desert anurans, discussing weight loss and metabolism reduction
11 p1827 A69-24923

Space biological tests performed on lower animals and vegetables relating to higher organisms reactions during prolonged manned space flights, reviewing Nasa experiments
12 p2019 A69-26494

Circadian rhythm of optic nerve impulses in isolated eye of sea hare *Aplysia californica* in total darkness
14 p2406 A69-28870

Dynamic differential thermal analysis of dried plant and animal specimens and related substances yielding discrete decomposition peaks of exothermic type
15 p2555 A69-31000

Synaptic configurations in neuropil of planarian *Dugesia dorotocephala* brain, discussing neurotransmitters at phyletic level
16 p2741 A69-31555

Macromolecular ring shaped components corresponding to hemagglutinin studied in *Limulus polyphemus* hemolymph by electron microscopy
16 p2742 A69-31864

Compensatory reactions to prolonged weightlessness in human and animal organisms emphasizing blood circulation, heart, metabolism, digestive and nervous systems
17 p2909 A69-33577

Lateral hypothalamic stimulation bound eating motivation in animals, comparing electrical stimulation and hunger elicited eating
17 p2910 A69-33752

High oxygen concentration influence on animal organisms noting respiration, pulmonary gas exchange, hypoxia, brain phosphorylation, immunological indices and morphological structure of rats and mice
18 p3095 A69-34731

Toxic effects of Freon R FE 1301 on animals and human beings at different concentrations, assessing judgement, alertness and neuromuscular skill
18 p3098 A69-35061

Portable multiunit low pressure chamber with locks, permitting water replenishment, feeding of animals under continuous pressure and gas mixtures
22 p3891 A69-40217

Viscoelastic properties of lenses extracted from cats and dogs analyzed as function of displacement using computer simulation
22 p3883 A69-40875

Catalytic, physical and chemical properties of enzyme lactate dehydrogenase isolated from lobster tail muscle
22 p3897 A69-41069

Cardiovascular changes induced in animals by prolonged weightlessness, using implanting polyethylene cannulas in neck or head
23 p4108 A69-41824

Cardiopulmonary bypass developed for studies of long term weightlessness on cardiovascular system of mice, white rats and squirrel monkeys
24 p4278 A69-43394

ANIMATION
U MOTION

ANIONS

Ionospheric negative ion coefficient variations, analyzing formation microprocesses
01 p0066 A69-10599

Benzene anion radical in solid solution ESR spectrum, noting removal of orbital degeneracy at 4.2 degrees K
03 p0382 A69-13379

Ion pairing effects of cyclooctatetraene anion radical, studying electron spin resonance spectra temperature dependence
10 p1651 A69-22938

Negative ion influence on electrical conductivity of partially ionized multicomponent gas mixtures, basing analysis on thermodynamic calculations of composition
21 p3774 A69-38867

ANISOTROPIC FLUIDS

Stress field and force system within torsional flow of cylindrical mass of incompressible anisotropic fluid
02 p0229 A69-11558

Laminar flow of anisotropic Ericksen fluid near wall at large Reynolds numbers, discussing Newtonian behavior, viscosity coefficient and particle orientation
02 p0231 A69-12141

Torsional flow of incompressible anisotropic fluid between parallel circular plates rotating with constant angular velocity, showing resemblance to shear flow
12 p2062 A69-26277

Turbulent fluid flow analysis described by Navier-Stokes equations, introducing asymmetric tensors for anisotropic cases
13 p2297 A69-27289

Langmuir HF turbulence effect on anisotropic plasma oscillation spectra, determining instability conditions
13 p2315 A69-28448

Gupta stability solution extended to liquid anisotropic viscoelastic films, analyzing surface and shear wave perturbations in material structures
22 p3929 A69-39893

ANISOTROPIC MEDIA

Viscous effects of neutrinos in anisotropic cosmological models examined using Boltzmann equation with simple collision term
01 p0148 A69-10053

Quasi-monochromatic wave dispersion relation and energy transfer in inhomogeneous anisotropic medium
01 p0126 A69-10278

Energy function invariants for cubic and hexagonal systems of anisotropic media with coupled stresses
01 p0169 A69-10811

Numerical method for determining group velocity of waves in homogeneous anisotropic medium, using implicit function from dispersion relation
01 p0131 A69-11117

Anisotropic two component plasma relaxation taking into account dynamic shielding collective effects
01 p0134 A69-11419

Menabrea theorem for anisotropic elastic body with internal incompressibility constraint, discussing validity during thermoelastic transformation
02 p0341 A69-12194

Menabrea theorem for nonisothermal transformations of anisotropic elastic body with internal incompressibility constraint and initial stress
02 p0341 A69-12197

Plasma stability under anisotropic pressure in axisymmetric magnetic fields determined by quasi-hydrodynamic approximation
02 p0291 A69-12552

Wave structure for moving load on surface of anisotropic material in plane stress investigated for stable elastic wave propagation
02 p0348 A69-12609

Light-light interaction in homogenous media ascribed to multilevel atomic system simultaneous excitation by both fields
02 p0258 A69-12637

Electrodeless conductivity probe impedance in anisotropic plasma computed on basis of Maxwell equation
03 p0483 A69-14252

Anisotropic nonlinear wave propagation in arbitrarily moving ideal gas, using singular surface/ray combined theories
04 p0630 A69-14532

Stresses and displacements in anisotropic elastic solids under mechanical loading, determining general solution for treatment of time dependent boundary conditions
04 p0675 A69-14595

Electromagnetic wave propagation in uniform anisotropic plasma, considering wave vectors perpendicular to magnetic field
04 p0637 A69-15048

Equation for analyzing radiation produced by current passing through filament situated over anisotropically conducting plane in flat waveguide
05 p0718 A69-15647

Linear theory applied to anisotropic elastic materials, discussing transition from compressible to incompressible elastic materials
05 p0834 A69-15795

Potential functions to solve coupled wave equations for compressible anisotropic plasma with electric and magnetic current sources
05 p0803 A69-16350

Gravitational instability of rotating anisotropic plasma for longitudinal wave propagation mode, obtaining dispersion by using modified Chew-Goldberger-Low equation
05 p0827 A69-16596

Basic equations describing stress-strain state of anisotropic half planes and anisotropic planes with cuts
06 p0120 A69-16827

Stress-strain relations for laminar anisotropic medium from known mechanical properties of layers for application to fiber reinforced plastics
06 p1021 A69-17176

Geometrical optics approximation of Maxwell equations for electrodynamics of inhomogeneous anisotropic media
07 p1076 A69-18519

Anisotropic glass fiber reinforced epoxy resin composite under biaxial and uniaxial loads, noting isochromatics and isoclinics in photoelastic analysis
07 p1170 A69-18715

Sign conventions definition and importance for shear stress and strain analysis in laminated anisotropic composite materials, noting role in studying response
07 p1170 A69-18720

Axial loading of unidirectional composite with hexagonal array of isotropic circular filaments generalized for filament anisotropy, discussing matrix elastic modulus and Poisson ratio
07 p1170 A69-18724

Linearized simple beams and columns theory for anisotropic materials, discussing flexural and extensional effects coupling in tension test
07 p1171 A69-18727

Ray-optical description for point source excited surface waves in stratified anisotropic media
07 p1079 A69-18918

Anisotropic stress analysis of creep in theory of linear viscoelasticity
07 p1234 A69-19381

Scattering and diffraction of plane electromagnetic wave incident on conducting cylinder coated with moving anisotropic medium
07 p1086 A69-19469

Coupled wave equation solution based on spectral resolution for longitudinal components of electric and magnetic fields when source currents are present in compressible anisotropic plasma
08 p1274 A69-20031

Stress fields in Hertzian contact of parallel cylinders composed of anisotropic materials and transversely isotropic spherical bodies
08 p1414 A69-20524

Capacitance and lowest eigenvalue bounds for two dimensional anisotropic media as exemplified by transverse vibrations of stretched membrane
08 p1418 A69-20848

Transversely isotropic elastic solid approximation for oriented fibers of polyethylene, nylon, polyethylene terephthalate and polypropylene, measuring elastic compliances
09 p1528 A69-21504

Singular surface theory combined with ray theory for propagation of weak discontinuities in nonlinear anisotropic media applied to MGD
09 p1547 A69-21613

Plane deformation in nonorthotropic body composed of various anisotropic cylinders with different elastic constants
10 p1799 A69-23156

Electromagnetic wave transmission through anisotropic plasma, discussing incident wave field strength effects near cyclotron frequency
10 p1728 A69-23167

Weakly attenuated components of VLF mode spectrum associated with propagation below anisotropic ionospheres as function of frequency and azimuth
10 p1655 A69-23417

One dimensional nonlinear model of anisotropic plasma instability with respect to Alfvén waves growth, noting applicability to solar wind processes
10 p1741 A69-23961

Varying diameter anisotropic composite shafts torsion based on strain and stress functions
11 p1982 A69-24975

Anisotropic plasma density measurement by launching circularly polarized plane electromagnetic wave at small angles to magnetic field direction
11 p1930 A69-25286

Electromagnetic wave propagation in rectangular waveguide containing uniaxial anisotropic birefringent medium, deriving field equations
11 p1853 A69-25350

Input impedance of quarter wavelength antenna in anisotropic plasma, discussing plasma parameters role and use of probe antenna in plasma diagnostics
12 p2044 A69-27071

Controllable motions of compressible homogeneous isotropic solids, anisotropic solids and fluids with memory under constant body force
12 p2189 A69-27118

Radio wave propagation in anisotropic inhomogeneous medium, obtaining reflection and conversion coefficients and electromagnetic field distribution
13 p2218 A69-27182

Plane wave solution for wave propagation in inhomogeneous anisotropic time-varying media
13 p2219 A69-27397

Atomic and molecular spins dynamic orientation in anisotropic radiation field, examining medium properties and astrophysical consequences
13 p2350 A69-27861

Cerenkov radiation from point charge uniformly moving along external magnetostatic field in warm anisotropic plasma, noting excitation modes and propagation frequencies

13 p2307 A69-27964

Plasma stability under anisotropic pressure in axisymmetric magnetic fields determined by quasi-hydrodynamic approximation

15 p2658 A69-30249

Tissue-type fiberglass reinforced material properties as prototype of continuous anisotropic hereditary elastic media

15 p2642 A69-30584

Resonance cones in angular distribution of short antenna RF electric field in anisotropic plasma noting variation with incident, cyclotron and plasma frequency

15 p2659 A69-30876

Thermal radiation polarization in anisotropic and gyrotropic media described by Hermitian permittivity tensor, noting linearity

15 p2653 A69-30940

Electromagnetic wave propagation in anisotropic inhomogeneous media by geometric optics approximation, obtaining equations for beam trajectories in spherically symmetrical medium

15 p2569 A69-30949

Equation for analyzing radiation produced by current passing through filament situated over anisotropically conducting plane in flat waveguide

16 p2762 A69-32504

Wave propagation and scattering in anisotropic media, obtaining asymptotic expression for dyadic Green function for infinite space

17 p2924 A69-33835

Differential equations as Hamiltonian function for signal path, travel time and frequency variation in anisotropic nonpermanent absorbing medium

17 p2924 A69-33836

Ray methods application to partial differential equations for electromagnetic wave propagation in ionosphere, discussing strongly and weakly anisotropic inhomogeneous plasma

17 p2925 A69-33840

Wave propagation in two dimensional anisotropic media with several perturbation speeds, using Lundquist linear equations ensuring lacunas presence

17 p2925 A69-33841

Electromagnetic beam propagation in anisotropic media, discussing quasi-optical beam divergence

17 p2925 A69-33845

Electromagnetic wave propagation in anisotropic media analyzed for wave packet behavior function, stressing waveguide theories

17 p2926 A69-33847

Diffraction of skew incident plane electromagnetic wave by perfectly conducting right angled wedge embedded in uniaxially anisotropic medium

17 p2930 A69-33889

Plane anisotropic dielectric p-n junction layer waveguide properties, deriving characteristic equations for refraction indices

17 p2983 A69-33971

Electronically tunable lithium niobate optical filter utilizing collinear acousto-optic diffraction in anisotropic medium

17 p2943 A69-34157

Fiberglass reinforced plastics short and long term strength anisotropy, correlating stress and logarithm of time to rupture under tension along different directions

18 p3162 A69-35352

Yield condition of maximum constant distortion strain energy for anisotropic material without incompressibility assumption

18 p3227 A69-35494

Computed and experimental displacement distribution curves compared for anisotropic material concerning creep rate enhancement by small cracks

20 p3620 A69-36965

Radio wave propagation in anisotropic plasma consisting of oxygen ions and protons, deriving expressions for radio wave refractive index

20 p3486 A69-37052

Electromagnetic radiation in moving uniaxially anisotropic medium, obtaining time dependent solutions for oriented magnetic dipole current distribution density

20 p3576 A69-37578

Uniqueness theorems for wave propagation in homogeneous or inhomogeneous anisotropic media

20 p3578 A69-38196

Atomic sources local multipolar field in anisotropic dielectrics determined from magnetic dipole radiation spatial distribution measurements

21 p3779 A69-38531

Asymptotic method applied to nonlinear equations, determining thermal conductivity coefficient for temperature distribution in moving anisotropic media

21 p3848 A69-38642

Stress-strain state of homogeneous anisotropic elastic body under action of internal forces, deriving equations to generalize state

21 p3838 A69-39184

Approximate boundary conditions in electrodynamic of stratified tensor media estimated for ferrite layers

21 p3675 A69-39282

Green matrix for operator M governing steady state wave propagation in inhomogeneous anisotropic media obtained as solution of integral equations system

23 p4180 A69-41368

Radiative heat transfer in nonisothermal absorbing and emitting media without scattering and with anisotropic and isotropic scattering

23 p4239 A69-41632

Semiinverse method involving plane wave expansions to solve elliptical crack expansion and self similar phase transformation in anisotropic solid

24 p4397 A69-42749

ANISOTROPIC PLATES

Equations of linear theory of anisotropic elastic plates including Reissner-Green bending equations

01 p0168 A69-10387

Elastic stability equations solved in geometrical linearization for thin anisotropic plates under transverse shear, using variational method

03 p0525 A69-13130

Elastic equilibrium stress condition of anisotropic plates with circular isotropic inclusions

04 p0667 A69-14264

Soviet handbook on stress analysis of anisotropic three layer reinforced plates and shells and of thick walled cylinders, Volume 2

04 p0683 A69-15500

Piezooptical method applied to anisotropic bodies and reinforced plastics, deriving relation between dielectric tensors and stresses and strains

05 p0837 A69-16038

Stress-strain state of infinite plate with two holes of different diameter solved, using integral equation derived for two dimensional problem in elasticity theory for anisotropic medium

05 p0843 A69-16680

Stability of rectangular transversely isotropic plate hinged at three sides under uniform pressure applied to two opposite hinged sides

06 p1021 A69-17178

Optimal computer calculation procedure for medium thickness anisotropic laminar plates with shear applied to rectangular and hinged plates

06 p1026 A69-18015

Plane anisotropic rectangular plates with various boundary conditions, analyzing stability, natural frequencies, mode shapes and displacement under lateral loads

07 p1232 A69-18719

Unsymmetrically laminated simply supported plates approximate solutions, considering potential energy and reduced stiffness matrix

07 p1232 A69-18725

Linear viscoelastic bending of anisotropic plates based on equation for Voigt plate, considering elliptic and rectangular plates

10 p1793 A69-22881

Reduced modulus of elasticity dependence on form of plane stressed state, assuming initially anisotropic body with transversely isotropic elastic properties

11 p1986 A69-25182

Book on statics and dynamics of anisotropic and heterogeneous elastic structures covering thin heterogeneous anisotropic panels, elastic and sandwich plates, etc

11 p1986 A69-25236

Unsteady temperature field and thermal stresses for anisotropic and orthotropic plates heated by heat sources and having Newton law heat transfer

12 p2177 A69-25992

Clamped edge anisotropic elliptical plate bending under varying loads, assuming torsional rigidity bearing constant ratio to geometric mean of bending rigidities

12 p2180 A69-26269

Critical load for anisotropic right-angled isosceles triangular plate stability with large deflections obtained from differential equation

12 p2180 A69-26270

Simply supported laminated anisotropic rectangular plate with coupling occurring between bending and in-plane extension, discussing stiffness analysis by Fourier series method

12 p2184 A69-26808

Buckling loads for anisotropic fiber reinforced composite plates with strong bending membrane coupling terms

12 p2186 A69-26840

Free vibrations of laminated anisotropic rectangular plates with clamped edges analyzed by Rayleigh-Ritz energy method

13 p2371 A69-28673

Analogy between differential equations for skew isotropic plates and rectangular anisotropic plates

13 p2371 A69-28670

Rolling direction tensile tests of alloy steel plate displaying various fracture configurations over distinct temperature ranges, noting stress state, void formation and anisotropy

[ASME PAPER 68-WA/MET-1]

14 p2464 A69-29440

Elastic anisotropic panels mechanics analyzed using differential equations stressing transverse displacements, anisotropic thermal expansion, shape imperfections and slip deformations

15 p2711 A69-30904

Linear bending theory of elastic anisotropic sandwich plates with strong and weak cores

15 p2713 A69-31025

Bending problem of anisotropic /nonorthotropic/ plates solved by method of small parameter

16 p2875 A69-32294

Anisotropic elastic plate deflection weakened by circular hole with thin elastic ring reinforcement, assuming no load on ring and uniform stress-strain state of plate

17 p3055 A69-33128

Laminated anisotropic plate equations from thin plate theory including nonlinear terms, inertia and thermal stresses

[ASME PAPER 69-APM-15]

18 p3213 A69-34390

Stress conditions of anisotropic plate with soldered in circular isotropic aluminum disk in presence of notches at seam, assuming elastic symmetry of plate

18 p3218 A69-34602

Two dimensional theory for anisotropic plates motion derived, using asymptotic integration of three dimensional elasticity equations

18 p3224 A69-35292

Energy formulation extended for plane anisotropic rectangular plates, handling nonuniform properties and loadings

20 p3627 A69-37766

Buckling loads of homogeneous anisotropic plates of composite materials with simply supported boundary conditions, noting Kirchhoff-Love nondeformable normal hypothesis

20 p3628 A69-37776

Asymptotic integration method of nonlinear elasticity equations for first approximation theory of anisotropic plates moderately large deflections

20 p3630 A69-38129

ANISOTROPIC SHELLS

Boundary value bending problem for anisotropic shells of revolution under asymmetrical loading solved by finite difference technique

01 p0165 A69-10088

Asymptotic integration of three dimensional elasticity equations for thin anisotropic shells and plates, deriving variability exponent of stress under given load

01 p0170 A69-10878

Soviet handbook on stress analysis of anisotropic three layer reinforced plates and shells and of thick walled cylinders, Volume 2

04 p0683 A69-15500

Dynamic response of anisotropic circular cylinders to uniformly distributed pressure varying periodically with time analyzed using Laplace transformation

09 p1611 A69-21440

Bending theory for truncated multilayer anisotropic conical shells, defining relations between displacements and external forces

11 p1984 A69-25141

Anisotropic conical shells free vibrations analyzed by Galerkin and operator-matrix methods, neglecting transverse shear deformation and rotatory inertia effects

16 p2874 A69-32165

Free vibrational characteristics of thin walled circular cylindrical shells with layers of anisotropic elastic material laminated about middle surface

20 p3627 A69-37767

Yield condition and relation between stresses and strain rates for anisotropic body, allowing for influence of stressed state type

22 p3934 A69-41169

Dynamic response of anisotropic elastic cylindrical and spherical shells determined by application of Hankel transforms, considering time dependence of loads
23 p4235 A69-42481

ANISOTROPY

NT ELASTIC ANISOTROPY

NT PLASTIC ANISOTROPY

Weakly interacting neutrinos in anisotropic cosmological models with emphasis on equilibrium period, noting energy increment
01 p0123 A69-10348

Elastic anisotropy and polycrystalline orientations in cold rolled titanium sheets investigated by Fourier series method, discussing Young modulus values
01 p0094 A69-10431

Highly oriented graphite crystallites in pyrographites and composite materials, discussing preparation and anisotropy ratios in physical properties
01 p0102 A69-10978

Electromagnetic wave path emitted by artificial satellites across anisotropic ionosphere due to geomagnetic field determined by computer program
01 p0068 A69-11115

Linear stationary thermoelasticity equations for Cosserat continua, discussing static and kinematic conditions, anisotropy and centrosymmetric isotropy equations
02 p0336 A69-11557

Cosmic ray meson diurnal anisotropies direction calculated on basis of subtracted diurnal vectors
02 p0306 A69-11730

Superconductor energy spectrum gap, discussing temperature dependence, anisotropy, thermodynamic and kinetic properties and relation to Fermi surface and phonon spectrum
03 p0485 A69-13331

Magnetoconductance of nonequilibrium plasmas in indium antimonides, noting anisotropy effect of electric and magnetic field orientation
03 p0486 A69-13463

Anisotropically conducting spiral cone current phase distribution applied to frequency independent antennas analysis, discussing spiral motion and field azimuthal dependence effects
03 p0408 A69-14133

Electrical conductivity anisotropy in isotropic germanium and silicon semiconductors, noting effect of metallic contact insertion
05 p0808 A69-16216

Expansion anisotropy in angular distribution of laser produced plasmas in terms of drifting and expanding sphere model, discussing particle velocities, currents and time integrated counts
05 p0804 A69-16460

Transformation of differential mean and current densities and anisotropy of cosmic ray particles and photons observed in frames of reference relative to each other with isotropic flux
05 p0817 A69-16651

Temperature dependence of Josephson critical current in superconductor model having anisotropic energy gap
05 p0810 A69-16803

Galactic cosmic rays anisotropies due to density gradient perpendicular to ecliptic plane studied, using diurnal and semidiurnal component and intensity deficiency
06 p0990 A69-17289

Anisotropies in Forbush decreases in March 1966, noting dependence on interplanetary magnetic field structure
06 p0990 A69-17290

Variational coefficients for vertical and inclined meson telescopes, deriving primary cosmic rays anisotropy parameters from daily variations
06 p0924 A69-17293

Laser light scattering with orientation saturation of microsystems by electric field, noting application to optical anisotropy of macromolecules and colloidal particles
07 p1149 A69-18900

Soviet monograph on diurnal solar cosmic ray variations from maximum to minimum solar activity, discussing model based on anisotropic particle scattering theory
07 p1209 A69-19500

Relative free energies of crystal zones of tungsten using field electron microscope, determining surface energy anisotropy from Wulff construction
08 p1330 A69-20139

Lipshits-Khalatnikov law applicability to early stages anisotropy of cosmological expansion and relic emission
09 p1593 A69-21568

Cosmic ray anisotropy relation to scattering and sectorial structure of interplanetary magnetic field using neutron monitor data
10 p1758 A69-22834

Forbush effects energy spectra and cosmic ray anisotropy beyond magnetosphere analyzed during solar activity minimum, using data from neutron monitors global network
10 p1758 A69-22835

Ionospheric irregularities drift and anisotropy parameters variation with true reflection height during magnetically disturbed conditions
10 p1659 A69-24062

Three dimensional problem of elasticity for transversely isotropic medium with cylindrical anisotropy, using partial differential equations for unknown functions
11 p1983 A69-25091

Anisotropic fluxes of energetic particles in and near distant trapping region encountered by Explorer 33 satellite in outer magnetosphere
11 p1950 A69-25146

Neutron emission anisotropies in capacitor discharge produced plasma focus, detailing coaxial plasma gun energy spectrum and flux measurement
11 p1930 A69-25321

Calcite crystals stability anisotropy to ruby laser radiation, studying threshold power as function of beam polarization
11 p1900 A69-25553

Magnetic domain structure in supercritical ferromagnetic films with perpendicular anisotropy
12 p2143 A69-26458

Magnetic crystallographic anisotropy of Li-Ga ferrite single crystals at temperature range measured by ferromagnetic resonance techniques
12 p2144 A69-26721

Zeeman laser with one end mirror exhibiting x-y-type loss anisotropy, considering resonance condition for round trip pass and self consistent field equations
13 p2271 A69-27398

Polarization dependent gain saturation and nonlinearity induced anisotropy in He-Ne laser amplifier
14 p2457 A69-28931

Rocket observations of Lyman alpha anisotropic galactic radiation, noting distribution of neutral interstellar hydrogen near sun
14 p2516 A69-28952

Plasma instabilities due to anisotropic velocity distributions computer analyzed to study nonlinear phenomena and validity limits of linear theory
15 p2661 A69-30920

Magnetic anisotropy and porosity from approach to saturation of polycrystalline ferrites based on magnetization measurement
16 p2825 A69-31700

High strength fibers and composite materials for structural design, considering anisotropy and low ultimate tensile strain
16 p2802 A69-32380

Cavity linear phase anisotropy and axial magnetic field effect on single mode Zeeman gas laser
16 p2798 A69-32606

Microwave background anisotropy induced by gravitational effects interpreted using spatially flat Friedmann model for substratum
18 p3190 A69-34286

Cosmic ray diurnal anisotropy variations, correlating component annual means with magnetic activity
18 p3186 A69-34934

Friction coefficient increase caused by metal surface textures anisotropic effect on friction force
18 p3149 A69-35151

Solar cosmic ray anisotropies in terms of model with particles propagating along interplanetary magnetic field undergoing pitch-angle scattering
18 p3189 A69-35400

Source position of cosmic ray diurnal anisotropy relative to ecliptic plane from neutron monitor data at Mawson and Churchill stations
18 p3189 A69-35441

Heat conduction orientation anisotropy in linear amorphous high polymers due to uniaxial stretching, noting molecular weight distribution and temperature effects
19 p3359 A69-36443

Anisotropy of derivatives of transverse velocity fluctuations in grid turbulence subjected to plane deformation, determining dimensionless coefficient
19 p3299 A69-36647

Anisotropy coefficients obtained during annealed Al sheet tests based on stress-strain characteristics, noting fading memory effects
19 p3447 A69-36857

Electrical conductivity anisotropy in isotropic germanium and silicon semiconductors, noting effect of metallic contact insertion
20 p3584 A69-37786

Twenty year wave in diurnal anisotropy component of galactic cosmic rays arriving at earth from asymptotic direction east of sun interpreted as magnetic reconnection
20 p3592 A69-38098

Anisotropy of relativistic cosmic ray electrons, considering electron exposure time to synchrotron effects, energy loss from inverse Compton effect, etc
20 p3593 A69-38145

Magnetic crystallographic anisotropy of Li-Ga ferrite single crystals measured by ferromagnetic resonance techniques
21 p3781 A69-39134

Pitch angle distribution of cosmic ray electrons in decreasing magnetic field for waves in ionized plasma, noting anisotropy due to synchrotron radiation
22 p4006 A69-40642

Cosmic ray anisotropy direction during periodic intervals determination, noting application to event of December 1957
23 p4204 A69-41482

Homogeneous axisymmetric anisotropic cosmological models, analyzing magnetic fields and initial anisotropies effect on 3K radiation and primordial He production
23 p4222 A69-42402

Plasma microinstabilities due to ion and electron anisotropic velocity distributions, considering frequencies near harmonics of ion cyclotron frequency
24 p4355 A69-42686

Solar cosmic ray anisotropy measurement by Explorer 34 satellite during solar flare events
24 p4373 A69-43619

ANNA SATELLITES

Anna 1-B geodetic satellite design, instruments and data acquisition
[UN PAPER 68-96195] 06 p0917 A69-17082

ANNEALING

NT PULSE HEATING

Substructural void formation in tungsten powder metallurgy as function of annealing temperature for doped, undoped and electron beam melted material
01 p0093 A69-10061

Shock loading history effect on solid state response of iron meteorites to annealing at moderate temperatures permits deductions about thermal history
01 p0149 A69-10134

Molybdenum elasticity limit and rupturing stress dependence on structure for high temperature annealing, noting changes in solid solution interstitial impurity concentration
02 p0268 A69-12191

Cold rolling and annealing effects on tensile strength, heat resistance and ductility of sintered Al powder sheets
03 p0452 A69-14121

Nimonic alloys high temperature annealing effect on dislocation structure stability created by thermochemical treatment, using transmission microscopy
04 p0615 A69-14636

Electric field effects on thermal annealing of electron irradiation damage in p-channel MOSFET device
05 p0733 A69-16562

Isochronic annealing effect on coercive force of Mo Permalloy samples bombarded with neutrons in nuclear reactor
05 p0783 A69-16815

Recovery of carrier concentration and lifetime in n- and p-type Si during annealing after irradiation by 10 Mev electrons, noting impurities effects
06 p0974 A69-16865

Neutron irradiated Si transistors radiation and annealing characteristics determined for inverse configuration
06 p0975 A69-16872

Electron irradiation annealing and modification of 35 and 65 K defects in n-type Ge induced by 1 Mev electrons at low temperature
06 p0980 A69-17757

Structural defects in annealed niobium crystals observed by optical microscopy, discussing etch pits
07 p1169 A69-19603

Solution annealing and aging time and temperature effects on precipitation in quenched and aged beryllium
08 p1330 A69-20008

Repeated stepwise annealing process to obtain homogenized InSb-GaSb alloys continuous solid solutions
10 p1745 A69-23331

Annealing temperature of radiation defects in phosphorus doped silicon, discussing isochronal recovery characteristics of solar cells with different donor and oxygen concentrations
10 p1747 A69-24006

Diffusion processes during annealing of metals irradiated by electrons and neutrons, discussing crystal damage, recovery and recrystallization
11 p1891 A69-24800

Annealing effects on cold rolled titanium sheets, noting changes in Young modulus and characteristics of recrystallized titanium
11 p1904 A69-24899

Annealing effects on titanium oxidation kinetics, indicating no relation between oxide formation and diffusion anisotropy of oxygen
12 p2112 A69-26039

Lattice defects in annealed and plastically deformed cobalt, showing increase with increasing martensite transformations
12 p2113 A69-26042

Metallographic study of microstructure recrystallization of 50 Ni-50 Fe alloy during annealing using special etchants and methods
13 p2281 A69-28155

Temperature dependent aging mechanisms in deformed Mo alloys during annealing, using transmission electron microscope
14 p2463 A69-29312

Cold worked high purity Mo wire recovery after plastic deformation at room temperature, considering electrical resistivity decrease as function of annealing temperature
15 p2636 A69-30082

Electrical parameters measurement for homogeneous batches of planar silicon transistors subjected to cobalt 60 gamma rays, considering isochronal and isothermal annealing
15 p2625 A69-30827

In-process annealing and warm working temperature effects on long time creep rupture properties of Mo alloys tested in vacuum furnace
17 p2987 A69-33076

Activation energy of annealing of lattice defects in Au films deposited under irradiation with Au ions
18 p3182 A69-34349

Hydraulically extruded Mo properties after annealing, showing reduction in stability and hardness and varying nature of change in plasticity
18 p3156 A69-34719

Annealing temperature effect on Ni-Ti alloys internal friction, noting peak connected with solid solution grain boundaries
18 p3158 A69-35443

Annealing time effects on creep properties of Ni at various temperatures after work hardening
18 p3159 A69-35445

Annealing effect on transition zone cohesion strength in two layer steel-titanium sheet, investigating role of TiC formation
18 p3159 A69-35450

Bonded solderless solar cell panel prototype withstanding high annealing temperature and thermal shock without electrical or mechanical degradation
19 p3251 A69-35688

Imperfection photoconductivity in electron irradiated Li-doped Si annealed at room temperature, noting level rearrangement in O rich material
19 p3382 A69-35696

Cadmium sulfide solar cells and Kapton coverslides under proton irradiation, noting annealing of damage in samples exposed to air
19 p3253 A69-35705

Recrystallization in thorium dispersed Ni sheet as function of strain-anneal cycles, using electron transmission technique quantitative determination
20 p3557 A69-36958

Abnormal grain growth during secondary recrystallization of hydraulically extruded molybdenum as function of annealing
21 p3745 A69-38953

Dislocation structures in Nb-Ti alloys formed after annealing
21 p3747 A69-39163

Plasticity of tubular steel annealed in vacuum furnace and subjected to complex tension and torsion along deformation trajectories containing salient point
21 p3839 A69-39197

Lithium doped silicon acceptor concentration resulting from electron irradiation damage decreased by annealing at 300 degrees K
23 p4197 A69-41498

Cosmic gamma ray spectra from metagalactic proton-antiproton annihilation
09 p1574 A69-21459

Extragalactic gamma ray fluxes predicted, discussing collisions, matter-antimatter annihilation and cosmological implications
11 p1946 A69-24466

Annihilation gamma ray spectra from equilibrium spectra of secondary galactic positrons
14 p2514 A69-29948

Antimatter meteors detectability, considering annihilation and vaporization in earth atmosphere
17 p3034 A69-33579

Astrophysical ions acceleration model based on magnetic field annihilation theory
22 p3987 A69-41002

Antimatter motion in solar system and earth atmosphere, discussing vaporization and annihilation energy in collisions with interplanetary gas atoms
22 p4034 A69-41100

High energy negative kappa meson-nucleon interactions with respect to multiplicity distribution of charged pions in nucleon-antinucleon annihilation, showing binomial distribution
24 p4351 A69-42791

ANNUAL VARIATIONS

North-south ionospheric drift velocities near magnetic equator, noting marked seasonal characteristics and diurnal variations
01 p0062 A69-10138

Seasonal variation of evening-morning difference in maximum density heights of twilight sodium layer
01 p0063 A69-10275

Night ionosphere electron content changes in Southern Hemisphere, discussing diffusion from exosphere and corpuscular radiation as sources of ionization
01 p0063 A69-10423

Whistler rate and dispersion daily and annual variations derived relative to propagation conditions and magnetospheric behavior over North Italy
01 p0067 A69-11033

Gross behavior patterns of intense sporadic E including seasonal, diurnal and geographic variations and latitudinal and longitudinal effects
01 p0070 A69-11157

Seasonal variations in thickness of ionospheric E-F interlayer region during daylight and maximum integral ionization values
02 p0239 A69-11682

Sporadic E layer critical frequencies seasonal and diurnal periodic variations, noting independence of solar activity cycle
02 p0239 A69-11685

High sensitivity mercury vapor analysis automated to provide continuous monitoring of Hg in atmosphere, discussing winter and summer concentrations
02 p0244 A69-12019

Seasonal mean vertical ozone distributions obtained with electrochemical ozone sondes over southeastern Australia
02 p0276 A69-12696

Refractivity distribution at ground level and at one km over India, correlating surface refractivity with difference, noting seasonal and diurnal variations
03 p0393 A69-13304

Ionospheric midday radio wave absorption as function of geomagnetic latitude, season and solar activity from pulsed vertical radar sounding data
03 p0394 A69-13521

Frequency of cold front passages during year in French part of Switzerland and times of occurrence during day
04 p0628 A69-15089

F region seasonal and magnetic storm behavior from region daily behavior showing global upper atmospheric circulation
05 p0757 A69-16404

Upper atmosphere semiannual density variations, using satellite drag analysis
06 p0918 A69-17380

Semiannual variations in exospheric density near 1100 km derived from Echo 2 orbit, noting phases during solar cycle
06 p0918 A69-17385

Twilight resonance emissions due to atmospheric sodium, lithium and potassium, noting similarity of annual sodium and lithium twilight abundance variations [AFCRL-69-0097]
06 p0918 A69-17494

Seasonal variations in auroral absorption zone position interpreted as consequence of asymmetric shape of magnetosphere
06 p0920 A69-17728

Nighttime equatorial Pi 2 micropulsations, noting seasonal and diurnal distributions and dependence on three hour index of magnetic activity
07 p1125 A69-18841

Long range prediction of zonal westerlies based on lunar cycles or quasi-biennial oscillations, considering aliasing problem
07 p1175 A69-18945

Annual temperature variation in lower tropical stratosphere, noting effect of equatorial upward motion
07 p1126 A69-19043

Tropospheric energy cycle interannual variability and quasi-biennial oscillation from geostrophic computations of eddy kinetic energy, energy transfer and internal redistribution
07 p1129 A69-19628

Seasonal maximum ozone concentration variations, discussing vertical ozone distribution
08 p1307 A69-20260

Mean tropospheric wind vectors periods compared to annual variations of earth rotation and pole latitude
08 p1309 A69-20854

Eleven year cyclicity of geomagnetic activity from Sverdlvsk Observatory data, noting possible relation with structural features of solar activity cycles
09 p1486 A69-21552

Air density at 470 km from orbit of satellite 1966-118 A, confirming large semiannual variation
09 p1488 A69-21659

Power spectral analysis of upper wind data of equatorial lower stratosphere noting quasi-biennial oscillation
09 p1537 A69-22297

Hibernation seasonality, protein synthesis during periodic awakenings and importance of awakenings to maintenance and evolution of thyroid activity
10 p1642 A69-23120

Nighttime ionospheric recombination studies by model reference heights varying diurnally, seasonally and with solar flux and geographic location
10 p1685 A69-23834

Secular variations distribution on earth surface, plotting isopore charts from mean annual values of magnetic elements /1960-1965/
10 p1687 A69-23920

Nonpolar LF latitude variations based on spectroscopic and harmonic analysis of zenith telescope and prismatic astrolabe observations
11 p1956 A69-24401

Statistical rules for seasonal forecasts based on temperature and precipitation deviations analysis in long term climatological records, considering sunspot cycle role
12 p2125 A69-25895

IR radiative temperature changes as function of latitude, season and height in region 30-110 km
12 p2064 A69-26008

Tropospheric zonal wind semiannual oscillations in Southern Hemisphere tropics with westerly maxima and easterly minima in May and November
12 p2064 A69-26011

Semiannual density variations in thermosphere and exosphere as function of mixotape height variations
12 p2064 A69-26012

Satellite 1968-5A orbit analyzed for atmospheric density at 140-180 km, noting semiannual variation
12 p2066 A69-26229

Diurnal and seasonal variations in drift velocity vector of small scale inhomogeneities in F 2 layer ionization
12 p2070 A69-26688

Mean annual characteristics of F 2 layer ionization state, using results of worldwide observation station system
12 p2071 A69-26701

Kelvin waves relation to quasi-biennial oscillation, using zonal wind and temperature variance data taken at Canton Island
13 p2290 A69-27391

Latitudinal and vertical variations in six-month zonal wind cycles in equatorial and tropical stratosphere and lower mesosphere, utilizing rocket observations
13 p2294 A69-27854

Soviet book on temperature regime of free atmosphere above Northern Hemisphere covering aerological data processing, statistical estimates, latitudinal and seasonal variations
13 p2294 A69-27934

Mean seasonal atmospheric and synoptic circulation types examined by criterion for identifying analog types
13 p2295 A69-28652

Seasonal variations in thickness of ionospheric E-F interlayer region during daylight and maximum integral ionization values
13 p2257 A69-28713

ANNIHILATION REACTIONS
NT POSITRON ANNIHILATION

Sporadic E layer critical frequencies seasonal and diurnal periodic variations, noting independence of solar activity cycle

13 p2258 A69-28716

Seasonal variation in ionospheric radiation absorption related to time variation between sunrise and constant angle attainment of sun

14 p2437 A69-29072

Seasonal variations of electron density profiles in lower ionosphere measured by differential absorption using partial reflections

14 p2438 A69-29109

Noon electron densities between 65-90 km from measurements of differential absorption of partial reflections, discussing seasonal variations at midlatitudes

14 p2439 A69-29110

F 2 region small scale inhomogeneities drift observations showing seasonal and diurnal velocity and direction changes

14 p2444 A69-29868

Ozonosphere inhomogeneities from UV spectra of reflected solar radiation, studying latitude dependence of seasonal behavior at different heights

15 p2597 A69-30654

Hydrogen and He ion distribution measurements, noting seasonal and local magnetic time variability

15 p2599 A69-31326

Seasonal and latitudinal models of atmospheric wind and temperature structure between 30 and 120 km altitude

15 p2600 A69-31367

Satellites orbits analysis for semiannual variation of air density in upper atmosphere

15 p2601 A69-31378

Intensity and rotational temperature seasonal variations of hydroxyl emission at different latitudes in upper atmosphere

16 p2775 A69-32081

Noctilucent clouds seasonal frequency, considering meteor shower effects and temperature dependence role

16 p2781 A69-32453

Semiannual variation in amplitude of solar daily quiet geomagnetic variation, discussing sunspot dependence of seasonal secondary minimum and maxima

16 p2782 A69-32459

Eleven year cyclicity of geomagnetic activity from Sverdrlovsk Observatory data, noting possible relation with structural features of solar activity cycles

16 p2784 A69-32547

Ozone vertical distribution variations over India observed by Brewer electrochemical ozonesonde, noting effects of dry and monsoon seasons

16 p2786 A69-32627

Vertical ozone distribution determination discrepancies between Brewer-Mast electrochemical sonde and Umkehr methods, discussing influence of seasonal and diurnal variations

16 p2786 A69-32630

Atmospheric density semiannual variation in thermosphere base, suggesting origin at lower heights in mesosphere or stratosphere

17 p2958 A69-32863

Upper atmospheric gas density and temperature distribution diurnal and seasonal variations calculated from satellites orbiting time changes

17 p2959 A69-32924

Radio waves ionospheric absorption dependence on equivalent frequency, showing marked difference for summer and winter conditions

17 p2918 A69-32927

Zonal winds in temperate latitude analyzed as function of latitude and month from GHOST balloon flights in Southern Hemisphere at 200 mb

17 p2997 A69-33163

Ozone concentration worldwide anomaly above 40 km in annual variations, noting dissimilarity in seasonal maximum and minimum with lower level

17 p2960 A69-33166

E region horizontal drift measurements at Ahmedabad from 1956 to 1966, noting solar activity and seasonal influences

17 p2962 A69-33678

Meteor trail drift radar observations in Kharkov, giving wind velocity diurnal and seasonal variations

17 p3041 A69-33897

Unsteady model taking into account photoionization, neutralization and diffusion, describing electron concentration diurnal and seasonal variations in ionosphere F 2 region at midlatitudes

17 p2966 A69-33978

Annual variations of postsunset altitude peak of equatorial F region noting correlation with solar activity

17 p2966 A69-33983

Ionospheric radio wave absorption measurements by A1 method at 2.2 MHz, showing height estimates of absorption region and winter anomaly

17 p2968 A69-33993

Annual general aviation aircraft accident rate variation related to annual variations in pilot flight training activity

19 p3262 A69-36448

Diurnal and seasonal phase-difference fluctuation measurement of radio waves propagating along ground layer caused by atmospheric turbulence

20 p3485 A69-36971

F 2 layer seasonal anomaly, discussing global distribution observed by network of ionospheric stations

20 p3526 A69-37666

Seasonal anomaly of F 2 layer critical frequency in Northern and Southern Hemispheres during high and low solar activity, discussing geomagnetic effect

20 p3526 A69-37667

Diurnal, seasonal and cyclic altitude and maximum ionization median value variations of undisturbed ionosphere from vertical sounding data obtained at Yakutsk, Siberia

20 p3527 A69-37668

Ionospheric radio wave absorption seasonal and diurnal variations over Tiflis from pulsed ionospheric sounding at 2.2 MHz

20 p3491 A69-37677

Diurnal and seasonal variations of primary atmospheric ions in topside ionosphere correlated with solar zenith angle, using ion mass spectrometer on Explorer 32

20 p3534 A69-38087

Distributions, seasonal variations and ionospheric implications of mesospheric nitric oxide concentration

21 p3703 A69-38364

Seasonal effects on energy expenditure during rest and exercise at controlled ambient temperatures, noting effects on heart rate

22 p3890 A69-40211

Spectral reflectivity curves for Mars light and dark areas and seasonal changes of dark area simulated in laboratory

23 p4209 A69-41319

Annual general aviation accident rate prediction from annual flight training variations

23 p4062 A69-41793

Amplitude and phase maps for annual global variations in atmospheric pressure based on harmonic data analysis, suggesting standing wave type distributions

23 p4185 A69-42493

Mesospheric circulation related to noctilucent cloud data, discussing seasonal variations

24 p4307 A69-42965

Upper atmosphere OH molecules vibrational temperature and total emission energy, measuring average seasonal variations

24 p4308 A69-43007

Nonpolar LF latitude variations based on spectroscopic and harmonic analysis of zenith telescope and prismatic astrolabe observations

24 p4391 A69-43791

ANNULAR FLOW

Tangential velocity profile growth in laminar axial flow through concentric annulus with rotating inner cylinder, using Navier-Stokes equations for prediction

01 p0058 A69-10143

Linear stability of parallel flow in concentric annulus for infinitesimal axisymmetric disturbances

01 p0061 A69-11201

Thin rigid radial wall effect on convective flow in heated rotating annulus

02 p0275 A69-12013

Second normal stress difference measurement by annular flows, giving approximate method for experimental data inversion

02 p0234 A69-12604

Thermal convection in rotating fluid annulus, discussing suppression of frictional constraint on lateral boundary

03 p0460 A69-13339

Gas flow rate predictions for long and short tubes and annuli and at densities between laminar continuum and free molecular regimes

[ASME PAPER 68-WA/PID-5]

05 p0750 A69-16166

Radial distribution of azimuthally averaged temperature and amplitude vacillation characteristics in rotating differentially heated fluid annulus determined by multiprobe technique

07 p1126 A69-19040

Corrected stability limit for Poiseuille flow in pipes, annuli and channels, discussing flow between cylinders

07 p1121 A69-19475

Semilogarithmic law of velocity and temperature for turbulent flow in circular channel, examining analogy between momentum and energy transfer

08 p1420 A69-19877

Stability of inviscid swirling flow with finite axial velocity components and nonvanishing radial density gradients, noting criterion for infinitesimal disturbances

08 p1305 A69-20851

Natural convective oscillatory three dimensional flow in cylindrical annuli, describing inception, amplitude, period and wavelength

09 p1481 A69-21902

Differential equation for laminar flow of nonNewtonian fluid in annulus with porous walls of nonuniform permeability, considering inelastic and suction Reynolds numbers

10 p1680 A69-23690

Reduction of noise from underexpanded axisymmetric jet flows using radial jet flow impingement

[AIAA PAPER 68-81]

13 p2248 A69-28212

One dimensional viscous magnetofluidynamic flow in annulus formed by concentric cylindrical electrodes, reducing problem to linear partial differential equation set

[AIAA PAPER 69-725]

17 p3012 A69-33493

Turbomachinery aerodynamics, discussing secondary flow in blading and digital computer applications to annulus flow field

18 p3086 A69-34925

Flow characteristics and wall heat transfer in separated flow region of annular cavity at free stream hypersonic speed and high gas temperature

[AIAA PAPER 68-672]

20 p3458 A69-37185

Slip ratios in annular two phase flow for case of laminar flow in film and no entrainment of liquid in vapor

[ASME PAPER 69-FE-43]

20 p3517 A69-37995

Density field surrounding leaking circular hatch of spacecraft treated as free molecular flow from annulus, superposing far field of effusive orifice flow

21 p3695 A69-39035

ANNULAR JETS

U JET FLOW

ANNULAR PLATES

Annular plate clamped at inner and outer boundaries and subject to point load, computing deflection

04 p0676 A69-14725

Axisymmetric problems in thermoviscous plasticity, discussing stress-strain state of annular disks and thick walled cylinders made of rate sensitive materials

10 p1802 A69-24025

Limit loads for circular and annular plates of smoothly varying profile under uniformly distributed transverse loads

11 p1982 A69-24946

Rigid plastic circular and annular plates dynamics taking into account yield point dependence on strain rate

12 p2177 A69-25994

Stress-strain state of circular annular plate with varying thickness subjected to concentrated axisymmetric load and shearing force applied to internal perimeter

13 p2369 A69-28563

Rigid supporting ribs effect on annular plate critical loading, stability loss and buckling

14 p2533 A69-28983

Stress-strain state determination for axisymmetric shells applied to design of circular/annular plates and rotating disks

17 p3057 A69-33194

Critical loads and stability loss forms of annular plates flexibly clamped at edges in uniform stress field

17 p3057 A69-33197

Ponderable annular region under symmetrically applied concentrated forces, obtaining solution for stress state by successive approximations

18 p3216 A69-34577

Stability loss nonaxisymmetric distribution in elastic annular plates under axisymmetric heating, using Ritz method to determine critical temperature

20 p3623 A69-37327

One dimensional numerical solution for steady state thermal behavior of trapezoidal profile annular fins transferring heat by conduction and radiation

[ASME PAPER 69-HT-6]

24 p4413 A69-43553

ANNULI

He/Ne ratio effect on performance of He-Ne laser in annular cavity

04 p0612 A69-15176

Velocity fields and wall shear stress distributions in eccentric annuli

[ASME PAPER 68-WA/FE-35]

05 p0750 A69-16108

- Wave motion onset and waveforms in rotating annulus with sinusoidally varying temperature differences
07 p1126 A69-19039
- Radial liquid flow between flat annular rings /face seals/, discussing film cavitation
13 p2267 A69-27365
- He/Ne ratio effect on performance of He-Ne laser in annular cavity
18 p3152 A69-34718
- Michell type optimum fiber arrangement for transferring torque across annulus, considering single straight, double and multiple annular arrays under single load system
19 p3447 A69-36851

ANODES

NT CELL ANODES

- Electron flow in stable negative electrostatic potential well produced by electronic injection at center of hollow open spherical anode
03 p0475 A69-13153
- Electrochemical oxidation of n-octane based fuels containing aromatic, olefinic and naphthenic components [ACS PAPER 93]
05 p0716 A69-16234
- Long term electrochemical oxidation performance of n-octane based fuels containing aromatic, olefinic and naphthenic components [ACS PAPER 94]
05 p0716 A69-16235
- Segmented anode current and heat distribution in MPD engine measured with current shunts and calorimetric methods [AIAA PAPER 69-244]
09 p1566 A69-21260
- Platinum based metal binary catalysts as anodes for hydrogen/carbon monoxide fuel mixtures oxidation, discussing alloy surface chemisorption of CO
12 p2026 A69-25937
- Thermionic converter cathode and anode temperatures difference during start-up heating and under normal operational conditions
14 p2400 A69-29226
- Mode transition characteristics of free burning argon electric arc with transpiration cooled anode, noting current blowing parameter [AIAA PAPER 69-696]
17 p3011 A69-33451
- Anode fall measurements with Langmuir probe in coaxial arcs in Ar compared with anode energy balance values
24 p4256 A69-43695

ANODIC COATINGS

- Anodizing effect on flexural properties of Al-aluminum oxide sandwich composites, emphasizing properties of oxide coatings as function of thickness
07 p1159 A69-18723
- Anodic Al oxide films mechanical and fracture properties, studying roles of environmental water vapor and film thickness [ECS PAPER 81]
22 p3973 A69-40736

ANODIZING

- N-type Si surface photopotential, conductivity and capacitance during anodic oxidation in absolute ethylene glycol
04 p0643 A69-15260
- Voltage drop measurement across plasma anodized germanium film to determine anodization constant
10 p1742 A69-24004
- Austenitic stainless steels nonreproducible passivating tendencies, determining electrochemical and corrosion characteristics, discussing critical anodic current density role
20 p3562 A69-37750

ANOMALIES

U ABNORMALITIES

ANOXIA

- Anoxia effect on succinic dehydrogenase and lactic dehydrogenase activities in digestive glands and organs sensitive to oxygen tension changes
22 p3887 A69-41193
- Anoxia effects on leucine-super 3 H incorporation by submandibular gland cells of neonatal rats, discussing cytoplasmic proteins synthesis impairment
22 p3887 A69-41195

ANTARCTIC REGIONS

- Ion formation rate in F 2 layer in southern polar cap, noting effect of season, latitude and solar activity
02 p0238 A69-11679
- Antarctic spread F irregularities, examining models and performing ray tracing
04 p0595 A69-15439
- Albedo over Antarctica, measuring solar radiation reflected by surface and atmosphere by Eppley radiometer
09 p1484 A69-21404

Irregular regions in Antarctic ionosphere from Polar Ionosphere Beacon Satellite S-66 recordings, obtaining irregularities density from nulls clarity
09 p1490 A69-21716

Graphs of ionospheric measurements by vertical incidence sounding during Antarctic expedition, describing instrumentation and sounding techniques
10 p1681 A69-23315

Gustaffson pattern for variations in position of quiet homogeneous arcs, noting diurnal variations from visual observations at antarctic station
12 p2073 A69-26951

Ion formation rate in F 2 layer in southern polar cap noting effect of season, latitude and solar activity
13 p2257 A69-28710

Solar flare effect on polar chorus variation determined by comparing Antarctica VLF data with low latitude magnetograms
14 p2514 A69-29385

H alpha line emission preceding auroral breakup by data analysis of Antarctica Meinel-type patrol spectrograph, noting magnetic activity role
14 p2441 A69-29386

Similarity and correlation methods for drift of ionospheric inhomogeneities in Antarctica
14 p2444 A69-29867

Sterile soil from Antarctica found to contain organic carbon, noting significance for biological exploration of Mars
16 p2746 A69-31552

Polar Ionosphere Beacon Satellite S-66 signals measured for large scale horizontal gradients in total electron content of Antarctic ionosphere at sunspot minimum and maximum
16 p2774 A69-31989

Ionization troughs below F 2 layer maximum due to ionospheric disturbances detected by Antarctica ionograms direction of arrival data
16 p2775 A69-32080

Irregularities distribution in antarctic ionosphere from polarization angle fluctuations of satellite S-66 radio signals, discussing diurnal magnetic and solar cycle effects
18 p3125 A69-34249

Antarctic VLF emissions observations at 12 kHz, showing dependence on geomagnetic disturbances, auroras and radio absorption in ionosphere
18 p3102 A69-34964

Antarctic VLF emissions polarization and direction determination, using combination of antennas with planes lying in geomagnetic E-W and N-S directions
18 p3102 A69-34965

Solar protons intensity increase observed by balloon-borne instruments over Antarctica, describing decay phases
20 p3589 A69-37556

Balloon-borne instrument for auroral X ray measurements at Antarctic station, discussing design requirements, circuit characteristics and improvement recommendations
23 p4166 A69-42011

ANTARCTICA

U ANTARCTIC REGIONS

ANTENNA ARRAYS

- NT ENDFIRE ARRAYS
- NT INERTIALESS STEERABLE ANTENNAS
- NT LINEAR ARRAYS
- NT STEERABLE ANTENNAS
- NT YAGI ANTENNAS

Nomograph for planning circular planar aperture antenna arrays, discussing element totalling and spacing, layout geometry, sidelobe suppression and scan loss from broadside
01 p0037 A69-10017

Planar arrays of linear antennas above stratified medium, showing antenna impedance and current distribution expressed in terms for free space environment
01 p0042 A69-10343

Antenna performance optimization, considering gain dependence on diameter, feed, tolerances, noise temperature, etc [UN PAPER 68-95813]
01 p0043 A69-10517

Tropospheric structure studied with high resolution antennas having small common volume
01 p0043 A69-10560

Dipole array antenna radiation pattern, gain and beamwidth as function of number of dipoles, noting case for main beam scanning
01 p0046 A69-10737

Specular component of ionospherically reflected radio waves between antenna array elements measured for statistical variations
01 p0032 A69-10968

Digital matched filtering technique for RF interferometer employing carrier modulated by pseudonoise sequence, discussing applications to antenna arrays
01 p0048 A69-11003

Low polarization error HF loop antenna array direction finder performance tests, comparing measured bearings with polarimeter and conventional crossed loops data
01 p0048 A69-11006

Phase, frequency and amplitude scanning, noting array design and applications
01 p0049 A69-11348

Phased array radar antennas emphasizing beam steering of transmitting linear array with number of phase shifters
01 p0049 A69-11390

Fourier transformation method for current distribution and driving point admittance of coupled antennas in dissipative medium
02 p0215 A69-11946

Radio telescope for Owens Valley Radio Observatory, noting interferometer array of steerable antennas and signal wavelength influence on telescope reflector accuracy
02 p0229 A69-11974

Technique for combining large numbers of solid state energy sources by using dense array of radiating elements
02 p0217 A69-12148

Reflected and transmitted radiation fields for dielectric loaded infinite phased array of parallel plate waveguides as function of scan angle
02 p0218 A69-12326

Helical log periodic and log periodic dipole arrays impedance and radiation patterns measurements have similar characteristics
02 p0219 A69-12337

Dynamic programming application to synthesis of unequally spaced symmetrical antenna arrays
02 p0219 A69-12338

Legendre polynomial description of radiation pattern of group of radiators, discussing design of linear radiators
02 p0209 A69-12341

96 element wide band scanning array measurements, considering array simulators usability at frequencies above operating frequencies
02 p0219 A69-12343

Retrodirective antenna array with switched Butler matrix feed
02 p0223 A69-12813

Subsurface radio propagation experiments determining feasibility of communication between vertical linear antennas located in drill holes and similar antennas on surface
03 p0395 A69-13622

Electrically small beamed receiving arrays in HF band and random noise
03 p0398 A69-13904

Current distribution in scanning rectangular array with all-directional constant sidelobe and narrowest beamwidth
04 p0570 A69-14302

Directivity and beamwidth determination of large scanning Dolph-Chebyshev arrays
04 p0570 A69-14303

Nonorthogonal beam steering commands for multielement two dimensional phased array antenna
04 p0570 A69-14305

Granularity of beam positions in digital phased arrays based on method of moments and phase distribution
04 p0570 A69-14306

Triangular lattice arrays radiation characteristics similarity to linear tapered arrays, noting sidelobe level
04 p0570 A69-14308

Planar array multiple beam generation and position determination using N-port Butler matrices
04 p0570 A69-14309

Complex power radiated by infinite planar array antenna, noting aperture field distribution influence on formula applicability
04 p0571 A69-14311

Impedance matching of volumetrically scanned waveguide arrays, stressing element spacing, surface wave impedance, etc
04 p0571 A69-14312

Linearly polarized waveguide phased array design, noting waveguide aperture size effect on admittance and minimization of zero radiation directions
04 p0571 A69-14313

Infinite phased dipole array, discussing integral equation, current distributions and active admittances
04 p0571 A69-14316

Phased array antenna radiator element design, emphasizing configuration selection and reflection loss for beam steering

04 p0572 A69-14321

Reflection coefficients of edge and center elements of large periodic two dimensional antenna array, noting TEM mode parallel plate horn arrays

04 p0572 A69-14322

Electronic scanning antenna system consisting of ceramic rod linear array, power distributor, electronic ferrite phase shift feed and driver

04 p0572 A69-14327

Two dimensional electronically scanned k-band phased array antenna design and performance, discussing radiometric system

04 p0572 A69-14328

Butler matrix-fed circular array for continuous 360 degree beam scanning

04 p0573 A69-14329

Radiation properties of spherical phased array of 16 flat spiral antennas and radiation field polarization characteristics

04 p0573 A69-14331

Book on cylindrical dipole arrays covering theory and programs for computational analysis and design with desired characteristics

04 p0574 A69-14353

Current antenna system technology, particularly airborne and spaceborne applications

04 p0576 A69-14767

Asymptotic estimates of radiation patterns of nonequidistant antenna array represented in integral form

04 p0576 A69-14772

Radiation pattern of linear phased antenna array calculated during commutated scanning

04 p0577 A69-14785

Corrugated impedance antennas synthesized, using model in impedance surface form

04 p0577 A69-14786

Electronic counterrotating antennas, developing turning model of antenna group of telecommunications satellite

04 p0578 A69-15065

Mathematical models relating gain, cost, diameter, frequency and rms surface tolerance of ground antennas for exposed and radome enclosed parabolic reflectors

04 p0561 A69-15449

Electronically scanned X band array used as receiving antenna for target recognition radar

04 p0562 A69-15476

Multielement antenna array radiators interaction taking into account edge effects

05 p0727 A69-15638

Directive gain optimization of antenna array during 90 degree radiation deflection

05 p0728 A69-15652

Commutation antenna arrays with arbitrary amplitude distribution, considering phase error effect

05 p0729 A69-16082

Ionospheric drift measurements made on adjacent antenna arrays during IQSY

05 p0757 A69-16409

Synthesized aperture method of measuring antenna gain and radiation patterns

06 p0894 A69-17452

Gunn effect pulse generator for antenna arrays operating at decimeter wavelengths with external power source

06 p0895 A69-17459

Slope optimization of antenna array difference radiation patterns coinciding with antenna directive gains

06 p0895 A69-17461

Synthesis of optimum linear antenna using algorithm

06 p0897 A69-17543

Circular antenna array consisting of identical center fed cylindrical dipoles placed tangential to and in plane of circle and with equal spacing

06 p0898 A69-17765

Multiring antenna arrays for space telemetry and communication, analyzing distant field, radiation resistance, directive gain and mutual impedance

06 p0899 A69-17827

Antenna transmission and receiving system effects on radio brightness temperature measurements by airborne equipment

06 p0929 A69-18000

Satellite communications antenna system at Fucino earth station, describing transmitting and receiving equipment, facilities, power supply, etc

07 p1075 A69-18493

Reflected radio wave amplitude distributions related to distributions of curvature at reflector

07 p1086 A69-19225

Cylindrical antenna in uniaxial resonant plasmas, calculating current distribution and input admittance on basis of Wiener-Hopf technique

07 p1107 A69-19227

Large aperture low noise aerial design for satellite communication earth stations, discussing expected performance of 85-ft antenna at 4 GHz

08 p1279 A69-19956

High gain-temperature ratios aerials design by radio modeling techniques for horn and planar antennas, prime feed paraboloids and Cassegrain systems

08 p1279 A69-19961

Backfire log periodic cavity-backed slot array, giving H plane power patterns with near field plots along array

08 p1281 A69-20035

Radiation pattern synthesis of circular arrays with many directive elements, deriving required excitations without matrix inversion for design purposes

08 p1282 A69-20036

Capacitance and effective height for VLF umbrella antennas using multiple wire structural members to increase effective antenna surface area

08 p1282 A69-20041

Current distribution of long thin cylindrical antenna driven at arbitrary point along length

08 p1282 A69-20043

TV transmission antenna radiation patterns measured with helicopter flown equipment and Decca navigation equipment

08 p1274 A69-20130

Wavefront Wilkins-Minnis, null selection and elevation scanning techniques for measuring radio signals elevation angles with vertical antenna arrays

08 p1275 A69-20293

Focusing effect on far field directional pattern shifting of array normal, noting electronic scanning properties

08 p1285 A69-20400

Radio interferometer antenna array spatial characteristics obtained as function of geographical coordinates of site for reducing observation errors

08 p1314 A69-20434

Center feed system for broadening frequency bandwidth in X-band edge slotted waveguide array antenna

08 p1286 A69-20836

Signal processing arrays - Conference, Dusseldorf, July 1966

08 p1287 A69-20957

Literature survey and critique of signal processing arrays, discussing synthetic, self phasing, retrodirective correlation and decision theoretic arrays

08 p1287 A69-20958

Signal processing arrays characterized by Fourier series radiation sources, time gating and signal smoothing by narrow band filtering

08 p1287 A69-20959

Wullenweber arrays with extended frequency ranges, discussing design considerations and performance characteristics

08 p1288 A69-20962

Broadband steerable arrays design, describing Wullenweber array with doublet aerials yielding good radiation patterns and low cost construction

08 p1288 A69-20963

Electronic beam-rotation systems operation using matrix network to feed circular arrays, noting applicability to direction finding or radar systems

08 p1288 A69-20964

Broadband multibeam antenna array with frequency independent beam directions, noting aperture gain limitation

08 p1288 A69-20965

X band eight element matrix array construction, producing antenna suitable for aircraft

08 p1288 A69-20966

Self focusing aerial antenna arrays with full angular coverage for two way airborne communications

08 p1288 A69-20971

Hemispherical scanning with small aperture monopoles, spirals, scimitars and wire antennas, discussing various types for multiple beam operations

08 p1290 A69-20973

Active microwave scattering antenna arrays at super-high frequencies, noting low bias power requirement

08 p1290 A69-20975

Space frequency filter antennas, using multiple terminals for signal processing as function of frequency and angle

08 p1290 A69-20977

Maxson multibeam antenna design for noninteracting beams, considering beam shapes and positions and applications

09 p1463 A69-21676

UHF telemetry conversion program at Pacific Missile Range, describing antenna, receive- record and separation display systems

09 p1454 A69-21800

Scattering matrix for pattern forming circuit for multiple beam antenna arrays with interacting elements, noting orthogonal pattern optimization

09 p1469 A69-22627

Ionospheric movements from sampling radio diffraction pattern at 89 points and conversion into visible pattern

09 p1492 A69-22756

Pseudodynamic programming for optimizing design of correlator supersynthesis antenna arrays used for radio source tracking

10 p1663 A69-23420

Waveguides mutual coupling in finite antenna arrays analyzed by integral equation method, noting coupling decrease correlation with wavelength and waveguides distance

10 p1663 A69-23421

Multipath fading reduction on line of sight microwave radio relay links by dual space diversity, noting effects of vertical antenna separation, frequency, etc [IEEE PAPER 68-TP-350-COM]

10 p1656 A69-23535

Antenna for lunar occultation observations at 81.5 MHz, detailing experimental procedure and data reduction

10 p1779 A69-23606

Resolving power increase in multibeam antenna, discussing signal demodulation through incident field breakdown

10 p1664 A69-23797

Antenna point and astigmatic sources due to phase centers and phase diagrams relations and antenna caustic curves

10 p1664 A69-23798

Scanning antenna array design utilizing element coupling and telescope type cylindrical optical system

10 p1664 A69-23800

Signal processing method for achievement of very rapid space scanning with antenna array noting application to radar system

10 p1657 A69-23801

Radiation field of log periodic dipole array calculated as function of observation point and dipole currents

10 p1664 A69-23802

Antenna array statistical synthesis, investigating signal detection capacity for large phase fluctuations

11 p1833 A69-24439

Antenna array models with different emitters to investigate characteristics of radiation patterns in near and far fields

11 p1844 A69-24451

Log periodic dipole array antennas simulated with simple RLC circuit loading uniform transmission line

11 p1850 A69-24977

Nested rhombic antenna spacing determined by measuring mutual coupling and interacting effect on radiation patterns

11 p1850 A69-24979

Self steered retrodirective antenna arrays with phase synthesizer, combining signals from individual elements at LF levels

11 p1850 A69-24983

Radiating collinear open ended waveguides and near field coupling analyzed using simultaneous integral equations and Fourier series expansion of aperture field

11 p1850 A69-24984

Vertical parabolic antenna array and receiving system for S band transhorizon signal phase and amplitude measurement

11 p1851 A69-24987

Slow waves contribution to image radiation from array of line sources above ground plane, determining optimum height of lowest element of array

11 p1837 A69-25002

Electrical servopositioning of telemetry reception antenna for tracking satellites, considering weight, stability, etc

11 p1852 A69-25118

Current distribution on elements of circular arrays of tangential dipoles, discussing large odd component in zeroth order approximation

11 p1853 A69-25318

Thinned arrays design based on array excitation autocorrelation function, considering element spacing

11 p1856 A69-25661

Constant amplitude current excitations superposed on uniformly spaced array for sidelobe reduction, comparing results to Chebyshev arrays
12 p2040 A69-26473

Antenna suspension height variation effects on HF signals in ionospheric scattering lines
12 p2032 A69-26705

Aesthetic preservation of visual amenities in countryside by proper antenna design without affecting performance or cost
12 p2044 A69-26924

Antenna circular array for synchronous communications satellites, discussing directional patterns, super-gain ratio, element spacing, etc
13 p2225 A69-27184

Antenna cross dipole array for vehicle tracking in VHF band, obtaining effect of local rotation by electrical phase shifting
13 p2226 A69-27185

Multiple beam HF receiving antenna system for directivity, azimuthal coverage and noise limitation
13 p2228 A69-27631

Radio emission of atmospheric cosmic ray showers observed with multiple wideband half wave dipole antenna system, obtaining radiation spatial distribution
13 p2332 A69-28407

Admittance of radiating elements in circular array with longitudinal slots on conducting cylinder, taking into account element interactions
13 p2234 A69-28505

Passive magnetic elements array calculation for radiation pattern, discussing emitter position
13 p2235 A69-28513

Antenna system synthesis for amplitude distribution along linear emitter, considering radiation patterns
13 p2235 A69-28521

Current distribution along linear antenna array taking into account interaction between neighboring elements and effect on antenna radiation characteristics
13 p2236 A69-28572

Stepped scanned ring monopulse array, discussing pattern analysis, directivity, co-phased and quasi-phased model
14 p2419 A69-28894

High resolution azimuth and elevation arrays sensing remote ionosphere and sea surface characteristics, discussing backscatter data for ionosphere and sea scatter
14 p2448 A69-29520

Two antenna radio direction finding system statistical synthesis, using quadratic linear process
15 p2562 A69-30110

Signal reflection elimination from underlying surface during aircraft flights by using two antenna array with identical radiation patterns
15 p2567 A69-30345

Orthonormalized partial radiation patterns for antenna array of N emitters developed by introducing scattering matrix
15 p2579 A69-30951

Three antenna interferometer angle measurement accuracy dependent on antenna spacing, deriving optimal spacing value
16 p2758 A69-31730

Multielement antenna array radiators interaction taking into account edge effects
16 p2762 A69-32496

Directive gain optimization of antenna array during 90 degree radiation deflection
16 p2762 A69-32509

Vertically polarized log periodic antenna consisting of unipole vertical radiators with side radiators for achieving minimum size
16 p2763 A69-32580

Antenna systems design for ISIS-A scientific satellite, discussing antenna array of 13 radiators for telemetry, command, beacon and experimental purposes
17 p2918 A69-33030

Antenna array construction for reception of weather satellite transmissions, noting automatic picture transmission systems/APT/
17 p2946 A69-33767

Seven helix antenna array components and operation mode at Berlin weather station, including biaxial rotator, preamplifier servoamplifier and VHF telemetry receiver
17 p2946 A69-33768

Driving point admittance of radiating aperture in infinite periodic phased array, determining Floquet series and coefficients of waveguide modal expansion
17 p2938 A69-33876

Van Atta array reflector retrograde effect, studying influence of transmission line length, interelement

spacing and line-dipole matching on incident reflected radiation phase correlation
17 p2929 A69-33878

Directional transmitting and receiving antenna arrays for short wave meteor studies in Kharkov
17 p2939 A69-33903

Phased arrays applied to inertialess electronic steering of satellite antennas, discussing digitally steered, retrodirective and hybrid matrix arrays
17 p2942 A69-34083

Mathematical model of fields reradiated by Huygen sources in front of array for glide path site analysis
17 p3003 A69-34107

Minimum weight design of tiltable enclosed antenna structure as subject to deformation constraints
18 p3211 A69-34341

Digital computer controlled antenna positioning system computing spacecraft tracking trajectory from given parameter input set
19 p3267 A69-35997

Backfire antenna radiation characteristics and physical dimensions for tracking and telemetry applications, including five element array model
19 p3271 A69-36251

Gain measurement of two element phased array aperture antenna during ATS-C tracking
19 p3272 A69-36254

Radio wave information transmission, discussing propagation in various media, antenna arrays, diffraction, scattering, plasmas, guided waves and periodic structures
19 p3276 A69-36431

Beam shape loss /BSL/ for electronically steerable array in search mode, determining optimum search beam locations from BSL computations
20 p3506 A69-37717

Analysis theory of shaped beam doubly curved reflector antenna, computing far field patterns by determining current density distribution on nonanalytic surface
20 p3506 A69-37835

T shaped radio astronomical array, discussing time sharing technique providing simultaneous observation capability and merits of T and cross configuration telescopes
20 p3507 A69-37837

Active admittance, realized gain and linear polarization degradation vs scan angle for infinite periodic phased arrays of circular apertures
20 p3507 A69-37844

Parallel wire antenna array design for specified pattern using matrix methods and method of moments for self and mutual impedances and required excitations
20 p3507 A69-37847

Synthesized aperture method of measuring antenna gain and radiation patterns
20 p3508 A69-37937

Gunn effect pulse generator for antenna arrays operating at decimeter wavelengths with external power source
20 p3508 A69-37942

Slope optimization of antenna array difference radiation patterns coinciding with antenna directive gains
20 p3508 A69-37944

Soviet book on antenna synthesis theory for application to antenna radiation patterns with allowance for Fourier transforms limitations
20 p3508 A69-38208

Antenna arrays subject to random excitation error analyzed by probability theory, noting relationship between antenna pattern and excitation distribution parameters
21 p3681 A69-38742

Antenna synthesis problems in mathematical physics, discussing radiation pattern, shape and source and optimal solution via operators spectral theory
21 p3682 A69-39124

Synthesis by differential equation technique for linear antenna arrays of identical radiators radiation patterns
21 p3682 A69-39125

Mutual impedances of radiators in periodic and doubly periodic rod antenna arrays with orthogonal harmonics current distribution, noting diffraction theory applications
21 p3682 A69-39126

Deployable cross log periodic dipole /LPD/ array on conducting cone as potential application to spacecraft or missile requiring frequency independence in VHF-UHF band
22 p3913 A69-40693

Prolate spheroidal antennas operation in isotropic plasmas, studying effects of collision frequency, elec-

tron temperature and antenna length on admittance, radiation and current distribution
22 p3914 A69-40702

Circular and spherical antenna arrays elements random distribution in three dimensional space using Monte Carlo method, considering arbitrary excitation and nonisotropic elements
22 p3914 A69-40704

Spacecraft phase array designed for use on synchronous communication satellite, discussing low structural weight packaging and unfurling problems and helix approach
22 p3915 A69-40705

Circular antenna arrays radiation pattern synthesis in moving medium relative to main beam, noting medium motion influence on pattern changes
22 p3915 A69-40706

Aperture efficiency, weight and control power requirements for hybrid matrix arrays in synchronous satellite applications, calculating residual array gains
22 p3915 A69-40707

Microwave power transmission to high or low altitude balloon systems for stationkeeping, describing flexible diode array rectifier antenna
22 p3870 A69-40809

Antenna array synthesis optimization for limited deviations of source distribution function from prescribed function
22 p3916 A69-40952

Antennas aperture radiation patterns optimal interpolation synthesis permitting confident control of main lobe shape
22 p3916 A69-40953

Redirection of time varying signal between specified points by arbitrarily spaced antenna array elements with condition involving time delays for validity of retrodirection
23 p4136 A69-41580

Kirchhoff equations for synthesis of passive dipole arrays, obtaining best approximation to radiation patterns
23 p4138 A69-41935

Synthesis of antenna arrays of longitudinal passive slot radiators on metallic cylinder excited by single active slot, including experimental patterns
23 p4138 A69-41936

Array aperture amplitude and phase distortions effect on radiation field uniformity
23 p4138 A69-41940

Electromagnetic wave diffraction normally incident on symmetrical five element metallic array
23 p4123 A69-42029

Linearly polarized electromagnetic wave diffraction during oblique incidence on crossed strip arrays, describing crossing angle effects on reflection, transmission and polarization conversion coefficients
23 p4124 A69-42030

Dispersion and resonant properties of electromagnetic waves propagating along plane metallic strip array with shield and dielectric
23 p4124 A69-42038

High sensitivity communication system design consisting of radome enclosed steerable antenna, 500 kw transmitter and microwave configuration compatible with low noise receivers
23 p4149 A69-42131

Antenna arrays for radio astronomy in meter-wavelength region including cross-polarized rhombics, steerable broadside collinear array and radio interferometer
23 p4143 A69-42353

Antenna design, based on helical beam radiator data, providing checking facility giving automatic alarm
24 p4312 A69-42573

Ground antenna array for ionospheric physics experiments, consisting of wire dipoles connected to receive circular or linear polarization
24 p4286 A69-42607

SNR improvement by antenna array optimization
24 p4287 A69-43140

Asymmetric metal flanges effect on beam tilt of aperture antennas
24 p4288 A69-43765

ANTENNA COUPLERS
NT COUPLING CIRCUITS

Asymptotic decay of coupling for infinite phased arrays proved valid for infinite parallel linear plate array immersed in magnetized cold plasma
04 p0571 A69-14314

Equivalent network representation of feedthrough lens array taking into account mutual coupling between elements to predict performance characteristics
08 p1280 A69-20014

Coupling between array antennas shown to reduce reflecting properties of Van Atta reflector consisting of linear half wave dipoles
08 p1282 A69-20037

Waveguides mutual coupling in finite antenna arrays analyzed by integral equation method, noting coupling decrease correlation with wavelength and waveguides distance
10 p1663 A69-23421

Scanning antenna array design utilizing element coupling and telescope type cylindrical optical system
10 p1664 A69-23800

Nested rhombic antenna spacing determined by measuring mutual coupling and interacting effect on radiation patterns
11 p1850 A69-24979

Synthesis for asymmetrical branch guide directional coupler-impedance transformers, noting application in antenna design
13 p2233 A69-28069

Interrelations among mutual coupling, element efficiency, active impedance and radiation patterns in linear arrays derived from infinite order difference equation
17 p2929 A69-33874

OGO 5 spacecraft detector instrumentation for measuring electrostatic and electromagnetic waves electric fields with coupled antennas, describing in-flight operation
19 p3315 A69-36683

Asymptotic approximation formulas to compute on-axis Fresnel region fields for coupling between two large aperture antennas
23 p4136 A69-41582

Directional couplers applied to excitation of non-protruding surface wave antennas, examining ridge slot system
23 p4139 A69-41946

ANTENNA FEEDS

Retrodirective antenna array with switched Butler matrix feed
02 p0223 A69-12813

Multiple beam electronically steerable retrodirective antenna array with automatic inertialess compensation for altitude or beacon location
02 p0212 A69-12816

Electronic scanning antenna system consisting of ceramic rod linear array, power distributor, electronic ferrite phase shift feed and driver
04 p0572 A69-14327

Butler matrix-fed circular array for continuous 360 degree beam scanning
04 p0573 A69-14329

Rear gain control of dielectric rod antenna in airborne Doppler system with choke at feed point
04 p0576 A69-14770

Feed support blockage loss in parabolic antennas evaluated by shadowgraph photography
04 p0576 A69-14771

Random phase errors in end-fed linear antenna arrays
04 p0578 A69-15211

Antennas with any mean surface, prescribed feeder and radiation pattern synthesized by microwave holography
05 p0734 A69-16574

Propagation constant and radiation of center fed linear antenna with feed points displaced transverse to antenna axis and immersed in warm compressible plasma
06 p0896 A69-17476

Sectoral hoghorn as line feed for correcting spherical aberration in offset spherical reflector antennas
06 p0898 A69-17823

Shot noise in dipole antenna immersed in hot plasma related to antenna input resistance, using Maxwellian velocity distribution
07 p1079 A69-18920

Telemetry and tracking antenna feed system in EC-135N instrumented aircraft for Apollo moon project
07 p1105 A69-19110

Adaptive primary feed system for wide angle beam scanning from parabolic reflector antenna, using Fourier transformation to obtain uniform power distribution
08 p1279 A69-19908

High gain-temperature ratios aeriads design by radio modeling techniques for horn and planar antennas, prime feed parabolooids and Cassegrain systems
08 p1279 A69-19961

Phasing of active region of log-periodic array antennas by modulated impedance feeders, discussing monopole and slot arrays
08 p1281 A69-20015

Center feed system for broadening frequency bandwidth in X-band edge slotted waveguide array antenna
08 p1286 A69-20836

Electronic beam-rotation systems operation using matrix network to feed circular arrays, noting applicability to direction finding or radar systems
08 p1288 A69-20964

Mode coefficients for geometrical optics field expansion at waveguide feed junction of sectoral horn
09 p1468 A69-22590

Superdirective aerial endfire array of four unequally spaced half wave dipoles and only one fed element, calculating and measuring maximum gain
09 p1468 A69-22603

Multimode tracking/SYMMTRAC I and II/ feeds for low noise antennas, noting feed performance
11 p1852 A69-25317

Coaxial radiator as feed for low noise paraboloid antennas, presenting pattern synthesis
11 p1856 A69-25635

Subtraction procedure for feedpoint singularity in current on axially symmetric antenna with slice generator
12 p2041 A69-26864

Horn exciter with fundamental and second mode in feeding waveguide of shallow paraboloid antennas
12 p2044 A69-27093

Soviet monograph on intrinsic noise emission in radio channels covering noise temperature at receiver input, thermal microwave radiation, etc
13 p2219 A69-27304

Input impedance measurement of radiating symmetrical HF and microwave antennas, using solid state oscillator for feeding
14 p2420 A69-29394

Corrugated cylindrical waveguides used as hybrid mode feeds for reflector antennas
15 p2575 A69-30175

Corrugated conical horn used as antenna feed, studying fields in horn and associated radiation patterns by spherical hybrid functions analysis
15 p2575 A69-30176

Vertically polarized log periodic antenna consisting of unipole vertical radiators with side radiators for achieving minimum size
16 p2763 A69-32580

Waveguide feeder for Goonhilly Downs satellite communication antenna reducing feeder loss for use with low elevation Intelsat 3 satellite
17 p2935 A69-32849

Beam control of optically fed two axis airborne electronically scanned phased arrays by on-array and off-array processing
17 p2942 A69-34085

Multiplicative feed system for monopulse angle tracking antennas, discussing influence of sidelobe and backlobe responses on control function slope determining antenna bearing angle
20 p3510 A69-37704

Waveguide fed rectangular aperture antenna with dielectric plug load, describing admittance resonant perturbation due to excited TE mode
23 p4136 A69-41589

Monopulse, high power, three channel antenna feed system design for communication satellites, noting orthogonal polarization of transmit and receive functions
23 p4120 A69-41750

Parabolic antenna properties generated by dual band circularly polarized focused two channel monopulse feed system, discussing tracking data from helicopter, Apollo 8 and Cassiopeia A
23 p4120 A69-41752

ANTENNA RADIATION PATTERNS

NT SIDELOBES

Nomograph for planning circular planar aperture antenna arrays, discussing element totalling and spacing, layout geometry, sidelobe suppression and scan loss from broadside
01 p0037 A69-10017

Atmospheric noise at millimeter wavelengths, discussing solar radiation and antenna near and far field patterns
01 p0028 A69-10420

Critical parameters for optimum design of Cassegrain antenna used in space communications [UN PAPER 68-95280]
01 p0043 A69-10481

Radiation pattern shaping from circular aperture antenna with constant illumination amplitude [UN PAPER 68-95756]
01 p0029 A69-10524

Dipole array antenna radiation pattern, gain and beamwidth as function of number of dipoles, noting case for main beam scanning
01 p0046 A69-10737

Radiation pattern, gain and polarization of omnidirectional antenna consisting of dipoles or monopoles arranged along circular cone
01 p0046 A69-10738

Far and near fringe radiation of asymmetrical mirror and horn antennas by method of boundary waves
02 p0214 A69-11601

Symmetric and asymmetric metal flanges effects on radiation patterns of H plane sectoral horns, noting theoretical explanation and applications
02 p0216 A69-12027

Asymmetric excitation of conducting flanges by primary aperture antenna and consequent radiation pattern
02 p0217 A69-12246

Variation method for optimal solution of antenna synthesis problem for given radiation pattern
02 p0217 A69-12260

Gain and radiation pattern of conical horn excited by circular waveguide, using geometric theory of diffraction
02 p0218 A69-12327

Horn antenna far field radiation pattern distortion by isotropic plasma slab, noting attenuation variation with electron density
02 p0218 A69-12335

Short backfire antenna radiation fields calculation by approximate method
02 p0219 A69-12339

Legendre polynomial description of radiation pattern of group of radiators, discussing design of linear radiators
02 p0209 A69-12341

Wave measurements of normal electric field and tangential magnetic field over microwave disk antenna surfaces
02 p0219 A69-12342

96 element wide band scanning array measurements, considering array simulators usability at frequencies above operating frequencies
02 p0219 A69-12343

Dual band shunt slot linear array for S and X band radiation patterns generated from single aperture
02 p0219 A69-12344

Aperture blockage by subreflector in Cassegrain antenna system, computing effects on far field radiation patterns
03 p0401 A69-12853

Antennas with vertical radiation patterns to measure frequency spectrum of distributed cosmic radio emission between 6.3-40 MHz
03 p0500 A69-13080

Balanced symmetrical four arm conical equiangular spiral antenna providing omnidirectional circularly polarized radiation pattern in azimuthal plane
03 p0404 A69-13471

Electric or magnetic dipole antenna radiated electromagnetic field for antenna orientation perpendicular to striations of periodically stratified dielectric medium
03 p0398 A69-13802

Advanced potentials method to determine electric field intensity tangential component on surface of cylindrical radiator
03 p0408 A69-14131

Current distribution in scanning rectangular array with all-directional constant sidelobe and narrowest beamwidth
04 p0570 A69-14302

Directivity and beamwidth determination of large scanning Dolph-Chebyshev arrays
04 p0570 A69-14303

Collimation of row and column steered phased arrays
04 p0570 A69-14304

Electronically steered and shaped beams for linear and ring phased array antennas by sampling element signals multiplexed into single channel
04 p0570 A69-14307

Triangular lattice arrays radiation characteristics similarity to linear tapered arrays, noting sidelobe level
04 p0570 A69-14308

Element pattern nulls in phased arrays and relation to guided waves supported by array face
04 p0570 A69-14310

Complex power radiated by infinite planar array antenna, noting aperture field distribution influence on formula applicability
04 p0571 A69-14311

Linearly polarized waveguide phased array design, noting waveguide aperture size effect on admittance and minimization of zero radiation directions
04 p0571 A69-14313

ANTENNA RADIATION PATTERNS

HAPDAR-TACOL phased array radar design, discussing array patterns and multitarget tracking performance
04 p0556 A69-14324

Two dimensional electronically scanned k-band phased array antenna design and performance, discussing radiometric system
04 p0572 A69-14328

Butler matrix-fed circular array for continuous 360 degree beam scanning
04 p0573 A69-14329

Radiation properties of spherical phased array of 16 flat spiral antennas and radiation field polarization characteristics
04 p0573 A69-14331

Directional properties of electric vibrator positioned at reflecting circular cylinder, discussing radiation patterns and cylindrical wave diffraction
04 p0574 A69-14459

Contour pattern analysis of AN/FQP-6 monopulse radar Cassegrainian antenna, giving three dimensional drawings
04 p0576 A69-14769

Rear gain control of dielectric rod antenna in airborne Doppler system with choke at feed point
04 p0576 A69-14770

Asymptotic estimates of radiation patterns of nonequidistant antenna array represented in integral form
04 p0576 A69-14772

Radiation pattern of linear phased antenna array calculated during commutated scanning
04 p0577 A69-14785

Statistical characteristics of radiation pattern of mirror antennas in region of irregular sidelobes
04 p0577 A69-14787

Dielectric sheath effect on far zone radiation characteristics of aperture bounded by perfectly conducting ground plane
04 p0579 A69-15450

Difference radiation patterns of circular aperture with axisymmetric amplitude distribution
05 p0717 A69-15636

Directive gain optimization of antenna array during 90 degree radiation deflection
05 p0728 A69-15652

Commutation antenna arrays with arbitrary amplitude distribution, considering phase error effect
05 p0729 A69-16082

Antennas with any mean surface, prescribed feeder and radiation pattern synthesized by microwave holography
05 p0734 A69-16574

Microwave antennas simulation by optical systems based on Huygens-Kirchhoff approximation, noting application to antenna analysis, synthesis and radiation patterns
05 p0736 A69-16780

Optical simulation of microwave antennas with variable profile reflectors, investigating radiation patterns by photometric scanning of photographs obtained with He-Ne laser
05 p0736 A69-16781

Optimum antenna radiation patterns during suboptimum scattered Gaussian signal detection in homogeneous interference level investigated with single channel antenna
05 p0736 A69-16782

Emission of thin metallic antenna in randomly inhomogeneous medium, determining effective impedance
06 p0894 A69-17451

Synthesized aperture method of measuring antenna gain and radiation patterns
06 p0894 A69-17452

Directional mirror antenna parameters measurement by finite focusing of radiating element
06 p0895 A69-17453

Linear antenna synthesis for optimal separation of plane waves providing maximum SNR with allowance for statistical phase distribution of field
06 p0895 A69-17460

Slope optimization of antenna array difference radiation patterns coinciding with antenna directive gains
06 p0895 A69-17461

Tuning of two mirror antennas in near zone with various mirror combinations, discussing field cophasing
06 p0895 A69-17462

Propagation constant and radiation of center fed linear antenna with feed points displaced transverse to antenna axis and immersed in warm compressible plasma
06 p0896 A69-17476

Circular antenna array consisting of identical center fed cylindrical dipoles placed tangential to and in plane of circle and with equal spacing
06 p0898 A69-17765

Airborne S-band telemetry antennas for omnidirectional patterns of polarization component, discussing design, pattern measurements and application
07 p1106 A69-19112

Measurement bases in general, discussing theoretical data justifying ground level base and measurements results
07 p1136 A69-19516

Radioelectric axis deviation of radome in front of monopulse radar antenna
07 p1111 A69-19524

Radiation pattern deformation due to sharp angle radome studied by analyzing diffraction in antenna dihedron system
07 p1112 A69-19539

Radiation pattern solved for antenna enclosed in radome, deriving exact formulas for scalar field
07 p1112 A69-19543

Object restoration, discussing data processing method for single variable functions with small signal to noise ratios
07 p1137 A69-19721

Antenna pattern loss factor for determination of average probability of detection vs SNR curves for three dimensional or pencil beam radars
08 p1270 A69-19858

Algebraic expression for field pattern of asymmetrically driven long antenna with multiple excitations, using Wiener-Hopf integral equation
08 p1281 A69-20016

Electromagnetic multipole left- and right-hand circularly polarized modal fields for multiarm log spiral antennas, discussing current distributions, multipole coefficients and field patterns
08 p1281 A69-20018

Bounds on electric field outside radiating system determined for application to UHF and VHF systems design, considering microwave breakdown
08 p1273 A69-20026

Log periodic antenna with vertically polarized omnidirectional radiation constant over bandwidth
08 p1281 A69-20033

Backfire log periodic cavity-backed slot array, giving H plane power patterns with near field plots along array
08 p1281 A69-20035

Radiation pattern synthesis of circular arrays with many directive elements, deriving required excitations without matrix inversion for design purposes
08 p1282 A69-20036

Pressure formed parabolic reflectors for millimeter waves, discussing electrical measurements at 30 GHz
08 p1282 A69-20039

Monopole antenna behavior over grounded metal hemisphere, noting application to spacecraft and broadcasting antennas erected on hill
08 p1282 A69-20040

Numerical double integral evaluation technique for antenna radiation patterns, discussing error data
08 p1282 A69-20042

TV transmission antenna radiation patterns measured with helicopter flown equipment and Decca navigation equipment
08 p1274 A69-20130

Antenna tolerances theory, discussing illumination correlation function analytical evaluation for uniform and tapered illuminations
08 p1284 A69-20294

Focusing effect on far field directional pattern shifting of array normal, noting electronic scanning properties
08 p1285 A69-20400

Lunar radio emission polarization characteristics, considering knife-edge type radiation pattern effect of antenna array
08 p1391 A69-20423

Radiation field patterns of linear antennas immersed in weakly ionized plasma evaluated for propagation constants of current distribution
08 p1285 A69-20551

Metal flanges position effect on radiation patterns of H-plane sectoral horn radiators
08 p1285 A69-20554

Duty cycle increase on meteor forward scatter radio communication paths by use of wide-beam transmitting antenna along great circle
08 p1394 A69-20609

Broadband steerable arrays design, describing Wullenweber array with doublet aeriels yielding good radiation patterns and low cost construction
08 p1288 A69-20963

Counterrotating antenna for spin stabilized satellite, noting linear phase shift influence on radiation pattern
08 p1289 A69-20968

Self focusing linear array for communication satellites, evaluating reradiated field taking into account mutual coupling between elements
08 p1289 A69-20970

Hemispherical scanning with small aperture monopoles, spirals, scimitars and wire antennas, discussing various types for multiple beam operations
08 p1290 A69-20973

Reciprocal and nonreciprocal electronically adjustable ferrite phase shifters and application in scanning leaky wave antennas
08 p1290 A69-20979

Frequency independent antenna far field radiation approximated for gain, polarization, field amplitude and phase, defining omnidirectional antenna with wide-band goniometry
08 p1295 A69-21149

Earth station antenna radiation patterns for studying mutual interference effects between radio relay stations and communication satellite earth stations
09 p1461 A69-21282

Magnetic field plane radiation patterns for tapered dielectric rod antennas computed by Schelkunoff principle, noting taper angle effect on lobes
09 p1464 A69-22097

Horizontal VLF cylindrical transmission antenna current distribution calculated with allowance for ground reaction, showing exponential decrease with distance
09 p1467 A69-22581

Microwave antennas optical simulation, discussing given phase amplitude distribution problems
09 p1469 A69-22625

Scattering matrix for pattern forming circuit for multiple beam antenna arrays with interacting elements, noting orthogonal pattern optimization
09 p1469 A69-22627

Ionospheric movements from sampling radio diffraction pattern at 89 points and conversion into visible pattern
09 p1492 A69-22756

Antenna gain increase, using matched pair of Cassegrain reflectors with one primary source
10 p1664 A69-23799

Radiation field of log periodic dipole array calculated as function of observation point and dipole currents
10 p1664 A69-23802

Conducting flanges effects on H plane radiation patterns of E plane sectoral horns, noting improved beam width and gain and H plane beam tilting
10 p1665 A69-24063

Atmospheric turbulence effect on linear antenna gain in direction of radiation pattern maximum determined together with antenna dimensions
11 p1844 A69-24435

Antenna array models with different emitters to investigate characteristics of radiation patterns in near and far fields
11 p1844 A69-24451

Far and near fringe radiation of asymmetrical mirror and horn antennas by method of boundary waves
11 p1846 A69-24708

Approximate method for calculating linear multidipole antennas parameters in terms of power requirement, considering equidistant/nonequidistant element antennas
11 p1849 A69-24969

Nested rhombic antenna spacing determined by measuring mutual coupling and interacting effect on radiation patterns
11 p1850 A69-24979

Yagi-Uda type antennas analysis based on radiated electric field equations, noting far field pattern dependence on phase velocity
11 p1850 A69-24980

Radiation fields induced by constant current in elliptic ring, discussing analysis results applicability to elliptic capacitive antennas and annular slot
11 p1850 A69-24981

Radiation field patterns from metal wall aperture in waveguide with rectangular cross section determined using elliptic cylinder
11 p1850 A69-24982

Two dimensional radiation from apertures in conducting cylinders of arbitrary cross section, solving current distribution, admittances and radiation patterns
11 p1836 A69-24985

Power transmission efficiency between arbitrarily focused circular antennas with Gaussian amplitude illumination in Fresnel region for various phase illuminations and Fresnel numbers
11 p1851 A69-24991

Conducting grill effect on E-plane radiation patterns of E-plane sectorial horns, giving data for various horns at different frequencies

11 p1836 A69-24992

Radiation pattern of axial slot on circular conducting cylinder based on wedge diffraction and creeping wave theory

11 p1836 A69-24993

Electric field vertical and radial components for time harmonic electric line sources with piecewise sinusoidal current distribution

11 p1836 A69-24995

Slow waves contribution to image radiation from array of line sources above ground plane, determining optimum height of lowest element of array

11 p1837 A69-25002

Radiation pattern as function of asymmetry in amplitude of secondary source excitation by primary aperture antenna

11 p1852 A69-25117

Microwave antenna testing on small indoor ranges, discussing reflectors and feeds for generation of approximately uniform plane waves for antenna illumination

11 p1852 A69-25314

Coaxial radiator as feed for low noise paraboloid antennas, presenting pattern synthesis

11 p1856 A69-25635

Thinned arrays design based on array excitation autocorrelation function, considering element spacing

11 p1856 A69-25661

Radiation pattern of circular cylindrical dielectric rod antenna excited in mixed magnetic and electric modes, discussing mode transducer

12 p2035 A69-25900

Far field radiation pattern, radiation resistance, power gain, directivity and effective aperture for center fed dipole antenna with feed points displaced arbitrarily

12 p2039 A69-26352

Constant amplitude current excitations superposed on uniformly spaced array for sidelobe reduction, comparing results to Chebyshev arrays

12 p2040 A69-26473

Dielectric coated finite cylindrical antennas, using numerical and Wiener-Hopf methods to obtain input admittance and current distribution

12 p2041 A69-26604

Atmospheric thermal radio emission fluctuations effects on radio telescope sensitivity, evaluating dispersion at low angles to horizon

12 p2031 A69-26643

Input impedance of quarter wavelength antenna in anisotropic plasma, discussing plasma parameters role and use of probe antenna in plasma diagnostics

12 p2044 A69-27071

Field patterns for wave radiation from electric dipole immersed in anisotropic plasma column excited by longitudinal DC magnetic field

12 p2034 A69-27103

Antenna circular array for synchronous communications satellites, discussing directional patterns, supergain ratio, element spacing, etc

13 p2225 A69-27184

Antenna cross dipole array for vehicle tracking in VHF band, obtaining effect of local rotation by electrical phase shifting

13 p2226 A69-27185

Gain optimization for dipole endfire array through orthogonalization of element directivity noting effects of element spacing, element gain and mutual coupling

13 p2226 A69-27186

Admittance of radiating elements in circular array with longitudinal slots on conducting cylinder, taking into account element interactions

13 p2234 A69-28505

Passive magnetic elements array calculation for radiation pattern, discussing emitter position

13 p2235 A69-28513

Antenna system synthesis for amplitude distribution along linear emitter, considering radiation patterns

13 p2235 A69-28521

Radiation pattern of electric and magnetic dipole on flat sem infinite impedance system edge found similar

13 p2236 A69-28546

Current distribution along linear antenna array taking into account interaction between neighboring elements and effect on antenna radiation characteristics

13 p2236 A69-28572

Radar antenna radiation effects on man and biological material dependent on absorption degree and emission characteristics including wavelength, peak and mean power

13 p2215 A69-28597

Antennas with vertical radiation patterns to measure frequency spectrum of distributed cosmic radio emission between 6.3-40 MHz

14 p2509 A69-28762

Directional properties of electric vibrator positioned at reflecting circular cylinder, discussing radiation patterns and cylindrical wave diffraction

14 p2418 A69-28830

Stepped scanned ring monopulse array, discussing pattern analysis, directivity, co-phased and quasi-phased model

14 p2419 A69-28894

Optical image diffraction method for analyzing radiation patterns of horn antenna sounding beams used in microwave measurement of expanding plasmods

14 p2497 A69-29793

Corrugated conical horn used as antenna feed, studying modes in horn and associated radiation patterns by spherical hybrid functions analysis

15 p2575 A69-30176

Binary-quantized signal packet center for target azimuth determination, discussing antenna radiation pattern role

15 p2566 A69-30332

Bearing errors from radio beacons with rotating or multilobe radiation patterns

15 p2567 A69-30343

Signal reflection elimination from underlying surface during aircraft flights by using two antenna array with identical radiation patterns

15 p2567 A69-30345

Theory of field distribution in antenna aperture extended to scanning with desired shape beam

15 p2578 A69-30634

Resonance cones in angular distribution of short antenna RF electric field in anisotropic plasma noting variation with incident, cyclotron and plasma frequency

15 p2659 A69-30876

Orthonormalized partial radiation patterns for antenna array of N emitters developed by introducing scattering matrix

15 p2579 A69-30951

Digital method to produce radar reflectivity from analog audio frequency Doppler data extracted from terrain echo signal of CW scatterometer radar

15 p2572 A69-31111

Radar calibration and precipitation measurements equation taking Gaussian approximation for antenna radiation pattern

16 p2806 A69-32264

Difference radiation patterns of circular aperture with axisymmetric amplitude distribution

16 p2754 A69-32494

Directive gain optimization of antenna array during 90 degree radiation deflection

16 p2762 A69-32509

Vertically polarized log periodic antenna consisting of unipole vertical radiators with side radiators for achieving minimum size

16 p2763 A69-32580

Spacecraft antennas properties, structure and problems including frequency ranges, external influences, omnidirectional radiation, input impedance, etc

16 p2763 A69-32584

Short backfire antenna based on yagi type equipped with end reflector, noting fewer elements and low sidelobe advantages

16 p2763 A69-32586

Plasma electroacoustic resonance in reentry sheath of Trailblazer 2 vehicle excited by nonradiating coaxial antenna, deducing electron density gradient at vehicle surface

17 p3010 A69-32915

Ground conductivity effects on MF sky wave transmission strength, discussing transmission over open sea

17 p2918 A69-33029

Horn antenna with parabolic reflector for 30 cm wavelength, calculating field distribution, main and sidelobe radiation patterns and aperture efficiency

17 p2937 A69-33147

Monograph on radiation zones and phase center of two arm conical logarithmic spiral antenna covering wideband design, near field measurements and far field integration

17 p2937 A69-33572

Radio map of Orion A region, resolving M 42 and M 43 nebulae at 1.94 cm wavelength, noting optical photographs comparison

17 p3035 A69-33609

Phased array blindness at inoperative scan angles explained in terms of elements excitation and termination caused by leaky wave

17 p2928 A69-33872

Interrelations among mutual coupling, element efficiency, active impedance and radiation patterns in linear arrays derived from infinite order difference equation

17 p2929 A69-33874

Linear array composed of dual mode elements radiating into parallel plate region, obtaining scan angle compensation of element impedance

17 p2929 A69-33875

Van Atta array reflector retrograde effect, studying influence of transmission line length, interelement spacing and line-dipole matching on incident reflected radiation phase correlation

17 p2929 A69-33878

Microwave holography for antenna synthesis, radiation patterns and visible images reconstruction

17 p2976 A69-33891

Radio antenna consisting of truncated confocal paraboloids, discussing pencil beam pattern, antenna parameters and experimental results

17 p2939 A69-33904

Antenna three dimensional radiation patterns, describing error analysis of various pattern measurement techniques

17 p2942 A69-34086

Mathematical model of fields reradiated by Huygen sources in front of array for glide path site analysis

17 p3003 A69-34107

Artificial plasma properties at microwave frequencies, determining plasma electron density and effects on horn antenna radiation characteristics

18 p3100 A69-34271

Reciprocal theorem for obtaining relations between transmitting antenna effective area, radiation pattern and aperture distribution

19 p3281 A69-35765

Backfire antenna radiation characteristics and physical dimensions for tracking and telemetry applications, including five element array model

19 p3271 A69-36251

Sounding rocket S band telemetry antenna operation, proposing quasi-isotropic pattern criterion to reduce effects of shadowing and interference

19 p3271 A69-36252

Active interferometer controlled telemetry tracking system for missile range, discussing automatic target acquisition, dish feed, costs and optimized data-channel antenna patterns

19 p3271 A69-36253

Radio wave information transmission, discussing propagation in various media, antenna arrays, diffraction, scattering, plasmas, guided waves and periodic structures

19 p3276 A69-36431

Field strength determination at reception point for long range short wave paths, taking into account multiple ray paths and antenna radiation patterns

20 p3520 A69-37035

Residue series representation of radiation fields for azimuthal leaky wave antenna on conducting cylinder, showing zeroth term correspondence to omnidirectional antenna

20 p3506 A69-37834

Analysis theory of shaped beam doubly curved reflector antenna, computing far field patterns by determining current density distribution on nonanalytic surface

20 p3506 A69-37835

Scattered field of linear array of center loaded cylindrical elements illuminated by plane electromagnetic wave

20 p3494 A69-37838

Radiation field produced by parasitic loop counterpoise antenna, obtaining far field from geometrical diffraction theory

20 p3507 A69-37840

Normalized SNR of aperture antennas determined in terms of random signal and noise fields correlation functions

20 p3494 A69-37845

Parallel wire antenna array design for specified pattern using matrix methods and method of moments for self and mutual impedances and required excitations

20 p3507 A69-37847

Emission of thin metallic antenna in randomly inhomogeneous medium, determining effective impedance

20 p3508 A69-37936

Synthesized aperture method of measuring antenna gain and radiation patterns

20 p3508 A69-37937

Directional mirror antenna parameters measurement by finite focusing of radiating element
20 p3508 A69-37938

Linear antenna synthesis for optimal separation of plane waves providing maximum SNR with allowance for statistical phase distribution of field
20 p3508 A69-37943

Slope optimization of antenna array difference radiation patterns coinciding with antenna directive gains
20 p3508 A69-37944

Tuning of two mirror antennas in near zone with various mirror combinations, discussing field cophasing
20 p3508 A69-37945

Soviet book on antenna synthesis theory for application to antenna radiation patterns with allowance for Fourier transforms limitations
20 p3508 A69-38208

Rotation of antenna pattern of radio telescope parabolic mirror subjected to thermoelastic deformations due to asymmetric solar heating
20 p3497 A69-38307

Radiation field of tapered dielectric rod antenna by Schelkunoff equivalence principle, investigating input impedance variation with axial length and taper angle
21 p3681 A69-38444

Antenna arrays subject to random excitation error analyzed by probability theory, noting relationship between antenna pattern and excitation distribution parameters
21 p3681 A69-38742

Antenna synthesis problems in mathematical physics, discussing radiation pattern, shape and source and optimal solution via operators spectral theory
21 p3682 A69-39124

Synthesis by differential equation technique for linear antenna arrays of identical radiators radiation patterns
21 p3682 A69-39125

Transistorized low noise reception antennas with built-in amplifying elements, discussing radiation patterns and noise problems
21 p3683 A69-39264

Microwave breakdown characteristics predictable for circular loop antennas from near electric field analysis
21 p3683 A69-39281

VHF cavity backed cylindrical gap antenna input tuning impedance and equatorial radiation patterns controlled by cavity adjustments
22 p3914 A69-40698

Radiation and impedance characteristics of spherically capped conical and monopole antennas protruding from spherical vehicle related to cone height, angle and vehicle diameter
22 p3908 A69-40699

Mars entry capsule ionized wake producing circularly polarized antenna radiation null region, noting effect on communication blackout time
22 p3914 A69-40701

Equatorial radiation pattern of parallel plate TEM mode axial slot on elliptical conducting cylinders, using wedge diffraction and creeping wave theory
22 p3914 A69-40703

Circular and spherical antenna arrays elements random distribution in three dimensional space using Monte Carlo method, considering arbitrary excitation and nonisotropic elements
22 p3914 A69-40704

Circular antenna arrays radiation pattern synthesis in moving medium relative to main beam, noting medium motion influence on pattern changes
22 p3915 A69-40706

Antennas aperture radiation patterns optimal interpolation synthesis permitting confident control of main lobe shape
22 p3916 A69-40953

Asymptotic approximation formulas to compute on-axis Fresnel region fields for coupling between two large aperture antennas
23 p4136 A69-41582

Edge diffraction effects in TEM axially slotted finite ground plane on elliptical radiation pattern in waveguides of different geometries
23 p4116 A69-41588

Simple antenna with good circular polarization over wide space sector, showing geometry, normalized orthogonal field distributions and beamwidth range, considering slot combinations
23 p4137 A69-41590

Slot antenna radiation patterns in presence of aperture RF plasma breakdown sheath measured for various gas pressures and breakdown power levels
23 p4116 A69-41595

Digital computer program for determining flight vehicle telemetry antenna performance from ground test readings
23 p4133 A69-41754

Kirchhoff equations for synthesis of passive dipole arrays, obtaining best approximation to radiation patterns
23 p4138 A69-41935

Synthesis of antenna arrays of longitudinal passive slot radiators on metallic cylinder excited by single active slot, including experimental patterns
23 p4138 A69-41936

Radiation characteristics of dipole on wedge edge with sinusoidal current, discussing spatial phase and polarization calculations by computer
23 p4138 A69-41937

Cophase antenna aperture with shaded central region, considering sidelobe radiation reduction by varying field amplitude distribution
23 p4138 A69-41939

Array aperture amplitude and phase distortions effect on radiation field uniformity
23 p4138 A69-41940

Statistical analysis of random production errors on phasing section polarization field of antenna with elliptical polarization
23 p4125 A69-42041

Antenna losses produced by metal space frame radome determined by considering end effects, member junctions circulating currents, mutual scattering and near field effects
23 p4149 A69-42127

Large reflector paraboloid antenna performance under environmental loads
23 p4231 A69-42132

Radiated interference and susceptibility prediction for unshielded wires in near field of vertical rod antenna
23 p4141 A69-42225

Near field effects on accuracy of LF shielded enclosure measurements compared to open field environment
23 p4141 A69-42226

ANTENNAS

NT SUBREFLECTORS
NT TWO REFLECTOR ANTENNAS
NT WAVEGUIDE ANTENNAS
NT YAGI ANTENNAS

Design evolution of mechanically despun antenna systems from ATS to INTELSTAT, discussing RF and control systems
03 p0403 A69-13239

Residue contributions to integrals associated with admittance of plasma or dielectric covered circular aperture antenna used to calculate surface wave contribution to waveguides
06 p0896 A69-17477

Quasi-static theory of antenna in magnetoactive plasma subjected to resonance, solving boundary value problem
07 p1099 A69-18522

Antenna impedances in cold plasma with perpendicular static magnetic field
08 p1281 A69-20029

Induced EMF method for calculation of antenna impedance, discussing effects of approximations in calculation
11 p1851 A69-24997

Dual reflector antenna design methods for obtaining necessary phase and amplitude illumination across secondary aperture in low noise applications
11 p1852 A69-25316

Superconducting antenna factors and matching circuit equivalents developed for predicting efficiency and Q increase on basis of Pb surface resistance
17 p2937 A69-33784

Active antenna impedance matching network constituting low noise device for electromagnetic interference measurements useful for automatic or manual scanning
17 p2943 A69-34131

Equivalent circuit demonstrating noise reduction through input transistor integration into passive receiving antenna, stressing circuit loss control and preamplification role
19 p3281 A69-35764

Book on antennas in inhomogeneous media, discussing impedances for dielectric loading, reentry, ionosphere and buried environment, wire antennas in free space, etc
19 p3268 A69-36150

Electron beam welding for repair and production, discussing application to Ti VHF antennas, Concorde shuttles and nuclear reactor loading tubes [SBAC PAPER 14]
20 p3550 A69-37451

Q factors of ideal antenna enclosed in imaginary sphere with excited TE and TM modes
20 p3506 A69-37836

Antenna noise spectrum in collisionless isotropic plasma, considering plasma fluctuation theory and reciprocity theorem
21 p3683 A69-39284

Direction finding characteristics of nonlinear antenna, including current determination and optimal angle for sidelobe level
21 p3684 A69-39619

Waveguide fed rectangular aperture antenna with dielectric plug load, describing admittance resonant perturbation due to excited TE mode
23 p4136 A69-41589

ANTI-AIRCRAFT MISSILES

Optimum evasion tactics for aircraft pursued by missile, using steepest ascent method for maximization of distance of closest approach
06 p0866 A69-17401

ANTIBODIES

NT GAMMA GLOBULIN

Specific antibody formation to influenza A virus vaccine /strain PR sub s/ in hibernating ground squirrels /Citellus tridecemlineatus/
08 p1263 A69-20173

Sublethal ionizing radiation doses effect on hemolytic immunocompetent spleen cells in mice upon using chemical radiation protectors
13 p2210 A69-28334

Local stress effect on immunocompetent cells differentiation in guinea pigs lymphatic ganglia, showing antibody producing cells number increase
22 p3877 A69-40277

ANTICYCLONES

Horizontal ozone distribution at high cyclones and anticyclones in middle stratosphere
08 p1308 A69-20261

Equatorial anticyclones over eastern Pacific caused by large scale cross-equatorial flows determined by ATS-1 photographs, noting frictional convergence factor
24 p4342 A69-42895

ANTI-DIURETICS

Short latency antidiuresis following initiation of food ingestion by food deprived rats, noting possible signaling factor
01 p0014 A69-10860

Visceral afferent pathways influence on vasopressin secretion, ADH levels and urinary excretory patterns of dogs during surgical stress
05 p0708 A69-15970

Decreased antidiuretic activity measured in blood of chronically centrifuged rats, noting role of antidiuretic hormone /ADH/
14 p2407 A69-29301

Antidiuretic hormone /ADH/ and bradykinin effects on human thermal and cholinergic sweating after subdermal injection in forearm, abdomen and leg
23 p4077 A69-41311

ANTIDOTES

Antihypoxic preparations protective effect on white mice and rats subjected to gravitational accelerations
17 p2906 A69-32931

ANTIFERROMAGNETISM

- Figures of merit for polycrystalline uniaxial antiferromagnetic materials, for nonreciprocal devices at millimeter and submillimeter wavelengths, calculated from perturbation theory [IEEE PAPER 17.11] 01 p0045 A69-10720
- Antiferromagnetic semiconductor transformation into metal in magnetic field 09 p1556 A69-21672
- Anisotropic Heisenberg antiferromagnetism in spin wave approximation, calculating thermodynamic quantities in terms of elliptic integrals 12 p2144 A69-26500
- Electron magnon interaction in ferromagnetic and antiferromagnetic semiconductors, showing conduction band and electron effective mass and magnetic moment dependences on temperature and spin direction 14 p2504 A69-28991
- Theory of temperature dependent magnon energies in antiferromagnets based on spin wave operator expansion of Hamiltonian, taking into account dynamical interaction between waves 15 p2668 A69-30684

ANTIFRICTION BEARINGS

- NT BALL BEARINGS
- NT ROLLER BEARINGS
- Mechanical properties of free rolling contact surfaces subject to high loads, discussing effect of oil film separation and fatigue crack initiation 02 p0339 A69-11989
- Miniature ball and jewel bearings and gear lubrication in ultrahigh vacuum tests for space environment operation [IME PAPER 6] 07 p1138 A69-18562
- Bearing lubrication at low temperature, examining safety limits, working fluid in liquid or gaseous state [IME PAPER 9] 07 p1138 A69-18565
- Microstructural changes in 52100 steel bearing inner rings during cyclic stressing, obtaining thickening rate data on white-etching regions and lenticular carbides 08 p1319 A69-20004
- Plain and rolling metal bearings manufacture and use, discussing materials structure and properties, operating conditions, lubrication, etc 11 p1903 A69-24517
- Sliding behavior of nonmetallic bearing materials /plastics, ceramics and cermets/, discussing non-lubricated bearing application 14 p2454 A69-28851
- Self lubricating bearings lifetime calculated as function of lubricant in pores and consumption rate, noting temperature effects 15 p2618 A69-30281
- Radial clearance influence on self lubricating porous bearing friction coefficient and oil losses as function of operation duration 16 p2794 A69-32067
- Critical speeds of high speed turbine rotors running in friction bearings determined by varying natural frequencies of rotor and supports 18 p3147 A69-34545
- Friction bearing vibration recording device using light beam and photodiode 20 p3539 A69-37436
- Hydrodynamic conical and spherical spiral grooved grease bearings replacement of gyro ball bearings for extended space missions [AIAA PAPER 69-836] 21 p3732 A69-39367

ANTIGENS

- Tryptic pentapeptide Asp-Glu-Leu-Thr-Lys synthesis is showing relation to Gm/a/ antigen of human gamma g-globulin 24 p4279 A69-42712
- Inoculum dose effect on complement-fixing antigen production, heat lability and separation from BHK-21 cells infected with lymphocytic choriomeningitis virus 24 p4263 A69-43336

ANTIINFECTIVES AND ANTIBACTERIALS

- Antimicrobial spacecraft materials, discussing feasibility of impregnation or chemical combination of materials with bactericides 05 p0713 A69-15944

ANTIMATTER

- NT ANTINEUTRINOS
- NT ANTINUCLEONS
- NT ANTIPARTICLES
- NT ANTIPROTONS
- NT POSITRONS
- Galactic formation by massive matter cloud passage through antimatter cloud, discussing radio sources genesis 12 p2170 A69-27064

Symmetry between koinomatter and antimatter in universe, discussing koinonucleons production, big bang theory, protogalaxy model, quasi-stellar objects, galaxy evolution, etc 15 p2690 A69-30670

Antimatter in universe, presenting arguments for microscopic and macroscopic symmetries 17 p3006 A69-33578

Antimatter meteors detectability, considering annihilation and vaporization in earth atmosphere 17 p3034 A69-33579

Antimatter motion in solar system and earth atmosphere, discussing vaporization and annihilation energy in collisions with interplanetary gas atoms 22 p4034 A69-41100

ANTIMISSILE MISSILES

Hypersonic missile interceptor vibration characteristics in lower atmosphere, noting role of base pressure excitation 09 p1614 A69-21890

ANTIMONIDES

- U CADMIUM ANTIMONIDES
- U GALLIUM ANTIMONIDES
- U INDIUM ANTIMONIDES
- U ZINC ANTIMONIDES

ANTIMONY

- Antimony bromine and mercury abundances in meteoritic materials determined by neutron activation analysis 08 p1404 A69-20919
- Sb addition effect on electrical conductivity and Hall effect in PbTe single crystals over temperature range 11 p1939 A69-25706
- Chondritic meteorites arsenic, tin and antimony content determined by anion-exchange chromatography and neutron activation analysis 13 p2344 A69-27630

ANTIMONY COMPOUNDS

- NT CADMIUM ANTIMONIDES
- NT GALLIUM ANTIMONIDES
- NT INDIUM ANTIMONIDES
- NT ZINC ANTIMONIDES
- Space charge limited currents in SbSI single crystals with gallium electrodes during phase transition, discussing sticking probability and photoconductivity 01 p1337 A69-10258
- Space charge limited currents in SbSI single crystals with gallium electrodes during phase transition, discussing sticking probability and photoconductivity 09 p1559 A69-22651
- Antimony trisulfide natural light reflection and transmission in and near IR region, noting spectral temperature and time dependence peculiarities 19 p3384 A69-36481
- Antimony trisulfide single crystals spectral dependence of impurity and stimulated impurity photoconductivities, comparing optical and thermal activation energies 22 p3994 A69-41042

ANTINEUTRINOS

Neutrino and antineutrino emission by URCA process calculated, assuming nuclear reactions in static and beta processes in kinetic equilibrium 15 p2674 A69-30542

ANTINUCLEONS

High energy negative kappa meson-nucleon interactions with respect to multiplicity distribution of charged pions in nucleon-antinucleon annihilation, showing binomial distribution 24 p4351 A69-42791

ANTIOXIDANTS

Additions of dialkyl and diaryldithiophosphates of Ba, Ca, Zn, Pb and Ni as antioxidants and corrosion inhibitors for hydrocarbons 12 p2027 A69-27091

ANTIPARTICLES

- NT ANTINEUTRINOS
- NT ANTINUCLEONS
- NT ANTIPROTONS
- NT POSITRONS
- Universal dependence of density fluctuations on specific entropy derived from equation describing material composed of neutral particles and equal number of charged and antiparticles 21 p3771 A69-38995

ANTIPODES

- Earth ionosphere cavity model for atmospheric waveform shape, considering ELF pulse distortion after propagation through antipode 16 p2750 A69-31978
- Pulse propagation through antipode, calculating time domain response of fields near axial caustic 18 p3100 A69-34233

ANTIPROTONS

- Cosmic gamma ray spectra from metagalactic proton-antiproton annihilation 09 p1574 A69-21459
- Matter traversal of high energy primary galactic cosmic ray protons from antiproton flux and energy measurements 15 p2678 A69-31491
- Proton-antiproton high energy elastic scattering by bosons exchange, introducing vertex functions for non-local Lagrangian 21 p3775 A69-39467

ANTIRADIATION DRUGS

- Prophylactic and therapeutic vitamin and organic compounds complexes in radiation damage reduction and death prevention for dogs exposed to X rays 02 p0197 A69-11493
- Radiation structural and transcription damage to deoxyribonucleic acid (DNA), noting postirradiation repair on molecular level 03 p0372 A69-13489
- Sublethal ionizing radiation doses effect on hemolytic immunocompetent spleen cells in mice upon using chemical radiation protectors 13 p2210 A69-28334
- X ray radiation damage to white mice blood serum proteins disappearing following intraperitoneal administration of imidazole or benzimidazole 23 p4077 A69-41300

ANTISUBMARINE WARFARE AIRCRAFT

- NT CL-84 AIRCRAFT
- NT SH-3 HELICOPTER
- A-New avionics system for carrier based VSX aircraft used in U.S. Navy aerial submarine hunting, discussing TV, lasers, sonobuoy system, radar, etc 14 p2392 A69-29430

ANTISYMMETRY

Stress-strain state of circular disks with arbitrarily varying thickness along radius under antisymmetrical load calculated by integral equations method 22 p4047 A69-41168

ANTITANK MISSILES

- Antitank missile guidance system with tracker using two optical paths and pyrotechnic flare noting transmission ratios, visibility coefficients and improvement factors 23 p4164 A69-41625
- Extreme value statistics used to determine minimum acceptable tensile strength of wire command links in TOW antitank missiles 24 p4318 A69-42642

ANTONOV AIRCRAFT

- NT AN-24 AIRCRAFT
- Soviet book on practical aerodynamics of An-2 aircraft covering aerodynamic characteristics, equilibrium, stability and control for various flight conditions, including icing 18 p3090 A69-34340

ANTONOV AN-24 AIRCRAFT

- U AN-24 AIRCRAFT

AORTA

- Elastic behavior of large blood vessels in canine aorta by measuring dispersion and attenuation of artificially induced pressure waves 04 p0553 A69-14692
- Flow rate in ascending aorta, stroke volume and cardiac output determination by ballistocardiography, calculations based on Hagen-Poiseuille theory 17 p2915 A69-33772
- Sympathetic nerve activity inhibition due to afferent baroreceptor nerves reflexes, studying carotid sinus and aortic nerves as pathways to vasomotor center 20 p3479 A69-38073
- Aortic pressure effect on left ventricular function, emphasizing effect of heart rate hematocrit and oxygen consumption 23 p4092 A69-42061
- Spontaneous rhythmical activity and mean vascular tone dependence in isolated helical rat aorta strips on extracellular concentration of noradrenalin 23 p4093 A69-42069
- Vascular interface histological and chemical responses to acute mechanical stress in dog aorta 24 p4257 A69-42625
- Errors in estimating cardiac function from aortic and peripheral pulses, using cadaver experiments 24 p4262 A69-42728

APATITES

- U MINERALS

APERIODIC FUNCTIONS

Optimal control of open loop aperiodically modulated discrete time systems, discussing solution of associated two point boundary problem

02 p0226 A69-12732

Extrapolation of aperiodic step responses

12 p2051 A69-26237

Aperiodic feedback substitution for angular velocity component of control signal in stabilization systems of oriented satellites

21 p3829 A69-39832

APERTURES

NT IRISES [MECHANICAL APERTURES]

Radiation pattern shaping from circular aperture antenna with constant illumination amplitude [UN PAPER 68-95756]

01 p0029 A69-10524

Admittance of parallel plate waveguide aperture with infinite flange illuminating metal sheet, using wedge diffraction theory and integral transform method

02 p0218 A69-12328

Aperture effects in nonlinear optical processes associated with second harmonic and parametric generation of light

03 p0439 A69-13056

Optical imaging systems achieving aperture synthesis by lensless Fourier transform holography, noting X ray astronomy, ultrasonic and space applications

03 p0430 A69-13324

Diffraction coefficient for higher order edge-edge interaction terms in two dimensional diffraction by narrow slit and small circular aperture

03 p0396 A69-13631

Dielectric sheath effect on far zone radiation characteristics of aperture bounded by perfectly conducting ground plane

04 p0579 A69-15450

Difference radiation patterns of circular aperture with axisymmetric amplitude distribution

05 p0717 A69-15636

Dynamics of pulsed microwave breakdown in nonuniform field at waveguide fed mica aperture, noting electric field distribution change due to initial plasma configuration

07 p1107 A69-19448

Filled and unfilled aperture radio telescopes, noting uses in radar astronomy and for aperture synthesis antennas

10 p1674 A69-23866

Light flux intensity fluctuation dispersion and averaging effect for passage through circular receiving aperture

10 p1658 A69-23950

Statistical properties of electromagnetic field diffracted by illuminated plane aperture studied in Fresnel zone on basis of partial coherence theory

11 p1836 A69-24978

Radiation field patterns from metal wall aperture in waveguide with rectangular cross section determined using elliptic cylinder

11 p1850 A69-24982

Radiating collinear open ended waveguides and near field coupling analyzed using simultaneous integral equations and Fourier series expansion of aperture field

11 p1850 A69-24984

Two dimensional radiation from apertures in conducting cylinders of arbitrary cross section, solving current distribution, admittances and radiation patterns

11 p1836 A69-24985

Air gap tolerances effect on admittance of TEM mode dielectric and plasma coated slot antennas determined by variational method

11 p1851 A69-24986

Rapidly convergent series expansions for plane wave transmission coefficients for elliptical and rectangular apertures

11 p1837 A69-25001

Time harmonic electromagnetic waves diffraction by circular aperture in conducting plane screen between different media, using Hertz vector formulation

12 p2030 A69-26463

Irradiance distribution in far field diffraction patterns of partially coherent light diffracted by annular aperture, using Fourier transformation relationship of Schell

14 p2460 A69-29640

Recording arrangement aperture effect on plasma scattering spectrum during plasma parameter determination by light scattering technique

15 p2664 A69-30996

Difference radiation patterns of circular aperture with axisymmetric amplitude distribution

16 p2754 A69-32494

Double aperture problem with partially coherent incident field, noting application to microwave antenna-reflector combination

17 p2929 A69-33877

Mechanical collimator using random aperture arrays for celestial observation at extreme UV and X rays

19 p3313 A69-36489

Image deblurring and aperture synthesis using a posteriori processing by Fourier transform holographic spatial filtering

21 p3722 A69-38793

Synthetic aperture radio telescopes analysis, noting resolution and sensitivity at radio wavelengths for correlator array in supersynthesis mode operation

21 p3677 A69-39512

Stellar scintillation spectra theory extended to rectangular apertures, generalizing to planetary scintillation and effects of diffraction, atmospheric dispersion and seeing

21 p3773 A69-39771

Aperture efficiency, weight and control power requirements for hybrid matrix arrays in synchronous satellite applications, calculating residual array gains

22 p3915 A69-40707

Aperture distortions and spectral line shapes of electromagnetic radiation diffused by plasma

22 p3982 A69-40799

Cophase antenna aperture with shaded central region, considering sidelobe radiation reduction by varying field amplitude distribution

23 p4138 A69-41939

Array aperture amplitude and phase distortions effect on radiation field uniformity

23 p4138 A69-41940

APEXES

Series expansion for exponent of singularity of Laplace equation for flow near apex of plane delta wing

19 p3240 A69-36590

APNEA

U RESPIRATION

APOLLO APPLICATIONS PROGRAM

Space station design requirements, Apollo applications program and various experimental programs

01 p0163 A69-11395

Communications for Apollo Applications Program, considering extended duration manned missions in low earth orbit and Gemini, Saturn and Apollo hardware

07 p1083 A69-19124

Manned spacecraft developments, considering Apollo Applications Program, space station establishment, space shuttle operations and payload cost

10 p1791 A69-22866

Apollo telescope mount /ATM/ for solar experiments conducted from manned earth orbiting laboratory

10 p1791 A69-22871

AIAA view on Post-Apollo space program, considering multiple goals, unmanned application satellites and manned space flight objectives

18 p3236 A69-35136

Stored program data processor used as PCM telemetry data acquisition system for postApollo applications, considering format and bit rate changes

19 p3274 A69-36280

Fuel cell /battery and solar array/ battery systems for manned Apollo Applications Program /AAP/ space vehicles, considering mission and power requirements

23 p4069 A69-42244

Logistics management developed for Apollo Applications Program of NASA Manned Spacecraft Center [AAS PAPER 69-204]

24 p4417 A69-42812

Apollo Applications Program /AAP/ spacecraft, describing contributions to space station engineering

24 p4392 A69-42838

Orbital EVA, discussing technology associated with Apollo Applications Program [AAS PAPER 69-517]

24 p4272 A69-42841

APOLLO FLIGHTS

Entry phase flight data of Missions AS-202, Apollo 4 and 6 compared with wind tunnel aerodynamics data [AIAA PAPER 68-1143]

03 p0519 A69-13556

Apollo 4, 5 and 6 space missions, with preview of Apollo 7, 8 and 9 missions

06 p1017 A69-17672

Baker-Nunn photometry from Apollo tracking utilizing photographs for brightness, dynamics and duration of rocket exhausts and venting clouds

15 p2571 A69-31338

Data compression and transmission technique for real time system to monitor manned space missions, noting Apollo telemetry data [AIAA PAPER 69-970]

22 p3906 A69-40350

Mission simulation testing in thermal vacuum environment for Apollo Lunar Module, noting conformal skin heaters

[AIAA PAPER 69-991] 22 p3920 A69-40369

Multispectral processing of Apollo 6 earth photographs, evaluating geologic, vegetative and cultural features from red, green and blue portions of visible spectrum

22 p3941 A69-40987

APOLLO LUNAR SURFACE EXPERIMENTS PACKAGE

Astronaut safety considerations impact on design of Apollo Lunar Surface Experiments Package /ALSEP/ [SAE PAPER 680721]

03 p0433 A69-13444

Apollo 11 passive seismic experiment design and objectives, describing seismometer characteristics and lunar interior

20 p3539 A69-37516

SNAP 27 radioisotope thermoelectric generator system designed as prime power supply for Apollo lunar surface experiment package /ALSEP/

23 p4187 A69-42249

Lunar laser beam retroreflection observations, showing agreement with predicted ephemeris and signal strength

24 p4384 A69-43197

APOLLO PROJECT

PostApollo lunar passive seismic experiments, discussing probable results of present program, exploration sites and additional network stations and instruments [AAS PAPER 68-204]

02 p0312 A69-11479

Magnetometer experiment for Apollo project to measure lunar surface magnetic field, describing mission requirements and instrumentation [AAS PAPER 68-206]

02 p0312 A69-11481

Heat flow measurement from moon interior planned for Apollo missions to determine temperature increase rate with depth during lunar year [AAS PAPER 68-207]

02 p0313 A69-11482

Data acquisition program for Apollo crew motion disturbances experiment consisting of ground simulations and orbital experiment establishing mathematical model of human body

02 p0201 A69-11759

Communications system considerations for lunar libration point relay satellite to support Apollo lunar far side mission

03 p0388 A69-13180

Photographic control system requirements for Project Apollo manned launches, considering extreme heat, vibration and sound pressure environment [SMPT PAPER 104-20]

04 p0596 A69-14360

Post-telescopic lunar exploration, discussing Apollo program and development of selenology [JPL-TR-32-1399]

06 p1001 A69-17159

Systems engineering activities in manned space flight involving design, development, manufacture, test and operation of Mercury, Gemini and Apollo flight systems

06 p1016 A69-17602

Radiation protection plan for Apollo lunar mission based on real time monitoring of solar activity and radiation in spacecraft [AIAA PAPER 69-19]

06 p0996 A69-18113

Telemetry and tracking antenna feed system in EC-135N instrumented aircraft for Apollo moon project

07 p1105 A69-19111

Apollo lunar TV camera for real time pictures during all phases of Apollo lunar landing mission, describing camera tube, circuitry and optics

07 p1133 A69-19137

Caterpillar diesel electric sets for powering NASA tracking station in Australia during Apollo 8 flight

07 p1117 A69-19632

Intelsat 2 satellite structural design for Apollo communications

08 p1408 A69-19907

Complex digital computers designed for Apollo spacecraft missions, discussing construction techniques [AGARDOGRAPH-114]

08 p1279 A69-20990

Medium temperature fuel cells, noting reliability and high efficiency leading to selection for lunar exploration vehicle of Apollo project

08 p1260 A69-21046

Apollo/Saturn V automatic checkout test verification and debug program using real time computer simulation with digital space vehicle system model [AIAA PAPER 69-321]

09 p1478 A69-22378

Nondestructive testing methods for Saturn 5 space vehicle with emphasis on NDT equipment for Apollo program

10 p1699 A69-23050

Electrical, thermal and mechanical requirements in design of Landing Radar Electronic Assembly for Apollo Lunar Module

10 p1663 A69-23537

Schmidt all-reflecting telescope for UV imaging in Apollo Earth Orbital Scientific Experiment

11 p1887 A69-25101

Apollo Range Instrumented Aircraft /ARIA/ telemetry antenna system for trajectory tracking, discussing computer program for simulation of behavior

11 p1840 A69-25309

Apollo mission simulation, discussing Command Module Simulator /CMS/, onboard computer system and dynamic visual presentation via infinity-optics display

[SMPTE PAPER 105-74] 12 p2055 A69-25768

Thermal vacuum /TV/ manned test operations related to Apollo lunar module in simulated space environment

15 p2558 A69-30394

Apollo/Saturn 5 base at Kennedy Space Center and facilities and equipment supporting manned lunar mission, discussing site location choice and launch complex design concept

16 p2767 A69-32429

Photographic system for astronaut training in Apollo Mission Simulator, using fixed camera and moving earth model coincident with strip color film past exposure slit

16 p2792 A69-32787

Pivotal computer operations in Apollo NASA Communication Network, describing UNIVAC computers in use and design considerations

18 p3100 A69-34267

Project management of Apollo short stack testing project, discussing organization, planning, operations and procurement to cut testing time

18 p3233 A69-34616

Apollo project by-products, emphasizing NASA project management methods application to large R and D projects

18 p3233 A69-34649

Apollo 10 field sequential color TV system, describing camera modifications, systems design and equipment compatibility problems

18 p3101 A69-34810

Nondestructive testing methods for Saturn 5 space vehicle with emphasis on NDT equipment for Apollo program

19 p3431 A69-36329

NASA lunar survey and mapping for generating Apollo satellite landing navigation control, using analytic photogrammetry, camera position and altitude data of lunar topography

20 p3536 A69-36931

Plastics applications in Apollo-Saturn 5 program, considering foam, honeycomb, conformal coatings, embedment compounds, dielectrics, damping compounds, adhesives, sealants and gaskets

21 p3751 A69-38533

Apollo translunar injection burn simulation, analyzing polynomial solutions of optimum geometry and characteristic velocity

[AAS PAPER 68-150] 21 p3820 A69-39225

Apollo Guidance, Navigation and Control system prelaunch checkup, flight experience and error analysis

[AIAA PAPER 69-891] 21 p3824 A69-39416

Spectral reflectivity and emissivity observations of proposed Apollo landing sites compared with other lunar localities and unmanned lunar probe data

21 p3815 A69-39585

Visible and IR spectral reflectivity of Apollo lunar landing sites, attributing reflectivity differences to compositional and/or mineralogical differences

21 p3815 A69-39586

Lunar surface IR emissivity comparison spectra including proposed Apollo landing sites, indicating Si-O ratio difference for Plato crater

21 p3815 A69-39587

Real time targeting for Apollo lunar orbit insertion maneuver burn, discussing impulsive maneuvers for flight control

[AIAA PAPER 68-848] 21 p3828 A69-39760

Apollo lunar sample collection and analysis, discussing astronauts activity and equipment, sample types, laboratories for radioactive counting and gas analysis, etc

22 p3919 A69-40191

Real time orbit determination system at NASA manned space center for Apollo missions

[AIAA PAPER 69-938] 22 p4020 A69-40321

Operational reliability verification of Apollo real time mission program and testing structure, discussing

environment, processing, controls, response criteria, etc

[AIAA PAPER 69-981] 22 p3907 A69-40361

Lunar TV camera for Apollo missions, discussing operational requirements and design

23 p4162 A69-41478

Miniaturized seismic refraction system for manned lunar landings consisting of geophones, three channel amplifier, calibrator and logarithmic compressor

23 p4162 A69-41533

Apollo Extravehicular Communication Telemetry System for monitoring astronaut portable life support system, space suit performance and body functions on lunar surface

23 p4121 A69-41767

Crew survival insurance under emergency situations during manned space flight, discussing Apollo abort system refinements

[AAS PAPER 69-469] 24 p4272 A69-42848

Lunar landing decision, analyzing American space policy making process with aid of Huntington model

[AAS PAPER 69-500] 24 p4418 A69-42853

Apollo type reentry trajectory optimization numerical methods

24 p4386 A69-43281

Aerospace pressure vessel materials selection and construction, applying Apollo program experience to future programs

24 p4324 A69-43430

APOLLO SHORT STACK

Static structure ground test for Saturn-Apollo vehicle short stack, describing air pressure simulation, data acquisition and readout systems

15 p2589 A69-31079

APOLLO SPACECRAFT

Apollo landmark sighting by astronaut using Apollo onboard navigation system, simulating cloud cover effects with Monte Carlo technique

01 p0110 A69-10692

Apollo thermal protection system, noting low density ablation, flight and ground tests

[AIAA PAPER 68-1142] 03 p0519 A69-13558

Entry corridor thermal entry limits for Apollo spacecraft defined for design of thermal protection system

[AIAA PAPER 68-1144] 03 p0521 A69-13673

Apollo guidance, navigation, stabilization and control subsystems, detailing inertial, optical and computer units for data processing and collecting

04 p0665 A69-14881

Apollo 4, 5 and 6 space missions, with preview of Apollo 7, 8 and 9 missions

06 p1017 A69-17672

Thermochemical and mechanical ablation mechanisms for Apollo heat shield material, comparing surface thermochemistry computer program and arc plasma tunnel data

[AIAA PAPER 69-98] 06 p1038 A69-18149

Radiation measurements inside Apollo 4 and 6 command modules during passage through trapped radiation belts

[AIAA PAPER 69-17] 06 p0884 A69-18202

Apollo spacecraft fire, presenting recommendations for power supply, cabin atmosphere and safety measures

07 p1071 A69-18970

Apollo LM and CSM tracking systems boresight shift reducible by decreasing modulation indices or scaling factor alpha

10 p1672 A69-23277

Computerized shake test facility for Saturn 5 moon rocket, describing data acquisition, magnetic tape units, X-Y plotters, display devices, etc

10 p1672 A69-23285

Guidance and control concepts and hardware for atmospheric entry of Mercury, Gemini and Apollo spacecraft

11 p1914 A69-25724

Apollo spacecraft command module aerodynamic characteristics during entry compared with wind tunnel test predictions

[AIAA PAPER 68-1008] 12 p2012 A69-26789

Aerodynamic measurements on Apollo CM model at hypersonic flow simulating earth orbital reentry trajectory

12 p2012 A69-26800

Saturn 5 boost phase environment simulation on Apollo stages, discussing fixtures, load devices, instrumentation and ground test

15 p2588 A69-30405

Manned spacecraft fuel cell selection and design, discussing Gemini ion exchange membrane and Apollo Bacon cell systems

16 p2737 A69-32406

Attitude control system for Apollo Telescope Mount, discussing selection features based on manned orbital space platform requirements

18 p3168 A69-34683

Halon 1301 fire extinguisher for burning spilled hypergol on Apollo/Saturn LM adapter, discussing concentration requirements and exposure hazards

18 p3094 A69-35062

Apollo optics system ground and flight performance tests results, suggesting possible design changes for sunlit space environments

19 p3307 A69-35796

Apollo lunar module landing radar, discussing descent phases, operating modes, assemblies and Surveyor radar

19 p3267 A69-35797

Apollo navigation, guidance and control systems in command module and lunar module, discussing inertial, optical and computer hardware operation

19 p3369 A69-35799

Apollo spacecraft equipment qualification program for margin assurance, discussing ground and flight tests

19 p3430 A69-36015

Apollo spacecraft fire, presenting recommendations for power supply, cabin atmosphere and safety measures

20 p3483 A69-38218

Crawler-Transporter at Kennedy Space Center for moving ground support equipment, Apollo/Saturn space vehicle and mobile launcher, describing design and components

21 p3690 A69-38754

Digital autopilots for Apollo CSM and CSM/LM vehicles thrust vector control, describing modifications of onboard computers and programs

[AIAA PAPER 69-847] 21 p3762 A69-39377

Apollo-Saturn 5 propulsion and structure feedback loop, analyzing Pogo components and Nyquist plot application

[AIAA PAPER 69-877] 21 p3824 A69-39403

Apollo Guidance, Navigation and Control system prelaunch checkup, flight experience and error analysis

[AIAA PAPER 69-891] 21 p3824 A69-39416

Apollo 6 multisensor imagery of Wilcox Playa /prehistoric lake remnant/ in Arizona, using IR scanner, microwave radiometer, vidicon system and cameras

22 p3942 A69-40988

Telecommunications performance of two lunar relay satellite system /LRSS/, determining operation capabilities with Apollo communications system

23 p4129 A69-42508

Apollo 11 guidance and navigation systems involved in lunar landing, describing command and service modules design

24 p4295 A69-42550

Apollo afterbody heat transfer, studying ablation effects for various reentry angles of attack

24 p4415 A69-43680

APOLLO TELESCOPE MOUNT

Real time digital computer hardware simulation of Apollo Telescope Mount /ATM/ mission

[AIAA PAPER 69-940] 22 p3919 A69-40323

Apollo Telescope Mount /ATM/ solar cell module electrical performance testing using sunlight simulation

23 p4072 A69-42286

APOLLO 10 FLIGHT

Apollo 10 lunar landing module, detailing weight, shape, electronic system and rendezvous radar

18 p3207 A69-34629

APOLLO 11 FLIGHT

Lunar seismology, discussing Apollo 11 instrumentation and experiments, moonquakes and travel times measurements and lunar tides

19 p3315 A69-36765

Apollo 11 moon reflector-laser beam experiment, discussing range changes produced by axial rotation and orbital motion and use for earth-moon dynamics

19 p3339 A69-36766

Apollo 11 mission and future space exploration prospects including moon base, manned space station, reusable shuttle vehicles, etc

23 p4211 A69-41477

Apollo 11 observations of lunar surface glazing, considering radiation heating due to solar outbursts, rocket exhaust effects, shock heating or volcanism, erosion, etc

23 p4216 A69-42202

Lunar rocks and fines samples physical, chemical, mineralogical and biological preliminary analysis at Lunar Receiving Laboratory

24 p4382 A69-42935

APOLLO 7 FLIGHT

APOLLO 7 FLIGHT

Clinical report on Apollo 7 and 8 mission medical data, discussing preflight preventive medical activities, inflight treatment, radiation levels, etc
09 p1446 A69-22542

Apollo 7 and weather satellite observation photographs of hurricane Gladys and typhoon Gloria
10 p1722 A69-22944

APOLLO 8 FLIGHT

Clinical report on Apollo 7 and 8 mission medical data, discussing preflight preventive medical activities, inflight treatment, radiation levels, etc
09 p1446 A69-22542

Aeronomic phenomena observed near Altair and theta Aquila ascribed to Apollo 8 lunar flight
11 p1957 A69-24411

Moon pictures from Apollo 8 spacecraft including full moon, crater Tsiolkovsky and unidentified area showing volcanism
14 p2527 A69-29889

Apollo 8 photooptics, considering TV camera and broadcasts, photographic equipment and visual observation
15 p2609 A69-30469

Lunar photometric function near zero phase from Apollo 8 closeup photography, noting higher reflected brightness than at 1.5 degree phase angle
23 p4220 A69-42380

APOLLO 9 FLIGHT

Apollo 9 multispectral photography compared with photographs taken simultaneously by aircraft using same film filter combinations
15 p2608 A69-30452

APPEARANCE

Color and appearance properties of paint films and relations to amounts and properties of colorants, noting translucent plastics and metallized paint films
04 p0620 A69-14886

APPENDAGES

NT FOREARM
NT HAND [ANATOMY]
NT LEG [ANATOMY]

Deployable appendages of OGO attitude controlled spacecraft design
06 p1017 A69-17606

APPLICATIONS OF MATHEMATICS

Statistical characteristics of random phase quasi-harmonic process investigated for application of mathematical representation
02 p0208 A69-12263

Application of modern stability theory to solution of practical problems by means of comparison theorems, demonstrating effectiveness of method
03 p0467 A69-13747

Mathematical methodology for nonlinear equations of transport processes, discussing group concept and similarity, boundary value conversion to initial value, etc
[AICHE PAPER 31A] 08 p1302 A69-19849

Applied mathematics and mechanics - Conference, Prague, April 1968
10 p1675 A69-22874

Collection of papers on fracture, Volume 2, Mathematical fundamentals
11 p1974 A69-24667

Soviet collection of papers on mathematical physics
11 p1915 A69-24759

Applied function theory, Volume 6, Tables of theta functions and elliptical functions with examples, Part I
14 p2471 A69-29774

Book on Bessel functions with physical applications covering solution of Bessel and associated equations, integral representations, Fourier-Bessel series, Hankel transforms, etc
15 p2643 A69-30037

Uniform approximation mathematical theory applied to wave propagation problems, considering cylindrical waves and rainbows and glory scattering
15 p2653 A69-31165

Mathematical analysis of compaction process for powder mixtures of different metals assuming known characteristics of components
15 p2641 A69-31182

Book on mathematical methods in kinetic theory covering boundary value problems associated with Boltzmann equation, model equations, rarefied gas dynamics, etc
16 p2811 A69-31721

Book on estimation theory and applications covering stochastic processes, linear estimators and recursive formulations
16 p2764 A69-32386

Book on quasi-reversibility application to partial differential equations covering parabolic, nonparabolic, elliptic equations and boundary conditions control
17 p2994 A69-33205

Book on applicable mathematics covering areas of application in engineering and technology
17 p2995 A69-33618

Celestial mechanics, Part 1, covering almost periodic functions, relation to classical astronomy and modern mathematics, implicit function theorem, three body problem, etc
18 p3199 A69-34928

Mathematical methods for quantum mechanical problems caused by electromagnetic field interaction with matter
18 p3175 A69-35402

Negative absolute temperatures physical meaning confirmed mathematically using statistical physics
18 p3231 A69-35403

Scientific theories construction analyzed, including cognitive role of mathematics
20 p3575 A69-37012

Book on mathematical foundations of systems analysis covering calculus, linear algebra, linear and non-linear programming and major applications
21 p3754 A69-38576

Trajectories of roots of two channel systems with antisymmetric cross couplings using geometrical and analytical methods, noting hodograph
21 p3686 A69-38886

Antenna synthesis problems in mathematical physics, discussing radiation pattern, shape and source and optimal solution via operators spectral theory
21 p3682 A69-39124

Monotonic minimization algorithm for nonsmooth extremal problems of mathematical programming, game theory, approximations and optimal control in arbitrary Banach space
23 p4181 A69-41524

Mathematical flow graphs application in analysis and design of elastomechanical structural systems
[AAS PAPER 69-151] 24 p4339 A69-42816

APPLICATIONS PROGRAMS [COMPUTERS]
MACRO /methodology for allocating corporate resources to objectives/ for R and D, discussing program for optimal budget management
15 p2720 A69-30958

APPLICATIONS TECHNOLOGY SATELLITES
Space applications program including communications and navigation meteorology, earth resources survey and geodesy
[UN PAPER 68-95437] 01 p0178 A69-10472

Book on Demeter-earth resources satellite system covering design, instrumentation, cost estimates, economic benefits and political considerations
01 p0163 A69-11333

Ionospheric electron density determined from Faraday effect, using ATS-3 radio signals
02 p0237 A69-11660

Design evolution of mechanically despun antenna systems from ATS to INTELSAT, discussing RF and control systems
03 p0403 A69-13239

NASA Space Application Program strategy, discussing research and development trend toward complexity, versatility and multidisciplinary use of larger spacecraft
03 p0511 A69-13427

Mission analysis for applications satellites, discussing tradeoffs among mission objectives, launch vehicles, spacecraft and geopolitical considerations
03 p0511 A69-13428

Bibliography on applications satellites covering communication satellites, technology, astronomical science, photography, etc
03 p0535 A69-13429

Application satellites for air traffic control, meteorology and earth resources, considering European participation
03 p0520 A69-13587

Aeronautical satellite communications, discussing results with NASA ATS-1 satellite
05 p0790 A69-16721

Channel multiplier spectrometer for low energy electrons and protons at synchronous altitude on ATS-E satellite
[IEEE PAPER 3C-5] 07 p1135 A69-19199

Cosmic radio noise intensity measurements by ATS 2 satellite-borne radiometer
07 p1224 A69-19715

Ammonia resistojet stationkeeping subsystem on-board ATS 4 satellite, noting flight test data agreement with ground tests
[AIAA PAPER 69-296] 09 p1560 A69-21212

Cesium contact ion microthruster experiment on-board ATS 4, measuring emission currents and spacecraft potentials
[AIAA PAPER 69-297] 09 p1561 A69-21218

Experimental communication satellites Score, Courier, Telstar, Relay, Syncom, Intelsat 1 and Molniya 1, discussing equipment, results, and ATS program
09 p1608 A69-21272

Attitude determination and hydrogen peroxide control system for spacecraft orientation in Syncom, Early Bird and ATS
[AIAA PAPER 67-532] 09 p1610 A69-21988

ATS satellite distorted photographs conversion into normal and Mercator projections, using computer programs
10 p1689 A69-22945

Solar flare and magnetic storm signals from ATS 1 geostationary satellite on May 28, 1967, deriving total electron content
11 p1951 A69-25161

Meteorological application of ATS observations in form of time lapse movies of weather in motion, describing camera and data flow
[AIAA PAPER 68-1094] 12 p2174 A69-26804

Ionospheric electron density determined from Faraday effect, using ATS-3 radio signals
13 p2256 A69-28691

Solar proton flux in two energy intervals measuring by ATS detectors during January 1967 event compared with data from satellites outside magnetosphere
14 p2509 A69-28935

ATS 3 satellite reflectometer experiment carrying test samples to measure specular reflectance, noting silica shield effects
[AIAA PAPER 69-644] 17 p3071 A69-33270

Heat pipe application to thermal equalization around ATS-E solar cell mounting panels, comparing predicted and actual performance
[AIAA PAPER 69-630] 17 p3072 A69-33277

Meteorological satellite research, ATS-3 program earth color picture from oceanographic and geomorphological viewpoints and U.S.S.R. research
17 p3000 A69-33777

AIAA view on Post-Apollo space program, considering multiple goals, unmanned application satellites and manned space flight objectives
18 p3236 A69-35136

Solar cell radiation damage during 146.8 days in synchronous orbit on satellite ATS 1, discussing radiation shields
19 p3253 A69-35704

Gain measurement of two element phased array aperture antenna during ATS-C tracking
19 p3272 A69-36254

ATS 3 spacecraft ammonia-fueled resistojet engine test performance
[AIAA PAPER 68-553] 21 p3786 A69-39754

High voltage power supply electronic subsystem for electric propulsion of ATS-D satellite, describing packaging, temperature control and performance in simulated space environment
22 p3999 A69-39948

ATS 3 mechanically despun communications antenna, using parabolic cylindrical reflectors, in-line feed and vernier type stepping motor drive positioning
22 p3913 A69-40692

Intersatellite microwave laser communication system for ATS-F and ATS-G, discussing experiment, functional design and parameters
23 p4120 A69-41758

Short term frequency stability and spectral purity measurements of ATS 1 multiple access communication system
23 p4129 A69-42509

TDMA/PCM system for communication tests via Applications Technology Satellites, discussing time synchronization and bit and frame coherency
23 p4129 A69-42510

Cesium contact ion microthruster experiment on-board ATS 4, measuring emission currents and spacecraft potentials
[AIAA PAPER 69-297] 24 p4365 A69-43238

APPROACH
U INSTRUMENT APPROACH
RADAR APPROACH CONTROL

Piloting aspects of jet V/STOL aircraft for poor weather operations without complicated ground aids, discussing deceleration transition, forward speed and final approach angle
01 p0010 A69-10868

Low visibility instrument landing of aircraft using ILAS and inertial guidance
01 p0114 A69-11012

Approach light efficiency, discussing Calvert bar system and strobe flash on basis of pilot questionnaire polling
06 p0884 A69-18029

Manual control displays for instrument landing approach of large subsonic jet transport, evaluating closed loop system performance and scanning workload
10 p1650 A69-23877

Third phase dynamics of planetary approach of earth-Mars journey, computing approach trajectory on two body spacecraft-Mars assumption
11 p1968 A69-25725

Direct lift controller design for aircraft approach and landing by computer program based on Kalman linear state regulator theory
17 p2902 A69-34027

On-course monitoring for instrument landing system glide path operating with far field samples
17 p3003 A69-34105

Wind shear effects on jet aircraft approach, discussing airspeed and glide path position maintenance requirements
[AIAA PAPER 69-796] 19 p3367 A69-35634

Wave-off Decision Device to define potential aircraft carrier-ramp-strike wave-off criteria for aircraft approach
20 p3573 A69-37161

Subsonic glide landing approach guidance for unpowered lifting vehicles, using perturbation feedback and approximation of heading and position coordinates
[AIAA PAPER 69-865] 21 p3763 A69-39391

Longitudinal flying qualities evaluation by pilots in carrier approach flight simulation, describing experiment apparatus, procedures and results
[AIAA PAPER 69-895] 21 p3648 A69-39419

Aircraft navigation system requiring computer and display for approach guidance to circular orbit over fixed ground area
[AIAA PAPER 69-986] 22 p3978 A69-40366

Airport capacity increase in terms of operations delay, discussing computer aided approach systems and additional runways
22 p3925 A69-40429

B-747 safety assurance program, discussing organization, management, hazard sources, accident statistics, night visual approach and maintainability
22 p3867 A69-41135

V/STOL aircraft radar inertial navigation system, describing approach and landing phase flight test results
[AAS PAPER 69-401] 24 p4252 A69-42831

APPROACH INDICATORS

Flight inspection positioning system, discussing microwave interferometer angle calibration for instrument landing
03 p0430 A69-13680

NT RITZ AVERAGING METHOD
NT SOMMERFELD APPROXIMATION

Steady state problem of convective heat transfer in half space with boundary conditions of third kind
01 p0174 A69-10103

Book on approximate representation of regular functions of complex variable, discussing Faber polynomials, best approximation theorems, etc
01 p0104 A69-10616

Coulomb approximation for dipole and quadrupole transitions, calculating tables for radial matrix elements
01 p0124 A69-10901

Smoothing and prediction of satellite orbit elements by stochastic approximation method, solving nonlinear equations system
01 p0158 A69-11319

Exponential approximation with piecewise linear error criteria for continuous function over interval
01 p0107 A69-11415

Ultraspherical potential approximation in nonlinear symmetric free oscillations applied to systems with hardening and softening cubic nonlinearities
01 p0107 A69-11418

Germanium tunnel diode current-voltage characteristics, proposing expression for approximation of differential conductivity as function of voltage
02 p0214 A69-11613

Modified Galerkin method applied to approximate solutions of two dimensional elasticity equations of equilibrium
02 p0338 A69-11748

Approximate solution of linear functional, singular integral and integrodifferential equations by general theory of approximate methods
02 p0272 A69-12163

Mathematical analysis to determine complete characteristic of functions tolerating polynomial approximation in mean in crescent type noncaratheodory domains
02 p0272 A69-12164

Supersonic gas jet impingement on inclined plane barrier, calculating parameters by approximation
03 p0413 A69-12958

Approximation of correlation or transfer function obtained through exponential polynomial to determine stochastic process spectral density
03 p0409 A69-12976

Approximation for discretization error of discrete analog of Bergman harmonic kernel, discussing discretization error in Dirichlet and Neumann problems for Laplace equation
03 p0456 A69-13555

Cylindrical wave approximation modified to include axial effects, discussing time histories of deflection and applicability range
04 p0671 A69-14410

Approximate method for finding solution of weak free convection in partially filled vessel in gravitational field
04 p0685 A69-14619

Autoionizing states effects on absorption cross sections for ejection of outer subshell electron from atomic oxygen
04 p0633 A69-15127

Approximate method to determine nonstationary thermal fields in solid bodies with thermal capacity and thermoconductivity coefficient depending linearly on temperature
04 p0688 A69-15409

Approximate method for wave equation with dielectric variation in propagation direction
06 p1030 A69-17116

Double stochastic approximation algorithm for minimizing mean square error in finite expansion of unknown probability distribution functions
06 p0947 A69-17361

Approximate optimal control of nonlinear dynamical system with state dependent variables, using stochastic linearization of system
06 p0902 A69-17404

Optimal approximation of functional matrix, giving upper bounds for deviations of general matrices from closest special matrices
06 p0948 A69-17495

Hydromagnetic plasma stability in infinite electrical conductivity approximation applied to smooth closed systems, discussing ballooning instability mode
06 p0965 A69-17519

Approximate solution for determining satellite motion around axisymmetric planet
06 p1005 A69-17563

Successive approximation for iterative construction of near optimum guidance
06 p0954 A69-17573

Approximate expression for temperature distribution during heat transient in infinite solids of plane, cylindrical and spherical geometry
06 p1025 A69-17779

Approximate solution for hollow circular cylinder with fixed ends under axial displacement and cylindrical surfaces free from traction, using boundary layer technique
07 p1230 A69-18265

Soviet book on theory of approximate methods and applications to numerical solution of singular integral equations
07 p1174 A69-19580

Solution of equations of motion of charged particles in constant magnetic field and variable electric field
08 p1361 A69-20213

Approximate equations for transonic viscous heat conducting gas flow past finite body of revolution
08 p1251 A69-20322

Kinetic equations for polyatomic gases obtained by extending 13 moment approximation to solve inelastic Boltzmann equation, resulting in 17 moment approximation
08 p1357 A69-20784

Approximation method applied to closed viscous streamline flow in rectangular cavity, discussing constant shear stress boundary condition
08 p1304 A69-20811

Planckian stellar velocity distribution function, moduli and projections on coordinate planes determined by ellipsoidal approximation
09 p1589 A69-21370

Optimal control problem involving approximation by monotone functions
09 p1531 A69-21412

Mathematical model for improving statistical approximation convergence and accuracy in estimating structural components parameters
09 p1461 A69-21857

Optimum number of terms in Prandtl approximation of realizations of random process by polynomials
09 p1475 A69-22667

Approximate solution method for Navier-Stokes equations for incompressible viscous fluids
10 p1718 A69-22861

Second order system equations to approximate transfer function of homogeneous pneumatic instrumentation line terminated with pressure transducer
10 p1692 A69-23267

Similar boundary layers in Prandtl approximation determining similarity conditions for second order effects due to curvatures and outer vorticity
10 p1632 A69-23700

Periodic functions approximated by linear methods of Fourier series
11 p1908 A69-24697

Germanium tunnel diode current-voltage characteristics, proposing expression for approximation of differential conductivity as function of voltage
11 p1847 A69-24721

Physical data representation by approximation formulas for computer processing, considering polynomials, rational and spline functions and error curves
11 p1842 A69-24904

Unforced periodically varying systems, developing approximate solutions with Floquet theory
11 p1909 A69-25289

Theory for approximation of analytic functions given on closed spaces with piecewise smooth boundaries
12 p2120 A69-26198

Linear plate theory deficiency for large plate deflections, considering approximation of nonlinear behavior permitting changes in form without additional terms
12 p2185 A69-26822

Eigenvalue approximation for first order systems by introducing artificial periodicity through successive impulse functions of alternate sign
13 p2287 A69-27242

Integral equation solved by successive approximation procedure for determining mass distribution in galaxies on radial velocity basis, applying to NGC 7331
13 p2353 A69-28325

Satellite motion relative to center of mass and resonances by approximate solutions to motion equations, applying asymptotic methods
13 p2357 A69-28502

Linear approximation of electron temperature increment and electron mobility in nondegenerate polar semiconductor in crossed fields
14 p2508 A69-29662

Successive approximations method applied to system of independent equations describing electromagnetic wave propagation in space with gravitational wave metric
14 p2487 A69-29669

Polygonal approximation to functional equation solution by using search algorithms, listing FORTRAN IV programs
15 p2644 A69-30424

Electromagnetic wave propagation in anisotropic inhomogeneous media by geometric optics approximation, obtaining equations for beam trajectories in spherically symmetrical medium
15 p2569 A69-30949

Uniform approximation mathematical theory applied to wave propagation problems, considering cylindrical waves and rainbows and glory scattering
15 p2653 A69-31165

Plate bending problems, comparing various approximate analytical methods including point matching, Galerkin, Ritz, Kantorovich and least squares techniques
16 p2874 A69-32160

[AIAA PAPER 68-296] 16 p2874 A69-32160

Soviet monograph on projective-iterative methods of solving operator equations in generalized metric and structurally normalized spaces
16 p2805 A69-32366

Monograph on Navier-Stokes equations with integral relations approximate solution and application to flow around flat plate of finite length
17 p2949 A69-32993

Approximate equations for transonic viscous heat conducting gas flow past finite body of revolution
17 p2891 A69-33312

Analog to digital conversion, describing successive approximation technique with built-in sample and hold and discrete analog amplitude modification
17 p2934 A69-34124

Reliability prediction limited to approximations related to past experience on similar equipment
18 p3147 A69-34517

Convergence of discrete approximations of Navier-Stokes equations to solutions of corresponding differential equations
18 p3121 A69-34613

Three dimensional supersonic flow past pointed nonaxisymmetrical bodies characterized by great local surface curvature changes, using new approximation
18 p3086 A69-34705

Regularization method for maximum height ascent of rocket uniformly approximating control function by gradient projection method
18 p3164 A69-34706

Planckian velocity distribution function, moduli and projections on coordinate planes determined by ellipsoidal approximation
18 p3198 A69-34759

Heat transfer coefficient approximation under thermal instability conditions complicated by radiant heat exchange at plate surface, noting aircraft design applications
18 p3230 A69-34984

Simplification of linear equation of first kind with Tikhonov smoothing functionals
18 p3165 A69-35052

One degree of freedom systems nonlinear oscillations differential equations periodic solutions by successive approximations, obtaining proof for convergence
18 p3174 A69-35311

Free oscillation period of nonlinear oscillators with one degree of freedom, discussing approximation method
19 p3373 A69-36310

Large atmospheric motions analyzed by elliptic partial differential equation and hydrostatic and quasigeostrophic approximations
19 p3364 A69-36504

Singular perturbations and boundary layer theory for approximating solutions to simple ordinary differential equations
20 p3515 A69-37583

Partial differential equation initial value problems analyzed by ordinary differential equations via functional approximation method
21 p3756 A69-39132

Approximations for meson-nucleus scattering length from energy level measurements on mesonic atoms, emphasizing formula for negative pi mesonic atoms
22 p3987 A69-41004

Successive approximations method applied to boundary problem for quasi-linear parabolic equation in n dimensional Euclidean space
23 p4181 A69-41411

Equations governing cosmic ray modulation and approximate equations valid at high and low energies
24 p4367 A69-43169

Uniqueness theorem and successive approximations for delay functional differential equations, noting scalar problems
24 p4341 A69-43236

P-Q norms generalized inverse concept of matrix derived from extension of Penrose best approximate solution of linear equations
24 p4342 A69-43703

APT [PICTURE TRANSMISSION]
U AUTOMATIC PICTURE TRANSMISSION

ARC CHAMBERS
Arc driven shock tube with alumina ceramic liner to reduce driver gas contamination, noting shock speed and test time increase
[AIAA PAPER 68-366] 09 p1570 A69-21957

ARC DISCHARGES
Electron density in arc discharge between carbon electrodes and in discharge with Na vapor, noting relation to temperature and current
01 p0128 A69-10433

Arc discharge in axially turbulent airflow producing equilibrium air plasma
02 p0285 A69-11571

Capillary arc source spectroscopy, determining plasma temperature and pressure dependence on capillary geometry and discharge current
02 p0286 A69-11573

DC arc plasma torch as heat source in plasma tunnel, discussing nonuniformity of plasma flame
02 p0291 A69-12424

Pulsed arc source using plasma jet to obtain intense hydrogen ion beam
03 p0412 A69-13842

Equivalent pressure concept verification for arc discharge with incandescent cathode in mercury vapor
03 p0478 A69-13843

Arc and HF discharges in Ne-He lasers, comparing output power, spectral line intensities and reduced electric field vs reduced tube radius plots
03 p0441 A69-14139

Nonequilibrium ionization rate in arc discharge, studying perturbations effect in near cathode Langmuir layer
04 p0635 A69-14763

Fast response thin skinned calorimeters for high heat flux profiles of arc jet flows
04 p0602 A69-15427

Low voltage Knudsen arc in cesium argon mixture using tungsten electrodes, analyzing current voltage characteristics
06 p0963 A69-16920

Arc cloud thermal conductivity effects on discharge temperature and radiation intensity, solving energy balance equation
06 p0964 A69-17254

Arc phenomena and gas dynamic effects during shock heated plasma interaction with magnetic field
07 p1188 A69-18273

Spectroscopic analysis of hydrogen spark plasma discharge parameters at small PD values, discussing shock wave initiation accounting for transition to quasi-stable phases
08 p1360 A69-20100

Kine films of gas flows within highly luminous transient arc taken by laser schlieren technique
08 p1316 A69-20615

Behavior of bounded and free arc discharges under action of transverse magnetic fields and gas flows
08 p1366 A69-20767

Rotating spoke in unstable pulsed MPD arc, noting rotation frequency and resemblance to plasma rotation [AIAA PAPER 69-234] 09 p1561 A69-21219

Segmented anode, carbon dioxide-hydrogen performance and hollow cathode erosion tests on low power MPD arc thruster, noting current measurements [AIAA PAPER 69-242] 09 p1563 A69-21236

Low current arc discharge plasma diagnostics by light probe, analyzing deviation of resonance level population from equilibrium described by Saha equation
09 p1546 A69-21586

Device for producing high current high pressure arc discharge using water cooled chamber and Be bronze electrodes
09 p1547 A69-21593

Total radiation of dense low temperature argon arc discharge plasma measured by bolometer, showing increase with arc current and pressure
09 p1547 A69-21595

Nitrogen impurities effect on electron energy balance in DC arc burning in inert gas
10 p1732 A69-23442

Heat flux toward electrodes measured under high current discharge, showing conductive heat transfer and erosion effect
11 p1928 A69-25227

Chain mechanism of arc discharge development in crossed electric and magnetic fields explained by direct ionization of neutral particles by ions
11 p1932 A69-25540

Current-voltage characteristics and ionization equilibrium of low voltage arc plasma in narrow gap of thermionic converter at high current density
11 p1933 A69-25554

Multiple lens high speed camera with mechanical shutter for investigating AC arc in circuit breaker during zero current, noting framing rate and capacity
12 p2085 A69-26159

Low pressure arc discharge plasma, studying ion-acoustic oscillations development in magnetic field
12 p2136 A69-26527

High pressure arc discharge diagnostics with spectroscopic method relating spectral profiles to central temperature, pressure and temperature distribution
12 p2094 A69-26968

Laser light scattered from arc discharge, observing enhanced plasma oscillations
13 p2307 A69-27629

Screw instability in glowing discharge plasma column in longitudinal magnetic field generalized to instabilities in low pressure arc, Penning and high current discharges
13 p2315 A69-28526

Decaying arc discharge Cs plasma luminosity anomalous behavior due to combined effect of intrinsic monotonic and complex nonmonotonic emissions
14 p2490 A69-28996

Low voltage arc discharge characteristics in cesium vapor, considering energy balance, electron temperature, energy losses, volt-ampere characteristics, ignition, cathode temperatures, etc
14 p2401 A69-29234

Knudsen arcs kinetic theory with cesium/inert gas mixtures in narrow gap between parallel plate electrodes, discussing fast particle beams and electron scattering
14 p2491 A69-29245

Thermal emission converter, using Cs-Ba mixture in low voltage arc mode, detailing construction
14 p2403 A69-29247

Experimental and theoretical data correlation on low voltage arc in thermionic converters using cesium vapor, describing discharge plasma by solving differential equation system
14 p2404 A69-29254

Excited cyanide molecules concentration in arc discharge determined from spectral bands absolute intensities during electron transition
15 p2654 A69-30080

Spectroscopic determination of temperature fields in water and transpiration cooled constricted Ar arc jets at atmospheric pressure
15 p2657 A69-30155

H beta line for measuring radial temperature distribution in cylindrical hydrogen arc at one atm and to 150 A current in high temperature range
15 p2671 A69-31101

Longitudinal electric field, electron density and temperature in positive column of low pressure Cs-Ar DC arc discharge, discussing Cs vapor depletion
19 p3380 A69-36441

Light sources in 0.15-20 micron spectral range from published literature, unpublished reports, light source manufacturers and individuals
23 p4191 A69-42190

Low pressure arc discharge motion between concentric electrodes in transverse magnetic field, noting Lorentz, stationary and retrograde modes due to temperature nonequilibrium [AIAA PAPER 68-708] 24 p4359 A69-43644

ARC HEATING

Hydrogen arc in axially parallel magnetic field produces higher plasma temperatures by reduced thermal conductivity coefficient
07 p1189 A69-18489

Arc jet generation and control noting application to hyperthermal aerospace environment studies, wind tunnels and materials heating and fabrication
08 p1371 A69-21128

Enthalpy distribution in plasma tube arc heater inlet flow region with hot and cold gas core boundary in presence of electric field
09 p1553 A69-22538

High pressure AC arc heater system design criteria, discussing magnetic field, chamber gas flow, stabilizing elements, etc [AIAA PAPER 69-348] 13 p2243 A69-28283

Low voltage Knudsen arc in cesium-argon mixture for thermal emission converters
14 p2403 A69-29248

Multimegawatt arc heater for hypersonic continuous flow high enthalpy wind tunnel
15 p2586 A69-30378

Flow field of highly ionized arc heated supersonic free jet, using continuous flow test facility [AIAA PAPER 68-135] 16 p2772 A69-32153

He and Ar arc-heated flows into reservoir and expansion in converging-diverging supersonic nozzles, considering flow equilibrium effect on heat transfer and enthalpy
20 p3631 A69-37198

Operational characteristics of multiple arcjet wind tunnel for time varying mass flow rate programs, calculating isentropic core densities and velocities [AIAA PAPER 68-229] 22 p3927 A69-40541

Arc-heated hypersonic wind tunnel for simulated spacecraft reentry environment, aerodynamic heating characteristics and research applications
22 p3927 A69-40595

Arc-heated plasma jet wind tunnel flow properties in plenum chamber by spectroscopic techniques, measuring electron excitation, temperature and densities 22 p3990 A69-40596

Arc heating of shock tube driver gas, describing radiative energy transfer mechanism 23 p4147 A69-41895

ARC JET ENGINES

Surface parameters influence on energy transfer to arc jet anode, discussing work function, accommodation coefficient and diffuse reflection coefficient of electrons [AIAA PAPER 69-107] 06 p1039 A69-18185

Pulsed MPD arc jet electric propulsion system requirements, examining physical constraints, pulse duration, duty cycle, power network structural details, etc [AIAA PAPER 69-269] 09 p1560 A69-21215

Radiation cooled MPD arc thruster design and performance, noting specific impulse relation to arc spoke rotation frequencies [AIAA PAPER 69-245] 09 p1566 A69-21259

Electric propulsion systems for manned planetary exploration flights, discussing arc jet, ion and plasma engines 18 p3185 A69-35108

Rotational arc motion in MPD accelerators with strong axial fields predicted by plasma physics equations 23 p4201 A69-41909

ARC LAMPS

Xenon high wattage short arc lamps for space/solar simulators, describing seals, electrodes shapes and cooling, operating characteristics, etc [AIAA PAPER 69-998] 22 p3920 A69-40376

ARC MELTING

Titanium production, discussing two stage electrode vacuum arc melting furnace, control and cooling equipment 02 p0229 A69-12068

Vacuum arc melted W and W-Re alloys mechanical properties, noting Re additions effects 08 p1331 A69-20190

Molten high melting compounds obtained by arc furnace with consumable electrode and adjustable protecting atmosphere 12 p2055 A69-26264

ARC SPRAYING

Plasma arc welding, discussing transferred and non-transferred arc systems application to spraying and welding techniques, including automated microplasma welding 04 p0608 A69-15482

ARC WELDING

NT GAS TUNGSTEN ARC WELDING

NT PLASMA ARC WELDING

Aluminum-Zn-Mg alloys weldability, discussing base metal composition and heat treatment influence during gas-shielded arc welding 01 p0086 A69-10536

Cavities elongation in automatic inert gas shielded welds in titanium alloys 05 p0767 A69-15972

Approximate method for calculating subsonic gas flows in curvilinear channels for gas admission control in arc welding 06 p0908 A69-16828

Weldability of thermally stable titanium alloy, noting properties of electron beam and submerged arc welding 06 p0940 A69-17092

Surface treatment effect on weld porosity causes and removal in VT5-1 Ti alloy argon arc welding 06 p0945 A69-17897

Surface edge preparation of titanium alloy sheets for argon shielded arc welding 06 p0932 A69-17898

Welding methods used for Ti and Ti alloys and difficulties encountered 07 p1139 A69-18789

Arc welding aluminum to steel using bimetal transition insert piece 11 p1891 A69-24929

Narrow gap gas metal arc welding process in spray transfer range for narrow welds in thick plates, discussing equipment and applications 11 p1891 A69-24930

Bulk weld filler metals, discussing granular compositions, electrodes and iron, nickel and cobalt base deposits 11 p1891 A69-24931

Dynamic properties of supply sources in carbon dioxide shielded welding as function of short circuit

current statistical parameters, noting metal spatter correlation 11 p1892 A69-25667

Porosity sources in Ti alloy welds, discussing increased gas content and silica, edge surface finish and gas hose contaminants 11 p1892 A69-25668

Rare earths additives effects on arc instability and weld puddle fluidity of stainless steel bare wire electrodes 12 p2103 A69-26623

Capacitor discharge stud welding on Ti alloys, discussing weld zone microstructure, arc and mechanical properties 18 p3151 A69-35431

ARCHES

Equilibrium stability of elastic circular arch constrained in rigid cavity and subjected to uniformly distributed parallel loading 03 p0524 A69-13066

Stability against snap-through and final states of shallow arches on elastic foundations and subject to time varying loads [ASME PAPER 68-WA/APM-26] 04 p0669 A69-14394

Two point boundary value problems for determining buckling behavior of two hinged circular arches [ASME PAPER 68-WA/APM-18] 04 p0669 A69-14399

Large deflection behavior of shallow circular arch subjected to vertical point load by nonlinear Rayleigh-Ritz finite element method, discussing deformation path 08 p1411 A69-20140

Natural mode structural analysis matrix methods for small displacements, discussing curved local subbeam in space and circular arch 11 p1969 A69-24374

Deep circular arches undergoing large deflections and stability loss, determining buckling load variations 20 p3622 A69-37210

Damping influence on shallow arch static and dynamic snapping under step pressure load 24 p4405 A69-43654

ARCHITECTURE

Aesthetic preservation of visual amenities in countryside by proper antenna design without affecting performance or cost 12 p2044 A69-26924

ARCTIC OCEAN

Insulated one man life raft for sea survival in arctic or subarctic conditions, evaluating thermal protection with endurance time and rectal temperature 12 p2020 A69-26550

ARCTIC REGIONS

Wind data from Arctic upper mesosphere showing easterly winds increasing with height, resolving diurnal and semidiurnal oscillations 06 p0949 A69-17005

Polar cap sporadic E investigation with backscatter at 28 MHz, noting geographic distribution, annual and diurnal variations 12 p2069 A69-26464

Multispectral and calibrated Alaskan Arctic aerial survey of sea ice, thaw lakes and polygonal soils 12 p2075 A69-26996

Longitudinal variations of density, temperature and pressure distributions in stratosphere and mesosphere based on rocket observations, emphasizing arctic and subarctic regions 15 p2602 A69-31379

Auroral absorption distribution from arctic riometric observations mapped for evaluating radio communications reliability 17 p2967 A69-33990

Neutral components of arctic thermosphere measured with rocket-borne RF mass spectrometers, discussing origin of atomic hydrogen and water lines 21 p3704 A69-38367

Aircrew Arctic survival situation simulation experiments with survivors staying close to aircraft and walking across difficult terrain from emergency location 23 p4088 A69-41810

Passenger safety during aircraft accidents in Arctic, discussing survival equipment and methods 23 p4107 A69-41811

AREA

Gas turbine areas calculation of through flow cross sections for temperature deformations and blades elongation 18 p3184 A69-34987

ARENDE-ROLAND COMET

Comet Arend-Roland orbit, deducing interstellar origin from nongravitational orbital energy increase 04 p0660 A69-15036

Kepler hyperbolic sine equation calculated for Arend-Roland comet for case of constant residues by false position method 06 p0997 A69-16821

Comet Arend-Roland type-1 tail characteristics including accelerating disturbance, outward-moving waves, tail inclination, etc 13 p2349 A69-27816

Luminescent material density distribution in comet Arend-Roland 1956h head determined from observed brightness variation with distance 14 p2524 A69-29711

Surface brightness distribution in comet Arend-Roland tail from diffusion model and photometric investigation of photographs obtained by 40-cm astrograph 15 p2684 A69-30519

Comet Arend-Roland 1957 III orbit elements computer calculated and tabulated from worldwide observations, taking into account orbital perturbations caused by major planets 20 p3596 A69-37311

Arend-Roland comet head luminescence intensity, considering radiation scattering by dust component 21 p3804 A69-39080

ARGENTINA

Argentina space research report to COSPAR covering Orion II sounding rocket, balloon experiments, cosmic rays, X ray astronomy, international cooperative programs, etc 15 p2724 A69-31452

ARGON

Ar atom transition probabilities in 5000-6000 angstrom range, noting effect of nonuniform source temperature 01 p0125 A69-10963

Initial ionization rates and collision cross sections in shock heated argon in low pressure shock tube, using double electrostatic probes 01 p0132 A69-11206

DC argon arc electrical and thermal parameters and optical properties at high pressure, using spherical anode 02 p0291 A69-12482

Cylindrical afterbodies at free stream Mach 2 with hot argon gas ejection, discussing flow rate influence on base pressure 02 p0190 A69-12533

Excess radiogenic argon in deep sea basalts from crest of East Pacific Rise, noting relation to glass content 02 p0244 A69-12568

Tradeoffs among beam divergence, power output and mirror alignment tolerances of high power argon ion lasers operating in various low order transverse modes 03 p0440 A69-13549

Microwave excited argon discharge emission spectrum analysis, suggesting possible laser action in microwave discharges 04 p0609 A69-14346

Combination rate constants for H-F-O reactions, discussing expressions and relative efficiencies with Argon as third body 04 p0646 A69-14743

Lorentz force sustained energy discharge, discussing cesium added argon flow across magnetic field in disk channel 06 p0969 A69-17910

Stabilized frequency single mode ionized argon laser, discussing intensity of electric field in cavity and mode selector 07 p1145 A69-18475

Electron collisional excitation cross sections for upper states in Ar ion lasers 07 p1157 A69-19656

Forward scattering of metastable and ground state argon atoms after argon ion-atom charge transferring collisions, discussing excitation resonances 08 p1354 A69-19809

Vacuum UV perturbation spectroscopy compatibility with resonance transitions in Ar ion laser 08 p1324 A69-20161

Redistribution of potassium and argon in meteorites and rock samples, discussing thermal diffusion and grain size 08 p1405 A69-20926

Momentum transfer cross sections, recombination coefficients and ionization coefficients of working gases for MHD energy converter
10 p1733 A69-23446

Argon discharges in metal capillary cathodes noting effects of electron density, flow velocity, electrode phenomena and gas temperature
10 p1733 A69-23450

Shock front propagation in argon with electrode-drawn induced EMF, using shock tube with induced transverse magnetic field
10 p1737 A69-23469

Relaxation phenomena in ionization process in argon shock front structure, using EM and pressure driven shock tube to drive high speed shock waves
10 p1726 A69-23685

Single frequency Ar ion laser for deep field holography noting thermal compensation, servo stabilization, operating mode, high power and high coherence
11 p1895 A69-24689

Low order transverse modes in Ar ion lasers, analyzing beam divergence, output, mirror alignment and cavity configurations
11 p1896 A69-24841

Argon ion laser with water cooled mercury pool cathode shielded by U-bent section trap, considering advantages as compared to oxide cathodes
12 p2107 A69-26326

Spatial distribution patterns of gaseous argon atoms scattered from solid argon surface
13 p2300 A69-28658

Low voltage Knudsen arc in cesium-argon mixture for thermal emission converters
14 p2403 A69-29248

Argon afterglow microwave and spectroscopic studies, monitoring time-varying electron density and temperature and extracting electron-ion recombination coefficients
15 p2658 A69-30173

Electron excitation and phase shift method for radiative lifetimes of Ar II UV transitions
15 p2656 A69-31034

Monograph on ionization of Ar-CH mixtures during Townsend discharge, covering metastable Ar atoms lifetime in various pressure ranges
16 p2814 A69-31841

Electron concentration and mass density behind reflected shock in ionizing argon, using time resolved two wavelength interferometry
16 p2771 A69-31918

FM detecting resolution using free running multimode uniphase Ar laser with Doppler broadened bandwidth
17 p2981 A69-33091

Mode transition characteristics of free burning argon electric arc with transpiration cooled anode, noting current blowing parameter
[AIAA PAPER 69-696] 17 p3011 A69-33451

Interferometric study of electron concentration and mass density profiles through ionized argon thermal end-wall layer formed in shock tube
[AIAA PAPER 69-694] 17 p3074 A69-33477

Shock heated argon thermal conductivity studied by optical interferograms, deriving equation for measured mean value
18 p3228 A69-34459

Ar 39 and Cl 36 production rates and ratios in stone and stony-iron meteorites metal phases, discussing terrestrial age calculation
19 p3411 A69-36100

Ar-Kr integral collision cross sections based on density measurements of Ar beam passed through liquid nitrogen cooled Kr filled scattering chamber
19 p3378 A69-36185

Inductively coupled RF excited toroidal Ar ion laser, confining current discharge by strong axial magnetic field to reduce wall losses
19 p3338 A69-36690

Differential cross sections for elastic scattering of protons by Ar atoms in energy range 12.7-44.1 eV, estimating internuclear separation
20 p3580 A69-37499

Precursors ahead of pressure driven shock waves in Ar, considering electron diffusion, temperature a density
20 p3518 A69-38237

Equilibrium absorption and desorption rates of carbon dioxide-argon mixtures from silica gel measured as function of temperature using gas dynamics method
21 p3848 A69-38707

Electron temperature profile across shock wave in weakly ionized nonequilibrium argon by numerical integration of energy conservation equation, noting three body recombination
21 p3698 A69-39791

Scattering of high energy Ar beams by room-temperature Ar, He and H molecules, deriving interaction energies at internuclear distances
22 p3988 A69-41187

Flow and thermodynamic variables of Ar-Cs mixture behind normal shock in shock tube at various temperatures and pressures
23 p4150 A69-41335

ARGON ISOTOPES

Tritium and argon 39 measurements of stone and iron meteorites, discussing decay and production rates and cosmic ray intensity
09 p1604 A69-22398

Ar 39 content in chondrites interpreted for meteorite size, exposure age and orbital elements
19 p3411 A69-36101

Ar 39-Ar 40 method using neutron activation and inert gas mass spectrometry to investigate meteoritic thermal histories
19 p3412 A69-36105

K and Ar 40 determination in iron meteorites by neutron activation for K/Ar dating
19 p3412 A69-36106

ARGON LASERS

Argon ion laser single frequency output spectrum characteristics
21 p3738 A69-39140

Argon laser lower operating level decay probabilities, using spectrum analysis to study role of radiative decay
22 p3965 A69-40965

Photochromic film behavior under high power argon ion laser excitation studied for display and computer memory applications, using excitation model
23 p4173 A69-41629

ARGON PLASMA

Ion acoustic wave dispersion in highly ionized Ar plasma in longitudinal magnetic field, noting effects of several phenomena
01 p0133 A69-11216

Electric potential effects on heat transfer from plasma to solid wall, measuring heat input rates
02 p0290 A69-12423

Plasma decay at high pressure in helium and argon with cesium vapor admixture and pure cesium vapor, using Saha equation
03 p0480 A69-14052

Ion and atom temperature distribution for two fluid model of Ar plasma in cylindrically symmetrical wall stabilized electric arc column
03 p0481 A69-14155

Radial profile measurement technique for individual emission line intensities in plasma applied to populations of excited atomic and ionic Ar in capillary discharges
04 p0634 A69-14441

Elastic scattering of electrons from argon atoms in argon air plasmas by shock tube microwave reflection method, measuring power reflection coefficient
[AIAA PAPER 68-138] 04 p0632 A69-14701

Magnetic field effects on heat transfer between Ar plasma flow and channel wall, noting effects of temperature and Reynolds number
04 p0636 A69-14989

Argon-K plasma electrical conductivity as function of electric current density at 1400-2400 K
05 p0798 A69-15614

Reducing decarburization of titanium carbide in argon plasma by carbon containing atmosphere, obtaining stable spheroidal particles
05 p0767 A69-15976

Low voltage Knudsen arc in cesium argon mixture using tungsten electrodes, analyzing current voltage characteristics
06 p0963 A69-16920

Radial temperature profile in induction coupled argon plasmas at low and atmospheric pressures
06 p0964 A69-17193

Potassium seeded argon plasma conductivity in induced electric field at static gas temperature for MHD generator model
06 p0871 A69-17909

Electron bombardment ion source generated Ar plasma beam to study wakes of disks and spheres, considering plasma interaction with bodies
[AIAA PAPER 69-79] 06 p0865 A69-18200

Nonequilibrium of electron and gas temperatures and reaction process for force-free plasma parallel beam produced in burner by expansion of argon plasma [DVL-875] 07 p1188 A69-18277

Argon plasma composition in Saha equilibrium, using FORTRAN 4 program
07 p1193 A69-19168

Argon plasma characteristics calculated from 8 mm interferometer data, interpreting transmission coefficients of dielectric film with permittivity gradient
07 p1194 A69-193240

Spectral distribution and energy of luminous radiation emitted during theta pinch in Ar plasma, noting energy maximum as function of pressure
08 p1362 A69-202838

Boron crystalline modification during transit through induction coupled Ar plasma producing better crystallized spheroids
08 p1372 A69-206878

Partially ionized argon plasma stagnation flow past blunt body using multifluid theory, obtaining flow profiles
08 p1369 A69-208171

Magnetic pinch effect in thermal RF induction plasma in argon, developing theory for calculating excess magnetic pressure
09 p1544 A69-213411

Total radiation of dense low temperature argon arc discharge plasma measured by bolometer, showing increase with arc current and pressure
09 p1547 A69-215951

DC plasmatron for heating argon with potassium additions at high temperatures and at near atmospheric pressure to obtain argon flow
09 p1547 A69-215961

Local enthalpy measurements in atmospheric argon arc plasma jet at various arc currents, comparing calorimetric and spectrometric methods
09 p1547 A69-216021

Ionic species identification in argon-cesium discharges for thermionic converter design
09 p1440 A69-218301

Excitation and ionization relaxation of cesium seeded argon gas computed for stepwise increase of electron temperature
10 p1732 A69-234441

Ionization relaxation in atmospheric pressure Ar plasma, considering two and three body recombination and O impurity effects
10 p1733 A69-234451

Velocity and temperature influence on discharge characteristics of K seeded argon plasma flow at 1 atm pressure
10 p1733 A69-234491

Electron temperature distributions in Ar-K plasma of simulated Faraday type MHD generator for current distributions, determining current density distribution experimentally
10 p1734 A69-234531

Instabilities in K seeded Ar plasma in crossed electric and magnetic fields and with nonequilibrium ionization, noting effects on MHD generator characteristics
10 p1734 A69-234571

One dimensional analysis of stationary argon flow in linear Hall generator from continuity, momentum and energy equations, discussing electron heating and nonequilibrium ionization
10 p1736 A69-234651

Current-voltage characteristics of combustion driven shock tube generated argon plasma
10 p1737 A69-234661

MHD generator performance operating on nonequilibrium Ar plasma with K additions in presence of electric fields
10 p1637 A69-234801

Magnetic field induced nonequilibrium argon plasma ionization relaxation processes obtained with allowance for flow parameters change in relaxation zone
11 p1922 A69-242251

Positive column contraction in Ar and Ar-Cs mixtures, developing theory for nonisothermal local collision arc
11 p1932 A69-255391

Ar plasma diagnostics in pinch-discharge laser, determining electron temperature by spectroscopy and measuring plasma conductivity and ion concentration and temperature
11 p1933 A69-255481

Reflection of moving rarefied Ar plasma from surface of nickel cylinder inserted into gas discharge tube
11 p1934 A69-257101

Knudsen arcs in argon showing potential well presence with anode barrier and cathode potential drop, establishing slow electrons thermal equilibrium
12 p2137 A69-265361

Electron concentrations in steady Ar and Ar-He plasma jets measured with microwave Fabry-Perot interferometer and Stark broadening of H beta line
12 p2137 A69-265371

Aluminum, Cu, Ni and titanium oxides injection into axis of Ar thermal induction plasma, observing decomposition as function of distance traveled within plasma
13 p2315 A69-28458

Plasma scanner in obtaining current cross sections and current-voltage characteristics of hollow cathode magnetically confined arc plasma in argon
14 p2450 A69-29568

Balance equations for axial separation in anisothermic plasma columns with radial variation of neutral gas temperature applied to argon discharge with mercury vapor addition
14 p2493 A69-29690

Spectroscopic determination of temperature fields in water and transpiration cooled constricted Ar arc jets at atmospheric pressure
15 p2657 A69-30155

Argon electric arc axis temperature measurements, showing current and tube diameter ratio dependence
15 p2662 A69-30977

Electron temperature relaxation in shock heated Ar plasma, measuring plasma microwave radiation
15 p2663 A69-30995

Electron and ion density distributions in propagating current sheet in Z pinch discharge in argon obtained by microwave reflection interferometer
16 p2816 A69-31639

Wide argon plasma column by axial current density measurements, confirming existence of instability and determining critical magnetic field
16 p2819 A69-31680

Nonlinear mixing of Ar plasma ion wave and externally applied electromagnetic wave
16 p2820 A69-31769

High temperature ionized turbulent argon jet gasdynamics noting electron density
16 p2770 A69-31889

Correlation coefficient of light fluctuations measured in Ar plasma in positive column of glow discharge, noting ionization wave appearance at critical gas pressure
16 p2822 A69-32039

Test apparatus for determining radiative properties of Ar plasma as function of high temperature and pressure [AIAA PAPER 69-601]
17 p3010 A69-33310

Shock structure in RF heated partially ionized Ar plasma jet, using cylindrical free molecule Langmuir probe [AIAA PAPER 69-697]
17 p3011 A69-33466

Plasma decay at high pressure in helium and argon with cesium vapor admixture and pure cesium vapor, using Saha equation
18 p3181 A69-35045

Relative oscillator strengths of 3500-5600 Å Fe I lines in emission of arc burning in Ar with iron chloride admixture
20 p3581 A69-37823

Microwave absorption by Ar plasma of positive column discharge in waveguide under inhomogeneous magnetic field
21 p3778 A69-39547

Spectroscopic measurements of weakly ionized Ar plasma premixed with diatomic N in plenum chamber, demonstrating role of competitive reactions for metastable Ar atom
21 p3779 A69-39794

Ionized He and Ar plasmas nonequilibrium nozzle flows, noting temperature difference between electron gas and atom-ion gas, calculating flow parameters
22 p3861 A69-41047

Argon plasma jet spectral radiation properties, considering electron density, recombination, excitation, argon density, etc
22 p3991 A69-41052

DC argon plasma generator operation, studying effects of gas flow direction and rate
24 p4255 A69-43077

Electrothermal waves in nonequilibrium electrical discharge in potassium seeded argon plasma
24 p4359 A69-43645

ARGUMENTS [MATHEMATICS]
U INDEPENDENT VARIABLES

ARIEL 3 SATELLITE

Ariel 3 receiver for measuring galactic noise spectrum, discussing loop antenna use with swept receiver, false terrestrial signals, etc
03 p0404 A69-13581

Scientific results from Ariel 3 satellite - Conference, London, April 1968
21 p3716 A69-39254

Ariel 3 satellite management structure, responsibilities and orbit, stabilization, launch window, data acquisition and processing
21 p3856 A69-39255

Ariel 3 satellite shape and systems including heat balance, data storage and compatibility problems
21 p3820 A69-39256

Ariel 3 satellite observations, including topside ionospheric variations with time and solar activity, electron density, temperature measurements, etc
21 p3716 A69-39257

Ariel 3 satellite attempted background radiation measurement between 2-4 MHz to show absorption onset in Galaxy
21 p3806 A69-39258

Terrestrial radio noise from lightning discharges measured by Ariel 3 satellite to deduce sources distribution
21 p3759 A69-39259

Ariel 3 satellite attitude determination, using solar aspect sensors to define conical surface containing spin axis
21 p3820 A69-39260

Ariel 3 satellite spin axis direction determination by optical means from analyzing sunlight glints reflected from surfaces
21 p3820 A69-39261

Synoptic study of worldwide VLF electromagnetic wave fields distribution above ionosphere from Ariel 3 observations
21 p3717 A69-39262

Molecular O distribution in thermosphere from Ariel 3 observations of solar radiation attenuation, showing large and systematic variation with longitude
21 p3717 A69-39263

ARIP [IMPACT PREDICTION]
U COMPUTERIZED SIMULATION
U IMPACT PREDICTION

ARITHMETIC

Chebyshev polynomials maximum property, examining effect of roundoff errors in Horner scheme for floating point arithmetic
03 p0456 A69-13553

Classical and differential conditioning of eyelid response with correctness of solutions of arithmetic problems as discriminandum
07 p1064 A69-18637

Binary increment and residual class notation techniques for onboard spacecraft computer arithmetic
20 p3499 A69-37378

ARITHMETIC AND LOGIC UNITS

LSI oriented cellular array implementation of complex arithmetic functions for aerospace computers, describing techniques of automatic switching-in of spare modules for failures [AIAA PAPER 69-964]
22 p3906 A69-40345

ARM [ANATOMY]
U FOREARM

ARMED FORCES
NT NAVY

Coronary atherosclerosis in military pilot fatalities of aviation accidents, demonstrating irrelevance of amount of flying time and type of aircraft
03 p0376 A69-14080

ARMED FORCES [FOREIGN]

Beriev Be-12 cranked wing seaplane design including technical and operational data
24 p4251 A69-42796

ARMED FORCES [UNITED STATES]

Clinical analysis of combat and noncombat ejection experience of USAF
06 p0878 A69-16960

U.S. Army Materiel Command R and D planning structure and technical planning processes influence on decisions improvement
08 p1423 A69-21153

Efficient allocation of maintenance resources in USAF, analyzing B-52 costs and substitution of capital for labor
13 p2382 A69-28041

U.S. Navy Numerical Value Rating System computing method of selecting lowest cost design approach to accomplish specific function
13 p2383 A69-28098

Space Ground Link Subsystem as S-band communication link within Air Force Satellite Control Facility including unified telemetry, tracking and command systems
14 p2427 A69-28879

VHF to UHF telemetry bands transition implemented by Naval Weapons Center
14 p2411 A69-28880

Lidar data obtained at Hamilton AFB, Calif., computer analyzed for lidar operational utility, determining cloud ceiling and visibility for aircraft landing operations
15 p2651 A69-30895

Balloon flights with space available for secondary experiments, discussing launching agencies and experiment design restrictions
22 p3865 A69-40807

ARMOR

Boron carbide body armor fabrication by hot pressing in graphite molds
08 p1320 A69-20411

Fiber glass reinforced plastic backing phase of composite armor, noting test method for evaluation of performance
09 p1507 A69-22319

Armor selection for advanced aircraft systems based on premium value concept and cost-weight considerations [SAWE PAPER 764]
18 p3094 A69-34878

Composite ceramic armor systems for airborne vehicles and personnel, air cushion vehicles and ground troops, discussing weight and contour forming advantages
19 p3355 A69-35525

AROMATIC COMPOUNDS

Sulfur-organic compounds association with aromatic hydrocarbons, noting oxidation inhibiting effect on petroleum oil
03 p0494 A69-13800

Cross-linked polymers obtained by direct reaction of aryl polycarbonyls with aryl polyamines, studying char yields effect
08 p1269 A69-21059

Cross-links effect on char yields of azomethine polymers produced by aryl diamines with aryl diketones
08 p1269 A69-21060

Temperature effects on phosphorescence lifetimes and intensities of aromatic hydrocarbons in polymethyl methacrylate, estimating activation energy for thermally activated nonradiative decay mode
10 p1652 A69-23523

Interstellar extinction models of classical Mie particles and quantum mechanical polycyclic aromatic molecules
10 p1781 A69-23679

Normal, isoprenoid, dicarboxylic, keto and various aromatic acids isolated from controlled stepwise degradation of Green River kerosene by successive chromic acid oxidations
15 p2606 A69-31533

Molecular structure and uses of heat resistant plastics, discussing aromatic polyamides
18 p3161 A69-34279

Photochromic panel for flash blindness protection using epoxy plastic plates containing aromatic hydrocarbon compounds excited to triplet states
21 p3668 A69-39783

ARRAYS

NT ANTENNA ARRAYS

NT ENDFIRE ARRAYS

NT INERTIALESS STEERABLE ANTENNAS

NT LINEAR ARRAYS

NT PHASED ARRAYS

NT STEERABLE ANTENNAS

NT SYNTHETIC ARRAYS

NT YAGI ANTENNAS

Large scale integration /LSI/ arrays, discussing high yield manufacturing methods based on fixed nondiscretionary connections among components
02 p0254 A69-12467

Array radar technology development offering multifrequency operations from common aperture
03 p0388 A69-13182

Single crystal cells for construction of large deployable solar cell arrays
03 p0368 A69-13993

Reflection and absorption characteristics of two dimensional array of magnetic dipoles for microwaves, considering element orientation and distribution
12 p2035 A69-25901

Solar array energy performance as function of orbital parameters and spacecraft attitude
13 p2203 A69-27419

Orientation distribution of lineal and areal elements in space, expanding density function definition of two dimensional lineal array
14 p2470 A69-29363

Roll-up solar array based on erection of planar sandwich structure from two rolled constituent halves
16 p2762 A69-32559

Large area Si solar cell arrays design, considering environment, cell layout, thermal expansion, coverslides fabrication, costs, etc

19 p3253 A69-35708

Solar cell retractable array for spacecraft multikilowatt power generation

19 p3254 A69-35711

Plane electromagnetic wave diffraction by screened periodic metallic strips array with real ferrite transversely magnetized to saturation

23 p4124 A69-42032

Electromagnetic wave diffraction by multielement periodic metallic strips arrays positioned transversely in rectangular waveguide

23 p4124 A69-42035

Accuracy standards for diffraction measurements of electromagnetic waves incident on periodic arrays, using monochromatic field and plane wavefront

23 p4139 A69-42042

Plane polarized electromagnetic wave diffraction incident on skewed metal ribbons array

23 p4125 A69-42043

Spacecraft Si cell solar array using self rigidizing folded panels with flexible substrates for increased power/weight and power/stowage volume ratios

23 p4073 A69-42290

Lightweight large area solar cell arrays for space programs with multikilowatt predicted performance, noting rollup array orbital flight testing

23 p4073 A69-42291

ARRESTING GEAR

Exterior arresting devices for commercial aircraft full scale tests

03 p0367 A69-14104

Caravelle aircraft halting tests with barrier net

10 p1674 A69-23706

Stopping barriers for jet aircraft landing design and operation

11 p1862 A69-24354

ARRHYTHMIA

Cardiac arrhythmias during positive G sub x acceleration, treadmill exercise and tilt table testing

06 p0874 A69-17834

Arrhythmia diagnosis instruction aided by cardiac pacemaker digital simulation, discussing clinical electrocardiograms generation mechanisms

21 p3667 A69-39606

Supraventricular arrhythmias after acute myocardial infarction, noting benefit of early DC shock

24 p4262 A69-42729

ARSENIC

Temperature dependence of partial pressure of saturated As vapor over solid solutions of InAs-GaAs of different composition

04 p0642 A69-14938

Chondritic meteorites arsenic, tin and antimony content determined by anion-exchange chromatography and neutron activation analysis

13 p2344 A69-27630

ARSENIC COMPOUNDS

U ARSENIDES

U GALLIUM ARSENIDES

U INDIUM ARSENIDES

ARSENIDES

NT GALLIUM ARSENIDES

NT INDIUM ARSENIDES

Conduction band anisotropy in n-type cadmium tin arsenides, analyzing galvanomagnetic tensor and distribution of isoenergetic surfaces for electrons

03 p0488 A69-13888

Coherent emission in epitaxial structures with heterojunctions in AlAs-GaAs system

03 p0489 A69-13896

Conduction band anisotropy in n-type cadmium tin arsenides, analyzing galvanomagnetic tensor and distribution of isoenergetic surfaces for electrons

11 p1939 A69-25689

Coherent emission in epitaxial structures with heterojunctions in AlAs-GaAs system

11 p1939 A69-25697

Cadmium arsenide carriers effective mass under strong transverse magnetic field, noting restricted role of thermal EMF and Hall coefficients

13 p2318 A69-27897

Electronic properties changes in amorphous CdGeAs caused by long range order loss studied by measuring optical and transport properties

19 p3390 A69-36557

Thermal EMF in cadmium arsenide specimens with various electron concentrations determined to verify parabolic subband structure of conduction band

22 p3993 A69-40607

ARTERIES

NT AORTA

Axial waves in blood vessels, determining phase velocities and damping, noting anisotropic behavior of artery wall

[SESA PAPER 1350] 07 p1069 A69-19726

Analog computer modeling of human systemic arterial tree, based on lump parameter circuit approximation

07 p1072 A69-19727

Arterial tone and human muscular activity limitations, analyzing hypodynamic effects on aorta, arm and leg vessels constriction

10 p1647 A69-23586

Linear passive electrical analog model of human systemic arterial tree, discussing artery segment modeling, vessels input impedance, wave travel, etc

17 p2908 A69-33007

Transfer function in pulmonary ventilation and O tension in arterial blood analyzed by automatic control

19 p3260 A69-35897

Coronary angiography for evaluating cardiac problems of aircrew, giving case histories and clinical and laboratory findings

19 p3263 A69-36461

Cerebral circulation arterial system pulsatile flow flexible vessel digital simulation models distribution

19 p3264 A69-36867

Electromagnetic catheter flowmeter with flexible sensor suitable for branch and artery application to minimize surgical intervention

22 p3889 A69-40058

Arterial occlusion effects on retinal structure in cats, describing degrees of cell degeneration

22 p3884 A69-40883

Gilson cuvette densitometer used for blood flow measurement in canine forelimb and human forearm and hand during constant intrabrachial arterial dye infusion

23 p4077 A69-41294

Carbon dioxide inhalation and intravenous isoproterenol effects on hemorrhagic consolidation occurring after left pulmonary artery ligation in dogs

23 p4082 A69-41441

Mathematical formulation for relative values of cardiac output and peripheral resistance as two contributing factors to arterial pressure change

23 p4085 A69-41473

Pulsatile flow in coronary arteries simplified model compared with experiment in anesthetized dogs

23 p4098 A69-42103

Human arterial pressure reflex regulation during sleep, assessing baroreflex sensitivity

24 p4257 A69-42626

ARTERIOSCLEROSIS

Coronary atherosclerosis in military pilot fatalities of aviation accidents, demonstrating irrelevance of amount of flying time and type of aircraft

03 p0376 A69-14080

Corneal greyish opaque arc as warning of atherosclerosis in flight crews

05 p0711 A69-16631

ARTHROPODS

U BEETLES

U CRABS

U DROSOPHILA

U INSECTS

U PUPA

ARTICULATION

Speech intelligibility in air at ground level and in helium-oxygen mixture at 18,000 ft

12 p2019 A69-26548

ARTIFICIAL CLOUDS

Large convective clouds in superheated air generated by static tests of Saturn 5 first stage

03 p0462 A69-14125

Simulation experiments using artificial plasma for astrophysical rocket exploration, discussing experiments leading to barium-copper oxide mixture choice for plasma cloud

06 p0999 A69-16973

Temperature variability data for 120-km altitude from observations of grenade glow clouds, calculating molecular diffusion coefficients and atmospheric temperature and density

07 p1127 A69-19277

Space electric fields research by artificial clouds of vaporized barium launched by rockets, noting neutral atmosphere and ionospheric results

09 p1492 A69-22800

Artificial noctilucent clouds or meteor trails positions determined by transforming photogrammetric coordinates

12 p2154 A69-25822

Ground and metastable state photoionization cross sections of Ba to explain artificial Ba clouds, using many channel quantum defect method

18 p3177 A69-35238

Artificial ion plasma cloud experiment for studying auroral electric fields

21 p3710 A69-38507

Spectra and intensities of rocket releases for upper atmosphere composition, temperature and reaction kinetics, noting chemiluminescence and atomic and molecular emissions

21 p3712 A69-38522

Turbulent field structure between 90-120 km estimated from sodium clouds diameters variation ejected from rockets

21 p3713 A69-38524

Lower ionosphere vertical wind velocity profiles determined from rocket-released grenade glow cloud photographs, developing cloud buoyancy effect empirical model

23 p4154 A69-41305

ARTIFICIAL GRAVITY

Biological systems response to inertial environment, escape from earth gravity, planetary gravity and artificial gravity

06 p0872 A69-17011

Weightlessness simulation, discussing mechanics of biological effects, simulation of specific anticipated effects and concept of mechanical acceleration and gravity equivalent effects

06 p0879 A69-17012

Manned space stations for future space exploration, discussing earth-like environment, artificial gravity, human factors and time dependence

11 p1965 A69-25644

Weightlessness problems, discussing artificial gravitation on spacecraft and astronaut experiences

16 p2746 A69-31930

Rotational equations of motion for two body spacecraft on common spin axis required for simulated gravity environment or gyroscopic stability augmentation

17 p3047 A69-33227

Squirrel monkeys exposed to centrifugally generated artificial gravity trained to respond for food reinforcement at selected gravity levels

23 p4081 A69-41434

ARTIFICIAL INTELLIGENCE

Soviet book on electronic countermeasures and intelligence covering jamming methods for automatic systems

03 p0385 A69-12927

Artificial intelligence application to design of off-line and on-line learning control systems for controlling spacecraft attitudes

04 p0581 A69-14568

Adaptive pattern recognition, discussing classification techniques and merging into other aspects of artificial intelligence research

07 p1088 A69-18381

Cybernetic structural model for learning and mentation comprehending symbol systems, languages, homeostatic mechanisms, etc

07 p1070 A69-18385

Learning model of motor behavior in brain cortex of higher animals and man, discussing M automaton, information reception, correlation, memory, emotions, desires and actions

23 p4109 A69-41977

ARTIFICIAL RADIATION BELTS

Unique solution for radial diffusion coefficient applicable to equatorially trapped electrons in artificial radiation belt

05 p0816 A69-16279

Soviet artificial earth satellites, discussing Sputnik, Polet, Elektron, Cosmos, Molniya and Vostok series
01 p0162 A69-10937
Thermal gradients in artificial satellites, considering heat exchange among various points of closed cavity surface by gray body diffuse radiation and reflection
08 p1421 A69-20157
Electron and proton radiation doses impinging on orbiting satellites computed using orbit calculation and B, L coordinates
11 p1949 A69-24862
Improved spheroidal method for calculation of almost polar orbit of artificial satellites, bypassing right ascension
12 p2152 A69-25799
Algorithm for solving autonomous artificial satellite orbital elements by using successive approximations
13 p2296 A69-27687
Photoelectric photometry of artificial satellites noting equipment, Pageos satellite observations and light curves from Cosmos 151, 192 and 220
15 p2616 A69-31391

Satellite motion about center of mass, discussing satellite stabilization and libratory motion in gravitational force field, planet resonances, etc
15 p2703 A69-31411
Legal principles observed for international telecommunication systems establishment by means of artificial satellites regarding states interests and rights
20 p3638 A69-37124
Near-polar circular orbiting satellite for calibrating and evaluating ground-based radars observing space objects
20 p3617 A69-37714
Radiative heat input to artificial satellite in orbit due to solar and earth radiations calculated and presented in graphs for satellite temperature calculation
22 p4006 A69-40589
Artificial satellite motion analysis and perturbation function, considering disturbances due to second satellite or sun
22 p4030 A69-40906
Planetary gravitational fields and artificial satellite orbits determined by using earth based range rate measurements
24 p4388 A69-43650

ARYL COMPOUNDS
U AROMATIC COMPOUNDS

ASBESTOS
High modulus graphite/asbestos reinforced laminates, noting improved transverse strength and thermal properties
24 p4337 A69-43447

ASCENT
NT CLIMBING FLIGHT
Inner and outer meteorological balloon assembly for fast rising and high altitude sounding
01 p0010 A69-10541
Bright fundamental stars right ascensions observed in Chile, discussing instruments, declination range, systematic errors, etc
10 p1777 A69-23388
Mathematical model for ascent and descent of high altitude tethered balloon, developing computer program and deriving differential equations of motion [AIAA PAPER 68-942]
24 p4254 A69-43722

ASCENT TRAJECTORIES
Aircraft takeoff airborne phase trajectory analysis, deriving expressions for projection angle, velocity, path length and instantaneous altitude
19 p3247 A69-35817
Lunar module motion during optimal ascent from moon surface into circular orbit of command module, noting descent maneuver similarity
19 p3431 A69-36617
Optimization of RF ion thruster cluster engines for ascending trajectory, discussing unfolding mechanism of solar cell panels [DGLR-69-022]
23 p4203 A69-41933

ASCORBIC ACID
Space flight factors, ionizing radiation and combined effects on vitamin C content in onion bulbs
05 p0708 A69-16510
Space flight factors, ionizing radiation and combined effects on vitamin C content in onion bulbs
18 p3095 A69-34729

ASPECT RATIO
NT HIGH ASPECT RATIO
NT LOW ASPECT RATIO
Model of auroral backscatter from E region including ionospheric refraction, comparing computations to experimental HF auroral backscatter data for aspect sensitivity
09 p1488 A69-21700
Wing geometry and wing lower surface boundary layer effects on rolled-up tip vortices geometry and strength
11 p1819 A69-25372
Membrane flutter and panel stability in supersonic flow, considering infinite aspect ratio equation solution through Galerkin method
13 p2365 A69-28236
Drag and lift coefficients of moderate aspect ratio prismatic bodies analyzed as function of angle of attack, Reynolds number and aspect ratio
17 p2896 A69-33717
Clamped uniformly loaded rectangular plate large deflection elastic behavior approximate analysis, using perturbation method
20 p3620 A69-36998
Vibration properties of cantilever parallelogram box beam, using existing static deformation equations under large aspect ratio condition
21 p3846 A69-39803

Wingtip mounted propellers effect on wing lift and induced drag, varying lift to drag ratio by changing in-flight aspect ratio
24 p4250 A69-43713

ASPHERICITY
Aspherical surfaces formation from spherical by removing part of substrate by means of tool mask for lapping nonuniform wear of surface
12 p2102 A69-26597
Eye optical system spherical aberration measured by knife-edge method derived from Foucault test, investigating retinal image quality
22 p3882 A69-40873

ASPIRATION
U VACUUM
ASSAULTING
U ATTACKING [ASSAULTING]
ASSAYING
Automatic devices to count bacterial colonies Petri dishes consisting of culture plate scanner and data processor
02 p1201 A69-11773

ASSEMBLER ROUTINES
Maintenance system in Germany for F-104-G Starfighter planes noting disassembling, system testing and test flight
17 p2979 A69-33703
Symbolic language and assembly program for Roseau computer, discussing mnemonic code and program operation
20 p3502 A69-37397

ASSEMBLIES
Fretting effect on fatigue of press fitted axle assemblies, analyzing relative slip amplitude dependence on size, shape, clamping pressure, nominal stress and cycles
01 p0167 A69-10305
Integrated logic circuits assembly for digital computers, considering high density, mechanical environment, reliability, accessibility and costs
20 p3505 A69-37401
Hybrid microwave IC assembly techniques, discussing active devices connection to substrate with thick or thin film metallizations
22 p3912 A69-40068

ASSEMBLING
NT ORBITAL ASSEMBLY
Metal welding procedures for aircraft assembly, discussing weight, specific alloys and airframe components
04 p0608 A69-15483
Quality control of high volume microelectronic circuit assembly of military computer emphasizing preventive action
15 p2580 A69-31129
Kennedy Space Center Vehicle Assembly Building construction, capacity and operation for manned spacecraft
19 p3288 A69-35500
Clamping and sealing fastener for single direction installation consisting of pin, collar and sealing collar with insert
22 p3957 A69-40831

ASSESSMENTS
Meteorological probability assessors, describing framework for evaluation consistent with subjective probability theory
01 p0110 A69-10690

ASSIGNMENT
U ALLOCATIONS
ASSOCIATIONS
U ORGANIZATIONS

ASTEROIDS
NT ICARUS ASTEROID
Gegenschein measurements for determining upper limit on asteroidal debris spatial density
02 p0324 A69-12545
Light curves for Vesta compared and rotation derived from aspect change effect on rotational period
04 p0657 A69-14677
Mare Orientale basin satellite photographs suggest asteroid impact formation
04 p0664 A69-15421
Icarus observation by Trepied-Metcalf method, tables show Icarus retreat and advance and velocities of eight asteroids neighboring earth
05 p0819 A69-15698
Orbit corrections for lost minor planets 457, 1038, 1161, 1297, determining new ephemerides for oppositions
05 p0829 A69-16704

Asteroidal and cometary orbits and origin of meteorites, discussing eccentricities, exposure ages and mass yield
08 p1406 A69-20929

Angular momenta of stars, planets and asteroids, plot log of angular momentum per unit mass against log of mass of astronomical object
09 p1608 A69-22716

Orbits of asteroids surrounding commensurabilities with Jupiter, discussing theory for origin of Kirkwood gaps
10 p1778 A69-23604

Solar radiation pressure on interplanetary dust particles calculated as function of radius and density, noting asteroidal origin of dielectric and absorbing particles
11 p1956 A69-24397

Comet Berbon and minor planet positions photographically recorded /1964-1967/
11 p1962 A69-25121

Quasi-stochastic nonlinear one dimensional oscillations in periodically disturbed field applied to celestial mechanics of planetoids
12 p2130 A69-26373

Provisional elliptic orbit computed for asteroid Floirac using Gauss-Encke and least squares method, tabulating residuals and ephemeris
14 p2521 A69-29585

Integrodifferential equation derived and solved for evolution of collisional model of asteroids and debris
14 p2526 A69-29879

Exact positions of Ceres, Pallas, Juno and Vesta from 1941 to 1995 determined taking into account planets influence
16 p2859 A69-32224

Asteroidal jet streams from Hirayama family Flora, difficult to reconcile with exploded planet view
17 p3030 A69-33070

Long range perturbations of satellites and asteroids with arbitrary inclination and eccentricity, illustrating motion around moon, oblate and spherical planets using energy integral
17 p3031 A69-33098

Epochs and ephemerides of asteroid Amor for 1916, 1924 and 1972, noting unfavorable observing conditions in future
17 p3038 A69-33723

Depth distribution of primary cosmic radiation fluxes and secondary nuclear-active particles in stone meteorites and surface layer of planets, moon and asteroids
19 p3410 A69-36092

Minor planets osculating elements computer calculated and tabulated
20 p3596 A69-37309

Minor planets positions computer calculated and tabulated from Tashkent 1963 and 1964 astrograph observations, stating time and equatorial coordinates
20 p3596 A69-37312

Minor planets positions computer calculated and tabulated from 1966 and 1967 Crimean astrograph observations, using Yale catalog reference stars
20 p3570 A69-37313

Hill method applied to motion theory for minor planet 11 Parthenope using computerized first order perturbations from principal planets
20 p3596 A69-37316

Jupiter mass determined from observations of four minor planets perturbations
22 p4013 A69-40121

Resonant asteroids in statistically underpopulated Kirkwood gaps, noting osculating mean motion distribution
22 p4013 A69-40122

Lightcurves for 624 Hektor with Radcliffe, Kitt Peak, Catalina and Cerro Tololo reflectors, noting asteroid shape and rotational axis
22 p4013 A69-40124

Harmonia and Parthenope /minor planets/ positions, establishing time dependence of relation between image diameter and planet magnitude
22 p4025 A69-40614

Cometary and asteroidal orbital differences and similarities, emphasizing limiting cases to study orbital evolution of meteors
23 p4208 A69-41284

Spacecraft probes design for mapping meteoroid environment and penetration hazard through asteroid belt
[AAS PAPER 69-321] 24 p4392 A69-42867

Asteroid exploration by solar photovoltaic powered ion propelled probe, discussing spacecraft design, mission and 1975 Mariner utilization
[AAS PAPER 69-322] 24 p4381 A69-42868

Solar radiation pressure on interplanetary dust particles calculated as function of radius and density, noting asteroidal origin of dielectric and absorbing particles
24 p4390 A69-43787

ASTHMA

Asthmatic attacks in military air crews, discussing flight stress factors including altitude, ventilation and insecurity as possible causes
05 p0710 A69-16624

ASTIGMATISM

Weightlessness and higher g values effects on caloric and rotational nystagmus
12 p2020 A69-26551

Human vestibular reactions at various bodily rotation rates and planes, including counterrotation illusion and nystagmic reaction
12 p2020 A69-26564

Human nystagmic reaction variations due to simultaneous rotation of head and body, studying coriolis couple in horizontal semicircular canals
12 p2020 A69-26565

Prolonged iterative accelerations and decelerations on vestibular apparatus, discussing nystagmus measurement attempt and centrifugation tests on guinea pigs
13 p2211 A69-28592

Single flash and rhythmic light stimuli effect on nystagmus of patients with tumoral posterior cranial fossa, recorded electroencephalographically
20 p3470 A69-37250

Threshold variations in caloric nystagmus in pigeons subjected to accelerations in head to tail direction in centrifuge at various temperatures
20 p3471 A69-37252

Motion sickness prophylaxis for rabbits subjected to rotation, investigating effects of adrenalin, ephedrine, sympatholitin, piperoxane and pyridoxyphenone on nystagmus and respiration
20 p3472 A69-37265

Nystagmus reactions in rabbits subjected to rotating vestibular tests, noting decrease following previous adaptation to stimulus
20 p3473 A69-37267

Rapid component of nystagmus using photostagnography, noting dependence on afferent pulse of ampullar apparatus
20 p3481 A69-37272

Focus broadening by astigmatism of large microwave parabolic antennas, discussing large span surface deformations caused by astigmatic aberration
23 p4140 A69-42188

Retinal eccentricity effects on horizontal-vertical illusion magnitude, considering eye flattening and astigmatic properties
24 p4263 A69-43117

ASTRONICS

Microelectronic equipment for aerospace application and integrated circuit production in UK
[AGARDOGRAPH-114] 08 p1292 A69-20992

Spacecraft electronics - Conference, Chicago, December 1968
09 p1465 A69-22433

Evaluation technique for astronics subsystems in automated spacecraft designed for interplanetary missions, considering operation times, navigation updating and midcourse correction
[AIAA PAPER 69-882] 21 p3764 A69-39408

ASTROBIOLOGY U EXOBIOLOGY

ASTRODYNAMICS

Book on planetocentric, lunar and interplanetary transfer techniques covering communications and coordinate system selection, minimum fuel and time transfer and rendezvous, etc
04 p0652 A69-14458

Single impulse noncoplanar orbital transfer with finite time of thrust action for satellite in elliptical orbit
05 p0823 A69-16044

Astrodynamic, guidance and control - Conference, Belgrade, September 1967, Volume I
06 p1004 A69-17560

Astrodynamic data compilation for use by system engineer for mission planning
[AIAA PAPER 69-124] 06 p1011 A69-18090

Mars imaging mission and astrodynamic interaction, discussing arrival geometry and orbit size effects
[AIAA PAPER 69-127] 06 p1011 A69-18169

Single impulse noncoplanar orbital transfer with finite time of thrust action for satellite in elliptical orbit
20 p3606 A69-37953

ASTROGRAPHY

Icarus positions from photographic observations with astrograph
01 p0159 A69-11331

Sunspot observations with astrograph telescope by tracing on projected image of solar disk
08 p1387 A69-20118

Proper motions and positions of X ray source Sco X-1 and surrounding stars derived from astrographic plates using overlap technique
12 p2152 A69-25798

Icarus asteroid observed at Royal Observatory of Belgium with 40-cm double astrograph, tabulating acquired data
14 p2521 A69-29584

Minor planets positions computer calculated and tabulated from Tashkent 1963 and 1964 astrograph observations, stating time and equatorial coordinates
20 p3596 A69-37312

Minor planets positions computer calculated and tabulated from 1966 and 1967 Crimean astrograph observations, using Yale catalog reference stars
20 p3570 A69-37313

ASTROMETRY

Photographic plates based parallax determinations of nearby stars weights, relative and absolute values, probable error and observation interval
04 p0663 A69-15381

Relative proper motions of stars measured by microscope projection technique
10 p1778 A69-23570

Satellite photographic astrometry and chronometry, determining spatial positions of satellites and observation stations by space triangulation
11 p1956 A69-24400

Cosmic triangulation by geometrical synchronization of astrometric satellite observation, with precise times unavailable
12 p2158 A69-26432

Flare star astrometric study to determine possible variable proper motion
13 p2348 A69-27810

Radial velocities of southern OB stars and supergiants noting tabulation of information
14 p2519 A69-29368

Transit instruments operational principles and practical experience
15 p2608 A69-30440

Pitch determination of micrometer screw by scalar star pairs derived from FK3 and Washington zenith catalog noting temperature and dampness effects
16 p2859 A69-32218

Soviet collection of articles on problems of astrometry covering nutation, earth pole motion, nighttime latitude, meridian observations, Mars observations, libration, etc
17 p3026 A69-32867

Lunar rotation elements determined from distances between Moesting A and limb craters, using Iakovkin position angle method
17 p3028 A69-32876

Azimuth error from observations of circumpolar stars at greatest elongation using transit instrument
17 p3028 A69-32878

Differences in latitude readings obtained with two zenith telescopes, showing Pearson distribution of type VII and influence of observation conditions
17 p2959 A69-32879

Electronic device utilizing scanning beam to evaluate limb photographs, reducing errors by introducing second generator with frequency proportional to deflecting potential variation
17 p2970 A69-32884

CP 0950 and CP 1133 pulsating stars position, using radio telescope at two frequencies
17 p3036 A69-33639

Light changes caused by distortion of binary components, computing theoretical brightness variations by numerical integration of emerging atmospheric intensities over visible surface
17 p3044 A69-34179

Satellite photographic astrometry and chronometry, determining spatial positions of satellites and observation stations by space triangulation
24 p4391 A69-43790

ASTRON THERMONUCLEAR REACTOR

Energy principle applied to Astron type device stability based on model with rigid E layer electrons, finding critical pressure expression for ballooning modes
16 p2821 A69-32035

ASTRONAUT LOCOMOTION

Lunar gravity simulation effect on human performance, discussing fidelity requirements, self locomotion, metabolic rate and psychomotor task decrement
02 p0203 A69-12217

- Astronaut extravehicular protection systems, discussing space suit, life support and thermal control subsystems and micrometeoroid protection
06 p0882 A69-17643
- Lurain simulator for metabolic studies, using BPMU for assessing O consumption of test subjects at rest and various speeds of ambulation
17 p2914 A69-33187
- Spacecraft rotation and astronaut head and body motion as stimuli for vestibular analyzer function study during weightlessness
20 p3473 A69-37275
- Real time servo driven simulator of human body in zero-g activity used to study self induced rotation and astronaut mobility under thruster forces
21 p3664 A69-39034
- Mathematical model of astronaut motion and spacecraft angular control during tethered reentry, discussing conditions preventing spinning and collisions
21 p3667 A69-39630
- Unstabilized astronaut, hand-held and integrated life support EVA maneuvering units tested in gimbaled six degree of freedom servo driven moving base simulator [AAS PAPER 69-516]
24 p4272 A69-42850
- ASTRONAUT PERFORMANCE**
- Medicinal therapy and flight safety of pilots and astronauts, discussing drug use, self treatment, tolerance and environmental factors
01 p0014 A69-10583
- Soviet book on human movements coordination during space flight covering space walks, lunar surface photographs, space docking, weightlessness, etc
01 p0018 A69-11180
- Physiological causes and prevention of motion sickness during space flight, emphasizing conditioned reflex, different analysors interactions and vestibular-vegetative changes during weightlessness
02 p0200 A69-12122
- Voskhod 1 and 2 crew performance, orientation and motor activity analysis indicating time increment for task performance, psychophysiological irregularities and visual analysors impaired functioning
02 p0203 A69-12123
- Cardiovascular system, respiratory system and metabolism of cosmonauts on three man flight of Voskhod, noting physiological and biochemical studies
03 p0377 A69-14195
- Cosmonauts cardiac activity and respiration changes during physical exertion in orbital flight on Voskhod spacecraft
03 p0377 A69-14196
- Lunar environment simulation, discussing space suit encumbrances on astronaut performance, gravity effects, surface texture, illumination, confinement and isolation
06 p0906 A69-17388
- Soviet cosmonauts physiological reactions during weightlessness, analyzing EKG, arterial pressure, heart and respiratory rates and motion coordination
07 p1060 A69-18570
- Pneumograms and EKG used to determine heart beat, respiration rates and systolic index of cosmonauts during Voskhod 2 flight
07 p1062 A69-18585
- Vestibular function of cosmonauts during preflight training and flight on Voskhod spacecraft, tabulating heart beat, respiration rates and writing test ratings
07 p1062 A69-18588
- Oculomotor activity of cosmonauts during orbital flight, analyzing electrooculograms taken during vestibular tests
07 p1063 A69-18594
- Human motor reactions during weightlessness based on parabolic or orbital space flight observations, noting cosmonaut writing performance
07 p1063 A69-18595
- Space flight crew efficiency during prolonged weightlessness, stressing preflight adaptation and space vehicle technology improvement
07 p1063 A69-18596
- Time perception capacity of astronauts and jet pilots during brief weightlessness, noting emotional state effects
07 p1065 A69-18981
- Human operator manual control of spacecraft under accelerations up to 18 g, noting performance and efficiency of males
08 p1265 A69-19936
- Heat susceptibility and tolerance in astronauts obtained by plot of skin and oral temperatures for subject under thermal stress
10 p1644 A69-23376
- Lunar visual environment effects on astronaut control manipulation task performance, discussing solar illumination simulation facility
12 p2059 A69-26554
- Weightlessness effects on human external respiration, gas exchange and energy expenditure indices during flight of Voskhod 2
12 p2020 A69-26563
- Lunar astronauts psychological problems, discussing isolation from outside world, gravitational and extreme light effects, protective space suits, etc
13 p2210 A69-27905
- Space travel and lunar exploration medical problems
13 p2210 A69-27909
- Circadian rhythms characteristics in humans, animals and plants, noting possible effects of rhythm disturbances on astronauts
13 p2211 A69-28614
- Medicinal therapy and flight safety of pilots and astronauts, discussing drug use, self treatment, tolerance and environmental factors
15 p2555 A69-30753
- Weightlessness problems, discussing artificial gravitation on spacecraft and astronaut experiences
16 p2746 A69-31930
- Cooling system control system for astronaut thermal equilibrium and work output maximization during extravehicular space missions
17 p2914 A69-33278
- Space research centrifuge counteracting null gravity physiological deconditioning, discussing linear and angular accelerations sensitivity and deconditioning effect on reentry task performance
18 p3114 A69-34368
- Microbiological influence on astronauts efficiency during and after long space flights, stressing simulated microclimates and confinement effects on flora
18 p3097 A69-35304
- Space crew performance subsequent to sudden sleep arousal, noting selection between simultaneous and staggered sleep schedules
19 p3263 A69-36453
- Astronaut vestibular and motor analyzer functions during flight and simulation tests, discussing illusory space orientation and role of cortical dynamics
20 p3469 A69-37241
- Weightlessness tests during parabolic flight to supplement vestibular tests in astronaut selection
20 p3481 A69-37276
- Time perception capacity of astronauts and jet pilots during brief weightlessness, noting emotional state effects
20 p3480 A69-38229
- Hard space suit temperature history during lunar operational task simulation
21 p3666 A69-39182
- Biological model describing spacecraft operator sensorimotor activity in response to various spacecraft control stimuli, outlining computer algorithm
22 p3892 A69-40281
- Real time metabolic rate analysis of suited astronaut using heart rate and O methods during thermal vacuum and extravehicular mobility tests
22 p3893 A69-40371
- Neutral buoyancy simulation of astronaut performing module replacement and repair task in zero-g environment
22 p3921 A69-40379
- Muscle function measurement in astronauts using electromyogram, electrocardiogram and isometric tension at fixed percentage of maximum voluntary contraction
23 p4103 A69-41684
- Apollo Extravehicular Communication Telemetry System for monitoring astronaut portable life support system, space suit performance and body functions on lunar surface
23 p4121 A69-41767
- Orbital biomedical laboratory for in-flight measurement to assure human safety and optimize astronauts performance in extended space mission
23 p4223 A69-41801
- ASTRONAUT TRAINING**
- Professional activity of cosmonauts, considering training, mental and physical qualities and engineering background
06 p0879 A69-17036
- Manned space flight safety, discussing astronaut exposure to danger on ground, in training and in space mission
06 p0882 A69-17650
- Aerospace research pilot school /ARPS/ to train experimental test and aerospace research pilots and Manned Orbiting Laboratory /MOL/ astronauts
06 p0882 A69-17670
- Sensory and physiological reactions experienced by cosmonauts during parabolic training flights, tabulating arterial pressure, heart beat and respiration rate
07 p1061 A69-18580
- Vestibular function of cosmonauts during preflight training and flight on Voskhod spacecraft, tabulating heart beat, respiration rates and writing test ratings
07 p1062 A69-18588
- Lunar astronauts psychological problems, discussing isolation from outside world, gravitational and extreme light effects, protective space suits, etc
13 p2210 A69-27905
- Astronauts physical training for space flight requirements
13 p2215 A69-28611
- Physical exercises to increase cosmonaut space environment tolerance, discussing effects of acceleration, altitude and hypoxia
15 p2560 A69-31460
- Photographic system for astronaut training in Apollo Mission Simulator, using fixed camera and moving earth model coincident with strip color film past exposure slit
16 p2792 A69-32787
- Interplanetary space travel medical problems during long duration missions, noting earth diagnostic and therapeutic methods adaptation, drugs selection, astronaut medical training, etc
24 p4278 A69-43396
- ASTRONAUTICS**
- 1967 yearbook on air and space travel covering airbus, astronautics, V/STOL, aerodynamics, flight mechanics, simulation and aerostatics
04 p0545 A69-14801
- Microelectronics in astronautics, discussing properties of thick and thin film electronic devices, integrated semiconductor circuits and hybrid circuits
07 p1089 A69-18256
- Book on reentry and planetary entry physics and technology covering entry dynamics, thermodynamics, radiation, ablation and heat transfer
11 p1967 A69-25573
- Astronautics - Conference, Braunschweig, West Germany, October 1968, Volume 3, Strength, material, methods of construction
12 p2176 A69-25850
- Aviation and astronautics - Conference, Tel-Aviv and Haifa, March 1969
14 p2429 A69-29011
- Bibliographies for aeronautics and astronautics /AIAA/ technical disciplines
14 p2542 A69-29510
- Professional programs for aeronautics, rocketry and astronautics development
18 p3233 A69-34552
- Space law as foreseen in light of expected scientific progress in astronautics
20 p3638 A69-37126
- ASTRONAUTS**
- Luminous particles in space observed by Vostok, Mercury and Voskhod astronauts, discussing distribution, trajectories and terrestrial origin
07 p1222 A69-19617
- Chemical and biological means of safeguarding body of astronaut against ionizing radiation and vibration
10 p1648 A69-23297
- Radiation dose and radioactive isotopes induced in astronaut body by cosmic rays of various energies
11 p1831 A69-25463
- Space mission medical heat problems covering thermal characteristics and heat control, protection and resistance of space vehicle and astronaut adaptation
12 p2023 A69-26493
- Astronaut selection and training in U.S. and U.S.S.R.
13 p2216 A69-28636
- Pre and postflight leukocyte chromosome aberration analyses of Gemini astronauts
17 p2908 A69-33173
- High positive g sub x acceleration effects on red cells destruction rate, measuring endogenous CO production of Gemini astronauts
17 p2908 A69-33176
- ASTRONAVIGATION**
- Spacecraft orientation from onboard stellar photographs, calculating absolute and relative elements, accuracy and camera parameters
13 p2296 A69-27696
- Soviet book on flight vehicles astronautavigation covering automatic equipment accuracy, changes in spherical coordinates, time measuring, etc
18 p3168 A69-34355
- Most probable position determination in astronomical navigation by tracing lines on nautical chart
23 p4186 A69-42025

ASTRONOMICAL COORDINATES

Geomagnetic field components measurements from moving object, investigating astronomical orientation applicability for three component geomagnetometer
02 p0277 A69-11674

Aurora displays distribution over earth, analyzing magnetosphere dependence on astronomical orientation of geomagnetic field in relation to solar wind
02 p0247 A69-12772

Intense discrete radio sources observation by antenna array with fan beam, determining right ascension and east-west structure
04 p0663 A69-15379

Galactic X ray sources noncoincident with conspicuous visible or radio objects, identifying visible and radio counterparts by determination of accurate celestial coordinates
05 p0813 A69-15845

Laboratory equipment for atomic and astronomical time and frequency measurement
05 p0827 A69-16582

Absolute coordinates of 906 lunar features derived and tabulated, eliminating errors due to atmospheric turbulence by using 120 lunar negatives
07 p1213 A69-18612

Spacecraft tracking network for determining spacecraft motion parameters, noting application to coordinates and velocities determination for terrestrial observers
07 p1087 A69-19609

Yerkes star trailed lunar photographs with ephemeris values of moon libration for selenodetic coordinates of secondary points, discussing errors and altitudes
07 p1225 A69-19773

Tucson selenodetic triangulation for coordinated points, considering measures on Yerkes star trailed plates
07 p1225 A69-19774

Pointing calibration of Haystack parabolic antenna by using radiometric measurements of cosmic ray sources
08 p1281 A69-20032

Geomagnetic field components measurements from moving object, investigating astronomical orientation applicability for three component geomagnetometer
13 p2257 A69-28705

Lunar coordinate corrections from solar ring coronagraphic observations of 20 May 1966 annular solar eclipse
15 p2686 A69-30532

Bright and faint stars absolute declinations compared in vertical circle systems used in Golosevov and Pul'kovo catalogs
17 p3027 A69-32872

Photographic observations of Mars position and surrounding stars, correcting coordinates for Mars phase by local desensitization of plate
17 p3027 A69-32873

Photomicroscope film plane inclination adjusted to improve circle readings measurement, noting instrument errors role in star declinations errors
17 p2970 A69-32881

Pulsars properties and distribution in galactic coordinates, deriving interstellar medium properties and physical nature of objects based on neutron star rotation
17 p3040 A69-33800

Soviet book on flight vehicles astronavigation covering automatic equipment accuracy, changes in spherical coordinates, time measuring, etc
18 p3168 A69-34355

Perturbations of planet motion in planetary coordinates, noting unperturbed motion
18 p3199 A69-34912

Minor planets positions computer calculated and tabulated from Tashkent 1963 and 1964 astrophot observations, stating time and equatorial coordinates
20 p3596 A69-37312

IC 4499 cluster variable stars coordinates in tabular form, showing high percentage of short period
20 p3598 A69-37462

Spherical trajectories control by star height maintenance, analyzing resulting cycloid and cartographic representations
23 p4186 A69-42023

ASTRONOMICAL MAPS

Changes in bands of Jupiter /1962-1965/ from astronomical synoptic mapping program, tabulating overall and chromatic intensities and longitudinal velocities
03 p0512 A69-13696

French atlas of planets covering ancient and modern planetary system and discoveries, physical nature and movement, etc
03 p0513 A69-13778

Relative number of galactic pairs and distribution of linear separation of components determined from Palomar Observatory maps
07 p1214 A69-18663

Contour map of southern Milky Way at 1410 MHz obtained using 210 ft radio telescope at Parkes, Australia
07 p1214 A69-18667

Southern Hemisphere galactic H II regions continuum thermal radiation at 6 cm, noting maps for 28 of 36 sources, peak temperatures and emission and half intensity widths
07 p1206 A69-19271

Contour maps of supernova remnants HB 9, Simeis 147 and IC 443, noting spectra showing radiation nonthermal
09 p1604 A69-22408

Radio brightness map at 22.25 MHz of galactic plane including H II regions IC 1805 and IC 1848, discussing LF absorption
10 p1787 A69-24115

Spectroheliograph technique, obtaining high resolution magnetic maps of solar magnetic fields directly in single image without photographic substructure
11 p1880 A69-24432

Sky mapping in IR, using IR photometer on TD1 ESRO satellite
13 p2260 A69-27606

Astronomical maps of integrated hydrogen density, dispersion and velocity of high galactic latitude neutral hydrogen concentration, discussing kinetic temperature
13 p2347 A69-27718

Contour maps of Milky Way continuum radiation at 1410 and 2650 MHz from low latitude survey, listing sources with estimates of flux density
14 p2526 A69-29772

Tachoheliograph /modified spectroheliograph/ for obtaining two dimensional solar velocity maps, discussing construction and theory of operation
17 p3030 A69-33061

Radio map of Orion A region, resolving M 42 and M 43 nebulae at 1.94 cm wavelength, noting optical photographs comparison
17 p3035 A69-33609

Galactic plane at 9.26 cm between longitudes of 32 to 49 degrees, tabulating contour map of antenna temperature and sources
18 p3195 A69-34426

Continuum survey at 1415-MHz between declinations of zero and 20 degrees N with radio telescope, noting flux densities and contour maps of sources
18 p3195 A69-34428

Milky Way continuum radiation at 4170 MHz using parabolic antenna, mapping discrete sources concentration at galactic equator
18 p3200 A69-34996

Book on Messier nebulae and star clusters covering current astronomical ideas, star maps, identification diagrams, telescope illustrations and astronomical data
18 p3206 A69-35471

Finding list of spectral type A7 stars and earlier in region at south galactic pole compiled from prism survey data
22 p4021 A69-40436

Orion nebula isophotal contours optical observation for three continuum colors /blue, yellow and IR/ and H alpha
22 p4031 A69-40942

Space vehicle multibeam Cassegrain antenna system design meeting radiometric mapping requirements in microwave frequency range, discussing mounting, degrees of freedom, etc
23 p4143 A69-42527

Milky Way hydrogen line survey with Parkes telescope, giving velocity-longitude control maps and tabulated data covering galactic equator
24 p4383 A69-42961

Radio emission from diffuse thermal radio sources in northern Milky Way, giving contour maps
24 p4388 A69-43641

ASTRONOMICAL MODELS

Viscous effects of neutrinos in anisotropic cosmological models examined using Boltzmann equation with simple collision term
01 p0148 A69-10053

Weakly interacting neutrinos in anisotropic cosmological models with emphasis on equilibrium period, noting energy increment
01 p0123 A69-10348

Open cosmological model containing radiation and matter, noting matter density relationship to visible matter average
01 p0150 A69-10371

Pulsars features explained by model based on binary system of neutron stars, discussing associated stellar plasmas as directional HF radio wave source
01 p0156 A69-10981

Second harmonic cosmic ray daily variation, discussing density gradient model with particle diffusion along field direction
02 p0305 A69-11422

Direct planetary atmosphere measurement by vehicles entering atmosphere, using Mars and Venus model atmospheres for accuracy expectation
[AAS PAPER 68-187] 02 p0311 A69-11472

Lunar electrical parameters range determination using models
[AAS PAPER 68-199] 02 p0312 A69-11477

Observable surface of part of Friedmann universe calculated using analytical continuation of Schwarzschild coordinate system, noting angular extent and angle of observation effect
02 p0314 A69-11644

Rotating star adiabatic axisymmetric motion solved numerically for small initial deviation from hydrostatic equilibrium
02 p0317 A69-11955

Earth structure model based on million random trials using eigenfrequencies, travel times of shear and compressional waves, mass and moments of inertia
02 p0243 A69-12009

Topochrone and generalized Hubble law considered for singular origin of universe with big bang explosions
02 p0321 A69-12195

Statistical mechanics and thermodynamics for molecular systems applied to gravitational systems, discussing collisionless Boltzmann equation and Chandrasekhar binary collision model
02 p0323 A69-12273

Computer models of one dimensional stellar problems, discussing fast relaxation of unsteady state to Fermi-Dirac distribution and slow relaxation to thermal equilibrium
02 p0323 A69-12274

Light fluctuations rise time, electron density, emission temperature and peak luminosity estimated for quasars powered by local gravitational collapse events
02 p0325 A69-12590

Red giants limiting helium core mass dependence on total stellar mass and initial composition from stellar evolutionary models
02 p0327 A69-12710

Force free magnetic fields and solar filaments, describing model for explaining filament characteristics
02 p0329 A69-12787

Solar flare model assuming open magnetic field configuration, discussing flare properties by application of tearing mode instability and nonlinear development
02 p0309 A69-12788

Plasma model of quasars and radio galaxies for observations of high energy radiation
02 p0329 A69-12794

Electromagnetic induction theory for spherical earth model involving conducting core with radial conductivity variation and concentric nonconducting mantle
03 p0423 A69-13523

Photosphere models comparison based on theoretical rotational temperatures of various diatomic molecular free radicals, using faint lines method
03 p0512 A69-13694

IR radiation of NML Cygnus with O/C ratio close to unity ascribed to circumstellar shell of graphite particles
03 p0513 A69-13775

Numerical calculation of trajectories of high energy cosmic rays in galactic disk, using quasi-longitudinal model of magnetic field
03 p0501 A69-13960

Scaled solar and gray-body temperature distribution models compared to determine stellar atmosphere
04 p0653 A69-14626

Mathematical density-depth model proposed for lunar outermost layer compared to Matveev model, noting Surveyor estimates
04 p0655 A69-14659

Asymptotic solutions of linear difference equations, discussing applications to eigenvalue problems of free oscillations of model galaxies
04 p0623 A69-14946

Cosmology, experiments on gravitation, space-time theory and model of universal history
04 p0661 A69-15157

Nonquadrupole nature of cosmological radio emission intensity distribution demonstrated for anisotropic homogeneous cosmological models without flat space
04 p0662 A69-15238

X ray astronomy, discussing sources associated with bremsstrahlung or synchrotron radiation, astrophysical models, black body radiation, relativistic electrons, etc
04 p0662 A69-15326

X ray emission from Seyfert galaxy nuclei, noting model with bremsstrahlung from hot source
04 p0649 A69-15387

Coronal structure predicted for September 22, 1968 solar eclipse by model constructed for large structure of coronal and interplanetary magnetic fields
05 p0818 A69-15602

Lithium abundance determination difficulties for undisturbed solar photosphere, noting Li I resonance line identification and model choice
05 p0821 A69-15849

Theoretical models explaining observed properties of radio galaxies and quasars, discussing quasar distance
05 p0821 A69-15851

MHD quasar model consisting of galaxy with super-massive plasma nucleus moving in magnetic field
05 p0822 A69-15853

Spinning neutron star model for pulsars based on slowing down of pulse rate, proposing emission mechanism for radio energy and relativistic gas
05 p0825 A69-16351

Homogeneous main sequence star models with convective cores, considering core chemical composition, size and energy generation ratio mechanism
05 p0829 A69-16777

Pressure stratification and transparency/geometrical depth expansion/ in Fricke-Elsasser and Zwaan sunspot models
06 p0999 A69-16976

Model for Evershed effect postulating unipolar symmetrical sunspot surrounded by magnetic knots of opposite polarity
06 p0999 A69-16977

Solar wind model for electrons and collisionless ions temperatures and anisotropies
06 p0986 A69-16983

Relativity and stellar model stability, discussing energetics of quasars and gravitational collapse of super-massive stars
06 p1002 A69-17315

Solar flares acceleration processes related to solar atmospheric currents
06 p0995 A69-17442

Model to account for flare and sunspot phenomena, discussing uni- and bipolar spots
06 p0995 A69-17443

Light variations of irregular eruptive variables known as RW Aurigae or T Tauri stars, discussing suitability of stochastic model
06 p0996 A69-17448

Carbon molecule photodissociation in cometary atmospheres, discussing intensity level distribution based on model
06 p1004 A69-17534

Planetary nebulae NGC 7662 and IC 418 forbidden line spectra compared with computer model predictions, noting evidence for dynamical effects and filamentary structure
06 p1009 A69-17963

Solar cosmic ray dose rate and total dose magnitude predictions based on Epeak and isotropic diffusion models
[AIAA PAPER 69-14] 06 p0997 A69-18160

Cosmology, discussing big bang and steady state models, arrow of time, red shift/distance relation, background radiation, etc
07 p1210 A69-18390

Cosmological model describing relation between red shift and magnitude of quasars
07 p1211 A69-18406

Permissible nonthermal convection modes in planetary interiors derived from conservation equations for self gravitating homogeneous nonrotating compressible fluid spheres
07 p1213 A69-18611

Convection in planetary interiors produced by combined thermal and nonthermal mechanisms, noting self gravitating homogeneous nonrotating compressible fluid spheres
07 p1214 A69-18613

High electron-proton temperature ratios effect on solar wind double shock wave structure, using one dimensional and two fluid models
07 p1205 A69-18849

Galactic model with differential rotation, discussing experiments on bar and cylindrical galaxy and spiral and loop structures formation
07 p1216 A69-19204

Quiescent solar prominences horizontal oscillations, explaining periods, damping times and prominence shape changes by model of freely oscillating prominence in corona
07 p1205 A69-19245

Solar flare initial development model assuming high temperature chromospheric point explosion, noting subsequent expansion and large density gradient effects
07 p1205 A69-19246

Luminosity distance, distance by apparent size, number counts, background radiation and apparent angular motion of sources in homogeneous anisotropic model universe
07 p1218 A69-19282

Redundant world models, discussing elimination through measurement of larger red shifts of galaxies and quasars
07 p1219 A69-19283

Cosmological models with antipole, determining models consistent with spatial distribution of quasars and radio galaxies
07 p1219 A69-19284

Dynamical stability in premain sequence stars, discussing adiabatic models for pure hydrogen composition and collapse initiation by low opacity
07 p1220 A69-19388

Rotating stellar models oscillation and stability approximated by virial equations
07 p1220 A69-19389

Soviet monograph on diurnal solar cosmic ray variations from maximum to minimum solar activity, discussing model based on anisotropic particle scattering theory
07 p1209 A69-19500

Plane symmetric perfect fluid cosmological model derived from class I considerations, evaluating scalar invariants for line element
07 p1222 A69-19586

Relativistic cosmological models with radiation and matter, analyzing conversion from radiation-like models to dust-like models
07 p1222 A69-19587

Critical density ratio concept introduced into cosmological models for matter concentration into galaxies in expanding universe
08 p1381 A69-19794

Emission line formation in homogeneous chromosphere for noncoherent scattering, considering various chromosphere models
08 p1381 A69-19800

Primordial magnetic field effects on spatially homogeneous cosmological models with anisotropic Euclidean metric
08 p1383 A69-20049

Galactic angular momentum of rotation, applying rotation theory to gravitational instability model of galactic formation
08 p1383 A69-20050

Neutrino emission and carbon burning onset in 1.45 solar mass stellar models with pure He envelope, He burning shell and degenerate C-O core
08 p1384 A69-20059

Interplanetary scintillations of 3C 279 and CTA 21 combined to derive solar wind density fluctuation model, using random thin screen theory
08 p1385 A69-20069

Isotropic Newtonian cosmological models symmetry shown to have velocity distribution obtainable from solution of Vlasov equation
08 p1386 A69-20073

Convection inhibition effects on premain sequence evolution of solar mass star, discussing largely radiative models
08 p1386 A69-20088

Preliminary model atmospheres for cepheid variable eta Aquilae, discussing mass loss processes
08 p1386 A69-20089

Martian structure theory, comparing mathematical model based on earth long term evolution and ad hoc models
08 p1387 A69-20092

Evolutionary cosmological models, relevant observational cosmology, quasar red shift, cosmic black body radiation, cosmic He abundance and universe temperature history
08 p1388 A69-20223

Number count formula in zero pressure model universe for extragalactic radio sources with arbitrary luminosity and evolution functions, discussing red shifts
08 p1390 A69-20388

Long term modulation of cosmic rays by solar activity explained by Parker solar wind model, noting confirmation by direct satellite measurements
08 p1397 A69-20533

Models for lunar density distribution consistent with available data on lunar physical properties
08 p1393 A69-20579

Diffusion model for propagation of solar cosmic rays in interplanetary space, obtaining injection spectra for solar flare protons
08 p1379 A69-20613

Close binaries evolution and Algol type systems origin, discussing hydrogen exhaustion in center
08 p1395 A69-20633

Wolf-Rayet star properties, model and mass loss
08 p1395 A69-20640

Solar wind model including effects of rotation, magnetic fields and anisotropic heat conduction
08 p1380 A69-20643

Carbon 12 stars to simulate core evolution of planetary nebulae precursors, discussing nuclear shell burning
08 p1396 A69-20649

Orbiter and rotator models of pulsating radio sources, considering relationship between lack of Faraday rotation and similar polarization in decametric radiation from Jupiter
08 p1397 A69-20688

Instability of stellar structures intermediate between white dwarfs and neutron stars shown by stellar models, discussing pulsar signals periodicities
08 p1397 A69-20770

Model for nucleosynthesis of Li, Be and B in solar system from mass spectrometric measurements of high energy proton production of light elements
08 p1401 A69-20901

Quasi-stellar radio sources (QSS) and radio galaxies structure and evolution, discussing nucleus nonuniform model
09 p1592 A69-21500

Poincare recurrence theorem applicable to collapsing gravitational system with particles velocity dispersion other than zero
09 p1593 A69-21567

Lipshits-Khalatnikov law applicability to early stages anisotropy of cosmological expansion and relic emission
09 p1593 A69-21568

Nighttime Venus ionosphere models compared with Mariner 5 observations, discussing implications with regard to He and H abundance consequences and nightglow
09 p1594 A69-21695

Subdwarf HD 25329 studied with model atmosphere approach, using H alpha, Na I and Mg I profiles for effective temperature
09 p1600 A69-22199

Optically thick planetary atmospheres in radiative-convective equilibrium investigated by models with adiabatic temperature gradient in troposphere, discussing gray stratospheric solution
09 p1600 A69-22200

Sco X-1 optical spectrum magnitude and color changes, proposing variable black body model
09 p1601 A69-22213

Stellar models for Population II lower main sequence stars, discussing uncertainties in radii and bolometric magnitude
09 p1601 A69-22214

Absorption red shifts in quasi-stellar source due to dead galaxies in cosmologically flat model of universe
09 p1602 A69-22228

Radiation fields of Lyman alpha to Lyman 10 calculated for model planetary nebulae with constant and exponential density distributions in spherical symmetry
09 p1604 A69-22407

Bolometric luminosity-red shift relations of Friedmann dust universes corrected for inhomogeneities, using locally inhomogeneous Swiss cheese models
09 p1605 A69-22411

General relativistic models of massive hot nonrotating stars with adiabatic temperature gradients consisting of ideal gas and radiation mixture
09 p1605 A69-22416

Gravitational waves emitted by relativistic, nonrotating, nonradially pulsating stellar model, discussing polarization and energy and momentum transport
09 p1605 A69-22417

Carbon rich star models with and without neutrinos, considering carbon burning, central stars of planetary nebulae and hot white dwarfs
09 p1606 A69-22419

Neutrino loss effects on evolution of pure iron stars, considering white dwarf, presupernova models and iron-helium transition
09 p1606 A69-22420

Structure and pulsational properties of massive stars with helium cores and thin hydrogen poor envelopes
09 p1606 A69-22421

ASTRONOMICAL MODELS

Uniformly rotating star models within first order perturbation theory in convective equilibrium and with radiation pressure, discussing radiative and gas pressure ratio
09 p1606 A69-22422

Collisionless plasma heating by damping hydromagnetic waves applied to solar wind qualitative model, discussing magnetoacoustic wave energy
09 p1607 A69-22426

Thermal models for Jupiter and Saturn corresponding to completely convective structure, using De Marcus state equations
09 p1607 A69-22428

Characteristic length constant in open cosmological model of large scale properties of real space-time, noting relation to other constants
09 p1608 A69-22528

Cosmology, reviewing Friedman and Lemaitre model, big bang model, primeval fireball hypothesis for residual black body radiation and galactic origin theories
09 p1608 A69-22715

Jupiter model /cyclotron/ of pulsar radiation generation
09 p1608 A69-22761

Homogeneous anisotropic cosmological models of pancake and cigar forms, discussing quasars and emission time effects on red shift and luminosity distance
10 p1771 A69-22856

Optical features of Sco-X-1, Tau-X-1 and Cyg-X-2 X ray sources, discussing optically thin hot plasma model for X ray emitter
10 p1682 A69-23327

Mass and velocity distribution of interstellar clouds from Oort model simulated by Monte Carlo method on computer, predicting rogue cloud existence
10 p1779 A69-23608

Zero point energy, evolutionary cosmology, negative kinematic pressure and space curvature, assuming physical vacuum as ground state of Bose field
10 p1780 A69-23649

Polarization to extinction ratio criterion to choose interstellar cloud model, discussing magnetic field strength requirements
10 p1781 A69-23673

Interstellar grain model consisting of elongated dielectric particles represented by infinite circular cylinders reproducing observed interstellar extinction in IF far UV spectra
10 p1781 A69-23674

Silicon carbide particle growth and motion in carbon star atmospheres
10 p1781 A69-23678

Interstellar extinction models of classical Mie particles and quantum mechanical polycyclic aromatic molecules
10 p1781 A69-23679

K coronameter observations used to construct electron density models of corona above proton flare region of July 1966
10 p1763 A69-23733

Steady state spherically symmetric model for solar plasma acceleration with distance, showing essential role of viscosity
10 p1769 A69-23899

Ionized meteor trails initial radii statistical characteristics determined for two models
10 p1783 A69-23917

Interstellar gas model based on calculations of heating by low energy cosmic rays, noting gravitational compression to form clouds
10 p1770 A69-24095

Density wave theory of galactic spirals, discussing hydrogen distribution, young star distribution, stellar migration, magnetic field structure, density waves in stellar formation, etc
10 p1786 A69-24109

Stochastic model of interstellar magnetic field to account for observed cosmic ray mean life
10 p1771 A69-24112

Stellar evolution, computing sequences to establish solar model of primordial composition, comparing models with spectroscopic observations
10 p1788 A69-24126

Stellar models for chemical compositions to explain gap above main sequence in color-magnitude diagram of NGC 188
10 p1789 A69-24127

Axisymmetric models for stable and unstable oscillations of rapidly rotating zero temperature white dwarfs, discussing kinetic and potential energy
10 p1789 A69-24129

Dynamical model for spherical inhomogeneity in mean mass density of universe to predict velocity dispersion observed for Coma Cluster
10 p1789 A69-24133

Radio sources log N-log S diagram, red shifts and luminosity functions in zero cosmological constant and Lemaitre type Friedmann universes
10 p1789 A69-24134

Radio nebula NRAO 591/593, discussing thermal and nonthermal source and models based on electron density distribution
10 p1790 A69-24136

Models for emission line region of 3C 273, considering ionization distributions for estimation of relative abundances
10 p1790 A69-24137

Radio astronomical observations of Venus at atmosphere interpreted noting agreement with model based on Venera 4 data
10 p1791 A69-24202

Absolute dimensions of 34 eclipsing variables having both components near main sequence, comparing mass luminosity and mass spectrum to homogeneous model stars
11 p1952 A69-24248

Stellar model with magnetic field accelerating central core rotation to instability for determining rotating star energy and angular velocity distribution dependence
11 p1952 A69-24249

Nongray models of atmospheres of early stars, giving Avrett-Krook method of correcting temperature distribution
11 p1954 A69-24361

Period variations, colors and light curve peculiarities of models of U Geminorum type stars
11 p1954 A69-24363

Astronomical model indicating thin radial filaments in planetary nebula NGC 7293 formed by envelope density fluctuations attributed to ionizing and shock waves
11 p1955 A69-24384

Equivalent line widths for solar disk Fe and Ti spectra determined for umbra models, noting role of sunspot location
11 p1955 A69-24388

Stability of spherically symmetrical nonrotating mass systems moving in self consistent gravitational Einstein field, considering quasar applicability
11 p1956 A69-24394

Green function solution to Maxwell equations for interplanetary and coronal magnetic fields above photosphere, considering field at source surface
11 p1958 A69-24429

Red shift hypothesis postulated on perfect cosmological principle and uniqueness of electromagnetic wavelength measurements, showing agreement with astronomical data
11 p1961 A69-25108

Physical structure of convective envelopes of population II main sequence stellar models by mixing length theory, emphasizing hydrogen molecule formation and pressure ionization
11 p1961 A69-25109

Optical and radio measurements of electron temperature of H II regions obtained from brightness ratio of hydrogen line and continuum, considering isothermal model
11 p1950 A69-25110

Einstein field equations solutions for homogeneous cosmological models, assuming perfect fluid gravitation source and existence of simply transitive surface motions
11 p1919 A69-25245

Theoretical models corresponding to initial phases in thermal-gravitational collapse of spherical clouds from interstellar gas for stellar formation
11 p1963 A69-25261

Test particle classical dynamics in closed expanding universe, discussing Newtonian inertial mass decrease and canonical methods for determining momentum, velocity and energy
11 p1920 A69-25561

Joule heating role in generating internal gravity wave energy in auroral electrojet region, using linear model
12 p2064 A69-26010

Radio emission of fast cosmic ions by plasma wave conversion to electromagnetic waves, using nonlinear mechanism in turbulent plasma
12 p2149 A69-26209

Computer program for model stellar envelopes of red supergiants with extended atmospheres
12 p2156 A69-26218

Stellar evolution model for primeval He abundance in population II stars in globular clusters for big bang confirmation
12 p2156 A69-26228

White dwarfs structure model for deriving formula for phase density in color-luminosity diagram
12 p2159 A69-26665

Galactic descriptive functions and empirical model construction methods for determining mass distribution
12 p2160 A69-26852

Unified model for spatial distribution of transplanetary exospheric electron density for polar plasma study
12 p2151 A69-26952

Quasar spectra, discussing 3C 345, 3C 191 absorption lines and model explaining quasar spectra
12 p2167 A69-27046

Isotropic 3 K black body radiation implications for hot cosmological model, formation of galaxies, existence of superdense bodies and density nonuniformity during prestellar stage
12 p2167 A69-27047

Coherent radio emission mechanism in quasars and supernova remnants, discussing magnetic effects
12 p2168 A69-27050

Magnetic models of pulsars and rotating neutron stars to explain narrowness of radiation beam in polar diagram
12 p2172 A69-27168

Linear oscillation modes of premain sequence star model of pure hydrogen composition with variable specific heats ratio, discussing dynamic instability of polytropes
13 p2336 A69-27449

Solar cycle kinematical model based on field amplification by solar differential rotation including fluctuations in eruption rate
13 p2337 A69-27548

Radiative relaxation of relativistic particle distribution undergoing synchrotron radiation and reabsorption, discussing self absorbed radio source model
13 p2327 A69-27572

Microwave background radiation by intense sources studied by homogeneous and isotropic Friedmann and steady state models
13 p2339 A69-27574

Quasar applications as gravitational lenses within Hoyle-Fowler quasar model
13 p2340 A69-27575

Line absorption effect on opacity and main sequence model stars noting luminosity, radius and mass of convective core
13 p2340 A69-27578

Isotropic and anisotropic dust cosmological models density perturbation growth, considering angular momentum conservation in expanding universe
13 p2343 A69-27619

Astronomical model explaining shell instability of Pleione /28 Tauri/ extended atmosphere, discussing magnetic field amplification by differential rotation to explosive dissipation in 9.16 years
13 p2347 A69-27716

Relativistic version of generalized gravitation theory, establishing models to describe gravitars having large gravitational mass defect and red shift
13 p2351 A69-27864

Photometric data and law of rotation in symmetry plane for constructing mathematical model of mass and luminosity distribution in M 31
13 p2351 A69-27870

Polytropic gas spheres static models integral characteristics by nonrelativistic generalized gravitation theory, noting central densities dependence on critical values
13 p2352 A69-27872

Diurnal hemisphere auroras assuming origins in magnetosphere tail with pressure responsible for tail formation, discussing tentative model and implications
13 p2256 A69-28654

Space-time interpretation of static Einstein universe model and Friedmann space with variable positive curvature
14 p2484 A69-28865

Vacuum chamber model for sinusoidal rilles on lunar surface produced by aqueous erosion under ice blanket
14 p2485 A69-28873

Solar wind quiet state thermal properties and chemical composition compared with coronal expansion hydrodynamic model predictions
14 p2513 A69-29098

Tentative solar photospheric model meeting Noyes and Withbroe criticism
14 p2518 A69-29131

Extinction efficiency of graphite core interstellar grains with solid hydrogen and ice mantles, using theoretical models
14 p2486 A69-29587

Pulsar model used to explain stellar shape oscillations as cause of radio emission intensity periodic variations
14 p2522 A69-29675

- Cometary tail diffusion model based on luminous particle number decrease with time and particle accelerated motion and diffusion in space
14 p2523 A69-29705
- Critical analysis of Oort cometary cloud existence, discussing stellar encounters of sun, planetary explosions, etc
14 p2524 A69-29714
- Sunspot equivalent line widths calculated using sunspot models, considering influence of light scatter correction
14 p2525 A69-29721
- Extragalactic background radiation intensity in isotropic world models as function of universe thermal history
14 p2514 A69-29769
- Integrodifferential equation derived and solved for evolution of collisional model of asteroids and debris
14 p2526 A69-29879
- Low density Friedmann universe models with non-zero cosmological constant and long ages, deducing galaxy evolution rates from magnitude-red shift relations
14 p2527 A69-29944
- Amplitude and scale of microscopic fluctuations of electron density within M8 from brightness ratios of O II lines, using multiple shell model
14 p2514 A69-29949
- Supergiant HD-33579 in Magellanic cloud by model atmospheres, discussing abundances
14 p2529 A69-29979
- Closed space cosmological model, discussing complex singularity behavior
15 p2680 A69-30200
- Convective neutral stability in Schwarzschild-Harm model for evolution of stars with large masses
15 p2681 A69-30422
- Solar corpuscular radiation characterization by stable four streamer structure at near minimum solar activity
15 p2674 A69-30517
- Surface brightness distribution in comet Arend-Roland tail from diffusion model and photometric investigation of photographs obtained by 40-cm astrograph
15 p2684 A69-30519
- Gasdynamic model of comet nucleus region, discussing molecular collisions, surface brightness distribution and dust particle motion
15 p2684 A69-30520
- Negative curvature electron energy spectrum of discrete radio source model, assuming acceleration by Fermi mechanism and energy loss by synchrotron radiation
15 p2687 A69-30540
- Spiral density waves formation in galaxy model with differentially rotating and nonrotating subsystems based on collective interactions
15 p2688 A69-30550
- Coronal structure during 22 September 1968 eclipse from photographs, showing agreement with prediction by model
15 p2690 A69-30696
- Einstein equations solution for empty space without singularities containing metric, with closed homogeneous space type hypersurfaces expanding anisotropically
15 p2690 A69-30732
- Hydrogen recombination in hot universe model, discussing emission of energetic quanta
15 p2690 A69-30734
- Solar neutrino fluxes sensitivity to localized changes in opacity and equation of state, discussing solar models
15 p2675 A69-30768
- Nova outburst dynamics investigation by time dependent hydrodynamics computer program including energy transport by radiation and convection
15 p2692 A69-30769
- Pure hydrogen stellar atmosphere nonLTE models, calculating surface temperature rise due to H alpha line effect on continuum energy balance
15 p2693 A69-30777
- Surface gravity and temperature model atmospheres for O-type stars with UV line blanketing
15 p2693 A69-30778
- Temperature and density models for coronal green line enhancements with and without magnetic field effects, using graded height spectrograms
15 p2693 A69-30782
- Distribution model for ionized interstellar gas over galactic disk for explaining radio emission absorption and depolarization from discrete sources
15 p2695 A69-30935
- Close binary system components approximated by two nonsimilar ellipsoids, obtaining interpretation of light curves
15 p2695 A69-30957
- Zodiacal light models /including spherical and nonspherical models/, discussing mechanisms for orientation of particles in solar orbits
15 p2698 A69-31366
- Inertial systems in homogeneous isotropic expanding universe model, giving expression for line element accounting for Hubble effect
15 p2654 A69-31495
- Mathematical solutions of Einstein cosmological equations for radiation universe, discussing model limitations for universes older than 5-6 billion years
15 p2700 A69-31496
- Interstellar cloud models, considering gas pressure, cosmic ray flux, magnetic field values, etc
16 p2853 A69-31599
- Electrostatic heating of solar wind ions from instability in two fluid solar wind model leading to preferential heating of protons over electrons
16 p2848 A69-31971
- Equilibrium models reliability for main sequence stars estimated from systematic applications of physical assumption sets and numerical methods
16 p2859 A69-32219
- Viscous and thermal generators applicability to production of spin generated galactic magnetic fields in primordial fireball
16 p2866 A69-32812
- Water bag spherically symmetrical universe model, discussing system stability, distribution function representation and polytrope equivalency
16 p2866 A69-32813
- Stellar light element abundances, discussing evolution models for various star types
16 p2866 A69-32816
- Evolutionary tracks along horizontal branch of models for Population II stars in postred giant phase
17 p3030 A69-33071
- Planetary free vibrations, discussing models for earth, moon, Venus and Mars, rotation and ellipticity effects and measurement on seismometers, gravimeters and magnetometers
17 p3031 A69-33097
- Directional characteristics of lunar IR radiation accounted for by crater model
[AIAA PAPER 69-598] 17 p3033 A69-33285
- Lunar photometric function determined using modified Hapke surface model and corrected Lommel-Seeliger law for surface roughness and crater distribution
[AIAA PAPER 69-596] 17 p3033 A69-33308
- Pulsed radio sources origin from models, emphasizing pulsating white dwarfs
17 p3037 A69-33640
- Radial oscillation periods of Hamada-Salpeter white dwarf models graphically compared with models by Harrison-Wheeler Wakano equation of state
17 p3037 A69-33642
- Magnetized solar wind model to evaluate temperature, density, velocity and magnetic field for various boundary conditions
17 p3041 A69-33812
- Red dwarf star YZ CMi corona structure showing possible estimation of additional carried energy by shock waves after flare
17 p3043 A69-34166
- Corrections to previous papers on extragalactic gamma rays, discussing effects on various cosmological models
17 p3025 A69-34168
- Cosmic ray propagation equilibrium model for rays origin and storage in galaxy, considering energy dependence of nuclei relative abundances
18 p3185 A69-34276
- Microwave background anisotropy induced by gravitational effects interpreted using spatially flat Friedmann model for substratum
18 p3190 A69-34286
- Quasars and intergalactic hydrogen density, using Schmidt law of increase in number density of quasars to construct plausible models
18 p3190 A69-34288
- Pure carbon 12 stellar models evolution studied to determine production mechanism of planetary nebulae, discussing shell burning and surface layers unbinding role
18 p3191 A69-34298
- Solar wind model for studying long wavelength turbulence as heat source for alpha particles and protons in solar plasma
18 p3186 A69-34299
- Quiet solar wind model with magnetic field numerically calculated, obtaining coronal electron densities and angular momentum near earth
18 p3186 A69-34301
- Particulate thermophysical lunar soil model for measuring lunation nighttime and eclipse cooling, noting applicability to IR surface brightness temperature of Mercury hot pole
18 p3191 A69-34303
- Solar Fe II lines theoretical equivalent widths calculations, estimating influence of photosphere model on iron abundance data
18 p3191 A69-34305
- Lunar temperature prediction with emphasis on variable property models, noting assumptions about physical properties appearing in heat conduction equations
18 p3194 A69-34374
- Thin disk galactic models small oscillations, discussing frequency spectra and types of continua
18 p3196 A69-34551
- Models for pulsars periodicity and period range due to nonradial gravity wave in almost adiabatic matter of degenerate neutron stars
18 p3196 A69-34645
- Oblique rotator model for pulsars, discussing difficulties arising from two asymmetrically spaced pulses during each stellar rotation
18 p3196 A69-34647
- Source requirements for cosmic radiation origin model, noting fluctuations in momentum changing process
18 p3188 A69-35005
- Alpha Serpentis spectrum study from model atmosphere and growth curves, finding metal abundance ratios five times as great as in Arcturus
18 p3200 A69-35130
- Comet-solar wind interaction model, determining contact discontinuity size and shape around comet nucleus and ion specular reflection
18 p3188 A69-35190
- X ray sources model, describing possible ring of matter around white dwarf near end of active evolution
18 p3188 A69-35204
- Jupiter decametric radio source analysis suggesting two component model of rotation at both constant and variable rotational periods
18 p3202 A69-35212
- Pulsar PSR 0833-45 polarization structure frequency dependence measurement leading to model implying radiation emanated from magnetic poles neighborhood
18 p3202 A69-35215
- Fluctuations evolution in density perturbations analyzed to obtain free fall and free expansion universe models, showing no difference between expanding and static Newtonian universes
18 p3203 A69-35347
- Molecular concentration-optical depth curves for combinations of two photospheric and two facular models, noting lines contrast dependence on dissociation energy
18 p3204 A69-35391
- Solar flare model based on force-free currents in solar atmosphere, noting rapid energy release due to exceeding current density critical limit
18 p3188 A69-35392
- Hydrodynamics of gas flow due to solar flares using point explosion model, determining shock wave travel time to earth orbit
18 p3189 A69-35397
- Solar cosmic ray anisotropies in terms of model with particles propagating along interplanetary magnetic field undergoing pitch-angle scattering
18 p3189 A69-35400
- Cosmological model based on inertia and relativity principles, considering scalar gravitational and electrostatic potential, light velocity, gravitational interaction and observed galactic red shift
18 p3206 A69-35470
- Primitive solar nebula physical model considered under angular momentum conservation in collapsing fragment
19 p3406 A69-36074
- Monte Carlo relaxation method for physically self consistent model stellar atmospheres, discussing stability, accuracy and convergence of solution
19 p3425 A69-36337
- Atmospheric models for specified effective temperatures, hydrogen-to-metal ratios and surface gravities in studying metal deficiency effect on stellar atmosphere
19 p3425 A69-36338
- Lunar interior chemical heterogeneity determined from model taking into account pressure, temperature and composition effects
19 p3425 A69-36421

Andromeda M 31 galactic model, using luminosity and velocity data from optical and radio observations to construct nucleus, kernel, disk and flat component 19 p3426 A69-36579

Proton satellites measurements reconciliation with diurnal stellar variation data and cosmic rays origin models 19 p3396 A69-36621

Mercury internal constitution and chemical composition, discussing models with iron cores and iron admixtures in mantle 20 p3597 A69-37331

Mercury and Venus thermal histories based on analogy to earth models 20 p3597 A69-37333

Thomas wave equation in fluid mechanics, examining coordinates system with normal hyperbolic metric of universe tube having given signature 20 p3598 A69-37430

Criteria to prove incorrectness of two column model for photospheric granulation proposed by Margrave and Swihart /1969/ 20 p3603 A69-37541

Stability analysis of Kippenhahn-Schluter model of solar corona filaments against arbitrary perturbations treated in MHD approximation using Bernstein energy principle 20 p3588 A69-37544

Radiation emission mechanism for NP 0532 associated with Crab Nebula, discussing shock- neutral sheet interaction 20 p3604 A69-37572

Sunspot umbra observed on 21 September 1966, computing transparency in model equalling photosphere transparency at same optical depth 20 p3605 A69-37825

Time scale of diffusion of angular momentum estimated by model for disturbances occurring in star with secularly unstable angular velocity distribution 20 p3605 A69-37826

Cosmological constant and elementary particle theory 20 p3606 A69-38013

Cold disk galactic models free short wavelength oscillations, obtaining asymptotic approximations for eigenfrequencies and eigenfunctions of bending and planar modes 20 p3611 A69-38151

Scorpius X-1 X ray star model based on relativistic electron distribution due to magnetic field fluctuations, considering role of Alfvén waves 20 p3593 A69-38154

Matter and radiation interaction in hot model universe, investigating residual radiation spectrum deviation from Planck curve 21 p3797 A69-38536

Galaxy model for spiral structure origin 21 p3797 A69-38537

LTE departure calculated for He I in hot star model atmospheres for effects on populations of singlet and triplet states 21 p3801 A69-38761

X rays and gamma rays extragalactic components, calculating background component intensity for given model of universe 21 p3789 A69-38818

Spherically symmetrical T models of dust matter yielding method for obtaining maximum total mass effect in general relativity theory different from Friedman closed model 21 p3803 A69-38994

Optimum midcourse impulses effects on heliocentric launch window, comparing two and three impulse delta 5 performance for two and three dimensional solar system models [AAS PAPER 68-095] 21 p3804 A69-39201

Quasi-stellar objects identification, distribution, emission lines interpretation, energy distribution, absorption spectra, radio properties, etc 21 p3811 A69-39515

Density fluctuations in universe during early stages, using hot big bang cosmological model 21 p3814 A69-39571

Cometary nuclei composition as last samples of early solar system composition, discussing dirty snowball model and radical lifetime problem 22 p4013 A69-40097

Spectrophotometric observations of delta Scuti short period variable stars compared with model atmospheres 22 p4015 A69-40150

Nongray models representing atmospheres of F and G supergiants computed and tabulated for 5400- 6600 K and various surface gravities 22 p4015 A69-40152

Sunspot penumbra model in hydrostatic equilibrium accounting for continuum and Fraunhofer lines observations 22 p4019 A69-40290

Type 3 solar radio bursts observed during April-October 1967 for two alternative models of active region streamers in outer corona 22 p4003 A69-40300

Hydrodynamic equations for radial solar wind expansion linearized and specialized to treat co-rotating perturbations 22 p4003 A69-40302

Variational principle for stability of galaxies models, developing perturbation potential in terms of operator similar to Hartree-Fock exchange operator 22 p4022 A69-40468

Time symmetric electrodynamics for various cosmological models, discussing position and negative space curvature 22 p4022 A69-40469

Photoionization model of Seyfert galaxy extended to calculate temperatures, luminosities and sizes of zones emitting forbidden Fe X /6374 Å/ and Fe XIV /5303 Å/ 22 p4024 A69-40581

Free-free intergalactic absorption at LF as function of red shift for uniform zero pressure cosmological models 22 p4025 A69-40640

Evolutionary dynamic model for H II region produced by massive stars within dense dust-laden clouds, discussing grain sputtering and time scales 22 p4025 A69-40646

Radiant energy diffusion from spherical expanding matter for masses and velocities of model supernova outbursts, discussing thermonuclear and neutron star origins of supernovae 22 p4026 A69-40649

Model atmospheres of late type stars with solar abundances, effective temperatures between 2000-4000 K and gravities corresponding to dwarf, giant and supergiant stars 22 p4027 A69-40654

Rotating neutron stars with magnetic fields symmetric about rotation axis considered for pulsar model 22 p4027 A69-40657

Universe expansion model, integrating Einstein gravitation equations with cosmological constant lambda to interpret Hubble effect 22 p4029 A69-40756

Relative abundances U-235/U-238, Th-232/U-238, Pu-244/U-238 and I-129/I-127 at solar system formation time to obtain time evolution of gamma process nuclei 22 p3986 A69-40766

Exact solution of macroscopic line transfer equation including electron scattering terms for Milne-Eddington model atmosphere, discussing electron scattering effect on growth curves 22 p4007 A69-40903

Pulsar magnetic models, coherent radio emission mechanisms, radiation polarization, data summary and astrophysical nature 22 p4030 A69-40905

Galactic mass model and interstellar dust scattering data used to examine high latitude nebulae illumination possibility by integrated galactic light 22 p4033 A69-41059

Globular cluster star age and initial He abundance from main sequence, horizontal branch and red giant tip models using radiative opacities 22 p4035 A69-41205

Main sequence star models for diverse solar masses, covering hydrogen burning phase in core and conditions for dynamic instability and mass exchange 23 p4208 A69-41286

Eclipsing binaries spectroscopic and photometric data compared to Iben and Horn models of main sequence stars, noting stellar mass effects 23 p4208 A69-41287

Spectral reflectivity curves for Mars light and dark areas and seasonal changes of dark area simulated in laboratory 23 p4209 A69-41319

Statistical model of cratered planetary surface slopes and elevation applied to radio wave scattering by moon and Venus 23 p4209 A69-41322

Martian surface mineralogical study of present state and past processes from rock analyses by unmanned spacecraft instruments to test planetary models 23 p4212 A69-41619

Pulsars models and radiation mechanism, noting neutron stars with rotating magnetospheres 23 p4218 A69-42326

Deceleration parameter lower and upper limits for zero pressure big bang cosmological Friedmann models imposed by density parameter, Hubble constant and universe age 23 p4219 A69-42373

Universe behavior in time, discussing expansion observed by red shift, closed universe with future contraction phase and unlimited expansion open model 23 p4221 A69-42391

Homogeneous axisymmetric anisotropic cosmological models, analyzing magnetic fields and initial anisotropies effect on 3K radiation and primordial He production 23 p4222 A69-42402

Model atmosphere analysis of line identifications and equivalent width data for relatively cool Ap star HD 204411, discussing atmospheric composition 24 p4376 A69-42664

Pulsar model with seat as rotating neutron star having dipolar magnetic field not parallel to rotation axis 24 p4377 A69-42666

Phenomenological sunspot model describing granules, supergranules, magnetic fields and photospheric convection 24 p4378 A69-42691

Model of moon accumulated at low temperatures, discussing lunar surface layer characteristics 24 p4383 A69-42936

Critique of magnetic response model for interaction of moon and interplanetary plasma magnetic field proposed by Blank and Sill 24 p4384 A69-43190

Model for accumulation of earth and planets from primitive solar nebula, implying inhomogeneous chemical composition of bodies in solar system 24 p4385 A69-43215

Rotating neutron stars, pulsars and cosmic X ray sources, accounting for large and small diameter sources by rotating neutron star losing mass in magnetic field 24 p4369 A69-43222

Solar flare models in terms of energy storage and release mechanisms 24 p4374 A69-43622

Outer solar convection zone structure dependence on change of parameters in mixing length theory examined to construct model 24 p4387 A69-43634

Circular arm with elliptical cross section used as magnetohydrodynamical model of helical magnetic field in spiral arms to demonstrate interstellar gas flow path 24 p4388 A69-43640

Astronomical model indicating thin radial filaments in planetary nebula NGC 7293 formed by envelope density fluctuations attributed to ionizing and shock waves 24 p4390 A69-43774

Equivalent line widths for solar disk Fe and Ti spectra determined for umbra models, noting role of sunspot location 24 p4390 A69-43778

Stability of spherically symmetrical nonrotating mass systems moving in self consistent gravitational Einstein field, considering quasar applicability 24 p4390 A69-43784

ASTRONOMICAL OBSERVATORIES
 NT OAO
 NT OSO
 NT OSO- 3
 NT OSO-C
 NT SOLAR OBSERVATORIES

Seismic refraction study of internal structure of volcanic cinder cone 02 p0236 A69-11465

Catalog of meridian program star observations made in Brorfelde, determining position relative to FK 4 stars by using impersonal photographic micrometer 02 p0315 A69-11815

Polarized radio emission from Jupiter, giving hypothesis of radiation belts deformation by solar wind 03 p0512 A69-13703

Meteorological observations of Mars northern polar cap and Southern Hemisphere from northern summer solstice to early autumn 05 p0825 A69-16302

Attitude stabilization for astronomical satellites 06 p1015 A69-17588

Royal Belgian Observatory studies on time, meridian, seismological and gravimetric services, latitude variation due to polar motion, terrestrial tides and geodetic satellites 08 p1306 A69-19992

Ballistics room of Royal Belgian Observatory for observation of geodetic satellites 08 p1272 A69-19993

Photoelectric observations of Aurigae during 1963-1964 eclipse, noting reliability of equipment and effect on observation series 08 p1388 A69-20242

Two pulsars discovered during search with transit telescope at U.S. National Radio Astronomy Observatory, tabulating pulsar parameters 09 p1592 A69-21484

Magnetograph in Italian observatory for weak solar magnetic field longitudinal components avoiding differential amplifier by electronic compensation 10 p1693 A69-23311

Bright fundamental stars right ascensions observed in Chile, discussing instruments, declination range, systematic errors, etc 10 p1777 A69-23388

Radiophysics Laboratory /Sidney/, discussing radio astronomy, radioheliographs, radio telescopes, cloud physics and research 10 p1784 A69-23988

Nonpolar latitude variations due to observation errors, discussing instrumental, computational and meteorological influence, particularly refraction resulting from climatic conditions 11 p1952 A69-24257

Galactic radio source W 49 /3C 398/ observed with Cambridge one-mile radio telescope 11 p1963 A69-25259

Computer program solving for station coordinates and dynamical parameters at Smithsonian Astrophysical Observatory from optical data, laser range and range rate 12 p2068 A69-26428

Observatory camera for satellite observation, discussing objective focusing and diameter and manual/automatic operation 12 p2092 A69-26450

Reflector radio telescope of Pulkovo astronomical observatory noting high resolution 15 p2679 A69-30102

Variable stars research and facilities in Tautenburg, East Germany 15 p2682 A69-30438

European Southern Observatory installation in Chile, discussing site, instruments, domes design, administrative structure, etc 15 p2589 A69-31098

Photoelectric observations program at Astronomical Observatory of Bucharest to determine smallest moments of several eclipsing stars 15 p2696 A69-31224

Uranus observations in 1964 by Algiers and Quito astrolabes compared with Washington transit results 16 p2853 A69-31620

Trieste astronomical observatory optical and radio solar photosphere observations in 1967, including solar cycle and north-south symmetry 16 p2858 A69-32206

Space station observations of stars, galaxies and quasars, stressing electromagnetic spectrum role in astronomy 18 p3194 A69-34370

Solar activity /Madrid 1967/, detailing Wolf numbers, sunspots, chromospheric faculae, H filaments and prominences 18 p3202 A69-35290

Supernovae observations at Palomar during 1968 made with Schmidt telescopes 19 p3403 A69-35963

Short region scanning of Arcturus spectrum with McMath solar spectrometer double pass system at Kitt Peak National Observatory compared to single pass system 21 p3721 A69-38697

Solar radio emission /S component/ observations with 22-m radio telescope at Crimean Astrophysical Observatory 22 p4020 A69-40295

ASTRONOMICAL PHOTOGRAPHY

Relative proper motion of blue star in field of pulsar CP 1919 determined from photographic data analysis 01 p0149 A69-10270

Icarus asteroid position measurements by astronomical photography, noting comparison for two South African observatories 01 p0150 A69-10373

Icarus positions from photographic observations with astrophotograph 01 p0159 A69-11331

Meteor photographic observation noting initial mass, motion, position and duration, disintegration in process of flaring, spectra and meteor flare classification scheme 01 p0159 A69-11372

Lunar rays nature from terrestrial observations and surface photographs by lunar probes, noting high crater concentration structure 02 p0236 A69-11642

Meteor masses and atmospheric density calculation inaccuracy by use of effective stellar magnitudes of meteors 02 p0314 A69-11695

Catalog of meridian program star observations made in Brorfelde, determining position relative to FK 4 stars by using impersonal photographic micrometer 02 p0315 A69-11815

Mercury rotation period determination by surface photography, correcting earlier interpretation 03 p0517 A69-14233

Photographic recording to produce spatial analog of temporal Fourier spectrum of astronomical source used for distinguishing weak periodic signal from background signal 04 p0556 A69-14294

IR object discovered during T Tauri objects and diffuse nebulae study, discussing peculiarity 04 p0655 A69-14665

High resolution H alpha line photographs of solar chromosphere, showing superpenumbra-like dark fibrils around isolated sunspots 04 p0664 A69-15526

Optical observations of radio galaxies and quasars, noting evidence for galactic explosions, surface distribution, physical properties, radio quiet quasars, etc 05 p0820 A69-15837

Variability in quasi-stellar objects, tabulating results of optical photographic survey 05 p0826 A69-16387

Photographic investigation of gegenschein and cloud satellites at L sub 5 earth-moon libration point, noting gegenschein intensity peak 07 p1212 A69-18602

Mars surface features identification from comparison of Mariner 4 and ground bases telescopic photographs 07 p1213 A69-18605

Jupiter Red Spot vorticity at perimeter indicated by interaction with dark spots circulating along south equatorial belt 07 p1213 A69-18606

Joint radio-optical observations of flare star UV Ceti in Australasia during September-October 1967 07 p1214 A69-18666

Novas in M 31 on Tautenburger Schmidt photographs 08 p1382 A69-19873

Photographic magnitudes of stars in various open clusters based on UB system and photoelectric sequence 08 p1389 A69-20245

Sky background light automatic compensation in stellar photography, using single or double channel photometer 08 p1313 A69-20247

Photographic magnitudes in UB system for southern open clusters, giving table of photographic plates 08 p1389 A69-20253

Photographic magnitudes in UB system based on photoelectric sequence for various open clusters stars, determining spectral classes for brighter stars 08 p1389 A69-20254

Design and operation of Polaroid camera for use with telescope, noting six exposures per negative 08 p1316 A69-20617

Galaxies classification using rectified images, noting pitch and inclination angles 08 p1408 A69-21135

Photographic and reflector observations of comets including orbit determinations and recoveries 08 p1408 A69-21140

Half intensity angular diameter upper limit of Seyfert galaxy NGC 4151 nucleus, considering nonthermal continuum 09 p1602 A69-22227

Multiple pinhole camera for X ray astronomy, suggesting cross correlation image recovery technique based on Fourier convolution theorem 09 p1502 A69-22768

Qualitative considerations of color indices grouping for Abell-1781 cluster of galaxies, table of data and identification charts 10 p1775 A69-23204

Relative proper motions of stars measured by microscope projection technique 10 p1778 A69-23570

Auroral H beta intensities determined from photographs by image intensifier, describing equipment and data reduction method 10 p1684 A69-23824

Atmospheric density analyzed on basis of photographic observations of meteors, comparing vertical profile with CIRA profile 10 p1688 A69-23936

Stars astronomical positions elimination from photographic plates because of errors, discussing elimination criteria and picture taking method 10 p1784 A69-24034

Far UV spectra of zeta Puppis and gamma super two Velorum with 1.6 A resolution photographed with all reflective objective spectrograph on Aerobee rocket 10 p1788 A69-24120

Flares development in form of loop tunnel, discussing role of filaments 11 p1945 A69-24238

Photoelectric and photographic observations in UVB system of open star clusters, analyzing dispersion in two color diagrams, noting absorbing material structure 11 p1951 A69-24247

Microphotometer for stellar magnitudes of galaxies determination from photographs 11 p1879 A69-24256

Satellite photographic astrometry and chronometry, determining spatial positions of satellites and observation stations by space triangulation 11 p1956 A69-24400

Martian polar caps dimensions as function of planet heliocentric longitude examined from photographic observations, noting compatibility with spectroscopic data 11 p1959 A69-24728

Rocket-borne spectroheliograph for monochromatic solar photography in Mg II 2802.7 A line noting filter bandwidth, film polarizers and temperature control 11 p1884 A69-24838

Characteristics of astronomical photography, considering cameras, photographs, color films, photoemulsions and processing, etc 11 p1885 A69-24973

Comet Berbon and minor planet positions photographically recorded /1964-1967/ 11 p1962 A69-25121

Crab Nebula pulsar detection by TV camera with image intensifier at focus of astronomical telescope, detailing instrumentation and observations 11 p1962 A69-25251

Mars photographic and radar data correlation indicating smoothness of dark areas and roughness of desert areas 11 p1964 A69-25406

Planetary imaging systems design problems illustrated by Mars orbiter reconnaissance, discussing radiation effect on film, shielding, stereo method comparisons, color bands, etc 12 p2078 A69-25770

Magellanic Clouds color composite photographs prepared from negatives taken in blue and IR light 12 p2152 A69-25801

Faint stars background exposure density and detection limit determined by astrosensitometer for Kodak Spectroscopic Plates 12 p2153 A69-25811

Astronomical wide field cameras of large aperture ratio to detect extended near UV light sources outside atmosphere 12 p2080 A69-26127

Photographic observations of Nova Her 1963 in 1967, showing nonreturn to prenova stage 12 p2156 A69-26223

Photographic magnitudes of galactic nuclei, presenting plots for stellar magnitude distribution of galactic nuclei 12 p2165 A69-27029

Photographic studies of unsteady features of galaxies, discussing spectra, color, spiral arm instability and extragalactic H II regions 12 p2170 A69-27063

H alpha line photograph in M 82 spectra, giving equivalent radiating area and total ionized hydrogen mass 12 p2171 A69-27067

Photographic observations of quasi-stellar objects for position determination 13 p2334 A69-27308

Spectrum analysis of radio galaxy M82 nucleus, noting H alpha emission lines from analysis of IR photograph 13 p2335 A69-27310

IR objective-prism survey along southern Milky Way for identifying high luminosity stars

13 p2335 A69-27314

Optical radiation detection from pulsar PSR 0833-45 associated with supernova remnant in Vela, noting UV excess from plates using U and B filters

13 p2337 A69-27516

Natural terrestrial satellites existence suggested by telescopic and photographic observations and artificial satellites orbital perturbations

13 p2344 A69-27642

Ionized hydrogen regions in NGC 4449 from H alpha photography through narrow band interference filter, obtaining radial velocities

13 p2347 A69-27714

Stratoscope II unmanned balloon-borne telescope design, detailing pointing, focusing and thermal characteristics

13 p2261 A69-27956

Meteor masses and atmospheric density calculation inaccuracy by use of effective stellar magnitudes of meteors

13 p2355 A69-28726

Monograph on reduction of satellite data using fixed stars covering ALGOL programming for computing satellite direction from photographic model

14 p2446 A69-29286

Comet Ikeya-Seki head and tail structure noting cloud ribbons at angle to tail axis

14 p2524 A69-29708

Visual, photographic and spectral observations of comets during IQSY, discussing comets Tomita-herber-Honda 1964c and Ikeya-Seki 1965f

14 p2525 A69-29716

Errors in magnitude equation and atmospheric dispersion calculated for 400 mm astrophotograph, emphasizing constant errors due to objective

15 p2646 A69-30162

Stellar image vibration dependence on zenith distances and terrain relief determined from stellar traces by 200 mm telescope

15 p2647 A69-30163

Stellar image vibration amplitude dependence on trace direction by comparison with traces of moving satellites

15 p2647 A69-30166

Coronal structure during 22 September 1968 eclipse from photographs, showing agreement with prediction by model

15 p2690 A69-30696

Extraterrestrial imagery, discussing earth based telescopes, IR imagery, moon mapping, lunar and planetary probes, Lunar Orbiter photos interpretation and sensors for detecting life

15 p2690 A69-30711

Activity in Crab Nebula from 200-inch continuum and polarization plates, discussing nature and motion of wisps

15 p2691 A69-30758

Lasers and holography applications in astronomy including high resolution spectrographic diffraction gratings manufacture and astronomical objects photographic pictures evaluation

15 p2610 A69-30880

Solar corona observations on eclipse day by Aerobee rocket launched in New Mexico correlated to Siberian total eclipse photograph

15 p2696 A69-31099

Photographically observed meteor orbits 1937-1963, noting overestimation of hyperbolic orbits due to observation errors

15 p2697 A69-31253

Photoheliographic data tabulation of sunspots positions and areas for 1961 obtained from various astronomical observatories

15 p2700 A69-31490

Quasi-stellar objects anomalous Hubble plot, suggesting explanation for steeper plot under assumption on red shift vs apparent magnitude relation

15 p2701 A69-31536

Nova Vulpeculae 1968 photographic observations analyzed for magnitudes, indicating 16 July 1968 explosion

16 p2855 A69-31659

Star chains around Eta Carinae, discussing nonrandom real groupings and probability criteria using ADH red sensitive plate without filter

16 p2856 A69-31931

Instrumental observations of Jupiter opposition in 1967 and 1968

16 p2858 A69-32205

Instrument for simultaneous observation of astronomical plate pairs for detection of stars with UV color excess

16 p2791 A69-32226

Photographic observations of Mars position and surrounding stars, correcting coordinates for Mars phase by local desensitization of plate

17 p3027 A69-32873

Finite resolution effect on solar granulation simulated by numerical experiments using two dimensional smeared pattern

17 p3029 A69-33046

Day sky brightness at altitude above 100 km obtained during rocket flight compared to night sky viewed from ground

17 p3037 A69-33664

Selection effects on comets discovery, comparing effectiveness of photographic and visual observation techniques

17 p3045 A69-34221

Metagalactic light measurements by lunar based night sky photography

18 p3189 A69-34242

Supernovae observations at Palomar during 1968 made with Schmidt telescopes

19 p3403 A69-35963

Comet observations and orbit determinations, noting eccentricity of comet Thomas

19 p3403 A69-35970

Butterfly diagram of sunspot distribution, concluding physical processes not yet clarified

19 p3426 A69-36583

Mars photographs from various observatories taken during 1969

20 p3598 A69-37424

Photographic and spectroscopic observation of Saturn at Cassegrain focus of 122 cm reflector during earth passage through ring plane, discussing Saturn satellites

20 p3600 A69-37481

Spectroscopic and photographic observations of compact galaxies, discussing distances, absolute magnitudes, linear dimensions, Hubble diagram position and correlations with objects showing similar characteristics

20 p3600 A69-37483

Solar photography at extreme UV wavelengths using pinhole camera instrumentation on stabilized Skylark rocket

20 p3539 A69-37545

Monochromatic coronal emission line photographs improved by composite technique

20 p3539 A69-37547

Tabulated results of photographic plate measurements of minor planets positions at Leiden observatory /1938-1964/

20 p3605 A69-37789

Magnetically focused electronographic image converters for far UV photography and spectroscopy from sounding rockets, discussing stellar observations

20 p3543 A69-37801

Cameras photogrammetric parameters determined from stellar photographs, considering distortion components, reference points, etc

20 p3545 A69-38054

Schmidt camera image quality examined with spot diagrams, emphasizing methods of color confusion reduction over wide wavelength range

20 p3546 A69-38272

TV-optical observations of asteroid Icarus, discussing installation, photographs and position

21 p3719 A69-38402

M 82 direct photographs sequence observation in optical IR region, noting small nucleus and unbroadened inclined emission lines

21 p3799 A69-38649

Mars TV pictures from Mariner 7, describing prominent surface features

21 p3806 A69-39330

Planetary nebulae imaging stratification effects on structural difference studies by slit and slitless spectrographs and narrow band photography

21 p3817 A69-39785

Atlas of H II regions in 20 nearby galaxies

22 p4015 A69-40153

Ephemeris calculations and lunar craters and reference stars coordinates measured from photographic plates, using digital computers

22 p4024 A69-40610

Photographic observations of supernovae including magnitudes, comparison star tables and instrument details

22 p4032 A69-40944

UBV magnitudes for open cluster NGC 559 stars determined from combined photoelectric and photographic measurements

23 p4211 A69-41490

Photographic observations of open cluster IC 4665 made on blue and yellow sensitive plates with Vatican refractor compared with photometric measurements

23 p4215 A69-42008

Satellite photographic astrometry and chronometry, determining spatial positions of satellites and observation stations by space triangulation

24 p4391 A69-43790

ASTRONOMICAL PHOTOMETRY NT STELLAR SPECTROPHOTOMETRY

Chromospheric flares photometric measurements during near minimum solar activity, discussing characteristics

01 p0149 A69-10127

Neptune mean diameter determination by photometric observations of stellar occultation by planet

01 p0150 A69-10386

Late type variable stars time dependent photometry and polarimetry in blue and violet, noting correlation for stellar brightness and degree of polarization

01 p0158 A69-11326

Eight color narrow band photometry of bright stars, discussing band system, instrumentation, data and calibration

02 p0313 A69-11487

Model spectra applied to carbon dioxide bands in Venus spectrophotometric measurements

02 p0319 A69-12107

Narrow band and UVB photometry of GX3 plus 1 and Wolf-Rayet stars /HD 50896 and HD 45166/

02 p0325 A69-12596

Photometric-polarimetric observations of planetary surfaces, discussing geological environment interpretation and spacecraft reconnaissance system mission planning

03 p0421 A69-13394

Revision of RGU photometry fundamental data, noting main sequence curve position of O-B5 and distinction between zero age main sequence and class V

03 p0514 A69-13963

Position of binary stars in photometric diagrams at Geneva observatory, discussing sequence profile of HR diagram

03 p0517 A69-14094

Dark equatorial belt of Jupiter atmosphere in 1962 and 1963, noting photometric contrasts, molecular absorption and possible structure

04 p0658 A69-14961

Solar image or spectrum focal plane scanning technique with output beam displaced but undeviated relative to input beam for solar spectrophotometry

04 p0602 A69-15378

Computer controlled photometric telescope, describing star setting, photometric measurements and data processing

04 p0602 A69-15380

Photoelectric photometry of Mercury, Venus, Mars, Jupiter and Saturn /1963-1965/, determining phase curves and monochromatic albedos

04 p0663 A69-15383

Seyfert galaxies nuclear regions, noting multicolor photometric measurements between 0.3 and 1.6 micron and measurements of M87 jet at 1.55 micron

04 p0663 A69-15386

Photometric investigation in UVB and H alpha of early B stars in Scorpio-Centaurus association, computing intrinsic colors and magnitudes corrected for interstellar absorption

06 p1001 A69-17195

Photoelectric observation of star occultation by Neptune for mean radius determination

06 p1007 A69-17693

Photoelectric observation of star occultation by Neptune for scale height determination

06 p1008 A69-17694

Photoelectric observation of Sco X-1 variations with 91-cm reflector, tabulating results and estimating accuracy

06 p1008 A69-17695

Mars surface photometric and spectrophotometric measurements, relating opposition effect details with corresponding laboratory sample measurements

07 p1212 A69-18601

Absolute isophotometry of hydrogen alpha photographs of bright galactic H II regions, attributing difference between theoretical and observed ratio to interstellar absorption

07 p1217 A69-19231

Saturn rings optical properties and thickness from edgewise photometric observations, noting luminance relationship to direct brightness

07 p1219 A69-19335

Photographic photometry of Saturn rings around times of disappearance /1966/

08 p1381 A69-19791

Three color photoelectric observations of stars near Orion Nebula, discussing gravitational contraction stars and color magnitude diagram

08 p1384 A69-20055

Three color RGU system photometry in Milky Way field in direction of anticenter, determining absolute brightness, luminosity and density of stars

08 p1387 A69-20119

Color excesses in Kapteyn Selected Area 4 using photovisual /yellow/ and photographic /blue/ magnitudes from catalog data

08 p1388 A69-20241

Photoelectric observations of Aurigae during 1963-1964 eclipse, noting reliability of equipment and effect on observation series

08 p1388 A69-20242

Photoelectric UVB photometry of stars in Puppis-Vela border region for associations of intermediate type stars

08 p1389 A69-20248

Scattered light reduction in sunspot photometry, noting eliminating effect when observing spectral lines or narrow spectral regions

08 p1389 A69-20251

Photoelectric observations of SRa variable CH Cygni reveal strong variability, discussing existence of hot companion

08 p1396 A69-20650

Isophotal wavelengths of U, B, V and R bright star systems for replacing spectrophotometry with broadband multicolor data

08 p1408 A69-21134

Polaris cepheid variable star system color index and absolute magnitude from photometric observations

08 p1408 A69-21138

Stellar absolute magnitudes recalibration for consistency with photometric distance moduli of clusters

08 p1408 A69-21139

Photoelectric observations of nuclei of planetary nebulae He 1-5 and NGC 1514, noting changes in color and brightness characteristics

09 p1590 A69-21379

Radial velocities of stars near cluster NGC 7380, discussing discovered stars, double lined spectroscopic binaries and photometric information

09 p1597 A69-22060

Distance of bright stars in Cepheus OB2 region by MK spectral classification and UVB photometry, noting early main sequence and supergiant stars

09 p1599 A69-22194

Rocket-borne photoelectric photometers for UV observations of Saturn, using interference filters

09 p1602 A69-22216

Photometric standard based on calibration of Vega by Hayes compared with six color magnitudes

09 p1603 A69-22233

A and B stars near North Galactic Pole and with magnitudes from 5 to 14.5, noting photoelectric UVB and four color photometric measurements

10 p1773 A69-22963

Eclipsing binary AU Puppis studied photoelectrically in yellow and blue light, noting period decrease by 1.3 sec in last 40 years

10 p1774 A69-22968

Starlight extinction by interplanetary medium evidenced from confirming correlation between star brightness on ecliptic and elongation

10 p1775 A69-23198

Photometric consequences of reflection effect in close binaries, tabulating light curves

10 p1776 A69-23218

Simultaneous photometric observations of coronal emission lines during July 1966 solar proton flare plotted on synoptic charts

10 p1763 A69-23731

Cometary nucleus dynamic center noncoincidence with photometric center, using computer calculations of Arend-Roland comet

10 p1784 A69-24035

Broadband photometry for circumstellar IR emission from cool stars, considering giant and carbon stars

10 p1786 A69-24102

Spectral lines relative intensities for bright medium excitation gaseous planetary nebula IC 3568, using photoelectric spectrum scanner and spectrophotometry technique

10 p1787 A69-24117

Six color stellar photometry of 159 field stars including subdwarfs, high velocity stars and 50 Hyades stars, tabulating color data

10 p1788 A69-24122

Faint blue objects in intermediate to high galactic latitudes, summarizing results of UVB photoelectric photometry

10 p1788 A69-24123

Power spectrum analysis of photometric observations of white dwarf stars for measuring variability of stellar luminosity

10 p1788 A69-24124

Isophot system characterizing photometric structure of elongated celestial objects constructed by equidensitometric method based on Sabatier photographic phenomenon

11 p1952 A69-24255

Brightness temperatures and spectra of Venus, Mars, Jupiter and moon measured from 8 to 14 microns by reflector and prismatic spectrometer

11 p1956 A69-24395

Photoelectric measurements of nightglow intensities during sunspot minima by zenith photometer, considering background continuum

11 p1877 A69-24584

Modified Diggelen photometric method in lunar topography, analyzing surface brightness and inclinations in mare regions and Korolev thalassoid

11 p1959 A69-24724

Optical characteristics of Martian atmosphere from photometric data for continent-mare contrasts, discussing transmittance and optical thickness

11 p1959 A69-24727

Atmospheric scintillation effect on planetary brightness distribution over disk from photometric measurements

11 p1960 A69-24729

Proper motions of low luminosity stars in Hyades cluster, noting photoelectric observations

12 p2152 A69-25797

Cyanogen band absorption in nuclei of elliptical and spiral galaxies derived from photoelectric measurements indicating rich metal content in central cores

12 p2153 A69-25803

Statistical analysis of photometric curves for meteors undergoing fragmentation at onset of vaporization

12 p2154 A69-25819

Photometric standardization and calibration of meteor spectrograms for real meteor masses determination using spectroensitometer

12 p2154 A69-25820

UVB photometry observations of eclipsing binary AG Persei at Mount Palomar with 51 cm reflector

12 p2156 A69-26220

Soviet satellites rotation periods from processing of photometric observations

12 p2069 A69-26440

Current to frequency converter for astronomical photometry, discussing oscillator drift, linearity characteristics and feedback pulse counting

12 p2040 A69-26479

Successive explosions produced two gas systems observed in six Seyfert galaxy nuclei by spectrophotometry, using diffraction spectrographs

12 p2164 A69-27022

Luminosity changes in quasar 3C 273, describing corrections introduced into luminosity curve obtained by iris photometer

12 p2167 A69-27044

Spectral energy distribution in quasars, using photoelectric spectral scanner in several wavelength ranges

12 p2168 A69-27051

Law of optical radiation and photometric characteristics of quasars, noting photometric effect of strong emission lines and color dependence on red shift

12 p2168 A69-27052

Galaxies NGC 4402 and NGC 4438 structure, luminosity and color from two color photometric study of Virgo cluster center

12 p2169 A69-27058

Photometric and spectroscopic analysis of southern peculiar galaxy NGC 6438, discussing isophotes, color distribution and radial velocity

12 p2169 A69-27059

Photometric and polarimetric properties of Mars, discussing powder covering, chemical composition and particle size of bright and dark areas and blue haze

12 p2171 A69-27145

Photoelectric observation of RR Lyrae stars in globular clusters to estimate reddening near galactic poles, considering color indices

12 p2172 A69-27157

IR observations of ETA Carinae to 20 microns, noting continued increase in flux density into IR

13 p2335 A69-27316

Spectral reflectivity differences of selected dark and bright regions of Mars observed with double beam photometer

13 p2338 A69-27553

Photoelectric scanning of CH Cygni spectrum calibrated and compared with 45 Arctis, discussing

high dispersion, excess blue and UV continua, H beta emission, etc

13 p2338 A69-27557

Multiband photoelectric photometer for near IR observations, tabulating magnitudes, colors, spectral irradiance, radii and effective temperatures of late type stars

13 p2342 A69-27592

Lunar surface light scattering data cataloged for various phase angles from photometric observations of lunar features brightness

13 p2344 A69-27648

Twelve color stellar photometry for studying galaxy synthesis, relating observations to temperature, luminosity and metal abundance

13 p2348 A69-27804

Spectrometric and photometric investigation of spectral characteristics of large sunspot 45 degrees from solar disk center, tabulating characteristics of 134 spectral lines

13 p2218 A69-28324

Photoelectric observations of NGC 1275, noting increase in nucleus brightness

14 p2517 A69-29086

Intermediate band photometry of G, K and M stars in IR indicating continuous stellar radiation deviant from black bodies

14 p2520 A69-29375

Photoelectric observation of passage of stars through meridian, detailing error sources and corrective technique

14 p2521 A69-29507

Comet Ikeya-Seki 1965f photometric investigation during perihelion, determining tail type according to Bredikhin classification

14 p2524 A69-29709

Variable stars in Large Magellanic Cloud from photoelectric measurements obtained in blue and violet, including periods of Cepheids and some period amplitude differences

14 p2526 A69-29853

IQSY night airglow photometric observations, summarizing zenith intensity and north/south intensity ratio data

15 p2594 A69-30019

Nova Delphini 1967 observational data and equipment including Cassegrain spectrograph, reflector telescope and photoelectric photometer

15 p2682 A69-30439

Surface brightness distribution in comet Arend-Roland tail from diffusion model and photometric investigation of photographs obtained by 40-cm astrograph

15 p2684 A69-30519

Polarimetric and photometric observations of comet Ikeya-Seki 1965f, plotting isophotes of head and polarized light distribution in tail

15 p2685 A69-30525

Photographic photometry of comet Ikeya-Seki during passage near sun, plotting isophotes of coma and tail and brightness distribution diagrams

15 p2685 A69-30527

Photographic observations of comet Kilsten 1966b, estimating brightness, absolute magnitude and color index

15 p2685 A69-30529

Seyfert galaxy NGC 4151 electrophotometric investigation in UVB, confirming nucleus optical variability observed in visible and IR

15 p2686 A69-30536

Radial brightness and color variation curves for Seyfert galaxies plotted from measurements with concentric diaphragm in UVB

15 p2686 A69-30537

Response color curves of U, B, V photometric system compatible for stellar observation, including U revision

15 p2689 A69-30562

Spectral classifications and UVB photometry for southern association Sco OB 1 containing cluster NGC 6231

15 p2692 A69-30771

Photoelectric /UVB/ photometry of Cepheids in Cygnus and Monoceros noting sequence stars near Nova Cyg 1948

15 p2692 A69-30772

Zeeman spectroscopy and UVB photometry of 17 Com and kappa Cnc, observing periodic magnetic and light variations

15 p2692 A69-30774

Coronal limb enhancement photometric study by spectroheliograms, comparing maximum brightness profiles in lines of different temperature in extreme UV

15 p2693 A69-30781

Photometric calibration correction for B-V and U-B colors taking into account hydrogen line blocking
15 p2694 A69-30786

Photometric observations of zodiacal light, noting dust in earth-moon environment
15 p2599 A69-31334

Spectrophotometry of elliptic galaxy NGC 1052 nucleus from 3400 to 6300 Å for relating radio properties and optical characteristics
16 p2853 A69-31610

Five color photometry of X ray source SCO X-1 in 1966-1968, discussing luminosity pulsations and flare activity
16 p2847 A69-31648

Stellar group Ba 6 distance measured using three color photometry in RGU system
16 p2854 A69-31650

Open galactic cluster NGC 2254 distance determined by three color photometry in RGU system
16 p2854 A69-31651

Portable photometer with red-sensitive photocathode and high SNR for O I 6300 airglow experiments
16 p2777 A69-32107

Photoelectric observations in B and V colors of binary system S Equ
16 p2858 A69-32212

Photoelectric visible radiation observations of binary star AH Vir
16 p2858 A69-32215

Iris microphotometer with measurement and reference beams traversing plate in neighboring regions designed for stellar images measurement
16 p2790 A69-32225

UBV photometry of southern quasars, radio galaxies and normal galaxies including two color diagrams, radio luminosity, brightness and color distribution
16 p2859 A69-32228

Four color photoelectric photometry of bright galaxies in Virgo Cluster, analyzing properties in nuclear regions
16 p2860 A69-32230

DQ Herculis photometric measurements synchronized with white dwarf component pulsation, discussing equipment, eclipse shape and binary period dependence on time
16 p2862 A69-32373

Epsilon CrA light and color curves analyzed from UVB photoelectric photometry observations
16 p2863 A69-32398

Photomicroscope film plane inclination adjusted to improve circle readings measurement, noting instrument errors role in star declinations errors
17 p2970 A69-32881

Photoelectric method to measure galactic reflection nebulae brightness, color and polarization used to explore interstellar grains physical nature
17 p3032 A69-33104

Lunar photometric function determined using modified Hapke surface model and corrected Lommel-Seeliger law for surface roughness and crater distribution
17 p3033 A69-33308

Optical spectrum of galaxy NGC 3031 nucleus, considering emission and absorption lines and continuum
17 p3034 A69-33396

13 color narrow band photometry of 1000 bright stars in tubular form, discussing sample points, Balmer discontinuity, absolute energy calibration, etc
17 p3038 A69-33692

Photoelectric observations of BD minus 17 degrees 4388 occultation by Neptune on 7 April 1968, studying light curves during immersion and emersion of star
17 p3041 A69-33815

Meteor dynamical and photometrical analyses compared quantitatively, determining mass loss value from fragmentation model
17 p3045 A69-34223

Four color photometry data of late F type stars in general catalog tabulated with columns for HD and GC numbers, apparent visual magnitude, etc
18 p3195 A69-34430

Dark equatorial belt of Jupiter atmosphere in 1962 and 1963, noting photometric contrasts, molecular absorption and possible structure
18 p3197 A69-34724

Photoelectric observations of nuclei of planetary nebulae He 1-5 and NGC 1514, noting changes in color and brightness characteristics
18 p3198 A69-34767

UBV photoelectric observation of OB and open cluster Tr 16 stars in Carina-Centaurus, suggesting no limit in depth distribution
18 p3200 A69-35133

Radial velocity measurements with objective prisms and results in SA8
18 p3201 A69-35143

Fornax clusters integrated V magnitudes and B-V and U-B colors measurement
18 p3201 A69-35205

Umbral chromosphere flashes visual and photometric observations at 5 sec intervals on K line filtergrams using Halle filter
18 p3204 A69-35390

Photometric evolution of Nova Delphini 1967 /HR Del/ in UPXYZVS seven color intermediate waveband system, showing position on QQ diagram
19 p3425 A69-36563

Nova Delphini 1967 /HR Del/ observations in UPX-YZV photometric system, tabulating color indices
19 p3426 A69-36564

Spectral energy distribution of gamma-Cas in 1967 based on observations in seven color photometric system
19 p3426 A69-36565

UBV photoelectric observations of Nova Delphini 1967 at Bologna Observatory
20 p3599 A69-37475

Lunar brightness variations during eclipse on 13 April 1968 measured photoelectrically, suggesting nonuniform diurnal distribution of atmospheric scatterers for observed asymmetry
20 p3601 A69-37510

Relative penumbral intensity independent of spot position from data by pinhole photometer of large sunspots
20 p3603 A69-37542

Photometric and spectral observations of Chuadze and Wild supernovae, showing type I classification
20 p3607 A69-38038

Andromeda galaxy brightness distribution, discussing nuclear region, energy distribution, surface brightness, brightness profile, etc
20 p3610 A69-38141

Photometric and spectroscopic observations analysis of Comet Honda 1968c
20 p3614 A69-38252

Sunspot size and shape in continuous spectrum regions from photometric observations in UV and red ranges
20 p3616 A69-38301

Neptune equatorial radius, diameter, flattening and upper atmosphere optical properties determined from photometric curves of star BD-17 occultation
21 p3796 A69-38471

Spectrophotometric analysis of interstellar absorption in direction of IC 1805 cluster, noting anomalies
21 p3814 A69-39576

Milky Way galactic diffuse radiation photometric study using Schmidt camera, stressing Northern Coal-sack commencement region
21 p3817 A69-39725

Photoelectric observation of EM Cygni eclipsing binary and old nova
22 p4015 A69-40151

Cepheid variable stars distance estimated from UVB three color photoelectric photometry data
22 p4031 A69-40943

Photoelectric photometer monitoring of flare star UV Cet, comparing time intervals between flares to those of YZ CMi
22 p4032 A69-40945

Photometric data for variable stars in Lyra and Cygnus including eclipsing variables
23 p4215 A69-42009

Photometric data for long period variable stars in Cygnus obtained from plates of various observatories
23 p4215 A69-42010

Optical detection of pulsars with emphasis on CP 1919, discussing optical variation
23 p4218 A69-42325

Law of optical radiation and photometric characteristics of quasars, noting photometric effect of strong emission lines and color dependence on red shift
24 p4375 A69-42552

Photoelectric measurements of emission line intensities for low density planetary nebula with moderate excitation located near north galactic pole, deriving abundances
24 p4376 A69-42662

Brightness temperatures and spectra of Venus, Mars, Jupiter and moon measured from 8 to 14 microns by reflector and prismatic spectrometer
24 p4390 A69-43785

Astronomical photoelectric photometry system, describing telescope and photometer, coldboxes, analog integrators, digital recording equipment and computer programs
24 p4318 A69-43805

ASTRONOMICAL SPECTROSCOPY

Model spectra applied to carbon dioxide bands in Venus spectrophotometric measurements
02 p0319 A69-12107

Spectral line identification in quasars, noting emission lines characteristic of emission nebulae and absorption lines of stellar atmospheres
03 p0508 A69-13173

Limiting conditions for gaseous atmospheres surrounding major and minor planets related to suitability for synoptic observation with optical telescopes and spectrometers
03 p0510 A69-13393

Light and radial velocity changes in close binary systems, including limb and gravity darkening of distorted stars in analysis of spectroscopic effects
04 p0653 A69-14612

Meteor spectrum from 1966 Leonid shower considered to be closer to comet nucleus spectra than previous spectra
04 p0655 A69-14664

Solar image or spectrum focal plane scanning technique with output beam displaced but undeviated relative to input beam for solar spectrophotometry
04 p0602 A69-15378

Fiber optic electrostatically focused image intensifier tube for recording star spectra with reduced exposure time [WERL-68-1C2-TAEC-P1]
04 p0603 A69-15444

Optical observations of radio galaxies and quasars, noting evidence for galactic explosions, surface distribution, physical properties, radio quiet quasars, etc
05 p0820 A69-15837

Crab Nebula and Cygnus XR-1 X ray spectra shown to have differential number power law spectra and same intensity
05 p0813 A69-15846

Telescope dispersion role in research projects, discussing techniques for spectral classification and radial velocities
07 p1074 A69-19202

Fe II lines relative intensities in eta Carinae spectrum, discussing possible intrinsic reddening of object and representation of visible and near IR continuum
07 p1217 A69-19253

Radio sources flux densities from fan beam survey using Molongo radio telescope compared to flux densities of Parkes catalog, presenting revised spectra
07 p1218 A69-19278

Electron temperatures and internal turbulence in H II regions of Sagittarius arm measured by high resolution interference method
08 p1392 A69-20566

Spectroscopic residual intensities variation of metallic and hydrogen lines of eclipsing system R Canis Majoris with phase, discussing surrounding gaseous matter
08 p1396 A69-20646

Spectroscopic evidence for mass loss from CH Cygni based on observations of chromospheric lines of high dispersion spectrograms
08 p1396 A69-20651

Solar element abundances from nucleosynthesis standpoint, discussing measurements with high resolution spectrometer used in double pass with intermediate slit
08 p1402 A69-20906

Multichannel photoelectric spectrometer design for Hale telescope, noting effectiveness in red and IR observations
08 p1318 A69-21131

Stellar abundance and origin of elements, discussing stellar atmospheres and gaseous nebulae spectral determination, chronology of galactic halo, etc
09 p1587 A69-21306

Radial velocities of stars near cluster NGC 7380, discussing discovered stars, double lined spectroscopic binaries and photometric information
09 p1597 A69-22060

Distance of bright stars in Cepheus OB2 region by MK spectral classification and UVB photometry, noting early main sequence and supergiant stars
09 p1599 A69-22194

Scor X-1 optical spectrum magnitude and color changes, proposing variable black body model
09 p1601 A69-22213

Spectroscopic study of A stars with large Stromgren m sub one indices, discussing rotational velocity, spectral intensity and type
09 p1602 A69-22215

Red shifts of radio sources obtained with Carnegie image tube spectrograph, noting quasi-stellar objects and galaxies
09 p1602 A69-22224

- Red shifts of quasi-stellar objects obtained with image tube spectrograph, noting photoelectric magnitudes and colors
09 p1602 A69-22225
- Spectroscopic observation of quasi-stellar objects noting red shifts
09 p1602 A69-22226
- Photoelectric spectrum scanning and IR photometric observations of Scorpius XR-1 X ray source
09 p1604 A69-22401
- Early type stars spectrophotometric parameters, discussing hydrogen beta, gamma and delta line widths, magnitude, etc
10 p1777 A69-23387
- Interstellar grain model consisting of elongated dielectric particles represented by infinite circular cylinders reproducing observed interstellar extinction in IF far UV spectra
10 p1781 A69-23674
- Spectroscopic observations of faint quasar near double galaxy NGC 3561, noting red shifts
10 p1785 A69-24092
- Spectra of low energy X ray source at position of Large Magellanic Cloud, noting flux
10 p1770 A69-24093
- Diffuse X radiation spectrum below 4 kev measured with beryllium window proportional counter at rocket altitudes
10 p1770 A69-24094
- Spectroscopic observations of optical object identified with X ray source Cygnus X-2 noting radial velocity in absorption and emission lines
10 p1785 A69-24097
- Spectrum of IR object NML Cygnus, discussing model based on circumstellar IR emission
10 p1785 A69-24101
- Quasar and radio galaxy spectra obtained on Cassegrainian focusing diffraction spectroscopy
11 p1951 A69-24236
- Flux densities and spectral indices of radio sources in 3C and 3 CR catalogs, noting measurements at 86 MHz frequency
11 p1951 A69-24237
- Spectroscopic, photometric and polarimetric observations of magnetic stars, discussing magnetic curves of periodic variables
11 p1954 A69-24362
- Martian polar caps dimensions as function of planet heliocentric longitude examined from photographic observations, noting compatibility with spectroscopic data
11 p1959 A69-24728
- Methane absorption distribution in 6190 A band over Jupiter disk based on spectrograms, noting center to limb variations
11 p1960 A69-24730
- Methane absorption distribution in 6190 A band over Saturn disk at center and polar latitudes based on spectrograms
11 p1960 A69-24731
- Spectroscopy and star classification on basis of spectra
12 p2155 A69-26122
- Spectrum analysis of Jupiter atmospheric composition, obtaining abundances of minor constituents
12 p2155 A69-26205
- Limits for Martian surface materials established by comparing visible and IR spectra with laboratory spectra
12 p2156 A69-26225
- Lallemand electronic camera application for spectroscopic observations of unsteady phenomena in galactic nuclei at 4000 A, noting radial velocities
12 p2163 A69-27017
- M 31 galaxy ionized gas region high resolution spectroscopy, emphasizing radial velocities in O II lines at various distances from nucleus
12 p2163 A69-27020
- Galactic and quasar radio sources distribution, discussing spectral indices
12 p2166 A69-27036
- Quasar spectra, discussing 3C 345, 3C 191 absorption lines and model explaining quasar spectra
12 p2167 A69-27046
- Red shift determinations and line identifications for quasars, using spectrograph with electro-optical converter
12 p2168 A69-27048
- Photometric and spectroscopic analysis of southern peculiar galaxy NGC 6438, discussing isophotes, color distribution and radial velocity
12 p2169 A69-27059
- NGC 4038-9 velocity field from spectrum obtained at McDonald Observatory, suggesting existence of two centers of matter ejection
12 p2169 A69-27060
- Photographic studies of unsteady features of galaxies, discussing spectra, color, spiral arm instability and extragalactic H II regions
12 p2170 A69-27063
- Spectroscopic and eclipsing binaries in zodiac tabulated for photometric studies at lunar occultations
12 p2171 A69-27152
- Absorption line spectrum of quasar Ton 1530, discussing line widths and red shifts
13 p2334 A69-27306
- IR spectroscopic observations of moon to interpret molecular vibration spectra in terms of molecular composition, discussing rock surface roughness effects
13 p2341 A69-27582
- Solar spectroscopic techniques, discussing instrumentation problems affecting photosphere line spectra, SNR in absorption spectra and near IR spectra
13 p2341 A69-27588
- Venus carbon dioxide spectral band analysis methods, discussing spectral lines and rotational temperatures obtained
13 p2344 A69-27649
- Venusian water vapor spectroscopic data indicating longitudinal and time dependent variations in abundance
13 p2345 A69-27650
- Fe III line profiles and equivalent widths from spectrograms of zeta Cas and gamma Peg for Fe abundance, using model atmospheres
13 p2347 A69-27715
- Markarian galaxies with strong UV continuum, observing emission lines differing from each other
13 p2351 A69-27866
- Goddard Experiment Package /automated spaceborne telescope design/ for stars and nebulae UV spectral emittance measurements
13 p2261 A69-27948
- Frequency selection, spectral index distributions and counts of extragalactic radio sources
14 p2518 A69-29134
- Interstellar gas radio and optical spectral lines of neutral H compared with Ca and neutral Na, discussing critically low velocity gas distribution
14 p2519 A69-29135
- Visual, photographic and spectral observations of comets during IQSY, discussing comets Tomita-herber-Honda 1964c and Ikeya-Seki 1965f
14 p2525 A69-29716
- Unidentified cometary spectra line emission possible interpretations, examining atomic hydrogen abundance in cometary atmosphere and ionic hydrogen recombination
15 p2685 A69-30523
- Zeeman spectroscopy and UVB photometry of 17 Com and kappa Cnc, observing periodic magnetic and light variations
15 p2692 A69-30774
- Photometric calibration correction for /B-V/ and /U-B/ colors taking into account hydrogen line blocking
15 p2694 A69-30786
- Virgo XR-1 rocket observations, presenting count rate histograms, differential photon spectrum and X ray and M87 core radio spectra
15 p2701 A69-31535
- Spectrophotometry of elliptical galaxy NGC 1052 nucleus from 3400 to 6300 A for relating radio properties and optical characteristics
16 p2853 A69-31610
- Wolf 359 flare spectra obtained with Palomar telescope, noting hydrogen and He line enhancement, broadening and violet shifting
16 p2852 A69-32817
- Magnetically focused electronographic image converters in far UV photography and spectroscopy in space astronomy applications
17 p2972 A69-33084
- Optical spectrum of galaxy NGC 3031 nucleus, considering emission and absorption lines and continuum
17 p3034 A69-33396
- Spectral lines radial velocities and profiles observed on 48 Librae from 1950-1962
17 p3038 A69-33722
- Alpha Serpentis spectrum study from model atmosphere and growth curves, finding metal abundance ratios five times as great as in Arcturus
18 p3200 A69-35130
- UBV photoelectric observation of OB and open cluster Tr 16 stars in Carina-Centaurus, suggesting no limit in depth distribution
18 p3200 A69-35133
- HD 217050 spectroscopic study, determining Balmer envelope temperature from comparison of homologous Balmer and Paschen lines intensities
18 p3201 A69-35144
- Pulsars measured parameter data tabulation including right ascension, declination pulse repetition period, showing sources distribution and clusters
18 p3202 A69-35211
- Celestial spectra forbidden lines tabulated by element and ionization stages, describing laboratory spectrum analysis programs
19 p3421 A69-36212
- Forbidden transitions in diatomic molecules with nonzero spin and zero orbital angular momentum, stressing application in outer planets and M stars hydrogen spectra
19 p3421 A69-36213
- Collisional excitation of forbidden lines in planetary nebulae from 5537/5517 intensity ratio measurements, noting density and intensity relationship
19 p3422 A69-36221
- Forbidden lines of O I, O II, S II, N II and A III in red and near IR spectra of NGC 1976, IC 418 and II 4997
19 p3422 A69-36222
- Monochromatic energy flux measurement in H and forbidden lines of planetary nebulae indicating ionization level and optical depth
19 p3423 A69-36223
- Forbidden emission lines in spectra of normal, radio and Seyfert galaxies and quasars, giving information about quasi-stellar mean densities; temperatures, ionization, etc
19 p3424 A69-36236
- Photometric evolution of Nova Delphini 1967 /HR Del/ in UPXZYVS seven color intermediate waveband system, showing position on QQ diagram
19 p3425 A69-36563
- Markarian galaxies with strong UV continua, discussing emission spectra, red shift, absolute magnitudes, etc
19 p3426 A69-36577
- Photographic and spectroscopic observation of Saturn at Cassegrain focus of 122 cm reflector during earth passage through ring plane, discussing Saturn satellites
20 p3600 A69-37481
- Spectroscopic and photographic observations of compact galaxies, discussing distances, absolute magnitudes, linear dimensions, Hubble diagram position and correlations with objects showing similar characteristics
20 p3600 A69-37483
- Radio source flux density values in revised 3C catalog determining spectrum, discussing effects of relativistic electron energy distribution, self absorption and spatial distribution
20 p3609 A69-38138
- Spectra of peculiar S zero galaxy NGC 7625 with irregular dust distribution, discussing central spheroid rotation and mass
20 p3610 A69-38142
- X ray spectra of Sco XR-1, Cyg XR-1 and Cyg XR-2 for proton energy range 1.5-13 kev from proportional counter measurements
20 p3593 A69-38152
- Photometric and spectroscopic observations analysis of Comet Honda 1968c
20 p3614 A69-38252
- Carbon dioxide band in Venus spectrum by dispersion analysis, deriving rotational temperature
20 p3614 A69-38254
- Cosmic X ray background spectral measurement from rocket flight near geomagnetic pole
21 p3787 A69-38351
- Spectroscopic orbital elements of eclipsing binary IZ Per determined from 22 spectra using Wilsing and Russell method
21 p3795 A69-38469
- Radio spectra of 136 sources determined at various declination ranges noting flattening at frequencies below 408 MHz
21 p3797 A69-38480
- Spectroscopic observations of optical pulsar NP 0532, using technique permitting phase resolution of spectra of main pulse and interpulse
21 p3799 A69-38646
- Trial and error procedure applied to instrumental profile of Liege Solar Atlas, convoluting instrumental profile with telluric A band profile
21 p3722 A69-38698
- First order profile of Utrecht Solar Atlas from second order profile and oxygen band refining procedure, deducing instrumental profile for first order spectra
21 p3722 A69-38699

Stellar IR spectroscopy, describing absorption and emission lines of various atoms and molecules, atmospheric composition, problems with variable stars, etc

21 p3811 A69-39510

Invalidity of Pagel method for intrinsic and interstellar reddening for peculiar objects, discussing excitation mechanism for forbidden lines of ionized Fe for Eta Carinae

21 p3815 A69-39616

Planetary nebulae imaging stratification effects on structural difference studies by slit and slitless spectrographs and narrow band photography

21 p3817 A69-39785

Planetary spectroscopy with McDonald 107 inch telescope, discussing role of molecular and atomic absorption lines, line broadening, Doppler shifts and Rayleigh criterion

21 p3727 A69-39786

Flux measurements of radio sources at 4.3 mm by 36 ft parabolic antenna, noting flux densities relative to Jupiter

22 p4014 A69-40126

Spectroscopic analysis of nebula NGC 6302 for identification as highly excited gaseous nebula, noting He-H ratio

22 p4026 A69-40647

Spectral and orbital evidence of connection among fireballs with orbit inclination, comets and carbonaceous meteorites

23 p4208 A69-41285

X ray spectra of four high energy sources near galactic center

23 p4206 A69-42114

Radial velocity errors in high dispersion astronomical spectrographs in terms of variable spectral shifts along plate produced by mirror surface irregularities

23 p4167 A69-42189

Galactic X ray sources observed in EM spectrum high energy region, discussing hot plasma cloud thermal radiation and electrons synchrotron radiation as emission sources

23 p4206 A69-42318

A-type stars investigation for anomalous spectral line intensities, discussing Hertzprung-Russell diagrams, rotational velocities, magnetic fields and abundances

23 p4218 A69-42322

Daylight observations of Comet Ikeya-Seki 1965-f at perihelion passage, discussing resulting emission line spectra within comet head

23 p4221 A69-42386

Red shift determinations and line identifications for quasars, using spectrograph with electro-optical converter

24 p4375 A69-42551

High radial velocity gas cloud near Seyfert type galaxy NGC 4939 nucleus investigated spectroscopically

24 p4375 A69-42609

Milky Way hydrogen line survey with Parkes telescope, giving velocity-longitude control maps and tabulated data covering galactic equator

24 p4383 A69-42961

ASTRONOMICAL TELESCOPES

NT HELIOMETERS

NT SPECTROSCOPIC TELESCOPES

NT STRATOSCOPE TELESCOPES

NT X RAY TELESCOPES

Optical space astronomy, discussing Large Space Telescope, intermediate scale telescopes and lunar systems

[AAS PAPER 68-218] 02 p0313 A69-11484

Limiting conditions for gaseous atmospheres surrounding major and minor planets related to suitability for synoptic observation with optical telescopes and spectrometers

03 p0510 A69-13393

Optical and mechanical design of Anglo-Australian 150 inch telescope for observations of southern sky at Siding Spring Observatory, Australia

03 p0411 A69-13466

22-m parabolic reflector radio telescope with 9525 mm focal length at Crimean Astrophysical Observatory, noting high performance in mm wavelength range

04 p0584 A69-14376

Computer controlled photometric telescope, describing star setting, photometric measurements and data processing

04 p0602 A69-15380

Astronomical two mirror telescope with aplanatic secondary focus, describing prime and secondary focus field correctors

05 p0761 A69-15733

Telescope dispersion role in research projects, discussing techniques for spectral classification and radial velocities

07 p1074 A69-19202

High dispersion IR image tube spectroscopy using telescope, discussing alpha Sco and alpha Boo spectral regions

07 p1074 A69-19203

Sunspot observations with astrophot telescope by tracing on projected image of solar disk

08 p1387 A69-20118

Coincidence error between star image and planet edge for entrance pupil and telescope magnification

08 p1314 A69-20383

Diffraction limited telescope fine guidance experiment to improve pointing stability in space, noting attitude control system and nonmechanical suspension

08 p1317 A69-21072

Multichannel photoelectric spectrometer design for Hale telescope, noting effectiveness in red and IR observations

08 p1318 A69-21131

Conductive heat transfer between aerodynamically heated skin and barrel of Aerobee 150 sounding rocket telescope, noting effect of residual gas pressure

09 p1610 A69-22005

Geomagnetic activity correlation to cosmic ray solar daily variation underground, observing primary cosmic ray flux with meson telescopes

09 p1583 A69-22755

Aerospace Corp. solar observatory /California/ compound telescope, vacuum spectroheliograph, instrumentation and applications

11 p1862 A69-24792

Aerobee rocket-borne liquid helium cooled telescope for IR night sky observations

11 p1885 A69-24852

Large astronomical mirrors support and testing - Conference, Tucson, December 1966

12 p2055 A69-26406

Lever support systems for telescopes noting tilt compensation, acceleration balance and problems of friction, pivot viscosity, thermal effects and weight

12 p2057 A69-26410

Optical tests of Hale telescope mirror and support system at Palomar, noting various maladjustments and malfunctions

12 p2057 A69-26411

Axial support systems for large astronomical mirrors, considering gas support system for flat mirror submerged and floating in isostatic liquid

12 p2057 A69-26412

Sinusoidal tension and compression radial support system for large solid disk primary mirror, noting pivot design and pad bonding adhesive

12 p2057 A69-26413

Large mirror support systems definition in terms of axial location and radial position

12 p2057 A69-26414

Lick telescope support system for 120 inch mirror, noting use of levers and counterweights concept

12 p2058 A69-26415

Isaac Newton telescope, describing support of 98 inch mirror, structure between fabricated cell steel surface and mirror and tests with air bag support

12 p2058 A69-26416

Support system for McDonald 107 inch telescope mirror, adopting Couder design using lily pad single lever supports for axial thrust

12 p2058 A69-26417

Axial support system for Canadian 150 inch telescope mirror, discussing flexural and shear analyses and ring supports repositioning for balancing shear

12 p2058 A69-26418

Axial counterweight lateral support system with ternary symmetry for European Southern Observatory telescope mirror

12 p2058 A69-26419

Axial support system for controlling thermal distortion of 82 inch heliostat mirror for Kitt Peak solar telescope

12 p2058 A69-26422

Active optics system for obtaining perfect mirror figure in orbiting astronomical telescope, using laser and white light sources, interferometers and data converter

12 p2092 A69-26423

Dynamic relaxation method for elastic deformation in mirrors, using tensor equations of elasticity in nonorthogonal curvilinear coordinates

12 p2187 A69-26890

Test-methods for telescope mirror, discussing polishing, monitoring by Hartmann test and visual null test

13 p2259 A69-27205

Submillimeter astronomy role for solar and atmospheric studies

13 p2343 A69-27604

Spaceborne optical telescopes requirements and development including mirror material and construction, optical design, servocontrol, etc

13 p2261 A69-27946

Goddard Experiment Package /automated spaceborne telescope design/ for stars and nebulae UV spectral emittance measurements

13 p2261 A69-27948

Mirror correctors used with paraboloidal spaceborne telescopes in far UV, yielding enlarged photographic field

13 p2261 A69-27949

Segmented active mirror optics design concept for lightweight optically stable primary reflector used in large orbiting astronomical telescopes

13 p2261 A69-27950

Control system for thin diffraction limited orbiting astronomical telescope mirror based on structural analysis of static deflections

13 p2261 A69-27951

Ultralightweight mirror blanks for astronomical telescopes, discussing weight saving low thermal expansion and fused monolithic core technology

13 p2261 A69-27953

Solar telescope imaging quality measured as function of atmospheric turbulence and temperature above land level

14 p2453 A69-29973

Reflector radio telescope of Pulkovo astronomical observatory noting high resolution

15 p2679 A69-30102

Stellar scintillation spectra for different zenith distances, correlating data with meteorological conditions at time of observation

15 p2647 A69-30165

Large telescope dome movements automatic control, considering central and eccentric telescope mounting

15 p2588 A69-30441

Astronomical UV radiation observation by OAO 2 satellite, discussing solar images, corona, chromosphere and UV spectrum, stellar evolution, etc

15 p2689 A69-30597

Solar telescope in Berlin observatory for prominences and other solar phenomena observations by public

15 p2611 A69-30881

European Southern Observatory installation in Chile, discussing site, instruments, domes design, administrative structure, etc

15 p2589 A69-31098

Close visual binaries separations for checking large aperture telescope resolution, listing binaries, orbits and ephemeris

16 p2855 A69-31662

Night sky far IR observation by rocket-borne telescope, discussing minimum signal detection and origin

16 p2781 A69-32445

Bamberg zenith telescope investigation, noting level constant dependence on level tube bubble length

17 p2970 A69-32882

Objective lens of AVR-2 refractor at Poltava Observatory measured for spherical aberration, astigmatism field curvature, coma and distortion

17 p2970 A69-32883

Manned space telescope attitude stabilization using counter-rotational triaxial gyro system

18 p3206 A69-34371

LASSO /modified S-4B/ IU/ vehicle mission to place in orbit two unmanned Lunar Modules for landing of radio and optical telescopes on lunar surface

18 p3136 A69-34813

Supernovae observations at Palomar during 1968 made with Schmidt telescopes

19 p3403 A69-35963

Prismatic Cassegrainian-focus spectrograph of telescope at Shemakha Observatory, discussing camera inclination, instrumental contour for yellow neon line, astigmatism, optical temperature effects, etc

19 p3313 A69-36582

Image converter camera and astronomical telescope arrangement for photographing metal diaphragm openings in shock tube

20 p3538 A69-37227

Astronomical data collection and evaluation, discussing digital distance measurement, photoelectric photometry, servocontrols and electronic computers suited for Schmidt telescope output

20 p3539 A69-37525

Rocket-borne IR astronomical telescope high altitude observations compared with balloon observations

20 p3605 A69-37800

Stellar systems observations using photometers with long narrow slits in identical telescopes

20 p3545 A69-38055

Large aperture Al alloy telescope mirrors consisting of Tenzalloy Al coated with Ni alloy, presenting performance data

20 p3546 A69-38193

Two channel TV Cassegrain telescope, describing color separation system for obtaining integral and monochromatic images of astronomical objects

20 p3547 A69-38309

Planetary spectroscopy with McDonald 107 inch telescope, discussing role of molecular and atomic absorption lines, line broadening, Doppler shifts and Rayleigh criterion

21 p3727 A69-39786

Vienna 60 inch telescope concept and design, discussing optical systems possible combinations under local conditions

24 p4314 A69-43000

Astronomical photoelectric photometry system, describing telescope and photometer, coldboxes, analog integrators, digital recording equipment and computer programs

24 p4318 A69-43805

ASTRONOMY

NT INFRARED ASTRONOMY

NT RADAR ASTRONOMY

NT RADIO ASTRONOMY

NT X RAY ASTRONOMY

Space research practical benefits in solar physics, radio astronomy, meteorology, radio physics, communications, etc

[UN PAPER 68-11608] 01 p0179 A69-10496

Soviet space astronomy including rocket, satellite and space probe measurements for solar, stellar, planetary and lunar studies

01 p0155 A69-10946

Solar gravitational field influence on annual trigonometric parallaxes within relativistic theory framework

03 p0506 A69-13091

Advances in astronomy and astrophysics, Volume 6, covering periodic orbits, binary stellar systems, interstellar molecules and lunar luminescence

04 p0652 A69-14610

Astronomy - Conference, Prague, August 1967

05 p0820 A69-15834

UV astronomy, discussing vehicle stabilization, unstabilized sounding rockets, scanning satellites, balloons, stabilized rockets, pointing satellites, optics and detectors

05 p0821 A69-15839

Astronomy - Conference, Nuremberg, September 1968

06 p0998 A69-16967

Soviet book on theoretical astronomy covering evolution from Ptolemy to Einstein, universal gravitation and principles of celestial mechanics

07 p1211 A69-18544

Visual and photographic comet observations, including perihelion passage of P/Perrine-Mrkos in 1968

07 p1216 A69-19205

Astronomical unit determined by measuring Doppler shift of spectral features of galactic hydrogen

07 p1222 A69-19590

Bibliography of astronomical literature, Volume 67

09 p1602 A69-22223

Book on relativity and cosmos, space and time in physics, astronomy and cosmology covering theoretical and empirical research

10 p1784 A69-24019

Brightness temperature distributions from intensity interferometric measurements reconstructed by computation

11 p1888 A69-25256

Astronomical unit determined by measuring radial velocity of radio wavelength spectral line source

13 p2350 A69-27822

Earth orbital manned space astronomy, discussing long range program, instruments, facilities and data processing

13 p2240 A69-27947

Solar gravitational field influence on annual trigonometric parallaxes within relativistic theory framework

14 p2516 A69-28773

Q switched ruby laser designed for lidar probing of cosmic bodies and earth atmosphere

14 p2460 A69-29660

Book on New Cosmos covering classical astronomy concepts, stellar astrophysics and galaxies

14 p2522 A69-29684

Pulsar NP 0532 in Crab Nebula observed by rocket and telescope showing strong pulsed X ray signal

15 p2679 A69-31529

Astronomical and geophysical observations, selecting degree of smoothing via Whittaker method for curve construction

17 p3028 A69-32877

Collection of papers on astronomy covering orbit calculation, stellar photometry, interstellar matter and equipment characteristics

17 p3031 A69-33096

Astronomical Society of Australia - Conference, Sydney, December 1968

17 p3039 A69-33799

Orbital astronomy support facility research requirements analysis, discussing objectives and measurement needs, instrumentation, spacecraft and facilities, etc

18 p3206 A69-34369

Instruments for gamma ray astronomy including Ranger low energy detector, howitzer detector and cosmic spark chamber

18 p3138 A69-35135

Book on eclipse phenomena in astronomy covering moon, earth and other planets, occultation, planets transit over sun, influence in radio astronomy, etc

19 p3425 A69-36379

Digital computers standard programs for astronomical problems

20 p3596 A69-37317

Lunar spherical astronomy, discussing coordinate transformations, precessional and nutational motions, etc

21 p3798 A69-38605

Intensity interferometer applications comparison with Michelson interferometer, discussing sensitivities, radio and optical wavelength astronomy, space plane waves, etc

21 p3722 A69-38794

Collection of papers on astronomy and astrophysics, Volume 7, covering galactic radiation, nebulae, stellar composition, solar activity, etc

21 p3810 A69-39501

Book on high energy astrophysics covering violent stellar phenomena, radio galaxies, quasars, pulsars, cosmic rays origin, mystery neutron stars, etc

22 p4008 A69-39900

ASTROPHYSICS

Introduction to planetary physics, Terrestrial planets, covering solid interior constituents, solar system dynamics and origin and evolution

01 p0154 A69-10920

Liouville and Poisson equations solutions for locally ellipsoid stellar velocity distributions with constant coefficients

02 p0310 A69-11455

Solar wind directional fluctuation derived from wavy structure of comet Morehouse ionic tail rays, noting solar wind bulk velocity

02 p0311 A69-11459

Book on cosmic radiation origin and expansion of universe, covering astrophysical reasons for electric charging of galaxies in range of galactic and metagalactic dimensions

02 p0315 A69-11713

Plasma astrophysics - Conference, Varenna, Italy, July 1966

02 p0328 A69-12780

Plasma instabilities covering astrophysical phenomena, Rayleigh-Taylor instability, anisotropic and LF MHD, electrostatic and electromagnetics, warm plasmas, etc

02 p0293 A69-12783

Radio galaxies and quasars, discussing radio structure, observation methods, polarization, time variation, etc

02 p0329 A69-12791

Radiation due to collective effects in plasma physical aspects of astrophysics, discussing synchrotron radiation and bremsstrahlung

02 p0310 A69-12792

Iris satellite experiments in astrophysics including nuclear and solar induced electromagnetic radiation

03 p0427 A69-12849

Extensive air showers due to interaction of high energy particles with atmosphere, discussing astrophysics, cosmology and fundamental particle physics

03 p0498 A69-12938

F values for Ti II, Cr II and Fe II by empirical astrophysical line strength analysis, discussing f value determination from stellar growth curve

03 p0508 A69-13175

Time scale of cooling/heating process compared with gaseous clouds contraction/expansion for one solar mass protostar evolution in transparent stage

04 p0651 A69-14366

Advances in astronomy and astrophysics, Volume 6, covering periodic orbits, binary stellar systems, interstellar molecules and lunar luminescence

04 p0652 A69-14610

Homogeneous main sequence star models with convective cores, considering core chemical composition, size and energy generation ratio mechanism

05 p0829 A69-16777

Simulation experiments using artificial plasma for astrophysical rocket exploration, discussing experiments leading to barium-copper oxide mixture choice for plasma cloud

06 p0999 A69-16973

Cosmic rays, elementary particle physics and astrophysics - Conference, Aligarh, India, December 1967

06 p0986 A69-17268

Astrophysical aspects of primary energy spectrum deduced from shower size spectra and high energy interactions of extensive air showers

06 p0990 A69-17298

X ray astronomy use for probing hot regions of outer space and high energy electrons

06 p0991 A69-17307

Primary electrons implications on cosmic ray confinement in Galaxy, astrophysical aspects and problems of energy spectrum

06 p0991 A69-17308

Amount of flux carried by convection in late type stars, reevaluating drag role in mixing length theory

06 p1003 A69-17321

Solar type stellar activity, considering solar activity origin and correlation with stellar distances

06 p0996 A69-17447

Plasma instability role in radiant energy release from astronomical objects, noting plasma instabilities in solar system, cosmic rays, galactic and extragalactic objects

06 p1009 A69-17967

Cosmic X rays, gamma rays and electron production under astrophysical conditions, noting potential use in supernova and quasar research

07 p1204 A69-18391

Cosmic ray astrophysics, discussing chemical composition, energy spectrum and galactic sources

07 p1205 A69-18909

Soviet book on relativistic astrophysics covering evolution and structure of universe with reference to galaxies, stars, quasars, relativity theory, gravitation theory, etc

07 p1216 A69-18960

Satellite components of lines formed in stellar type differentially rotating disk

07 p1219 A69-19336

Atomic collision processes in astrophysics noting stellar continuum spectra, Ca ion and He lines, solar corona, heat balance in H I regions and planetary nebulae

07 p1224 A69-19653

M82 galaxy as Seyfert-like galaxy seen edge-on, using radio and optical data showing H alpha emission collisionally excited, discussing circular polarization

08 p1383 A69-20051

Astrophysics, solid state physics, plasma physics and lasers - Conference, Bologna, October 1967

08 p1387 A69-20216

Relativistic astrophysics, discussing quasar phenomenology, red shift cosmology and relationship with galaxies

08 p1388 A69-20222

Nucleosynthesis in stars and early stage expanding universe, considering related nuclear reactions, helium abundances and kinematics of stars in Galaxy

08 p1357 A69-20893

Nucleosynthesis in dynamics of massive star cores, noting element synthesis by neutron capture in supernova explosions

08 p1401 A69-20898

Variable gravitational number kappa, discussing effects on cosmology

09 p1603 A69-22270

Laboratory astrophysics - Conference, Luntenen, Netherlands, September 1968

10 p1780 A69-23670

Magnetic field and magnetic energy evolution in infinitely conducting homogeneous isotropic turbulent medium, applying results to galactic magnetic field model

10 p1783 A69-23793

Book on stellar atmospheres covering radiation theories, thermal equilibrium, measurement techniques, spectral analysis, etc, emphasizing sun
11 p1961 A69-25084

Stellar physics, Volume 1, covering stellar structure, evolution, physical processes, statistical physics, quantum theory, classical mechanics, etc
12 p2152 A69-25785

Pulsars discovery, emission, regularity, narrow frequency band and pulse changes, physical nature and aspects of Crab Nebula source
12 p2160 A69-26895

Book on astrophysics and stellar astronomy covering stellar radiation, binary and variable stars, positions, magnitudes, galaxies, cosmologies, etc
13 p2337 A69-27463

Atomic and molecular spins dynamic orientation in anisotropic radiation field, examining medium properties and astrophysical consequences
13 p2350 A69-27861

IR astrophysics, discussing detection, instrumentation, IR stars and stellar evolution
14 p2516 A69-28868

Book on New Cosmos covering classical astronomy concepts, stellar astrophysics and galaxies
14 p2522 A69-29684

Soviet papers on astrophysics covering solar flares, degenerate gas explosion, nonadiabatic shock waves, chromospheric H line excitation, prominences, stellar rotation, etc
15 p2682 A69-30505

Unsteady nonadiabatic shock waves in stellar gas dynamics, analyzing energy losses due to ionization at shock fronts by extended Chiznell-Wisem method
15 p2682 A69-30508

Possible existence in universe of large number of difficult-to-observe particles with zero rest mass left over from superdense phase
16 p2814 A69-31801

BetaCrB atmospheric microturbulence velocity, ionization and excitation temperatures, electron pressure and abundances determined by spectrophotometer
16 p2864 A69-32592

Soviet book on cosmos and hypotheses covering origin and physical characteristics of earth, moon, Venus and Mars
20 p3596 A69-37234

Threshold photoneutron cross section for Mg 26, discussing resonances as primary production mechanism for stellar neutrons
21 p3788 A69-38599

Collection of papers on astronomy and astrophysics, Volume 7, covering galactic radiation, nebulae, stellar composition, solar activity, etc
21 p3810 A69-39501

Physics of massive starlike objects, discussing high entropy requirement, eventual nonrelativistic collapse and gravitational fields produced by low entropy equilibrium
21 p3811 A69-39516

NGC 7023 nebula physical characteristics observation based on flux and brightness measurement, noting spectral energy distribution and causes
21 p3816 A69-39724

Book on high energy astrophysics covering violent stellar phenomena, radio galaxies, quasars, pulsars, cosmic rays origin, mystery neutron stars, etc
22 p4008 A69-39900

Astrophysical ions acceleration model based on magnetic field annihilation theory
22 p3987 A69-41002

Book on stellar structure, Volume 1, Physical principles, covering interier conditions, thermodynamic and radiation theories, stellar temperature, energy and opacity, etc
23 p4211 A69-41377

Complex phenomena in theoretical astronomy including neutrino pair emission in stellar interiors, molecular H in interstellar gas, neutron stars, etc
23 p4217 A69-42316

Galactic magnetic field existence arguments, discussing general and optical evidences, radio emissions, Faraday rotation from extragalactic sources and from pulsars, etc
23 p4217 A69-42321

Observational cosmology developments with radio and X ray astronomy emphasizing existence, origin, effects and anisotropy of excess microwave background
23 p4219 A69-42327

Plasma instabilities in astrophysics - Conference, Monterey, October 1968
24 p4377 A69-42681

Nonthermal phenomena of astrophysics in relation to plasma physics, considering planetary and stellar regions, supernova envelopes, interstellar medium, cosmic rays, radio galaxies, etc
24 p4377 A69-42682

Explosions mechanism in radio galaxies and quasars mechanism based on observed phenomena, emphasizing galactic flares
24 p4378 A69-42698

Stellar structures and evolution stressing composition and processes of stellar interiors
24 p4379 A69-42782

Book on physics and evolution of galaxies covering properties, stellar content, interstellar matter, high energy particles and radio galaxies
24 p4384 A69-43167

ASYMMETRY

Asymmetry causes on cosmogonic scale in view of symmetry in small space-time regions /microworlds/ determinable within framework of Einstein theory
14 p2516 A69-28866

Reentry cones with mass and configuration asymmetries, studying nonlinear aerodynamic characteristics by wind tunnel and full scale flight tests [AIAA PAPER 69-867]
21 p3823 A69-39393

Asymmetry method for precision alignment of rectilinear systems, using laser light diffraction behind misaligned target
21 p3742 A69-39781

Solar magnetic field measurements for fine structure of magnetic asymmetry at different heights and within sunspots, discussing asymmetry for corona and interplanetary space
22 p4010 A69-39990

Solar wind north-south component sector dependent asymmetry implied from tangential discontinuities orientations as observed by Mariner 4
22 p4004 A69-40303

Solar protons delayed access into polar regions during 2 November 1967 solar particle event, discussing north-south asymmetry
24 p4368 A69-43183

Asymmetric metal flanges effect on beam tilt of aperture antennas
24 p4288 A69-43765

ASYMPTOTES

Asymptotic behavior of probabilities of large deviations of sums of independent random variables with moments of any order
01 p0104 A69-10264

Matrix procedures for stability of nonlinear control with nonlinearities, discussing system with three actuating elements
01 p0050 A69-10355

Asymptotic forms of Navier-Stokes equations for laminar motions of incompressible viscous fluid, discussing validity and applications [ONERA-TP-651]
01 p0059 A69-10383

Asymptotic behavior of curvature and conformal curvature tensors on asymptotically flat space-time
01 p0116 A69-10393

Asymptotic stability conditions for delayed quasi-linear nonautonomous systems periodic solutions derived by Shimanov method
02 p0280 A69-11705

Zero solution asymptotic stability for linear differential equations with continuous functions
03 p0465 A69-13129

Asymptotic behavior of periodic solution of neutral type equation with small delay
03 p0455 A69-13258

Asymptotic solutions for prolate spheroidal wave functions satisfying given differential equation, producing asymptotic expansions in terms of confluent hypergeometric functions
04 p0623 A69-14892

Asymptotic solution to problem of finding time optimal transformation for controlled plant with motion in phase space described by matrix differential equation
10 p1666 A69-23883

Asymptotic stability of discrete homogeneous linear minimum-variance estimation formulas
11 p1860 A69-25449

Asymptotic behavior of function in Cauchy problem solution for heat conduction, basing method on Laplace transform inversion formula
13 p2380 A69-28685

Asymptotic theory of Orr-Sommerfeld problem for symmetric channel flow stability
17 p2958 A69-34151

Asymptotic behavior of probabilities of large deviations of sums of independent random variables with moments of any order
19 p3360 A69-36199

N-th order differential systems using first approximation, finding conditions for bounded solutions, solutions asymptotic to zero and stability
23 p4181 A69-41722

ASYMPTOTIC METHODS

Asymptotic solution of Orr-Sommerfeld equation by multiple scales method for linear and general velocity profile
01 p0059 A69-10332

Automatic phase control effective bandwidth determined by asymptotic method, presenting computer calculated dependence on circuit parameters
01 p0030 A69-10590

Asymptotic method for analyzing small long wave perturbations in plasma, showing instability with respect to perturbations propagating at angles to ion-acoustic wave
01 p0131 A69-10788

Asymptotic integration of three dimensional elasticity equations for thin anisotropic shells and plates, deriving variability exponent of stress under given load
01 p0170 A69-10878

Radiant heat transfer in optically thick gray gas situated between parallel black diffusively emitting walls, using matched asymptotic expansion method
01 p0178 A69-11411

Electromagnetic wave propagation problems, using asymptotic solutions of differential and integral equations in domains containing transition points
02 p0208 A69-12130

Asymptotic constitutive approximations for rapid finite deformation of general viscoelastic materials, noting isotropic solids and fluids
03 p0523 A69-13020

Asymptotic decay of coupling for infinite phased arrays proved valid for infinite parallel linear plate array immersed in magnetized cold plasma
04 p0571 A69-14314

Asymptotic estimates of radiation patterns of nonequidistant antenna array represented in integral form
04 p0576 A69-14772

Slender wing theory extension to not-so-slender wings approached as singular perturbation problem, using matched asymptotic expansions method
04 p0544 A69-14891

Doubly infinite sets of simultaneous linear equations used in electromagnetic boundary value problems solved by Asymptotic Anticipation Method
04 p0560 A69-15214

Reflection and transmission of radiation from very thick and semiinfinite homogeneous atmospheres with arbitrary phase function, using asymptotic fitting method
04 p0595 A69-15285

Asymptotic solutions of restricted three body problem for one parameter periodic orbits in earth-moon synodic system, determining motion near moon
04 p0663 A69-15382

Asymptotic computation and graphical display of imaginary mu-zeros of combinations of cross product Bessel functions
05 p0836 A69-15874

Asymptotic formulas for field diffracted by conducting wedge illuminated by line source usable for self consistent field analyses
05 p0720 A69-16344

Nonsteady expansion of gas into vacuum in analysis of asymptotic solutions of Sedov
05 p0751 A69-16676

Asymptotic solutions for nonlinear differential equations with gradually varying coefficients of great resistivity
06 p0947 A69-17392

Asymptotic theory concerning nonsimilar structure of blast wave with expanding interface applied to hypersonic perfect gas flow
06 p0860 A69-17636

Asymptotic wave equation application conditions in describing field behavior near caustic surface, using Airy functions
07 p1076 A69-18520

Matched asymptotic expansions method applied to magnetic field induction in thin toroidal wire and flow past circular cylinder at small Reynolds number
07 p1180 A69-18811

Homogeneous linear systems conditions for asymptotic growth of solutions of nonhomogeneous linear differential equations system
08 p1342 A69-20348

Time response of second order nonlinear overdamped systems calculated by Krylov-Bogoliubov method of variation of parameters

08 p1297 A69-20356

Hankel functions and vibration equations solutions, discussing asymptotic behavior and monotonic properties in neighborhood of ellipses

08 p1416 A69-20714

Numerical studies of initial value problems by boundary value techniques for cases having available asymptotic estimates or periodicity of solutions

09 p1532 A69-21610

Matched asymptotic expansions method applied to problem of hypervelocity atmospheric entry, noting solution division into outer Keplerian region and inner expansion region

09 p1430 A69-21964

Asymptotic behavior of frequency function of fluctuations for generalized ensemble parameters, noting characteristic function convergence to Gaussian at thermodynamic limit

09 p1623 A69-22395

Book on special functions and approximations covering differential and integral equations and attendant theories arising in mathematical physics analysis

10 p1717 A69-22801

Automatic phase control effective bandwidth determined by asymptotic method, presenting computer calculated dependence on circuit parameters

10 p1653 A69-23105

Asymptotic method for analyzing small long wave perturbations in plasma, showing instability with respect to perturbations propagating at angles to ion-acoustic wave

10 p1653 A69-23107

Asymptotic boundary curves for two dimensional and axisymmetric incompressible irrotational flows into throat of convergent duct

10 p1680 A69-23893

Asymptotic methods for integral equations of plane mixed problems of elasticity theory for nonclassical regions

11 p1971 A69-24647

Stress concentration analysis of interactions between stress raisers and cross section changes, considering asymptotic expansion method

11 p1972 A69-24650

Asymptotic solutions for transverse oscillations of wedge and cone by virtual displacements principle, considering nonlinear law of elasticity and energy dissipation

11 p1975 A69-24762

Asymptotic method for single and multifrequency oscillations of quasi-linear control systems with distributed parameters and delayed time coordinate

11 p1916 A69-24766

Shell theory foundations and basic equations, discussing classical shell equations asymptotic nature and errors

11 p1978 A69-24808

Asymptotic methods for three dimensional equations in thin and thick elastic shell theory for determining two dimensional systems

11 p1978 A69-24810

Asymptotic series solutions for initial value problem involving nonlinear ordinary differential equation with small parameter epsilon

11 p1908 A69-24881

Asymptotic theory for obtaining nearly free molecular flow solutions uniformly valid throughout flow field based on linearized Boltzmann equation

11 p1818 A69-25283

Initial conditions estimation problem for nonlinear system asymptotic stability and satisfaction of output constraints on state variables

11 p1909 A69-25290

Mathematical model for initial conditions of asymptotically stable nonlinear control system to estimate region of acceptable motions

11 p1861 A69-25453

Nonstiffness of nonshallow spherical dome using asymptotic method, applying nonlinear Reissner equations to finite symmetric deformation of thin shells of revolution

11 p1996 A69-25733

Axisymmetric problem of stress in elastic space weakened by plane annular slit solved by asymptotic method in terms of equations for parameter lambda

11 p1996 A69-25735

Asymptotic controllability of linear system, giving stabilization procedures based on solutions to limiting differential equations

12 p2053 A69-26515

Asymptotic stability inferred by examining higher order derivatives of Liapunov function, noting application to learning and adaptive control

12 p2122 A69-26522

Enclosures for large eigenvalues of ordinary second and fourth order differential equations based on asymptotic solutions of linear homogeneous second order differential equations

12 p2124 A69-26892

Matched asymptotic expansions to obtain slider bearing load carrying capacity [ASME PAPER 68-LUBS-18]

13 p2266 A69-27270

Free and forced vibrations of elastic layer, using iteration procedure based on asymptotic integration of linear theory of elasticity dynamic equations

13 p2363 A69-28126

Autonomous and nonautonomous transient processes in conservative and nonconservative nonlinear systems, deriving equations describing perturbations under loads, solving by asymptotic method

13 p2300 A69-28529

Homogeneous finite automaton asymptotic analysis, calculating series terms for matrix transition probability function

13 p2239 A69-28535

Asymptotic control theory for two point boundary value problems, considering Euler equation

14 p2425 A69-28904

Statistical synthesis of optimal control for quasi-harmonic systems by extending asymptotic method to include unremovable measurement error in output value

14 p2426 A69-29420

Asymptotic power series solutions of viscous solar wind equations

14 p2515 A69-29969

Sufficient conditions for asymptotic stability of motion in finite and whole of nonlinear systems by Liapunov second method

15 p2652 A69-30660

Asymptotically almost periodic solutions of almost autonomous differential equation

15 p2645 A69-31096

Asymptotic Krylov-Bogoliubov methods application to solving boundary value problems for hyperbolic quasi-linear equations with distributed parameters and retardation

15 p2653 A69-31192

Asymptotic solutions of optimum control for systems with constraints as linear differential equations and quadratic type functional

15 p2583 A69-31234

Asymptotic Liapunov stability of perturbed solutions to weakly coupled multifrequency systems

15 p2654 A69-31258

Stability and asymptotic stability theorems related to Liapunov second method, considering linear differential equations zero solution

15 p2654 A69-31259

Numerical analysis of asymptotic solution for earth-moon particle trajectories in idealized restricted three body problem

16 p2857 A69-32155

Asymptotic solutions to second order differential equations with slowly varying parameters and large resistance applied to mathematical pendulum damped swinging motion

16 p2804 A69-32253

Isolated symmetric doubly asymptotic solutions existence in neighborhood of symmetric periodic solutions of nonautonomous canonical system with one degree of freedom near resonance

17 p2996 A69-33619

Asymptotic solutions for vector fields and propagation constants of axial modes in circular cylindrical waveguides, noting changes in dielectric constant

17 p2921 A69-33673

Asymptotic series expansion for solutions of differential equations containing parameter

18 p3163 A69-34328

Parametric variations of nonlinear system moving in medium with nonlinear drag, using Bogoliubov-Krylov asymptotic method

18 p3171 A69-34564

Asymptotic form of axisymmetric solution with Dirichlet integral for Navier-Stokes equations applied to flow past bodies of revolution with smooth surfaces

19 p3298 A69-36143

Space transitions identified with asymptotic solutions at system field equations transition points

19 p3445 A69-36811

Asymptotic evaluation of complex frequency integrals in theory of radiation from transient sources in

dispersive media, interpreting results in terms of space-time rays

20 p3494 A69-37841

Asymptotic method for analyzing small long wave perturbations in plasma, showing instability with respect to perturbations propagating at angles to ion-acoustic wave

20 p3582 A69-38005

Asymptotic integration method of nonlinear elasticity equations for first approximation theory of anisotropic plates moderately large deflections

20 p3630 A69-38129

Asymptotic solution, existence and uniqueness of integral equations occurring in elasticity theory and mathematical physics

21 p3772 A69-39618

Geomagnetic field and aerodynamic perturbation effects on satellite motion about center of mass, using asymptotic methods of nonlinear oscillation theory

21 p3830 A69-39835

Oscillations of highly viscous incompressible fluid in partially filled cavity of body moving about fixed point, solving Navier-Stokes equations by asymptotic method

22 p3929 A69-40111

Asymptotic methods for differential equations containing parameter, discussing reduction to integral equations system

22 p3976 A69-41124

Analog problem solution for semiinfinite medium with Newtonian cooling at boundary, noting first term of asymptotic expansion in heat conduction equation

22 p4052 A69-41126

Motion equations of quasi-linear nonautonomous systems with many degrees of freedom, obtaining periodic solutions by asymptotic integration

23 p4183 A69-42477

ASYMPTOTIC SERIES

Three dimensional flow at large distance and in front of shock wave for three dimensional body traveling at sonic velocity

01 p0005 A69-10159

Asymptotic and approximate waves constructed for system of nonlinear partial differential equations for phases corresponding to multiple characteristics

02 p0271 A69-12034

Uniform asymptotic expansion series for saddle point integrals applied to probability distribution in noise interference problems

03 p0398 A69-13832

Asymptotic expansion for transonic flow of viscous fluid at great distance from plane obstacle

04 p0544 A69-15057

Asymptotic expansion of solution to linear singular perturbation problem of elliptic type in bounded strictly convex domain

05 p0786 A69-15928

Space-time diffraction for asymptotic solution of Klein-Gordon equation, studying one dimensional dispersive medium

05 p0802 A69-15930

Matched asymptotic expansions for establishing relationship between inner and outer expansions of unknown function, discussing classes of singular perturbation

07 p1180 A69-18809

Uniform matched asymptotic approximations derived for various functions, with application to boundary value problem for ordinary differential equation with turning point

07 p1180 A69-18810

Asymptotic expansions of solutions to non-homogeneous differential equation with perturbation

14 p2471 A69-29680

Asymptotic series expansion for solutions of differential equations containing parameter

18 p3163 A69-34328

Asymptotic behavior of solution to parabolic equation for t approaching infinity, proposing asymptotic formula to Cauchy problem for heat conduction

18 p3231 A69-35310

Boundary layer development on body accelerating in viscous incompressible fluid, using straight lines approximation and asymptotic expansions

22 p3929 A69-40110

Free viscous layers structure at large Reynolds numbers, using matched asymptotic expansions for two dimensional compressible flow

22 p3932 A69-40927

Asymptotic approximation formulas to compute on-axis Fresnel region fields for coupling between two large aperture antennas

23 p4136 A69-41582

ATELECTASIS

Atelectatic and direct toxic effects of oxygen on human subjects
22 p3873 A69-40208

ATHLETES

Hypokinesia effect on dynamics of metabolic processes in athletes muscular system by comparison of diuresis, creatinine excretion and cutaneous fat layer indices
10 p1646 A69-23582

ATHODYDS

U RAMJET ENGINES

ATLANTIC OCEAN

Aeromagnetic profiles across Reykjanes ridge southwest of Iceland, noting magnetic anomalies symmetry and ocean floor spreading since Mesozoic
04 p0592 A69-14660

Potential gradient, small ion density and space charge density measurements for atmosphere on Atlantic Ocean during 1965
04 p0594 A69-15159

Aircraft reports of clear air turbulence over North Atlantic, discussing jet stream proximity and large amplitude ridge associated with occlusion point
08 p1345 A69-19885

Navigation accuracy and telecommunications system capacity interrelationships in economical improvement of air traffic control system over North Atlantic
10 p1723 A69-23704

Satellite networks for air traffic control and aircraft communications in North Atlantic
13 p2296 A69-27831

North Atlantic aircraft navigation and traffic control system using satellites
16 p2809 A69-32054

Long range weather forecasts attempt from relation between northern Atlantic Ocean water temperature anomaly and monthly satellite cloud data changes
20 p3569 A69-36987

ATLAS CENTAUR LAUNCH VEHICLE

Atlas/Centaur/Surveyor flights guidance accuracy, discussing postflight analysis of injection errors due to hardware, software and propulsion system
[AIAA PAPER 68-842] 24 p4348 A69-43239

ATLAS SLV-3 LAUNCH VEHICLE

Mission analysis for 1972 Venus launch opportunity, discussing launch period selection and trajectory constraints for Atlas/Centaur vehicle
[AAS PAPER 68-135] 21 p3805 A69-39208

ATMOSPHERIC ATTENUATION
NT AURORAL ABSORPTION

Atmospheric temperature and airglow spectra from IR measurements noting OH bands, atmospheric structure between 10 and 200 km at midlatitude and atmospheric absorption
[UN PAPER 68-5471] 01 p0108 A69-10464

Signal absorption in negative ionospheric ions effect on maximal frequency for space radio communication
[UN PAPER 68-95272] 01 p0029 A69-10529

Radar reflectivity and refractive index spectra in clear atmosphere simultaneously measured and compared with theoretical calculations
01 p0032 A69-10969

Stellar brightness attenuation in atmosphere, determining extinction factor using computer calculations
01 p0157 A69-11192

Radio telescope measurements of total vertical atmospheric absorption to determine effective mean free path of oxygen and water vapor for absorption
02 p0206 A69-11450

Performance characteristics of 300 GHz Dicke type superheterodyne radiometer receiver for measuring atmospheric attenuation of electromagnetic waves
02 p0209 A69-12336

Radiometric measurement of attenuation, emission and noise fluctuations due to earth atmosphere in 4 cm to 8 mm range
02 p0210 A69-12432

Ionospheric absorption measurements using beacon satellite emission compared to Kazantsev results
02 p0246 A69-12742

Vertical atmospheric turbidity distributions of haze and water vapor, noting effect of variations on scattering and absorption determination
02 p0277 A69-12777

Digital transmission at 35 GHz, noting atmospheric and rainfall effect on terrestrial millimeter wave propagation
03 p0389 A69-13192

Atmospheric limitations for laser communications, discussing scattering and absorption effects
03 p0389 A69-13193

Absorption as factor influencing correlation between solar activity, sporadic E layer probability of occurrence and reflection stability
03 p0423 A69-13537

Telluric lines halfwidth and depth dependence on observation point altitude and intervening air mass, determining absorption line contours for isothermal atmosphere
03 p0512 A69-13695

Graphical data on atmospheric and rainfall attenuation of spacecraft earth signal, emphasizing transmission via satellites
03 p0397 A69-13727

Submillimeter wave observation of sun to study anomalous absorption region
03 p0513 A69-13774

Visible light extinction properties of continental and maritime air, probing urban, desert and oceanic atmospheres with stable photodiode radiometer
04 p0596 A69-14280

Absorption effect on fluctuation of signal level propagating in turbulent atmosphere taking into account absorption in water vapor
05 p0717 A69-15634

Frequency dependence of atmospheric noise intensity from 1 to 1000 kHz at low and medium latitudes
05 p0758 A69-16410

Atmospheric turbidity coefficient distribution in Northern Hemisphere from direct solar radiation measurements, noting application to IGY data
05 p0789 A69-16585

Atmospheric IR spectral transparency measurement, describing optical system, recording devices and data processing
05 p0759 A69-16639

Submillimeter wave absorption by dimeric water in atmosphere, using interferometer and maser
05 p0759 A69-16658

Atmospheric noise at 33.5 GHz observed most on days of cumulus clouds probably due to local convective activity
05 p0721 A69-16661

IR radiation attenuation in transparency windows of atmosphere, using searchlights as radiation sources
05 p0760 A69-16695

Radio astronomical methods for total atmospheric absorption of radio waves by atmospheric thermal radio emission measurements based on sky brightness temperature
05 p0723 A69-16779

Australian sounding rocket programs carried out in conjunction with U.S. satellite experiments
[UN PAPER 68-95214] 06 p1013 A69-17076

VHF space communication signals with radio fluctuations along propagation path through turbulent atmosphere, giving diversity reception effect when transmitting linearly polarized waves
06 p0889 A69-17653

Cosmic radio noise absorption in ionosphere, discussing diurnal, seasonal and longer variations of integral absorption
06 p1008 A69-17727

Radio emission and microwave absorption spectrum dependence on physical properties of clouds in millimeter and centimeter wavelength range
06 p0954 A69-17998

Radio wave absorption measurements in atmosphere at superhigh frequencies, considering earth radiation, antenna sidelobes anisotropy, instrument effects, etc
07 p1076 A69-18518

Atmospheric extinction coefficient and backscattering function determined by laser radar using differential equation
07 p1126 A69-18966

Qualitative criterion for observing atmospheric turbulence structure by shadowgraph based on medium statistical properties, using ray optics
07 p1183 A69-19650

Energy dissipation of solar particles in atmosphere for 3914 and 5577 Å bands, computing light emissions associated with PCA
08 p1378 A69-20186

Atmospheric turbidity and visibility measuring instrument /videograph/ using light backscattering, noting shipboard, coast guard service, large cities and weather stations applications
08 p1314 A69-20376

Light intensity dispersion logarithm calculated along axis of laser beam propagating in atmosphere
08 p1351 A69-20437

Atmospheric effects on laser beam attenuation, noting application to optical visibility measurement by ruby laser
08 p1327 A69-21089

Propagation and noise effects on frequency choice for communication satellite service to aircraft and ships, noting tropospheric and ionospheric attenuation considerations
09 p1451 A69-21288

Albedo over Antarctic, measuring solar radiation reflected by surface and atmosphere by Eppley radiometer
09 p1484 A69-21404

Spectral distribution of X ray atmospheric absorption used to determine high energy photoelectrons spectrum
09 p1577 A69-21774

Solar radiation absorption measurements by balloon for atmospheric water vapor distribution
09 p1536 A69-21864

Atmospheric propagation properties of laser light, discussing particle absorption, gaseous absorption and refractive index disturbance effects
09 p1518 A69-22129

Asymmetrical solar wind volume variations of magnetic inhomogeneities and cosmic ray absorption in earth atmosphere, including barometric coefficients of neutron component
10 p1760 A69-22844

VHF space communication signals with radio fluctuations along propagation path through turbulent atmosphere, giving diversity reception effect when transmitting linearly polarized waves
10 p1775 A69-23191

Vertical atmospheric absorption of radio waves by water vapor and oxygen molecules near rotational resonance based on radio emission measurements
10 p1658 A69-23944

Millimeter wave propagation over water, discussing fading characteristics and atmosphere absorption effects
11 p1836 A69-24989

Atmospheric interference effects on optical PCM signal, analyzing absorption, beam bending, scintillation and correlation with visibility and weather
11 p1888 A69-25308

Air movement component of winter anomaly effect on radio wave absorption in mesosphere directly detected by rocket sounding
11 p1913 A69-25436

Radiation attenuation in hazy lower atmosphere, calculating attenuation coefficients and using spherical model of haze particles and empirical formula for haze spectra
11 p1913 A69-25571

Laser radiation transmission in atmosphere examined for information transmission applications
11 p1841 A69-25638

Calculation method for electromagnetic wave supplementary attenuation due to auroral absorption for distances up to 4000 km
11 p1841 A69-25760

Fading velocity short period characteristics and duration and depth of field strength variations over transhorizon path compared with corresponding atmospheric parameters
12 p2028 A69-25897

Atmospheric boundary layer transparency to gas laser emissions in IR spectrum, determining attenuation factor dependence on humidity and visibility range
12 p2028 A69-25957

Molecular O and total number densities between 70 and 120 km determined with rocket measurements of atmospheric absorption of solar UV and X rays
12 p2065 A69-26106

IR absorptance data for atmospheres of ammonia and ammonia nitrogen mixtures at various wavelengths indicating absorption in strong line region for gas pressures used
12 p2132 A69-26247

Shapes of extreme wings of collision-broadened carbon dioxide lines, noting absorption deviation from Lorentz-shaped lines
12 p2132 A69-26248

Refractive index and attenuation factor of ionosphere
12 p2070 A69-26689

Atmosphere effects on solar IR spectra, discussing role of absorbing molecule distribution in transmittance calculations
13 p2341 A69-27589

Atmospheric attenuation of solar radiation, discussing submillimeter astronomy at low altitude observatories
13 p2327 A69-27590

Nuclear explosions electromagnetic effects on electronic systems, considering signals emitted from

fireball and signal attenuation by changed atmospheric propagation

13 p2234 A69-28344

F cosine i theorem validity for VLF radio wave absorption in ionosphere tested using exponential electron density models, noting Brewster angle influence on reflection coefficient

13 p2222 A69-28473

Troposphere effects on millimeter wave radio astronomy measurements, discussing solar noise fluctuations due to clouds and precipitation

13 p2223 A69-28607

Atmospheric LF and HF sound transmission anomalies, discussing Tyndall paradox for fog signals propagation over ocean

13 p2301 A69-28666

Atmospheric IR spectral transparency measurement, describing optical system, recording devices and data processing

14 p2433 A69-28795

Latitudinal cut-off of manmade VLF signals in short path through ionosphere to OGO 2 satellite, noting strong noise following signal cut-off

14 p2434 A69-28958

Nighttime molecular O densities between 100-130 km determined from Schumann-Runge absorption data for successive far UV spectra of hot star

14 p2435 A69-28959

Noon ionospheric absorption data for Freiburg on different frequencies for lunar variation of ionospheric absorption of radio waves

14 p2438 A69-29104

Functional relations expressing short wave radiation absorption and scattering in atmosphere

15 p2648 A69-30222

Remote polarized light source photometric observation on background of polarized light scattered horizontally, considering atmosphere optical state effect on laser communications

15 p2649 A69-30655

Submillimeter atmospheric absorption spectra, emphasizing absorption by isotopic and vibrationally excited forms of water molecules

15 p2568 A69-30699

Corpuscular radiation intensity during geomagnetic disturbances measured during rocket flights at 50-100 km, discussing effects on lower ionospheric radio absorption

15 p2677 A69-31327

Auroral absorption influence on ionospheric wave propagation calculated for distances over 4000 km

16 p2749 A69-31603

Atmospheric absorption calculations, noting direct D layer reflection effects on lower HF oblique propagation

16 p2752 A69-32389

Absorption effect on fluctuation of signal level propagating in turbulent atmosphere taking into account absorption in water vapor

16 p2754 A69-32492

Atmospheric extinction determined by monochromatic photometry in Chile in 3000 to 6000 A range, discussing components

17 p3031 A69-33100

Attenuation statistics due to rain measured on earth-space path at 16 and 30 GHz, using sun as signal source

17 p2920 A69-33398

Photoelectric spectra of pulsating auroras in visible and near UV range, considering atmospheric opacity

17 p2961 A69-33416

Cosmic ray heavy nucleus enders flux by nuclear emulsions for balloon flights at various atmospheric depths

17 p3025 A69-34219

Star magnitude variation caused by earth atmosphere related by equation to star altitude, station height, sensor response, spectral radiance, etc

18 p3168 A69-34814

High temperature air spectral absorption indices determined at different pressures and temperatures

18 p3231 A69-35122

Water vapor absorption at submillimeter wavelengths in atmospheric window regions related to foreign gas pressure, using HCN maser

18 p3152 A69-35241

Aircraft measurements of scintillation of ground based light source, calculating autocorrelation functions and intensity fluctuations spectra

19 p3279 A69-36881

A scope laser radar to measure atmospheric particles spatial distribution through echo pattern and beam attenuation

20 p3487 A69-37284

Maser submillimeter emission lines used to determine atmospheric and water vapor absorption, noting role of pressure

20 p3553 A69-37296

Mesosphere and lower thermosphere molecular O density from solar radiation atmospheric absorption, using satellite measurements

20 p3523 A69-37413

Residual nighttime radio wave absorption in ionosphere, noting absorption-magnetic activity relation existence

20 p3528 A69-37678

Atmospheric ozone detection by three-color photometer measurements of solar UV radiation attenuation in Hartley continuum

20 p3543 A69-37802

Space contamination due to manned vehicles and debris atmosphere effects on dim light source observations

21 p3793 A69-38341

Atmospheric transmission determined in submillimeter solar radiation spectra using Bouguer law, identifying absorption lines in nocturnal and diurnal spectra

21 p3796 A69-38472

Earth resources observation technology from satellites, reviewing sensors and methods, electromagnetic spectrum, atmospheric attenuation and windows, passive-active devices

21 p3720 A69-38624

Ozone measurement from satellite by direct beam and scattered light methods employing UV sunlight attenuation

21 p3721 A69-38625

Molecular O distribution in thermosphere from Ariel 3 observations of solar radiation attenuation, showing large and systematic variation with longitude

21 p3717 A69-39263

Daily simultaneous solar measurements of microwave atmospheric absorption and emission to determine frequency correlation between meteorological phenomena and atmospheric parameters

21 p3718 A69-39747

Atmospheric ionization rates due to attenuation of 1-100 A nonflare solar X rays, giving solar fluxes and absorption cross sections

22 p4004 A69-40447

Rocket UV spectra indicating Venus atmosphere weak absorption and low ozone abundance and possible Jupiter surface depressions

22 p4028 A69-40661

Planetary atmosphere effect on Fresnel diffraction of ultrashort radio waves determined from short wave approximation of damping function

22 p3901 A69-40948

Absorbed dose and dose equivalent radiation rates at various depths in atmosphere due to proton spectrum of energetic solar flare

23 p4204 A69-41337

Zenith atmospheric attenuation in 183-325 GHz region measured by wideband Ge bolometer detector and spectral convolution technique

23 p4115 A69-41586

Pure water vapor and water vapor-air mixture continuum absorption of carbon dioxide laser radiation measured to determine atmospheric attenuation

23 p4173 A69-41631

EHF earth-satellite link communication channel emphasizing down link, discussing weather models, atmospheric absorption and temperature, channel coherence bandwidth, etc

23 p4129 A69-42506

Absorption observation of solar radiation at sunset by nitric acid in three wavelength intervals on different balloon flights

24 p4308 A69-42969

Solar grazing ray absorption calculated by tracing through earth atmosphere, noting extinction for arbitrary ozone and aerosol profile

24 p4350 A69-43013

ATMOSPHERIC CHEMISTRY

Initial production of metallic gases associated with sporadic E layers by processes other than vaporization or photodissociation, discussing Na atom production mechanisms

01 p0071 A69-11167

Metal ionic reactions with weak chemical bond breaking and three body reactions forming molecular ions without bond breaking, discussing sporadic E deionization

01 p0071 A69-11168

Upper atmosphere structure, phenomena and composition, discussing interactions between photons, electrons, atoms and molecules

02 p0242 A69-11902

Photochemistry in dry atmosphere, discussing ozone density vertical distribution in upper atmosphere and influence of O and ozone reactions with H compounds

02 p0245 A69-12694

Atmospheric ozone photochemistry, studying time dependence on hydrogen compounds, equilibrium concentration effects on reaction rates, latitude and season

06 p0916 A69-17004

Evening twilight nitric oxide density profile in gamma bands deduced from rocket measurements

07 p1125 A69-18842

Chemical abundances in planetary atmospheres based on spectroscopic determinations, considering terrestrial and Jovian planets

08 p1406 A69-20934

Photochemical production of reduced organic compounds of C and N in primitive earth atmosphere

09 p1444 A69-21465

IR day and night airglow of upper atmosphere utilized for atmospheric energy content and reactions analysis

13 p2252 A69-27585

Ion chemistry of D and E regions to be studied during years of solar maximum in framework of IQSY/IUCSTP

14 p2439 A69-29111

Corrosive wear due to atmospheric O in sliding metal systems, noting oxidation rate relation to wear rate and activation energy

15 p2622 A69-30605

Molecular oxygen rate of dissociation resulting from absorption in Schumann-Runge bands, calculating effects on chemistry of lower thermosphere and upper mesosphere

20 p3534 A69-38089

ATMOSPHERIC CIRCULATION

CRT method of processing contoured data from hemispheric and global numerical models simulating general atmospheric circulation

01 p0109 A69-10539

Objective layer of maximum wind /LRMW/ analysis technique for Northern Hemisphere jet stream, noting generation of initial guess fields

01 p0110 A69-10689

Wind profile harmonic analysis based on meteor trail observations, noting wind power spectra and propagating waves in atmosphere

01 p0072 A69-11170

Midlatitude ionospheric wind profiles noting seasonal and time differences in circulation patterns, speed, shear, wavelength, energy content and dissipation

01 p0072 A69-11171

Solitary mesoscale waves from air mass motion in troposphere, neglecting Coriolis force and turbulence

02 p0274 A69-11445

Wind perturbations characteristics near large convective cloud banks as function of ascending current, wind shear and turbulence

02 p0274 A69-11446

Atmospheric circulation influence on earth rotation velocity, discussing estimation methods

02 p0236 A69-11641

Free atmospheric turbulence theory extended to include ionosphere, deriving equations for horizontal ionospheric wind together with turbulence coefficient

02 p0274 A69-11678

Atmospheric circulation on rotating and nonrotating planets with shallow atmospheres applied to Mars and Venus atmospheres

02 p0320 A69-12110

Taylor column existence in compressible atmosphere, discussing baroclinicity and stratification effects in earth and Jupiter atmospheres

02 p0326 A69-12697

Zonal temperature and spectral characteristics of stratospheric circulation, noting westward rotation of second harmonic

02 p0246 A69-12759

Air movements in lower stratosphere analyzed on basis of ozone measurements, showing correlation with north-south gradient of total ozone amount

02 p0246 A69-12762

Factors producing wind deviations from geostrophic pattern under various atmospheric conditions

03 p0458 A69-13267

Planetary long waves behavior in atmospheric models, explaining unsteady components by means of filtered equations

03 p0459 A69-13274

Mean meridional circulation models in tropics based on vorticity equation

03 p0460 A69-13334

Planetary Rossby waves vertical propagation through weak westerly wind wave guides, using adiabatic linear model

03 p0460 A69-13335

Thermal convection in rotating fluid annulus, discussing suppression of frictional constraint on lateral boundary

03 p0460 A69-13339

Quasi-biennial oscillation in tropical stratosphere as result of long period gravity waves interaction with zonal wind

03 p0461 A69-13342

Large scale disturbances in summertime stratosphere observed from high level balloon, discussing diurnal wind patterns and planetary traveling waves

03 p0461 A69-13343

Ekman-Okkerblom problem for electrically conducting atmosphere located in external magnetic field, obtaining altitude distribution for wind velocity components

03 p0461 A69-13510

Diurnal upward and downward flows of atmospheric matter following upper atmosphere temperature nighttime minimum and daytime maximum

03 p0423 A69-13533

Long period variations in zonally symmetric circulations of tropical stratosphere, using zonally averaged momentum, continuity and heat and heat energy equations for numerical model

03 p0461 A69-13681

Thermal forcing role in diurnal oscillation of planetary boundary layer wind above sloping terrain

03 p0462 A69-13682

Sufficient conditions for stability of compressible atmospheric flows for rigid lid types of upper boundary condition

03 p0417 A69-13796

Hydrodynamic model of atmospheric circulation in equatorial region, using group invariant method

03 p0462 A69-13931

Lateral transport of constituents in planetary exospheres, considering planetary rotation

03 p0515 A69-14010

Gravity wave contribution to atmospheric wind motion at 100 km

03 p0426 A69-14031

Covariances of temperature and meridional wind component and relation to northward flux of sensible heat due to transient eddies in stratosphere

04 p0627 A69-15084

Mean meridional pressure profiles and atmospheric mass readjustment time dependence for initially at rest atmosphere with mean baroclinity, using frozen gradient model

04 p0627 A69-15086

Digital computers for global atmospheric circulation, describing circulation models and computer produced color movies utilization

04 p0628 A69-15363

Rocket and radiosondes data from measurements over Northern Hemisphere used to study stratospheric and mesospheric circulation during three midwinter periods

05 p0753 A69-15800

F region seasonal and magnetic storm behavior from region daily behavior showing global upper atmospheric circulation

05 p0757 A69-16404

General atmospheric circulation characteristics estimation for earth, Mars, Venus and Mercury based on thermodynamic and hydrodynamic laws

05 p0828 A69-16635

Energy integral of equations used in studying atmospheric motions in quasi-geostrophic approximation

05 p0759 A69-16641

Satellites role in observing and forecasting global atmospheric behavior, discussing World Weather Watch and Global Atmospheric Research Program

06 p0916 A69-16854

Wind data from Arctic upper mesosphere showing easterly winds increasing with height, resolving diurnal and semidiurnal oscillations

06 p0949 A69-17005

Curvilinear plasma motions in ionosphere same as cyclones and anticyclones in troposphere, solving ionospheric unstable wind as function of pressure gradients

06 p0919 A69-17722

Time dependent model of photochemical, advective and turbulent effects on meridional ozone distribution

07 p1122 A69-18253

Mars polar cap ice cap and dry ice theories, discussing dark wave and cloud distribution meteorological observations

07 p1212 A69-18603

A-130

Jupiter Red Spot vorticity at perimeter indicated by interaction with dark spots circulating along south equatorial belt

07 p1213 A69-18606

Dynamics of large scale processes in atmosphere extended to two week predictions using nine level hemispheric moist general circulation model

07 p1175 A69-18895

Atmospheric circulation intensity measurement, using potential energy conversion to kinetic or kinetic energy dissipation by friction

07 p1175 A69-18947

Constant level sounding balloon systems providing global data on atmospheric circulation, discussing icing problems and average life improvement

07 p1053 A69-18955

Similarity of mean flow patterns of natural local wind to model wind in wind tunnel

07 p1176 A69-18964

Large scale tropical eddies using two layer dry atmospheric model containing nongeostrophic effects and parameterized dissipation

07 p1176 A69-19035

Planetary wave-zonal flow interaction interpretation in terms of potential vorticity eddy transport, deriving zonal wind change and temperature field

07 p1126 A69-19037

Response of stably stratified atmosphere to differential heating across coastlines

07 p1126 A69-19038

Wave motion onset and waveforms in rotating annulus with sinusoidally varying temperature differences

07 p1126 A69-19039

Coupling and other factors affecting large scale motions in tropics

07 p1176 A69-19045

Eole satellite and meteorological balloons telecommunications. used to study wind distribution in Southern Hemisphere and other atmospheric parameters

07 p1084 A69-19134

Interhemispheric transfer of atmospheric angular momentum, noting hemispheric angular momentum contents and annual variations

07 p1127 A69-19258

Two level quasi-geostrophic model to probe atmospheric general circulation, noting functional dependence of zonal momentum meridional flux

08 p1346 A69-20314

Mean and eddy terms contribution to momentum and heat balance of troposphere and lower stratosphere at solstices, describing zonal wind equations

08 p1308 A69-20318

Unsteady atmospheric motions on planetary scale using Legendre polynomials

08 p1311 A69-21158

Power spectral analysis of upper wind data of equatorial lower stratosphere noting quasi-biennial oscillation

09 p1537 A69-22297

Zonal momentum vertical transport due to large scale moving disturbances in westerlies of equatorial lower stratosphere

09 p1537 A69-22299

Ionospheric movements from sampling radio diffraction pattern at 89 points and conversion into visible pattern

09 p1492 A69-22756

Long and ultralong waves in baroclinic zonal current, investigating current stability and wave perturbation characteristics by applying linearized perturbation equations to multilayer model

10 p1682 A69-23325

Venus atmosphere radial mass velocities measured spectrographically with Fabry-Perot interferometer, noting retrograde rotation

10 p1778 A69-23409

Particulate radioactivity for study of stratospheric motions, demonstrating negligible long time particle settling with comparative measurements of particulate Sr 90 and gaseous C 14

10 p1682 A69-23410

Thomson scatter bistatic sounder data on ionization transports in F region, describing diurnal variations by hourly values of velocities

10 p1685 A69-23830

Atmospheric circulation contribution to velocity variations in earth rotation calculated by force moment method

11 p1952 A69-24258

Pacific atmospheric circulation and Pacific equatorial sea temperature winter anomalies, noting Hadley circulations, northeast westerlies, trade winds and Walker circulation

11 p1911 A69-24322

Mean and eddy motions in atmosphere described by mathematical expressions for total and mean kinetic energies

11 p1911 A69-24323

Meteorological rocket probes in Spain for wind and temperature measurements, including stratospheric circulation data

11 p1877 A69-24519

Stability of barotropic perturbations superimposed on wind velocity profile of basic currents in geostrophic multilayer models

11 p1911 A69-24586

Air movement component of winter anomaly effect on radio wave absorption in mesosphere directly detected by rocket sounding

11 p1913 A69-25436

Jet flows instabilities with vertical and horizontal velocity drifts from numerical integration of atmospheric motion equations linearized with respect to small perturbations

12 p2125 A69-25950

Zonal and meridional wind components monthly global cross sections for stratosphere and mesosphere from sounding and radar data

12 p2070 A69-26577

Neutral gas motions causing plasma motions in F region, obtaining vertical plasma velocity component pronounced diurnal variations

12 p2070 A69-26684

Oscillation cycle of atmospheric circulation, analyzing solar activity effects on lunar and solar semidiurnal tides and transition from zonal to meridional circulation

12 p2070 A69-26692

Wind structure in atmosphere meteor region from persistent meteor trail radio echoes amplitude fluctuations, noting horizontal wind velocity profiles

12 p2074 A69-26962

Air mass displacements and diurnal variations in potential temperature at tropopause level

13 p2252 A69-27608

Blocking processes synchronous development involving atmospheric circulation disturbances in Northern and Southern Hemispheres, noting localization in Pacific and Atlantic oceans

13 p2292 A69-27840

Wind shifts and mean gustiness calculation from short range weather forecasts, using dynamic model for wind motion in atmospheric boundary layer

13 p2293 A69-27844

Atmospheric pressure and wind data at equatorial latitudes, determining relation between rms meridional and zonal wind and pressure gradient

13 p2293 A69-27845

Hydrodynamics of large scale atmospheric circulation, analyzing interactions between different scales and between atmosphere and underlying surface

13 p2253 A69-27849

Latitudinal and vertical variations in six-month zonal wind cycles in equatorial and tropical stratosphere and lower mesosphere, utilizing rocket observations

13 p2294 A69-27854

Mesopause wind measurements at high latitude locations by sounding rockets noting relation to noctilucent clouds

13 p2294 A69-28466

Mean seasonal atmospheric and synoptic circulation types examined by criterion for identifying analog types

13 p2295 A69-28652

Free atmospheric turbulence theory extended to include ionosphere, deriving equations for horizontal ionospheric wind and turbulence coefficient

13 p2295 A69-28709

Planetary long waves behavior in atmospheric models, explaining unsteady components by means of filtered equations

14 p2472 A69-28782

General atmospheric circulation characteristics estimation for earth, Mars, Venus and Mercury based on thermodynamic and hydrodynamic laws

14 p2516 A69-28791

Energy integral of equations used in studying atmospheric motions in quasi-geostrophic approximation

14 p2433 A69-28797

Three dimensional model of atmospheric drift currents in equatorial region of world ocean system based on nonlinear differential equations

14 p2472 A69-29405

Collection of Soviet papers on planetary atmospheric circulation covering tropospheric and stratospheric temperature distribution, cloud patterns, wind fluctuations, etc

14 p2472 A69-29723

Equatorial stratospheric wind fluctuations from pressure fluctuation data, relating southern fluctuations,

stratospheric fluctuations and seasonal hemispheric air exchange

14 p2442 A69-29726

Soviet collection of articles on aviation forecasting of cloud cover, high altitude wind and turbulence

14 p2473 A69-29734

Soviet collection of papers on general circulation of atmosphere

14 p2475 A69-29818

Hydrodynamic theory of climate and atmospheric circulation, emphasizing numerical experiments role in studying large scale processes

14 p2476 A69-29819

General atmospheric circulation instability factors for statistical weather forecasting, considering atmosphere as nonlinear oscillating system, analyzing relaxation time

14 p2476 A69-29820

Spatial correlation function of Northern Hemisphere geopotential, using model based on random distribution of potential vortex fluctuations for atmospheric circulation

14 p2476 A69-29822

Atmospheric circulation integral characteristics, calculating kinetic energy in Northern Hemisphere

14 p2476 A69-29824

Atmospheric circulation by energy concepts, giving quantitative analysis of interaction between upper and lower atmosphere

14 p2477 A69-29825

Radiation in atmospheric circulation, considering radiative equilibrium, cloudiness and surface interactions, surface temperature and heat input

14 p2477 A69-29826

Zonal and meridional components of air circulation in troposphere and lower stratosphere for Northern Hemisphere

14 p2477 A69-29829

Ozone concentration changes in polar regions and tropical zone due to meridional atmospheric circulation

14 p2442 A69-29830

Jet streams as indicators of atmospheric circulation, considering all altitude observance and dynamics-energetics aspects

14 p2477 A69-29831

Troposphere behavior and stratosphere structure over Southern Hemisphere based on rocket measurements, comparing hemispheric atmospheric circulation intensities

14 p2477 A69-29832

Two year cyclic monsoon type variations in zonal wind distribution in tropical stratosphere and mesosphere obtained by rocket measurements

14 p2478 A69-29834

Earth orography influence on climatological distribution of wind and geopotential fields, stressing central asiatic mountains role in atmospheric circulation

14 p2478 A69-29835

Secular fluctuations of atmospheric circulation over Northern Hemisphere analyzed using isobaric and composite-kinematic surface maps, discussing analogies with Southern Hemisphere

14 p2478 A69-29836

Epochs in atmospheric circulation development over Northern Hemisphere, emphasizing solar activity roles in epochs appearances

14 p2478 A69-29837

Atmospheric heat exchange and circulation simulated by rotating containers, reproducing temperature field and dynamic structure above large area

14 p2478 A69-29840

Atmospheric dynamics parameters of Mercury, Venus, Mars and Jupiter, discussing generalized circulation theory

14 p2526 A69-29841

Atmospheric motions equations in mesometeorology prognostic problems taking into account free atmosphere and boundary layer interactions

15 p2646 A69-30107

Large scale atmospheric wave motions analyzed by spherical harmonic representation of height fields over earth, detailing wave components and quasi-stationary fluctuations

15 p2647 A69-30216

Kinetic energy balance equation of mean zonal flow in symmetrical polar cap derived from basic concepts of mechanics, discussing relative coordinate system rotation

15 p2595 A69-30219

Energetics relations of limited atmospheric region to global energy budget, discussing interaction, potential energy, generation, boundary flux and conversion terms

15 p2648 A69-30220

Energy budget equations applicable to limited atmospheric region using available potential energy concept, discussing relation to global energy

15 p2648 A69-30221

Atmospheric motions on Jupiter, considering highly symmetric flow, baroclinic waves and red spot

15 p2694 A69-30856

Upper atmosphere winds and temperature measurements from rocket grenade, discussing TMA experiments

15 p2598 A69-31317

Average angular velocity of upper atmosphere from changes in orbital inclinations of satellites, discussing wind speeds

15 p2600 A69-31352

Seasonal and latitudinal models of atmospheric wind and temperature structure between 30 and 120 km altitude

15 p2600 A69-31367

Regional distribution of relative angular momentum transport over equator, noting advective and turbulent transfer

16 p2773 A69-31793

Pressure gradients and moving ions driven neutral-air winds in F region, using asymmetric pressure model

16 p2779 A69-32302

Combined midlatitude neutral air wind and equatorial electrodynamic drift effect on F 2 layer diurnal variations

16 p2781 A69-32316

Subsonic thermal convection or internal gravity waves from formal scale analysis of equations of motion in plane parallel atmosphere

17 p2960 A69-33155

Atmospheric stability influence on vertical spectra of refractive index and air velocity deduced from beam swinging experiments and compared with radiosondes data

17 p2960 A69-33157

Zonal flow intensity, velocity and kinetic energy of standing and traveling waves compared for Northern and Southern Hemispheres

17 p2997 A69-33392

Adiabatic and diabatic processes contributions to vertical atmospheric motions profile and IR cooling components comparison

17 p2962 A69-33689

Papers on experimental and theoretical research on atmospheric circulations, jetstream and cyclonic disturbances

17 p2999 A69-33757

Planetary jetstream and general circulation energy transformations, applying circulation model results to specific weather situations

17 p3000 A69-33758

Rocket and radiosondes data from measurements over Northern Hemisphere used to study stratospheric and mesospheric circulation during three midwinter periods

17 p2962 A69-33779

Space diversity reception and diurnal variations of F region ionospheric motions, comparing IQSY program

17 p2969 A69-33999

Tropical circulation long term mean values of wind and temperature fields, momentum and heat fluxes from weather stations data, noting consistent pattern and energy source

18 p3165 A69-34418

Air motion and precipitation patterns in travelling wave depression, considering Doppler radar data, rainfall rates, orographic influences, etc

18 p3166 A69-34419

Earth atmospheric large scale motion simulated in laboratory and by numerical technique

18 p3127 A69-34668

Atmospheric flow with respect to mesoscale disturbances, examining conditions for hydrodynamic stability

18 p3167 A69-35343

Numerical weather prediction using four level primitive atmospheric model for studying frontogenetic processes in deepening cyclone

19 p3303 A69-36408

Atmospheric horizontal mixing caused by quasi two dimensional macroturbulent motions, describing micro and mesoscale processes using numerical model

19 p3363 A69-36500

Numerical integrations for modified model incorporating ozone production equation and heating from ozone radiation absorption and long wave cooling for upper atmospheric circulation

19 p3363 A69-36502

Large atmospheric motions analyzed by elliptic partial differential equation and hydrostatic and quasi-geostrophic approximations

19 p3364 A69-36504

Numerical integration of atmospheric motion equations in global domain using hexagonal grid, including sphericity corrections and Coriolis term

19 p3364 A69-36509

Vertical atmospheric motions, considering wind velocity measurements associated with synoptic processes

19 p3366 A69-36673

Meridional circulations in kinetic energy budget of Northern Hemisphere troposphere based on winter and summer climatic mean data, noting Hadley circulation

20 p3523 A69-37505

Small scale inhomogeneities motions in E and sporadic E layers, processing data with method of full correlation analysis and statistical method

20 p3528 A69-37683

Radar observations of convective pattern types in clear atmosphere consisting of thermal- and Benard-like convection cells

20 p3573 A69-38059

Radial diffusion coefficient calculation in presence of magnetic shell splitting in magnetosphere

20 p3534 A69-38094

Circulation near turbopause effect on lower thermosphere composition changes, noting heat source for warmth over winter polar region

21 p3704 A69-38366

Upper atmosphere horizontal unsteady wind with pressure gradient time dependence, solving heat conduction type equation by integral representations

21 p3758 A69-38411

Midlatitude thermosphere vertical air motions to balance divergence and convergence caused by large scale horizontal wind systems

21 p3714 A69-38553

Venus, Mars and Jupiter lower atmospheric motions, considering atmospheres thermal and chemical composition

21 p3811 A69-39511

Martian atmosphere circulation compared to terrestrial, considering absence of oceans, radiative coupling and planetary scale motions

21 p3814 A69-39569

Circulation and temperature fields indices used for studying tropospheric-stratospheric interactions during stratospheric warming at constant pressure levels

22 p3977 A69-39929

Convective cells and periodic variations in vertical gradient of electroatmospheric field

22 p3934 A69-39939

Linear equations of motions of inviscid ideal gas atmospheres, describing climatology of propagation parameters for point impulse sources

22 p3938 A69-40446

Earth rotation rate variations connected to longitude variations of continentals time services, noting atmospheric circulation and inertial forces role

22 p4024 A69-40609

Long term computer produced multiple image satellite photomosaics for Southern Hemisphere, analyzing circulation, meridional bands, polar ice, cloud cover variations, etc

22 p3977 A69-40733

Radial velocity data monitored during Venera 4 descent used for determining vertical and horizontal atmospheric flows velocities

22 p4034 A69-41099

Atmospheric zonal circulation compatible with meridional obtained from model based on dynamic and heat flux equations and Williams and Davis hypothesis

23 p4183 A69-41522

Qualitative model of atmospheric mass circulation constructed from radar meteor trail drifts observations, considering solar thermal radiation and zonal wind direction

23 p4214 A69-41862

Cloud cover forms in circulatory-climatic zones of earth based on Zond 5 picture analysis, discussing air-mass exchanges and motions direction

23 p4184 A69-42486

Radiation contribution to large scale atmospheric mass circulation simulation, considering short wave radiation, temperature variations, exponential and aerosol attenuation

23 p4184 A69-42487

Atmospheric variability at proposed flight levels, analyzing meteorological requirements of SST operations, discussing annual cycles in stratospheric circulation

24 p4251 A69-42711

Mesospheric circulation related to noctilucent cloud data, discussing seasonal variations

24 p4307 A69-42965

Absolute atmospheric kinetic energy, comparing equations deduced from Euler equations with equa-

tions deduced from equations of motion for inertial system

24 p4345 A69-43151

Hadley and equatorial cell models for mean meridional circulation in terms of vorticity equation

24 p4345 A69-43152

Atmospheric model consisting of varied mass liquids in water tank for studying circulation conditions, discussing earth zone and layer partitioning and Prandtl analysis

24 p4346 A69-43153

ATMOSPHERIC COMPOSITION

NT IONOSPHERIC COMPOSITION

Optical radar for studying atmospheric water vapor, density, temperature and aerosols

01 p0090 A69-10540

Electron density and temperature, ion density, composition and temperature and plasma space potential relative to space vehicle potential measured by spherical probe assembly

01 p0065 A69-10549

Cosmic rays extensive air showers from interaction of particles with nuclei of elements in atmosphere

01 p0144 A69-10752

Chemical composition of upper atmosphere and interplanetary space measured by Soviet sounding balloons and rockets, discussing flask sampling techniques

01 p0025 A69-10940

Sporadic E structure and composition measured above White Sands by rocket-borne planar ion trap and two RF ion mass spectrometers

01 p0071 A69-11166

Initial production of metallic gases associated with sporadic E layers by processes other than vaporization or photodissociation, discussing Na atom production mechanisms

01 p0071 A69-11167

Light polarization properties in atmosphere noting aerosols effect

01 p0075 A69-11189

Twilight sky brightness measurements at 5200 angstroms for estimating upper atmospheric dust component, discussing error rates

01 p0075 A69-11191

Lower thermosphere neutral composition diurnal variations, noting molecular N and O, Ar, He and atomic O

01 p0076 A69-11231

Metal corrosion in atmosphere - ASTM Conference, Boston, June 1967

01 p0100 A69-11350

Titanium-base alloys resistance to atmospheric corrosion based on weight change measurements and tensile tests after multiyear exposures

01 p0100 A69-11351

Atmospheric stress corrosion tests of aluminum alloys in various environments, comparing aging results with accelerated laboratory tests

01 p0100 A69-11352

Long term atmospheric corrosion test program for aluminum and magnesium base alloys, comparing tensile strength of exposed and control specimens

01 p0100 A69-11353

Weathering tests on wrought aluminum alloys exposed at U.S. sites compared to British industrial atmospheric exposure results

01 p0101 A69-11354

Planetary atmosphere composition determination using mass spectrometry for neutral components, ion spectrometry for ionic components and data system optimization

[AAS PAPER 68-183] 02 p0247 A69-11468

Mariner 5 Venus Lyman alpha emission observations, noting atomic hydrogen and oxygen resonance radiation measurements and apparent presence of molecular hydrogen or deuterium

[AAS PAPER 68-220] 02 p0313 A69-11486

High sensitivity mercury vapor analysis automated to provide continuous monitoring of Hg in atmosphere, discussing winter and summer concentrations

02 p0244 A69-12019

Mars lower atmospheric pressure, temperature and composition, noting consistency between photometric, spectroscopic and occultation techniques

02 p0319 A69-12104

Photoelectron energy loss mechanisms in planetary atmospheres, considering possible constituents in Mars and Venus upper atmospheres

02 p0321 A69-12118

Venus atmospheric structure from surface to 20,000 km radial distance from Mariner 5 radio experiments, noting large mass-2 hydrogen component in upper atmosphere

02 p0330 A69-12802

Stellar image and spectrum distortions during occultation observed from satellite, discussing recovery of atmospheric composition data from stellar spectra

03 p0421 A69-13346

Electron temperature and concentration and solar UV absorption data from sounding rockets, estimating ion exchange rate, recombination coefficient and heat flux

03 p0422 A69-13508

Satellite drag data to determine upper atmospheric composition according to density distribution with height

03 p0423 A69-13532

Atmospheric gas composition effects on shock layer radiative heat transfer and heat shield response in Venus entry simulated by earth reentry

[AIAA PAPER 68-1148] 03 p0412 A69-13672

Lower thermosphere composition over New Mexico, discussing rocket flight mass spectrometer measurements during summer 1967

03 p0425 A69-14009

Lateral transport of constituents in planetary exospheres, considering planetary rotation

03 p0515 A69-14010

Solar emission line absorption by oxygen and nitrogen atomic lines, discussing effect on upper atmosphere composition measurements

03 p0425 A69-14019

Stationary vertical distribution of weightless radioactive substance in surface air layer, accepting two layer exponent law for vertical turbulent diffusion coefficient

04 p0593 A69-15091

Atmospheric fine structure studied by amplitude distribution and autocorrelation functions for different heights of scatter volume in microwave range

04 p0628 A69-15306

Lithium abundance in sunspots and undisturbed solar atmosphere from measurements of solar atmosphere and spot spectra

05 p0821 A69-15850

Venus and Mars atmosphere structure, comparing Venus atmosphere model with Mariner 5 observations

05 p0824 A69-16248

Solar hydrogen Lyman alpha line profile measurement by rocket-borne spectrophotograph, obtaining flux available for scattering by atomic hydrogen in geocorona

05 p0815 A69-16254

Rocket measured profiles of electron density and ion abundances in E region, discussing role of minor atmospheric constituents

05 p0757 A69-16408

Dynamic properties of upper atmosphere, discussing variations in temperature, density and composition

[UN PAPER 68-05755] 06 p0917 A69-17042

Upper atmosphere physics, atmospheric composition and separation of gases, nature of air flow, water vapor content and lower ionosphere structure determinations by rocket

[UN PAPER 68-95693] 06 p0949 A69-17058

Atmospheric droplets diameter, number density and scattering cross sections determined from laser radar return equation and Mie theory

06 p0888 A69-17483

Twilight resonance emissions due to atmospheric sodium, lithium and potassium, noting similarity of annual sodium and lithium twilight abundance variations

[AFCLR-69-0097] 06 p0918 A69-17494

Beryllium abundance in solar atmosphere from spectra observed at Oslo Solar Observatory

06 p1010 A69-17971

Atmospheric influence on friction endurance of solid powdered lubricants at constant layer thickness

[IME PAPER 3] 07 p1138 A69-18563

Mars lower ionosphere ionization from spectroscopic and Mariner 4 occultation data, discussing various ionization sources

07 p1213 A69-18607

Ion composition and charged particle temperatures at 300-600 km from sounding rocket and topside sounder Alouette 2 measurements

07 p1124 A69-18839

Atmospheric helium nonthermal escape mechanisms, noting ion loss from polar ionosphere

07 p1125 A69-18946

Atmospheric and alloying elements effects on casehardening by gas carburization of structural steels, noting carbon potential

07 p1167 A69-19344

Hydrogen concentration above earth surface during minimum-solar activity from ionospheric rocket and satellite measurements

07 p1129 A69-19612

Ozone distribution in Venus atmosphere measured by Soviet space probe Venera 4

08 p1382 A69-19887

Monte Carlo method for calculating atomic hydrogen escape rate from carbon dioxide atmosphere, considering Mars and Venus atmospheres

08 p1386 A69-20076

Seasonal maximum ozone concentration variations, discussing vertical ozone distribution

08 p1307 A69-20260

Horizontal ozone distribution at high cyclones and anticyclones in middle stratosphere

08 p1308 A69-20261

Atmospheric structure and energy distribution of planetary nebulae central stars

08 p1393 A69-20570

Mars and Venus atmospheric properties, noting influence of biosphere and human activity on earth atmosphere

08 p1408 A69-21160

Ozone and carbon dioxide stratospheric and tropospheric horizontal distribution from weather data collected on polar flight

09 p1484 A69-21403

Atmospheric sodium measured at night by tuned laser radar, giving average column number density

09 p1484 A69-21464

Deuterium escape in Venus upper atmosphere to explain anomalous Lyman-alpha glow observed by Mariner 5

[SRCC-91] 09 p1594 A69-21696

Quadrupole mass filter for rocket-borne measurements of thermospheric helium content, discussing turbopause level and winter helium bulge

09 p1489 A69-21712

Carbon dioxide abundance in Mars atmosphere measured with three etalon Fabry-Perot spectrometer

09 p1607 A69-22427

Stellar atmosphere parameters analyzed over pulsation cycle by high dispersion spectra of cepheid variable RT Aurigae

10 p1778 A69-23605

Lunar atmosphere molecule and atom concentration from isotropic and uniform surface evaporation due to micrometeorite impact

10 p1783 A69-23921

Venus atmosphere observations compared with Venera 4 measurements of temperature, pressure and carbon dioxide content

10 p1791 A69-24200

Computerized autocorrelation function analysis of radioactivity distributions in atmosphere at different altitudes, showing no correlation between values

11 p1945 A69-24320

Carbon dioxide concentration in upper troposphere and lower stratosphere recorded during commercial aircraft flights over polar route

11 p1879 A69-25254

Balloon-borne IR spectrometry to study atmospheric nitric acid vapor compared with absorption by ozone and methane

11 p1879 A69-25407

Atmospheric optics by spacecraft and high altitude probes concerning ozone and aerosol distributions, scattering indicatrix polarization and dust cloud inhomogeneities

12 p2055 A69-25815

Molecular O and total number densities between 70 and 120 km determined with rocket measurements of atmospheric absorption of solar UV and X rays

12 p2065 A69-26106

Spectrum analysis of Jupiter atmospheric composition, obtaining abundances of minor constituents

12 p2155 A69-26205

Atmospheric element contents of F stars of Cyg, Her and Boo, using Planckian gradients and computer calculations for growth curves of atmospheric models

12 p2157 A69-26335

Meteoritic dust particles collections prediction in atmosphere for low and high entry fluxes

12 p2158 A69-26342

Atmospheric ozone vertical distribution and total amount determined by radiative transfer and perturbation theory, presenting error analysis

13 p2255 A69-28493

He 3 production and loss in atmosphere, discussing precipitation of energetic magnetospheric particles, thermal escape, nonthermal processes, etc

14 p2435 A69-28965

Time and altitude induced variations in daytime NO and molecular and atomic oxygen ions

14 p2435 A69-29050

Atomic hydrogen vertical profiles with increased high-low altitude ratio for interpreting observations of thermospheric and exospheric hydrogen abundance
14 p2440 A69-29130

Comet atmosphere dust component, relating physical properties to brightness characteristics in stellar magnitudes
15 p2685 A69-30528

Vertical ozone profiles computed from known total ozone data based on profiles taken by Umkehr method
15 p2597 A69-30896

Polar exosphere near solar maximum investigation by Explorer 19 and Explorer 24 drag satellites, considering density and atomic oxygen concentration measurements
15 p2600 A69-31351

Upper atmosphere structure and variations including density and composition in lower thermosphere, diurnal variations, variations with solar activity, etc
15 p2600 A69-31355

RF mass spectrometric measurements of diurnal variation of thermosphere and ionospheric E and F regions composition, noting oxygen concentration
15 p2601 A69-31371

Rocket and satellite measurements of density, temperature and composition in lower thermosphere, considering altitude dependence
15 p2602 A69-31383

Ion whistlers recorded by Alouette 2 VLF receiver providing information on ion composition of terrestrial ionosphere, showing variation with latitude and relationship to solar cycle
15 p2604 A69-31410

Venus microwave spectrum analyzed by comparing various thermal and nonthermal emission models, discussing surface temperature and atmospheric composition
16 p2853 A69-31597

Venus atmosphere carbon dioxide content origin from interior degassing during molten phase, using atmospheric model
16 p2857 A69-32098

Atmospheric ozone production by silent discharges near ground level during first stage of storm cell development
16 p2785 A69-32623

Atmospheric ozone distribution in meridional plane including time effects of photochemistry, advection and turbulence assuming zonal symmetry
16 p2785 A69-32624

Ozone vertical distribution variations over India observed by Brewer electrochemical ozonesonde, noting effects of dry and monsoon seasons
16 p2786 A69-32627

Horizontal and vertical ozone distributions synoptic study, comparing soundings made on both sides of Atlantic
16 p2786 A69-32628

Weather forecasting correlation between atmospheric ozone vertical profiles and postsounding ground meteorological situation, describing computer data processing
16 p2786 A69-32629

Ozone concentration photochemistry between 30-35 km, determining parameters in Hampson theory/hydrogen-oxygen atmosphere/
16 p2787 A69-32636

Ozone soundings in upper stratosphere, discussing vertical temperature profiles relationship to vertical ozone profiles
16 p2787 A69-32640

Variations in difference between integrated ozone amount by soundings and total ozone by Dobson spectrophotometers
16 p2792 A69-32642

Atmospheric ozone distribution as function of photochemical reactions, advection and vertical motions
16 p2787 A69-32643

Photosynthesis and respiration rate in vegetables in controlled temperature, humidity, illumination levels, carbon dioxide and oxygen contents
17 p2912 A69-32933

Atmospheric extinction determined by monochromatic photometry in Chile in 3000 to 6000 Å range, discussing components
17 p3031 A69-33100

Emission intensity ratio change as function of polar auroral height compared to variation in atmospheric concentration ratio of oxygen to nitrogen
17 p2963 A69-33956

Composition and temperature of daytime and nighttime neutral tropic lower thermosphere, obtaining atomic and molecular oxygen ratios
18 p3128 A69-34936

Atmospheric aerosols influence on ion density profile in stratosphere obtained from numerical solution of equilibrium ionization equation
18 p3129 A69-34962

Venus atmosphere physical properties and chemical composition, considering Venera 4 and Mariner 5 data
18 p3201 A69-35164

Vertical distribution of concentration, microstructure and chemical composition of solid aerosol in troposphere and stratosphere from high altitude balloon measurements
18 p3132 A69-35340

Earth satellite sweeping mass spectrometer for measuring atmospheric neutral particle and positive ion concentration
19 p3314 A69-36681

Dynamic properties of upper atmosphere, discussing variations in temperature, density and composition
20 p3519 A69-36983

Rare gas distribution in earth atmosphere explained as outgassing from primordial solid particles, discussing stony meteorites composition
20 p3600 A69-37489

Cations of sulphates photosensitizing role in photolysis of amino acids and peptides in various atmospheres
20 p3477 A69-37626

Resolving power and field of view relations of holographic device for images recording through inhomogeneous atmosphere
20 p3540 A69-37728

Primitive earth upper atmosphere thermal models, considering roles of exospheric temperature and free hydrogen availability in methane dominated environment
20 p3608 A69-38056

Methane abundance and rotational temperature of Jupiter, considering effects of line saturation
20 p3613 A69-38174

Structure, composition and temperature of Venus atmosphere from spacecraft measurements and ground based observations
20 p3614 A69-38256

Circulation near turbopause effect on lower thermosphere composition changes, noting heat source for warmth over winter polar region
21 p3704 A69-38366

Neutral components of arctic thermosphere measured with rocket-borne RF mass spectrometers, discussing origin of atomic hydrogen and water lines
21 p3704 A69-38367

Upper atmosphere particles, luminosity and electron concentration measurements documented in input, storage and energy radiation classes, determining recombination coefficients
21 p3707 A69-38491

Spectra and intensities of rocket releases for upper atmosphere composition, temperature and reaction kinetics, noting chemiluminescence and atomic and molecular emissions
21 p3712 A69-38522

Intensity changes of OI nightglow emission at 100 km by transport associated with tides, gravity waves and turbulent mixing
21 p3713 A69-38526

Planetary atmosphere structure and mean molecular weight determination from onboard measurements tested at high altitude in earth atmosphere, based on NASA Program
21 p3715 A69-39023

Stellar lithium and beryllium, discussing production and destruction processes in stellar atmospheres and abundance in various stars
21 p3810 A69-39505

Flashlamp-pumped dye laser for resonance scattering studies of upper atmospheric composition, describing laser construction and tuning
22 p3962 A69-40440

Helium-carbon star BD plus 10 degrees 2179 re-analyzed by grid of constant flux models containing right amount of C
22 p4026 A69-40652

Jupiter spectrum observations in 2.8-14 micron range, describing absorption strength and brightness temperature, basing analysis on ammonia, methane and hydrogen absorption
22 p4028 A69-40662

Troposphere fine scale properties, comparing simultaneous results of five experimental methods
22 p3941 A69-40914

DC beam experiment for determining molecule sticking coefficients of gas beams incident on Ti, Ba and Sr gettering surfaces at cryogenic temperature
23 p4151 A69-41544

Spaceborne planetary UV spectroscopic search for atoms and molecules basic to life, specifically molecular N and water vapor photodissociation products
23 p4113 A69-41616

Mars atmospheric features from measurements during entry and after landing, discussing atmospheric state properties, diurnal variability, clouds and winds
23 p4212 A69-41617

Nitric acid vapor in atmosphere as function of altitude from spectrograph, predicting downward diffusion
23 p4155 A69-41634

Biochemical evolution role in porphyrin synthesis forming hemoproteids base, discussing assimilation of carbon dioxide in early earth atmosphere
23 p4088 A69-41814

Carbon monoxide presence in Martian atmosphere from Mars line spectra, giving content, surface pressure and concentration
23 p4220 A69-42379

Atmospheric gas composition effects on shock layer radiative heat transfer and heat shield response in Venus entry simulated by earth reentry
24 p4394 A69-43248

Electrical and optical properties correlation of air in fog, discussing droplets distribution with regard to dimensions
24 p4347 A69-43506

Atmospheric gases emission spectra excited by electron beam as function of pressure
24 p4353 A69-43698

ATMOSPHERIC CONDITIONS U METEOROLOGY

ATMOSPHERIC CONDUCTIVITY NT IONOSPHERIC CONDUCTIVITY

Free atmospheric turbulence theory extended to include ionosphere, deriving equations for horizontal ionospheric wind together with turbulence coefficient
02 p0274 A69-11678

Ekman-Okkerblom problem for electrically conducting atmosphere located in external magnetic field, obtaining altitude distribution for wind velocity components
03 p0461 A69-13510

Stationary and nonstationary weak discontinuity surfaces propagation for ideal and viscous compressible conductive atmosphere with regard to heat flux, using Hadamard method
03 p0422 A69-13511

Laboratory atmospheric electrical conductivity meter, discussing structural elements
04 p0600 A69-15106

Electric fields and conductivity in thunderclouds by parachuting rotating differential electric field mills
08 p1345 A69-19813

Electric field profile and turbulence ratio relationship in free atmosphere as function of vertical current density, conductivity, potential gradient and charge density
13 p2295 A69-28523

Free atmospheric turbulence theory extended to include ionosphere, deriving equations for horizontal ionospheric wind and turbulence coefficient
13 p2295 A69-28709

N wave propagation across nonuniform medium described by cloud or front layer, using geometrical optics
16 p2812 A69-31924

Earth bow shock electrical conductivity estimation from macroscopic equations without knowing microscopic dissipation processes
18 p3131 A69-35191

Steady state vertical distribution of small ions in ground layer assuming atmospheric dynamic and thermal sublayers, calculating air resistance and electric field potential
21 p3715 A69-38836

ATMOSPHERIC DENSITY

Photographic image degradation resulting from wave front distortion due to atmospheric refractive density gradients over long oblique optical path
01 p0107 A69-10223

Seasonal variation of evening-morning difference in maximum density heights of twilight sodium layer
01 p0063 A69-10275

Upper atmosphere physical properties, discussing density and temperature
01 p0066 A69-10942

Thermodynamics of nonadiabatic vertical ascent of overheated individual air volumes in stably stratified atmosphere
02 p0274 A69-11441

ATMOSPHERIC DENSITY

Meteor masses and atmospheric density calculation inaccuracy by use of effective stellar magnitudes of meteors

02 p0314 A69-11695

Mariner 4 ionospheric densities to deduce Martian atmospheric modes, discussing validity of using ionospheric properties to discriminate between models

02 p0320 A69-12114

Accelerometric measurement of atmospheric drag with satellite 1968-59B, obtaining upper atmosphere density profile at 130-160 km

02 p0245 A69-12728

Earth atmosphere air density and temperature profiles from drag acceleration measurements in falling sphere experiment

02 p0251 A69-12809

Synoptic density maps for postreentry altitudes derived from constant pressure charts and horizontal gradients

04 p0626 A69-14909

Electromagnetic phase measurement for determining integrated air density near earth surface

04 p0598 A69-14910

Neptune atmosphere height scale and density from photometric observation of star occultation

04 p0660 A69-15061

Delay between solar activity and density changes in upper atmosphere using Harris-Priester model

04 p0594 A69-15121

Atmospheric density variation measurements by density gages on Explorer 32 satellite confirm wave propagation in neutral thermosphere as free internal gravity waves

05 p0754 A69-16261

Midlatitude neutral thermosphere density and temperature measurements, noting effect of atomic oxygen adsorption by instruments

05 p0755 A69-16268

Neutral interstellar matter particle fluxes and densities for earth, noting effects on upper atmosphere gas densities

05 p0828 A69-16653

Atmospheric vertical density and pressure profiles determined from satellite measurements of light beam phase shift and refraction angle

05 p0760 A69-16694

Dynamic properties of upper atmosphere, discussing variations in temperature, density and composition [UN PAPER 68-05755]

06 p0917 A69-17042

Upper atmosphere semiannual density variations, using satellite drag analysis

06 p0918 A69-17380

Semiannual variations in exospheric density near 1100 km derived from Echo 2 orbit, noting phases during solar cycle

06 p0918 A69-17385

Rocket-borne Rayleigh scattering instrumentation to measure atmospheric density, discussing instrumentation and flight results

06 p0927 A69-17698

Temperature variability data for 120-km altitude from observations of grenade glow clouds, calculating molecular diffusion coefficients and atmospheric temperature and density

07 p1127 A69-19277

Upper atmosphere density variations and multiplicative factor necessary for adjustment of density variations of reference models

08 p1397 A69-20761

Upper atmospheric density relation to AE indices sum and solar radio flux during geomagnetic disturbances

09 p1488 A69-21657

Air density at 470 km from orbit of satellite 1966-118 A, confirming large semiannual variation

09 p1488 A69-21659

Gamma ray scattering gauge design optimum parameters to measure Mars atmospheric density

09 p1495 A69-21842

Atmospheric density profile from satellite measurements of light wave phase and refraction angles, discussing ionospheric, water vapor and diffraction effects on errors

09 p1490 A69-21862

Laser radar atmospheric applications, noting particulate matter mapping, backscatter density profiles and use of lidar

09 p1521 A69-22795

Atmospheric density analyzed on basis of photographic observations of meteors, comparing vertical profile with CIRA profile

10 p1688 A69-23936

Semiannual density variations in thermosphere and exosphere as function of mixopause height variations

12 p2064 A69-26012

Nightglow intensity variations at sunspot minimum from measurements in South West Africa, considering relationship to ionospheric vertical movements and density variations

12 p2066 A69-26133

Satellite 1968-5A orbit analyzed for atmospheric density at 140-180 km, noting semiannual variation

12 p2066 A69-26229

Autocorrelation and cross correlation analysis of rapid density variations in F region determined from satellite deceleration and geomagnetic data

12 p2069 A69-26436

Upper atmosphere density variations investigation using Eurobs system, correlating density to geomagnetic activity and 10.7 cm solar radio emission

12 p2069 A69-26437

Kinetic equation solved for radiation propagation in atmosphere, considering neutron density variations and spatial distribution

12 p2149 A69-26683

Lunar surface environmental factors including molecular gas behavior under weak gravity and low atmospheric density, radiation and temperature effects, meteorite bombardment, etc

13 p2352 A69-27904

Meteor masses and atmospheric density calculation inaccuracy by use of effective stellar magnitudes of meteors

13 p2355 A69-28726

Thomson scatter probes for diurnal variations of daytime atmospheric density at 100 km altitude

14 p2440 A69-29125

Worldwide observation of atmosphere with occultation satellites, correcting orbit perturbations to obtain air pressure

14 p2447 A69-29517

Nonlinear internal gravity waves in stratified atmosphere of unbounded inviscid incompressible fluid, noting wave amplitude inverse proportion to atmospheric density

14 p2441 A69-29574

Atmospheric density measurement above 50 km by aerodynamic and atmosphere excitation probes, emphasizing beta ray, bremsstrahlung and molecular fluorescence densitometers

15 p2615 A69-31284

Diurnal variations of wind velocity, temperature and density at high altitude measured by Skylark rockets

15 p2598 A69-31319

Atmospheric density and temperature variations between 200-600 km from Cosmos satellite data, noting solar activity effect

15 p2599 A69-31343

Air density at various heights determined from analysis of satellite low perigee orbits, discussing periodic density variations and correlation with daily geomagnetic index

15 p2599 A69-31348

Air densities from satellite obtained orbital data, comparing accuracy of values and methods of analysis

15 p2600 A69-31349

Upper atmospheric density effects on satellite orbits, discussing variations due to solar activity, day-night and semiannual changes and atmospheric rotation

15 p2600 A69-31350

Polar exosphere near solar maximum investigation by Explorer 19 and Explorer 24 drag satellites, considering density and atomic oxygen concentration measurements

15 p2600 A69-31351

Upper atmosphere structure and variations including density and composition in lower thermosphere, diurnal variations, variations with solar activity, etc

15 p2600 A69-31355

Wintertime short term density variability in upper atmosphere obtained from rocket measurements

15 p2601 A69-31374

Satellites orbits analysis for semiannual variation of air density in upper atmosphere

15 p2601 A69-31378

Longitudinal variations of density, temperature and pressure distributions in stratosphere and mesosphere based on rocket observations, emphasizing arctic and subarctic regions

15 p2602 A69-31379

Rocket and satellite measurements of density, temperature and composition in lower thermosphere, considering altitude dependence

15 p2602 A69-31383

Atmospheric density measurements by triaxial accelerometer system, ionization gauges and orbital decay of OV1-15 satellite

15 p2602 A69-31384

Low altitude atmospheric density satellite OV1-16 measurements, showing agreement between onboard accelerometer and orbital drag data

15 p2602 A69-31385

Atmospheric density determination based on long period variations of drag coefficients from satellite Proton 2, considering satellite orientation

15 p2602 A69-31392

Diurnal thermospheric density, temperature and wind variations due to direct solar EUV heat input and tidal wave from lower atmosphere

15 p2605 A69-31439

Atmospheric density dependence on solar and geomagnetic activity at low latitudes, discussing atmospheric expansion

15 p2605 A69-31441

Drag measuring requirements and comparison of accelerometer or drag-free satellite control systems usage for atmospheric density determination

16 p2788 A69-31722

Kinetic theory and gas-surface interactions for upper atmospheric density measurements by mass spectrometers, pressure gages and satellite drag, detailing adsorption effect

16 p2776 A69-32089

Atmospheric density at 130-160 km measured from satellite 1968-59B orbit, noting agreement with CIRA 1965

16 p2776 A69-32095

Atmospheric gas constituents number densities determined as function of altitude by correlating laser beam scattering and absorption data

16 p2781 A69-32387

Atmospheric optical density vertical distribution curves in near UV from spectrophotometer data of Echo type satellites entry into earth shadow

16 p2788 A69-32638

Atmospheric density semiannual variation in thermosphere base, suggesting origin at lower heights in mesosphere or stratosphere

17 p2958 A69-32863

Air density measurement at high altitudes by falling instrumented sphere ejected by missile in upper atmosphere

17 p2971 A69-32898

Clear air turbulence uninfluenced by mesoscale disturbances or terrain, discussing relationship between density profile curvature and heat and momentum transfer

17 p2998 A69-33733

Vertical structure concepts for air density, wind and sound velocity profiles in rocket climatology, discussing vertical relationship of wind shear statistics

17 p3000 A69-33794

Dynamic properties of upper atmosphere, discussing variations in temperature, density and composition

20 p3519 A69-36983

Explorer 32 atmospheric density measurements revealing neutral thermosphere latitudinal variations during geomagnetically undisturbed times

20 p3535 A69-38100

F region atmospheric density measurements obtained from aerodynamic drag on San Marco 2 satellite in equatorial orbit, comparing data with San Marco 1

21 p3704 A69-38369

Earth atmospheric density measurement by microwave radio occultation techniques, transmitting coherent radio signal to repeater spacecraft from master station

21 p3705 A69-38375

Flight vehicle motion in high density medium reacting with static, vortex and dynamic forces analyzed for optimal regime via Lagrange-Euler equation

21 p3768 A69-39824

Air density height distribution determined from satellite orbit decay analysis, noting semiannual density variations

22 p3935 A69-39971

Neutral exosphere model for nonrotating planet permitting barosphere uniform rotation at certain angular velocity, determining velocity distribution and density

22 p4023 A69-40524

Equatorial stratosphere and mesosphere wind, temperature and density data from rocket and balloon sounding, noting seasonal variations and possible stratosphere-ionosphere coupling

23 p4159 A69-42423

Leak detection techniques efficiency determined for airtight atmospheric air sampling devices used at low pressure and concentration

24 p4296 A69-42656

Air density determination using transit time method involving microwave phase measurements

24 p4313 A69-42898

- Clear air turbulence in upper atmosphere and in mountain waves, discussing density variations
24 p4343 A69-42913
- Atmospheric density above 158 km altitude measured near equator with cold cathode magnetron pressure gage on satellite OV1-15
24 p4310 A69-43179
- Lower ionosphere atmospheric density, temperature and pressure profiles diurnal variations from data of radio meteor echoes
24 p4311 A69-43504
- ATMOSPHERIC DIFFUSION**
- Atmospheric diffusion measurement based on analysis of thoron emitted continuously from point source, permitting study of diffusion in atmospheric boundary layer
01 p0144 A69-10043
- Dispersion relation of internal acoustic gravity wave motion in compressible nonviscous and nonheatconducting atmosphere
02 p0242 A69-11868
- Eddy diffusivity in planetary boundary layer determined by vertical velocity spectrum
03 p0460 A69-13338
- Geostrophic trajectories of horizontal diffusivity estimated in midlatitude troposphere and lower stratosphere
08 p1308 A69-20310
- F2 layer diffusion and sporadic E layer characteristics from equatorial ionosphere soundings on Zaria schooner
09 p1486 A69-21548
- Venusian upper atmosphere dissociation and ionization, considering photochemical and dynamic processes and molecular, eddy and ambipolar diffusions
13 p2344 A69-27643
- Diffusion of ozone distribution tracers in stratosphere, based on photochemistry in oxygen- only and oxygen-hydrogen atmospheres
13 p2294 A69-28492
- Light polarization diffusely reflected by earth atmosphere measured from balloon, using gain compensated photoelectric polarimeter
16 p2781 A69-32320
- F 2 layer diffusion and sporadic E layer characteristics from equatorial ionosphere soundings on Zaria schooner
16 p2784 A69-32543
- Trapped protons acceleration through bimodal diffusion in magnetosphere, noting spatial patterns and temporal behavior of proton and electron belts
16 p2851 A69-32618
- Vertical turbulent diffusion and altitude distribution of radioactivity from short lived radon decay products in atmosphere
20 p3533 A69-38076
- Pluto positions /1930-1965/ from photographic observations, ascribing declination errors to atmospheric dispersions
22 p4025 A69-40612
- Nitric acid vapor in atmosphere as function of altitude from spectrograph, predicting downward diffusion
23 p4155 A69-41634
- ATMOSPHERIC ELECTRICITY**
- NT AURORAL ELECTROJETS
NT EQUATORIAL ELECTROJET
NT IONOSPHERIC CURRENTS
- Soviet collection of papers on atmospheric electricity
04 p0593 A69-15101
- Laboratory atmospheric electrical conductivity meter, discussing structural elements
04 p0600 A69-15106
- Aircraft instrumentation for measuring aircraft electrostatic charge, atmospheric electric field intensity and currents of aircraft
04 p0549 A69-15107
- Potential gradient, small ion density and space charge density measurements for atmosphere on Atlantic Ocean during 1965
04 p0594 A69-15159
- Small scale filament structure of current systems in earth magnetosphere, noting coherence of magnetic disturbances in conjugate regions
05 p0753 A69-16049
- Air-earth current and conductivity measurements, noting greater conduction current at one mile altitude
05 p0758 A69-16419
- Solar flare influence on potential gradient and air-earth current properties at high mountain stations
05 p0759 A69-16634
- Fast Ba ion filament cloud injection into ionosphere using explosive shaped charge technique, noting application to ionospheric electric field measurement
09 p1539 A69-21752
- Air-earth current density variations with universal time, noting hemispherical dependence of storm activity effects
10 p1682 A69-23415
- Monograph on method and results of measurements of mobilities spectrum ion density and conductivity in upper troposphere and stratosphere
11 p1877 A69-24636
- Magnetospheric substorm as discharge process of associated electric current system, discussing relaxation processes, explosive release of energy, etc
11 p1879 A69-25249
- Atmospheric electricity and space charges ionization and equilibrium in earth atmosphere, discussing electric fields in lower atmosphere, ionosphere and magnetosphere
12 p2076 A69-27105
- Electric field profile and turbulence ratio relationship in free atmosphere as function of vertical current density, conductivity, potential gradient and charge density
13 p2295 A69-28523
- Point discharge measuring based on pulsed nature of discharge current, outlining field experiment results
15 p2610 A69-30698
- Physical process providing EMF for maintaining electrical structure of stratosphere and mesosphere shown to center in lower ionospheric thermally driven tidal motions
18 p3130 A69-35103
- Magnetic field variation rates characteristics during magnetic storms investigated for longitudinal dependence and influence of equatorial electric current
20 p3520 A69-37037
- Small scale filament structure of current systems in earth magnetosphere, noting coherence of magnetic disturbances in conjugate regions
20 p3532 A69-37958
- Electrostatic charge formations in atmosphere, discussing atmospheric electricity during precipitation and thunderstorms
21 p3758 A69-38785
- Convective cells and periodic variations in vertical gradient of electroatmospheric field
22 p3934 A69-39939
- Ball lightning as positively charged region of electroluminescent air maintained in dynamic structure and molecular composition by atmospheric electric field
22 p3940 A69-40536
- ATMOSPHERIC EMISSION**
U AIRGLOW
- ATMOSPHERIC ENTRY**
- NT HYPERBOLIC REENTRY
NT HYPERSONIC REENTRY
NT MANNED REENTRY
NT REENTRY
NT SPACECRAFT REENTRY
- Sustained high deceleration load effects on quartz crystals during atmospheric entry studied by centrifuge test program on oscillator circuits
01 p0042 A69-10417
- Tungusk meteorite preceding and succeeding atmospheric events, explosion and origin
01 p0159 A69-11378
- Direct planetary atmosphere measurement by vehicles entering atmosphere, using Mars and Venus model atmospheres for accuracy expectation
02 p0311 A69-11472
- Active control system augmentation of inherent aerodynamic damping assuring acceptable limits on oscillatory rotational motion during hypersonic Martian atmospheric entry
02 p0333 A69-11742
- Mars planetary entry and landing model tests, demonstrating technological feasibility of mission
02 p0333 A69-11746
- Ablative heat shield materials for Mars and Venus atmospheric entries
02 p0333 A69-11750
- Radiation heating characteristics of shock layer gases surrounding Venus entry vehicle, noting domination of carbon monoxide band and UV spectrum
02 p0351 A69-11751
- Downstream radiation flux distribution calculated for blunt entry bodies, considering self absorption effects
02 p0354 A69-12547
- Two dimensional representation of Venus entry probe target data for determining probe capability to provide real time data transmission to earth
02 p0331 A69-12820
- Mission requirements influence on aerothermodynamic environment for vehicle entering Venus atmosphere, considering different entry modes
02 p0332 A69-12823
- Entry phase flight data of Missions AS-202, Apollo 4 and 6 compared with wind tunnel aerodynamics data
03 p0519 A69-13556
- Aerothermal-structural reentry safety evaluation for SNAP-27 radioisotope Graphite Lunar Module Fuel Cask at orbital and superorbital velocities
03 p0465 A69-13561
- Blunt and conical body optimum heat shield shapes for Jupiter atmospheric entry, noting shallow flight path
03 p0520 A69-13565
- Aeroshell structural development for Mars flyby and entry landing mission compatible with Atlas/Centaur launch vehicle
03 p0521 A69-13667
- Entry and terminal deceleration systems for unmanned Martian landers, discussing parachute landing and lifting entry vehicles
03 p0521 A69-13670
- Design of interface between Mariner Mars spacecraft and Mars planetary entry/landing capsule
03 p0521 A69-13671
- Atmospheric gas composition effects on shock layer radiative heat transfer and heat shield response in Venus entry simulated by earth reentry
03 p0412 A69-13672
- Entry corridor thermal entry limits for Apollo spacecraft defined for design of thermal protection system
03 p0521 A69-13673
- Monograph on radiation gas dynamics, thermal radiation, applied spectroscopy and ablation and applications in high speed atmospheric entry
04 p0685 A69-14597
- Correlations of stagnation point radiative heat transfer for earth reentry, noting use of nongray absorption coefficient models
04 p0685 A69-14736
- Structural design options for decelerative aeroshell configurations for atmospheric entry on unmanned planetary explorations
04 p0683 A69-15507
- Spacecraft trajectory during atmospheric reentry determined from projections of longitudinal acceleration onto coordinate axes connected with spacecraft
06 p1014 A69-17581
- Thermal radiative reflectance characteristics of low density charring ablators subjected to planetary entry environment simulation
06 p0947 A69-18148
- Atmospheric entry testing in terms of velocity-altitude duplication, suggesting multistage rocket propelled aeroballistic range type testing
06 p0907 A69-18189
- Three dimensional atmospheric entry trajectories equations for satellite with aerodynamic lift, examining aerodynamic factors and bank angle effects
07 p1230 A69-19608
- Coordination technique for pressure, density and temperature measurements by probes during parachute reentry into planetary atmospheres, taking into account reentry dynamics
09 p1609 A69-21775
- Matched asymptotic expansions method applied to problem of hypervelocity atmospheric entry, noting solution division into outer Keplerian region and inner expansion region
09 p1430 A69-21964
- Aerothermoelasticity problems for Mars entry vehicles, discussing deceleration loads, separated hot gas flow, shield thermal gradients and oscillatory body motion
09 p1610 A69-21991
- Book on reentry and planetary entry physics and technology covering entry dynamics, thermodynamics, radiation, ablation and heat transfer
11 p1967 A69-25573
- Reentry and planetary entry physics and technology, II, Advanced concepts, experiments, guidance-control and technology
11 p1967 A69-25718
- Configuration, trajectory planning, instrumentation, calorimetry and aerodynamic heating for planetary atmosphere entry
11 p1968 A69-25719

Lifting entry concepts for return from earth orbit, discussing deceleration, heating and heat protection
11 p1968 A69-25720

Environmental problems of entry vehicle returning from lunar or planetary mission, discussing heat protection system efficiency
11 p1968 A69-25721

Venus and Mars atmospheric braking entry and associated equipment, discussing potential cost savings
11 p1968 A69-25722

Entry propulsion and lower systems technology for planetary entry and atmospheric reentry vehicles
11 p1945 A69-25723

Guidance and control concepts and hardware for atmospheric entry of Mercury, Gemini and Apollo spacecraft
11 p1914 A69-25724

Program definition and government-industry relationships in entry research and development program management
11 p2005 A69-25726

Stony meteoric particles size and velocity during passage through atmosphere
12 p2157 A69-26341

Apollo spacecraft command module aerodynamic characteristics during entry compared with wind tunnel test predictions
[AIAA PAPER 68-1008] 12 p2012 A69-26789

Spacecraft longitudinal control during reentry of lunar orbiter into atmosphere, analyzing final range prediction, trajectory tracking and accelerometers performance
13 p2355 A69-27681

Spacecraft range control algorithm during reentry at parabolic velocity into atmosphere with varying parameter distributions
13 p2355 A69-27682

Optimal control algorithm for spacecraft descent in atmosphere based on nominal trajectory and acceleration measurements
13 p2355 A69-27683

Spacecraft sterilization by destructive heating with thermite or high velocity entry friction before entering planet atmosphere
15 p2560 A69-31472

Convective plus radiative shock tube model stagnation point heating rate measurements for planetary entry heating rate in air and Venus gas
[AIAA PAPER 69-635] 17 p2890 A69-33272

Shock layer properties, radiative and convective heat transfer about two hypersonic blunt bodies at zero angle of attack in assumed Martian atmosphere
[AIAA PAPER 69-634] 17 p2891 A69-33281

Collection of papers on thermal design principles of spacecraft and entry bodies
18 p3227 A69-34372

Maximum trajectory for glider entering earth atmosphere at supercircular velocity, subject to maximum altitude constraint
19 p3399 A69-35667

Mars autonomous entry navigation, discussing flight path angle control with onboard sensors using realistic sun, Canopus and planet line of sight tracker accuracies
19 p3368 A69-35790

Approach navigation accuracy for planetary atmosphere braking to orbit about Mars and Venus
[AAS PAPER 68-122] 19 p3402 A69-35937

Drop test method to obtain subsonic terminal velocity and base pressure data for planetary entry probe configurations
19 p3238 A69-35959

Environment effect on scientific and telecommunication equipment mounted on exploratory probe during Venus atmosphere entry for acceleration loading in design
19 p3431 A69-36037

Saint-Severin amphoteric geometrically reconstructed from fragments in form prior to atmospheric breakup, noting agreement with track densities of iron ions
19 p3416 A69-36128

Shock histories of hexahedrites and Ga-Ge group III octahedrites based on metallographic and X ray diffraction analysis, noting meteorites shocked preterrestrially
19 p3418 A69-36136

Distance of spacecraft descending on parachute through planetary atmosphere measured from center of planetary mass using onboard instrument data
19 p3432 A69-36633

Adaptive control for Mars entry based on sensitivity analysis
[AIAA PAPER 68-8355] 20 p3573 A69-37193

Atmospheric entry-capsule dynamics, considering angle of attack motion under gravity forces influence and aerodynamic normal force stability relations
20 p3617 A69-37197

Soviet book on shock waves propagated by meteorite intrusion into earth atmosphere, covering interaction with earth surface, Tungusk meteorite, etc
20 p3613 A69-38205

Planar tumbling in atmospheric entry, describing arrest by approximating Painleve equation
21 p3819 A69-39033

Reentry Vehicle Altitude-Velocity Sensor for continuously measuring hypersonic vehicles free stream density and velocity in atmosphere at low angle of attack
[AIAA PAPER 69-866] 21 p3725 A69-39392

Spacecraft descent trajectory optimization during atmospheric reentry, proposing algorithm for continuous trajectory determination
21 p3766 A69-39647

Spacecraft atmospheric entry descent trajectory optimization by stochastic procedure, requiring onboard digital computer to realize optimal algorithms
21 p3767 A69-39648

Aerodynamic deceleration systems for space missions, considering deployment of subsonic parachute and inflatable configuration following atmospheric entry
[AIAA PAPER 68-1081] 22 p4036 A69-40542

Aerothermal-structural reentry safety evaluation for SNAP-27 radioisotope Graphite Lunar Module Fuel Cask at orbital and superorbital velocities
[AIAA PAPER 68-1166] 22 p3979 A69-40551

Atmospheric gas composition effects on shock layer radiative heat transfer and heat shield response in Venus entry simulated by earth reentry
[AIAA PAPER 68-1148] 24 p4394 A69-43248

ATMOSPHERIC ENTRY SIMULATION

Upgrading wave superheater for evaluation of reentry materials
01 p0054 A69-10917

Ground simulation of reentry observables with ablation, studying ablation products interaction with flow-field of wave superheater hypersonic tunnel
02 p0229 A69-12502

Planetary atmosphere determination error analysis using Kalman filter, noting results of simulated Martian atmosphere entry
02 p0331 A69-12806

Atmospheric gas composition effects on shock layer radiative heat transfer and heat shield response in Venus entry simulated by earth reentry
[AIAA PAPER 68-1148] 03 p0412 A69-13672

Reentry plasma sheath simulation in wind tunnel by injection of nitrogen plasma from model vehicle nose
03 p0412 A69-13679

Closed system toroidal electrogasdynamic facility proposed for reentry simulation, discussing velocity generation
04 p0585 A69-15323

Shock tube measurements of radiation from simulated Jupiter atmosphere related to thermodynamic conditions encountered by entry probe
[AIAA PAPER 69-184] 06 p0908 A69-18207

Aerodynamic measurements on Apollo CM model at hypersonic flow simulating earth orbital reentry trajectory
12 p2012 A69-26800

Hypervelocity reentry simulation problems for slender and blunt bodies, defining significant parameters
15 p2681 A69-30376

Martian entry test facility for real size entry systems, discussing design, fabrication and operation
15 p2587 A69-30390

Thermal control of Mars entry capsule with fiberglass honeycomb sandwich shell analyzed with and without aft thermal curtain, emphasizing cruise-flight phase
[AIAA PAPER 68-1082] 19 p3429 A69-35949

Atmospheric gas composition effects on shock layer radiative heat transfer and heat shield response in Venus entry simulated by earth reentry
[AIAA PAPER 68-1148] 24 p4394 A69-43248

Vector matrix second order sensitivity equation application to Mars entry guidance, performing numerical simulation of second order sensitivity guidance and tabulating results
24 p4388 A69-43690

Image intensifier coupling to electron scanning image-converter to increase time-resolving spectrograph sensitivity in simulated reentry studies
24 p4317 A69-43759

ATMOSPHERIC HEAT BUDGET

Near mesopause atmospheric layer energy balance, noting atomic oxygen diffusion role in redistributing absorbed solar energy among atmospheric layers
03 p0422 A69-13408

Sensible and latent heat meridional transport associated with standing eddies computed from climatic mean data
04 p0627 A69-15085

Carbon dioxide absorption and emission in mesosphere, discussing vibrational relaxation time and radiative heating rate
08 p1308 A69-20308

IR radiative temperature changes as function of latitude, season and height in region 30-110 km
12 p2064 A69-26008

Atmospheric energy budget of latent and sensible heat and potential energy between equator and 60 degree N
12 p2066 A69-26132

Atmospheric heat exchange and circulation simulated by rotating containers, reproducing temperature field and dynamic structure above large area
14 p2478 A69-29840

Atmospheric radiative balance measurement on board Cosmos 149, describing design and operation of device
15 p2597 A69-30652

Adiabatic and diabatic processes contributions to vertical atmospheric motions profile and IR cooling components comparison
17 p2962 A69-33689

Earth albedo in lower latitudes measured by satellites and surface stations, comparing solar energy absorption by oceans and atmosphere
20 p3591 A69-38058

ATMOSPHERIC HEATING

Upper atmosphere oxygen emission and heating during geomagnetic disturbances
02 p0235 A69-11421

Vertical wind velocity structure and turbulent heat flux temperature measurements over steppe and sea, noting underlying surface influence
03 p0458 A69-13270

Atmospheric rotation speed dependence on specific heat, thermal conductivity, air absorption coefficient and lower boundary pressure, discussing diurnal variation of thermosphere
[AFRL-69-0363] 04 p0649 A69-15130

Rocket and radiosondes data from measurements over Northern Hemisphere used to study stratospheric and mesospheric circulation during three midwinter periods
05 p0753 A69-15800

Atmospheric heat sources and heat sinks distribution based on Cosmos satellite data
06 p0949 A69-17048

Response of stably stratified atmosphere to differential heating across coastlines
07 p1126 A69-19038

Midwinter warmings in upper stratosphere for differences between various stratospheric and mesospheric levels, noting need for additional upper air data
08 p1345 A69-20134

Magnetospheric plasma heating by magnetosheath generated electromagnetic waves
11 p1950 A69-25149

Upper atmosphere response to time dependent heating based on approximate analytic solutions of heat conduction equation
11 p1878 A69-25151

Empirical determination of heating efficiency of extreme solar UV radiation interacting with carbon dioxide atmosphere of Mars and Venus
12 p2155 A69-26019

Solar chromosphere and corona heat intensity above 1000 km attributed to tongues of turbulence, considering convective zone exciting MHD waves mechanism
13 p2337 A69-27549

Vertical wind velocity structure and turbulent heat flux temperature measurements over steppe and sea, noting underlying surface influence
14 p2471 A69-28778

Gravity waves in thermospheric heating during magnetic storm, discussing electron density and temperature and ion velocity variations
15 p2605 A69-31435

Rocket and radiosondes data from measurements over Northern Hemisphere used to study stratospheric and mesospheric circulation during three midwinter periods
17 p2962 A69-33779

Steady state solution of quasi-geostrophic perturbation equations for atmospheric forced response to parameterized heating as global monsoon theory
19 p3362 A69-36405

Partial differential equation representing influence of radiative and turbulent transfers of atmospheric heat, based on absorption coefficients for terrestrial radiation
19 p3363 A69-36498

Ionospheric electron density and collision frequency profiles examined for changes during December 1967 to January 1968 stratospheric warming
21 p3714 A69-38556

Upper stratosphere warming and associated structure of mesosphere from rocket sounding, discussing high winds related to pressure gradient, upward vertical motion, etc
22 p3977 A69-39928

Chromospheric heating above sunspots by analyzing MHD wave generation and propagation in sunspots and solar atmosphere
22 p4010 A69-39992

Heat conduction equation applied to thermospheric heating in auroral zone to account for local temperature and density variations, introducing horizontal transport mechanisms
22 p3941 A69-40717

Ionospheric absorption relationship to major stratospheric sudden warmings, considering regional coincidence and interaction mechanism
24 p4306 A69-42680

ATMOSPHERIC IMPURITIES **U AIR POLLUTION**

ATMOSPHERIC IONIZATION **NT AURORAL IONIZATION**

D region composition at and shortly after sunrise, noting negative ion factor changes, ionization source and quasi-equilibrium conditions
01 p0066 A69-10597

Ionization, neutralization and charge exchange processes in ionosphere, detailing dependence of photodissociation and collision detachment of negative ions
01 p0066 A69-10598

Ionospheric negative ion coefficient variations, analyzing formation microprocesses
01 p0066 A69-10599

Nuclear radiation dose rate and atmospheric ionization from radioactive fallout and natural sources, discussing fallout effect on population
01 p0145 A69-10982

Martian upper atmospheric ionization process analogous to cometary material ionization in solar wind
02 p0320 A69-12117

Nocturnal electron concentrations and temperature at Manitoba measured by rocket-borne Langmuir probe, compared with F1 region
03 p0502 A69-14008

F2 layer formation and fast neutral particles ionization source due to charge exchange between solar wind protons and moving interstellar hydrogen
04 p0592 A69-15009

Photoelectric absorption studies on molecular nitrogen indicate predissociation contributing to atomic nitrogen production in upper atmosphere
05 p0756 A69-16282

Rocket measured profiles of electron density and ion abundances in E region, discussing role of minor atmospheric constituents
05 p0757 A69-16408

Electron formation in lower ionosphere due to cosmic ray-atmosphere interaction, analyzing ionization of subrelativistic and relativistic solar and galactic cosmic rays
06 p0920 A69-17726

Vertically moving ionized formations relation to solar and magnetic activity
06 p0920 A69-17730

Formation dynamics of thin sporadic layers of E region, determining maximum ionization and electron concentration and electron-neutral atoms collision frequency
06 p0922 A69-17751

Mars lower ionosphere ionization from spectroscopic and Mariner 4 occultation data, discussing various ionization sources
07 p1213 A69-18607

Computational techniques for determining magnetic field geometry for backscatter reflections
07 p1125 A69-18850

Ion-molecule reactions constants studied directly in ionosphere, using air injection from geophysical probe and airborne RF mass spectrometer
08 p1311 A69-21159

Maximum ionization altitude, thickness, electron density profile and temperature mean variations in summer of IGY and IQSY at Moscow station
09 p1486 A69-21544

Aeronomics parameters effect on ionospheric effect of SC magnetic storm, calculating maximum ionization levels, F layer ionization and vertical ionization profile parameters
09 p1486 A69-21546

Solar quiet day variations studied by annual amplitude dependence on number of sunspots, considering E layer ionization
09 p1575 A69-21550

Corpuscular radiation contributions to D layer ionization determined from intensity measurements
09 p1577 A69-21770

Nonequilibrium three dimensional boundary layer over slightly yawed cone analyzed for air dissociation and ionization parameters, noting binary scaling application
09 p1430 A69-21965

Space electric fields research by artificial clouds of vaporized barium launched by rockets, noting neutral atmosphere and ionospheric results
09 p1492 A69-22800

Ionization in lower ionosphere over polar cap under solar corpuscular fluxes measured by radio wave absorption
10 p1759 A69-22838

Thomson scatter bistatic sounder data on ionization transports in F region, describing diurnal variations by hourly values of velocities
10 p1685 A69-23830

Nonlinear charge exchange and dissociative recombination effects on night F region decay compared with linear theory
10 p1685 A69-23832

Nitrogen dioxide molecular ions formation in air, discussing absence at lower pressures and early afterglow dominance in air ionized and dissociated by microwave pulses
11 p1879 A69-25158

Overlay technique for analysis of F region transition into F1 and F2, noting ionization and recombination
12 p2065 A69-26102

Production source of ionization due to low energy electron influx and inclusion in ionospheric continuity equation, noting quiet ionosphere
12 p2066 A69-26112

Mean annual characteristics of F2 layer ionization state, using results of worldwide observation station system
12 p2071 A69-26701

Atmospheric electricity and space charges ionization and equilibrium in earth atmosphere, discussing electric fields in lower atmosphere, ionosphere and magnetosphere
12 p2076 A69-27105

Venusian upper atmosphere dissociation and ionization, considering photochemical and dynamic processes and molecular, eddy and ambipolar diffusions
13 p2344 A69-27643

Neutral gas ionization in lower ionosphere, discussing physicochemical reactions, recombination coefficients, equilibrium processes, etc
13 p2255 A69-28540

Galactic and relativistic and subrelativistic solar cosmic rays effect on electron production rate in ionosphere, detailing low energy SCR-atmosphere interactions
13 p2333 A69-28544

Minimum height of monochromatic radiation ionization in atmosphere assuming spherical earth for space science applications
13 p2256 A69-28653

High latitude ionization spikes observed by POGO spacecraft, noting frequency correlation with magnetic disturbances and development by high energy electron injections
14 p2511 A69-28950

Zonal drift influence on morning ionization anomaly in F region, noting shifts to West with increasing height and electron production rate
14 p2442 A69-29732

Interstellar particle penetration into solar system, discussing impact ionization of earth ionosphere by interstellar neutral hydrogen and helium
15 p2699 A69-31390

Shock wave propagation in isothermal atmosphere, discussing radiation and ionization effects on thermal jump
16 p2858 A69-32207

Meteoritic elements ionization and loss mechanisms in E region, discussing roles of atomic oxygen and metal ions chemical reactions
16 p2780 A69-32313

Maximum ionization altitude, thickness, electron density profile and temperature mean variations in summer of IGY and IQSY at Moscow station
16 p2783 A69-32539

Aeronomics parameter effect on ionospheric effect of SC magnetic storm, calculating maximum ionization levels, F layer ionization and vertical ionization profile parameters
16 p2783 A69-32541

Solar quiet day variations studied by annual amplitude dependence on number of sunspots, considering E layer ionization
16 p2851 A69-32545

Atmospheric aerosols influence on electric field in ground layer to account for ionization, demonstrating number and turbulent exchange coefficient relationship
17 p2996 A69-33036

Nonequilibrium multicomponent ionization calculations for stagnation merged shock layer of hypersonic blunt body by successive accelerated replacement [AIAA PAPER 69-655]
17 p2892 A69-33469

Effective rate coefficients of ion-molecular processes, dissipative recombination and ion production in F2 layer at midlatitudes
17 p2966 A69-33979

F1 layer observation at 80-87 degree solar zenith angles explained by additional ionospheric maximum development in presence of temperature gradients
17 p2967 A69-33985

Reflection and ionization heights diurnal variations in F region, obtaining data for sporadic E formation
17 p2968 A69-33995

Radio meteor ionization profiles, discussing electron line density measurements by backscatter system
19 p3283 A69-35992

Meteor radio electronics principles, methods and equipment, discussing ionized meteor trail formation, radar tracking and utilization of trails for communications
19 p3277 A69-36591

Ion production rates vertical distribution and temporal changes at midlatitudes during solar activity minimum and maximum above F2 layer
20 p3525 A69-37656

Corpuscular radiation indicated as ionization source in lower ionosphere from rocket sounding data, noting role in D region formation
21 p3787 A69-38352

Atmospheric ionization rates due to attenuation of 1-100 A nonflare solar X rays, giving solar fluxes and absorption cross sections
22 p4004 A69-40447

Air afterglows electron loss mechanisms, measuring electron densities decay rates after microwave ionization
22 p4006 A69-40527

Atmospheric small gaseous ions nature and properties, discussing solid elastic and composite interaction, complex, cluster, intermediate and Langevin ions, etc
22 p3940 A69-40538

Air ionization and beta and gamma dose rates measurements for natural radiation from cosmic rays compared to nuclear weapons tests fallout, considering biological effects
22 p4007 A69-40915

Blunt body stagnation point air ionization by chemical nonequilibrium thin viscous shock layer analysis, predicting electron density
23 p4060 A69-41917

Ionization irregularities in equatorial E region observed in various scale sized by rocket-borne Langmuir and plasma-noise probes
23 p4160 A69-42430

Ionized meteor trails reflection zone altitudes determination by interferometric measurements of phase differences
24 p4311 A69-43508

ATMOSPHERIC MODELS **NT REFERENCE ATMOSPHERES**

Weather forecasting, discussing atmospheric models and computer operations for long range forecasting based on hydrodynamic theory and statistics
01 p0108 A69-10398

Atmospheric model development relating temperature, density, moisture and energy measurements from satellite observations for long term weather forecasting [UN PAPER 68-95397]
01 p0108 A69-10463

Cirrus IR radiance model for explaining measured cloud radiance characteristics, considering thermal emission and irradiance scattering
01 p0111 A69-10848

Hydrogen line profiles in various early stars compared with profiles predicted from model atmosphere calculations for rotating and nonrotating early stars
01 p0154 A69-10876

Microturbulent velocity parameter correlation to iron-to-hydrogen ratio for G dwarfs, using model atmosphere abundance analyses
01 p0154 A69-10877

Low altitude atmospheric turbulence model evaluated from analysis of A-6A aircraft gust load data, comparing model estimates with aircraft response characteristics
01 p0056 A69-11053

Cross field plasma instability resulting in charge density irregularities shown to meet requirements for ionospheric irregularities model
01 p0073 A69-11178

Six level model for numerical geopotential forecast allowing for quasi-static and quasi-geostrophic approximations
02 p0273 A69-11434

Boundary layer effect on large scale atmospheric processes from analyzing two layer free atmosphere model, plotting weather forecast charts
02 p0273 A69-11435

Axisymmetric model of unsteady convective cumulus cloud produced by time dependent heat source in unsteady atmosphere
02 p0274 A69-11436

Thermodynamics in homogeneous steady state fog over rough terrain representing absolutely absorbing surface
02 p0274 A69-11442

Direct planetary atmosphere measurement by vehicles entering atmosphere, using Mars and Venus model atmospheres for accuracy expectation
[AAS PAPER 68-187] 02 p0311 A69-11472

Perturbed geomagnetic field structure during magnetic storm recovery phase calculated by magnetosphere magnetic field model, accounting for various external field sources
02 p0237 A69-11666

Stratospheric dust effect on twilight sky color, evaluating scattered radiation chromaticity for atmospheric models containing ozone
02 p0243 A69-12014

Romanova method for solution of scalar equation of radiative transfer in plane parallel atmosphere
02 p0319 A69-12106

Model spectra applied to carbon dioxide bands in Venus spectrophotometric measurements
02 p0319 A69-12107

Venus microwave phase effect analyzed assuming dry massive Venus atmospheric model, discussing heat transfer processes
02 p0319 A69-12108

Venus exospheric temperature for various composition models, discussing carbon dioxide concentration effects
02 p0319 A69-12109

Martian upper atmosphere and ionosphere, considering Mariner 4 occultation results and various atmospheric models
02 p0320 A69-12112

Mariner 4 ionospheric densities to deduce Martian atmospheric modes, discussing validity of using ionospheric properties to discriminate between models
02 p0320 A69-12114

Radio amplitude and phase measurements during Mariner-Mars encounter, providing evidence for Martian atmospheric models
02 p0320 A69-12116

Global cloud models construction techniques, discussing vertically pointing radars, airborne panoramic cameras, radiometry, meteorological satellites and light detection and ranging
02 p0275 A69-12381

Thermal tidal oscillations in earth atmosphere using circulation model attributed to solar radiation absorption by atmospheric vapor and ozone
02 p0457 A69-13030

Planetary long waves behavior in atmospheric models, explaining unsteady components by means of filtered equations
03 p0459 A69-13274

ELF radio wave propagation characteristics using two layered ionospheric model, noting deeper penetration than VLF
03 p0421 A69-13326

Mean meridional circulation models in tropics based on vorticity equation
03 p0460 A69-13334

Long period variations in zonally symmetric circulations of tropical stratosphere, using zonally averaged momentum, continuity and heat and heat energy equations for numerical model
03 p0461 A69-13681

Photosphere models comparison based on theoretical rotational temperatures of various diatomic molecular free radicals, using faint lines method
03 p0512 A69-13694

Hydrodynamic model of atmospheric circulation in equatorial region, using group invariant method
03 p0462 A69-13931

Nonstationary model of mesoscale atmospheric vortex with vertical axis based on atmospheric thermohydrodynamics
03 p0462 A69-13932

Mean meridional pressure profiles and atmospheric mass readjustment time dependence for initially at rest atmosphere with mean baroclinity, using frozen gradient model
04 p0627 A69-15086

Bearing deviation in model HF transionospheric propagation with three dimensional electron density variation and no magnetic field
04 p0559 A69-15209

Digital computers for global atmospheric circulation, describing circulation models and computer produced color movies utilization
04 p0628 A69-15363

Antarctic spread F irregularities, examining models and performing ray tracing
04 p0595 A69-15439

Venus and Mars atmosphere structure, comparing Venus atmosphere model with Mariner 5 observations
05 p0824 A69-16248

Ionospheric models for studying nature of difference in relationships between HF radio waves Doppler shifts and changing ionosphere
05 p0755 A69-16269

Inhomogeneous dielectric filling to simulate curvature in model earth-ionosphere waveguide
05 p0732 A69-16346

Multiple light scattering in spherical planetary atmosphere based on geometrical model, calculating twilight glow brightness
05 p0828 A69-16632

Multilevel numerical weather forecast scheme with stable initial data
05 p0789 A69-16636

Model for Evershed effect postulating unipolar symmetrical sunspot surrounded by magnetic knots of opposite polarity
06 p0999 A69-16977

Terminal velocities of dust particles for two Venus atmospheric models from Mariner 5 and Venera 4 data, obtaining vertical wind velocity requirements
06 p1001 A69-17172

Mercury atmospheric models for preliminary environmental criteria to be used in spacecraft design and engineering trade-off studies
[AIAA PAPER 69-54] 06 p1010 A69-18042

Upper atmospheric models, considering satellite orbital and solar panel torques, prediction, atmospheric density and composition measurements, etc
[AIAA PAPER 69-50] 06 p1011 A69-18085

Venusian atmosphere model developed from satellite and earth based radar data for environmental criteria in spacecraft design and mission planning
[AIAA PAPER 69-51] 06 p1011 A69-18096

Double scattering effects of sky radiation and outgoing radiation balance in disturbed atmosphere, using homogeneous plane parallel atmospheric model
07 p1175 A69-18270

Terrestrial and Cytherean atmospheres evolution based on gray atmosphere model, surface energy budget and partition of water and carbon dioxide
07 p1213 A69-18608

Radiative transfer problems in inhomogeneous anisotropically scattering plane parallel planetary atmospheres with internal source distributions solved by recursive method
07 p1213 A69-18610

ELF radio waves reflection coefficients calculated from two layer ionospheric model, noting ion collision frequency effect in Schumann resonance frequency band
07 p1124 A69-18820

Dynamics of large scale processes in atmosphere extended to two week predictions using nine level hemispheric moist general circulation model
07 p1175 A69-18895

Long wave radiative water vapor cooling in troposphere determined by numerical prediction model, including vertical distribution of cloud and moisture effects
07 p1175 A69-18896

Similarity of mean flow patterns of natural local wind to model wind in wind tunnel
07 p1176 A69-18964

Large scale tropical eddies using two layer dry atmospheric model containing nongeostrophic effects and parametrized dissipation
07 p1176 A69-19035

Wave motion onset and waveforms in rotating annulus with sinusoidally varying temperature differences
07 p1126 A69-19039

Mathematical frame for cloud models, discussing condensation, collection and advection processes and freezing and electrical effects
07 p1176 A69-19041

Solar photosphere model with two stream columnar representation of granulation for predicting continuous radiation field
07 p1217 A69-19238

Quiescent solar prominences horizontal oscillations, explaining periods, damping times and prominence shape changes by model of freely oscillating prominence in corona
07 p1205 A69-19245

Truncation error reducing scheme for balanced forecast models
07 p1176 A69-19629

Clear atmosphere model based on path of sight equilibrium radiance and nonabsorption permitting integration of equation of transfer
07 p1130 A69-19643

Collisional processes relevant to daytime and nighttime models of upper atmosphere neutral density and temperature
07 p1130 A69-19654

Diffuse reflection and transmission of parallel rays by homogeneous two layer slab, solving simultaneous integral equations governing auxiliary functions
08 p1350 A69-19799

Emission line formation in homogeneous chromosphere for noncoherent scattering, considering various chromosphere models
08 p1381 A69-19800

Linearized model for vertical propagation of Rossby waves through atmosphere with Newtonian cooling, discussing atmospheric wind effects
08 p1344 A69-19812

Synthesis of oblique incidence ionograms for quasi-linear ionospheric model with spherical earth-ionosphere geometry neglecting geomagnetic field
08 p1274 A69-20044

Collisional excitation and ionization rates comparison in statistical equilibrium model atmosphere calculations
08 p1385 A69-20065

Preliminary model atmospheres for cepheid variable eta Aquilae, discussing mass loss processes
08 p1386 A69-20089

Weather forecasting using statistical technique and Subsynchronous Advection Model of Weather Bureau, discussing mathematical background for various early morning predictions
08 p1345 A69-20298

Two level quasi-geostrophic model to probe atmospheric general circulation, noting functional dependence of zonal momentum meridional flux
08 p1346 A69-20314

Atmospheric haze effect on Umkehr measurements, considering computation from direct sounding of vertical ozone distribution and from model atmospheres
08 p1308 A69-20316

Upper atmosphere density variations and multiplicative factor necessary for adjustment of density variations of reference models
08 p1397 A69-20761

Chemical composition of stellar atmospheres by model atmospheres, considering atomic transition, line broadening and thermodynamic equilibrium
08 p1402 A69-20904

Aurigae star HD 35620 with respect to epsilon Virginis using model atmosphere and high dispersion spectra
08 p1403 A69-20913

Nighttime Venus ionosphere models compared with Mariner 5 observations, discussing implications with regard to He and H abundance consequences and nightglow
09 p1594 A69-21695

Model of auroral backscatter from E region including ionospheric refraction, comparing computations to

experimental HF auroral backscatter data for aspect sensitivity

09 p1488 A69-21700

Density inversion in convective zone of stellar photospheres occurring in Eridani atmospheric model under certain conditions

09 p1595 A69-21843

Atmospheric models for metal deficient stars of K and G spectral type, studying reduced metal abundance effect on atmospheric structure

09 p1596 A69-22055

Large scale heat sources influence on formation and dynamics of ultralong waves in atmosphere, using linear time dependent quasi-geostrophic model

09 p1491 A69-22164

Subdwarf HD 25329 studied with model atmosphere approach, using H alpha, Na I and Mg I profiles for effective temperature

09 p1600 A69-22199

Optically thick planetary atmospheres in radiative-convective equilibrium investigated by models with adiabatic temperature gradient in troposphere, discussing gray stratospheric solution

09 p1600 A69-22200

Dipole magnetosphere model with cylindrical or spherical forbidden band for studying plasma motion in quasi-hydrodynamic approximation

10 p1769 A69-23901

Conductivity and permittivity for ion and electron resonance region of ionospheric plasma model calculated in quasi-hydrodynamic approximation

10 p1686 A69-23908

Radio astronomical observations of Venus atmosphere interpreted noting agreement with model based on Venera 4 data

10 p1791 A69-24202

Nongray models of atmospheres of early stars, giving Avrett-Krook method of correcting temperature distribution

11 p1954 A69-24361

Growth rates for convective disturbances propagation in atmosphere with linear entropy variation, noting WKB approximation

11 p1957 A69-24422

Model for radiative transfer in atmosphere-ocean system by Monte Carlo method, considering Rayleigh and Mie scattering

11 p1877 A69-24851

Model for shock propagation from point energy source into cold atmosphere with exponential density variation

11 p1871 A69-25123

D/H ratio in Venus exosphere, discussing isotopic fractionation mechanisms and Lyman alpha data from Mariner 5

11 p1962 A69-25145

Full wave calculation of gravity waves for thermospheric model, describing wave type reflection, transmission, conversion and coupling by scattering matrix elements

11 p1878 A69-25150

Model ion-exosphere for nonrotating planet with static dipole magnetic field generalized by permitting density and temperature variations over baropause

11 p1879 A69-25284

Radiation attenuation in hazy lower atmosphere, calculating attenuation coefficients and using spherical model of haze particles and empirical formula for haze spectra

11 p1913 A69-25571

Venus brightness temperatures vs phase angle to define spectra of day and night face at short wavelengths, using model atmosphere

12 p2153 A69-25806

Linearized atmosphere model above flat earth, applying variational principle to energy between geostrophic equilibrium and reestablished states

12 p2125 A69-25954

Density stratified model of troposphere and constant gravity field for ground level pressure perturbations in mesoscale region

12 p2126 A69-26016

Theories for universal time controlled polar F region reevaluated in light of satellite low energy charged particle observations

12 p2065 A69-26103

Atmospheric element contents of F stars of Cyg, Her and Boo, using Planckian gradients and computer calculations for growth curves of atmospheric models

12 p2157 A69-26335

Atmospheric models for electromagnetic scattering of monochromatic IR and microwave radiation by natural suspensions as hazes clouds and precipitation

12 p2030 A69-26467

Quantitative magnetic field models of magnetosphere for analyzing field configuration variations and adiabatic particle motion

12 p2072 A69-26738

Satellite observations of geomagnetic tail in magnetosphere near midnight meridian plane, discussing formation, shape, plasma sheet and models

12 p2072 A69-26739

Auroras and polar magnetic substorm observations limited comparison due to magnetospheric models inability to interpret daytime precipitation zones and particle energy spectra

12 p2072 A69-26740

Internal guiding of microwaves by elevated tropospheric layer noting refractive index, radius of curvature and attenuation

12 p2032 A69-26856

Spectral model used for analysis of atmospheric turbulence as related to loads on gliders

12 p2127 A69-26931

Nonuniform two dimensional hydromagnetic waves incident on idealized lower ionosphere, discussing validity of various models

12 p2074 A69-26960

Magnetospheric field configuration in midnight meridian, considering cavity boundary surface and trapping region currents and tail sheet current

13 p2252 A69-27532

Steady state model envelopes of Be stars, determining excitation and ionization states for hydrogen atoms

13 p2338 A69-27559

Stellar atmosphere models of pure hydrogen in hydrostatic, radiative and statistical equilibrium, including Lyman-alpha and continua, discussing nonLTE deviations

13 p2338 A69-27560

RR Lyrae gap stellar model atmospheres including radiation spectra, temperature radiation and convection, etc

13 p2338 A69-27561

White dwarf atmospheric structure, analyzing masses and radii for DA stars and surface parameters of Eri B, based on grid of line blanketed models

13 p2339 A69-27563

Model atmosphere source function, mean intensity and flux by matrix methods

13 p2288 A69-27564

Solar atmosphere five minute oscillations observed by Frazer divided into two harmonic atmospheric model for studying oscillation region height and mean temperature

13 p2343 A69-27627

Numerical methods for time integrating first order differential equations, emphasizing atmospheric oscillations in baroclinic model, evaluating errors

13 p2290 A69-27636

Two temperature lapse rate and single moisture lapse rate troposphere model for calculating temperature and moisture from satellite radiometry

13 p2252 A69-27638

Venusian atmospheric model based on Venera 4 measurements, calculating probe distance travel, temperature, density and pressure profiles

13 p2345 A69-27688

Venus atmosphere optical properties on basis of Venera 4 data, proposing models for measured rotational temperature and subcloud atmosphere radiative equilibrium

13 p2345 A69-27691

Magnetospheric ring current model from ground stations data to interpret observed magnetic field disturbances

13 p2253 A69-27699

Wind shifts and mean gustiness calculation from short range weather forecasts, using dynamic model for wind motion in atmospheric boundary layer

13 p2293 A69-27844

Meteorological problems in Italy analyzed by digital computer program through numerical integration of atmospheric models to provide weather forecasts

13 p2295 A69-28651

Perturbed geomagnetic field structure during magnetic storm recovery phase calculated by magnetospheric magnetic field model, accounting for various external field sources

13 p2257 A69-28697

Planetary long waves behavior in atmospheric models, explaining unsteady components by means of filtered equations

14 p2472 A69-28782

Multilevel numerical weather forecast scheme with stable initial data

14 p2472 A69-28792

Ionograms in vertical depletion duct in horizontally stratified isotropically refractive plasma, considering vertical propagation and ray paths traces dependence on electron concentration

14 p2434 A69-28945

He 3 production and loss in atmosphere, discussing precipitation of energetic magnetospheric particles, thermal escape, nonthermal processes, etc

14 p2435 A69-28965

Low energy charged particle motion parallel with magnetic force lines analyzed in magnetosphere model with constant electric field

14 p2512 A69-29040

Magnetic field intensity, plasma pressure and energy density relations for macroscopic plasma motion inside neutral sheet from two dimensional model

14 p2440 A69-29119

Thermally excited diurnal wind oscillations in lower mesosphere using model atmosphere in CIRA 1965, discussing daytime ozone density profiles

14 p2441 A69-29379

Three dimensional model of atmospheric drift currents in equatorial region of world ocean system based on nonlinear differential equations

14 p2472 A69-29405

Microwave brightness temperatures for downward viewing over open seas from above atmosphere, using tropospheric model containing homogeneous layer clouds

14 p2415 A69-29515

General atmospheric circulation instability factors for statistical weather forecasting, considering atmosphere as nonlinear oscillating system, analyzing relaxation time

14 p2476 A69-29820

Climate studies with allowance for radiative heat inputs, constructing nonadiabatic motions model for improving prognosis

14 p2477 A69-29827

Water-air interface models unreliability in calculating atmospheric heat and humidity turbulent flow over ocean

14 p2443 A69-29839

Atmospheric heat exchange and circulation simulated by rotating containers, reproducing temperature field and dynamic structure above large area

14 p2478 A69-29840

Atmospheric dynamics parameters of Mercury, Venus, Mars and Jupiter, discussing generalized circulation theory

14 p2526 A69-29841

Ionospheric models for motion of slightly ionized homogeneous cold plasma influenced by electrostatic field and neutral particles flow, considering geomagnetic effects

14 p2499 A69-29863

Ionospheric inhomogeneity model for motion of infinite elliptical cylinder of cold plasma in neutral particle flow and ambient electrostatic and magnetostatic fields

14 p2500 A69-29864

Ionospheric inhomogeneities models for plasma motions, considering electron-ion collisions

14 p2443 A69-29865

Supergiant HD-33579 in Magellanic cloud by model atmospheres, discussing abundances

14 p2529 A69-29979

Outer convection zone of cool white dwarf by atmospheric models, using mixing length theory and abundances

14 p2529 A69-29982

Hydrogen Lyman alpha nightglow models, discussing solar photon scattering in geocorona and hydrogen vertical distribution

15 p2595 A69-30191

Nonlinear limb darkening corresponding to nongray stellar atmosphere model applied to light curve for compact eclipsing binary systems

15 p2689 A69-30563

Pure hydrogen stellar atmosphere nonLTE models, calculating surface temperature rise due to H alpha line effect on continuum energy balance

15 p2693 A69-30777

Surface gravity and temperature model atmospheres for O-type stars with UV line blanketing

15 p2693 A69-30778

Solar cycle effect on high latitude magnetic activity, discussing annual variations and Lassen auroral zone model confirmation

15 p2598 A69-31207

Seasonal and latitudinal models of atmospheric wind and temperature structure between 30 and 120 km altitude

15 p2600 A69-31367

Atmospheric models for pressure variation and neutral air winds in thermosphere, discussing wind velocity vector relation to satellites orbital inclination
15 p2603 A69-31403

Plasmasphere hydrogen and He ion concentration models, using diffusive equilibrium theory for plasmasphere parameters
15 p2677 A69-31447

Jet stream blocking process simulation using geostrophic system of equations, considering effects of orography and contrast heating due to land-sea distribution
16 p2809 A69-32602

Horizontal shear effect on structure of growing baroclinic waves by two layer model, assuming small radius of deformation, compared to planetary scale
17 p2960 A69-33150

Flow over uniformly rough surface in planetary boundary layer from mixing length wind spiral model, using surface shear stress and wind direction data
17 p2997 A69-33153

Mixing length model to relate turbulent shear stress to mean velocity field within planetary boundary layer above surface roughness change
17 p2997 A69-33154

Temperature correction procedures for line-blanketed model atmospheres modified, noting effect on convergence to flux constancy
17 p3039 A69-33730

Lateral mixing of air masses in jet stream by water fluid model experiments, discussing steady and non-steady state turbulent momentum exchange
17 p3000 A69-33759

Cyclonic vortices production by horizontal convergence in rotating water bowl as function of bottom surface inclination, modeling cyclogenesis in jet stream entropy field
17 p3000 A69-33760

Ionospheric absorption and virtual heights relationships for electron density distribution in lower ionosphere, computing model profiles
18 p3125 A69-34248

Earth atmospheric large scale motion simulated in laboratory and by numerical technique
18 p3127 A69-34668

Anisotropic ionospheric model for VLF TM and TE modes excitation, noting nighttime phase velocity variations
18 p3101 A69-34797

Stochastic meteorological models based upon presence of weather regimes, illustrating association with statistical inference problems
18 p3166 A69-34822

Acoustic gravity waves generated in isothermal atmosphere by ground energy source calculated using stationary phase method and kinematic theory
18 p3129 A69-34953

Secor data reduction to correct tropospheric refractive effects of radio ranging on earth satellites using tropospheric model
18 p3104 A69-35200

Fourier transform laboratory spectroscopy for absorption near earth atmosphere millimeter wave spectrum, discussing integrated absorption strength and dimeric effect
18 p3177 A69-35240

Error sources in forecasts for heights of isobaric surfaces obtained by numerical integration of prognostic equations of equivalent barotropic models
19 p3361 A69-35770

Monte Carlo relaxation method for physically self consistent model stellar atmospheres, discussing stability, accuracy and convergence of solution
19 p3425 A69-36337

Atmospheric models for specified effective temperatures, hydrogen-to-metal ratios and surface gravities in studying metal deficiency effect on stellar atmosphere
19 p3425 A69-36338

Numerical weather prediction using four level primitive atmospheric model for studying frontogenetic processes in deepening cyclone
19 p3303 A69-36408

Partial differential equation representing influence of radiative and turbulent transfers of atmospheric heat, based on absorption coefficients for terrestrial radiation
19 p3363 A69-36498

Atmospheric horizontal mixing caused by quasi two dimensional macro turbulent motions, describing micro and mesoscale processes using numerical model
19 p3363 A69-36500

Numerical integrations for modified model incorporating ozone production equation and heating from

ozone radiation absorption and long wave cooling for upper atmospheric circulation
19 p3363 A69-36502

Operational circulation model numerical experiment suggesting elimination of spurious divergence-on-divergence interactions from implied vorticity equations in primitive equations
19 p3363 A69-36503

Optimum aerological network design, discussing atmospheric model, numerical analysis, data acquisition, weather forecasts, rms measurement error, etc
19 p3364 A69-36505

Plasma flow structure near frontal point in earth magnetosphere, using quasi-hydrodynamic two dimensional model to obtain power series solution
20 p3594 A69-37019

Plasma concentration in nondipole magnetosphere model from pc 5 pulsations periods for high geomagnetic latitudes, noting solar winds effect
20 p3521 A69-37043

ELF radio wave propagation characteristics analyzed by two layer ionosphere model
20 p3488 A69-37285

Wind velocity below 100 meters from Laikhtman atmospheric boundary layer model, solving equations for horizontally homogeneous, stationary and nonadvective air flow
20 p3571 A69-37695

Primitive earth upper atmosphere thermal models, considering roles of exospheric temperature and free hydrogen availability in methane dominated environment
20 p3608 A69-38056

Thermosphere temperature shape parameters from probe flights, showing dependence on hour angle
20 p3534 A69-38088

Nongray greenhouse model of Venus atmosphere possessing IR opacity due to carbon dioxide, water and diatomic N compatible with Mariner 5 and Venera 4 results
20 p3615 A69-38259

Auroral electric current system model to explain magnetic disturbances associated with auroral breakups
21 p3710 A69-38505

Dungey reconnection model of magnetosphere with dayside current sheet and pseudotrapping region compared with dayside observations of precipitation regions
21 p3711 A69-38511

Ionosphere characteristics in terms of airglow, describing daytime F/D layers formation model provided by photoionization, loss processes and ambipolar diffusion
21 p3712 A69-38517

Airglow and vertical eddy transport photochemical models, analyzing O green line and OH emission distribution
21 p3713 A69-38523

Sharply bounded homogeneous ionospheric model to solve modal equation, discussing lower ionospheric conductivity from VLF transmission sudden enhancements of strength (SES)
21 p3714 A69-38554

Daytime electron and ion composition model for height range from 150 to 1500 km at moderate latitudes and minimum solar activity
21 p3714 A69-38555

LTE departure calculated for He I in hot star model atmospheres for effects on populations of singlet and triplet states
21 p3801 A69-38761

Layer model of random discrete inhomogeneities used to derive harmonic wave one dimensional scattering field and mean square of field
21 p3673 A69-38993

Geopotential field forecast for 500 mb surface, comparing results from quasi-solenoidal and quasi-geostrophic models
21 p3758 A69-39110

Tropospheric refractivity height profile model, computing corrections to satellite Doppler or range data
21 p3678 A69-39748

Vertical heat exchange flux model using heat conduction equation compensating for tropospheric and stratospheric radiation divergence, calculating diffusion coefficient
22 p3936 A69-40137

Spectrophotometric observations of delta Scuti short period variable stars compared with model atmospheres
22 p4015 A69-40150

Nongray models representing atmospheres of F and G supergiants computed and tabulated for 5400-6600 K and various surface gravities
22 p4015 A69-40152

Type 3 solar radio bursts observed during April-October 1967 for two alternative models of active region streamers in outer corona
22 p4003 A69-40300

Neutral exosphere model for nonrotating planet permitting barosphere uniform rotation at certain angular velocity, determining velocity distribution and density
22 p4023 A69-40524

Helium-carbon star BD plus 10 degrees 2179 re-analyzed by grid of constant flux models containing right amount of C
22 p4026 A69-40652

Model atmospheres of late type stars with solar abundances, effective temperatures between 2000-4000 K and gravities corresponding to dwarf, giant and supergiant stars
22 p4027 A69-40654

Exact solution of macroscopic line transfer equation including electron scattering terms for Milne-Eddington model atmosphere, discussing electron scattering effect on growth curves
22 p4007 A69-40903

WE and SN wind components models from 60 to 130 km for different months and latitudes, discussing meridional and interhemispheric circulations
23 p4154 A69-41306

Atmospheric zonal circulation compatible with meridional obtained from model based on dynamic and heat flux equations and Williams and Davis hypothesis
23 p4183 A69-41522

Uniform random field model development by taking moments in linear transformation form of certain initial field
23 p4183 A69-41523

Acoustical ray tracing in horizontally layered and vertically sectioned atmosphere on digital computer using shifting Cartesian coordinate system
23 p4154 A69-41532

F region dynamic model, including variations in temperature, electron and molecular ion concentrations, etc
23 p4156 A69-41843

Qualitative model of atmospheric mass circulation constructed from radar meteor trail drifts observations, considering solar thermal radiation and zonal wind direction
23 p4214 A69-41862

LF hydromagnetic waves propagation along geomagnetic field lines in gyrotronic ionosphere model taking Hall effect into account
23 p4157 A69-41864

Numerical weather forecasting at high and middle latitudes, discussing geostrophic forecasting equations and barotropic models
23 p4183 A69-42024

Density model for free oscillations of earth, noting dependence on core radius and S wave velocity at top and bottom of D layer
23 p4158 A69-42117

Noncyclic daily solar quiet variation in mean hourly geomagnetic field by including noncyclic variation term in regression model
23 p4158 A69-42170

Distribution function for thermalization distances derived for infinite atmosphere with plane source in incoherent light scattering
23 p4192 A69-42403

Atmospheric model for calculating wind velocity profile and turbulence of stable atmospheric boundary layer with given temperature stratification and pressure gradient distribution
23 p4184 A69-42489

Model atmosphere analysis of line identifications and equivalent width data for relatively cool Ap star HD 204411, discussing atmospheric composition
24 p4376 A69-42664

Radiative cooling models for various midlatitude synoptic features, including stationary front and cyclones
24 p4343 A69-43064

Angular grid spacing resolution near poles effect tests in global prediction model for geophysical fluid dynamics, investigating forecast height and wind fields
24 p4344 A69-43066

Model for ozone formation, distribution and decomposition at 15-45 km assuming zonal symmetry, including time effects of photochemistry, advection and turbulence
24 p4309 A69-43147

- Hadley and equatorial cell models for mean meridional circulation in terms of vorticity equation
24 p4345 A69-43152
- Atmospheric model consisting of varied mass liquids in water tank for studying circulation conditions, discussing earth zone and layer partitioning and Prandtl analysis
24 p4346 A69-43153
- Polar cap ionospheric response to solar cosmic ray events observed by Mariners 2 and 4 solar proton measurements used to test magnetosphere models
24 p4373 A69-43621

ATMOSPHERIC MOISTURE

- Total atmospheric moisture content by measuring radio wave absorption at water vapor molecule rotational spectrum absorption line
02 p0274 A69-11438
- Atmospheric water vapor content from summer-fall 1966 measurements of atmospheric radio wave absorption of thermal radio emission, describing experimental apparatus
02 p0274 A69-11439
- Vertical atmospheric turbidity distributions of haze and water vapor, noting effect of variations on scattering and absorption determination
02 p0277 A69-12777
- Atmospheric temperature and water vapor variations and seasonal environmental changes effects on cosmic ray neutron and meson monitor counting rates
03 p0498 A69-12936
- Environmental temperature and water vapor increases associated with ascending thermals estimated by penetrative convection
03 p0460 A69-13340
- Northern California humidity to 32 km utilizing alpha radiation hygrometer and associated balloon sounding equipment
03 p0461 A69-13345
- Atmospheric water vapor content determination from microwave radiation measurements and satellite aircraft
06 p0953 A69-17996
- Atmospheric microwave radiation and sensitivity of airborne radiometric sounding in water and moisture contents determination
06 p0954 A69-18001
- Imagery degradation by moisture condensation on thermal IR scanners optics during aircraft descent from higher to lower altitude
08 p1311 A69-19821
- Aircraft structural aluminum alloy fatigue life, considering atmospheric relative and absolute humidity
09 p1521 A69-21390
- Atmospheric humidity effect on efficiency of geomagnetic field scales with taut-strip suspension and temperature fluctuation
09 p1494 A69-21518
- Solar radiation absorption measurements by balloon for atmospheric water vapor distribution
09 p1536 A69-21864
- Condensation kinetics in clouds, determining cloud spectrum evolution taking stochastic processes into account
10 p1722 A69-23972
- Statistical analysis of convective layer thickness and moisture content effect on convective cloud configurations, using satellite TV pictures
11 p1912 A69-24827
- Mean vertical moisture profile for summer and winter midlatitude stratosphere from Soviet radiosonde data
12 p2070 A69-26582
- Tenuous cirrus cloud influence on 6.4-6.9 micron Nimbus 2 water observations, discussing equivalent black body temperatures correspondence to cloud and clear areas
12 p2075 A69-27003
- Two temperature lapse rate and single moisture lapse rate troposphere model for calculating temperature and moisture from satellite radiometry
13 p2252 A69-27638
- Venusian water vapor spectroscopic data indicating longitudinal and time dependent variations in abundance
13 p2345 A69-27650
- Satellite and rocket probe measurements of water vapor in mesosphere
13 p2253 A69-27694
- Incoming IR flux measurements at high altitude, noting flux increase due to water vapor condensation in troposphere
13 p2256 A69-28647

- Temperature of underlying surface and moisture content of atmosphere from satellite thermal radio emission measurements
15 p2648 A69-30641
- Harmonic analysis for computing diffusing matter with periodically varying surface concentration applied to electrical insulants degradation by atmospheric moisture
15 p2592 A69-31057
- Virtual temperature change with respect to height of saturated air rising during water vapor condensation, discussing actual temperature and precipitation factor
16 p2808 A69-32454
- Latent heat of condensation related to atmospheric dynamics in cloud formation processes with allowance for moisture exchange
17 p2997 A69-33188
- Vertical tropospheric humidity distribution estimation from IR spectra obtained by TIROS satellites
18 p3126 A69-34284
- Atmospheric temperature and moisture fields obtained by linear equations and objectively analyzed, considering underlying sea surface energy and cumulus cloud distribution
20 p3523 A69-37351
- Satellite onboard transmission measurements determining atmospheric water vapor influence on integrated refractivity at specific absorption line resonant frequency
20 p3545 A69-38097
- Condensation kinetics in clouds, determining cloud spectrum evolution taking stochastic processes into account
21 p3760 A69-39658
- Water vapor abundance in Mars atmosphere determined from spectrograms, noting restricted existence on surface
22 p4018 A69-40268
- Subjective feeling of dampness correlation with relative humidity of air at zero and below zero C temperatures
23 p4109 A69-41870
- Mean absolute relative humidity variations above earth surface over various time intervals during cloudless nights, obtaining spatial humidity differences and corresponding extinction coefficients
24 p4346 A69-43158
- ATMOSPHERIC NEUTRON FLUX DENSITY**
U NEUTRON FLUX DENSITY
- ATMOSPHERIC NOISE**
U ATMOSPHERICS
- ATMOSPHERIC PHYSICS**
NT CLOUD PHYSICS
- Optical radar for studying atmospheric water vapor, density, temperature and aerosols
01 p0090 A69-10540
- Atmospheric optical data recorded by instrumented aircraft near Crater Lake, discussing surface spectral irradiance data
01 p0111 A69-10846
- Energy transport in atmosphere studied by considering sphere in isotropic fluid in infinite field without gravity, using first law of thermodynamics
01 p0067 A69-11032
- Tropical 6300 angstrom red oxygen nightglow enhancements related to variations in height of nighttime F 2 layer, noting implications for layer structure and physics
01 p0068 A69-11113
- Linearized perturbation treatment developed for photochemical and dynamical effects in gravity wave production of E-region ionospheric irregularities, including ion convergence
01 p0073 A69-11175
- Atmospheric optical properties stability determination for various optical densities, assuming horizontally homogeneous medium with properties constant during observation
01 p0074 A69-11186
- Automatic spectrophotometer for measuring sky spectral brightness at 6910-4040 angstroms, determining point of minimum brightness
01 p0074 A69-11187
- Boundary layer effect on large scale atmospheric processes from analyzing two layer free atmosphere model, plotting weather forecast charts
02 p0273 A69-11435
- Charts summarizing daily solar phenomena, cosmic rays, geomagnetic variation, ionosphere, radiowave propagation and airglow observations in Japan
02 p0315 A69-11732
- Surface radiation balance measurements in India during IQSY, discussing diurnal, seasonal and spatial variations of net radiation
02 p0307 A69-11820

- Tropical night F layer maintenance mechanism, noting airglow enhancement and ionization source association with plasma drifts
02 p0242 A69-11825
- Upper atmosphere structure, phenomena and composition, discussing interactions between photons, electrons, atoms and molecules
02 p0242 A69-11902
- Mars and Venus atmospheres, Martian atmosphere dynamics, Mars ionosphere and use of space probes
02 p0318 A69-12102
- Relationships derived by dimensional arguments connecting vertical heat fluxes and horizontal momentum in constant flux layer with other relevant variables
02 p0275 A69-12692
- Taylor column existence in compressible atmosphere, discussing baroclinicity and stratification effects in earth and Jupiter atmospheres
02 p0326 A69-12697
- Probabilistic model for scattering function to solve radiative transfer problems in externally illuminated spherical shell atmosphere with perfectly absorbing core
02 p0328 A69-12751
- Weighting functions for finite optically thick atmospheres, discussing emission line formation
02 p0328 A69-12755
- Barotropic instability analyses by method of jet stream like fields and energy transport from zonal current to wave disturbances based on vorticity equation
02 p0276 A69-12758
- Sunrise effects in lower D region by solar eclipse, discussing anomaly in ionospheric absorption due to negative ion factor or recombination coefficient
02 p0246 A69-12767
- Horizontal drifts at E region level measured in India by spaced phase path technique
03 p0421 A69-13330
- Air mass cumulus cloud growth stimulation by means of vertical updrafts capable of perforation of retaining layers
03 p0461 A69-13409
- Structure and mean molecular weight measurement of unknown atmosphere assessed from high altitude tests in earth atmosphere
[AIAA PAPER 68-1054] 03 p0512 A69-13699
- Nonstationary model of mesoscale atmospheric vortex with vertical axis based on atmospheric thermohydrodynamics
03 p0462 A69-13932
- Airborne radiometric /8 to 14 micron/ temperature measurements, determining emissivities of ocean, stratus clouds, desert and snow
04 p0592 A69-14653
- East-West aligned fast auroral waves, suggesting origin in hydromagnetic processes occurring near equatorial plane
04 p0594 A69-15123
- Far IR observations of atmospheric molecular lines, using high altitude aircraft platforms
04 p0628 A69-15146
- Ionosphere structure, properties and research techniques
04 p0594 A69-15166
- Long distance propagation of acoustic gravity waves ducted in thermosphere, noting effect of seasonal variations in polar region
04 p0595 A69-15437
- International cooperation results in field of optical tracking of satellites for solving problems of atmospheric physics, geophysics and geodesy
06 p1042 A69-17050
- Upper atmosphere physics, atmospheric composition and separation of gases, nature of air flow, water vapor content and lower ionosphere structure determinations by rocket
[UN PAPER 68-95693] 06 p0949 A69-17058
- Interamerican Experimental Network of Meteorological Investigation with Rockets /EXAMET- NET/, discussing atmospheric parameters measurement at high altitude
[UN PAPER 68-95903] 06 p0950 A69-17062
- Regularization methods in inverse problems of atmospheric optics, analyzing atmospheric thermal sounding and interpretation of radiation measurements
06 p0919 A69-17616
- Mathematical techniques for treating satellite based atmospheric data involving radiative transfer equation inversion, noting scattering and temperature measurement problems
06 p0957 A69-17618
- Inert gas discontinuous injection into nonequilibrium laminar boundary layer
06 p0860 A69-17635

Relation between satellite data concerning thermal microwave radiation and meteorological conditions in lower atmosphere for possible use in weather forecasting

06 p0953 A69-17995

Microwave absorption and scattering by atmospheric precipitation as function of temperature and water droplet size

06 p0954 A69-17997

High altitude plastic balloon platforms for atmospheric research noting increased capacities in altitude, payload and flight duration
[AIAA PAPER 69-156]

06 p1010 A69-18067

Atmospheric measurements and experiments using aircraft as platforms, noting aircraft operation in severe weather, electrical supply problem and aircraft wake problem
[AIAA PAPER 69-157]

06 p0869 A69-18153

Receiving system of CENFAM multistation radar project for meteoric and upper atmosphere studies composed of antennas connected to form product-interferometer pairs

07 p1077 A69-18674

Dynamics of large scale processes in atmosphere extended to two week predictions using nine level hemispheric moist general circulation model

07 p1175 A69-18895

Tropospheric energy cycle interannual variability and quasi-biennial oscillation from geostrophic computations of eddy kinetic energy, energy transfer and internal redistribution

07 p1129 A69-19628

Radiative transfer by doubling very thin layers in problem of diffuse reflection from plane-parallel atmosphere eliminates numerically solving transfer equation

08 p1420 A69-20064

Ionospheric plasma flute instability considered as possible cause of occurrence of elongated small scale inhomogeneities in F2 layer

08 p1309 A69-20425

Recombination rate of nitrogen atoms using NO titration method, tabulating reactions and emissions during various stages of titration

08 p1309 A69-20454

Mars and Venus atmospheric properties, noting influence of biosphere and human activity on earth atmosphere

08 p1408 A69-21160

Spin stabilized spherical satellite in high elliptical orbit for lower thermosphere measurements during entire solar cycle

09 p1610 A69-22009

Radiation field at optical depths within plane parallel Rayleigh scattering atmosphere subjected to generalized free surface boundary conditions

09 p1606 A69-22423

Atmospheric extinction function in Chile by using photoelectric spectrum scans, observing neutral component, Rayleigh scattering and ozone absorption variations

10 p1777 A69-23386

Silicon carbide particle growth and motion in carbon star atmospheres

10 p1781 A69-23678

Atmospheric influence on plane oscillations of space vehicle moving at 100-150 km heights

10 p1792 A69-24208

Mean and eddy motions in atmosphere described by mathematical expressions for total and mean kinetic energies

11 p1911 A69-24323

Stability of barotropic perturbations superimposed on wind velocity profile of basic currents in geostrophic multilayer models

11 p1911 A69-24586

Jet flows instabilities with vertical and horizontal velocity drifts from numerical integration of atmospheric motion equations linearized with respect to small perturbations

12 p1215 A69-25950

Linearized atmosphere model above flat earth, applying variational principle to energy between geostrophic equilibrium and reestablished states

12 p1215 A69-25954

Airborne Q switched ruby laser for studying upper atmosphere meteoric formations optical characteristics and kinetics against background of underlying surface

12 p1215 A69-25955

Semiannual density variations in thermosphere and exosphere as function of mixtopause height variations

12 p2064 A69-26012

Overlay technique for analysis of F region transition into F1 and F2, noting ionization and recombination

12 p2065 A69-26102

Linearized steady state equations of motion solved for boundary conditions of fluid lying between horizontal planes with temperature varying horizontally

12 p2066 A69-26134

Atmospheric turbulent energy spectra in boundary surface layer, considering homogeneous axisymmetric model in presence of temperature and velocity gradients

12 p2067 A69-26355

Optimum coordination between homogeneous isotropic geopotential field and derivatives, estimating efficiency of geopotential and wind fields simultaneous analysis

12 p2126 A69-26580

Physics of magnetosphere - Conference, Washington, D.C., September 1968

12 p2071 A69-26734

Dynamics of magnetosphere, discussing auroral oval position, ring currents, plasma density and magnetic field variations in near polar region

12 p2072 A69-26741

Earth radiation belts formation as function of particle injection into trapped radiation zones or proton and electron leakage

12 p2150 A69-26742

Ballistically effective atmospheric parameters for rocket vehicle design manuals involving application of climatological concepts of meteorology

12 p2175 A69-26874

Kelvin waves relation to quasi-biennial oscillation, using zonal wind and temperature variance data taken at Canton Island

13 p2290 A69-27391

Integral particle flux of protons and electrons in upper atmosphere, discussing energy and angular distribution

13 p2328 A69-27757

Heat convection mechanism in two phase autooscillatory system generalized to convective heat transfer in cloudy atmosphere

13 p2292 A69-27798

Electron flux-atmosphere interaction solved by numerical integration on computer, discussing auroral ionosphere

14 p2513 A69-29069

Daytime ionospheric screening effect on low latitude geomagnetic micropulsations estimated using ionosphere model

14 p2441 A69-29380

Algorithm for solving Dirichlet problem of nonlinear elliptical differential equations representing atmospheric dynamics balance equation

14 p2470 A69-29401

Line of sight atmospheric path measurements for atmospheric inhomogeneities, using phase quadrature, microwave and near IR techniques

14 p2415 A69-29516

Atmospheric multifrequency probing accuracy limitation imposed by irregularities based on scatter theory

14 p2449 A69-29535

Hydrodynamic theory of climate and atmospheric circulation, emphasizing numerical experiments role in studying large scale processes

14 p2476 A69-29819

Dynamic meteorology quasi-stable problems solved using sequential approximations solution for barotropic model of Euler equations

14 p2476 A69-29821

Time spectra of wind velocity, temperature, pressure and turbulent heat transfer and momentum in synoptic region

14 p2476 A69-29823

Climate studies with allowance for radiative heat inputs, constructing nonadiabatic motions model for improving prognosis

14 p2477 A69-29827

Ocean and atmospheric interactions analyzed by using hydrodynamic equations for boundary layers

14 p2442 A69-29838

Atmospheric motions equations in mesometeorology prognostic problems taking into account free atmosphere and boundary layer interactions

15 p2646 A69-30107

Self maintenance of absolute angular momentum in atmosphere as explanation of subtropical jet stream origin

15 p2647 A69-30192

Atmospherics observations in Japan during last 40 years, discussing relation to meteorology, statistical

characteristics, whistlers, noise phenomena, periodic variations, solar effects and ray theory

15 p2595 A69-30418

External wind shear influence on isolated cumulus cloud evolution based on hydrodynamic and thermodynamic equations numerical integration

15 p2648 A69-30644

Solar wind and solar breeze theories distinguished, discussing applications to geocoronal hydrogen emission and solar corona expansion

15 p2676 A69-30858

Magnetic field effect on thermal convection onset in compressible polytropic atmosphere compared with results from thin layer approximation

16 p2855 A69-31658

Shock wave growth or decay in atmospheres with density and temperature variation using singular surface theory

16 p2768 A69-31663

Electron cooling rates due to vibrational excitation of molecular oxygen calculated as function of electron temperature in E region

16 p2774 A69-31982

Horizontal magnetic variation peak at eight degree dip latitude, noting F region contribution to magnetic tubes of force integrated transverse conductance

16 p2778 A69-32189

Atomic oxygen density role in ionospheric E and F region magnetic stability, noting heat loss effect of atomic excitation

16 p2780 A69-32314

Friction and wind relationships expressing actual and geostrophic wind as complex numbers or by corresponding vectors in Gauss-Argand diagram

16 p2808 A69-32455

Latent heat of condensation related to atmospheric dynamics in cloud formation processes with allowance for moisture exchange

17 p2997 A69-33188

Suspected phase anomaly and Mercury atmosphere

17 p3034 A69-33414

Vertical structure concepts for air density, wind and sound velocity profiles in rocket climatology, discussing vertical relationship of wind shear statistics

17 p3000 A69-33794

Soviet book on ionospheric processes summarizing published studies covering neutral atmosphere structure, ionizing solar radiation component composition and intensity, etc

18 p3126 A69-34358

Classification of synoptic processes, discussing condensation of parameters characterizing state of atmosphere

18 p3166 A69-34815

Relation between atmospheric processes in troposphere and upper stratosphere in cold half year

18 p3166 A69-34817

Solitary waves in stratified polytropic atmosphere allowing for convection and disregarding viscosity and turbulence

18 p3167 A69-35338

Cumulative shock waves in vaporized products of electrical explosion of conical copper wire configuration, discussing atmospheric ionized vortical configuration formation

19 p3372 A69-35823

Atmospheric slant path molecular absorption and emission from band model methods, discussing computer program prediction capabilities

19 p3375 A69-36052

Steady state solution of quasi-geostrophic perturbation equations for atmospheric forced response to parameterized heating as global monsoon theory

19 p3362 A69-36405

Wind and temperature profiles in Ekman boundary layer, using numerical integrations of dynamic equations including time derivative terms

19 p3363 A69-36501

Vertical profiles of pressure, temperature and density variations due to upper troposphere pressure changes with and without zero layer effect

19 p3365 A69-36580

Microwave application in determining atmosphere meteorological characteristics compared with visual and IR wavelength measurements

20 p3569 A69-36984

Atmospheric temperature and moisture fields obtained by linear equations and objectively analyzed, considering underlying sea surface energy and cumulus cloud distribution

20 p3523 A69-37351

Solar activity effect on short term meteorological processes and dynamic state of mesosphere and ionosphere

sphere, emphasizing relationship to entire atmosphere dynamics
20 p3590 A69-37684

Soviet collection of papers on physics of atmospheric boundary layer covering wind profile, turbulent energy balance, etc
20 p3571 A69-37694

Atmospheric turbulence statistical distribution mass measurements using velocity, gravity and weight recordings based on calibration of aircraft as turbulence measuring instrument [ONERA-TP-699]
20 p3541 A69-37754

Topside ionospheric structure from Alouette 2 data, discussing thermopause temperature, plasma temperature, electron density profiles, satellite plasma frequency, etc
20 p3532 A69-37895

Atmospheric predictability as revealed by naturally occurring analogs, noting superposed error
20 p3573 A69-38057

Atmospheric structure, greenhouse effect and convective instability in window gray and nongray planetary atmospheres
20 p3615 A69-38257

Venus atmosphere structure determined from Mariner 5 flyby S band radio occultation measurements of ionosphere and atmosphere at illuminated and dark sides
21 p3794 A69-38380

Twilight airglow excitations governed by solar radiation, indicating presence of alkali metals, positive calcium ions and H lines, positive sodium ion bands, etc
21 p3711 A69-38515

Planetary boundary layer top formation, considering particle velocity, earth surface roughness role, geostrophic wind, etc
21 p3715 A69-38566

Dispersion and correlation function for atmospheric transparency due to water vapor from statistical model of absorption bands and effective mass
21 p3759 A69-39113

Nonograms for spectral transparency of atmosphere at 2.8-5.6 microns
21 p3759 A69-39117

Soviet book on earth atmosphere fluctuations covering propagation of acoustic, gravity and gyroscopic waves using linearized equations of hydrodynamics
21 p3717 A69-39528

Cosmic ray neutron studies of atmospheric nucleon component equilibrium and flux fluctuations at atmosphere top
22 p4002 A69-40092

Dayglow O I lambda 1304 and 1356 A radiations photoelectron excitation rates theoretical calculation and experimental data on altitude dependence characteristics
22 p3939 A69-40517

Retarding potential analyzers determining ionospheric structure, noting linearization of analysis
22 p3940 A69-40523

Lidar technology application to atmospheric and meteorological problems in clouds and cloud structures, air motion and inhomogeneity in clear air
22 p3977 A69-40535

Incident proton flux atmospheric altitude profile during PCA period, comparing balloon observations with preliminary satellite data
23 p4204 A69-41485

Ground antenna array for ionospheric physics experiments, consisting of wire dipoles connected to receive circular or linear polarization
24 p4286 A69-42607

Satellite-based meteorological observation system for global atmospheric research program, discussing wind measurement, IR and microwave sounding possibilities, etc [AAS PAPER 69-120]
24 p4307 A69-42817

Initialization technique for primitive forecast equations balancing Coriolis and pressure forces effects on atmospheric observations
24 p4344 A69-43065

Energetics of planetary boundary layer /Prandtl layer/ from system of hydrodynamic equations, discussing flux divergence term importance in free-windless convection transition region
24 p4309 A69-43148

Magnetic dipole field variations effects on planetary atmosphere erosion by solar wind, discussing Mars and Venus atmospheres above ionosphere
24 p4385 A69-43224

Midlatitude sporadic E model, discussing overdense ionization layers spatial distribution, wind shear effects, periodic variations, etc
24 p4311 A69-43743

ATMOSPHERIC PRESSURE

Blood volume in rats exposed to high altitude and deacclimated at ambient pressure, noting changes and control level restoration
01 p0015 A69-10922

Gases emissivity at high temperatures calculated for different gas layer thicknesses and atmospheric pressures, giving results in tabular form
02 p0285 A69-11567

Venus lower atmosphere noting graphically wide variation of surface pressure estimates
02 p0319 A69-12103

Mars lower atmospheric pressure, temperature and composition, noting consistency between photometric, spectroscopic and occultation techniques
02 p0319 A69-12104

Integral spectral emissivity of gas arc plasmas at high temperatures and atmospheric pressure
02 p0291 A69-12484

Venus atmosphere from Mariner 5 and Venera 4 data, discussing surface temperatures and pressures, cloud top region, McElroy model and maximum wind velocities
02 p0330 A69-12803

Human auditory function during exposure to prolonged low barometric pressure unaffected with normal oxygen partial pressure
03 p0378 A69-14206

Atmospheric exposure chamber design for small animals, discussing dynamic and recirculating operations and gas scrubbing system
04 p0584 A69-14678

Air density fluctuation effects on aircraft dynamic stability around center of gravity during climbing and diving maneuvers, discussing atmospheric pressure and flight path angle
04 p0548 A69-14825

Meteorological PTU /pressure, temperature, humidity/ probe for lower atmospheric layers, discussing detectors and assembly qualities
04 p0601 A69-15229

Turbulence characteristics and wind velocity in atmospheric boundary layer determined from pressure and temperature fields
05 p0788 A69-16453

Atmospheric vertical density and pressure profiles determined from satellite measurements of light beam phase shift and refraction angle
05 p0760 A69-16694

Meteorological satellite TV data of earth cloud cover for determining atmosphere pressure field [UN PAPER 68-95654]
06 p0949 A69-17052

Lower atmosphere pressure field determination based on meteorological satellite observations of amount and types of clouds and upper boundary altitude
06 p0952 A69-17987

Supersonic molecular beam sampling system for coupling mass spectrometer to alkali metal-air reacting flow system in kinetics study, noting gas dynamic effects [AIAA PAPER 69-94]
06 p0930 A69-18099

Pressure-altitude transducers for atmospheric pressure measurements on balloon flights including diaphragm, thermoconductivity, radioactive density and hypsometer gauges
07 p1132 A69-18873

Physicochemical synthesis of monosaccharides from human waste products at atmospheric and elevated pressures, considering methane oxidation by nitrogen oxides and ozone
07 p1071 A69-18971

Double diurnal oscillation of atmospheric pressure and vertical gradient of electromagnetic field, noting agreement between diagrams and role of atmospheric tides
08 p1306 A69-19866

Mars and Earth atmospheric carbon dioxide simulation and spectroscopic measurement for developing planetary surface pressure estimating procedures from IR transmission measurements
08 p1354 A69-20151

Venus atmosphere observations compared with Venera 4 measurements of temperature, pressure and carbon dioxide content
10 p1791 A69-24200

Nitrogen plasma total radiation intensity under pressure and at high temperatures calculated from radiation spectrum
11 p1922 A69-24231

Nitrogen dioxide molecular ions formation in air, discussing absence at lower pressures and early afterglow dominance in air ionized and dissociated by microwave pulses
11 p1879 A69-25158

Jet stream winds direction correlated with direction of LF pressure disturbances crossing microbarograph array
12 p2125 A69-26015

Density stratified model of troposphere and constant gravity field for ground level pressure perturbations in mesoscale region
12 p2126 A69-26016

Venus atmosphere chemical composition, surface temperature and pressure obtained by Venera 4 and Mariner 5
12 p2155 A69-26129

Height and temperature vertical variability in mid and upper stratosphere determined from constant pressure charts /1964-1966/
13 p2290 A69-27637

Venusian atmospheric pressure and temperature measurements by Venera 4 probe, noting agreement with Mariner 5 observations
13 p2345 A69-27689

Atmospheric pressure and wind data at equatorial latitudes, determining relation between rms meridional and zonal wind and pressure gradient
13 p2293 A69-27845

Atmospheric pressure variation coefficients computation based on harmonic analysis of wave behavior
13 p2295 A69-28648

Time dependent evolution of probability pressure distribution maximum obtained from Liouville equation
14 p2472 A69-29406

Worldwide observation of atmosphere with occultation satellites, correcting orbit perturbations to obtain air pressure
14 p2447 A69-29517

Atmospheric transmission functions dependences on absorbing material, pressure and temperature in 15 micron band of carbon dioxide, introducing corrections
15 p2597 A69-30653

Monograph on large scale cloud distribution in extratropical low pressure regions, using classical meteorological observations and Tiros weather satellite data
15 p2650 A69-31212

Longitudinal variations of density, temperature and pressure distributions in stratosphere and mesosphere based on rocket observations, emphasizing arctic and subarctic regions
15 p2602 A69-31379

Combustion of pure crystalline boron single particles injected into hot oxidizing gases streams at atmospheric pressure [AIAA PAPER 69-562]
16 p2880 A69-32741

Vertical atmospheric pressure distribution measured directly with Pirani-Israel gauge in Skylark rocket, transforming dynamic pressure data into static pressures on ground
17 p2971 A69-33037

Objective analysis of pressure trend fields and surface pressure retaining field with scale of 100 km, using filtering procedure
18 p3166 A69-34816

Venusian atmospheric features obtained from Venus 5 and 6 and Mariner 5 observations, indicating extremely high temperatures and pressures
19 p3401 A69-35840

Colpoda maupais resistance to Martian atmospheric pressure and oxygen partial pressure noting adaptation, reproduction and existence
20 p3478 A69-37627

Numerical prediction experiment for dynamical structure of tropical atmosphere in equatorial latitudes, constructing pressure, temperature and vertical motion distributions from wind field
20 p3573 A69-37910

Physicochemical synthesis of monosaccharides from human waste products at atmospheric and elevated pressures, considering methane oxidation by nitrogen oxides and ozone
20 p3483 A69-38219

Friction and orography effects on vertical currents in planetary boundary layer and numerical forecasting of baric field
21 p3758 A69-38837

Gravitational fields and atmospheric pressure effects on soils subjected to static and dynamic loading, using aircraft parabolic gravity simulation [AIAA PAPER 69-1009]
22 p3921 A69-40382

Errors due to neutron counter radioactivity in cosmic rays nucleon measurements analyzed in reducing readings to barometric pressure
23 p4206 A69-41855

Surface pressure field forecast by meteorological fields expansion into orthogonal components, estimating number of predictors in regression equation
23 p4184 A69-42491

Amplitude and phase maps for annual global variations in atmospheric pressure based on harmonic data analysis, suggesting standing wave type distributions
23 p4185 A69-42493

Leak detection techniques efficiency determined for airtight atmospheric air sampling devices used at low pressure and concentration
24 p4296 A69-42656

Northern Hemisphere 500-mb height pattern series expansion, using optimal sets of orthonormal functions, obtaining rms error
24 p4346 A69-43157

Barometric pressure affecting convective heat transfer from human body in air, deriving empirical formula as function of air density, speed and temperature
24 p4267 A69-43384

Lower ionosphere atmospheric density, temperature and pressure profiles diurnal variations from data of radio meteor echoes
24 p4311 A69-43504

Isobaric inhomogeneous atmosphere effect on sonic boom determined, using analytic equation relating transmitted wave intensity to local free stream Mach number
24 p4254 A69-43728

ATMOSPHERIC RADIATION

NT AIRGLOW
NT AURORAL ARCS
NT AURORAS
NT DAWN CHORUS
NT DAYGLOW
NT GEOCORONAL EMISSIONS
NT IONOSPHERIC NOISE
NT NIGHTGLOW
NT RADIO AURORAS
NT RED ARCS
NT SKY RADIATION
NT STRATOSPHERE RADIATION
NT TWILIGHT GLOW
NT WHISTLERS

Scattered solar Lyman alpha radiation measurement by Vertical Space Probe station in upper atmosphere including UV radiation
01 p0152 A69-10577

Jet stream cirrus radiative characteristics from airborne IR measurements, noting cirrus cloud emission and transmission and cirrus height and temperature estimates
01 p0110 A69-10694

Ionospheric and stratospheric UV radiation effects on survival of microorganisms
01 p0018 A69-11088

Hydromagnetic emissions observed at Antarctic auroral zone, discussing relation to sudden storm commencement
02 p0241 A69-11726

X ray airglow in daytime sky, suggesting origin in atmospheric N and O K alpha lines due to fluorescent excitation by solar X rays
02 p0307 A69-12022

Radiometric measurement of attenuation, emission and noise fluctuations due to earth atmosphere in 4 cm to 8 mm range
02 p0210 A69-12432

Mean atmospheric downward radiation fluxes for large territories, using simple model atmospheres in derivation of computational formulas
03 p0422 A69-13410

Temperature determination of subjacent surface from airborne measurements of outgoing radiation in earth atmosphere in 10 to 12 micron interval
03 p0424 A69-13933

Meteorological rocket measurement of corpuscular radiation intensity in upper atmosphere at various latitudes
05 p0814 A69-16052

IR radiation in upper atmosphere, indicating sources of error in data
05 p0753 A69-16058

Radio astronomical methods for total atmospheric absorption of radio waves by atmospheric thermal radio emission measurements based on sky brightness temperature
05 p0723 A69-16779

Airborne polarimeter to measure Stokes parameters of linearly polarized visible atmospheric radiation in four narrow spectral regions
06 p0923 A69-16924

Regularization methods in inverse problems of atmospheric optics, analyzing atmospheric thermal sounding and interpretation of radiation measurements
06 p0919 A69-17616

Inverse problems in radiative transfer applied to remote measurements of IR radiation from planetary atmospheres, noting temperature and water vapor inversions
06 p0919 A69-17617

Collection of Soviet papers on microwave radiation transport in atmosphere covering radiation field, water vapor content determination, absorption and scattering by precipitation, etc
06 p0953 A69-17994

Atmospheric microwave radiation and sensitivity of airborne radiometric sounding in water and moisture contents determination
06 p0954 A69-18001

Shock tube measurements of radiation from simulated Jupiter atmosphere related to thermodynamic conditions encountered by entry probe
[AIAA PAPER 69-184] 06 p0908 A69-18207

Neutron counter for measurements of atmospheric and earth leakage flux of secondary cosmic ray neutrons, discussing design and calibration
07 p1209 A69-19454

Radiative transfer equation solution for spectral line formed in two dimensionally varying atmosphere extended to continuum radiation in inhomogeneous atmospheres
08 p1386 A69-20077

Aircraft measurements of earth atmosphere radiance in 8-14 micron window compared to calculated values as functions of altitude
08 p1311 A69-21094

Local enthalpy measurements in atmospheric argon arc plasma jet at various arc currents, comparing calorimetric and spectrometric methods
09 p1547 A69-21602

Bismuth bolometer as sensor recording IR radiation for thermal radiation fluctuations in atmosphere caused by temperature inhomogeneities
09 p1490 A69-21868

Flux and energy spectrum of secondary electrons at balloon altitude in atmosphere, correcting Beedle and Webber plotting error
09 p1490 A69-21914

Large scale heat sources influence on formation and dynamics of ultralong waves in atmosphere, using linear time dependent quasi-geostrophic model
09 p1491 A69-22164

Slow atmospheric neutron energy spectrum determined by resonance detectors and l/v detectors, measuring cadmium ratio dependence on longitude and latitude
10 p1758 A69-22831

Relative band intensities of atmospheric and IR atmospheric systems of molecular oxygen compared with Franck-Condon factor calculations
10 p1681 A69-23163

Two dimensional autocorrelation functions of outgoing radiation fields usable as quantitative characteristics of cloud distribution structures
11 p1913 A69-24832

Atmospheric thermal radio emission fluctuations effects on radio telescope sensitivity, evaluating dispersion at low angles to horizon
12 p2031 A69-26643

Monograph on atmospheric radiation transfer including absorption, scattering, direct, diffuse, global, thermal and net radiation
12 p2073 A69-26918

Corrections for atmosphere thickness needed for satellite measurements of underlying surface temperature
13 p2293 A69-27850

Atmospheric IR emission measured at high altitudes by interferometer spectrometers behind nitrogen cooled chopper
13 p2254 A69-28261

High energy electron photon cascades event recorded with X ray photography, discussing origin in related atmospheric cosmic ray showers component subgroups
13 p2331 A69-28398

Radio emission of atmospheric cosmic ray showers observed with multiple wideband half wave dipole antenna system, obtaining radiation spatial distribution
13 p2332 A69-28407

Radiation in atmospheric circulation, considering radiative equilibrium, cloudiness and surface interactions, surface temperature and heat input
14 p2477 A69-29826

Electromagnetic noise radiation structure during lightning flash by measuring time duration distribution between pulses
14 p2445 A69-29885

Earth thermal emission intensity measured by two beam radiometer onboard Cosmos 149, noting discrepancy between empirical and theoretical transfer functions of atmosphere
15 p2596 A69-30651

Atmospheric radiative balance measurement on board Cosmos 149, describing design and operation of device
15 p2597 A69-30652

Scattered solar Lyman alpha radiation measurement by Vertical Space Probe station in upper atmosphere including UV radiation
15 p2691 A69-30747

IR horizon of earth from ionospheric IR emission spectra obtained by sounding capsule, discussing earth geometric horizon and particular spectral bands [ONERA-TP-709]
15 p2601 A69-31370

Atmospheric IR spectra determination from transmission functions overlapping effects of atmospheric gases
16 p2814 A69-31792

Hydroxyl band contamination of emission and background radiation from night sky
16 p2774 A69-31987

Ozone and temperature profiles influence on atmospheric radiation intensities measurement by satellite in five spectral regions, noting pressure broadening effect
16 p2786 A69-32633

Radio wave trajectories for waves emitted at 15, 20 and 25 kHz within spherically stratified ionosphere below F 2 maximum
17 p2969 A69-34001

Spectral density of outgoing radiation in 0.6-0.8 micron frequency range, noting reflected radiation and cloud fields correlation functions
19 p3366 A69-36672

Radiating gas flows during hypersonic planetary reentry, discussing atmospheric composition, shock layer characteristics, nonequilibrium flows, etc
20 p3513 A69-36982

Meteorological rocket measurement of corpuscular radiation intensity in upper atmosphere at various latitudes
20 p3591 A69-37962

IR radiation in upper atmosphere, indicating sources of error in data
20 p3533 A69-37968

Effective thinness approximation for spectral line formation from photon degradation processes and random walk of scattered photons, discussing optical thickness
20 p3612 A69-38159

Particle albedos and extinction cross sections computed by Mie theory showing dependence on refractivity, considering thermal radiation from cloudy planetary atmospheres
20 p3614 A69-38255

Atmospheric emissions - NATO Conference, Norway, July-August 1968
21 p3705 A69-38482

Magnetospheric electromagnetic phenomena explained by equations of motion for particle acceleration, forbidden regions and MHD processes
21 p3707 A69-38485

Charged particles beam penetration effects produced in atmosphere, determining particle diffusion and trajectory using Spencer moments and Monte Carlo methods
21 p3709 A69-38502

OH emission rise after sunset and decay at sunrise attributed to strong solar dissociation of ozone
21 p3712 A69-38520

Long wave radiation influx toward atmospheric layers generated naturally by clouds, discussing radiation cooling of atmosphere in cloudy and clear weather
21 p3758 A69-39112

Satellite determination of underlying surface temperature by IR spectroscopy, measuring emitted radiation in atmospheric windows
21 p3759 A69-39114

Daily simultaneous solar measurements of microwave atmospheric absorption and emission to determine frequency correlation between meteorological phenomena and atmospheric parameters
21 p3718 A69-39747

IR molecular radiation spectra of upper atmosphere in 3-8 micron range investigated by rockets and satellites, discussing radiation energy density during magnetic storms
21 p3792 A69-39772

Anomalous X ray signals from Explorer 30 satellite showing saturation in ionization chamber possibly due to enhanced solar and atmospheric X rays
21 p3792 A69-39808

Vertical heat exchange flux model using heat conduction equation compensating for tropospheric and stratospheric radiation divergence, calculating diffusion coefficient
22 p3936 A69-40137

Auroral UV and 3914 A radiation during charged particle precipitation measured by satellite
22 p3939 A69-40507

Fredholm integral equation for source function of Greenhouse effect and finite atmospheres solved by computational algorithm
23 p4239 A69-41607

Radiative transfer theory applied to layer cloud with normal liquid moisture content, discussing volume extinction, scattering and absorption coefficients, etc
23 p4184 A69-42177

Atmospheric gases emission spectra excited by electron beam as function of pressure
24 p4353 A69-43698

ATMOSPHERIC REFRACTION
NT RADIO WAVE REFRACTION

Photographic image degradation resulting from wave front distortion due to atmospheric refractive density gradients over long oblique optical path
01 p0107 A69-10223

Atmospheric influence on ground visibility reduction of airborne objects, using radiative transfer equation to calculate contrast transmission function
01 p0111 A69-11100

Solar limb image vibrations caused by turbulent pulsations in refractive index of lowest atmospheric layers
01 p0156 A69-11183

Refractive index structure constant for different atmospheric turbulence conditions, discussing possibility of improved capabilities for imaging systems
02 p0275 A69-11930

Mean square amplitude and phase fluctuations for propagation of light beam with Gaussian amplitude distribution through medium with randomly varying refractivity
02 p0208 A69-12308

Refractivity distribution at ground level and at one km over India, correlating surface refractivity with difference, noting seasonal and diurnal variations
03 p0393 A69-13304

Atmospheric refractive index for IR radiation in one to six micron region
04 p0591 A69-14300

Reflection and transmission of radiation from very thick and semiinfinite homogeneous atmospheres with arbitrary phase function, using asymptotic fitting method
04 p0595 A69-15285

Electromagnetic wave refraction angles in earth atmosphere, noting effect of stratified discontinuities on angle magnitude
06 p0887 A69-17450

Light waves refractive index distribution from balloon sounding data found to decrease with height in winter regardless of time of day
09 p1536 A69-21917

Atmospheric propagation properties of laser light, discussing particle absorption, gaseous absorption and refractive index disturbance effects
09 p1518 A69-22129

Conical refraction of magnetosonic waves occurring when Alfvén waves propagate at speed of sound in conducting fluid in presence of constant uniform magnetic field
10 p1727 A69-23091

Disturbed index of refraction scattering cross sections and aircraft acceleration increments for clear air turbulence, deriving correlation for measurements
10 p1656 A69-23651

Calculated UV spectra of solar radiation reflected from atmosphere compared with satellites photometric measurements, attributing radiation intensity distribution asymmetries to seasonal dependence of ozone content
12 p2064 A69-25952

Optimum emission wavelengths in atmospheric refractive index determination in optical range finder/refractometer system, noting laser applicability
13 p2260 A69-27826

Vertical refraction effect on gas laser beam propagation near earth surface under various meteorological conditions, comparing index for diffuse light
13 p2220 A69-27827

Refraction error in measurements with simple and radar interferometers, considering atmospheric effect
13 p2221 A69-27961

Large scale ionospheric inhomogeneities anisotropy, dimensions and drift velocities from simultaneously measured irregular refraction
14 p2436 A69-29053

Remote sensing of lower atmosphere refractive structure, using Rake tropospheric scatter channel-sounding technique
14 p2448 A69-29525

Data tabulation and calculation for atmospheric refraction between 5-40 km based on GOST standard atmosphere
15 p2646 A69-30160

Measured atmospheric refraction of bright astronomical objects less than calculated data for large zenith distances
15 p2679 A69-30161

Hydromagnetic fast shock strength and direction in inhomogeneous gravitational atmosphere with uniform magnetic field, discussing heating in solar corona
15 p2680 A69-30202

Plane electromagnetic wave refraction and scattering in solar corona during eclipsed observations of cosmic sources, calculating angular distribution of radiation intensity
15 p2688 A69-30555

UHF propagation in spherically stratified super-refractive troposphere with trapping surface layer, discussing distant field strength dependence on refractivity profile
16 p2752 A69-32388

Air refractivity variations across horizontal and vertical boundary planes between two air masses of slightly different temperatures
17 p3028 A69-32880

Optical distance measurement using laser and atmospheric dispersion method through average refractive index determination over path
18 p3152 A69-35198

Secor data reduction to correct tropospheric refractive effects of radio ranging on earth satellites using tropospheric model
18 p3104 A69-35200

Monochromatic undulating light vertical refraction path curvature radii calculation based on refractive index
18 p3174 A69-35201

Geodetic satellite measurements employing curve fitting approach using least squares analysis to resolve atmospheric refraction and shimmer problem
18 p3104 A69-35202

Light refraction in Venusian atmosphere from Venera 4 probe measured data, noting horizontal rays traversing planet along circumference at 8.3 km height
19 p3427 A69-36625

Electromagnetic wave refraction angles in earth atmosphere, noting effect of stratified discontinuities on angle magnitude
20 p3496 A69-37935

Microwave refraction method for satellite horizontal probing of earth atmosphere, discussing phase delay data inversion, air density and intersatellite relative velocity
21 p3671 A69-38376

Trajectory of light ray propagating through atmosphere based on known refractive index defined by function of special Cartesian coordinates
21 p3675 A69-39245

Atmospheric natural turbulence effect of degradation of laser signal phase and amplitude characteristics, noting refractive index inhomogeneities effect on optical tracking system
21 p3675 A69-39397

Tropospheric refractivity height profile model, computing corrections to satellite Doppler or range data
21 p3678 A69-39748

Laser application to distance measurement in air for determining atmospheric influence, using two wavelengths
22 p3959 A69-39901

Coherent light propagation through turbulent atmosphere observed by applying He-Ne lasers to simultaneous measurements of scintillation effects over homogeneous optical paths
24 p4344 A69-43114

ATMOSPHERIC SCATTERING
NT TROPOSPHERIC SCATTERING

Scattered solar Lyman alpha radiation measurement by Vertical Space Probe station in upper atmosphere including UV radiation
01 p0152 A69-10577

Light polarization properties in atmosphere noting aerosols effect
01 p0075 A69-11189

Partially polarized light and polarization degree measured by photoelectric polarimeter, obtaining scattering indicatrices and polarization degree dependences
01 p0075 A69-11190

Aerosol scattering indicatrix of atmospheric ground layer theoretical estimation to make up for lack of experimental values
02 p0274 A69-11443

Aerosol size distribution and variation with humidity effects on visual range, comparing computations with transmissometer and scattering recorder measurements
02 p0276 A69-12760

Vertical atmospheric turbidity distributions of haze and water vapor, noting effect of variations on scattering and absorption determination
02 p0277 A69-12777

Atmospheric limitations for laser communications, discussing scattering and absorption effects
03 p0389 A69-13193

Directional intensity of radiation emerging from top and bottom of Rayleigh scattering atmosphere
03 p0426 A69-14026

Correlation of received signals with diversified angles of arrival due to scattering by turbulently excited ionosphere
03 p0399 A69-14129

Laser scatter measurements in mesosphere and above for optical radar system parameters
05 p0758 A69-16414

Multiple light scattering in spherical planetary atmosphere based on geometrical model, calculating twilight glow brightness
05 p0828 A69-16632

Vertical ozone distribution in upper atmosphere from satellite measurements of UV solar radiation scattering by solving integral Laplace equation
06 p0996 A69-17733

Double scattering effects of sky radiation and outgoing radiation balance in disturbed atmosphere, using homogeneous plane parallel atmospheric model
07 p1175 A69-18270

Visible radiation scattering around Venus spherical atmosphere computed on basis of Venus 4 and Mariner 5 data
07 p1213 A69-18609

Diffuse reflection and transmission of parallel rays by homogeneous two layer slab, solving simultaneous integral equations governing auxiliary functions
08 p1350 A69-19799

Atmospheric haze effect on Umkehr measurements, considering computation from direct sounding of vertical ozone distribution and from model atmospheres
08 p1308 A69-20316

Rotational Raman scattering in planetary atmospheres, analyzing spectra of deep solar Fraunhofer lines
09 p1601 A69-22207

Limits in applicability of earth equivalent radius to measuring microwave diffraction field in atmosphere
09 p1456 A69-22284

Radiation field at optical depths within plane parallel Rayleigh scattering atmosphere subjected to generalized free surface boundary conditions
09 p1606 A69-22423

Scattered light mean intensity determination in twilight aerosol atmosphere from satellite observations, formulating boundary value problem
10 p1689 A69-23970

Laser radiation backscatter along oblique paths in atmosphere, calculating transmission over horizontal and oblique paths
10 p1659 A69-24220

Multiple scattering of solar radiation in turbid atmosphere, considering equations of sky radiation and radiative transfer
11 p1911 A69-24587

Atmospheric scattering behavior under reduced visibility conditions for laser wavelengths of 0.69 and 1.06 micron
11 p1837 A69-25040

Atmospheric effects on laser beam width, using Born approximation and Gaussian model to obtain TEM mode scattered power expressions
12 p2111 A69-27166

Radar echoes observed from clear atmosphere, discussing scattering mechanisms of thin stable inversions, convective thermals, Benard convection cells, breaking gravity waves, etc
14 p2415 A69-29518

Acoustic sounding of atmospheric structure, utilizing energy backscattered from temperature fluctuations in turbulent regions
14 p2448 A69-29527

Errors in magnitude equation and atmospheric dispersion calculated for 400 mm astrograph, emphasizing constant errors due to objective
15 p2646 A69-30162

Functional relations expressing short wave radiation absorption and scattering in atmosphere
15 p2648 A69-30222

Scattered solar Lyman alpha radiation measurement by Vertical Space Probe station in upper atmosphere including UV radiation
15 p2691 A69-30747

Cauchy system for reflection and transmission functions of finite isotropically scattering atmospheres with specular reflectors, noting use for ozone and cloud heights measurements
15 p2597 A69-31152

Wavelength dependence of polarization of sunlight scattered by Venus atmosphere, including Rayleigh and Mie scattering mechanisms
16 p2860 A69-32237

Multiple light scattering solutions accuracy by diffraction peak omission from cloud and haze analytic phase functions compared for optically thick and thin planetary atmospheres
17 p3032 A69-33159

Cloud scattering corrections added to synthetic spectrum analysis of carbon dioxide bands and water vapor line in Venus spectrum
17 p3032 A69-33161

Earth-reflected solar energy /albedo energy/ distribution model, assuming isotropic scattering by homogeneous atmosphere
[AIAA PAPER 69-591]
17 p2961 A69-33292

Far IR angular scattering observations as diagnostic tool to examine microstructure of high altitude cirrus clouds
18 p3126 A69-34281

Star magnitude variation caused by earth atmosphere related by equation to star altitude, station height, sensor response, spectral radiance, etc
18 p3168 A69-34814

Cloud layer multiple scattering in Jovian atmosphere, discussing influence on Lorentzian contour of planetary absorption lines
18 p3203 A69-35332

Scattered light mean intensity determination in twilight aerosol atmosphere from satellite observations, formulating boundary value problem
21 p3717 A69-39656

Flashlamp-pumped dye laser for resonance scattering studies of upper atmospheric composition, describing laser construction and tuning
22 p3962 A69-40440

Radio wave scattering cross section in wake of body moving in ionosphere, using simplified procedure with asymptotic expressions
22 p3901 A69-41094

Radiation scattering by thick planetary atmosphere according to Rayleigh law, considering luminance variation and absorption ray polarization
23 p4213 A69-41698

Low energy electrons energy loss by inelastic collisions in moving through atmosphere, estimating cross sections and loss rates
24 p4351 A69-42763

Scattered light meter accuracy as function of aerosol particles atmospheric distribution according to size, analyzing measurement errors
24 p4343 A69-42966

ATMOSPHERIC STRATIFICATION

Sonic bang intensities in stratified atmosphere obtained by geometrical acoustics and linear theory modifications to take account of nonlinear effects
01 p0008 A69-10056

Seasonal variation of evening-morning difference in maximum density heights of twilight sodium layer
01 p0063 A69-10275

Soviet rocket and satellite night, twilight, airglow and auroral studies, discussing day sky brightness, night airglow and atmospheric stratification
01 p0066 A69-10941

Tropospheric inhomogeneities properties and wind conditions in relation to lunar limb image deformations
01 p0156 A69-11182

Solar limb image vibrations caused by turbulent pulsations in refractive index of lowest atmospheric layers
01 p0156 A69-11183

Spikes on sonic boom pressure waveforms due to simultaneous focusing and diffraction of planar N wave by inhomogeneous atmosphere layer
01 p0011 A69-11280

Thermodynamics of nonadiabatic vertical ascent of overheated individual air volumes in stably stratified atmosphere
02 p0274 A69-11441

Aerosol scattering indicatrix of atmospheric ground layer theoretical estimation to make up for lack of experimental values
02 p0274 A69-11443

Unusual stratification of F region during solar activities, noting role of traveling inhomogeneities
02 p0237 A69-11663

Similarity theory results for turbulent diffusion in atmospheric surface layer compared with concentration measurements from Project Prairie Grass
02 p0276 A69-12695

Radiative heat loss effect on atmospheric cellular convection, analyzing critical Rayleigh number and width to height ratio of cells
02 p0276 A69-12776

Air mass cumulus cloud growth stimulation by means of vertical updrafts capable of perforation of retaining layers
03 p0461 A69-13409

Ionospheric perturbations involving stratifications at various heights move toward LF and HF sections of ionograms
03 p0423 A69-13538

Frequency distribution of wind velocity as function of height, averaging time and thermal stratification
04 p0628 A69-15088

Electromagnetic wave refraction angles in earth atmosphere, noting effect of stratified discontinuities on angle magnitude
06 p0887 A69-17450

Formation dynamics of thin sporadic layers of E region, determining maximum ionization and electron concentration and electron-neutral atoms collision frequency
06 p0922 A69-17751

Convective clouds effect on large scale stratification, showing cumulus and cumulonimbus self amplifying convection as factor in tropical cyclogenesis
09 p1536 A69-22165

Air layer between target and instrument effect on earth surface temperature conducted with airborne radiometers
09 p1536 A69-22166

Relation between Rayleigh and dynamic Richardson numbers in atmospheric boundary layer in presence of cellular convection
09 p1491 A69-22709

Electron density profile from oblique ionogram calculated by iteration, assuming concentric spherically stratified ionosphere
10 p1684 A69-23826

Stratified atmosphere mean vertical flux due to ground disturbances, obtaining results for various wind and temperature profiles
10 p1685 A69-23856

Characteristic plane harmonic free internal neutral atmospheric wave oblique propagation through horizontally stratified quiet atmosphere for various thermospheric parameters
12 p2065 A69-26101

Forced convection in atmospheric boundary layer above nonuniformly heated earth surface, noting roles of wind and stratification parameters
12 p2126 A69-26579

Thermal stratification effect on wind structure in Ekman layer, assuming turbulent transfer and height dependence
13 p2290 A69-27390

Cellular convection in horizontal gas layer analyzed for causes of vertical air circulation and effect of vertical temperature profile
13 p2291 A69-27725

Temperature vertical profiles rms deviations calculated from temperature measurements during unstable atmospheric stratification
13 p2293 A69-27847

Corrections for atmosphere thickness needed for satellite measurements of underlying surface temperature
13 p2293 A69-27850

Geopotential and wind prediction by integration of prognostic equations of single level atmosphere
13 p2294 A69-27852

E layer fine scale structure, F 1 reactions and F 2 reflected signals analysis during 20 May 1966 solar eclipse
13 p2255 A69-28541

Unusual stratification of F region during solar activities, noting role of traveling inhomogeneities
13 p2256 A69-28694

Turbulence and temperature fluctuations spectral characteristics in thermally stratified atmosphere characterized for various wave numbers, using energy and mass transfer functions
14 p2472 A69-29402

Nonlinear internal gravity waves in stratified atmosphere of unbounded inviscid incompressible fluid, noting wave amplitude inverse proportion to atmospheric density
14 p2441 A69-29574

Turbulent heat and momentum fluxes spectra measured in atmospheric ground layer, describing changes as function of height and stratification conditions
15 p2649 A69-30648

Time variation of altitude distribution of cosmic dust layer in upper atmosphere by Pandora II collector using inflight shadowing technique
15 p2698 A69-31353

Discrete layers criterion for multilayer approximation to real atmosphere in acoustic gravity wave propagation
16 p2774 A69-31980

Numerical method based on thin film optics to determine ionospheric electromagnetic transmission and reflection coefficients for vertical incidence
16 p2752 A69-32392

Relation between Rayleigh and dynamic Richardson numbers in atmospheric boundary layer in presence of cellular convection
16 p2808 A69-32488

F region stratification during solar minimum and maximum, discussing regularities of plasma frequencies and diurnal variations
17 p2959 A69-33005

Horizontal shear effect on structure of growing baroclinic waves by two layer model, assuming small radius of deformation, compared to planetary scale
17 p2960 A69-33150

Turbulence origin and structure in stably stratified media for finite disturbance instability in sloping flows experimentally observed with visualization techniques
17 p2999 A69-33735

Centrifugation effects on body composition and growth of mice
17 p2910 A69-33746

Horizontally stratified ionosphere radio wave reflection and transmission properties, calculating full wave by differential equations
17 p2927 A69-33862

Reflection and transmission coefficient matrices for stratified magnetoionic medium determined by thin film optical technique and iteration procedure
17 p2927 A69-33863

Solitary waves in stratified polytropic atmosphere allowing for convection and disregarding viscosity and turbulence
18 p3167 A69-35338

Turbulence energy spectra in free atmosphere with convective layer surmounted by inversion layer, noting power law followed by velocity components
19 p3362 A69-36406

Large scale cloud layers vertical boundaries approximate determination using atmospheric temperature and moisture data from aircraft sounding
20 p3569 A69-36986

Electromagnetic wave refraction angles in earth atmosphere, noting effect of stratified discontinuities on angle magnitude
20 p3496 A69-37935

Layer model of random discrete inhomogeneities used to derive harmonic wave one dimensional scattering field and mean square of field
21 p3673 A69-38993

Thermal structure of middle atmosphere, discussing heat sources and sinks, photochemical theories of ozone distribution, IR radiative transfer, etc
22 p3940 A69-40537

Acoustical ray tracing in horizontally layered and vertically sectioned atmosphere on digital computer using shifting Cartesian coordinate system
23 p4154 A69-41532

ATMOSPHERIC TEMPERATURE

NT IONOSPHERIC TEMPERATURE

Reversed thermal conditions in mesopause, examining atomic oxygen IR radiation effect
01 p0062 A69-10129

Atmospheric temperature and airglow spectra from IR measurements noting OH bands, atmospheric structure between 10 and 200 km at midlatitude and atmospheric absorption
[UN PAPER 68-95471]
01 p0108 A69-10464

Selective chopper radiometer for remote atmospheric temperature sounding, discussing satellite versions for Nimbus D and Nimbus E
[UN PAPER 68-95797]
01 p0080 A69-10531

Jet stream cirrus radiative characteristics from airborne IR measurements, noting cirrus cloud emission and transmission and cirrus height and temperature estimates
01 p0110 A69-10694

Atmospheric temperature corrections for measurements by rocketsonde and balloonsonde with thermistor, noting dissipation factors and thermal time constants
01 p0081 A69-10697

Jovian atmospheric rotational temperature from rotational lines in methane band
01 p0153 A69-10856

Upper atmosphere physical properties, discussing density and temperature
01 p0066 A69-10942

Turbulence characteristics from light wave fluctuation measurements, discussing applications to small scale inhomogeneities in atmospheric temperature distribution
02 p0274 A69-11437

Atmospheric temperature profiles by regularizing algorithm, discussing influence of random errors in measured radiation and kernel of integral equation on interpretation accuracy
02 p0274 A69-11448

Effective temperature values of ozone used to determine onset time and disturbance height in ionosphere
02 p0238 A69-11670

Mars lower atmospheric pressure, temperature and composition, noting consistency between photometric, spectroscopic and occultation techniques
02 p0319 A69-12104

Venus exospheric temperature for various composition models, discussing carbon dioxide concentration effects
02 p0319 A69-12109

Zonal temperature and spectral characteristics of stratospheric circulation, noting westward rotation of second harmonic
02 p0246 A69-12759

Radiative heat loss effect on atmospheric cellular convection, analyzing critical Rayleigh number and width to height ratio of cells
02 p0276 A69-12776

Atmospheric temperature and water vapor variations and seasonal environmental changes effects on cosmic ray neutron and meson monitor counting rates
03 p0498 A69-12936

Acoustical thermometer-interferometer to measure air temperature between 20 and 50 km
03 p0429 A69-13269

Environmental temperature and water vapor increases associated with ascending thermals estimated by penetrative convection
03 p0460 A69-13340

Middle stratospheric diurnal temperature variation based on model eliminating radiation error of rawinsonde
03 p0461 A69-13344

Diurnal upward and downward flows of atmospheric matter following upper atmosphere temperature nighttime minimum and daytime maximum
03 p0423 A69-13533

Temperature change and fog forecasting diagram modified by Swinbank relation in place of Brunt formula
03 p0462 A69-13965

Mathematical model derivation for observed atmospheric tide phenomena, taking into account thermal and other effects
03 p0426 A69-14098

Electron, ion and neutral particle temperatures of upper atmosphere
04 p0592 A69-14975

Covariances of temperature and meridional wind component and relation to northward flux of sensible heat due to transient eddies in stratosphere
04 p0627 A69-15084

Meteorological PTU /pressure, temperature, humidity/ probe for lower atmospheric layers, discussing detectors and assembly qualities
04 p0601 A69-15229

COSPAR manual on stratospheric temperature and wind measurements, discussing synoptic and time variation study by Arcas and Loki-Judi meteorological sounding rocket systems
05 p0752 A69-15706

Synthesis of simulated aircraft cabin pure fluidic temperature control system
[ASME PAPER 68-WA/FE-30]
05 p0705 A69-16103

Midlatitude neutral thermosphere density and temperature measurements, noting effect of atomic oxygen adsorption by instruments
05 p0755 A69-16268

Turbulence characteristics and wind velocity in atmospheric boundary layer determined from pressure and temperature fields
05 p0788 A69-16453

Stratospheric temperature, wind and ozone concentration measurement during solar eclipse by sounding rocket system
06 p0916 A69-17008

Dynamic properties of upper atmosphere, discussing variations in temperature, density and composition
[UN PAPER 68-05755]
06 p0917 A69-17042

Microwave radiometer for measuring mesosphere and stratosphere temperature as function of altitude using atmospheric oxygen line
06 p0924 A69-17247

IR spectrometer for Nimbus meteorological satellite for terrestrial spectral radiance data for atmospheric temperature profiles
06 p0926 A69-17621

Relaxation method for inversion of full radiative transfer equation, determining temperature profile in atmosphere from outgoing radiance
[JPL-TR-32-1351]
06 p0922 A69-17805

Nightglow intensities correlated with atmospheric ozone concentration and stratospheric temperatures
07 p1123 A69-18675

Optical device for measurement of temperature changes with height in upper atmosphere by rockets or satellites
07 p1132 A69-18676

Annual temperature variation in lower tropical stratosphere, noting effect of equatorial upward motion
07 p1126 A69-19043

Temperature variability data for 120-km altitude from observations of grenade glow clouds, calculating molecular diffusion coefficients and atmospheric temperature and density
07 p1127 A69-19277

Rawin systems for upper air measurements of wind and thermodynamic parameters, using balloon-borne radiosonde
07 p1057 A69-19581

Continuous variate duration estimates by Markov process, giving example of surface air temperature conditional probability distribution
08 p1346 A69-20731

Temperature advection dependence on local temperature changes, discussing variation with atmospheric layer thickness
09 p1534 A69-21509

Automatic measuring device for short term air temperature and wind velocity fluctuations leading to air mixtures propagation
09 p1535 A69-21515

Upper atmosphere temperature distribution estimation on basis of twilight zenith sky intensity measurements, discussing influence of various parameters on accuracy
09 p1487 A69-21653

Emission spectra of BaO during barium release compared with computed spectra for upper atmosphere temperatures evaluation
09 p1488 A69-21664

Atmospheric molecular oxygen temperatures from photoelectric recordings of absorption bands, analyzing relaxation process and photoeffects in oxygen molecules
09 p1490 A69-21863

Atmospheric thermal sounding by measuring outgoing thermal radiation with infinite resolution device, describing regularization method
09 p1491 A69-22707

Stratified atmosphere mean vertical flux due to ground disturbances, obtaining results for various wind and temperature profiles
10 p1685 A69-23856

Venus atmosphere observations compared with Venera 4 measurements of temperature, pressure and carbon dioxide content
10 p1791 A69-24200

Solar chromospheric flares effect on temperature of upper atmosphere observed by satellite at perigee altitude
12 p2149 A69-26447

Kelvin waves relation to quasi-biennial oscillation, using zonal wind and temperature variance data taken at Canton Island
13 p2290 A69-27391

IR day and night airglow of upper atmosphere utilized for atmospheric energy content and reactions analysis
13 p2252 A69-27585

Air mass displacements and diurnal variations in potential temperature at tropopause level
13 p2252 A69-27608

Two temperature lapse rate and single moisture lapse rate troposphere model for calculating temperature and moisture from satellite radiometry
13 p2252 A69-27638

Venusian atmospheric pressure and temperature measurements by Venera 4 probe, noting agreement with Mariner 5 observations
13 p2345 A69-27689

Wind velocity, geopotential and atmospheric layer temperature fields constructed from Tiros 9 satellite cloud data using least squares method and trigonometric polynomials
13 p2292 A69-27733

Temperature vertical profiles rms deviations calculated from temperature measurements during unstable atmospheric stratification
13 p2293 A69-27847

Corrections for atmosphere thickness needed for satellite measurements of underlying surface temperature
13 p2293 A69-27850

Probable sign-invariant periods of air temperature anomalies based on random Gaussian processes
13 p2294 A69-27855

Soviet book on temperature regime of free atmosphere above Northern Hemisphere covering aerological data processing, statistical estimates, latitudinal and seasonal variations
13 p2294 A69-27934

Rocket grenade measurements of earth atmosphere, finding lowest temperature in Alaska
13 p2255 A69-28637

Effective temperature values of ozone used to determine onset time and disturbance height in ionosphere
13 p2294 A69-28701

Acoustical thermometer-interferometer to measure air temperature between 20 and 50 km
14 p2445 A69-28777

Turbulence and temperature fluctuations spectral characteristics in thermally stratified atmosphere determined for various wave numbers, using energy and mass transfer functions
14 p2472 A69-29402

Turbulent heat exchange coefficient radiation absorption and diurnal vertical variations effects on temperature field in surface layer of sea and atmospheric boundary layer
14 p2472 A69-29462

Temperatures and geopotentials of isobaric surfaces in Northern and Southern Hemispheres compared for summer and winter seasons
14 p2473 A69-29724

Tropospheric and stratospheric temperature distribution in 1965 summer and winter from radiosonde and rocket data
14 p2442 A69-29725

Water-air interface models unreliability in calculating atmospheric heat and humidity turbulent flow over ocean
14 p2443 A69-29839

Solar telescope imaging quality measured as function of atmospheric turbulence and temperature above land level
14 p2453 A69-29973

Atmospheric transmission functions dependences on absorbing material, pressure and temperature in 15 micron band of carbon dioxide, introducing corrections
15 p2597 A69-30653

Statistical correlation of temperature and tail-wind data for London-New York route at 50 mb for SST operation
15 p2651 A69-30690

Surface gravity and temperature model atmospheres for O-type stars with UV line blanketing
15 p2693 A69-30778

Upper atmosphere winds and temperature measurements from rocket grenade, discussing TMA experiments
15 p2598 A69-31317

Diurnal variations of wind velocity, temperature and density at high altitude measured by Skylark rockets
15 p2598 A69-31319

Atmospheric density and temperature variations between 200-600 km from Cosmos satellite data, noting solar activity effect
15 p2599 A69-31343

Seasonal and latitudinal models of atmospheric wind and temperature structure between 30 and 120 km altitude
15 p2600 A69-31367

Internal gravity waves suggested as possible cause for anomalous mesospheric temperatures
15 p2601 A69-31376

Longitudinal variations of density, temperature and pressure distributions in stratosphere and mesosphere based on rocket observations, emphasizing arctic and subarctic regions
15 p2602 A69-31379

Rocket and satellite measurements of density, temperature and composition in lower thermosphere, considering altitude dependence
15 p2602 A69-31383

Atmospheric temperature and vertical gradient in E region based on measured instantaneous wind profiles
15 p2603 A69-31399

Exospheric temperature variations by Thomson scattering related to solar and geomagnetic activity, discussing seasonal effect on thermospheric variables
15 p2604 A69-31409

Diurnal thermospheric density, temperature and wind variations due to direct solar EUV heat input and tidal wave from lower atmosphere
15 p2605 A69-31439

Temperature measurements of neutral polar atmosphere at 120-170 km using artificial Na clouds
15 p2606 A69-31448

Spectroscopic observations of Venus atmosphere rotational temperature based on carbon dioxide band at 7883 Å
16 p2852 A69-31563

Virtual temperature change with respect to height of saturated air rising during water vapor condensation, discussing actual temperature and precipitation factor
16 p2808 A69-32454

Atmospheric thermal sounding by measuring outgoing thermal radiation with infinite resolution device, describing regularization method
16 p2782 A69-32487

Spectroscopic study of P Cygni showing ionization temperature, Balmer decrement agreement with calculated value and chemical composition
16 p2864 A69-32595

Sonic anemometers for atmospheric turbulence, discussing variance spectra of vertical wind component and temperature in atmospheric surface layer
16 p2808 A69-32600

Ozone soundings in upper stratosphere, discussing vertical temperature profiles relationship to vertical ozone profiles
16 p2787 A69-32640

Semidiurnal oscillation in thermalgeostrophic atmosphere examined using atmospheric model for tidal oscillations response study
17 p2959 A69-33148

Nonlinear least squares optimization program applied to atmospheric temperature sounding, solving for temperatures at various altitudes from simulated carbon dioxide intensity measurements
17 p2960 A69-33156

IR radiometer to measure Jupiter atmospheric temperature by calculating certain constituents heat radiation levels through Planck formula assuming black body properties
17 p2974 A69-33425

Temperature correction procedures for line-blanketed model atmospheres modified, noting effect on convergence to flux constancy
17 p3039 A69-33730

F1 layer observation at 80-87 degree solar zenith angles explained by additional ionization maximum development in presence of temperature gradients
17 p2967 A69-33985

Composition and temperature of daytime and nighttime neutral tropic lower thermosphere, obtaining atomic and molecular oxygen ratios
18 p3128 A69-34936

Statistical regularization for determining vertical atmospheric temperature profile from measurements of earth radiation in 15 micron carbon dioxide band
18 p3167 A69-35339

Atmosphere radio brightness temperature dependence on discrepancies between real and standard altitude profiles of thermodynamic temperature
19 p3275 A69-36339

Orthogonal functions for determining atmospheric vertical temperature profile from satellite measurement of earth outgoing radiation in carbon dioxide absorption band
19 p3303 A69-36409

Dynamic properties of upper atmosphere, discussing variations in temperature, density and composition
20 p3519 A69-36983

UV solar radiation variation effects on Mars and Venus upper atmosphere temperatures
20 p3595 A69-37136

Atmospheric temperature and moisture fields obtained by linear equations and objectively analyzed, considering underlying sea surface energy and cumulus cloud distribution
20 p3523 A69-37351

Japanese meteorological sounding rocket for atmospheric temperature and wind from 60 km down to balloon observation level, discussing principles and payload separation
20 p3543 A69-37795

Ambient atmospheric temperature and molecular nitrogen density measured simultaneously by rocket-borne electron beam luminescence method
20 p3543 A69-37799

Numerical prediction experiment for dynamical structure of tropical atmosphere in equatorial latitudes, constructing pressure, temperature and vertical motion distributions from wind field
20 p3573 A69-37910

Structure, composition and temperature of Venus atmosphere from spacecraft measurements and ground based observations
20 p3614 A69-38256

Temperature structure of nongray planetary atmospheres, discussing scattering and absorption of solar energy by gas molecules, cloud aerosols and ground
20 p3615 A69-38258

Upper atmospheric temperature by spectroscopy, considering rotational, OH nightglow, nitrogen cation dayglow and twilight temperatures
21 p3712 A69-38516

Spectra and intensities of rocket releases for upper atmosphere composition, temperature and reaction kinetics, noting chemiluminescence and atomic and molecular emissions
21 p3712 A69-38522

Ionospheric electron density and collision frequency profiles examined for changes during December 1967 to January 1968 stratospheric warming
21 p3714 A69-38556

Circulation and temperature fields indices used for studying tropospheric-stratospheric interactions during stratospheric warming at constant pressure levels
22 p3977 A69-39929

Thermal structure of middle atmosphere, discussing heat sources and sinks, photochemical theories of ozone distribution, IR radiative transfer, etc
22 p3940 A69-40537

Model atmospheres of late type stars with solar abundances, effective temperatures between 2000-4000 K and gravities corresponding to dwarf, giant and supergiant stars
22 p4027 A69-40654

Methane rotational temperature in Jovian atmosphere deduced from equivalent widths of lines at 1.1 micron band
22 p4028 A69-40663

Steady state distribution of visible and IR radiation in planetary atmosphere illuminated from outside, calculating atmospheric temperature profile
22 p4031 A69-40910

F region dynamic model, including variations in temperature, electron and molecular ion concentrations, etc
23 p4156 A69-41843

Subjective feeling of dampness correlation with relative humidity of air at zero and below zero C temperatures
23 p4109 A69-41870

Minimum air temperature forecast by terrestrial thermal or long wave radiation balance measurement, using radiometer data
23 p4184 A69-42211

Equatorial stratosphere and mesosphere wind, temperature and density data from rocket and balloon sounding, noting seasonal variations and possible stratosphere-ionosphere coupling
23 p4159 A69-42423

EHF earth-satellite link communication channel emphasizing down link, discussing weather models, atmospheric absorption and temperature, channel coherence bandwidth, etc
23 p4129 A69-42506

Lower atmospheric temperature continuous radio measurement as function of altitude, calculating temperature gradient
24 p4342 A69-42677

Equator-to-pole temperature gradient relation with planetary pressure belts, comparing observational data with theoretical circulation criterion
24 p4345 A69-43149

Lower ionosphere atmospheric density, temperature and pressure profiles diurnal variations from data of radio meteor echoes
24 p4311 A69-43504

Isobaric inhomogeneous atmosphere effect on sonic boom determined, using analytic equation relating transmitted wave intensity to local free stream Mach number
24 p4254 A69-43728

ATMOSPHERIC TIDES

Thermal tidal oscillations in earth atmosphere using circulation model attributed to solar radiation absorption by atmospheric vapor and ozone
03 p0457 A69-13030

Mathematical model derivation for observed atmospheric tide phenomena, taking into account thermal and other effects
03 p0426 A69-14098

Double diurnal oscillation of atmospheric pressure and vertical gradient of electromagnetic field, noting agreement between diagrams and role of atmospheric tides
08 p1306 A69-19866

Zonal westerlies variations associated with tidal cycles, discussing principal component analysis, zonal index, bandpass filtering, aliasing, prediction and stepwise regression
09 p1537 A69-22242

Luni-solar tide interpretation in F2 critical frequency based on sum and difference frequencies production by nonlinear atmospheric response to forces
10 p1685 A69-23829

Data requirements and acquisition for detection and description of tides and gravity waves in upper atmosphere
10 p1685 A69-23833

Reversible ion heating by atmospheric tides, noting radar Thomson scatter observations of E region ion temperature height profiles
11 p1879 A69-25159

Diurnal thermospheric density, temperature and wind variations due to direct solar EUV heat input and tidal wave from lower atmosphere
15 p2605 A69-31439

Wind effects on ionospheric electric currents, using equivalent circuits to study tidal modes and current patterns
16 p2775 A69-32087

Equatorial and polar semidiurnal oscillations in earth atmospheric tides related to inertial oscillations originating in autobarotropic field
17 p2996 A69-32862

Diurnal wind variations below 30 km plotted on constant pressure charts, showing topographical influence on tidal fluctuations
18 p3166 A69-34828

Physical process providing EMF for maintaining electrical structure of stratosphere and mesosphere shown to center in lower ionospheric thermally driven tidal motions
18 p3130 A69-35103

Meteor winds analysis method used on tidal period wind measurement data obtained by chemical release from rocket in 95-135 km region
20 p3574 A69-38092

Lunar semimonthly variations in noon values of D region absorption at Singapore, noting opposite phases of lunar tides in D and F regions
22 p4035 A69-41211

Thermotidal energy transfer from lower neutral atmosphere to and above lower ionosphere, considering tidal wave transmission mechanism
23 p4155 A69-41561

Diurnal and solar cycle variations of thermosphere density and temperature generated by solar EUV input and tidal wave, using two dimensional model
24 p4367 A69-43003

ATMOSPHERIC TURBULENCE

NT CLEAR AIR TURBULENCE

NT GUSTS

NT LOW LEVEL TURBULENCE

Turbulence characteristics up to 150 m above ground, noting surface roughness length directional dependence, longitudinal turbulence spectra and turbulent energy budget
01 p0110 A69-10695

Laser beam phase fluctuations for propagation through turbulent atmosphere, noting interferometer for simultaneous measurements for pairs of rays
01 p0091 A69-10845

Microturbulent velocity parameter correlation to iron-to-hydrogen ratio for G dwarfs, using model atmosphere abundance analyses
01 p0154 A69-10877

Amplitude scintillations of satellite radio signals during sunrise due to ionospheric turbulence induced electron content variations
01 p0067 A69-10980

Atmospheric turbulence power spectra for design criteria of future low altitude aircraft from LO-LOCAT program, analyzing turbulence scale lengths [AIAA PAPER 68-216]
01 p0011 A69-11023

- Light aircraft all-weather flight feasibility, discussing storm and clear air turbulence detection and icing prevention
01 p0111 A69-11049
- Blob existence in temperate latitude sporadic E from ionosonde and VHF oblique incidence measurements
01 p0070 A69-11162
- Spikes on sonic boom pressure waveforms due to simultaneous focusing and diffraction of planar N wave by inhomogeneous atmosphere layer
01 p0011 A69-11280
- Turbulence characteristics from light wave fluctuation measurements, discussing applications to small scale inhomogeneities in atmospheric temperature distribution
02 p0274 A69-11437
- Wind perturbations characteristics near large convective cloud banks as function of ascending current, wind shear and turbulence
02 p0274 A69-11446
- Turbulence conditions in atmospheric boundary layer within similarity theory, including wind velocity and temperature profile
02 p0274 A69-11447
- Free atmospheric turbulence theory extended to include ionosphere, deriving equations for horizontal ionospheric wind together with turbulence coefficient
02 p0274 A69-11678
- Refractive index structure constant for different atmospheric turbulence conditions, discussing possibility of improved capabilities for imaging systems
02 p0275 A69-11930
- Stress and heat flux spectra estimation using Busch-Panofsky observations
02 p0276 A69-12698
- Vertical wind velocity structure and turbulent heat flux temperature measurements over steppe and sea, noting underlying surface influence
03 p0458 A69-13270
- Turbulent parameter and turbulent diffusion vertical profile diurnal variations determination based on measurements of Rn 220 and thorium-B concentrations near ground
03 p0459 A69-13273
- Radar method to estimate turbulent motions in clouds
03 p0459 A69-13289
- Planetary boundary layer response to time varying pressure gradient force
03 p0460 A69-13337
- Nonstationary model of mesoscale atmospheric vortex with vertical axis based on atmospheric thermohydrodynamics
03 p0462 A69-13932
- Standard deviation of wind direction fluctuations by simultaneous measurements of wind vane displacements and number of wind direction reversals
04 p0626 A69-14911
- Tetron flight observations of eddy velocities in planetary boundary layer, noting effects of height and seasonal variations
04 p0626 A69-14912
- Turbulent transport of energy in atmospheric boundary layer near earth surface resulting from forced convection
04 p0627 A69-15087
- Wind turbulence measurement by shock wave tracking using Doppler radar, stressing relative location of antenna and sound source
04 p0628 A69-15149
- Absorption effect on fluctuation of signal level propagating in turbulent atmosphere taking into account absorption in water vapor
05 p0717 A69-15634
- Turbulence characteristics and wind velocity in atmospheric boundary layer determined from pressure and temperature fields
05 p0788 A69-16453
- Submillimeter plane monochromatic wave amplitude and phase fluctuations during propagation in turbulent atmosphere surface layer, considering absorption by water vapor
05 p0722 A69-16778
- Solar flares acceleration processes related to solar atmospheric currents
06 p0995 A69-17442
- Atmospheric wind velocity in Northern and Southern Hemisphere, noting increase with height
06 p0921 A69-17747
- Image averaging time effects on modulation transfer function (MTF) of system comprising telescope objective and horizontal propagation path in turbulent atmosphere
06 p0890 A69-17806
- Wing penetration into zone of sharply localized gust, deriving equations for forces and moments acting on wing
07 p1050 A69-18742
- Lifting rotor blades flapping response to atmospheric turbulence, discussing time averaging and perturbation schemes
[AIAA PAPER 69-206] 07 p1057 A69-19577
- Qualitative criterion for observing atmospheric turbulence structure by shadowgraph based on medium statistical properties, using ray optics
07 p1183 A69-19650
- Spherical wave generalization for plane light wave propagating in turbulent medium, describing circular objective averaging effect on intensity fluctuations
08 p1351 A69-20438
- Automatic measuring device for short term air temperature and wind velocity fluctuations leading to air mixtures propagation
09 p1535 A69-21515
- Cross-spectral density of pressure induced on lifting surface by isotropic atmospheric turbulence, solving integral equation
[ONERA-TP-681] 09 p1613 A69-21689
- Mean and turbulent energies and energy spectra of large scale wind velocity pulsations, analyzing annual variation for fixed wave numbers
09 p1536 A69-21861
- Laser beam optical scintillation under atmospheric turbulence conditions, showing log amplitude variance saturation and decrease
09 p1517 A69-22079
- Acoustic waves pressure field micropulsations in turbulent fluid, analyzing space-time spectrum
09 p1492 A69-22710
- Solar outburst and storm accompanying 9 June 1968 flare, noting radio evidence for coronal instability before flare
09 p1582 A69-22747
- Statistical characteristics of transverse shifts of ray directions in turbulent atmosphere for arbitrary wave parameter values
10 p1657 A69-23942
- Atmospheric turbulence effect on linear antenna gain in direction of radiation pattern maximum determined together with antenna dimensions
11 p1844 A69-24435
- He-Ne laser light coherence distortion by atmospheric turbulence
11 p1894 A69-24452
- Coherent optical target recognition through randomly turbulent medium for imaging system offsetting image degradation due to turbulence
11 p1894 A69-24470
- Atmospheric turbulence effects on aircraft flight noting causes of turbulence
11 p1911 A69-24527
- Holographic techniques application to optical systems for high resolution images of distant objects by overcoming atmospheric turbulence and light diffraction limitations
11 p1883 A69-24688
- Turbulence induced depolarization of linearly polarized He-Ne laser beam at 6328 Å traversing atmosphere near ground level
11 p1896 A69-24842
- Aircraft dynamic response to three dimensional turbulence, establishing unique correspondence between spatial symmetry properties of ambient fields of turbulence and aircraft
11 p1823 A69-25503
- Statistical turbulence theory applied to turbulent flow transport properties in lower atmosphere
12 p2125 A69-25894
- Linearized atmosphere model above flat earth, applying variational principle to energy between geostrophic equilibrium and reestablished states
12 p2125 A69-25954
- Turbulent boundary layer in lower atmosphere downward of abrupt change of surface roughness, determining surface shear stress and roughness height
12 p2125 A69-26014
- Jet stream winds direction correlated with direction of LF pressure disturbances crossing microbarograph array
12 p2125 A69-26015
- Spherical wave propagation in homogeneous turbulent medium, discussing nonstationary statistics as applied to vertical propagation in atmosphere
12 p2029 A69-26251
- Atmospheric turbulence effects on detection and resolution of incoherent objects, discussing error probabilities of threshold and maximum-likelihood systems
12 p2029 A69-26252
- Atmospheric turbulent energy spectra in boundary surface layer, considering homogeneous axisymmetric model in presence of temperature and velocity gradients
12 p2067 A69-26355
- Variable solar activity effect on earth upper atmosphere rotation at altitudes from 200 to 300 km
12 p2069 A69-26442
- Satellite position errors due to atmospheric instability, discussing altitude-temperature relation and stellar scintillation synchronism for stars at small angular distances
12 p2158 A69-26445
- Horizontal wind velocity energy spectra, attributing free atmosphere meso and microscale turbulence to meso and micrometeorological processes
12 p2070 A69-26575
- Atmospheric boundary layer mean turbulence and vertical velocity calculations, tabulating layer characteristics for various turbulent heat flux and geostrophic wind velocity values
12 p2126 A69-26578
- Spectral model used for analysis of atmospheric turbulence as related to loads on gliders
12 p2127 A69-26931
- Solar atmosphere five minute oscillations observed by Frazer divided into two harmonic atmospheric model for studying oscillation region height and mean temperature
13 p2343 A69-27627
- Numerical methods for time integrating first order differential equations, emphasizing atmospheric oscillations in baroclinic model, evaluating errors
13 p2290 A69-27636
- Radiation fields and large scale atmospheric disturbances analyzed, using radiation maps from Cosmos satellites
13 p2291 A69-27727
- Blocking processes synchronous development involving atmospheric circulation disturbances in Northern and Southern Hemispheres, noting localization in Pacific and Atlantic oceans
13 p2292 A69-27840
- Vortices interaction effect on vertical turbulent heat flow in atmosphere boundary layer, determining dependence of vortex mean vertical temperature gradient
13 p2293 A69-27841
- Electric field profile and turbulence ratio relationship in free atmosphere as function of vertical current density, conductivity, potential gradient and charge density
13 p2295 A69-28523
- Free atmospheric turbulence theory extended to include ionosphere, deriving equations for horizontal ionospheric wind and turbulence coefficient
13 p2295 A69-28709
- Vertical wind velocity structure and turbulent heat flux temperature measurements over steppe and sea, noting underlying surface influence
14 p2471 A69-28778
- Turbulent parameter and turbulent diffusion vertical profile diurnal variations determination based on measurements of Rn 220 and thorium-B concentrations near ground
14 p2472 A69-28781
- Turbulence and temperature fluctuations spectral characteristics in thermally stratified atmosphere determined for various wave numbers, using energy and mass transfer functions
14 p2472 A69-29402
- Electro-optical automatic gain control system to reduce atmospheric turbulence produced fluctuations in received optical signal strength
14 p2459 A69-29491
- Focused beam wave applied to atmospheric turbulence probing for spectral density of index of refraction, structure constant and wind velocity
14 p2414 A69-29512
- Log amplitude fluctuations of laser beam in turbulent atmosphere, obtaining asymptotic expressions for near field of transmitter aperture
14 p2460 A69-29638
- Solar telescope imaging quality measured as function of atmospheric turbulence and temperature above land level
14 p2453 A69-29973
- Turbulence coefficient in layers between main isobaric surfaces based on wind and temperature fields analysis
15 p2648 A69-30646
- Air masses transformation, solving nonlinear simultaneous system of equations of motion, heat influx and turbulent energy balance
15 p2649 A69-30647

Turbulent heat and momentum fluxes spectra measured in atmospheric ground layer, describing changes as function of height and stratification conditions

15 p2649 A69-30648

Photoelectric index of main sequence stars in F5 to G2 spectral range as indicator of atmospheric microturbulent velocities

15 p2695 A69-30999

Interferometer for measuring electric fields spatial correlation function at camera aperture, describing laser light coherence measurements after propagation through turbulent atmosphere

15 p2653 A69-31164

Rocket ejected vapor trails structure in lower thermosphere showing no evidence of atmospheric turbulence

15 p2602 A69-31393

Optical communications experiments for quantitative data at 6328 Å on system fading due to scintillation and atmospheric turbulence effects on coherent propagation at 10.6 micron

16 p2748 A69-31564

Piloting errors due to false instrument readings during turbulent atmosphere flight

16 p2734 A69-32007

Horizontal wind pulsations in precipitations obtained from pulsed Doppler radar data, including degree of turbulent flow anisotropy

16 p2807 A69-32271

Vertical wind velocity pulsations in precipitation and passage through subfrontal clouds measured by pulse radar

16 p2807 A69-32272

Turbulence dissipation rate in clouds and precipitations determined from rms width of vertical sounding radar signal fluctuation spectra, distinguishing gravity and turbulence effects

16 p2807 A69-32273

Turbulence and SST, discussing subsonic accidents, probability of encountering gust induced accelerations, turbulence at cruise altitudes, radar storm return and mountain waves

16 p2808 A69-32368

Acoustic waves pressure field micropulsations in turbulent fluid, analyzing space-time spectrum

16 p2782 A69-32489

Absorption effect on fluctuation of signal level propagating in turbulent atmosphere taking into account absorption in water vapor

16 p2754 A69-32492

Sonic anemometers for atmospheric turbulence, discussing variance spectra of vertical wind component and temperature in atmospheric surface layer

16 p2808 A69-32600

Mixing length model to relate turbulent shear stress to mean velocity field within planetary boundary layer above surface roughness change

17 p2997 A69-33154

Analog correction method to suppress pilot maneuver effects during analysis of aircraft accelerations induced by atmospheric turbulence

[ICAS PAPER 68-39] 17 p2901 A69-33590

Turbulence origin and structure in stably stratified media for finite disturbance instability in sloping flows experimentally observed with visualization techniques

17 p2999 A69-33735

Meteorological analysis of stratospheric clear air turbulence flights, discussing vertical temperature structure in terms of wave motion and turbulence intensity

17 p2999 A69-33736

Phase fluctuation measurements of laser beam propagating through turbulent atmosphere

17 p2927 A69-33855

Laser beam propagation through turbulent medium, investigating statistical distribution of phase shift fluctuations

17 p2976 A69-33857

Radial velocities differences as indicator of stellar atmospheric turbulence, applying method to sun

17 p3044 A69-34177

Artificial horizon indicator design modifications to facilitate maintaining horizontal aircraft position, discussing automatic pilot advantages in turbulence and flight simulators

17 p2903 A69-34214

Soviet monograph on turbulence in free atmosphere covering measurement and statistical techniques, tropospheric and stratospheric disturbances, wind pulsations, effects on aircraft flights, etc

18 p3165 A69-34351

Correlation between disturbances in troposphere and in geomagnetic field observed after widespread high winds and magnetic storms, using superposed epoch method

18 p3127 A69-34648

Climatological patterns of atmospheric kinetic energy dissipation in free atmosphere derived from upper wind statistics of Northern Hemisphere, using Kolmogoroff functions

18 p3166 A69-34825

Solitary waves in stratified polytropic atmosphere allowing for convection and disregarding viscosity and turbulence

18 p3167 A69-35338

Atmospheric flow with respect to mesoscale disturbances, examining conditions for hydrodynamic stability

18 p3167 A69-35343

Operational flight tests of IR atmospheric turbulence detection system

[AIAA PAPER 69-799] 19 p3367 A69-35631

Light rigid civil aircraft response to continuous atmospheric turbulence estimated using two rigid body degrees of freedom method for vertical and lateral gusts

[AIAA PAPER 69-766] 19 p3433 A69-35657

Turbulence energy spectra in free atmosphere with convective layer surmounted by inversion layer, noting power law followed by velocity components

19 p3362 A69-36406

Diurnal and seasonal phase-difference fluctuation measurement of radio waves propagating along ground layer caused by atmospheric turbulence

20 p3485 A69-36971

High altitude aircraft range requirements for airborne turbulence detector, taking into account passenger comfort, turbulence geometry, maneuverability and pilot decision making

20 p3537 A69-37164

Atmospheric turbulence and impurities diffusion considered as stochastic processes, deriving equations and covariance functions for flow characteristics

20 p3570 A69-37426

Thermal stability and radioelectric turbulence parameter derivative relationship for dry adiabatic stratification of lower troposphere and for inversions

20 p3571 A69-37509

Atmospheric phenomena effects on terrain imaging radar systems performance, discussing tropospheric turbulence and ionospheric irregularities

20 p3490 A69-37647

Components of turbulent energy balance at 1 and 4 meter heights, discussing average motion energy transformation into turbulent energy

20 p3571 A69-37696

Atmospheric turbulence statistical distribution mass measurements using velocity, gravity and weight recordings based on calibration of aircraft as turbulence measuring instrument

[ONERA-TP-699] 20 p3541 A69-37754

Received electromagnetic fields fluctuations due to transhorizon propagation, emphasizing fading, tropospheric turbulence correlation and rapid fluctuations due to small scale index variations

20 p3494 A69-37810

Doppler radar observations of precipitation induced mesoscale wind oscillations near melting layer produced by pressure perturbations due to horizontal variations in cooling

20 p3572 A69-37909

Electrohydraulic servosystem to counteract atmospheric turbulence effects on B-52 global bombers, noting reduction in aircraft fatigue and structural damage

20 p3467 A69-38184

Diurnal entrainment deviations and atmospheric turbulence effects on flash photographs from Geos 1

21 p3793 A69-38339

Wind motion and turbulence in upper atmosphere from Rehbar 15 and 16 rocket observations

21 p3703 A69-38362

Turbulent field structure between 90-120 km estimated from sodium clouds diameters variation ejected from rockets

21 p3713 A69-38524

Scattering equations for sonic boom waveform spike perturbations produced by atmospheric turbulence, discussing supersonic aircraft pressure signatures

21 p3646 A69-38689

Atmospheric natural turbulence effect of degradation of laser signal phase and amplitude characteristics, noting refractive index inhomogeneities effect on optical tracking system

[AIAA PAPER 69-871] 21 p3675 A69-39397

Optical communication through random atmospheric turbulence via heterodyne and video detection, estimating performance from optical wave propagation analysis

23 p4125 A69-42186

Three dimensional structure of large scale disturbances in lower stratosphere and upper troposphere in equatorial Pacific, using power spectral and synoptic analysis

23 p4159 A69-42345

Atmospheric model for calculating wind velocity profile and turbulence of stable atmospheric boundary layer with given temperature stratification and pressure gradient distribution

23 p4184 A69-42489

Terrain surface irregularities influencing electromagnetic wave propagation in inhomogeneous atmosphere, using perturbation calculation

24 p4281 A69-42611

Log amplitude mean value for Gaussian or laser-like optical beam propagating horizontally in turbulent atmosphere

24 p4282 A69-42970

Coherent light propagation through turbulent atmosphere observed by applying He-Ne lasers to simultaneous measurements of scintillation effects over homogeneous optical paths

24 p4344 A69-43114

Energy density distribution in power spectra of turbulence in long wave region in free atmosphere

24 p4346 A69-43155

Thunderstorm turbulence relationship to weather radar echoes from storm penetrations in Oklahoma by instrumented aircraft

24 p4347 A69-43720

ATMOSPHERICS

NT DAWN CHORUS

NT HISS

NT IONOSPHERICS

NT SUDDEN ENHANCEMENT OF ATMOSPHERICS

NT WHISTLERS

Atmospheric noise at millimeter wavelengths, discussing solar radiation and antenna near and far field patterns

01 p0028 A69-10420

Spectral parameters of VLF radio noise given as functions of azimuth from atmospherics analyzer observations

01 p0033 A69-10971

Soviet collection of papers on atmospheric electricity

04 p0593 A69-15101

Histograms construction for azimuthal distribution of atmospherics from visual and photographic data obtained by CRT display goniometer

04 p0593 A69-15102

Observation data on source distribution of atmospherics with respect to distance from observation point

04 p0593 A69-15103

CRT direction finder with linear scanning to determine statistical data for azimuthal distribution of atmospherics

04 p0600 A69-15104

Near earth atmospherics spectrum characteristics determined by analytical expressions for elementary signals in 2-30 kHz range

04 p0593 A69-15105

Frequency dependence of atmospheric noise intensity from 1 to 1000 kHz at low and medium latitudes

05 p0758 A69-16410

Atmospheric noise at 33.5 GHz observed most on days of cumulus clouds probably due to local convective activity

05 p0721 A69-16661

Ground based radio telescope sensitivity to radio emission from earth atmosphere and galactic sources

07 p1099 A69-18515

Magnetospheric ELF noise, discussingOGO 3 spectrum analysis

07 p1124 A69-18834

Atmospheric radio noise at 27 kc measured at European stations, showing field strength variations, latitude dependence and amplitude distribution

09 p1491 A69-22163

Coherent FSK LF/VLF radio communication modem with large predetection bandwidth for improvement of reception in atmospheric noise

09 p1458 A69-22473

VLF polar chorus emission and geomagnetic variations caused by compressions or expansions of magnetosphere

10 p1681 A69-22803

Artificial magnetospheric VLF noise triggering by Morse code dots at 14.7 kHz from NAA verified at Antarctica

11 p1878 A69-25155

Electromagnetic energy spectra of lightning expressed as function of electric field spectral density of atmospheric
14 p2437 A69-29076

Atmospherics observations in Japan during last 40 years, discussing relation to meteorology, statistical characteristics, whistlers, noise phenomena, periodic variations, solar effects and ray theory
15 p2595 A69-30418

Earth ionosphere cavity model for atmospheric waveform shape, considering ELF pulse distortion after propagation through antipode
16 p2750 A69-31978

Modified pulse height analyzer /PHA/ for sample amplitude height occurrence frequency measurements obtaining amplitude probability distribution/APD/ and three moments of atmospheric noise
18 p3102 A69-34960

Atmospheric sources automatic location by direction finding network based on triangulation network principle
18 p3102 A69-34961

Antarctic VLF emissions observations at 12 kHz, showing dependence on geomagnetic disturbances, auroras and radio absorption in ionosphere
18 p3102 A69-34964

Atmosphere radio brightness temperature dependence on discrepancies between real and standard altitude profiles of thermodynamic temperature
19 p3275 A69-36339

Terrestrial radio noise source aspects including atmospheric, propagation influence, lightning-generated noise and whistlers, radio interference, etc
19 p3276 A69-36434

Terrestrial radio noise from lightning discharges measured by Ariel 3 satellite to deduce sources distribution
21 p3759 A69-39259

Nighttime atmospheric shape analysis created by lightning and propagating in earth lower ionosphere waveguide
22 p3941 A69-40961

ELF atmospheric propagation, determining slow-tail atmospheric group velocity, relating characteristics to spectral characteristics of lightning
23 p4114 A69-41362

ELF atmospheric excitation, discussing cloud to ground and intracloud lightning discharges Fourier integration and current moment spectrum
23 p4115 A69-41562

Earth sphericity and earth-ionosphere waveguide effects on terrestrial atmospheric, deriving form by computer
23 p4157 A69-41860

Peak field strengths of atmospheric radio noise bursts from lightning flashes at VHF and flash distance estimates at tropical latitudes
23 p4126 A69-42355

Wideband vertical electric field noise reduction in ELF/VLF atmospheric receiving systems using bucking, delayed feedback and frequency rejection units
23 p4128 A69-42504

ATOM CONCENTRATION

Field ion microscope study of imaging solute atoms of dilute Pt-based W, Pd, Co, Ni and Au alloys
01 p0092 A69-10055

Nondegenerate dense plasma thermodynamic stability by nonclassical methods, discussing atomic concentration dependence on ionic concentration
05 p0802 A69-15892

Interaction between point defects and magnesium atoms in aluminum irradiated by neutrons, analyzing magnesium concentration effect on recovery
05 p0781 A69-16613

Noncoherent scattering of atoms with Maxwellian distribution in moving atmosphere, discussing Doppler broadening expansion in Legendre polynomials
07 p1219 A69-19286

He concentration measurement in transient He-air mixture by spectroscopic analysis of fluorescence excited by high energy electron beam
08 p1312 A69-19860

Photometric methods for determination of H atom and hydroxyl radical concentrations in hot gases in convergent-divergent nozzles, noting Li/ lithium hydroxide absorption
09 p1496 A69-21952

Pd-D resistivity variation with D concentration at room and liquid He temperatures, discussing structural resistivity
10 p1745 A69-23357

Fast electron energy distribution function and atom concentration in first excited level in weakly ionized plasma, considering transitions between excited levels
10 p1739 A69-23628

Atomic hydrogen vertical profiles with increased high-low altitude ratio for interpreting observations of thermospheric and exospheric hydrogen abundance
14 p2440 A69-29130

Number and mass of sodium atoms in comet Ikeya-Seki 1965f head calculated from spectral observations, ascribing D lines to resonance scattering of photospheric radiation
15 p2685 A69-30526

Rb 87 vapor laser output power and spectral line width dependence on optical pumping intensity and atom density in resonator
19 p3336 A69-36343

Radiative recombination in GaAs p-n structures having region with concentrations of Ge atoms
21 p3780 A69-39044

ATOMIC BATTERIES
U RADIOISOTOPE BATTERIES

ATOMIC BEAMS

Molecular and atomic beam focusing in electric and magnetic fields with helical symmetry of specified type
06 p0959 A69-16917

Total ionization cross section for symmetric collisions measured as function of energy by using neutral atomic beams of neon and krypton
08 p1356 A69-20740

Ionization within intersecting alkali atomic and slow electron beams, observing ionization cross sections increment near ionization threshold
15 p2655 A69-30726

Atomic beam for H maser operation prepared by using nonadiabatically changing magnetic field in transition region
15 p2635 A69-31103

Single hyperfine-state atomic beam selector effect on hydrogen maser stability, discussing DC magnetic field variation
18 p3153 A69-35306

Reactive scattering from solid surfaces, discussing atom beam reaction of O with heated Ge and Si single crystals
19 p3377 A69-36178

Ar-Kr integral collision cross sections based on density measurements of Ar beam passed through liquid nitrogen cooled Kr filled scattering chamber
19 p3378 A69-36185

Ion production in K/diatomic Br system by high energy K beam, obtaining total ionization cross section as function of energy
19 p3378 A69-36187

Spherical aberration effect on atomic beam focusing in six pole magnetic system
19 p3380 A69-36602

Metastable atom detection system for ground state atom beams, measuring Ar beam density five orders lower than background gas density
22 p3950 A69-41230

DC beam experiment for determining molecule sticking coefficients of gas beams incident on Ti, Ba and Sr gettering surfaces at cryogenic temperature
23 p4151 A69-41544

ATOMIC CLOCKS

Ephemeris Time and Atomic Clock Time roles in astronomy, discussing errors in daylength determination for mechanical, Shortt and atomic clocks, UT and Ephemeris Time
01 p0156 A69-10989

Laboratory equipment for atomic and astronomical time and frequency measurement
05 p0827 A69-16582

Atomic clocks frequency standards, discussing masers, atomic beam resonators and gas cells and various applications
09 p1501 A69-22598

Earth rotation velocities nonuniformity according to astronomical observation data obtained from Universal Time and atomic time scales comparison
11 p1957 A69-24407

Atomic clock with sequential optical pumping using resonance frequency of hyperfine transition of ground state Rb 87
12 p2090 A69-26291

Atomic and astronomical time and frequency measurement via Loran C and VLF/Omega phase tracking receivers
15 p2615 A69-31285

Airborne clock used to synchronize atomic clocks at different locations, discussing equipment and error sources
17 p2975 A69-33593

National Physical Laboratory atomic clock improvements, describing use of cesium 133 as second of time standard and phase shift effects on precision
21 p3720 A69-38548

Earth rotation velocities nonuniformity according to astronomical observation data obtained from Universal Time and atomic time scales comparison
24 p4391 A69-43797

ATOMIC COLLISIONS

Analytical mechanics of chemical reactions, discussing natural collision coordinates for three dimensional reactions and exchange collisions for molecule and atom
01 p0123 A69-10681

Soviet book on atomic collisions and elementary processes in plasma covering atomic interactions, elastic and inelastic collisions, negative ions, autoionization, ion mobility and recombination
01 p0132 A69-11200

Diatomic dissociating gas free atoms virial coefficient used to study thermodynamic properties and transport coefficients of gases
02 p0283 A69-11574

Polarized orbital method for calculating electron-atom scattering amplitudes, noting discontinuous wave function, nonvariational technique and strong dependence on parameter
02 p0284 A69-12702

Saturation effect theory in gas system, taking into account Doppler expansion and collisions based on density matrix
03 p0437 A69-13042

Ionizing shock front structure in monatomic gas, considering atom-atom and electron-atom collisional ionization rates
03 p0414 A69-13138

Energy distribution among products of reactive collision of atomic H with Br molecule yielding HBr and Br atom, using perturbed Morse oscillator approximation
03 p0472 A69-13316

Interatomic collisions effect on multimode He-Ne lasers output power and spectral composition
04 p0610 A69-14383

Effect of dipole/dipole resonance interaction between excited and nonexcited atoms on gas thermodynamic properties, showing unstable quasi-molecules formation
04 p0632 A69-14551

Distribution functions for fast electrons near anode calculated by kinetic theory, assuming weakly ionized plasma with smaller Debye length than collision mean free path
04 p0635 A69-14764

Separation of center of mass and rotational coordinates from N electron diatomic Schroedinger equation
04 p0554 A69-14861

Interaction of gas atoms with solid surface, giving mathematical model assumptions
04 p0632 A69-15008

Continuous radiation production in positive plasma column of inert gas considered as manifestation of plasma electrons bremsstrahlung from interaction with gas atoms
05 p0800 A69-15741

Three atom interaction contribution to nonideal dissociating gas state equation, determining quantum correction for third virial coefficient
05 p0796 A69-15893

Atomic hydrogen-bromine linear collision reaction intermediate formation and reactive scattering cross sections quantum mechanical calculation, using perturbed Morse oscillator approximation
05 p0796 A69-15911

Noble gas atom simultaneous ionization and excitation by removal of metastable electron in fast collision
06 p0961 A69-17137

Ratios of gas kinetic electron-atom collision integrals of Ramsauer for Ar
06 p0963 A69-17822

Linear approximation of ionization instability in disk channel of nonequilibrium MHD generator, calculating interatomic collisions frequency as function of temperature
06 p0871 A69-17911

Rotational inelastic transitions in atom-diatomic collisions, discussing restricted distorted-wave approximation, transition probabilities, impact parameters, inelastic and glory quenching, etc
07 p1185 A69-19302

Physics of electronic and atomic collisions - Conference, Leningrad, July 1967
07 p1186 A69-19651

Cross sections for inelastic interactions of electrons with atoms and heavy impurity ions and processes of atomic excitation

07 p1195 A69-19652

Atomic collision processes in astrophysics noting stellar continuum spectra, Ca ion and He lines, solar corona, heat balance in H I regions and planetary nebulae

07 p1224 A69-19653

Collisional processes relevant to daytime and nighttime models of upper atmosphere neutral density and temperature

07 p1130 A69-19654

Electron collisional excitation cross section calculations for atoms and ions using modified Born approximation taking into account three physical effects

07 p1187 A69-19658

Atomic excitation and ionization involving inner shell electrons during collisions between atoms and ions, examining photoabsorption by inner shell electrons

07 p1187 A69-19659

Cross section calculations for elastic and inelastic electron collisions with atoms, ions and molecules and ionization of atomic systems by electrons and photons

07 p1187 A69-19660

Atomic collision theory, discussing cross section calculations by Gryzinski classical method, variational methods and Fadeev equations for three particles

07 p1187 A69-19661

Atomic and electronic collisions experimental study techniques, noting three data logging systems

07 p1187 A69-19662

Electron collision excitation of positive ions, calculating collision cross sections for transitions between levels of P term

07 p1187 A69-19714

Forward scattering of metastable and ground state argon atoms after argon ion-atom charge transferring collisions, discussing excitation resonances

08 p1354 A69-19809

Interaction between atom and plane monochromatic traveling wave taking into account pressure effect occurring in strong collision model

08 p1354 A69-19954

Polarization of Lyman alpha radiation in hydrogen rare gas collisions calculated in Born and distortion approximations including rotational coupling

08 p1355 A69-20207

Collision cross sections between monatomic gas impurities and metastable atoms in He-Ne laser from output curve and impurity partial pressure

08 p1325 A69-20278

Total ionization cross section for symmetric collisions measured as function of energy by using neutral atomic beams of neon and krypton

08 p1356 A69-20740

Channel coupling effects in elastic electron-atom collisions involving electric dipole transitions, noting phase shifts and differential cross section

09 p1542 A69-21623

Complex trajectory method for describing tunnel effect during atom ionization in strong light wave field, using quasi-classical approximation

09 p1543 A69-22658

Linear dependence of saturation parameter on active medium density of He-Ne laser explained by considering exchange collisions of neon atoms

09 p1521 A69-22687

Thermodynamic potential of rarefied plasma from Coulomb interactions of atoms with electrons and ions

10 p1728 A69-23134

Direct Coulomb interaction matrix elements between hydrogen atoms in ground states calculated, presenting interaction potential

11 p1921 A69-24416

Translational-vibrational energy transfer value between atom and diatomic molecule determined using steric factor with repulsive interaction potential

12 p2134 A69-25988

Charged state variations during protons and inert gas atoms interactions analyzed by coincidence method

12 p2133 A69-26543

Negative charge production by H atoms collisions with rare gases and hydrogen, noting smooth rise of cross section with energy for rare gases

13 p2302 A69-27459

Oscillations and decomposition of diatomic gas molecules at high temperatures during atom/molecule collisions, deriving kinetic equations for energy level changes

13 p2302 A69-27797

Inelastic interaction cross sections of nuclear active cosmic ray particles with atomic Fe and Pb in 100 to 1000 gev range

13 p2330 A69-28384

Spatial distribution patterns of gaseous argon atoms scattered from solid argon surface

13 p2300 A69-28658

Interatomic collisions effect on multimode He-Ne lasers output power and spectral composition

14 p2456 A69-28756

Elastic collision effect on gas laser atoms velocity distribution and gain factor determined for strong collision model

14 p2459 A69-29388

Coupled equations for heavy particle motion expressed by introducing generalized matrix operator for effective momentum in atomic collision problems

14 p2489 A69-29997

Partial wave description for calculating cross sections of fine structure transitions of Na in collision with He, discussing shape resonances

15 p2655 A69-30198

Electron ion recombination role in atomic collision process in rare gases ionization path, considering scintillation mechanism

15 p2655 A69-30961

Resonances in elastic cross section for electron/hydrogen atom scattering noting wide structure

15 p2657 A69-31265

Interstellar particle penetration into solar system, discussing impact ionization of earth ionosphere by interstellar neutral hydrogen and helium

15 p2699 A69-31390

Initial ionization processes in strong shock wave in hydrogen, determining ionization relaxation length and cross section of atom-atom excitation collisions

16 p2815 A69-31590

Stripping and low-energy collisions of H atoms on O and N molecules, showing target ionization to projectile stripping ratio dependence on ionization potential

16 p2814 A69-31773

Diatomic heavy particle collisions with emphasis on epithermal energy range, discussing elastic scattering and inelastic processes

16 p2815 A69-32259

Interatomic potential between alkali ions and rare gas atoms, using model accounting for repulsive and attractive exchange forces

16 p2815 A69-32464

Cross sections threshold behavior for Cs II resonance lines excitation due to Cs ion-He collision

17 p3008 A69-33388

Long lived highly excited atoms production in electron collisions with CO, O and N molecules

18 p3177 A69-35125

Atom-atom scattering potential from phase shifts, using WKB formula and Jeffreys-Born approximation

19 p3378 A69-36189

Spectral lines due to magnetic dipole transitions in fine structure levels in collisionally excited neutral H clouds, discussing theoretical difficulties in interpretation

19 p3379 A69-36225

Atom-atom collisional excitation cross sections obtained from ionization cross sections, noting Thomson classical theory

20 p3580 A69-37500

Optical pumping and selective population applications, considering double magneto-optic resonance and inelastic interatomic collisions

21 p3735 A69-38454

Diatomic-monatomic oxygen collision cross section determined from rotational line width in diatomic oxygen Schumann-Runge emission spectra

22 p3983 A69-40099

Impact parameter versions of two state and Born approximations to calculate single excitation cross sections of H atoms ground state collisions

22 p3987 A69-41006

Hydrogen-hydrogen excitation collisions by impact parameter treatment, investigating rotation coupling influence in four state cross sections approximation

22 p3987 A69-41007

Antimatter motion in solar system and earth atmosphere, discussing vaporization and annihilation energy in collisions with interplanetary gas atoms

22 p4034 A69-41100

Collisional radiative recombination and ionization coefficients for weakly ionized H plasmas using rate equations

22 p3988 A69-41154

Atoms and ions collision strengths and photoionization cross sections for nitrogen, oxygen and neon fitted

to interpolation formulas for temperature and frequency effects

22 p3988 A69-41244

Atomic spectrophotometry to monitor O atom formation rate behind shock waves in oxygen-argon mixtures, noting dissociation over 2850-5550 K temperature range

23 p4194 A69-42209

Atomic nitrogen collisional ionization and recombination rates under assumed quasi-steady nonequilibrium distribution of electron state populations

24 p4353 A69-43700

ATOMIC ENERGY LEVELS

Pionic 2p-1s X ray transition energy and natural linewidth and muonic 2p-1s X ray transition energy measurements for Na 23

01 p0122 A69-10035

Partial maser effect in recombination lines of hydrogen atoms in nebular plasma due to overpopulation of energy levels at thermodynamic equilibrium

01 p0148 A69-10042

Statistical equilibrium equations solution for thermodynamic equilibrium variations of populations of very high energy levels in hydrogen and complex atoms

01 p0150 A69-10395

Spectral lines source functions for formation in multilevel atom and radiative transfer in atmosphere of three level Na atoms and four level O atoms

01 p0124 A69-10962

Radiation, Stark and van der Waals level broadening constants for Mg I and Si I calculated to interpret solar and stellar spectral line widths

02 p0310 A69-11454

Multiphoton ionization cross section of atom via perturbed Green function, considering light wave electromagnetic field perturbing effects on atomic levels

02 p0283 A69-11539

Metastability of 1D state of negative N ion, instability of 3P state and energies of both states

02 p0284 A69-12598

Atomic transition probabilities, discussing improvement attributed to wider interest in space science, astrophysics, plasma physics and research technique developments

03 p0471 A69-13169

Electron impact ionization cross sections for second quantum level of atomic H, using Born exchange approximation and Vainshtein approximation

06 p0961 A69-17138

C III 2p super 2 presuper 1 D level mean life measurement using beam-foil technique, noting corresponding Einstein A coefficient

07 p1184 A69-18643

Enhanced two photon emission between 6S and 4S levels of K, discussing stimulated three photon Raman scattering and four photon parametric coupling processes

[IEEE PAPER S-8] 07 p1154 A69-19080

Level crossing effect in stimulated emission and application to determination of hyperfine splitting in Xe 129 excited electronic state during laser transition

07 p1156 A69-19398

Hydrogenic approximation validity in evaluation of atomic energy levels and radiative absorption cross sections for computation of stellar opacity

07 p1223 A69-19626

Mutual influence of two laser modes, showing reduced transition rates due to perturbation of lower level

08 p1325 A69-20283

Molecular beam gas laser operating at transitions between ground state and resonance excited state of inert gas atom, obtaining population inversion

08 p1325 A69-20325

Mean square radii for assigned terms of Fe I energy diagram from Van der Waals line broadening

08 p1392 A69-20559

Population inversion in ground state sublevels of ruby laser, deriving required conditions

11 p1900 A69-25572

Double focalization in atomic hydrogen maser by hexapolar magnets selecting hyperfine energy transitions

12 p2105 A69-26050

Distortionless propagation of light through optical two level atoms medium, considering relation to Poynting theorem, hyperbolic secant solution and pendulum analogy

12 p2130 A69-26313

Spectral line formation in nonlinear multilevel atom line transfer problems, considering radiation transfer through plane parallel atmospheres of H and Mg atoms

12 p2133 A69-26967

Shift of certain Hg spectral line by high power pulse from Nd laser through perturbation of atomic energy levels
13 p2270 A69-27202

Forbidden NI transitions in nighttime upper atmosphere observed with Fabry-Perot spectrometer
14 p2440 A69-29120

Nuclear level density and mass shell correlations relationship for deformed and undeformed nuclei
14 p2488 A69-29337

Solar Mg b and Na D line spectra, computing profiles for Doppler cores of lines for multilevel model atoms and selected chromospheric parameter ranges
15 p2693 A69-30779

Radiation diffusion in plane-parallel isothermal gas layer of two and three level atoms, considering stimulated emission and frequency redistribution
16 p2864 A69-32587

Polychromatic scattering of light in medium with three energy level atoms
16 p2813 A69-32589

Molecular beam gas laser operating at transitions between ground state and resonance excited state of inert gas atom, obtaining population inversion
17 p2981 A69-33315

Mean lives of 1s super 2 2p super 2 super 1D level in F VI and O V measured by beam foil technique
17 p3009 A69-34188

Shock tube application to transition probability measurements with emphasis on thermodynamic state of radiating gas, noting temperature dependence of level population
18 p3176 A69-34446

Electronic levels excitation in S I and II by beam foil method
18 p3177 A69-35015

Upper bounds for electromagnetic transition rates for Ne 20 determined using Hartree-Fock wave functions
18 p3177 A69-35166

Quantum transitions between molecular or atomic energy levels noting microwave spectroscopy utilization
18 p3099 A69-35405

Resonance effects between H levels by induced electric dipole transitions, using spatially periodic potential barriers
18 p3179 A69-35488

Two photon decay of metastable levels of hydrogenic and He-like ions in solar corona, depopulating via proton collisional excitation to 2p level
19 p3396 A69-36218

Unquantized field calculations extended to include atomic field effect on atom, predicting spontaneous decay rate from excited state and light frequency time dependence
21 p3769 A69-38578

Thermally insensitive technique for atomic transition probability measurement
22 p3983 A69-40100

Solar Zeeman triplet for excited atomic state comparable to or shorter than Larmor precession period, discussing polarization
22 p4019 A69-40287

Solar Zeeman triplet pseudo-pi-component at 5250 Å /Fe I/, using Unno theory to calculate visibility, contrast and displacement
22 p4019 A69-40289

Ionic excited states statistical equilibrium populations calculated for various electron densities and temperatures including effects of dielectronic, radiative and three body recombinations
22 p3985 A69-40666

Self consistent field molecular orbital method in LCAO /linear combination of atomic orbitals/ approximation applied to LiH ground state for potential energy curve
22 p3985 A69-40721

Argon laser lower operating level decay probabilities, using spectrum analysis to study role of radiative decay
22 p3965 A69-40965

ATOMIC EXCITATIONS

Multiphonon orbit-lattice relaxation of excited states of rare earth ions in crystals, measuring fluorescence lifetimes, quantum efficiencies and transition rates
01 p0134 A69-10011

Nonradiative transfer of excitation energy between mixed trinuclear complexes of Tb and Eu ions with lactose in aqueous solution
01 p0023 A69-10288

Radiative lifetimes for four N II excited states emitting UV during transition to lower level
02 p0280 A69-11928

Electron impact excitation of Lyman alpha emission from 2p state of atomic H, noting discrepancy below 50 Mev
02 p0283 A69-12466

Excited atomic H state radiative mean life measurements using beam-foil excitation method
03 p0469 A69-12920

Emitted light and excited state populations resulting from two electron collisional radiative recombination related to free electron density
03 p0469 A69-12923

Spectroscopy of fast atoms resulting from fast ion impact with gas targets and electron capture into excited state
03 p0471 A69-13162

EUV emission line radiative lifetime measurement by foil-excitation technique, noting correction for cascading, He II and transition probabilities for N II and O III
03 p0471 A69-13165

Free excited H atom Lyman alpha radiation intensity study using beam-foil excitation method
03 p0471 A69-13167

Radial profile measurement technique for individual emission line intensities in plasma applied to populations of excited atomic and ionic Ar in capillary discharges
04 p0634 A69-14441

Effect of dipole/dipole resonance interaction between excited and nonexcited atoms on gas thermodynamic properties, showing unstable quasi-molecules formation
04 p0632 A69-14551

Time dependence of laser output in C and N atoms following dissociative excitation transfer explained in terms of measured populations of excited states
05 p0795 A69-15663

Multiphonon orbit lattice relaxation of excited states of rare earth ions in crystals, using results to design quantum electronic devices
05 p0774 A69-16318

First Born approximation cross sections for He excitation from ground state by proton impact calculated, using wave functions
06 p0960 A69-17027

Noble gas atom simultaneous ionization and excitation by removal of metastable electron in fast collision
06 p0961 A69-17137

Electron impact ionization cross sections for second quantum level of atomic H, using Born exchange approximation and Vainshtein approximation
06 p0961 A69-17138

Polarization of diatomic molecular line radiation excited by electron impact
06 p0961 A69-17140

Optical excitation process of energy states by light pulses of short duration compared to relaxation time, predicting Raman echoes
07 p1152 A69-19062

Fluorescent light polarization of neon atoms subjected to gas discharge, static magnetic field and laser beam
07 p1155 A69-19084

Level crossing effect in stimulated emission and application to determination of hyperfine splitting in Xe 129 excited electronic state during laser transition
07 p1156 A69-19398

Cross sections for inelastic interactions of electrons with atoms and heavy impurity ions and processes of atomic excitation
07 p1195 A69-19652

Electron collisional excitation cross sections for upper states in Ar ion lasers
07 p1157 A69-19656

Electron collisional excitation cross section calculations for atoms and ions using modified Born approximation taking into account three physical effects
07 p1187 A69-19658

Atomic excitation and ionization involving inner shell electrons during collisions between atoms and ions, examining photoabsorption by inner shell electrons
07 p1187 A69-19659

He concentration measurement in transient He-air mixture by spectroscopic analysis of fluorescence excited by high energy electron beam
08 p1312 A69-19860

Wavelike photodissociation of gas molecules under quasi-monochromatic pulsed radiation, investigating associated supersonic disturbances
08 p1354 A69-19950

Atomic and molecular excitation mechanisms in nonequilibrium gases up to 20000 K
08 p1354 A69-20146

Cross sections computed for excitation and ionization of atoms and ions by electrons, using peaking approximation to evaluate Coulomb-Born matrix approximation
08 p1355 A69-20206

Absolute excitation cross sections for emission of second positive bands of nitrogen under electron impact
08 p1355 A69-20208

Mutual influence of two laser modes, showing reduced transition rates due to perturbation of lower level
08 p1325 A69-20283

Excitation cross sections of Fe XIV lines in solar coronal spectra, comparing computations with Coulomb-Born approximation
08 p1392 A69-20563

Channel coupling effects in elastic electron-atom collisions involving electric dipole transitions, noting phase shifts and differential cross section
09 p1542 A69-21623

Rotational excitation and scattering cross sections for rigid diatomic molecules reduced to yield distorted wave approximation, resulting in inelastic transition probabilities
10 p1726 A69-23524

Fast electron energy distribution function and atom concentration in first excited level in weakly ionized plasma, considering transitions between excited levels
10 p1739 A69-23628

Simultaneous photoexcitation and photoionization of He near threshold at 186 Å, measuring probability
11 p1921 A69-24926

Cross section for ionization of atoms by positive ion bombardment near threshold
11 p1922 A69-25322

Nonlinear algebraic equation system describing populations of excited atoms of low pressure nonequilibrium cesium plasma, determining ionization coefficient and molecular ion concentration
11 p1934 A69-25567

Negative pion from 600 MeV synchrocyclotron stopped in thin Li 6 target in search for excited states of triton
12 p2132 A69-26297

Metastable molecules and fragments produced by electron excitation of nitrogen, hydrogen, carbon dioxide and nitrous oxide, noting excitation functions, kinetic energy, etc
13 p2301 A69-27362

Nonequilibrium radiation from first negative band of molecular nitrogen ion excited by shock wave electron impact
13 p2245 A69-27380

Excited levels in Li I produced by Li 7 ion passage through carbon foil, measuring excitation mean lives by beam foil technique
13 p2301 A69-27454

Steady state model envelopes of Be stars, determining excitation and ionization states for hydrogen atoms
13 p2338 A69-27559

Twilight helium emission observed by Fabry-Perot spectrometer, noting consistency with triplet He atom excitation by photoelectron collision with ground state atoms
14 p2440 A69-29124

CdS crystals emission spectrum during two photon excitation by ruby laser, noting dependence on pump power
14 p2458 A69-29167

Electron energy distribution functions and energy transfer rates to inelastic levels of carbon dioxide and nitrogen in laser
14 p2460 A69-29603

Fe and Ti line growth in 12 July 1961 solar flare spectrum, finding ionized titanium, neutral and ionized iron excitation temperatures
14 p2514 A69-29720

Oxygen K-shell X ray production cross section and stopping power of aluminum oxide thin films for 20-100 keV protons
14 p2489 A69-29994

Mode competition of 5861 and 6470 Å lines in ionized Kr laser attributed to electronic level excitation processes
15 p2635 A69-31106

Atomic coherence and inhomogeneous broadening effects on laser amplifier ultrashort electromagnetic high peak power pulses
15 p2635 A69-31239

Photoinduced shock processes involving metastable hydrogen atoms and molecules, discussing vibrational and rotational levels
16 p2813 A69-31754

Atomic oxygen density role in ionospheric E and F region magnetic stability, noting heat loss effect of atomic excitation
16 p2780 A69-32314

He II excitation spectrum for interparticle potential using pair Hamiltonian with repulsive core and attractive well
17 p3008 A69-33118

Atomic excitation and ionization by thermal electrons, using Monte Carlo trajectories to determine adiabatic collisions effects on energy transfer near dissociation limit
18 p3176 A69-34790

Long lived highly excited atoms production in electron collisions with CO, O and N molecules
18 p3177 A69-35125

Forbidden lines in solar corona, discussing ionization equilibrium and excitation of levels in highly ionized atoms
19 p3422 A69-36216

Collisional excitation of forbidden lines in planetary nebulae from 5537/5517 intensity ratio measurements, noting density and intensity relationship
19 p3422 A69-36221

Laser action from atomic bromine produced by flash photolysis of gaseous iodine monobromide, discussing pulsed output, optical gain, chemical reversibility and atomic excitation
19 p3337 A69-36444

Atom-atom collisional excitation cross sections obtained from ionization cross sections, noting Thomson classical theory
20 p3580 A69-37500

Atomic sources local multipolar field in anisotropic dielectrics determined from magnetic dipole radiation spatial distribution measurements
21 p3779 A69-38531

Invalidity of Pagel method for intrinsic and interstellar reddening for peculiar objects, discussing excitation mechanism for forbidden lines of ionized Fe for Eta Carinae
21 p3815 A69-39616

Absorption spectrum of CS atoms excited by electrical discharge and irradiated by monochromatic light and ionized by electron collisions
22 p3984 A69-40418

Dayglow O I lambda 1304 and 1356 A radiations photoelectron excitation rates theoretical calculation and experimental data on altitude dependence characteristics
22 p3939 A69-40517

Off-diagonal matrix elements of Breit interaction between singlet-triplet transitions for helium isoelectronic sequences
22 p3986 A69-40783

Nonlinear theory of optically excited semiconductor laser for conditions of self excitation, steady state lasing amplitude and lasing frequency shift
23 p4174 A69-41733

ATOMIC EXPLOSIONS

U NUCLEAR EXPLOSIONS

ATOMIC GASES

U MONATOMIC GASES

ATOMIC PHYSICS

Plasma radiation, including atomic processes and radiation by variation of constituent kinetic energy
03 p0483 A69-14237

Atomic physics of lasers and active materials, noting multiplet spectra of atoms, molecular spectroscopy, energy level population distribution and amplification
06 p0937 A69-18004

Atomic and electronic collisions experimental study techniques, noting three data logging systems
07 p1187 A69-19662

Self consistent field calculations of effective quantum numbers for nd, nf and ng electrons for atomic configurations from 2-126 Z
08 p1355 A69-20734

Time dependent statistical equilibrium equations solutions for describing time development of atomic populations by means of ergodic Markov chain
09 p1542 A69-22218

Plasma oscillations of electrons of atomic system, using simple hydrodynamic model
20 p3580 A69-37818

ATOMIC RECOMBINATION

NT OXYGEN RECOMBINATION

Chemical nonequilibrium, mass transfer and viscous interaction effects on spherically blunted cones at hypersonic conditions, emphasizing stagnation point [AIAA PAPER 69-168]
06 p0862 A69-18047

Heat and mass transfer interaction at wall for laminar boundary layer on flat plate, considering catalytic effect of wall in atomic nitrogen recombination
15 p2716 A69-30415

Radiative recombination of atomic oxygen ions in nighttime F region UV radiation detected by polar-orbitingOGO 4 satellite
18 p3129 A69-34957

Resonance theory of thermolecular atomic recombination kinetics based on transition complexes identification as quasi-bound states or orbiting resonances
20 p3579 A69-37345

ATOMIC SPECTRA

Spectroscopic quantitative analytical method for measuring atomic absorption in flame based on determining integral absorption magnitude during evaporation
20 p3539 A69-37605

Absorption spectroscopy using resonance broadened atomic lines for two phase mixtures study
21 p3774 A69-39239

Mars upper atmosphere ionized carbon dioxide and CO emission spectra in 1900-4300 A region measured by Mariner 6, observing atomic hydrogen and oxygen lines
22 p4023 A69-40568

ATOMIC STRUCTURE

Martensite transformation by simple shear in equiatomic Ni-Ti alloy, using transmission electron microscopy
02 p0265 A69-12024

Dipole shielding factor in coupled Hartree-Fock approximation for atomic S state
02 p0281 A69-12179

Molybdenum interband transitions noting low energy optical property anomalies and origin of two absorption bands
03 p0442 A69-12986

Beam-foil spectroscopy above 5.5 Mev for multiply ionized atoms, noting use of Tandem accelerator, spectral resolution, beam intensity and Doppler effect
03 p0471 A69-13163

Components relationships in binary phase diagrams of III a and VI a transition metals on basis of electronic structure
08 p1331 A69-20191

Self consistent field calculations of effective quantum numbers for nd, nf and ng electrons for atomic configurations from 2-126 Z
08 p1355 A69-20734

Line blanketing for two level atom with spectral line formed in pure absorption and noncoherent scattering, studying wavelength and depth dependence
09 p1606 A69-22424

Surface atomic structure effects on polar faces in InSb semiconductor crystal established from measurements of contact potential difference by dynamic capacitor
10 p1747 A69-23965

Soviet collection of articles on atomic ordering effects on alloy properties
11 p1936 A69-24701

Order-disorder in alloys with several phase transition temperatures, discussing crystal lattices, interstitial alloys, atomic and magnetic ordering
11 p1936 A69-24702

Superstructures in multicomponent alloys, transition mode and temperature, ordered state and atomic interactions
11 p1937 A69-24703

Pressure effects on hcp crystalline lattice alloys order-disorder transformations
11 p1937 A69-24704

Young modulus temperature dependence and order-disorder transformations in ternary nickel alloys
11 p1904 A69-24705

Order-disorder transformations in nickel alloys under loading operations
11 p1904 A69-24706

Electronegativity and work function relationship from thermodynamic and quantum mechanics standpoint, describing electrons structure by spin orbitals localized around lattice sites
14 p2505 A69-29263

Atomic size and outer electron effect on Fe, Co and Mn polymorphism, noting change in crystal lattices
15 p2638 A69-30321

Monograph on vanadium selenides and tellurides with NiAs structure covering existence regions, superstructures and equiatomic compounds from viewpoint of thermodynamics
15 p2667 A69-30602

Solid solutions atomic ordering effect on friction and wear in vacuum, using CuAu and FeCo systems
18 p3149 A69-35183

Emissivity of high melting point compounds measured, considering electronic structure and atomic weight
18 p3158 A69-35260

Two point tensor function symmetries of nonlocal cohesive finite elastic materials determined from atomic lattice theory, obtaining Green function
19 p3444 A69-36798

Photoelastic behavior in amorphous solids, proposing microstructural mechanism for deformation birefringence
22 p3972 A69-40081

Hartree-Fock calculations for wavelengths of K alpha X ray transitions, tabulating configuration and term energies, dipole integrals and relative multiplet strengths
22 p3984 A69-40156

Inelastic proton scattering cross sections for target nuclei in 2s-1d shell calculated in distorted wave Born approximation with projected Hartree-Fock wave functions
22 p3988 A69-41045

Spontaneous polarization onset in perovskite ferroelectrics, analyzing influence of Curie point, Jahn-Teller effect and atomic structure
22 p3995 A69-41159

ATOMIC THEORY

NT HEISENBERG THEORY

Thomas-Fermi approximation applied to calculation of equations of state and thermodynamic functions at high pressure from differential equations of statistical atom model
22 p3984 A69-40186

Laser quantum theory compared to stationary atoms semiclassical theory, emphasizing role of cavity mode spatial structure
24 p4327 A69-42789

ATOMIZERS

Flame burnout of atomized hydrocarbon fuel in gas turbine combustion chambers as function of ratio of time to total burnout time
08 p1420 A69-19999

ATOMS

NT METASTABLE ATOMS

Metal atom production by bombarding metal with positive ions from microwave discharge, obtaining isolation in inert gas matrix and UV spectra
06 p0957 A69-17113

Kinetics of combustion promotion of hydrogen-hydrocarbon mixtures by active particles, free atoms and free radicals using differential equations
17 p3069 A69-33139

Gaseous and solid phase properties of atomic and molecular systems, treating statistical energy distribution, kinetics, excited states and relaxation
18 p3178 A69-35406

ATP

U ADENOSINE TRIPHOSPHATE [ATP]

ATROPHY

Musculoskeletal system and weightlessness state, concerning muscular disuse atrophy possibility during prolonged space flights
06 p0873 A69-17018

Physiological response of human skeleton to hypogravity and hypodynamics studied by bed rest experiments, suggesting disuse atrophy of bone
06 p0873 A69-17019

Mineral dynamics during hibernation and disuse atrophy in connection with organismal homeostasis and chronic-term manned space flight, noting skeletal effect of immobility
21 p3660 A69-39175

Brain atrophy clinical diagnosis aided by biochemical analyses, including age frequencies and symptoms to control incidence among aviation personnel
23 p4089 A69-41816

ATS [SATELLITES]

U APPLICATIONS TECHNOLOGY SATELLITES

ATTACHMENT

Bistable fluid device utilizing Coanda effect along convex surface for wall attachment [ASME PAPER 68-WA/FE-27]
05 p0749 A69-16101

Vibratory acceleration limiting equipment attachment for resonance conditions, utilizing attachment stiffness reduction above predetermined value [ASME PAPER 69-VIBR-23]
10 p1806 A69-24170

Attachment coefficients for negative oxygen ion formation in low energy electron swarms over various voltage/pressure ratios
21 p3774 A69-39238

ATTACHMENTS
U ACCESSORIES

ATTACK AIRCRAFT
NT A-1 AIRCRAFT
NT A-6 AIRCRAFT
NT A-7 AIRCRAFT
NT B-52 AIRCRAFT
NT B-70 AIRCRAFT
NT BOMBER AIRCRAFT
NT BUCCANEER AIRCRAFT
NT F-2 AIRCRAFT
NT F-4 AIRCRAFT
NT F-5 AIRCRAFT
NT F-104 AIRCRAFT
NT F-106 AIRCRAFT
NT F-111 AIRCRAFT
NT FIGHTER AIRCRAFT
NT G-91 AIRCRAFT
NT JAGUAR AIRCRAFT
NT OV-10 AIRCRAFT
NT P-117 AIRCRAFT
NT SAAB 37 AIRCRAFT

Operational research in RAF, discussing weapons tactics and research, strike aircraft speed and height effect on target-finding, VTOL and STOL dispersion value, etc
01 p0180 A69-10863

Navigation and tactical data with correlative map information provided on single CRT display in aircraft, storing map data on video tape
03 p0464 A69-13246

Jaguar combat trainer/tactical support aircraft to meet France and UK military requirement, noting supersonic performance and honeycomb construction
04 p0549 A69-15062

Jaguar aircraft equipment conformity to maximum standardization with equipment for other programs
04 p0550 A69-15063

Engine air intake for operational Harrier V/STOL strike/reconnaissance fighter, describing intake instrumentation ring, temperature and pressure probe development and pressure recording
05 p0767 A69-16773

Characteristics, employment and tactics of Huey Cobra attack helicopter in Vietnam, discussing three primary weapon configurations
06 p0867 A69-17661

First flight test phase of multipurpose Viggan aircraft designed as basic platform for attack, trainer, reconnaissance and fighter versions
06 p0867 A69-17662

Concorde supersonic transport and Jaguar Military Strike/Trainer programs, discussing management and international cooperation
06 p1043 A69-17831

Flying qualities considerations in design and development of Huey Cobra for helicopter attack mission, describing stability and control augmentation systems
[AHS PAPER 217] 07 p1053 A69-18871

Time division telemetry technique resolving data and control flow to and from remote locations/tactical aircraft/, noting application to environmental pollution control
07 p1081 A69-19100

Avionics systems with integration and federation applied to integrated light attack avionics system/ILAA5/ design to provide navigation, weapon delivery and flight control
17 p2976 A69-34057

Cost comparison of single and twin engine layouts for tactical strike/close support aircraft
19 p3248 A69-36855

Automated design system producing wire format data for cabling avionics subsystems of light attack aircraft
[AIAA PAPER 69-976] 22 p3912 A69-40356

ATTACKING [ASSAULTING]
Kormoran airborne missile weapon system for attacking sea-going targets, discussing navigation guidance, radar tracking and homing system
17 p3050 A69-33697

ATTENTION
Attention shifts in maintained discrimination, discussing combined responses of varying and constant visual and auditory stimuli in pigeons
24 p4275 A69-43198

ATTENUATION
U ACOUSTIC ATTENUATION
U ATMOSPHERIC ATTENUATION
U AURORAL ABSORPTION
U MANDELSTAM REPRESENTATION

U RADAR ATTENUATION
U RADIO ATTENUATION
U SHOCK WAVE ATTENUATION
U SIDELOBE REDUCTION
U WAVE ATTENUATION

ATTENUATION COEFFICIENTS
Raindrop size distribution law effect on radio wave attenuation coefficient and differential effective backscattering cross section of rain
02 p0208 A69-12259

Visible light extinction properties of continental and maritime air, probing urban, desert and oceanic atmospheres with stable photodiode radiometer
04 p0596 A69-14280

Standing wave methods for measuring permittivities of liquids having attenuation coefficients over considerable range
04 p0599 A69-15015

Attenuation calibration of optical resonator using transparent plate coated by thin metal layer
04 p0613 A69-15415

Initial equations for plane wave diffraction at grids of squared beams, calculating transmission and reflection coefficients by reflection method and computer
07 p1084 A69-19149

Open resonator reflection coefficient resonance curve compared with transmission coefficient, noting low Q waves excitation role
07 p1106 A69-19152

Laser beam propagation in scattering media, noting attenuation coefficients for coherent and incoherent radiation
08 p1328 A69-21092

Transfer function of low pass filters with Chebyshev attenuation characteristic in stopband and predetermined phase or delay time realized by ladder network
08 p1300 A69-21171

Radiation attenuation in hazy lower atmosphere, calculating attenuation coefficients and using spherical model of haze particles and empirical formula for haze spectra
11 p1913 A69-25571

Calculation method for electromagnetic wave supplementary attenuation due to auroral absorption for distances up to 4000 km
11 p1841 A69-25760

Stratospheric aerosol attenuation factor vertical distribution statistical structure, tabulating normalized correlation matrices, eigenvectors and eigenvalues
12 p2125 A69-25956

Atmospheric boundary layer transparency to gas laser emissions in IR spectrum, determining attenuation factor dependence on humidity and visibility range
12 p2028 A69-25957

Refractive index and attenuation factor of ionosphere
12 p2070 A69-26689

Elliptical waveguide design dimensions for minimum attenuation in fundamental mode, giving formulas for attenuation constant and minor-major axis ratio
12 p2044 A69-27070

Short laser pulses reflection from artificial fog and smoke, showing dependence on reflecting medium attenuation coefficient
15 p2562 A69-30077

Numerical method based on thin film optics to determine ionospheric electromagnetic transmission and reflection coefficients for vertical incidence
16 p2752 A69-32392

Reflection and transmission coefficient matrices for stratified magnetoionic medium determined by thin film optical technique and iteration procedure
17 p2927 A69-33863

He-Ne laser emission attenuation coefficient relation to water content of artificial fogs for 0.63, 1.15 and 3.39 microns
21 p3738 A69-39118

Aerosol attenuation coefficients vs altitude in troposphere and stratosphere, noting seasonally dependent surface convective dust layer and temperature dependent aerosol maximum altitude
21 p3718 A69-39773

ATTENUATORS
NT RESISTORS
NT THERMISTORS

Disturbing TM mode generation effect on attenuation measurement accuracy in TE mode attenuators
08 p1283 A69-20126

Power gain in TWT attenuators with linear tapered ends, considering conversion loss due to tapering
12 p2044 A69-27102

Near constant phase variable attenuator for RF signal containing Doppler information, centering design around p-i-n diode as control element
21 p3681 A69-38410

ATTITUDE [INCLINATION]
NT PITCH [INCLINATION]
NT ROLL
NT SATELLITE ORIENTATION
NT YAW

Vestibular analyzer role in spatial orientation under weightlessness conditions during aircraft flights, discussing underestimations of rotation angle of Barany chair
08 p1262 A69-19840

Galaxies classification using rectified images, noting pitch and inclination angles
08 p1408 A69-21135

Jet fighter pilot spatial disorientation during flight and on ground, emphasizing vestibular neunititis diagnosis
10 p1649 A69-23382

Stress effect on laser damage crack orientation in transparent organic dielectrics, estimating gas pressure in cracks
10 p1703 A69-23621

Geomagnetic storm induced temporary radiation zones located by determining Explorer 30 attitude and spin axis orientation
14 p2514 A69-29384

ASTRID high altitude sounding rockets orientation system aligning payload cones to target outside earth atmosphere, discussing software simulation with analog and digital computers, etc
17 p3001 A69-33424

Lifting rotors with thrust or tilting moment feedback control, deriving blade equations of motion
[AHS PAPER 340] 17 p2899 A69-33510

Three dimensional coupled flexural and attitude dynamics of libration-damped cruciform gravity gradient satellite, discussing effects of orbital eccentricity, solar radiation pressure, etc
[AAS PAPER 68-126] 21 p3819 A69-39211

ATTITUDE CONTROL
NT DIRECTIONAL CONTROL
NT LATERAL CONTROL
NT LONGITUDINAL CONTROL
NT SATELLITE ATTITUDE CONTROL
NT THRUST VECTOR CONTROL

Advance indication based on extrapolation for aiding manual attitude control of VTOL aircraft in hovering flight, noting results on flight simulator
03 p0366 A69-13645

Minimum fuel attitude control of spacecraft by Pontryagin principle and extended steepest descent method
03 p0522 A69-14100

Multiframe platform stabilization, analyzing dynamic coupling due to possible avoidance of adjusting moment and effect of coupling on attitude control
04 p0629 A69-14830

Electrohydraulic attitude servomechanism for controlling movements of pilot training cabin, describing hydraulic system and electric control circuit
06 p0906 A69-16966

Attitude control system for maintaining orientation of experimental package relative to space stabilized platform, noting transient response and steady state accuracy
06 p0955 A69-17587

Attitude stabilization for astronomical satellites
06 p1015 A69-17588

Three axis attitude servomechanism design to adjust attitude and angular velocity of spacecraft
06 p0955 A69-17589

Translational forces on Mariner 5 stemming from attitude control system studied to determine trajectory for scientific and operational purposes
[AIAA PAPER 69-114] 06 p1018 A69-18108

Rocket propulsion with gaseous bipropellant systems and attitude control
08 p1376 A69-20870

Diffraction limited telescope fine guidance experiment to improve pointing stability in space, noting attitude control system and nonmechanical suspension
08 p1317 A69-21072

Single rotation for reorienting rigid body from initial to arbitrary final attitude together with corresponding control torques
09 p1610 A69-21998

Attitude control system effect on roll resonance in rocket boosted projectile
09 p1610 A69-22001

Electrolytic bubble level during wind tunnel tests for aircraft model attitude
10 p1672 A69-23268

Fluid rotor angular accelerometer design for stabilization and control, noting applications to centrifuge speed and thruster gas consumption
10 p1633 A69-23273

Magnetic attitude detection and control system for Radio Astronomy Explorer satellite
[AIAA PAPER 68-855] 12 p2174 A69-26779

Optimal stochastic controller synthesis theory applied to stabilizing and controlling orientation of rotating bodies in central gravitational fields
13 p2300 A69-28326

Control system design for Black Arrow satellite launch vehicle based on Black Knight test vehicle system
14 p2530 A69-29630

Earth sensor for spin stabilized spacecraft to maintain specific orientation with earth, discussing use of blue and red filters
15 p2609 A69-30593

Stochastic saturating systems optimal control computation, considering attitude control and tracking system design by elliptical differential equation of dynamic programming
15 p2582 A69-30601

Europa 1 first stage attitude control system adaptation to Europa 2 requirements, discussing design modifications and improvements and inertial guidance system introduction
16 p2866 A69-31726

Reaction forces for jet lift VTOL attitude control during hover and transition, considering hot gas and pitch ducting applications
[AIAA PAPER 69-545] 16 p2735 A69-32756

Contaminants formation during pulse mode operation of liquid bipropellant attitude control rocket engine, discussing exhaust plume effects
[AIAA PAPER 69-574] 16 p2870 A69-32774

Tacite rocket probe to study space IR radiation, using passive stellar sensor for recording reference stars positions to recalibrate gyroscope kinetic motion for attitude restoration
[ONERA-TP-731] 17 p3001 A69-33220

Fluidic attitude control systems performance prediction from conventional control analysis emphasizing steady state positioning accuracy
17 p2904 A69-34069

Manned space telescope attitude stabilization using counter-rotational triaxial gyro system
18 p3206 A69-34371

Attitude control system for Apollo Telescope Mount, discussing selection features based on manned orbital space platform requirements
18 p3168 A69-34683

Attitude and heading reference devices for aircraft navigation, describing instruments, gyroscopes and gravity sensors
18 p3169 A69-34853

Parameter optimization of launch vehicle attitude control system of fixed structure for various computation techniques
18 p3210 A69-35092

Optimal asymptotic stabilization of gyrostair relative equilibrium, determining norm constraints for application to global gyrostair attitude control
18 p3210 A69-35145

Attitude control rocket exhaust plume impingement effect on electrical performance and mechanical damage of commercial silica covered silicon solar cells
19 p3252 A69-35700

Active attitude control method with energy increases and decreases induced to modify attitude motions for particles and rigid bodies
19 p3429 A69-35958

Titan 3 transtage attitude control system hydrazine rocket engine design and performance, emphasizing problems associated with monopropellant
[AIAA PAPER 69-422] 19 p3394 A69-36300

Cassiopee device for spacecraft or sounding rocket attitude control, describing gyroscopic control unit, sensor element and jet control devices
[ONERA-TP-707] 19 p3432 A69-36686

Equations of motion for optimal attitude of suborbital aircraft regarding time and distance range
21 p3795 A69-38440

Attitude control system for launch vehicles, providing commanded thrust vector angle proportional to desired angular displacement of acceleration vector
21 p3819 A69-39032

Spacecraft control systems with computer command redundant jets for linear and angular pulses, relating configuration design to level-of-redundancy and task dimension
[AIAA PAPER 69-845] 21 p3822 A69-39375

Frequency domain and Liapunov instability criteria for attitude control system design of large booster, noting nonlinear feedback
[AIAA PAPER 69-853] 21 p3687 A69-39381

Controllers design for reaction jet controlled aerospace vehicles, studying second order pitch-plane representation with actuator modeled as pure delay
[AIAA PAPER 69-854] 21 p3822 A69-39382

Precision autocollimating solar sensor design for attitude alignment changes, including detector calibration and sounding rocket flight test results
[AIAA PAPER 69-858] 21 p3762 A69-39386

Analytical and graphical methods for characteristics of optima produced by quadratic performance index for VTOL prefilter model reference attitude control system
[AIAA PAPER 69-884] 21 p3764 A69-39411

Manual attitude control for Lunar Module employing directional stability, coordinated turn and attitude command
[AIAA PAPER 69-892] 21 p3824 A69-39417

Gyro test package, dynamic test facility and real time attitude algorithm to investigate operational capabilities of strapdown inertial attitude package
[AIAA PAPER 69-849] 21 p3765 A69-39424

Dornier ASTRID attitude stabilization system design for spinning rocket nose cone with instrument payload, using first stage biaxial inertial platform and second stage star tracker
21 p3826 A69-39639

Nonlinear adaptive reaction jet attitude control for long life space vehicles, providing optimal performance over bias acceleration disturbances
[AIAA PAPER 69-945] 22 p4036 A69-40328

Representative data of actual forces and moments applicable to large spacecraft attitude control system for typical crew activities obtained through simulation programs
[AIAA PAPER 69-1006] 22 p3921 A69-40380

Three axis motion simulator for in-orbit spacecraft attitude control evaluation using earth, sun and star sensor references
[AIAA PAPER 69-1029] 22 p3924 A69-40398

Two degrees of freedom control moment gyro for astronaut attitude control during EVA, discussing muscle-controlled shoe-mounted stilts and precessional feedback forces
[AAS PAPER 69-472] 24 p4272 A69-42846

Translational forces on Mariner 5 stemming from attitude control system, determining trajectory for scientific and operational purposes
[AIAA PAPER 69-114] 24 p4394 A69-43256

Attitude control system with rate of change limiter to minimize launch vehicle drift during first stage ascent through atmosphere
24 p4394 A69-43277

Parallel wire array fluidic sun sensor for solar pointing fluidic attitude control, discussing design and breadboard test
24 p4348 A69-43297

ATTITUDE GYROS

Fluidic pulse time modulated angular position sensor for two axis hydrostatically supported gyroscope
02 p0249 A69-12087

Long life gravity gradient stabilization system using Vee configured control moment gyros to semipassively damp vehicle librations
07 p1228 A69-18345

Resistojet control system combined with control moment gyro payload capability for long duration manned orbital spacecraft missions
[AIAA PAPER 69-255] 09 p1561 A69-21220

Electric outside-in attitude gyro display system prototype tested and compared with contemporary inside-out display
[SAE PAPER 69-0326] 11 p1890 A69-24507

Space station attitude control through resistojets and control moment gyros /CMG/, discussing propulsion, safety features, weight factors, etc
11 p1965 A69-24531

Control moment gyro /CMG/ and use in space vehicle attitude control system, emphasizing control laws
[AIAA PAPER 67-589] 12 p2129 A69-26777

Tacite rocket probe to study space IR radiation, using passive stellar sensor for recording reference stars positions to recalibrate gyroscope kinetic motion for attitude restoration
[ONERA-TP-731] 17 p3001 A69-33220

Manned space telescope attitude stabilization using counter-rotational triaxial gyro system
18 p3206 A69-34371

Attitude and heading reference devices for aircraft navigation, describing instruments, gyroscopes and gravity sensors
18 p3169 A69-34853

Cassiopee device for spacecraft or sounding rocket attitude control, describing gyroscopic control unit, sensor element and jet control devices
[ONERA-TP-707] 19 p3432 A69-36686

Two degrees of freedom control moment gyro for astronaut attitude control during EVA, discussing muscle-controlled shoe-mounted stilts and precessional feedback forces
[AAS PAPER 69-472] 24 p4272 A69-42846

ATTITUDE INDICATORS

Spacecraft attitude ion sensor using charged thermal ions of earth atmosphere as reference, stressing reliability, economy and response
01 p0079 A69-10293

Rocket released probe orientation determination from polarization measurements on telemetry signal
02 p0207 A69-11813

Fluidic pulse time modulated angular position sensor for two axis hydrostatically supported gyroscope
02 p0249 A69-12087

Radar attitude sensing system for determining vehicle roll, pitch, yaw, altitude and velocity of earth and lunar orbital vehicles
03 p0388 A69-13183

Attitude determination and hydrogen peroxide control system for spacecraft orientation in Syncom, Early Bird and ATS
[AIAA PAPER 67-532] 09 p1610 A69-21988

Dual pendulum with tilt sensitivity at wide passband frequencies and damping due to horizontal oscillations
14 p2450 A69-29570

Space vehicle electronic attitude measurement method for reference coordinate and fixed coordinate systems based on rectangular coordinates of RF wave propagation directions
20 p3574 A69-37703

Precision autocollimating solar sensor design for attitude alignment changes, including detector calibration and sounding rocket flight test results
[AIAA PAPER 69-858] 21 p3762 A69-39386

ATTITUDE STABILITY

NT DIRECTIONAL STABILITY
NT GYROSCOPIC STABILITY
NT LATERAL STABILITY
NT LONGITUDINAL STABILITY

Energy dissipation effects on attitude stability of dual-spin satellites with damping mechanism on rotating sections
04 p0665 A69-14703

Optimal flight stabilization of VTOL aircraft in hovering mode based on linear rotation dampers system
05 p0702 A69-16024

Attitude stabilized balloon telescope for measuring interplanetary scattered light and nightglow
06 p0999 A69-16972

Soviet achievements in space research, comparing satellites with U.S. counterparts
06 p1005 A69-17561

Department of Defense Gravity Experiment /DODGE/ attitude stabilization simulation with time-lag magnetic damping
06 p1014 A69-17584

Damping boom flutter and magnetic dipoles effects on attitude stability of gravity gradient satellites with three axis stabilization
07 p1227 A69-18332

Semiactive gravity gradient stabilization system /SAGS/ for active pitch control and semipassively roll/yaw control
07 p1228 A69-18342

Long life gravity gradient stabilization system using Vee configured control moment gyros to semipassively damp vehicle librations
07 p1228 A69-18345

GEOS 2 attitude stabilization by means of gravity gradient principle and passive energy dissipator, noting effects of orbit eccentricity, thermal distortion, radiation, etc
07 p1229 A69-18349

Fluidic control systems for angular rate and attitude stabilization flight-tested, noting good impact and acceleration resistance
[AGARDGRAPH-118] 08 p1257 A69-20955

Space vehicle attitude stabilization based on rotating flywheel resistance to changes in rotation axis attitude, noting grease lubricated hydrodynamic bearing system
12 p175 A69-26893

Spacecraft attitude control and stabilization by three degree of freedom control moment gyro with controllable gyro spin angular velocity
13 p2355 A69-27445

Equations of motion computerized simulation for attitude stabilization of orbiting telescope coupled to crew compartment
13 p2261 A69-27952

Magnetometers role in Aurorae satellite attitude stabilization, discussing operation principle, characteristics and performances
15 p2611 A69-31087

- Passive attitude stabilization of interplanetary probe, using conically shaped sails elastically connected to payload
17 p3047 A69-33225
- Numerical integration of Eole satellite attitude equations compared with results obtained by analog simulation or hybrid computation
17 p3048 A69-33232
- Manned space telescope attitude stabilization using counter-rotational triaxial gyro system
18 p3206 A69-34371
- Floating body attitude and stability analysis based on system potential energy balance, considering Archimedes principle, torques, equilibrium conditions, body shape, etc
[SAWE PAPER 773]
18 p3172 A69-34874
- Gravity torque influence on axisymmetric dual spin satellites in fixed attitudes, using attitude stability studies of spinning single rigid bodies
19 p3429 A69-35917
- Spring restrained, momentum-wheel inertial orientation and stabilization system for exoatmospheric vehicles, noting mission constraints and hardware parameter variations allowances
21 p3819 A69-39214
- Aerodynamic and gravitational torque effects on orbiting satellites attitude stability, applying Liapunov direct method in case of conservative aerodynamic torque
[AIAA PAPER 69-832]
21 p3821 A69-39363
- Spacecraft attitude acquisition/reorientation and stabilization controller design implemented by control moment gyro, proposing control algorithm using control actuator nonlinearity
21 p3826 A69-39641
- Black Arrow third stage velocity increment vector accuracy, considering attitude errors due to spin-up and spring separation systems, separated stages interactions, light-up impulses, etc
23 p4209 A69-41301
- ATTRITION [MATERIALS]**
U COMMUNITION
- AUDIO EQUIPMENT**
Jumbo jet audio entertainment and service systems, describing digital pulse multiplexing technique
19 p3285 A69-35806
- AUDIO FREQUENCIES**
Time compression system with ultrasonic diffraction cell allows coherent light optical spectrum analyzer to function at audiofrequencies
01 p0035 A69-11283
- MOST devices characteristics at cryogenic temperatures, studying variation in gain over audio frequency range
03 p0405 A69-13642
- Continuous and triggered audio frequency noise bands associated with ionospheric lower hybrid resonance frequency observed on OGO 2
05 p0754 A69-16257
- Audio frequency noise in p channel MOST at cryogenic temperatures, noting trap contribution
06 p0979 A69-17151
- Soft magnetic materials, ferrites and magnetic particle composites as two layer laminates for shielding in audio and microwave frequencies
09 p1500 A69-22310
- Audio frequencies internal friction measurement of austenitic stainless steels subjected to heat treatment and corrosion, discussing time dependence and carbide precipitates morphology
10 p1713 A69-23819
- Data distortion elimination by improved superimposing of sinusoidal audio frequency signal on DC voltage of automatic Langmuir probe second derivative ploters
17 p2970 A69-32855
- Self rhythms of low audio frequencies in motor nerves under electric pulses influence at VLF related to viscosity changes of nerve substance
23 p4092 A69-42057
- AUDIOLOGY**
Retarded voice tests apparatus using graphical recording to determine intensity of deformations by autoaudition, considering application to recruitment investigation
24 p4270 A69-42604
- AUDIOMETRY**
Pure tone threshold determination based on pulse tone technique with modified audiometer
06 p0882 A69-17836
- Auditory analyzer functional changes due to prolonged slow rotation
20 p3470 A69-37251
- Surrounding noise effects on quick check audiometry test reliability, discussing pathological effects
21 p3725 A69-39286
- Flight personnel hearing tests per ICAO recommendations and flight safety requirements, using tonal audiogram and vocal audiometric test
24 p4277 A69-43377
- AUDITORY DEFECTS**
Hearing adaptation measurements after aircraft noise stresses for estimation of induced noise damage
23 p4110 A69-42051
- AUDITORY PERCEPTION**
Probability density distributions for monaural detection of tonal signal in continuous background of Gaussian noise as modified noncentral chi distribution
02 p1201 A69-11821
- Human auditory function during exposure to prolonged low barometric pressure unaffected with normal oxygen partial pressure
03 p0378 A69-14206
- Stereoscopy effects on pattern recognition in visual noise
06 p0880 A69-17214
- Pure tone threshold determination based on pulse tone technique with modified audiometer
06 p0882 A69-17836
- Cepstrum /Fourier transform of log-spectrum of signal/ as model for prediction of perception of pitches in harmonic residue /ambiguity of pitch/
11 p1834 A69-24571
- Auditory temporal masking of tonal signal by narrow band noise and perception of temporal order noting effects of intensity, frequency and time
11 p1830 A69-24795
- Noise level perception and subjective judgments for broadband noise with single, modulated and multiple tones, considering tone correction procedures
11 p1830 A69-24796
- Prolonged visual deprivation effect on pressure sensitivity of finger, forearm, neck and leg, noting effects after restoration of normal visual stimulation
13 p2210 A69-28313
- Noise duration and spectral complexity effect on subjective rating of disturbance level
14 p2408 A69-29152
- Ear-hand coordination adaptability tested by exposure to auditory rearrangement entailing 30 degree rotation of interaural axis produced by electronic pseudophones
21 p3663 A69-38899
- Speech interference aspects of noise measured as function of level and spectrum of speech and noise at listener ear, using simplifying nomogram
23 p4101 A69-41495
- Whispered vowels pitch perception test using listen-and-compare method to determine formants for comparison with complex analysis procedure
23 p4190 A69-41575
- Efferent innervation influence of one ear to another in feline auditory system, based on afferent neurons responses to contralateral and binaural stimulation
23 p4094 A69-42073
- Combined eye and ear identification of bimodally presented signals in noise over oscilloscope and earphones, noting significance of independent observers model
23 p4111 A69-42168
- Flight personnel hearing tests per ICAO recommendations and flight safety requirements, using tonal audiogram and vocal audiometric test
24 p4277 A69-43377
- AUDITORY SIGNALS**
Mathematical model of spike activity of auditory neurons constructed from functional point of view
07 p1070 A69-18384
- Noise level perception and subjective judgments for broadband noise with single, modulated and multiple tones, considering tone correction procedures
11 p1830 A69-24796
- Auditory evoked response /AER/ as measure of narcosis induced at depth in diving personnel, discussing hyperbaric nitrogen and oxygen effects
14 p2407 A69-29302
- Bisensory auditory and visual signals characteristics effects on human reaction time, noting different results for unilateral and bilateral signal pairs
23 p4083 A69-41454
- AUDITORY STIMULI**
Acoustical vestibular stimulation in guinea pig, showing activation of receptors
03 p0376 A69-14076
- Attenuation of visual vigilance decrement through visual stimulation combined with various sound conditions
06 p0880 A69-17213
- Auditory startle stimuli effect on human performance, noting decrease in mental and sensorimotor activity
07 p1066 A69-19421
- Cortical auditory-evoked response during eye movement in cats, discussing relation to central mechanism
17 p2911 A69-34171
- Vestibular neurons activity in decerebrated cats under ipsilateral and contralateral labyrinth polarization combined with acoustic and caloric stimulation
20 p3471 A69-37254
- Cats vestibular neurons reactions to labyrinths mon- and binaural polarization and caloric stimulation
20 p3471 A69-37255
- EEG patterns evoked from left and right cerebral hemisphere by visual and verbal stimuli, showing asymmetrical role of hemispheres in governing cognitive behavior
21 p3656 A69-38976
- Brain weight and cholinesterase activity in rats after exposures to acoustic and light stimuli
21 p3662 A69-39627
- Unit activities in cerebellar cortex by auditory stimulation in cats, discussing response patterns obtained by histograms
22 p3876 A69-40264
- Topography of potentials induced by acoustic clicks in auditory cortex of dogs, including ectosylvian gyrus distribution
22 p3888 A69-41269
- Cortical biopotentials in cats induced by strychnine under acoustic click stimuli of increasing intensity
22 p3888 A69-41270
- Dependence of cochlear microphonics and summating potential on endocochlear potential
23 p4085 A69-41574
- Klaxon hooter sudden sound used as auditory startle stimulus to determine hand sensorimotor activity and standing stability in pilot error causes
23 p4088 A69-41808
- Efferent innervation influence of one ear to another in feline auditory system, based on afferent neurons responses to contralateral and binaural stimulation
23 p4094 A69-42073
- Stimulus correlated with neuronal discharge periodicities in colliculus inferior, deriving structure models, discussing acoustic channel below geniculate medialis
23 p4096 A69-42089
- Sound evoked DC changes on intact skull of adult humans using data from AgCl electrodes, investigating intensity function, analyzing data by computer
23 p4098 A69-42101
- Attention shifts in maintained discrimination, discussing combined responses of varying and constant visual and auditory stimuli in pigeons
24 p4275 A69-43198
- Circadian periodicity of human reaction times tested during normal diurnal cycles and 24 hour wakefulness, noting acoustic and visual stimuli effects on learning
24 p4267 A69-43387
- AUDITORY TASKS**
Human information processing rates during one and two axis compensatory tracking tasks with secondary auditory task
10 p1650 A69-23880
- Continuous and intermittent noise effects on audiovisual checking task performing subjects, considering omission errors
17 p2911 A69-34009
- AUGER EFFECT**
Auger and photoelectron spectroscopy for chemical analysis, noting effects of sample thickness, sample potential, surface contamination and X ray incident angle
07 p1075 A69-19775
- Surface structures, work function changes, Auger electron and surface plasma losses for Cs on clean W surface
19 p3392 A69-36733
- AUGMENTATION**
U THRUST AUGMENTATION
- AURIGA CONSTELLATION**
Auriga star HD 35620 with respect to epsilon Virginis using model atmosphere and high dispersion spectra
08 p1403 A69-20913

Stellar atmosphere parameters analyzed over pulsation cycle by high dispersion spectra of cepheid variable RT Aurigae

10 p1778 A69-23605

AURORAL ABSORPTION

Electron and positive ion density measurements during nighttime auroral absorption event

03 p0421 A69-13327

Polar auroral region cosmic radio noise absorption bays diurnal variations attributed to drift of electrons captured in magnetosphere

03 p0423 A69-13520

Auroral absorption position and height deduced from VLF phase measurements, discussing diurnal fluctuations in reflection layer

05 p0758 A69-16415

Seasonal variations in auroral absorption zone position interpreted as consequence of asymmetric shape of magnetosphere

06 p0920 A69-17728

Calculation method for electromagnetic wave supplementary attenuation due to auroral absorption for distances up to 4000 km

11 p1841 A69-25760

Auroral cosmic noise absorption relationship to auroral geomagnetic disturbances, investigating absorption diurnal distribution

12 p2071 A69-26706

Auroral absorption influence on ionospheric wave propagation calculated for distances over 4000 km

16 p2749 A69-31603

Auroral absorption occurrence patterns mappable onto magnetotail developed as function of magnetic activity, discussing magnetotail neutral sheet source width changes

16 p2848 A69-31968

Green line suppression in type B auroral based on negative ion-electron chemistry below O transition region

16 p2778 A69-32191

Auroral absorption bays from 1963 to 1964, noting effect of ionization agent intensity changes on absorption diurnal variations

17 p2965 A69-33965

Auroral absorption distribution from arctic riometric observations mapped for evaluating radio communications reliability

17 p2967 A69-33990

Auroral absorption maximum frequency correlation with years of solar activity reduction and magnetic activity from riometric data long term variations

17 p2968 A69-33991

Ionospheric auroral anomalous radio wave absorption frequency dependence index determined from cosmic radio emission intensity data

20 p3587 A69-37033

Auroral absorption longitudinal motion from riometer recordings, showing movement from midnight meridian simultaneously eastward and westward along auroral zone

20 p3520 A69-37034

Auroral absorption relation to visual aurora and measured particle fluxes

21 p3707 A69-38488

Spatial gradient and amount of auroral radio absorption measured by riometers at magnetically conjugate and closely spaced stations

22 p3934 A69-39966

HF radio waves auroral absorption in ionosphere reviewed for first decade of riometry

22 p3902 A69-41218

Geomagnetic ring current effect on position of auroral absorption zone in northern polar region, noting storm time part of disturbance

23 p4157 A69-41859

AURORAL ACTIVITY

U AURORAS

AURORAL ARCS

NT RED ARCS

Auroral electron energy spectrum observed by sounding rocket reveals smooth continuum with peak to produce auroral arcs

05 p0756 A69-16274

Monochromatic midlatitude auroral arc /M arc/ observation on 28-29 September 1967 at Moscow, Idaho

12 p2065 A69-26105

Auroral arcs drift as function of polar storm initial phase, noting agreement with satellite data on plasma motion in magnetosphere

12 p2071 A69-26694

Gustafsson pattern for variations in position of quiet homogeneous arcs, noting diurnal variations from visual observations at antarctic station

12 p2073 A69-26951

Visual ashen light observation on Venus possibly attributable to solar particle bombardment from dark side emission detection by spectroscopic and photometric studies

16 p2861 A69-32300

Auroral arcs orientation curves for IQSY evaluated from all sky camera data, comparing results with IGY curves

24 p4308 A69-43009

AURORAL ECHOES

Model of auroral backscatter from E region including ionospheric refraction, comparing computations to experimental HF auroral backscatter data for aspect sensitivity

09 p1488 A69-21700

Correlation function of auroral reflection radio signals with allowance for polar ionospheric scattering and pulse signal transmission and reception

14 p2436 A69-29055

Periodic fading in 42 MHz auroral backscatter by high speed polarization measurements, discussing scatter bursts and pulsating primary electron flux relationship

18 p3102 A69-34950

AURORAL ELECTROJETS

Equatorial and auroral electrojets, discussing origin theories and ionospheric irregularities

02 p0236 A69-11433

Characteristics of electrovortices and auroral electrojets of polar disturbance field, discussing dynamics during geomagnetic storms

02 p0240 A69-11723

Auroral electrojet precursors and geomagnetic variations before onset of bays, noting satellite observations

10 p1681 A69-22804

Toroidal magnetic fields in ionosphere associated with solar quiet daily variations producing electric current and equatorial auroral electrojets

10 p1681 A69-22805

Joule heating role in generating internal gravity wave energy in auroral electrojet region, using linear model

12 p2064 A69-26010

Auroral zone X ray pulsations during great geomagnetic disturbance and auroral electrojet development to maximum phase, noting atmospheric feedback modulation

12 p2065 A69-26109

High latitude capture region boundary for electrons in upper radiation belt determined relative to current electrojets in ionosphere from satellite observations

13 p2327 A69-27700

Auroral electrojet index in relation to magnetic storm sudden commencements, ring current main phase and energetic solar protons

14 p2511 A69-28954

Infrasonic waves identified with supersonic auroral electrojets crossing zenith from northwest during substorm activity

16 p2780 A69-32303

Westward traveling auroral surge associated with electron flux during absence of H beta emission

18 p3130 A69-35189

Auroral electric current system model to explain magnetic disturbances associated with auroral breakups

21 p3710 A69-38505

Artificial ion plasma cloud experiment for studying auroral electric fields

21 p3710 A69-38507

Auroral zone Birkeland currents in magnetosphere, analyzing particle trajectories for plasma sheet energy distribution and Alfvén layer position

21 p3792 A69-39567

Sounding rocket measurements of electric and magnetic fields near auroral electrojet

24 p4310 A69-43188

AURORAL EMISSION

U AURORAS

U LIGHT EMISSION

AURORAL IONIZATION

Horizontal electric fields relations to charged particle fluxes in polar auroral ionosphere

14 p2437 A69-29070

Lower auroral ionosphere rocket measurements of electrons, positive ions and energy particles, deriving height variation of ion pair production and ion-ion recombination

16 p2778 A69-32187

Ionization, recombination and charge transfer in upper atmosphere during aurora, considering quasi-equilibrium ion-electron concentrations

17 p2961 A69-33417

Retarding potential analyzers to measure rocket vehicle potentials and ambient electric fields in active auroras

20 p3542 A69-37793

Ionization and light emission cross sections for collisions of protons and hydrogen atoms with atmospheric nitrogen used to analyze auroral events

24 p4368 A69-43177

AURORAL IRRADIATION

Winter polar mesosphere atomic-oxygen distribution by analyzing data concerning intensity and energy of corpuscular fluxes in auroras

12 p2070 A69-26690

Quiet aurora atomic O red and green lines intensity ratio measured from rocket

18 p3201 A69-35192

AURORAL SPECTROSCOPY

Intensity ratio of first negative nitrogen band and oxygen line varies in auroral displays

02 p0235 A69-11425

Transition probability measurement of 5577 Å auroral green line of oxygen used to investigate quadrupole nature of transition

03 p0424 A69-13936

Polar aurora incident energetic particles spectroscopic analysis, showing system of lines and bands intensity dependence on particle energy spectrum and magnetic activity

05 p0752 A69-15799

Auroral spectrum observations for absolute brightness of nitrogen Meinel and ING systems, considering background night airglow and atmospheric extinction

10 p1681 A69-23161

Polar aurora spectroscopic studies, discussing main spectral features, influence of observation time and location, analysis methods, etc

14 p2518 A69-29100

Aurora electron and proton excitation patterns determined spectroscopically, discussing ground based observations of emission geomagnetic latitude-time distribution

15 p2593 A69-30017

Photoelectric spectra of pulsating auroras in visible and near UV range, considering atmospheric opacity

17 p2961 A69-33416

Polar ionosphere investigation based on vertical sounding and riometric observations, earth electromagnetic field and polar auroras spectrum intensity variations

17 p2963 A69-33950

Proton and electron auroral ovals, deriving H alpha intensity and frequency distributions as function of geomagnetic latitude and time from patrol spectrographs in Canada

19 p3302 A69-35993

Auroral spectroscopy for high resolution coverage at maximum wavelength range, discussing plane diffraction grating

21 p3707 A69-38486

N I nebular doublet and auroral and nebular lines of O I obtained with multiplier scanning photometer in France, Norway and at magnetic equator

21 p3712 A69-38519

Accelerating electric field model to interpret energy and angular distribution of auroral particles, noting electric potential limitations

22 p3938 A69-40445

AURORAL ZONES

Radio wave abnormal absorption in auroral zone of ionosphere, investigating index of frequency dependence in absorption vs frequency relation

01 p0063 A69-10425

Latitudinal variations in auroral and subauroral region F layer diurnal and magnetic storm pattern shown by scintillation measurements

01 p0069 A69-11127

Electrostatic plasma wave instabilities in ionosphere along auroral field lines, noting critical electron flux and subsequent acceleration of electrons

01 p0075 A69-11222

Anomalous radio wave absorption in polar aurora region ionosphere, discussing disturbance characteristics

02 p0207 A69-11688

Hydromagnetic emissions observed at Antarctic auroral zone, discussing relation to sudden storm commencement

02 p0241 A69-11726

Magnetosphere studies in France noting magnetospheric characteristics, wave propagation, charged particles, particle precipitation mechanisms in auroral zones and polar caps

02 p0242 A69-11904

- Electron concentration profile change in ionospheric F region in auroral zone during negative magnetic bay disturbances
03 p0423 A69-13530
- Energetic electron fluxes measured at 2000 km over auroral and polar regions and at 17 earth radii in magnetotail plasma sheet
03 p0503 A69-14013
- Auroral zone X ray measurements obtained by simultaneous balloon flights over Northern Scandinavia
05 p0813 A69-15822
- Bounce resonant scattering of auroral zone electrons, noting contribution to microbursts and mirror point diffusion
05 p0754 A69-16260
- Field aligned Birkeland currents generation at auroral latitudes
05 p0755 A69-16266
- Electron cooling rates in midlatitude and auroral zone thermosphere measured by probe rockets
05 p0755 A69-16267
- High resolution electron and proton energy measurements by sounding rockets indicating plasma sheet as source of energetic auroral electrons
05 p0756 A69-16273
- Seasonal variations in auroral absorption zone position interpreted as consequence of asymmetric shape of magnetosphere
06 p0920 A69-17728
- Radio noise generation in topside ionosphere, noting Cerenkov radiation from intense soft fluxes of auroral electrons
07 p1127 A69-19257
- Auroral zone X ray measurements emphasizing temporal intensity variations, energy spectra changes and source region movements during magnetospheric substorms
08 p1379 A69-20534
- Polar auroral far UV spectra using Ebert-Fastie monochromator flanked by photometers with same visual field
08 p1311 A69-21026
- Auroral oval boundary and median line variations with increasing magnetic storm time intensity; noting ring current effect on polar aurora location
09 p1485 A69-21532
- Auroral electron flux from particle fluxes measured with shielded Geiger-Muller telescopes mounted in rocket launched into diffuse aurora
09 p1576 A69-21663
- Irregular pulsations in morning sky brightness using all-sky photographic airborne auroral observations along auroral oval
09 p1594 A69-21666
- Electrical phenomena in upper atmosphere and solar wind may control geomagnetic disturbances and aurora
10 p1686 A69-23903
- Auroral infrasonic waves morphology related to temporal and spatial distributions of supersonic auroral motions during polar magnetic storms
11 p1878 A69-25152
- Auroral zone X ray pulsations during great geomagnetic disturbance and auroral electrojet development to maximum phase, noting atmospheric feedback modulation
12 p2065 A69-26109
- Auroral and polar zone ionosphere effects on propagation in HF through low VHF spectrum, considering nongreat circle mode, sporadic E ionization, etc
12 p2032 A69-26859
- RF synchrotron radiation emitted by electrons trapped in geomagnetic fields above auroral zones, discussing electron flux and cosmic background
12 p2151 A69-26949
- ESRO I/Aurora project for ionospheric phenomena connected with incoming protons and electrons, describing orbit and alignment with geomagnetic field
13 p2356 A69-27747
- Auroral phenomena investigation by ESRO I satellite, measuring particle flux arriving at auroral height
13 p2381 A69-27748
- Medium energy trapped and dumped protons at high latitudes and auroral zone, using semiconductor radiation detectors on ESRO I satellite
13 p2328 A69-27756
- Anomalous radio wave absorption in polar aurora region ionosphere, discussing disturbance characteristics
13 p2224 A69-28719
- Polar auroral region displacement ascribed to distant magnetic field disturbances, proposing calculation method
14 p2436 A69-29059
- Rocket measured electron densities of nighttime auroral E region over Canada at different magnetic activity levels, noting frequency and plasma density relations
14 p2439 A69-29117
- Auroral substorms concept extended to include associated effects at all local times throughout magnetosphere, considering particle precipitation influence on substorms in midnight sector
15 p2593 A69-30008
- Solar cycle effect on high latitude magnetic activity, discussing annual variations and Lassen auroral zone model confirmation
15 p2598 A69-31207
- Faraday rotation measurements of signals from Explorer 22 analyzed to determine scintillation boundary in auroral ionosphere
15 p2605 A69-31443
- Radio wave emission bursts at 28 MHz at onset of nighttime absorption dip and close to auroral zone from riometer recordings, noting relation to geomagnetic storms
16 p2775 A69-32085
- Auroral oval boundary and median line variations with increasing magnetic storm time intensity, noting ring current effect on polar aurora location
16 p2783 A69-32527
- Polar auroral zone boundaries from C-180 camera photographs related to magnetic disturbance level, noting evening-morning asymmetry
17 p2963 A69-33951
- Daytime magnetospheric disturbances in auroral zone, discussing time lag of perturbations for absorption and geomagnetic field bays
17 p2964 A69-33962
- Vertical distribution of ionospheric drift velocity in auroral zone, evaluating role and intensity of electric field formed in dynamo region
17 p2964 A69-33964
- Electric field variations in vicinity of auroral forms from motions of Ba vapor clouds released from Nike-Tomahawk rockets
18 p3128 A69-34935
- Waves in auroral ionosphere due to particle precipitation, indicating ionospheric plasma instabilities
18 p3130 A69-35187
- Proton and electron auroral ovals, deriving H alpha intensity and frequency distributions as function of geomagnetic latitude and time from patrol spectrographs in Canada
19 p3302 A69-35993
- Auroral absorption longitudinal motion from riometer recordings, showing movement from midnight meridian simultaneously eastward and westward along auroral zone
20 p3520 A69-37034
- Frequency spectra of Pi2 geomagnetic field pulsations, noting effects of auroral zone location, configuration and structure
20 p3520 A69-37038
- Altitude asymmetry of instantaneous auroral oval plotted for geomagnetic pole and earth surface
20 p3522 A69-37056
- F 2 region critical frequencies obtained during winter at Northern and Southern Hemisphere stations located in auroral and polar zones, correlating changes with ionization
20 p3526 A69-37665
- VLF electric and magnetic fields observed in auroral zone with Javelin 8.46 sounding rocket, noting HF electrostatic noise bursts
20 p3533 A69-38080
- Simultaneous observations of 5 to 15 second period modulated energetic electron fluxes at synchronous altitude and auroral zone
20 p3592 A69-38082
- Flux magnitude and pitch angle distribution relationship for postsubstorm auroral electrons, noting particle precipitation and acceleration models
20 p3592 A69-38083
- Energy spectrum, spatial characteristics and displacements of auroral zone X rays from X ray spectrometry
21 p3787 A69-38359
- Lower thermosphere ion and neutral minor constituent concentrations in nighttime auroral zone, considering ionization due to electron precipitation and bremsstrahlung
21 p3704 A69-38365
- Auroral phenomena observations at magnetically conjugate regions including luminous aurora, riometry of auroral radio absorption, balloon-measured X rays and magnetic disturbances
21 p3708 A69-38493
- VLF and LF emission characteristic features and origin mechanism in auroral regions of ionosphere, discussing satellite observation of noise spectrum in space
21 p3708 A69-38495
- Auroral zone geomagnetic pulsations on nightside and dayside of earth related to magnetospheric substorm and particle precipitation
21 p3708 A69-38497
- Auroral electron and proton fluxes precipitation measurements by satellite, studying data in terms of spatial, energy and angular distributions
21 p3709 A69-38500
- Optical data supporting satellite observations of soft electron precipitation on poleward side of normal auroral zone
21 p3709 A69-38501
- Particle precipitation into auroral zone and plasma-energetic particle relationship in geomagnetic tail, discussing plasma sheet extent, energetic electron fluxes, etc
21 p3711 A69-38510
- Auroral zone X rays measurement counting rate vs time patterns from balloon flights at Kiruna
21 p3791 A69-39252
- Electron energy loss spectrum of nitrogen, suggesting atmospheric auroral nitrogen emissions compatibility with low energy electron impact excitation mechanisms
22 p3935 A69-39970
- Spectral characteristics of structured areas of luminosity in polar cap region, reporting spatial and time variations plotted from NASA airborne survey
22 p3940 A69-40522
- Heat conduction equation applied to thermospheric heating in auroral zone to account for local temperature and density variations, introducing horizontal transport mechanisms
22 p3941 A69-40717
- Auroral VLF emission bursts simultaneous with sharp ionospheric absorption dip and SC deflections in geomagnetic H, noting corpuscular ionization
24 p4308 A69-43001
- AURORAS**
NT AURORAL ARCS
NT RADIO AURORAS
NT RED ARCS
- Enhanced 6300 angstrom emission from F region auroral latitudes in terms of reaction between oxygen ions and atoms
01 p0062 A69-10137
- Auroral emission rates and heating effects as function of altitudes
02 p0235 A69-11426
- Plasma waves and particle interaction in nonuniform magnetosphere, considering propagation across sheets of steep density gradient and auroral precipitation
02 p0235 A69-11429
- Polar aurora fine scale structure interpretation based on plasma instabilities characteristics
02 p0239 A69-11693
- Geophysical effects observed in Northern Hemisphere during low solar activity, discussing polar auroral intensities and positions
02 p0239 A69-11694
- Canadian program of scientific rocket sounding of auroral phenomena, outlining systems approach, engineering and scientific cooperation requirements, etc.
02 p0335 A69-12689
- Auroral observations from constant local time westward flights of jet plane
02 p0245 A69-12738
- Simultaneous VLF hiss, auroral light and X rays observed during Norwegian balloon study
02 p0309 A69-12744
- Aurora displays distribution over earth, analyzing magnetosphere dependence on astronomical orientation of geomagnetic field in relation to solar wind
02 p0247 A69-12772
- Diurnal, magnetic and solar cycle dependences of auroral emission variations and auroral occurrence
03 p0420 A69-13325
- Cone instability role in auroral electron and proton dynamics, discussing plasma instability control of maximum captured particle densities in various magnetosphere regions
03 p0501 A69-13526
- Satellite-borne auroral particle spectrometer calibration to minimize uncertainty in measuring absolute particle flux of electrons and protons
04 p0599 A69-15022
- East-West aligned fast auroral waves, suggesting origin in hydromagnetic processes occurring near equatorial plane
04 p0594 A69-15123

Ohz intensity variation in bright homogeneous auroras prior to and during breakup observed visually and with image orthicon TV systems 04 p0594 A69-15129

Spatial and temporal conjugacy of visual auroras during magnetically quiet periods 05 p0753 A69-16247

Latitudinal distribution of auroral and airglow emissions in Northern Hemisphere photometrically surveyed by jet aircraft 05 p0754 A69-16258

Ratio of volume emission rate of 5577 Å photons to volume emission rate of one band of positive nitrogen molecule first negative system in aurora 05 p0756 A69-16360

Flaming auroras observations with auroral image orthicon TV systems, calculating electron release points on field line of station 05 p0758 A69-16413

Image intensifier-vidicon closed circuit TV network for auroral cinematography at low light levels 06 p0925 A69-17382

Correspondence between HF radar backscatter, optical aurora and electron precipitation, noting application to gross tracking of auroral oval 06 p0918 A69-17383

Soviet and French coordinated geophysical studies at magnetically conjugate points in northern U.S.S.R. and Indian Ocean 06 p0918 A69-17391

Jovian limb H alpha line due to auroral emission obtained from high dispersion spectra with long light path through upper atmosphere 07 p1214 A69-18614

Universal instability theory relevance to pulsating optical auroras and fast quasi-periodic variations of auroral X ray fluxes 07 p1125 A69-18852

Auroral electron penetration into atmosphere analyzed on basis of independent electron particle motion, using auroral electron angular distributions and energy spectra above atmosphere 07 p1128 A69-19368

Geomagnetic storms, substorms and auroral displays as functions of processes in solar wind and upper atmosphere 08 p1307 A69-20188

Nocturnal auroral electron showers configuration and displacement determined from sounding balloon measurement of X rays due to showers braking in upper atmosphere 08 p1308 A69-20281

Ion number densities time dependence in pink afterglow of N measured with quadrupole mass spectrometer 08 p1308 A69-20292

Auroral oval boundary and median line variations with increasing magnetic storm time intensity, noting ring current effect on polar aurora location 09 p1485 A69-21532

Geomagnetic field irregular pulsations relationship with polar aurora and ULF radiation pulsations, stressing choruses appearance 09 p1485 A69-21536

Auroral French rocket probe in Norway, studying low energy particles, relations between electron showers and high altitude electric fields, etc 09 p1498 A69-22160

Ratio of volume emission rates of 5577 Å and band of positive N molecular ion first negative system for use in auroral observations 09 p1491 A69-22607

Auroral H beta intensities determined from photographs by image intensifier, describing equipment and data reduction method 10 p1684 A69-23824

Auroral electron energy diurnal variation, noting ground observations of polar auroras, riometric absorption, vertical changes in ionization layer maximum position, etc 10 p1687 A69-23915

Nitrogen, oxygen and air luminescence spectra excited by fast electrons at low gas pressures in IR spectral region compared with polar auroral spectra 10 p1687 A69-23916

Auroral oval and ring current in magnetosphere, analyzing boundaries of lines of force on night side of earth 10 p1689 A69-24203

Space radiation phenomena, discussing auroral precipitations and characteristics and solar flare particle ejection 11 p1948 A69-24859

Low light level slow scan Owl TV camera system with secondary electron conduction camera tube for satellite-borne observation of auroral light emission 12 p2079 A69-25904

Auroral electrons intensity modulation by source at L equals 6 magnetic shell on geomagnetic equator, noting dispersion effects 12 p2065 A69-26108

Nighttime distribution of nitrogen ion and lambda 3755 emission in ionosphere with incidence of aurora 12 p2066 A69-26110

Auroras and polar magnetic substorm observations limited comparison due to magnetospheric models inability to interpret daytime precipitation zones and particle energy spectra 12 p2072 A69-26740

Dynamics of magnetosphere, discussing auroral oval position, ring currents, plasma density and magnetic field variations in near polar region 12 p2072 A69-26741

Solar wind induced magnetospheric convection for interpretation of geomagnetic storms, aurora and trapped particle belts, noting electric fields 12 p2073 A69-26749

Solar-terrestrial environment, discussing mathematical development of solar wind, satellite measurement, magnetic storms, aurora and cosmic rays 12 p2161 A69-26941

Auroral luminosity determination by two photometers on ESRO I satellite 13 p2253 A69-27752

Diurnal hemisphere auroras assuming origins in magnetosphere tail with pressure responsible for tail formation, discussing tentative model and implications 13 p2256 A69-28654

Coding of morphological evolution in time of auroral displays as generalization of existing IUGG code 13 p2256 A69-28655

Polar aurorae fine scale structure interpretation based on plasma instabilities characteristics 13 p2258 A69-28724

Geophysical effects observed in Northern Hemisphere during low solar activity, discussing polar auroral intensities and positions 13 p2258 A69-28725

Polar aurora rays mean length diurnal variations determined from photographic and visual observations in Tiksi bay 14 p2437 A69-29077

Radio noise of auroral origin analyzed from Northern and Southern Hemisphere reports indicating correlation with auroras, magnetic activity, sunspot cycles and synchrotron radiation 14 p2411 A69-29108

H alpha line emission preceding auroral breakup by data analysis of Antarctica Meinel-type patrol spectrograph, noting magnetic activity role 14 p2441 A69-29386

Polar auroras temporal and spatial variations and relation to solar activity 14 p2442 A69-29719

Low energy electron and proton precipitation, discussing acceleration mechanisms and periodicity in relation to auroras and airglows 15 p2594 A69-30018

Auroral substorm westward traveling surge and poleward, eastward and equatorward motion analyzed from all sky photographs 15 p2595 A69-30214

Auroral displays observed in combined field of view of polar all sky camera networks, considering simultaneous geomagnetic disturbances over Alaska 15 p2595 A69-30215

ESRO I/Aurorae scientific satellite for ionospheric phenomena observation, discussing management structure and development process 15 p2702 A69-31080

ESRO I/Aurorae satellite for Arctic ionosphere and aurorae observation, discussing electrons and protons measurements and auroral photometry 15 p2702 A69-31081

Photometric rocket measurements in hydrogen auroras, finding vertical H beta emission profile estimate of proton energy spectrum for H beta production cross section 15 p2595 A69-31307

Numerical analysis of charged particles radial distribution in radiation belts extended to geomagnetic tail for low energy auroral electrons 16 p2850 A69-32102

Pulsating and flaming auroral patches recorded by image intensifier vidicon camera, calculating upward field aligned speeds for luminosity enhancement 16 p2780 A69-32305

He I/1.083 mu/ and O I/5577 Å/ absolute brightness measured in sunlit aurora for various shadow heights of solar radiation, considering primary electron precipitation 16 p2780 A69-32311

Auroral oval boundary and median line variations with increasing magnetic storm time intensity, noting ring current effect on polar aurora location 16 p2783 A69-32527

Geomagnetic field irregular pulsations relationship with polar aurora and ULF radiation pulsations, stressing choruses appearance 16 p2783 A69-32531

Auroral electrons measurement by rocket, discussing difficulties due to secondary electrons and method permitting primary electrons detection threshold determination as function of rocket position 16 p2785 A69-32617

Rocket instrumentation for electron and proton spectra measurement in aurora borealis 17 p2972 A69-33038

Soviet collection of papers on polar auroras 17 p2962 A69-33949

U shaped polar auroras development, examining relation with magnetic activity and current system configuration in lower ionosphere 17 p2963 A69-33952

Magnetic activity influence on polar auroras height 17 p2963 A69-33953

Polar auroras pulsation attributed to background brightness fluctuations, discussing intensity diurnal variation 17 p2963 A69-33954

Polar auroras appearance at solar activity maximum /IGY/ and minimum /QSY/ at oval zone latitudes 17 p2963 A69-33955

Emission intensity ratio change as function of polar auroral height compared to variation in atmospheric concentration ratio of oxygen to nitrogen 17 p2963 A69-33956

Ionospheric processes associated with changes in polar aurora height, noting glow in E layer and soft electron emission into earth atmosphere 17 p2964 A69-33957

Midday aurora oval and polar cap region airborne observation, noting relation to sporadic E layer 18 p3126 A69-34258

Artificial aurora generated at 100 km altitude by electron beam fired downward from aerobee 350 rocket above 230 km along earth magnetic field lines 18 p3127 A69-34365

Precipitated low energy protons and electrons measurements during breakup aurora, discussing fluxes and poleward boundaries 18 p3187 A69-34946

Electron temperature, density and magnetic disturbances measurements at 1000 km compared with visual observations during 25-26 May 1967 magnetic storm and aurora 18 p3129 A69-34954

Antarctic VLF emissions observations at 12 kHz, showing dependence on geomagnetic disturbances, auroras and radio absorption in ionosphere 18 p3102 A69-34964

Plasma density in magnetosphere by measuring geomagnetic pi 2 micropulsations in direction related to polar aurora oval southern boundary, determining period of pi 2 oscillations 19 p3303 A69-36205

H alpha auroral activity on Jupiter isolated by using Fabry-Perot etalons, showing photograph reproductions 20 p3598 A69-37414

Auroral sounding rocket research and instrumentation in Scandinavia, discussing auroral particles, optical measurements, probe experiments and scientific objectives 20 p3542 A69-37794

Auroral displays photographed by all-sky cameras at magnetically conjugate stations, morphological similarities and electron precipitation role 20 p3535 A69-38187

Auroral parameters coordinated measurements at varying rocket pitch angles during penetration of diffuse aurora breakup phase 21 p3703 A69-38361

Auroral science from 1600 to IGY/1965/ including Gilbert earth magnet theory, Birkeland auroras proposal, spectroscopy, geomagnetic and solar particle data, etc 21 p3706 A69-38483

Image intensifiers and orthicons, plumbicons, vidicons as photoelectric devices in TV auroral observation from ground stations and jet aircraft 21 p3706 A69-38484

Morphology of discrete polar cap and polar glow auroras, noting diurnal variations correlation with magnetic activity changes at low latitude

21 p3707 A69-38487

Rocket measurement data of auroral particle precipitation classified in substorm phases of quiet and breakup period, breakup and postbreakup events and morning events

21 p3707 A69-38489

Rocket measurements of primary auroral particles energy spectra indicating spectral structure acceleration peaks associated with electrostatic fields

21 p3707 A69-38490

Optical pulsations in aurora, studying relations to pulsations in geomagnetism, telluric currents, X rays from aurora and variations in primary particles flux

21 p3708 A69-38492

Auroral phenomena observations at magnetically conjugate regions including luminous aurora, riometry of auroral radio absorption, balloon-measured X rays and magnetic disturbances

21 p3708 A69-38493

Auroras and VLF emissions observations at ground stations to correlate emissions with auroral displays, noting low ionospheric absorption role

21 p3708 A69-38494

Rocket measurements indicating auroral electrons modulation near equatorial plane, noting intensity changes as function of rocket flight time and altitude

21 p3709 A69-38499

Field-aligned currents effect on ionosphere and precipitation of auroral primary particles, analyzing with mathematical model of ionospheric density height distribution

21 p3710 A69-38506

Ionospheric currents geophysical DC electric fields measurement from sounding rockets, indicating anticorrelation with auroral luminosity

21 p3710 A69-38508

Helium in atmosphere, aurora and solar wind, discussing geophysical problems, interplanetary neutral H, etc

21 p3710 A69-38509

Semiempirical electron impact cross sections and energy loss functions applied to dayglow and auroral intensities calculation, discussing atomic and aeronomic implications

21 p3713 A69-38527

Quantitative criteria imposed on balloon measurements of auroral emissions from Kiruna, considering times of sunrise and sunset at different altitudes

21 p3716 A69-39250

Satellite observations of auroral particle precipitations indicating latitude dependence of auroral electrons averaged pitch angle and energy spectral distributions

22 p3938 A69-40502

Auroral UV and 3914 A radiation during charged particle precipitation measured by satellite

22 p3939 A69-40507

Spectral characteristics of structured areas of luminosity in polar cap region, reporting spatial and time variations plotted from NASA airborne survey

22 p3940 A69-40522

Balloon-borne instrument for auroral X ray measurements at Antarctic station, discussing design requirements, circuit characteristics and improvement recommendations

23 p4166 A69-42011

Rocket measurements of plasma densities and temperatures in visual aurora using electrostatic onboard and ejected Langmuir probes, observing hyperthermal electron

23 p4167 A69-42334

Pulsating aurora diurnal variations and dependence on latitude and magnetic activity, photometric observations

24 p4308 A69-43004

N II 4176 A emission line occurrence in connection with type B auroras, studying secondary electrons energy spectra

24 p4309 A69-43012

H beta production in hydrogen aurora measured during rocket flight, obtaining proton energy spectrum

24 p4309 A69-43170

Auroral short period pulsations in 6300 A O I, discussing percentage modulation, quenching rate, etc

24 p4309 A69-43171

Auroral activity and lunar phases correlation from IMP-1 measurements of lunar magnetic field

24 p4311 A69-43502

AUSFORMING

Consumable electrode vacuum melted steels, discussing ausforming and stress corrosion cracking

04 p0604 A69-14528

AUSTENITE

Structural transformations of quenched Fe-Ni-Nb austenitic alloy from X ray diffraction microstructure examination and hardness measurements

01 p0095 A69-10603

Composition dependence of carbon activity and carbon diffusivity in austenite

13 p2279 A69-27763

Phase shape deformation and austenite stabilization in Fe-Ni and Fe-Ni-Ti alloys following secondary alpha phase of reversed martensite-austenite transformation

18 p3159 A69-35448

AUSTENITIC STAINLESS STEELS

High pressure hydrogen environment on tensile properties of stainless steel with and without strain induced martensite

01 p0093 A69-10062

Precipitation hardening of gamma phase in austenitic stainless steels studied for phase transformations by dilatometry after aging and quenching

01 p0096 A69-10613

Structural stability of manganese austenitic steels at high temperatures, discussing phase transformations and carbide precipitation changes

01 p0100 A69-11294

Light austenitic grain boundaries in heat treated Cr-Mo-W-V alloy steels

01 p0100 A69-11295

Ferrite and sigma phase formation in austenitic stainless steels with nickel and chromium content

02 p0269 A69-12764

Lattice parameters of austenitic Fe-Ni-Ti alloys as function of titanium content, using Debye-Scherrer camera

03 p0443 A69-13123

Corrosion rates and stress corrosion cracking sensitivity of explosively shocked austenitic stainless steels

03 p0444 A69-13308

Ferrite-austenitic stainless steels with Ti analyzed during aging at 450-600 C for excess phase nature

04 p0615 A69-14641

Plastic deformation effect on structure, yield point and tensile strength of aged austenitic alloy containing Ni, Cr and Ti

04 p0618 A69-15177

Fully austenitic stainless steel welding electrodes for welds in cryogenic or high temperature applications, noting creep rupture test results

04 p0607 A69-15220

Pitting corrosion resistance improvement in austenitic stainless steels with added molybdenum through electroslog resmelting

05 p0781 A69-16499

Austenitic Fe-Ti alloys sulfur solubility and internal sulfidation rate computed, noting stronger Ti-S interaction with temperature decrease and sulfur diffusion role

06 p0942 A69-17226

Localized microstructural changes and fatigue crack propagation in cantilever type notched specimens of austenitic stainless steel under cyclic bending at constant load

06 p0943 A69-17237

Retained austenite content control, strain aging and ausforming to improve toughness of high strength martensitic stainless steel without strength loss

08 p1330 A69-20010

Crystallographic fracture path of stress corrosion cracks in austenitic stainless steels using scanning electron microscopy

09 p1522 A69-21486

Negative creep in austenitic steel samples explained as possible redistribution of elements inside austenite grains at high temperatures

10 p1708 A69-22999

Chemical composition of chromium steels for optimum heat resistance properties, noting effects of nickel, nitrogen and ferrite and austenite-forming elements

10 p1708 A69-23000

Austenite to martensite strain induced transformation effect on energy absorption during crack propagation

10 p1709 A69-23074

Surface temperature rise of solution treated austenitic steel measured during double repeated rotating bending fatigue tests at room and elevated temperatures

10 p1711 A69-23393

Audio frequencies internal friction measurement of austenitic stainless steels subjected to heat treatment and corrosion, discussing time dependence and carbide precipitates morphology

10 p1713 A69-23819

Monograph on effect of boron, zirconium and titanium on austenite transformation of CrMo steels bainite and martensite covering carbides, nitrides, mechanical properties, etc

11 p1903 A69-24634

W, Mo and heat treatment effects on phase composition and heat resistance of ferrite and austenitic steels

13 p2283 A69-28487

Short time creep rupture behavior of austenitic stainless steel at high temperature ranges, noting rupture times various stresses and data correlation [ASME PAPER 68-WA/MET-2]

14 p2464 A69-29439

Precipitation processes and effect on properties of Cr-Ni-W-Ti heat resistant austenitic steel, using electron diffraction and transmission electron microscopy

17 p2984 A69-32833

Austenitic alloy structure and stress rupture after boron addition

17 p2985 A69-32908

Microfractographic observations of Al, Al alloy, Nimonic 90 and austenitic steel 18/10 after creep rupture

17 p2986 A69-32910

Mechanical properties and weldability of austenitic steel for cryogenic applications

18 p3158 A69-35417

Sigma phase and temperature effects on toughness of austenitic stainless steel weldments

18 p3150 A69-35429

Electron beam welds orientation effects on tensile and deformation properties of strengthened and welded austenitic stainless steels

18 p3151 A69-35432

Austenitic stainless steels nonreproducible passivating tendencies, determining electrochemical and corrosion characteristics, discussing critical anodic current density role

20 p3562 A69-37750

Precipitation hardening stainless steels applications in aerospace industry, discussing steel selection and heat treatment

20 p3563 A69-37931

Mechanical and thermal properties of vanadium alloys and austenitic stainless steels compared to determine applicability in high temperature reactor fuel jackets

22 p3971 A69-40973

High strength austenitic Cr-Mn-N-Ni steel applicability to welded pressure vessels for cryogenic fluid storage, discussing operating temperature stability, weldability, etc

23 p4175 A69-41475

AUSTRALIA

Satellite telecommunications, discussing Australian experience, ground stations location, national network and international cooperation [UN PAPER 68-95286]

06 p0886 A69-17066

Solar radio astronomy in Australia including solar atmosphere, bursts, instruments, etc

10 p1777 A69-23383

Radiophysics Laboratory/Sidney/, discussing radio astronomy, radioheliographs, radio telescopes, cloud physics and research

10 p1784 A69-23988

Australian space research including space flight programs in cooperation with NASA

15 p2724 A69-31450

Australia spatial triangulation and trilateration using geometric satellite geodesy, including station position accuracy tests

18 p3132 A69-35499

Multichannel spectral line receiver for 210 ft Australian radio telescope with front ends covering wide frequency range

24 p4283 A69-43115

AUSTRALITES

Australites from Port Campbell and Princetown region of Western Australia

03 p0507 A69-13096

Australasian microtektite physical and chemical properties, comparing refractive indices, specific gravities, composition trends, etc

08 p1305 A69-19815

Correction of thermally lowered fission track ages of australites

15 p2696 A69-31140

K-Ar dates on cores and excess radiogenic Ar in flanges of australites for age determination

23 p4209 A69-41343

AUSTRIA

Austrian space research covering satellite observation, receiving and evaluating picture transmissions, theoretical investigations, etc

15 p2724 A69-31432

AUTOCOLLIMATORS

U COLLIMATORS

AUTOCORRELATION

Sunspots autocorrelation functions in sunspot area on solar disk, tabulating extremal values

02 p0314 A69-11677

Diversity antenna continuous short wave radio signal envelope distribution, autocorrelation functions, damping rate and cross correlation coefficients

03 p0394 A69-13522

Spatial autocorrelation functions of amplitude and phase fluctuations in plane parallel to wavefront of incident wave for conditions of multiple scatter

03 p0468 A69-13807

Atmospheric fine structure studied by amplitude distribution and autocorrelation functions for different heights of scatter volume in microwave range

04 p0628 A69-15306

Viscosity coefficient tensor in terms of autocorrelation functions, using linear reaction theory of mechanical disturbances

05 p0794 A69-15785

Autocorrelation function distortion determined for Barker signal passing through linear system and RC filter, noting passband influence on function shape

05 p0720 A69-16443

Root mean square time delay error with respect to playback time and autocorrelation function of tape recorded sine wave for studying jitter spectra

07 p1132 A69-18827

Computerized objective analysis of meteorological variables based on weight determination involving autocovariances

08 p1345 A69-20309

Power spectrum of nonstationary processes with periodicity in two dimensional autocorrelation function based on Fourier transform

09 p1455 A69-21847

Computerized autocorrelation function analysis of radioactivity distributions in atmosphere at different altitudes, showing no correlation between values

11 p1945 A69-24320

Two dimensional autocorrelation functions of outgoing radiation fields usable as quantitative characteristics of cloud distribution structures

11 p1913 A69-24832

Holograms reconstructing images of points with diameters approximated by width of autocorrelation functions

11 p1886 A69-25058

Thinned arrays design based on array excitation autocorrelation function, considering element spacing

11 p1856 A69-25661

Autocorrelation and cross correlation analysis of rapid density variations in F region determined from satellite deceleration and geomagnetic data

12 p2069 A69-26436

Sunspots autocorrelation functions in sunspot area on solar disk, tabulating extremal values

13 p2355 A69-28708

False alarm stabilization circuits efficiencies compared in unsteady Gaussian noise, considering phase autocorrelator performance

15 p2567 A69-30342

General autocorrelation function for input signal composed of two amplitude modulated noise waves and background noise from detecting system composed of half wave element

15 p2569 A69-30805

Fluctuation spectra of monatomic gases, using two time probability distributions for distribution function autocorrelations

16 p2817 A69-31669

Error analysis of one bit autocorrelation method of spectral estimation, noting decrease in spectral variance with increased sampling rate

16 p2752 A69-32390

Autocorrelation function distortion determined for Barker signal passing through linear system and RC filter, noting passband influence on function shape

16 p2753 A69-32475

Jodrell Bank RF digital autocorrelation spectrometer based on time delay related to signal power spectrum through Fourier transform

17 p2970 A69-32856

Viscosity coefficient tensor in terms of autocorrelation functions, using linear reaction theory of mechanical disturbances

18 p3173 A69-35037

Autocorrelation function for unsteady temperature and stress fields in bar located in gas stream leaving combustion chamber

19 p3440 A69-36685

Aircraft measurements of scintillation of ground based light source, calculating autocorrelation functions and intensity fluctuations spectra

19 p3279 A69-36881

Quadrupole self and cross correlations of directional jet noise patterns, including frequency spectra and corrections

22 p3931 A69-40891

Optimum signals for high resolution radar and communication systems, using transmitter waveform design of autocorrelation and cross correlation functions

23 p4132 A69-42545

AUTODYNES

Autodyne frequency converters minimum noise and conversion factor calculation and optimal mode determination

09 p1469 A69-22631

Amplitude-frequency characteristic and noise bandwidth of electron tube reflex autodyne operating in over or under voltage mode and including IR feedback

16 p2761 A69-32477

AUTOGYROS

VFW H3 Sprinter autogyro maintenance, reliability and operating costs

16 p2735 A69-32056

AUTOIONIZATION

Autoionizing states effects on absorption cross sections for ejection of outer subshell electron from atomic oxygen

04 p0633 A69-15127

Red autoionizing lines relative gf values for calcium measured by shock tube experiment

09 p1601 A69-22208

Autoionization lines effect on stellar structure by computing contributions to Rosseland mean opacity

20 p3612 A69-38165

AUTOKINESIS

Visual long term storage capability demonstration, describing negative aftereffect of motion perceived after fixation of moving spiral pattern

21 p3661 A69-39332

After image measuring method of eccentric fixation during autokinetic light tracking

22 p3878 A69-40837

AUTOMATA THEORY

Mathematically stylized simple systems representing systems with functional law varying as function of acquired experience

01 p0050 A69-10377

Self reproducing automata, noting description of cellular system and applications to systems science

05 p0723 A69-15826

Algorithm for calculating Moore automaton or connected network channel capacity and source of input symbols for full capacity utilization

07 p1088 A69-19707

Mathematically stylized simple systems representing systems with functional law varying as function of acquired experience

12 p2054 A69-26670

Human operator as servo system element of subassemblies in tracking and equilibrium tasks, stressing results of electromyographic analysis

12 p2025 A69-27081

Synthesizable automata with sequential homogeneous structure formed by standard fixed units combination

13 p2224 A69-27249

Reliability functions and cycles number before breakdown of finite automaton with account of randomness of malfunctions, structure and input signal distribution

13 p2224 A69-27250

Finite state probabilistic automata reduction problems

13 p2239 A69-28534

Homogeneous finite automaton asymptotic analysis, calculating series terms for matrix transition probability function

13 p2239 A69-28535

Finite automaton malfunctions, discussing input sequences construction and output sequences analysis for malfunction subsets recognition

13 p2239 A69-28536

Group code decoding, discussing equivalent transformations of reference matrix and reduction of equipment losses

13 p2225 A69-28537

Finite automaton used to construct minimum automaton with periodic structure, discussing representability of regular events

13 p2239 A69-28553

Lower bound determination of automaton memory elements, describing coding procedure and algorithm for machine states

13 p2239 A69-28554

Probabilistic automata stochastic matrices algebraic properties of definite, quasi-definite, periodic and quasi-periodic sets

15 p2645 A69-31141

Checking automation languages defined as one way stack languages subfamily forming full AFL closed under substitution

16 p2755 A69-32078

AUTOMATIC CONTROL

NT ADAPTIVE CONTROL

NT CASCADE CONTROL

NT DYNAMIC CONTROL

NT FEEDBACK CONTROL

NT LEARNING MACHINES

NT NUMERICAL CONTROL

NT OFF-ON CONTROL

NT OPTIMAL CONTROL

NT PROPORTIONAL CONTROL

NT SELF ADAPTIVE CONTROL SYSTEMS

NT SELF ALIGNMENT

NT SEQUENTIAL CONTROL

NT TIME OPTIMAL CONTROL

Multivariable PFM control system stability analysis using Liapunov function as Hermitian quadratic form

01 p0050 A69-10207

Root-mean-square error determination in automatic control system by digital computer for realizing control function, investigating harmonic and random input effects

01 p0050 A69-10208

Respiratory system control processes hypotheses experimental verification

01 p0019 A69-10209

Automatic phase control effective bandwidth determined by asymptotic method, presenting computer calculated dependence on circuit parameters

01 p0030 A69-10590

Monte Carlo method accuracy improvement for calculating probability characteristics of nonlinear ordinary differential equations, describing nonlinear automatic control

01 p1015 A69-10730

Soviet collection of articles on analysis and synthesis of automatic control systems

01 p0051 A69-10793

Forced processes in continuous extremal control systems, proposing algorithm for designing dynamic model

01 p0052 A69-10798

Variational law of control elements for automatic control systems with parameters subject to random changes

01 p0052 A69-10800

Automatic control systems correction by compensating for nonlinear statistical dynamic characteristics with aid of nonlinear devices

01 p0053 A69-10801

Stability of two coordinate automatic angular tracking systems

01 p0053 A69-10803

Hydrocarbon-air fuel cell producing electric power automatically for five days

01 p0013 A69-10965

Soviet book on design of multidimensional automatic control systems, covering structural circuit synthesis and individual element characteristics

01 p0053 A69-10995

Soviet book on automatic control and telemechanics in hydrometeorological measurements covering sensors, transducers, amplifiers, etc

01 p0111 A69-10997

Autonomous solution to orbital navigation problem yielding direct measure of orbital parameters

01 p0114 A69-11005

Automatic life support system tried on leeches for space applications

01 p0021 A69-11080

Solid body automatic orientation, discussing data units for angular error and angular velocity

01 p0122 A69-11302

Expanded describing functions used in studying nonlinear control systems with multiplication points, considering systems with/without integral response

01 p0054 A69-11359

Two parameter dynamic system of fourth order optimization based on gradient method modified for discrete optimization

02 p0224 A69-11594

- Automatic devices to count bacterial colonies Petri dishes consisting of culture plate scanner and data processor
02 p1201 A69-11773
- Liquid fluidic amplifiers combined into controller for modulating coolant temperature to control flight suit temperature automatically
02 p0202 A69-11923
- Proportional navigation guidance systems for interceptor missiles optimized by adding biased term to guidance equation
02 p0278 A69-11973
- Pulsed ruby laser power supply incorporating facilities for variable output, automatic cutout for fully charged capacitors and automatic/manual triggering
02 p0256 A69-12095
- Mercury ion thrusters and facilities automatic controls durability testing, discussing vacuum chamber systems, unattended operation and control [AIAA PAPER 68-576]
02 p0229 A69-12385
- Pneumatic elements, discussing development from process control via modules systems to logic elements and fluid sensors
02 p0197 A69-12795
- Automated real time monoradar surveillance system based on azimuthal monotonicity of radar plots and flexible tracking strategies
03 p0383 A69-12872
- Soviet book on electronic countermeasures and intelligence covering jamming methods for automatic systems
03 p0385 A69-12927
- Linear pulse control systems monotone stabilization, estimating required number of controls
03 p0409 A69-12975
- Approximation of correlation or transfer function obtained through exponential polynomial to determine stochastic process spectral density
03 p0409 A69-12976
- Tracking breakdown probability during unsteady operation of nonlinear automatic control system analyzed by statistical linearization techniques and Fokker-Planck equation
03 p0409 A69-13070
- Statistical linearization coefficients for arbitrary nonlinearities in automatic control systems via techniques applying characteristic functions
03 p0409 A69-13071
- Undetected defects and false alarm probabilities for automatic test equipment, emphasizing quality and confidence limits
03 p0428 A69-13187
- Synthesis of statistically optimal self adaptive system for dynamic characteristics stabilization of automatic control system main loop
03 p0410 A69-13256
- Automatic checkout of space systems, discussing cost effectiveness tradeoffs, ground and onboard equipment utilization, vehicle design and mission success risk
03 p0411 A69-13392
- Topological principles of gate and contact self correcting circuits not using self correcting codes
03 p0410 A69-13421
- Automatic recording device for cosmic ray bursts utilizing information time delay to allow detailed initial period study
03 p0430 A69-13545
- Multivariable automatic control systems stability, discussing applicability of Nyquist theorem and alternate frequency criterion
04 p0581 A69-14601
- Stochastic problems in control - Conference, Ann Arbor, June 1968
04 p0581 A69-14693
- Motion control for nonlinear system with small initial perturbation
04 p0583 A69-15096
- Global and nonglobal stability of continuous systems with multiplicative feedback
04 p0583 A69-15112
- Computer controlled photometric telescope, describing star setting, photometric measurements and data processing
04 p0602 A69-15380
- Digital radar systems, discussing control computers, beam steering computers, signal processors, mode control, displays and chirp networks
05 p0718 A69-15748
- Time domain synthesis of multivariable automatic control with predetermined output signal shape, allowing for internal cross coupling effects
05 p0737 A69-15887
- Identification of nonlinear control systems, determining nonlinearities in differential equation by curve fit or iteration method [ASME PAPER 68-WA/AUT-19]
05 p0738 A69-16173
- Continuous parameter identification methods for parameter optimization in automatic control system analysis and synthesis, using modified steepest descent optimization
05 p0725 A69-16474
- Automatic phase control and transient processes in resonant amplifier in presence of phase discontinuities of input signal
05 p0721 A69-16533
- Book on electric elements and circuits for automatic control, discussing electric machines as control loop elements, stability criteria and synthesis, electric drives, etc
05 p0739 A69-16545
- Articles on automatic control systems stability, discussing relation between method of Lure and Popov criteria
05 p0740 A69-16667
- Simulation in design of automated flight test data system
05 p0743 A69-16759
- Integrated automatic data processing system/NEC-TAR/performance and operation
05 p0726 A69-16765
- Electronic system checkout in SAAB 37 Viggen, using computer controlled test equipment
05 p0726 A69-16767
- Manual and automatic spacecraft rendezvous and docking, discussing docking of Cosmos 186 and 188 in 1967 [UN PAPER 68-95764]
06 p1013 A69-17057
- Integrated circuit interconnection patterns computerized design, discussing automatic laser mask-making control
06 p0931 A69-17199
- Learning control system design, using a priori information in subgoal selection, control situation grid extensions and controller initialization
06 p0900 A69-17355
- Automatic compensation of unwanted signal level fluctuation in measuring setups including microwave generators and detectors
06 p0903 A69-17489
- Clearing and blocking control over frequently overadjusted automatic equipment in precision machine and device construction
06 p0931 A69-17692
- Automatic control textbook covering theoretical and practical principles of control engineering, analysis, design, servomechanisms and instrumentation
06 p0904 A69-17856
- Automatic air traffic control systems design, development and application to civil and military aviation
06 p0955 A69-17858
- Digital computer algorithm for automatic processing of IR weather data transmitted by Cosmos 122 and 144 meteorological satellites
06 p0929 A69-17981
- Flexible vehicle control, using cybernetic model for system design and response [AIAA PAPER 69-115]
06 p1018 A69-18088
- Automatic test set for measuring dopant concentration profiles in epitaxial films
07 p1130 A69-18245
- Transistor HF noise factor measurement by semiautomatic device with saturated diode comparison noise source heater current automatically controlled
07 p1090 A69-18292
- Automatic laser tracker system for close-up photographic coverage of rocket test [SMPTE PREPRINT 101-91]
07 p1116 A69-18949
- Aircraft separation standards, considering separate space for VTOL in automated high density airways system [AIAA PAPER 69-210]
07 p1178 A69-19579
- Computer aided automatic drawing of printed circuits, including design and manufacture of films for engraving
08 p1296 A69-19979
- Differential method with invariance principle used to analyze nonlinear invariant systems, determining physical realizability conditions
08 p1296 A69-20234
- Function generator for approximating function of many variables without recourse to multiplication, providing continuous functions representation
08 p1278 A69-20235
- Nonlinear controller design by dynamic programming method, discussing block diagram
08 p1296 A69-20236
- Automation and instrumentation - Conference, Milan, November 1968, Volume 1
08 p1296 A69-20301
- Fluidic power control switch for supersonic fluid amplifier, presenting performance data and possible industrial applications
08 p1256 A69-20304
- Stability region of second order nonlinear autonomous system determined by numerical computational method
08 p1297 A69-20358
- Identification method for cyclic plants operating in mode characterized by recurrence of initial conditions, giving numerical results and error assessment
08 p1298 A69-20421
- Cybernetic theory application to automatic spacecraft, discussing control problems in Mariner 4 and Surveyor 7 missions and attitude stabilization system
08 p1409 A69-20583
- Automatic transistor reliability testing system based on measured data and reliability research
08 p1294 A69-21119
- Nonlinear control theory for constant temperature hot-wire anemometers with large velocity fluctuations, noting second harmonic generation
09 p1493 A69-21421
- Optimum gathering of information for linear automatic control system with distributed parameters in presence of random input disturbance
09 p1471 A69-21437
- Stability of systems with periodic parameters, relation to automatic control systems and frequency characteristics role
09 p1473 A69-21855
- Probability approach to control system optimization problem for plant with incomplete information
09 p1473 A69-21856
- DC/AC collectorless step electric motors operation and commutation circuits
09 p1442 A69-21860
- Future launch vehicle programs for automated space missions, discussing higher launch velocities and economics [AIAA PAPER 68-447]
09 p1610 A69-21983
- Automatic level measuring system, consisting of decade control oscillator, digital level generator and selective level meter for 200Hz-2MHz range
09 p1501 A69-22577
- Nonlinear control plants model with pure delay effect identified by harmonic balance method
09 p1475 A69-22669
- Electrooculographic method to study eye movements control system for fixation on stationary point or following discretely or continuously moving target
09 p1447 A69-22675
- Stability and dissipativity conditions for nonlinear controlled systems subjected to parametric and continuously acting disturbances
09 p1476 A69-22717
- Automatic phase control effective bandwidth determined by asymptotic method, presenting computer calculated dependence on circuit parameters
10 p1653 A69-23105
- Rocket engine test facilities automation noting cost reduction and improved capabilities
10 p1671 A69-23258
- Test facility automation, discussing pretest preparations, test operations, data reduction and system planning
10 p1671 A69-23260
- Real time computer controlled telemetry system readiness testing and validation, describing automatic closed loop checkout methods and remote display controller
10 p1660 A69-23270
- Root sensitivity of characteristic equation of linear automatic control system to system parameter changes applied to aircraft angular stabilization
10 p1666 A69-23610
- Luna 9 automatic station flight control complex, detailing communication, orientation and stabilization systems operation after separation from acceleration module
10 p1792 A69-24197
- Flight control system for automatic interplanetary stations /AIS/, comparing Venera series orientation and correction system to Mariner systems
10 p1792 A69-24198
- Automatic ground traffic control of aircraft on airport taxiway without visual detection, noting induction

loop detection in surface traffic control system /STRACS/

11 p1913 A69-24267

Conjugated gradient components of optimization criterion in automatic control determined by applying sensitivity method to computation

11 p1857 A69-24367

Parametric damping of oscillations in second order automatic control systems, taking into account control function constraints

11 p1857 A69-24556

Periodic solutions of strongly nonlinear differential equations for behavior of automatic control systems with delayed argument, noting autonomous and nonautonomous systems

11 p1916 A69-24765

Steady state and dynamic characteristics of linear plant with constant lag element based on correlation function moments

11 p1859 A69-24965

Automatic support systems for advanced maintainability - IEEE Conference, St. Louis, November 1968

11 p1863 A69-25059

High speed automatic test sets and rapid repair procedures under adverse conditions for individuals of relatively low technical skill

11 p1851 A69-25063

Abbreviated Test Language for Avionics Systems /ATLAS/ as standard compiler input language for commercial airline automatic test equipment /ATE/

11 p1842 A69-25064

Universal test equipment compiler /UTEC/ built for use with languages designed to control automatic test equipment

11 p1842 A69-25066

Modular designed automatic test system consisting of central computer controlled system with multiplexed remote test stations for depot level maintenance

11 p1864 A69-25067

Single purpose, multipurpose and multistation automatic test systems for production and maintenance

11 p1864 A69-25068

Multipurpose test system analysis emphasizing support section containing self test elements, power monitoring and control, interconnection techniques and packaging

11 p1864 A69-25069

Compatibility effects of automatic test equipment on avionics hardware design

11 p1865 A69-25070

Hardware-software interface defined for design of computer controlled test system, discussing criteria for designing economical systems

11 p1842 A69-25071

Mathematical model for prediction of automatic test equipment utilization and determination of time for performance of intended test function

11 p1865 A69-25074

Optimized automated system for direct support maintenance of AH-56A subsystem equipment

11 p1865 A69-25075

Semiautomatic and automatic off-line module testing machines, comparing costs for different test populations

11 p1865 A69-25076

Real time/process computer interface with electric power systems, discussing compatibility, reliability, etc., problems in connection with management and engineering personnel

11 p2004 A69-25302

Extremal controlled plants identification by Chebyshev orthogonal polynomials, comparing results with regression analysis

11 p1861 A69-25713

Lock-on characteristics of automatic tracking systems evaluated for case of variable vector signal, calculating transient response

11 p1861 A69-25716

In-circuit diodes testing by semiautomatic low current regulated voltage test set

12 p2035 A69-25835

Canonical transformations of unsteady control system motion equations, simplifying control process study and controller simulation on analog computer

12 p2045 A69-25960

Feedback design for monotonically stabilized linear sampled data control system

12 p2045 A69-25961

Linear automatic control system floating response to harmonic effects achieved by coinciding open loop system transfer function poles with disturbance pattern poles

12 p2045 A69-25967

Computer controlled network analyzer performing automatic microwave measurements of passive and active networks, based on signal splitting and detecting

12 p2037 A69-26048

Multivariable control systems - Conference, Duesseldorf, October 1968, Volume 2

12 p2045 A69-26058

Synthesis of multivariable control systems at minimal integral square quality functional

12 p2046 A69-26061

Recursive estimation of noisy nonlinear multivariable systems in white noise by Kalman, second order nonlinear and iteration filters

12 p2046 A69-26062

Digital computer analysis of multivariable control system in frequency domain, using operational array technique programming method

12 p2046 A69-26064

Multivariable control systems - Conference, Duesseldorf, October 1968, Volume 1

12 p2046 A69-26069

Minimal representation in state variables for multivariable control system, discussing algorithms, identification methods and flow graph techniques

12 p2047 A69-26070

Group theory application to multidimensional symmetrical linear dynamic control systems optimization, considering natural vibrations of three material points

12 p2129 A69-26071

Matrix transfer functions factorization to obtain irreducible representations of multivariable control systems used for studying invariant linear multidimensional processes

12 p2047 A69-26072

Multivariable control system decoupling by appropriate choice of decoupling network structure and location in system

12 p2048 A69-26074

Canonical forms for observable and controllable linear time invariant systems by simultaneous transformations of system state and input and output vectors

12 p2048 A69-26075

Multivariable automatic control system consisting of similar local subsystems studied by transforming system equations into equivalent diagonal form

12 p2048 A69-26076

Nonlinear multivariable control systems synthesis, considering synthesis expressibility in known linear formulation

12 p2048 A69-26077

Uncontrollable modes effect on transient/steady behavior and limit cycles characteristics of nonlinear multivariable control system

12 p2048 A69-26078

Stability conditions for control systems consisting of linear multivariable stationary neutral plant and multivariable pulse frequency modulator, using Liapunov direct method

12 p2049 A69-26080

Self and forced oscillations in multivariable relay control system, considering relays with hysteresis and dead band and stability of periodic states

12 p2049 A69-26084

Multivariable control systems - Conference, Duesseldorf, October 1968, Supplement

12 p2051 A69-26092

Dynamic properties and reliability of linear time invariant multivariable control systems

12 p2051 A69-26093

Canonical representation of multivariable control system in state space using matrix of differential operators acting on vectors of input-output quantities

12 p2051 A69-26094

Steady modes of operation analysis for optimal single channel differential relay system with inertial controlled plant, assuming constant rate varying plant input

12 p2052 A69-26278

Operational Q factor of optimal differential relay system with inertial plant during tracking process, noting cadence pulses high repetition rate influence

12 p2052 A69-26279

Equivalent subsystems for designing multivariable linear automatic control system

12 p2052 A69-26280

Electro-optical scanning device and electro-optical matrix for mechanization of difference measurements in automatic photointerpretation of surveillance maps

12 p2090 A69-26302

Concorde SST equipment and systems noting microelectronics, automatic control, inertial navigation, head-up displays, linear instruments and hydraulic systems

12 p2091 A69-26360

Furnace for automatic high temperature cycling in controlled oxidizing environment

12 p2093 A69-26483

Approximate solution of boundary value problems for Fokker-Planck equation to determine probability of exceeding limits in nonlinear automatic control systems

12 p2054 A69-26653

Differential equations of probability theory for studying control systems and processes involving random variables

12 p2124 A69-27142

Nonlinear control systems error signals convergence to steady states in frequency domain, applying step or ramp functions to single feedback system

13 p2237 A69-27188

Nonlinear control systems analysis by successive approximations, separating dominant component in transfer function of linear part

13 p2237 A69-27252

Discrete automatic control systems determination by adjustable model, considering quasi-steady state conditions

13 p2238 A69-27253

Designs and capabilities of digital processing systems for automatic air traffic control radar information stressing future use of display for computerized control

13 p2295 A69-27332

Stabilization of nonlinear control systems steady motions for two pairs of imaginary roots

13 p2298 A69-27745

Statistical analysis of radiation temperature structure for automatic recognition of meteorological situations from actinometric satellite observations

13 p2293 A69-27842

Regional boundaries in control-parameter space constructed by computer algorithm, involving parameter vibration direction changes in parameter plane

13 p2225 A69-27967

Perturbations stabilization in electrically conducting fluid by distributed automatic control system, determining feedback operators via boundary value problem

13 p2311 A69-28105

Book on control theory covering automatic and remote position control, diagrams, transfer functions, operators, Laplace transform use with differential equations

13 p2238 A69-28345

Linear automatic control optimization by modified Newton method for determining real function zero value of real argument

13 p2239 A69-28436

Set of states for control system described by linear differential equation with constant coefficients and brought to zero phase coordinates

13 p2239 A69-28437

Automatic device for impedances and complex transmission factors measurement at meter and decimeter wavelengths, noting reflection factor

13 p2235 A69-28520

Multivariable PFM control system stability analysis using Liapunov function as Hermitian quadratic form

14 p2424 A69-28743

Root-mean-square error determination in automatic control system by digital computer for realizing control function, investigating harmonic and random input effects

14 p2424 A69-28744

Respiratory system control processes hypotheses experimental verification

14 p2408 A69-28745

Tracking breakdown probability during unsteady operation of nonlinear automatic control system analyzed by statistical linearization techniques and Fokker-Planck equation

14 p2424 A69-28752

Statistical linearization coefficients for arbitrary nonlinearities in automatic control systems via techniques applying characteristic functions

14 p2424 A69-28753

Linear control design to synthesize system with prescribed spectrum, deriving formula yielding control coefficients as function of eigenvalues

14 p2425 A69-28821

Automatic search-free optimization by sensitivity functions, deriving algorithms by Q factor and discrepancy extrapolation

14 p2425 A69-28823

Fluidic systems for automatic control of fuel supply to ramjet engine combustor, coolant rationing and distribution to engine structure and performance efficiency maintenance

14 p2508 A69-28875

Automatic control circuit zero drift compensation during external disturbance, using algorithm for com-

puter minimizing of losses caused by control and response inaccuracy
14 p2425 A69-29140

Input signal piecewise linear approximation for investigating response of dynamic automatic control systems to nonstandard input signal
14 p2426 A69-29143

Identification method for cyclic plants operating in mode characterized by recurrence of initial conditions, giving numerical results and error assessment
14 p2427 A69-29659

Signal phase measurement accuracy by discrete phase technique ensured by using wideband signals and automatic control of input SNR
15 p2574 A69-30130

Automatic recording inverted dilatometer employing fused quartz vertical pedestal and yoke type pushrod
15 p2607 A69-30153

Large telescope dome movements automatic control, considering central and eccentric telescope mounting
15 p2588 A69-30441

Automatic hybrid apparatus for solving linear equations, using Gauss-Seidel iterative method and stressing control arrangement, communication circuits, etc
15 p2572 A69-31089

Automatic multichannel system for turbine blades static tests, discussing operation principles, component sections, programmed tape and vibration modes
15 p2672 A69-31209

Fluidic digital position sensor consisting of fluidic monostable amplifier, analyzing operation by characteristics method
15 p2554 A69-31301

Nonlinear discrete on-off system phase plane system analysis by motion separation method
16 p2763 A69-31628

Automatic quantitative checkout equipment for telemetry circuit of Diamant satellite booster before launching
16 p2750 A69-31727

Automatic nonrepairable control elements reliability evaluated statistically with differentiable lifetime distribution function
16 p2764 A69-32199

Stability determination for nonlinear automatic control systems, describing mathematical methods based on Liapunov functions
16 p2804 A69-32242

Automatic meteorological radar data processing system incorporating MRL-1 radar and low speed digital computer
16 p2791 A69-32279

Automatic phase control and transient processes in resonant amplifier in presence of phase discontinuities of input signal
16 p2753 A69-32474

Stability and dissipativity conditions for nonlinear controlled systems subjected to parametric and continuously acting disturbances
16 p2765 A69-32550

Automated patching system design for analog and hybrid computers to reduce number of switches required
16 p2756 A69-32551

Equipment- and program-type methods for solving automatic digital control systems synthesis problems, evaluating efficiency based on accuracy
17 p2933 A69-33120

Pulsed control systems sensitivity relationship to discreteness period described via differential equations
17 p2994 A69-33143

Automatically controlled dynamic systems reliability estimation in terms of failure probability illustrated with autopilot-aircraft case
17 p3001 A69-33144

Brake system components automatic testing for pneumatic or hydraulic integrity essential to safe system performance
17 p2978 A69-33377

Digital computer for aircraft engine control covering in-flight health monitoring, automatic flight checkout, diagnostic failure routines, etc
17 p3022 A69-33603

Automatic device for logarithmic damping decrement measurement from vibrograms, showing structural arrangement and electrical circuitry
17 p2976 A69-33931

Automated analog scaling for in hybrid computer systems imposing magnitude and frequency constraints, using equations for amplifier input factors
18 p3105 A69-34617

Automatic ultrasonic instrument monitoring on-line welding conditions of RF longitudinally seamwelded tubes
18 p3136 A69-34778

Automated handling of mass properties data, describing data stored, central bank, report outputs, system logic, etc
[SAWE PAPER 811] 18 p3221 A69-34899

Automatic ultrasonic inspection device search head, servomechanism and electronic system used for detecting weld defects and cracks
18 p3137 A69-35111

Controlled vehicle disturbed trajectory multiple correction, considering constrained control or limited accessible coordinates for observations
18 p3174 A69-35316

Automatic control system transient response oscillatory and aperiodic components calculation using open loop system transfer function
18 p3112 A69-35458

Automatic ultrasonic method for determining dissolved gases content in liquid sample, using increasing acoustic oscillations amplitude for bubble development
19 p3308 A69-35822

Automatic systems for complex plant control, discussing synthesis of complex control systems
19 p3286 A69-35889

Automatic control systems for plants with distributed parameters, discussing stabilizing resonance shell with space-time dispersion of controlled processes
19 p3372 A69-35893

Feasibility of automatic stationkeeping for synchronous satellites by using solar sailing techniques and low thrust systems
[AAS PAPER 68-151] 19 p3429 A69-35950

Evaluation method for strapdown spacecraft guidance systems on automated interplanetary missions, using cost and system performance efficiency probability model
[AIAA PAPER 68-828] 19 p3370 A69-35953

Digital computer controlled antenna positioning system computing spacecraft tracking trajectory from given parameter input set
19 p3267 A69-35997

Precompression automatic wild point rejection from sampled telemetry data for data compressors evaluated by digital computer simulation
19 p3273 A69-36263

Eurocontrol Experimental Data Processor for automation in air traffic control, discussing system size configuration and environment
19 p3280 A69-36654

Observation space transformed from statistical synthesis of nonlinear closed systems to multiple control system subjected to statistically assigned perturbations
19 p3287 A69-36662

Newton gravitational constant determination from measured acceleration and known magnitude of masses, describing control system
20 p3537 A69-37140

Control system concept for axisymmetric supersonic inlet operation in mixed compression mode noting test results
[AIAA PAPER 68-581] 20 p3585 A69-37151

Automation application to rocketry, discussing process control in installations including control circuits and electronic direct digital control system
20 p3617 A69-37340

Spacecraft discrete automatic control system computerized simulation, discussing logic elements, applications to design, etc
20 p3502 A69-37393

Hydraulic power pack for automatically raising or lowering landing gear in small aircraft
20 p3467 A69-38183

Automatic planetary electrophotometer designed for earth atmosphere and lunar photometry, noting operational data
20 p3547 A69-38310

Contactless correcting devices based on magnetic moments for automatic control
21 p3685 A69-38453

Automatic electropolisher for copper disks
21 p3720 A69-38597

Gyroscopic platforms automatic stability relative to inertial reference system, considering functional equations and error computation
21 p3760 A69-38734

Admissible controls set for discontinuous stochastic automatic control systems, deriving mean optimal averaging of controls
21 p3770 A69-38855

Computer programming procedures in automatic control of hole boring processes for aircraft components
21 p3731 A69-38881

Automatic stationkeeping /geosynchronization/ for maintaining satellite in circular synchronous orbit at all geocentric longitudes for prolonged time with low fuel consumption
21 p3805 A69-39213

Automatic instrument for star detection and azimuth derivation, scanning nighttime zenith star field
[AIAA PAPER 69-861] 21 p3762 A69-39389

Orbital results for Automatic Orbit Control System of Lincoln Experimental Satellite LES 6, using pulsed plasma microthrusters and self contained orbit measurement and control methods
[AIAA PAPER 69-934] 21 p3824 A69-39428

Computer controlled automatic radar for survey through 360 degrees in azimuth and zero to 60 degrees in elevation
21 p3677 A69-39566

High temperature electronic tensile testing device utilizing SCR to study strain rate effect on metals properties
21 p3727 A69-39811

Scattered light photoelasticity dual observation method, describing automatic data collecting and interpreting system
22 p3945 A69-40079

Dynamic characteristics of temperature control systems using crystal oscillators determined by nonlinear automatic control theory
22 p3869 A69-40254

Self testing and repairing /STAR/ aerospace computer for automatic maintenance of unmanned interplanetary spacecraft
[AIAA PAPER 69-966] 22 p3906 A69-40347

Low visibility VSTOL instrument landing system and associated electronic structures, discussing instrument to visual flight transition
22 p3979 A69-40675

Carrier frequency monitoring amplifier with automatic bridge tuning for coupling to passive sensors including strain gages, inductive transmitters, etc
22 p3915 A69-40937

Automatic phase control system stability range determination in piecewise linear approximation and in presence of proportional integrating filter
22 p3918 A69-40956

Automation of single pass electric spark machining of high alloy steels and hard alloys, including anodic-mechanical profiling, cutting and drilling
23 p4168 A69-41308

Automated air photo identification of crop types, utilizing stereo height as discriminating variable
23 p4155 A69-41721

Digital computer systems for automating machine parts design main metal cutting operations, emphasizing optimal instrument usage, reliability, digital algorithm language and economics
23 p4169 A69-41952

Invariance theory in automatic dynamic systems
23 p4145 A69-42368

Combined automatic control systems stability having principal coordinates related by loading equation
23 p4145 A69-42370

Man-machine /semiautomatic/ control for optimal decision making, discussing automatic control disadvantages and limitations, multilevel system hierarchical structures, three level models, etc
23 p4112 A69-42443

Recursive estimation of noisy nonlinear multivariable systems in white noise by Kalman, second order nonlinear and iteration filters
23 p4146 A69-42447

Computer selection for given automatic control system, considering efficiency criterion and operational constraints satisfaction
24 p4285 A69-42952

Automatic system failure sequence statistical analysis, considering randomly time variable external effects
24 p4289 A69-42953

Automatic control - Conference, Boulder, August 1969
24 p4289 A69-43267

AUTOMATIC CONTROL VALVES
NT PRESSURE REGULATORS
NT RELIEF VALVES

Vortex valve characteristics, noting Reynolds number and geometry effects on flow and turndown ratio
02 p0195 A69-12079

Pneumatic stepping motor actuation system with pure fluid valves and signal processing and minimum

- number of moving mechanical parts for high g and temperature environments 02 p0196 A69-12086
- Fluidic vortex valve warm gas flow control for rocket application [AIAA PAPER 69-118] 06 p0872 A69-18147
- Hydraulic control valves for guidance of rockets by secondary liquid injection into nozzle skirt, discussing structure, single nozzle missile and mass gain 07 p1230 A69-19293
- Dynamic behavior of electrohydraulic servomechanisms over wide range of loads using differential equations of motion 08 p1256 A69-20718
- Gas servo design utilizing floating flapper disk switching valves and pulse-length modulated pressure waves to actuate on-off switch [AGARDOGRAPH-118] 08 p1257 A69-20950
- Flapper valves in high pressure hydraulic aircraft systems, with hydrodynamic equations and charts for design and performance characteristics 09 p1435 A69-21296
- Flow control valve for hydraulic motor speed regulation operated by remote pressure signal 11 p1827 A69-25646
- Servovalves with fluidic and electrical inputs compared for gas servovalves performance, considering use as sensors in closed-loop hydraulic circuit 19 p3255 A69-36711
- C-5A transport modular valve design for improved maintenance and high reliability due to manifold-cartridge arrangement 20 p3466 A69-38178
- Stability criteria for electrical interconnection in parallel operating valve controlled hydraulic servomotors applied to gimbaled system 24 p4256 A69-43310
- AUTOMATIC DATA PROCESSING**
U DATA PROCESSING
- AUTOMATIC FLIGHT CONTROL**
- Soviet book on inertial control of ballistic rockets covering rocket flight deviations measured by onboard sensors and computer 01 p0113 A69-10994
- Missile control during propulsion period, emphasizing vane deflection required for lateral wind compensation 01 p0163 A69-11297
- Test equipment for rapid automatic checkout and evaluation of automatic flight control systems on commercial and jet transport aircraft 05 p0742 A69-15883
- Self contained electrically servoed transducers for flight control, noting angle of attack transducer and force 05 p0766 A69-16750
- Airborne area navigational capability achieved by course line computer processing VOR information 07 p1178 A69-19763
- Automatic flight control system /AOOSY/ for German Azur satellite 09 p1459 A69-22563
- Secondary radar for air traffic control automation in France, discussing onboard equipment 10 p1723 A69-23705
- Multiple drone aircraft automatic control system, discussing preprogrammed mission path and controls of altitude, plan position and velocity 14 p2392 A69-29495
- Automatic navigation and sighting system for French specified Jaguar combat aircraft development 16 p2809 A69-31760
- Flight command computer for V/STOL aircraft, discussing design concepts, operating modes, displays, etc [AHS PAPER 313] 17 p3001 A69-33543
- Self monitored subsystems in automatic flight control of Concorde, describing operation mode and landing display 17 p3003 A69-34196
- Air traffic control/electronics automation developments and controllers responsibilities in Great Britain and Netherlands 18 p3168 A69-34805
- Air traffic control ground equipment developments including radio direction finders, surveillance radar, interconsole marking, etc 18 p3168 A69-34806
- Automatic flight control, discussing equipment, components and relationship between autopilot and navigation system 18 p3170 A69-34856
- TAPIR automatic pilot, describing components and automatic landing 19 p3371 A69-36704
- Flight control system providing variable stability in pitch axis of NF-8D Crusader, discussing flight evaluation of power approach short period configurations [AIAA PAPER 69-896] 21 p3648 A69-39420
- Linear flight control system synthesis by using optimal control theory associated with quadratic performance index 22 p3864 A69-40588
- Triple redundant actuator for fly-by-wire control system, noting electrohydraulic servomechanisms in side-by-side arrangement 22 p3870 A69-41242
- Digital computers effect on aircraft automatic power unit controls, discussing safety, reliability, self monitoring and redundant computer systems 24 p4253 A69-43113
- AUTOMATIC FREQUENCY CONTROL**
- Millimeter wave oscillator AFC system utilizing inherent stability of molecular rotational transition applied to reflex klystron stabilization 01 p0044 A69-10628
- Reduction of ATR switch pulse peak in automatic frequency control system of radar station 01 p0047 A69-10784
- Stabilization system for klystron automatic frequency control, noting use in voice communication microwave generators and resonance spectroscopy 02 p0216 A69-12096
- Automatic device for charging storage capacitors in plasma devices provides voltage and operational frequency control 04 p0580 A69-14493
- Nonlinear phase locked automatic frequency control system dynamics, noting asymptotic stability of equilibrium state in whole 04 p0559 A69-15137
- Phase locked automatic frequency control system with additional frequency control loop and nonlinear filter in phase control loop, analyzing dynamics 04 p0559 A69-15140
- Balanced diode shunt bridges with electronically tunable carrier selection high-Q N-path filter from 0 to 200 kHz, using single integrated module 07 p1089 A69-18249
- Tuning design optimization of single circuit LF automatic control systems, using transfer functions and phase amplitude graphs 08 p1297 A69-20418
- Reduction of ATR switch pulse peak in automatic frequency control system of radar station 10 p1661 A69-23113
- Noise stability of FM receiver with automatic control of IF amplifier resonance frequency in presence of weak noise 15 p2564 A69-30144
- Automatic frequency control of laser and regenerative amplifier, considering frequency stability 15 p2633 A69-30238
- Automatic tuning of superconducting cavity resonant frequency using optical feedback, discussing phase error processing and frequency deviation 17 p2937 A69-33781
- Lock-on band of phase locked AFC system calculated by asymptotic method, considering frequency integrating filters with nonlinear capacitances 19 p3277 A69-36569
- Frequency stabilization in He-Ne three mode laser by stabilizing LF oscillations via automatic adjustment of laser resonator length 21 p3738 A69-39078
- Automatic frequency control circuit for stabilizing beat emissions of coupled multifrequency gas lasers 21 p3738 A69-39079
- Balloon-borne transmitter consisting of oscillator, driver and final output and connectable automatic frequency control circuit 21 p3682 A69-39251
- Frequency locking of HCN laser transition at 890 GHz to harmonic of crystal controlled oscillator 22 p3963 A69-40567
- AUTOMATIC GAIN CONTROL**
- Optimum gain control for diversity receivers used for radar and digital data transmission through fading media 03 p0410 A69-13833
- SNR analysis at amplifier output with AGC, noting increase with signal strength 05 p0729 A69-16085
- Optimized gain control configuration using field effect transistor with broadband control to maintain high signal to noise ratio with low distortion 07 p1115 A69-18889
- Channel output SNR optimization in AM/FM telemetry system by using automatic gain control, discussing AGC time response and general characteristics 09 p1454 A69-21799
- Current driven AGC effectiveness in selective amplifiers, including conductance variation effect on pass-band instability and frequency response 12 p2043 A69-26887
- Electro-optical automatic gain control system to reduce atmospheric turbulence produced fluctuations in received optical signal strength 14 p2459 A69-29491
- Baseband automatic gain control in AM/FM systems, determining time constant and steady state and tracking error 19 p3274 A69-36276
- AUTOMATIC LANDING CONTROL**
- Laser gyro in future inertial navigation systems for Category 1 landing without position updating 03 p0463 A69-13210
- Automatic all-weather landing system for scheduled civil passenger aircraft, discussing safety, display devices, Category 2 and 3 conditions 03 p0465 A69-13697
- Airline safety programs focused on developing reliable automatic landing system, realistic pilot training and airborne monitoring/recording system 06 p1041 A69-16840
- Soviet lunar probe Zond 6 achievements in controlled Earth landing and lunar surface photography 13 p2355 A69-27342
- Trident category 3 automatic landing, discussing triplex pitch and roll control, duplex rudder, autothrottle and azimuth paravision display 13 p2296 A69-27976
- Boeing 747 problems including noise and automatic landings in CAT-II conditions 16 p2734 A69-31631
- L-1011 fail operative automatic landing system design, operational characteristics and test programs [SAE PAPER 690407] 23 p4185 A69-41657
- Localizer acquisition system quasi-optimization technique based on time optimal control theory, with application to SST ILS problem 24 p4348 A69-43312
- AUTOMATIC PATTERN RECOGNITION**
U PATTERN RECOGNITION
- AUTOMATIC PICTURE TRANSMISSION**
- Cloud pictures from weather satellites reception according to automatic picture transmission /APT/ system, discussing design and field strength measurements [UN PAPER 68-95451] 01 p0108 A69-10458
- Satellite automatic picture transmission application to meteorological and hydrological problems including wind estimates, atmospheric stability and cloud distributions [UN PAPER 68-95300] 01 p0108 A69-10462
- Automatic picture transmission station equipment including antenna, cavity filters, tape recorder, oscilloscope, facsimile system and kincscope [UN PAPER 68-95450] 01 p0054 A69-10522
- Computer programming of satellite orbit tracking angles for automatic picture transmission receiving stations 04 p0558 A69-14917
- French space meteorology, discussing reception of automatic picture transmission from Tiro, Essa and Nimbus satellites [UN PAPER 68-95838] 06 p0950 A69-17081
- Satellite picture signal reception from ESSA, Nimbus and ATS to ascertain instrument requirements 06 p0888 A69-17651
- Budapest University satellite radio observation APT station design, equipment and methods 12 p2059 A69-26449
- Israel research on space data for meteorological purposes, describing automatic picture transmission data and errors in surface temperature determination by satellite radiometry 15 p2650 A69-31422
- Antenna array construction for reception of weather satellite transmissions, noting automatic picture transmission systems /APT/ 17 p2946 A69-33767
- Daily European weather surveys based on meteorological satellite pictures transmitted during third quarter 1967 17 p3000 A69-33769

- Computer program for satellite APT geographical grid production, discussing latitude-longitude intersections transformation to Cartesian coordinates
21 p3718 A69-39749
- Gridding technique for satellite APT pictures taken with camera axis perpendicular to earth surface
24 p4314 A69-42992
- AUTOMATIC PILOTS**
- Operational reliability of manual and automatic flight control systems and components and current safety standards
08 p1255 A69-20720
- Motion equations for dynamics of aircraft control surface controlled by autopilot with rigid feedback
16 p2809 A69-32134
- Automatically controlled dynamic systems reliability estimation in terms of failure probability illustrated with autopilot-aircraft case
17 p3001 A69-33144
- Artificial horizon indicator design modifications to facilitate maintaining horizontal aircraft position, discussing automatic pilot advantages in turbulence and flight simulators
17 p2903 A69-34214
- Automatic flight control, discussing equipment, components and relationship between autopilot and navigation system
18 p3170 A69-34856
- Autopilot for flight simulation of stability and control of pilot-airframe combined performance on reentry missions, using airborne analog computer for vehicle response
18 p3208 A69-35000
- TAPIR automatic pilot, describing components and automatic landing
19 p3371 A69-36704
- C-5 aircraft stability augmentation and autopilot development with consideration for unusual design required by takeoff weight, inertia and low approach speed
20 p3461 A69-36927
- Digital autopilots for Apollo CSM and CSM/LM vehicles thrust vector control, describing modifications of onboard computers and programs
[AIAA PAPER 69-847] 21 p3762 A69-39377
- Computerized optimization of flexible booster autopilot design, considering criteria for stability margins, closed loop roots and structural load relief
[AIAA PAPER 69-875] 21 p3823 A69-39401
- Head-Up Display /HUD/ incorporated with autopilot for human participation in flight control for all-weather operation
23 p4109 A69-41871
- AUTOMATIC ROCKET IMPACT PREDICTORS**
- U COMPUTERIZED SIMULATION
U IMPACT PREDICTION
- AUTOMATION**
- Automatic equipment for sampling and preparing gases by dual column gas chromatography for subsequent mass spectral analysis of carbon isotopes during methane metabolism
02 p0205 A69-12603
- Automatic test equipment applicability to testing problems created by increasing complexity of communications equipment
03 p0410 A69-13189
- Automatic support systems development and capabilities with recommendations for future R and D developments
03 p0411 A69-13190
- Automatic preventive maintenance program for hybrid computer system by checking individual units
04 p0568 A69-15359
- Air traffic control /ATC/ automation, discussing display, data acquisition, automated radar terminal systems /ARTS/, etc
05 p0790 A69-16719
- Book on optimal control of systems governed by partial differential equations, noting systems of automation, existence theorems and numerical analysis
09 p1471 A69-21580
- Test facility automation, discussing pretest preparations, test operations, data reduction and system planning
10 p1671 A69-23260
- Directional properties of electro-optical goniometric system based on known design parameters
14 p2420 A69-29332
- Automation application to rocketry, discussing process control in installations including control circuits and electronic direct digital control system
20 p3617 A69-37340

AUTOMOBILE ACCIDENTS

- Occupant restraint systems for automobiles, aircraft and manned space vehicles, discussing cost, practicability, ease of use, acceptability and possible improvements
03 p0380 A69-13459
- Alcohol and drug intake effects on drivers control of motor vehicles, describing postrotatory nystagmus test for toxicity measurement
21 p3652 A69-38791

AUTOMOBILE ENGINES

- Transistorized tachometer for rotational speed measurement and overspeed protection of automotive internal combustion engines
12 p2090 A69-26240

AUTOMOBILES**NT AMBULANCES**

- Telemetric control of urban transportation systems and law enforcement, considering automobiles as prime vehicle
19 p3272 A69-36256
- Intercity air transportation compared with automobile and train travel, attributing air travel dead time to ground route and airspace congestion
24 p4416 A69-42561
- Linear viscoelastic model parameters optimization for designing automobile lap seat belts, assuming abrupt impact stop
[ASME PAPER 69-APMW-25] 24 p4275 A69-43094

AUTONOMIC NERVOUS SYSTEM**NT SYMPATHETIC NERVOUS SYSTEM**

- Pharmacological tools in autonomic nervous system research, discussing norepinephrine biosynthesis, storage, release and inactivation in mammals
02 p0200 A69-12722
- Autonomic nervous system in control of heart rate in acceleratively stressed monkeys, discussing sympathetic, parasympathetic and bradycardiac influence
06 p0875 A69-17844
- Neurological changes in men due to hypokinesia, analyzing tremor data, EEG recordings and stabilography fluctuations
10 p1647 A69-23585
- Autonomic nervous system role in controlling body functions after rapid decompression, increasing tolerance to pressure gradients by physical training
13 p2212 A69-28622

AUTONOMY

- Autonomous system steady motion with rotating phase and deviating argument solved by successive approximation over infinite time interval
18 p3175 A69-35323

AUTOPILOTS**U AUTOMATIC PILOTS****AUTORADIOGRAPHY**

- Radioactivity induced in solid materials for components microautoradiography and radiograph information quantitative evaluation
13 p2297 A69-28157
- Electron microautoradiograph preparation determining trace element amount and distribution by utilizing radioactive isotopes and high resolution of electron micrographs
13 p2263 A69-28168
- Autoradiographic methods for diffusion and phase transformation in Fe-Cr alloys by application of photographic emulsion with tracer element on metal surface
20 p3561 A69-37416
- Autoradiographic technique for spatial distribution in solid of B at ppm concentration, using electron microscope
20 p3567 A69-38263

AUTOROTATION

- Future development in rotorcraft, discussing augyros, helicopters, tilt rotor and wing aircraft
05 p0702 A69-16392
- Autrotation characteristics of various shapes in subsonic and hypersonic flows for mechanics of free flight reentry to earth impact
[AIAA PAPER 69-132] 06 p0863 A69-18062
- Increasing rotation of axisymmetric body about velocity vector ascribed to asymmetry in mass distribution, defining conditions for occurrence
09 p1431 A69-22077
- Increasing rotation of axisymmetric body about velocity vector ascribed to asymmetry in mass distribution, defining conditions for occurrence
23 p4060 A69-41968

AUTOTROPHS**NT HYDROGENOMONAS**

- Ribulose diphosphate carboxylase and phosphoribulokinase activity in chemosynthetic autotrophs *Thiobacillus thioautotrophicus* and *Thiobacillus neapolitanus*, noting sedimentation and gel filtration characteristics
02 p0199 A69-11866

AUXILIARY EQUIPMENT [COMPUTERS]**U PLOTTERS****AUXILIARY POWER SOURCES****NT CHEMICAL AUXILIARY POWER UNITS****NT NUCLEAR AUXILIARY POWER UNITS****NT SNAP 8****NT SNAP 10A****NT SNAP 13****NT SNAP 21****NT SNAP 27****NT SOLAR AUXILIARY POWER UNITS****NT SPACE POWER UNIT REACTORS**

- Pneumatics for aircraft systems integration, proposing engine bleed air use for high power short term duties, heat recovery from cabin air conditioning, etc
01 p0012 A69-10594

- Solid propellant cartridges, discussing uses for starting large engines and providing auxiliary power in missiles or actuating devices
02 p0302 A69-11524

- Onboard electric power systems of transport aircraft, analyzing constant frequency systems for supersonic aircraft
02 p0196 A69-12166

- Electric space propulsion systems and auxiliary power sources development in West Germany, noting solar cells, isotope generators and reactors with conversion systems
03 p0496 A69-13996

- Onboard gas turbine auxiliary power units for executive jet transport aircraft
[SAE PAPER 690332] 11 p1824 A69-24501

- Out-of-core thermionic systems with heat pipes usable in space applications, meeting advanced auxiliary power and nuclear propulsion requirements
14 p2480 A69-29188

- Business aircraft electrical power sources, discussing electromechanical constant speed drive /EMCSD/ and comparison with DC/inverter and hydraulic CSD
[SAE PAPER 690346] 15 p2552 A69-30091

- Storage batteries for satellite electrical power sources emphasizing operation in overcharged state
16 p2735 A69-31729

- Electrochemical generators for space applications - Conference, Paris, December 1967
16 p2736 A69-32405

- Electrochemical generators space applications, discussing nuclear, solar and rechargeable cells
16 p2737 A69-32407

- Civil transport aircraft power plant and auxiliary systems as sources of delays, presenting critical path analysis
17 p2898 A69-33213

- Aircraft auxiliary power system influence on power plant installation and aerodynamic design
17 p3017 A69-33216

- Aircraft auxiliary power systems, discussing weight and power requirements, component design, driving methods and influence on power plant design
17 p3018 A69-33217

- Aircraft secondary power sources reliability dependence on electric loads, charge control and maintenance, discussing hermetically sealed batteries features
17 p2905 A69-34113

- Secondary power sources for space applications in solar arrays, static and dynamic thermal systems, high power batteries and fuel cells, discussing NASA machinery procurement
19 p3255 A69-36323

AVAILABILITY

- Steady state availability of system with limited repairable spares for online units, considering statistical dependence among similar units
18 p3144 A69-34493

- Availability measure defined in terms of maintenance demand rate and mean downtime for cost prediction involving various parameters
19 p3327 A69-36036

AVALANCHE DIODES

- Transient nonlinear mode partially responsible for anomalous operation of IMPATT diodes below transit time cut-off frequency
01 p0043 A69-10559

- Zener diode function generators used in analog computers for solution of complex problems involving nonlinear relationship
02 p0214 A69-11595

Transit time and anomalous modes of oscillation in high pulsed power punch-through Si avalanche diode microwave oscillators

02 p0216 A69-12145

Miniaturized X band IMPATT microstrip power sources based on Si avalanche transit time diodes integrated with microstrip oscillator circuits

02 p0216 A69-12146

Amplitude noise spectra of X band microwave oscillators with Si avalanche diodes, noting various contributions and dependence on circuit and operating parameters

02 p0221 A69-12456

Microwave energy generation with solid state equipment, noting Gunn effect diodes, avalanche diodes and limited space charge accumulation /LSA/ devices

03 p0402 A69-12971

Temperature and current distribution in avalanching silicon p-n junctions

03 p0487 A69-13637

Multiplication effects on noise in Si avalanche diodes, noting high resolution apparatus for measurement of spatial variations

04 p0573 A69-14332

Single punch through silicon avalanche diode structure and two distinct modes of oscillation making possible pulsed generation of microwaves

04 p0573 A69-14334

High efficiency microwave oscillations in Si p-n and p-n-n positive avalanche diodes under pulsed conditions

04 p0580 A69-15491

Large signal model for analysis of RF output and efficiency of IMPATT diode oscillator, noting frequency tuning

05 p0733 A69-16555

P-n planar avalanche photodiode without guard ring noting electrical properties, uniform multiplication and fabrication

05 p0733 A69-16559

Si IMPATT diode oscillator and amplifier for CW operation at 50 GHz noting fabrication, performance and phase locking properties

05 p0733 A69-16560

Nearly abrupt X band Si avalanche IMPATT diodes irradiated by fast neutrons, noting effects on DC and microwave characteristics

06 p0976 A69-16874

Large signal impedance measurements and dynamic characteristics explain Si avalanche diodes efficiency degradation at higher frequencies

06 p0893 A69-16938

Noise generation mechanism of Read microwave avalanche diode under large signal conditions

06 p0895 A69-17472

Avalanche diode oscillators efficiency of continuous wave operation in transit time mode and high current multiresonant modes

07 p1098 A69-18456

High efficiency punch-through avalanche transit time diode for generating microwaves over three octaves

07 p1098 A69-18457

Large signal avalanche diode oscillators parameter effect on operating characteristics at any transit angle

07 p1098 A69-18458

Frequency variation during oscillation pulse in avalanche transit time diodes, discussing related thermally dependent diode voltage rise

07 p1098 A69-18459

IMPATT diode microwave oscillator, discussing large signal characterization and model for efficiency dependence on load conductance and admittance plane characteristics

07 p1101 A69-18650

Relaxation oscillations in Si p-i-n junction diode reverse-biased into avalanche calculated by computer program

07 p1101 A69-18651

Epitaxial GaAs IMPATT diodes for generating CW X band power, noting high efficiencies and low noise characteristics

07 p1102 A69-18660

Frequency modulation of CW mm-wave IMPATT diode oscillator with wide band tunability and related harmonic generation effects

07 p1106 A69-19146

Microwave oscillator design employing avalanche transit time diodes

07 p1107 A69-19155

Noise generator design employing diffused Ge avalanche transit time diode

07 p1107 A69-19156

Microwave amplification using silicon diodes in avalanche resonance pumped modes

08 p1279 A69-19909

High field domains in Gunn effect diode in transit time mode of operation probed with stroboscopic electron beam in scanning electron microscope

08 p1283 A69-20162

Epitaxially grown guard rings for GaAs p-n junction and Schottky barrier avalanche diodes

08 p1284 A69-20368

Passivated metal semiconductor IMPATT diode for microwave CW oscillation

08 p1286 A69-20862

Cascaded avalanche diodes in negative resistance amplifying mode for increased output power and extended dynamic range

09 p1462 A69-21408

Large signal analysis of IMPATT oscillators with carrier velocity saturation, discussing two frequency mode of operation

09 p1463 A69-21846

Anomalous mode avalanche diodes for pulse power generation noting output, efficiency, mode of operation, microwave oscillations and IMPATT diodes

09 p1466 A69-22455

Thermal effects on modulation sensitivity and inherent AM percentage as functions of modulation frequency in IMPATT oscillators

09 p1468 A69-22588

Pulse generator switch consisting of avalanche transistors in series, describing voltage production and transmission, trigger pulse jitter and pulse amplitude

09 p1468 A69-22589

Microwave avalanche diode oscillators performance estimates, discussing operation modes and transit time

10 p1665 A69-23873

Frequency retuning characteristics of oscillator employing avalanche transit-time diode with complementary varactor subject to current or voltage variation

11 p1844 A69-24449

Si IMPATT diode current and voltage waveforms of oscillation, noting small signal theory inapplicability

12 p2036 A69-25914

High current density filaments formation in silicon p-n-n avalanche diodes caused by incremental negative resistance in static current-voltage characteristics

12 p2036 A69-25916

Avalanche Schottky barrier photodiodes fabricated by plating GaAs with thin Pt layer and forming proton radiation guard ring, discussing gain bandwidth and SNR

13 p2226 A69-27195

High efficiency LF oscillations in avalanche diodes, noting evidence for parametric generation and condition for high efficiency

13 p2227 A69-27239

Electrical breakdown mechanism in semiconductors determined by measuring Zener current in avalanche breakdown

13 p2317 A69-27660

Ultrahigh speed microwave diode switch used as transmitter-modulator in PCM systems, utilizing varactor diode avalanche breakdown

13 p2229 A69-27671

Avalanche diodes as high power pulsed microwave sources, noting power yields and efficiencies

14 p2418 A69-28890

Noise reduction techniques using injection phase locking and high-Q cavities for HF oscillator high order multiplier and avalanche diode oscillator microwave sources

14 p2420 A69-29458

Avalanche diode oscillators stacked in series for combined power output

14 p2421 A69-29543

Neutron irradiation effect on efficiency and other parameters of IMPATT diode

14 p2423 A69-29761

Waveguide below cut-off resonators for active microwave circuits, describing experiments with avalanche and Gunn diodes

15 p2577 A69-30613

Computer model for avalanche transit time diode oscillator with single and double resonant circuit

15 p2577 A69-30615

X band avalanche diode oscillator operated as super-regenerative amplifier, noting frequency response characteristics ascribed to diode susceptance modulation

16 p2757 A69-31585

Zinc diffused GaAs avalanche diode high CW power and efficiency in normal mode

16 p2760 A69-32015

Soviet book on avalanche transit time diodes and applications in microwave technology, describing p-n junction model, negative resistance, dynamic characteristics, synchronized oscillators, etc

16 p2761 A69-32109

Si planar IMPATT diodes anomalous mode continuous wave UHF oscillations, noting DC density and DC/RF power conversion efficiency

17 p2934 A69-32846

GaAs IMPATT diodes breakdown voltage, impurity density and outer layer thickness compared with Si IMPATT diodes

20 p3504 A69-36914

AVALANCHES

NT ELECTRON AVALANCHE

Charge multiplication in crystals, analyzing ionization rate, avalanche breakdown in p-n junctions, pair production and impact of impurities

04 p0641 A69-14503

AVERAGE

NT MEAN

Time averaged products and squares of fluid turbulence signals at LF, using Hall effect multiplier device and integrating voltmeter

04 p0601 A69-15116

Analog-hybrid computer configurations for average and rms values of signals with respect to time

06 p0891 A69-17220

Averaging procedures to represent highly time variable actual hydrometeorological fields by less variable equivalent fields

06 p0952 A69-17989

Time average holography for analysis of vibrations, overcoming fringe peak decrease with large amplitude and loss of phase information

09 p1495 A69-21749

Accuracy improvement of method of averages applied to equations of small motions and disturbances of two rotor gyrocompass on ship performing circular maneuvers

18 p3139 A69-35378

Averaging methods applied to nonlinear equations in mechanics, discussing solution convergence estimation

20 p3576 A69-37440

Bogoliubov method of partial averaging for nonlinear integral equations, noting application to automatic gain control theory

23 p4181 A69-41731

AVIATION

U AERONAUTICS

AVIATORS

U AIRCRAFT PILOTS

AVIONICS

Avionics in forest resource inventories management, noting design of radar altimeter for low level aerial photography

01 p0080 A69-10352

Avionics technology and systems for future SST aircraft noting improved air traffic control systems

02 p0279 A69-12364

Avionics, discussing use of electronics in control of aerospace vehicles

03 p0431 A69-14085

NASA civil aviation electronics research program, discussing feasibility of V/STOL aircraft all-weather operations

05 p0850 A69-16718

F-111 interdiction capability, discussing avionics subsystems for low level penetration flying and Vietnam performance

07 p1052 A69-18550

Avionic systems development, discussing criteria for realization of operational requirement and engineering product satisfying requirement

[AGARDOGRAPH-114] 08 p1317 A69-20982

Microelectronic equipment for aerospace application and integrated circuit production in UK

[AGARDOGRAPH-114] 08 p1292 A69-20992

Airborne digital computers for optimization of aircraft control and monitoring functions, discussing avionics and circuit technology

08 p1349 A69-21194

Deterministic model for cost effectiveness of avionics support programs based on subsystems support ability, test philosophy and test equipment design and manufacture

[AIAA PAPER 69-305] 09 p1478 A69-22377

Large scale integration applications to avionics including self testing, self repair, cost factors, etc

11 p1845 A69-24530

Computer controlled flight line tester performing automatic real time testing of aircraft avionics systems on flight line or hanger

11 p1864 A69-25060

Computer controlled testing of commercial aircraft avionic systems for automatic, semiautomatic and manual operation to perform repair and calibration tasks
11 p1864 A69-25061

Compatibility effects of automatic test equipment on avionic hardware design
11 p1865 A69-25070

Airborne computer controlled data acquisition system for real time fault detection and isolation in avionics
11 p1843 A69-25082

Automatic system self test technique known as central integrated test subsystem /CITS/ for logically testing avionics systems
11 p1866 A69-25083

Comparative evaluation of avionic installations in design stage, detailing parameters for civil aeronautical use
11 p1887 A69-25212

Monograph on physicochemical principles of takeoff monitoring systems for large aircraft covering taxiing, safety control systems design, analog simulation, etc
12 p2128 A69-26119

A-New avionics system for carrier based VSX aircraft used in U.S. Navy aerial submarine hunting, discussing TV, lasers, sonobuoy system, radar, etc
14 p2392 A69-29430

Solid state programmable avionics converter for signal processing, information conversion and aircraft control
14 p2405 A69-29687

Markov chain applications to avionics weapons system reliability specifications starting with mission profile, failure rates, success probabilities, etc
15 p2581 A69-31136

Avionics clean room workshops, discussing turbulent and laminar flow rooms and contamination monitoring of controlled environment facility
16 p2767 A69-32369

High intensity light adaptation effects on visibility of raster scan, TV type and avionic displays for symbol luminance needs
16 p2746 A69-32788

AH-56A Cheyenne integrated avionics, armament and fire control system for precise weapons delivery and navigation
[AHS PAPER 312] 17 p2903 A69-33542

Avionics systems with integration and federation applied to integrated light attack avionics system /ILAAS/ design to provide navigation, weapon delivery and flight control
17 p2976 A69-34057

Electronic computers for avionics system design in terms of technology, performance and cost, discussing reliability prediction and failure rate data
17 p2976 A69-34058

TC-2 general purpose digital avionics computer in A-7D/E avionics system performing tasks in weapon delivery, navigation and guidance, display updating, self testing, etc
17 p2933 A69-34059

Tactical fighter aircraft avionics technical risk and integration, considering initial and operating costs, combat sequence and weapon control
17 p2902 A69-34128

Avionic subsystems warranty costs estimates, considering reliability prediction and hardware recycling
18 p3232 A69-34506

Avionics of Naval E-2C airborne sentry and command and control system, discussing digital computer, search radar, etc
18 p3108 A69-34811

Collection of articles on avionics navigation systems covering navigation equations, airborne digital and analog computers, radio, Doppler and inertial navigation, etc
18 p3168 A69-34843

Airborne digital computers techniques in avionics stressing memory design, packaging, reliability and maintainability
18 p3106 A69-34846

Aerospace technology application to commercial avionic system for cost effectiveness in functions expansion, phase-over, installation, maintenance and operation, discussing added information functions
18 p3108 A69-35069

Aircraft avionics subsystems and weapon system functional integration reflecting aircraft mission, operational, natural and enemy environments
18 p3109 A69-35140

Lockheed C-5 Galaxy aircraft avionics systems with Doppler inertial navigation equipment to operate with precision without ground based aids
18 p3104 A69-35465

Avionics and electronic countermeasures equipment design, development, installation and application problems for high performance military aircraft to meet hostile electronic environment
[AIAA PAPER 69-822] 19 p3243 A69-35599

Time/frequency technology using time-ordered reporting digital data for air traffic control to avoid airborne collision
[AIAA PAPER 69-795] 19 p3367 A69-35635

Closed-loop system for test, failure analysis and corrective action in avionics reliability growth, showing cost effectiveness relationship to test program
19 p3282 A69-35784

Avionics system analysis, engineering, design, fabrication and testing problems
20 p3545 A69-37929

Northrop F-5-21 fighter design, avionics, performance and operational existence
21 p3646 A69-38732

Environmentally scaled connector for avionics packaging with die-cast Al alloy shell meeting specification ARINC 404 requirements
22 p3910 A69-39946

Automated design system producing wire format data for cabling avionics subsystems of light attack aircraft
[AIAA PAPER 69-976] 22 p3912 A69-40356

Aircraft digital control hardware and applications including airborne computer proper, distributed systems, loop control, system integrity, etc
[RAES PAPER 4] 22 p3908 A69-40485

Systems approach to avionics optimization, discussing instruments, devices, display and automation techniques
[RAES PAPER 6] 22 p3946 A69-40487

Heat pipes design for avionic applications, using wicking bench tests
23 p4075 A69-42305

Flammability control for aerospace avionics systems safety, considering risk, test method, acceptability criteria, confidence level and ignition source
24 p4336 A69-43422

F-111D computer complex to provide selective functional redundancy and flexibility to accommodate mechanization changes
[AIAA PAPER 68-837] 24 p4285 A69-43719

AVOIDANCE
U COLLISION AVOIDANCE

AXES [COORDINATES]
U COORDINATES

AXES [REFERENCE LINES]
Radome axis error due to phase /dielectrics/ and metallic obstacles
07 p1112 A69-19542

AXES OF ROTATION
Multibody dual spin spacecraft spin axis motion with active internal devices, using digital simulation
02 p0332 A69-11739

Rotation deviation of rigid body around axis, discussing three point body measurement and applicability
04 p0599 A69-15017

Selenographic and celestial selenocentric coordinate systems, noting precession and nutation of lunar rotation axis
04 p0662 A69-15250

Self balancing single degree of freedom free fall space environment simulator, discussing coincidence of mass and rotation centers
04 p0586 A69-15468

Ellipticity of trajectory of free motions of pole of revolution of earth, using harmonic analysis of motion amplitudes and phases
06 p0919 A69-17536

Azimuthal drift of rotor axis of directional gyroscope mounted on sloping base, showing vertical component responsibility via truncated equations of motion
09 p1502 A69-22702

Gyrator center axial displacements due to axial load, noting equal load distribution between bearings with resilient cover plates
09 p1502 A69-22703

Optical sensing devices for angle measurement between celestial body and satellite axes
12 p2078 A69-25871

Mass distribution for bodies fallen on planets during formation estimated from present inclination of planetary axes of rotation, using limit theorems of probability theory
13 p2345 A69-27652

Dynamic balance for rotating aerospace vehicles, discussing error in principal axis location between rotor on machine and free body in space
[SAWE PAPER 740] 18 p3137 A69-34887

AXIAL COMPRESSION LOADS

Earth polar wanderings attributed to rotation axis angular displacements generated by density redistribution on geologic time scale
20 p3535 A69-38192

Ariel 3 satellite attitude determination, using solar aspect sensors to define conical surface containing spin axis
21 p3820 A69-39260

Ariel 3 satellite spin axis direction determination by optical means from analyzing sunlight glints reflected from surfaces
21 p3820 A69-39261

Three axis motion simulator for in-orbit spacecraft attitude control evaluation using earth, sun and star sensor references
[AIAA PAPER 69-1029] 22 p3924 A69-40398

Multifunction lightweight antenna system package for spin stabilized near synchronous satellite having axis normal to orbital plane
22 p3913 A69-40694

Astatic gyro motion with horizontal rotor axis, defining suspension error with allowance for external force moments
24 p4317 A69-43707

AXIAL COMPRESSION LOADS
Variable thickness circular annular disk bending in centrifugal force field, establishing dependence between angular velocity and axial pressure intensity
01 p0168 A69-10401

Dynamic behavior of elastoplastic beam column model with one degree of freedom subjected to axial compressive force
02 p0337 A69-11717

Fiberglass reinforced plastic laminates failure under biaxial compression due to layer separation with strain energy as endurance criterion
02 p0270 A69-12142

Orthotropic stiffened multilayer circular cylindrical shells buckling under axial compression, lateral pressure, etc
02 p0346 A69-12510

Unreinforced circular cutouts effects on buckling behavior of circular cylindrical shells under axial compression, using photoelastic plastic shells
03 p0523 A69-12988

Creep buckling of circular cylindrical shells under axial compression and bending, using Al alloy test specimens
03 p0523 A69-12995

Initial deviations or imperfections effects on load capacity of infinite and finite length thin circular cylindrical shells under axial compression
[ASME PAPER 68-WA/APM-22] 04 p0669 A69-14398

Circular cylindrical shell creep behavior and buckling under axial compression and internal pressure, using multimembrane model
[AIAA PAPER 68-108] 04 p0676 A69-14706

Smooth cylindrical shell stability under axial compression noting effects of scale factor, initial defects, initial stresses and deflections in welded seam, etc
04 p0680 A69-14929

Uniaxial compression load effect on activation energy in p-type GaSb single crystals
04 p0644 A69-15269

Axial buckling load for thin walled circular cylindrical shell, noting design of internal mandrel for control of boundary expansion conditions
05 p0831 A69-15581

Annular stress in rib reinforced cylindrical shells under axial compression load and internal pressure, using successive approximation
05 p0841 A69-16208

Initially imperfect axially compressed cylindrical shells strength using variational principle, shell theory and deformation theory of plasticity
[AIAA PAPER 69-91] 06 p1028 A69-18181

Initial geometric imperfections effect on buckling and postbuckling behavior of laminated composite cylindrical shells under axial compression, considering reinforcing fiber orientations
[AIAA PAPER 69-93] 06 p1029 A69-18194

Buckling of long cylinders with homogeneous random axisymmetric geometric imperfections under axial compression, using truncated hierarchy technique
07 p1236 A69-19473

Simply supported isotropic cylindrical panel stability under axial compression, obtaining asymptotic series expansion for upper critical stress
08 p1419 A69-21182

Multilayer orthotropic cylindrical shells stability under distributed external load and off-center compression, analyzing subcritical deformation on critical load
09 p1613 A69-21685

Buckling of eccentrically stiffened thin circular cylindrical shell under uniform combined axial compression and torsion loads with lateral pressure
09 p1616 A69-21955

Buckling capabilities of inflation rigidized wire film and shell film cylinders in axial compression and bending
09 p1617 A69-21997

Axisymmetric free edge buckling of semiinfinite heterogeneous orthotropic cylindrical shells in axial compression, noting stability condition
10 p1802 A69-23889

Stiffener geometry and spacing effects on buckling of axially compressed cylindrical and conical shells
11 p1979 A69-24815

Thin walled circular cylinders postbuckling behavior and stability under axial compression calculated for design loads
11 p1979 A69-24816

Critical axial compressive load for cylindrical shells reinforced with longitudinal ribs, noting internal pressure and rib spacing effects
11 p1985 A69-25177

Buckling and postbuckling equilibrium behavior of fiber reinforced cylindrical shell under uniform axial compression
12 p2187 A69-26843

Imperfection surface effect on buckling load of circular cylindrical shell under axial compression, locating limit points of postbuckled states
13 p2362 A69-28122

Experimental and predicted shock axial pressure variations for semiinfinite metallic targets during high velocity impact, using Al alloys and Cu
[AIAA PAPER 69-361] 13 p2366 A69-28294

Uniaxial compressive stability of rectangular boron-epoxy laminated plates clamped on loaded edges, determining buckling loads by Southwell plots
13 p2287 A69-28669

Orthotropic cylindrical shell stability under uniform axial compression and internal pressure, taking into account subcritical state duration
14 p2532 A69-28981

Geometric discrepancies influence on stability modes and loads for thin shells up to point of collapse
14 p2533 A69-29022

Heterogeneous orthotropic circular cylindrical shell stability during axial critical compression
14 p2533 A69-29024

Buckling of ring stiffened cylinders subject to axial compression, considering prebuckling lateral wall displacements
14 p2534 A69-29030

Machine for measuring creep deformation of polytetrafluoroethylene under uniaxial compressive loads, discussing stress-strain relationship
14 p2469 A69-29412

Bound excitons spectra in Cu doped gallium arsenide crystals, analyzing line oscillation structure and uniaxial compression effect
16 p2824 A69-31571

Heated cylindrical shell with braces subjected to given compression and internal pressure, having elastic beams along edges, analyzing local deformations effect on shell strength and stability
16 p2873 A69-32131

Prestressed beams, columns and plates nonlinear response, statistical behavior and transverse cracking under axial compression, describing strength and stiffness
17 p3060 A69-33568

Cylindrical shell stability under axial compression, studying buckling process and wave formation
18 p3217 A69-34597

Stress and displacement waves propagation in thin walled elastic cylindrical shell under compressive axisymmetric force based on momentless theory
18 p3218 A69-34600

Stress-strain state of elastoplastic material subjected to quasi-static uniaxial tension and compression, considering Bauschinger type effects by scalar parameters
18 p3222 A69-34909

Displacement patterns for buckled shapes of axially compressed thin walled circular, cylindrical and conical shells
19 p3443 A69-36793

Thin curved panels postbuckling behavior under axial compression, basing study on thin shell finite deformation theory and Galerkin method
20 p3629 A69-38112

Noncircular curved shell stability under axial compression, using strain energy method to determine upper and lower critical stresses
21 p3834 A69-38715

Prebuckling deformation influence on compressive buckling load for orthotropic cylindrical shells with elasticity principal axes in axial and circumferential directions
22 p4047 A69-41182

Cylindrical shell load carrying capacity under axial compression, considering middle surface initial distortions influence
23 p4228 A69-41989

Circular cylindrical thin walled shells creep buckling under uniform axial compression
23 p4234 A69-42413

Circular cylindrical photoelastic shells buckling modes under axial compression using high speed isoclinic photography, discussing shallow shell equations applicability to early stages
24 p4404 A69-43652

Computer program determination of barreling effect on strength of ring and stringer stiffened shells designed to support axial compression loads
24 p4405 A69-43671

AXIAL COMPRESSORS

U TURBOCOMPRESSORS

AXIAL FLOW

Acoustic resonance excitation in axial flow compressor annulus by wake shedding from blades
01 p0142 A69-10058

Tangential velocity profile growth in laminar axial flow through concentric annulus with rotating inner cylinder, using Navier-Stokes equations for prediction
01 p0058 A69-10143

Circumferential inhomogeneity of flow through impeller blades of axial flow compressor
03 p0361 A69-12954

Cylindrical wave approximation modified to include axial effects, discussing time histories of deflection and applicability range
04 p0671 A69-14410

Flat decelerating cascades boundary layer in compressible flow during change in axial flow-density ratio and upstream turbulence
11 p1818 A69-24639

Flexible cylinder vibration in nominally axial flow, discussing length, mass, flexural rigidity and diameter variation effects on vibration amplitude
11 p1984 A69-25166

Velocity and static pressure redistribution in distorted flow field upstream of axial flow compressors
[AIAA PAPER 69-485] 16 p2842 A69-32694

Vortex breakdown in rotating fluids associated with wave motion along axis of rotation, considering effects of nonzero wave amplitude
[AIAA PAPER 69-645] 17 p2892 A69-33478

Turbocompressors, reviewing axial and radial compressors
19 p3395 A69-36749

Axial flow fan blade row noise generation, discussing equation linearization, acoustic energy prediction and effects of flowing medium
[ASME PAPER 69-FE-12] 20 p3460 A69-37989

Forced flow against infinite rotating disk, showing von Karman similarity equations solution for axial flow at large distances toward disk
24 p4244 A69-42718

Mixing length theory including eddies axial motion, discussing turbulent field of temperature or concentration
24 p4407 A69-42917

AXIAL FLOW COMPRESSORS

U TURBOCOMPRESSORS

AXIAL FLOW PUMPS

U TURBINE PUMPS

AXIAL FLOW TURBINES

Axial flow turbine blade cascade in transonic flow
03 p0365 A69-14103

Tip turbine driven flush thin profile wing or platform lift fan design and operating considerations
05 p0696 A69-15554

Wall friction influence on three dimensional flow in axial flow turbomachines, introducing shear stresses between flow planes
08 p1252 A69-20724

Aerodynamic and thermal considerations in axial flow turbine blade design, discussing internal air cooling
[IME PAPER 2] 12 p2146 A69-25788

Reynolds number, incident flow turbulence and interblade channels roughness effects on friction losses in axial flow turbines
15 p2547 A69-30074

Axial gas turbine efficiency and work functions, discussing turbine using isothermal high velocity combustor
16 p2837 A69-32064

Optimum efficiency of turbines with small volumetric flow rate, determining height of air-gas flow, partial admittance and flow angle in clearance
18 p3184 A69-34983

Potential flow interaction effects between blade rows in axial flow compressor stage, emphasizing inlet guide vane-rotor interaction
21 p3643 A69-38439

Spanwise velocity profiles through cascades and axial flow turbomachines, analyzing loading, secondary losses and inlet conditions interacting on downstream profile
23 p4061 A69-42110

AXIAL LOADS

Elastoplastic stress-strain behavior of concentric composite cylinders under uniaxial tension using analytical model, predicting transverse stresses during axial loading
01 p0171 A69-11263

Instability of struts subjected to axial force and radiant heat, considering elastic and thermal deformation
02 p0337 A69-11716

Dynamical strength of solid cylinder under axial loads increasing in time at given rate, using constitutive equations of thermodynamic theory
02 p0342 A69-12278

Stresses around two reinforced circular openings in thin elastic plate of isotropic material under biaxial loads
02 p0349 A69-12799

Stress diffusion from axially loaded stiffeners into cylindrical elastic shells
03 p0530 A69-14065

Stress concentration around centrally placed circular bolt in axially loaded bar, using theory of infinite systems of linear equations
04 p0681 A69-15195

Uniaxial loading effect determination by change of harmonics amplitude of inductive pickup signal
05 p0763 A69-15995

Elastoplastic element structural growth induced by thermal cycling analyzed as function of temperature and sustained axial load
[ASME PAPER 68-WA/MET-14] 05 p0837 A69-16067

Axisymmetric form of stability loss of cylindrical shell under effect of axial load suddenly applied along generatrix, considering inertia forces and obtaining differential equations
06 p1021 A69-17181

Circular bar elastoplastic behavior under combined axial force and torque in strain hardening range, noting elastic compressibility effects
06 p1023 A69-17371

Exponential decay of stresses in circular elastic cylinders subject to axisymmetric self equilibrated end loads
06 p1023 A69-17507

Axial loading of unidirectional composite with hexagonal array of isotropic circular filaments generalized for filament anisotropy, discussing matrix elastic modulus and Poisson ratio
07 p1170 A69-18724

Stress-strain relationship of composite bars consisting of single glass fiber with thin metal coating layer and under axial load
07 p1235 A69-19385

Axially loaded viscoelastic constrained bar instability for large deformation
07 p1235 A69-19440

Stability of cylindrical shell reinforced by circular ribs under combined action of external pressure and axial forces, using characteristic equation
07 p1238 A69-19687

Dynamic stress intensity factor for axisymmetric loading of circular crack in infinite isotropic elastic medium
08 p1413 A69-20412

Strength hypothesis for structures under multiaxial vibration load, taking into account plane stress state
09 p1620 A69-22575

Gyrator center axial displacements due to axial load, noting equal load distribution between bearings with resilient cover plates
09 p1502 A69-22703

Strength of laminated glass filament reinforced plastic material in biaxial loading, discussing strength theories
10 p1794 A69-22943

Yield points compared for axial and biaxial tensile loading of aluminum alloy sheets
10 p1801 A69-23849

Pressure vessels burst tests for investigating alloys, fabrication processes and biaxial loading effects, noting vessel configurations and test temperatures
10 p1714 A69-23974

Axial torque effect on critical speeds of continuous rotor with motion described by partial differential equations
[ASME PAPER 69-VIBR-52]

10 p1804 A69-24152

Free vibrations in axisymmetrically loaded orthotropic circular conical shells with longitudinal and circumferential stiffening based on linearized theory, considering shear deformation and inertia

11 p1969 A69-24327

Static and dynamic stability of flexible shallow spherical shell under axisymmetric load and elastically hinged along contours

11 p1976 A69-24763

Semiinfinite circular cylindrical shell buckling under axial load, computing forces, moments and displacements by thin shell equation

11 p1979 A69-24818

Nonlinear free vibration of beams with clamped and supported ends subjected to axial load, considering symmetric and antisymmetric modes

11 p1983 A69-25024

Optimal parameters selection for rib-reinforced cylindrical shells determined with respect to axial critical loading magnitude

11 p1985 A69-25173

Frequency characteristics of flexible compensated manifolds for aircraft engines, considering axial force

11 p1826 A69-25332

Dynamic plastic response of finite bar subject to axial impact load noting reflected waves, stress-strain histories and residual strain

11 p1991 A69-25512

Support system for McDonald 107 inch telescope mirror, adopting Couder design using tily pad single lever supports for axial thrust

12 p2058 A69-26417

Accelerated structural tests under creep conditions, noting isothermal structures subjected to uniaxial and complex stress loads

12 p2186 A69-26838

Elastic buckling and initial postbuckling behavior of clamped shallow spherical shells under axisymmetric load

12 p2187 A69-26842

Local failure of axially loaded plastic foam core sandwich panels, using face wrinkling analysis procedures

13 p2357 A69-27207

Stress and displacement fields for uniaxially loaded infinite elastic continua with doubly periodic array of holes and inclusions, using finite element method

13 p2363 A69-28133

Stress-strain state of circular annular plate with varying thickness subjected to concentrated axisymmetric load and shearing force applied to internal perimeter

13 p2369 A69-28563

Linear elastic columns dynamic stability under time dependent axial load, investigating almost-sure asymptotic stability

16 p2872 A69-31911

Local stability of viscoelastic shells of revolution under axisymmetric loads, discussing asymmetric snaphthrough of dome

18 p3216 A69-34573

Bending of rigid freely supported plastic plates under local axisymmetric dynamic load, discussing rectangular pulse effects and velocity fields

18 p3217 A69-34593

Thin walled cylindrical shells deflections under axial impact load, assuming deformations resembling cylindrical surface bending

18 p3217 A69-34599

Dynamic instability regions of parametric resonance of cylindrical shells with curved generating lines under axial and radial pressure

18 p3223 A69-34979

Limiting equilibrium of variable thickness shallow spherical and conical shells of revolution under axisymmetric loads, assuming rigid plastic shell material

18 p3225 A69-35370

Elastic oscillations of inhomogeneous orthotropic ring under time-variable axisymmetrical load analyzed by Fourier method

19 p3434 A69-35828

Axial load fatigue crack propagation tests on Al alloy sheets for stress ratio effects

19 p3346 A69-36435

Shells of revolution bearing capacity under axisymmetric loads determined by linear programming and finite difference method

20 p3622 A69-37326

Ronay effect in reversed cyclic torsion or tension in thin cylindrical viscoelastic tube showing creep under sustained load

20 p3625 A69-37596

Stress and displacement in thin circular plates of ductile materials under axisymmetric loading predicted by nonlinear analysis

20 p3628 A69-37787

Axial forces effects on dynamic load factors of beams under transverse impulsive loads, considering various end conditions

20 p3629 A69-38113

Vacuum apparatus for measuring uniaxially loaded metal surfaces interfacial adhesion, showing surface oxide removal effectiveness influence in adhesion strength

21 p3689 A69-38594

Momentless orthotropic spherical shell of variable thickness stress analyzed, assuming large deformations under uniform axisymmetric load distribution

22 p4039 A69-39916

Closed circular cylindrical shell stability and oscillations under ring-shaped axial load, defining stress-strain state by radial displacements and force function

22 p4049 A69-41280

Vector properties of isotropic strain hardenable materials in stress vector space applied to tubular brass subject to biaxial tension and complex loading

23 p4227 A69-41714

Creep stress analysis of circular cylindrical shells under axisymmetric loading, plotting stresses and deformations for various parameters

23 p4233 A69-42352

AXIAL STRAIN

Linear cumulative damage theory defining low cycle fatigue region of classic S-N curve, providing biaxial strain mode by centrifugally loading rotors
[ASME PAPER 68-WA/MET-8]

05 p0838 A69-16151

Computer program for axisymmetrically deformed shells of revolution and combinations of such shells

06 p1026 A69-18019

Existence and uniqueness theorems for boundary value problems of axisymmetric deformation of circular membrane at normal pressure, using membrane theory and shooting method

07 p1233 A69-19299

Stress distribution around equal size holes at ends of crack for normal uniaxial tension, based on photoelastic and brittle lacquer technique

08 p1412 A69-20257

Foil type strain gage for measurement of tangential strains along circumference of hole in plate under uniaxial and equibiaxial tension

08 p1314 A69-20258

Axisymmetric states of stress determined by photoelasticity, analyzing meridional slice under normal and oblique incidence

08 p1412 A69-20259

Static axisymmetric deformation of elastic paraboloid of revolution, using integration of equilibrium equation in Lamé displacement

09 p1613 A69-21631

Axisymmetric vibration modes of cylindrical-hemispherical membrane tank partly filled with liquid
[AIAA PAPER 67-75]

09 p1482 A69-21940

Polyurethane foam high velocity deformation properties, discussing results of dynamic uniaxial stress tension and compression tests

11 p1907 A69-25648

Hollow circular viscoelastic cylinder axisymmetric plain strain problem, considering displacement, traction and mixed boundary conditions, noting applicability to rocket solid fuel core

12 p2181 A69-26396

Axial support systems for large astronomical mirrors, considering gas support system for flat mirror submerged and floating in isostatic liquid

12 p2057 A69-26412

Axisymmetric deformation of thin orthotropic laminar spherical shells under internal loads calculated on computer using Legendre polynomials

12 p2181 A69-26611

Axisymmetric elastic stresses in ring stiffened segmented shells of revolution, noting finite difference method for nonlinear analysis and computer program

12 p2185 A69-26818

Polyfluoroethylene resin breakdown under uniaxial tension, considering continuity disruption

13 p2286 A69-28321

Linear cumulative damage theory defining low cycle fatigue region of classic S-N curve, providing biaxial strain mode by centrifugally loading rotors
[ASME PAPER 68-WA/MET-8]

14 p2535 A69-29438

Thick walled pressurized cylinder fatigue test results compared with axial tension and rotating beam tests on same material

15 p2709 A69-30676

Uniaxial stress effect in Schottky barrier diodes measured by beam balance noting higher sensitivity

16 p2758 A69-31619

Transient wave processes of deformation in spherical shell under load abruptly applied to geometrical pole

16 p2875 A69-32288

Plastic energy dissipation rate during stable crack growth in sheet under uniaxial tension

18 p3212 A69-34345

Differential equations of shells of revolution theory assuming rotationally symmetric stress and strain in thin elastic shells

18 p3215 A69-34549

Axisymmetric deformation of cylindrical wound fiberglass reinforced plastic shell analyzed by methods of rigid normals and nonlinearly elastic fiber system

18 p3222 A69-34974

Nonlinear axisymmetric oscillations and motion stability of cylindrical wound elastic glassfiber shell under time dependent uniform internal pressure

18 p3222 A69-34975

Equations of motion for axisymmetric elastic deformation of inhomogeneous body of revolution subjected to torsion and steady oscillations

19 p3436 A69-35845

Generalized Love functions in axisymmetric micropolar elasticity, deriving stress functions expressing all state components

19 p3440 A69-36585

Nonlinear theory based on Euler-Bernoulli hypothesis for axisymmetric deformations of heterogeneous orthotropic shells of revolution under rotationally symmetric mechanical and thermal loads

20 p3625 A69-37592

Rigid thermoplastic cylindrical shell creep under axisymmetrical loads, giving computer algorithm and time dependent criterion for rupture strength

22 p4045 A69-40750

High speed radially resistant ball bearing, analyzing effect of lubrication film on axial rigidity

23 p4169 A69-41555

Statics of axisymmetric deformation of cylindrical and conical shells of revolution of moderate thickness under uniformly and nonuniformly distributed loads

23 p4226 A69-41705

Stress analysis in elastic bodies induced by axisymmetric strains in presence of mass forces and temperature gradients, obtaining equilibrium equation

23 p4229 A69-41997

Permanent deformation of axial rod subjected to blast load predicted using partial differential equation in conjunction with stress-strain relationship

24 p4406 A69-43699

AXIAL STRESS

Mechanical properties of AZ5G-Zr-Cr alloy welded sheet subjected to biaxial stress at low temperature

01 p0088 A69-11152

Successive approximations utilizing analytic stress functions used to obtain solution for infinite plate with arbitrary holes under biaxial stresses
[ASME PAPER 68-PVP-1]

03 p0523 A69-12998

Anisotropic plasticity in sheet metals under uniaxial and balanced biaxial tension

05 p0837 A69-16030

Axially symmetric torsion of finite elastic cylindrical rod partially bonded to elastic half space, discussing coupling between dual Dini series and integral equations

07 p1236 A69-19474

Minimum weight analysis of Michell trusses transmitting given load to bars within allowable range of axial stress

08 p1410 A69-19893

Elastic cone stresses due to axial force at point on axis, solving problem in terms of convergent integrals

08 p1415 A69-20689

Failure criteria for predicting filamentary composite strength under uniaxial and combined stresses from properties and fabrication process considerations

09 p1611 A69-21479

Radial and tangential stresses in double glass fiber assuming different Poisson coefficients, determining conditions for axial stress redistribution prevention

09 p1614 A69-21741

Axial vibration effects on frictional losses in gear systems under dry friction or boundary lubrication conditions
[ASME PAPER 69-VIBR-15]

10 p1701 A69-24169

Biaxial stress effect on creep properties of thin walled tubes of polymethyl methacrylate at controlled temperature and humidity

10 p1717 A69-24216

Three dimensional theory of elasticity for finite hollow cylinder under axisymmetric deformation, considering stress and pressure distribution over surface
11 p1983 A69-25022

Stress concentration around square hole in celluloid plate subjected to creep under biaxial tension analyzed by photocreep method
12 p2178 A69-26000

Nonlinear theory for whirling of heavy string under constant axial tension, considering orbitally stable modes for eigenvalues of rotation
13 p2359 A69-27264

Membrane and bending stresses around elliptic hole in thin circular cylindrical shell, considering axial tension
[NAL-TN-13]
13 p2362 A69-28123

Stainless steel biaxial residual surface stresses from grinding and finish machining determined by dissection technique
[ASME PAPER 68-WA/MET-9]
14 p2455 A69-29437

Isothermal deformations in linear viscoelastic material under uniaxial stress, determining optimum strain rate history for maximum work lower bound
15 p2707 A69-30637

Clamped circular plates impulse load tests with sheet explosives, showing finite difference program for computing large deflection dynamic response
15 p2709 A69-30675

Fracture strength of Al alloy in biaxial stress field, considering strain rate influence on material toughness
17 p2986 A69-32985

Differential equations of shells of revolution theory assuming rotationally symmetric stress and strain in thin elastic shells
18 p3215 A69-34549

Stability loss of shells of revolution under axial tension and radial pressure, considering shells of Gaussian curvature, calculating critical force
18 p3222 A69-34976

Fiberglass reinforced plastics short and long term strength anisotropy, correlating stress and logarithm of time to rupture under tension along different directions
18 p3162 A69-35352

Fredholm integral equation solution of circularly axisymmetric stress state for bodies of revolution
18 p3226 A69-35375

Multiaxial stress effect at room temperature on fracture strength of silicon carbide tubular specimens
20 p3565 A69-36939

Linear limit uniaxial stresses for stress-strain and stress-birefringence in photoelastic and mechanical model materials
20 p3628 A69-37777

Radial and tangential stresses in double glass fiber assuming different Poisson coefficients, determining conditions for axial stress redistribution prevention
20 p3630 A69-38217

Creep measurements in Al alloy during uniaxial tensile stresses between 200-350 C, determining deformation dependence on time and stress
21 p3744 A69-38871

Plastic deformation by uniaxial tension during transition from dynamic to static loading from microscopic and macroscopic standpoint, noting slip lines
22 p4047 A69-41081

AXISYMMETRIC BODIES

Sonic flow at large distance and behind shock wave for axisymmetric body of revolution of finite dimensions in inviscid fluid
01 p0058 A69-10160

Ablation rate optical measurement near stagnation point of Teflon cylinder models, noting effect of nose curvature and temperature at supersonic speed
01 p0006 A69-10758

Axially symmetric bodies shape for static pressure at location independent of Mach number
04 p0542 A69-14738

Lift and drag parameters of axisymmetric bodies in Newtonian flow at random incidence by summation of appropriate portions
04 p0542 A69-14745

Optimum stabilization of uniformly rotating axisymmetric satellite, using Liapunov theorem on asymptotic stability
04 p0666 A69-14921

Sting diameter and cylindrical protuberance length effects on base pressure of axisymmetric body in turbulent supersonic flow
05 p0697 A69-15712

Lagrange multipliers of variational problem of point motion and isochronal derivatives in field of attraction of axisymmetric planet
05 p0823 A69-16015

Rotation wave propagation in elastic homogeneous isotropic centrosymmetric body in asymmetric elasticity theory
05 p0843 A69-16645

Approximate solution for determining satellite motion around axisymmetric planet
06 p1005 A69-17563

Viscous interaction solution obtained for near wake of axisymmetric bodies by integral moment method and axisymmetric incompressible similar wake solutions
06 p0860 A69-17633

Turbulent density fluctuations in near wake of hypersonic axisymmetric slender body measured photometrically with near UV absorption of sulfur dioxide in flow
[AIAA PAPER 69-70]
06 p0864 A69-18158

Laminar boundary layer on axisymmetric blunt body in dissociated air taking into account nonequilibrium homogeneous chemical reactions
07 p1050 A69-18734

Symmetrical body rotational motion with asymmetrical mass distribution about center of mass, determining minimum initial value of angular velocity
09 p1595 A69-21762

Increasing rotation of axisymmetric body about velocity vector ascribed to asymmetry in mass distribution, defining conditions for occurrence
09 p1431 A69-22077

Small angle precessional motion of axisymmetric spin stabilized bodies subject to disturbing moments
10 p1724 A69-22932

Axisymmetric bodies longitudinal contours for hypersonic flow minimum drag, considering Newtonian pressure distribution and skin friction
10 p1632 A69-23886

Boundary value problem for gravity induced wake motion of ideal fluid in axisymmetric vessel with annular ribs, noting application to bodies of revolution
11 p1868 A69-24769

Supersonic gas flow past plane and axisymmetric bodies with broken generatrix, determining tangential discontinuities and shock waves shape and position
11 p1820 A69-25470

Large deflection elastic-plastic analysis of axisymmetric shells of revolution indicating role of plastic yielding in buckling pressure reduction
12 p2186 A69-26839

Elastoplastic deformations of thin axisymmetric shells of revolution with variable thickness, exemplifying shell with piecewise constant thickness
14 p2533 A69-28982

Shock waves from accelerated, decelerated and stationary axisymmetric bodies flying at supersonic velocities in stratified isothermal atmosphere
15 p2551 A69-31171

Godunov finite difference method modified for steady or unsteady flowfields about planar axisymmetric blunt bodies, presenting body pressures and shock shapes
16 p2732 A69-31886

Trajectory calculation of axisymmetrical body during ballistic and vertical flight, assuming air drag proportional to square of velocity
17 p2889 A69-32950

Base flow component of total drag for axisymmetric supersonic afterbody with single exhaust jet, considering turbulent mixing
[AIAA PAPER 69-650]
17 p2956 A69-33485

Nonuniform gas flow past axisymmetric body from supersonic source simulating jet discharging into vacuum, using power series of stream function
19 p3238 A69-35851

Nonequilibrium laminar boundary layer of dissociating air on axisymmetric body determined using concentration profiles of oxygen and nitrogen components
19 p3239 A69-36395

Finite element method in stress analysis for axisymmetric rotors design, describing computer program and applications
19 p3445 A69-36826

Plastic tension of axisymmetric sample involving necking and small inhomogeneity, assuming Tresca yield condition and associated flow law
19 p3446 A69-36847

Generalized series solutions of boundary layer flows over pointed and blunt nosed axisymmetric bodies, noting general potential flow extending Mangler transformation usefulness
20 p3514 A69-37211

Cone-conical-frustum configurations meeting center of gravity requirements for higher hypersonic lift-drag ratios in axisymmetric manned spacecraft
21 p3644 A69-39237

Stress analysis of thin axisymmetric shells by plane frame analysis program, noting stiffness matrix for conical shell element
21 p3843 A69-39312

Closed form solution to stability of coupled libration motion of slender axisymmetric satellite in circular orbit limited to small amplitude vibrations
22 p4008 A69-39936

Radiative transfer effects in low Reynolds number or merged layer regime of hypersonic flow about axisymmetric blunt bodies, including thin shock layer theory
23 p4059 A69-41885

Inviscid transonic flow past circular arc bodies of revolution, applying Hosokawa technique to pressure distribution solution
23 p4059 A69-41899

Increasing rotation of axisymmetric body about velocity vector ascribed to asymmetry in mass distribution, defining conditions for occurrence
23 p4060 A69-41968

Free vertical shear layers structure solutions singularities in rotating fluids, considering motion by rising or spinning axisymmetric body
23 p4153 A69-42356

Nonlifting blunt axisymmetric hypersonic shape determination to maximize pressure drag for given convective heat transfer, diameter and free-stream conditions
24 p4244 A69-42960

AXISYMMETRIC DEFORMATION

U AXIAL STRAIN

AXISYMMETRIC FLOW

NT ANNULAR FLOW

Axisymmetric MHD flow in turbulence chamber at large Hartmann numbers studied for flow boundary layer effects
01 p0130 A69-10772

Two dimensional Navier-Stokes equations of axisymmetric motion of viscous incompressible fluid, giving integral and solutions for stream function
02 p0231 A69-12135

Exact solutions for Navier-Stokes equations for nonsteady incompressible viscous flow near two dimensional or axisymmetrical stagnation point
02 p0233 A69-12527

Combustion and flame stabilization in axisymmetric laminar or turbulent H flows, noting combustion rates and flame breakdown conditions
02 p0355 A69-12673

Turbulent front structure of axisymmetric compressible wake at supersonic speeds, measuring intermittency factor distribution
03 p0419 A69-13949

Numerical solution of axisymmetric incompressible viscous fluid flows about rotating cylinder, Taylor vortex between cylinders and through labyrinth seal
03 p0419 A69-13990

Stokes-like region around yawed needle in hypersonic strong interaction regime, discussing asymptotic analysis under Stewartson conditions
04 p0542 A69-14732

Stability of nondissipative stratified rotating flows with constant density to axisymmetric disturbances
04 p0588 A69-14740

Ekman boundary layer problem of steady axisymmetric viscous incompressible flow between infinite coaxial rotating disk, studying laminar range of Taylor number R
05 p0744 A69-15665

Axisymmetric hypersonic flow of model gas over slender bodies with strong viscous interaction and shock wave extended to power law viscosity variation
05 p0749 A69-15720

Source and sink method application to direct axisymmetric problems of hydrodynamics
05 p0747 A69-16039

Stream function approximation for plane axisymmetric vortex free transonic inviscid gas flow
06 p0910 A69-17336

Viscous interaction solution obtained for near wake of axisymmetric bodies by integral moment method and axisymmetric incompressible similar wake solutions
06 p0860 A69-17633

Axisymmetric hypersonic near wake with base injection, discussing zero injection case, jet-plume interaction and mixing region
[AIAA PAPER 69-66]
06 p0914 A69-18115

Stability theory application to laminar boundary layer transition prediction on two dimensional and axisymmetric flows having pressure distributions in incompressible flow
[AIAA PAPER 69-10]
06 p0914 A69-18127

Axisymmetric liquid nitrogen turbulent jet propagating under supercritical pressure in gaseous nitrogen medium

07 p1049 A69-18398

NonNewtonian effects in axisymmetric rotational flows of elastico-viscous liquids

07 p1180 A69-18815

Axisymmetric jet impingement against solid plane from tube at finite distance, using nonlinear partial differential equation in finite difference form [AICHE PAPER 31F]

08 p1302 A69-19847

Green function in closed form for energy transport equation solution in axisymmetric Oseen flow

08 p1305 A69-20850

Finite difference numerical solutions to free streamline axisymmetric potential fluid flow, noting independent and dependent variables consideration in boundary value problem

09 p1481 A69-21920

Closed form solution for boundary shape of underexpanded axisymmetric jet in still air

09 p1482 A69-21968

Time dependent procedure for axisymmetric transonic nozzle flows, programming governing equations for high speed computer

09 p1431 A69-21974

Steady axisymmetric gas flow from galactic center, determining supersonic to subsonic transition by equations of motion

09 p1599 A69-22189

Finite difference method computer programs for calculation of velocities and streamlines on blade to blade surface of revolution of turbomachine [ASME PAPER 69-GT-48]

09 p1432 A69-22495

Axisymmetric flow theory for turbomachine of non-free vortex design in distributed equilibrium state, considering boundary conditions and blade leading edges [ASME PAPER 69-GT-10]

09 p1432 A69-22504

Incompressible axisymmetric flow in turbomachines, analyzing flow field and velocity distribution

10 p1631 A69-22910

Circle theorem for iterated equation of generalized axisymmetric potential theory, noting Stokes flow of viscous liquid

10 p1680 A69-23718

Axisymmetric turbulent supersonic incompressible fluid jet, calculating momentum flow distribution and excess heat flow densities in basic segment

11 p1818 A69-25346

Self similar axisymmetric and plane laminar viscous gas channel flows noting exponential or hyperbolic law of decrease in static pressure along channel

11 p1875 A69-25482

Axisymmetric detached flow past slender solid of revolution by ideal incompressible fluid at zero angle of attack and with small cavitation numbers

11 p1877 A69-25741

Flow stability of axisymmetric jet with parabolic velocity profile in fluid at rest, calculating critical Reynolds numbers

13 p2244 A69-27300

Chemically reacting flow field and solid surfaces, formulating nonequilibrium laminar boundary layer equations for two dimensional and axisymmetric flows

13 p2377 A69-28147

Reduction of noise from underexpanded axisymmetric jet flows using radial jet flow impingement [AIAA PAPER 68-81]

13 p2248 A69-28212

Near wake in axisymmetric supersonic flow past slender body with/without base injection, obtaining pressure, temperature, Mach number, velocity and concentration distributions

14 p2389 A69-29017

Velocity distribution effect on electric field at walls for axisymmetric flow of electrolyte in circular channel in magnetic field of E shaped inductor

14 p2501 A69-29915

Numerical estimates of momentum integral error in applying locally similar solutions to nonsimilar problems, assuming two dimensional or axisymmetric flow

16 p2772 A69-32174

Combustion effects on mixing of axisymmetric supersonic and turbulent free jets to obtain species concentrations, pitot pressures and temperatures [AIAA PAPER 69-538]

16 p2843 A69-32705

Axisymmetric supersonic gas flow with attached shock wave past cone, calculating flow parameters between body and shock wave

17 p2890 A69-33123

Wave equations governing evolution of long nonlinear axially symmetric wave motion in inviscid rotating fluids

18 p3120 A69-34441

Three dimensional supersonic flow past pointed nonaxisymmetrical bodies characterized by great local surface curvature changes, using new approximation

18 p3086 A69-34705

Quantitative density data from schlieren measurements by photomultiplier technique for axisymmetric flow outside diffraction bands

19 p3306 A69-35741

Asymptotic form of axisymmetric solution with Dirichlet integral for Navier-Stokes equations applied to flow past bodies of revolution with smooth surfaces

19 p3298 A69-36143

Flow separation and reattachment points and line of zero velocity jet mixing determined by injecting smoke [ASME PAPER 69-FE-29]

20 p3517 A69-37994

Axisymmetric solutions of magnetohydrostatic equations for large conductivity media satisfying second order partial differential equation containing two arbitrary functions

21 p3778 A69-39498

Axisymmetric and two dimensional flows over blunt bodies at high Mach numbers by integral relations method

21 p3645 A69-39790

Semianalytic solution for axisymmetrical supersonic inviscid flow near stagnation region of spherically blunted body with detached shock waves

22 p3861 A69-41178

Axisymmetric supersonic flow around spherically blunted body at small angles of attack, deriving equations for shock deformation perturbations and surface pressure

22 p3861 A69-41179

Axisymmetric separated flow in Chapman model shown nonexistent by flow visualization technique

23 p4060 A69-41905

Transition from axisymmetric to nonaxisymmetric flow in rotating annulus, using two layer quasi-geostrophic model

24 p4345 A69-43150

Heat exchange at stagnation point during interaction between underexpanded axisymmetric supersonic jet and flat obstruction, using method of characteristics

24 p4246 A69-43493

Gas dynamic functions of axisymmetric supersonic gas flows determined using flow density distribution optical measurements

24 p4247 A69-43496

Hypersonic viscous interaction, studying axisymmetric flow over slender sharp nose cones at zero angle of attack and three dimensional flow over sharp flat plate

24 p4248 A69-43579

AXISYMMETRY U SYMMETRY

AXLES

U SHAFTS [MACHINE ELEMENTS]

AXONS

Visual field meridians in circumstriate visual cortex of monkey determined by tracing degenerating axons stained by Nauta method

22 p3881 A69-40858

AZIDES [INORGANIC] NT SODIUM AZIDES

Compatibility of inorganic azides with organic explosives from elevated temperature interactions using trinitrobenzene as model

02 p0304 A69-12499

AZIDES [ORGANIC] NT SODIUM AZIDES

Neat alpha styryl azide transformation into 2-phenylazirine, 3,6-diphenylpyridazine and 2,5-diphenylpyrrole after one month at room temperature in brown glass bottle

10 p1651 A69-23307

AZIMUTH

Spectral parameters of VLF radio noise given as functions of azimuth from atmospheric analyzer observations

01 p0033 A69-10971

Error reduction in initial azimuth alignment and azimuth and level axis gyro drifts in long range air transport gyro accelerometer inertial systems

02 p0278 A69-12361

Primary cosmic ray intensity variation with cut-off energy of particular secondary component, using ground based monitors

06 p0925 A69-17295

Azimuthal drift of rotor axis of directional gyroscope mounted on sloping base, showing vertical component responsibility via truncated equations of motion

09 p1502 A69-22702

Coupling coefficients for integral charged component of cosmic rays determined from measuring

azimuthal geomagnetic effect on rays observed in crossed telescopes

10 p1770 A69-23925

Binary-quantized signal packet center for target azimuth determination, discussing antenna radiation pattern role

15 p2566 A69-30332

Direction finding accuracy of pulsed radar with binary-quantized detector signals, discussing azimuth minimum variance and quantization threshold optimization

15 p2566 A69-30333

Reflecting or reradiating obstacle proximity as cause of siting errors in azimuth radio measurements, discussing omnidirectional obstacles effect

15 p2651 A69-31090

Azimuthal particle distribution expressions for analyzing cosmic ray jets

16 p2849 A69-32045

Instrument azimuth determination, discussing observations and theory

16 p2791 A69-32227

Azimuth error from observations of circumpolar stars at greatest elongation using transit instrument

17 p3028 A69-32878

Azimuth angle distribution of secondary particles forming cosmic ray diffused cone with high energy, showing asymmetry and deducing particle transverse momentum upper limit

17 p3024 A69-33763

Graphic representation of time dependence of sub-satellite points and orbital azimuths for relating satellite photographs to locality

18 p3128 A69-34818

Precision azimuth reference accuracy standards with confidence limits for gyrocompass evaluation, emphasizing astro and transfer angle repeatability [AIAA PAPER 69-859]

21 p3725 A69-39387

AZINES

Polymeric Schiff bases synthesis, thermal stability and nature of pyrolytic decomposition of polyazines and derived polystilbenes

07 p1074 A69-18628

Aminazine and adrenaline effects on adrenocortical function in patients with diencephalic syndrome

22 p3888 A69-41272

Rotational spectra of methylchlorodiazirine at room and dry ice temperature, using K band and Stark effect spectrometers

23 p4194 A69-42207

AZO COMPOUNDS

NT RDX

Deuterated diazomethane prepared by base catalyzed reaction of hydrazine with chloroform

06 p0885 A69-17885

Nitrosoazomethine derivatives deoxygenation for generation of azomethine nitrenes, discussing preparation by oxidation and dehydrogenation of secondary amidoximes

10 p1651 A69-23305

Block tractable azomethine copolymers prepared by reaction of insoluble oligomers with monomers or of two different fusible oligomers, noting high thermal stability

13 p2217 A69-28317

Curing agents for carboxy and hydroxy functional prepolymers synthesis and evaluation including sulfonyl, acyl and ureido aziridines [AIAA PAPER 69-436]

16 p2747 A69-32777

Monograph on thermally stable polymeric azomethines synthesis by polycondensation reactions

23 p4113 A69-42019

AZOLES

NT INDOLES

NT PYRROLES

NT TRYPTOPHAN

Aminotetrazole preparation to obtain tetrazole derivatives and explosive salts

10 p1651 A69-23013

Photolytic cleavage of vic-triazole ring when unsubstituted at N, finding phenylacetoneitrile production mechanism

19 p3264 A69-35971

X ray radiation damage to white mice blood serum proteins disappearing following intraperitoneal administration of imidazole or benzimidazole

23 p4077 A69-41300

AZOTOBACTER

Poly A-poly U synthesized by Azotobacter Vinelandi RNA polymerase in unprimed reaction containing ATP and UTP, following short lag period

10 p1647 A69-24185

A2F AIRCRAFT

U A-6 AIRCRAFT

B

B STARS

Far UV spectra of O and B stars in Orion photographed from Aerobee rocket, describing wavelength measurements and line identifications
02 p0327 A69-12712

Hydrogen alpha line strength in 951 O, B and early A stars from narrow band photoelectric measurements for stellar luminosity
03 p0511 A69-13435

Photometric investigation in UBV and H alpha of early B stars in Scorpio-Centaurus association, computing intrinsic colors and magnitudes corrected for interstellar absorption
06 p1001 A69-17195

Rapid differential rotation effect on massive main sequence O and B stars, discussing bolometric magnitude deficiencies and shifted position in Hertzsprung-Russell diagram
07 p1220 A69-19390

Expanding atmospheres in OB supergiants from radial velocity measurements, proposing tentative temperature and velocity fields
08 p1387 A69-20091

Abundance analysis of B3 V star in Orion association, noting titanium and strontium overabundance and oxygen underabundance
08 p1407 A69-21133

Hydrogen beta emission profiles for pole-on type Be stars, measuring stellar rotational velocity by Huang-Struve method
09 p1596 A69-22052

Spectrum analysis for early B type star Barnard 29 in M13 globular cluster
09 p1599 A69-22193

Spectral type and rotational velocity estimation for 83 stars near double cluster in Perseus, emphasizing Be stars
09 p1599 A69-22195

Effects of opacity arising from silicon bound-free transition on emergent fluxes and hydrogen line profiles for A and late B stellar atmospheres
09 p1604 A69-22403

A and B stars near North Galactic Pole and with magnitudes from 5 to 14.5, noting photoelectric UBV and four color photometric measurements
10 p1773 A69-22963

Interstellar medium density distribution as function of stellar action spherical coordinates applied to determining stellar motion forces and B stars brightness difference
11 p1955 A69-24386

B star HD 191980 spectral variations from B-3 to B-8 noting helium to carbon line intensity ratio, interstellar D line strength and radial velocity measurements
11 p1958 A69-24594

Physical parameters and chemical composition of DD Lac atmosphere from spectral analysis
12 p2156 A69-26219

Spectrum of abnormal B-type star HR 3817, noting Balmer line profiles and instrumentation
12 p2172 A69-27160

Rocket spectrographic observations of Alpha Virginis noting hydrogen Lyman absorption lines
13 p2338 A69-27555

Steady state model envelopes of Be stars, determining excitation and ionization states for hydrogen atoms
13 p2338 A69-27559

Fe III line profiles and equivalent widths from spectrograms of zeta Cas and gamma Peg for Fe abundance, using model atmospheres
13 p2347 A69-27715

Short period variability of B, A, and F stars observed in photometry of New Delta Scuti stars
13 p2348 A69-27803

OB stars absolute magnitude and intrinsic colors in Cleveland system related to MK system
13 p2348 A69-27806

Positions, spectral types and B magnitudes for possible field horizontal-branch stars at high galactic latitudes, selected from faint A star list
13 p2348 A69-27807

Balmer jumps for B star temperature scale, discussing relation between observed Balmer jumps and observed U-B color indices
14 p2518 A69-29132

Sco-Cen B stars radial velocities, determining spectroscopic binaries
14 p2519 A69-29136

Lacerta OB 1 B spectroscopic binaries periods and orbital elements, noting limits for secular variation
14 p2519 A69-29137

Radial velocities of southern OB stars and supergiants noting tabulation of information
14 p2519 A69-29368

Surface convection zone in atmospheres of global cluster and halo B stars determined to study He depletion efficiency
14 p2529 A69-29976

B-type stellar spectra, discussing atmospheres and local thermal equilibrium from considerations of He I and P II lines relative strength
15 p2679 A69-30046

Spectral classifications and UBV photometry for southern association Sco OB 1 containing cluster NGC 6231
15 p2692 A69-30771

Spectral characteristics of B stars group, reviewing causes of spectral line profile deformation
16 p2855 A69-31828

Radial velocity and spectral line variations of HD 124224, suggesting main sequence star of B6 to B9 spectral type
16 p2859 A69-32223

Polarimetric observations of Be stars, noting dependence and self absorption by hydrogen of polarization produced by electron scattering
16 p2863 A69-32397

Depolarization of extragalactic radio sources at low Galactic latitudes attributed to ionized hydrogen produced by B2 star tunneling through interstellar hydrogen cloud
18 p3194 A69-34425

UBV photoelectric observation of OB and open cluster Tr 16 stars in Carina-Centaurus, suggesting no limit in depth distribution
18 p3200 A69-35133

Galactic rotation in Cassiopeia region, studying O, B and A stars circular velocities as function of distance from galactic center
18 p3201 A69-35142

HD 217050 spectroscopic study, determining Balmer envelope temperature from comparison of homologous Balmer and Paschen lines intensities
18 p3201 A69-35144

Balmer line spectrum formation in extended atmospheres of Be and shell stars, noting influence of angle of inclination to observer
18 p3204 A69-35349

MK spectral types for bright southern O and B stars
20 p3612 A69-38161

Omicron Andromedae radial velocity measurements /1961-1966/ during normal B star periods
22 p4028 A69-40755

MK system spectral types determination for B, A and F type stars from slit spectrograms near NGC 2264
23 p4211 A69-41487

Faint OB stars data tabulation between Carina and Centaurus, noting open clusters and MK classification
23 p4211 A69-41488

Radial velocities for O and B stars in Milky Way field in Scorpius determined from prism spectrograms with specific dispersion at H gamma line
23 p4211 A69-41489

Tabulated spectroscopic observations of Be stars included in Merrill and Burwell catalog
23 p4213 A69-41720

OB stars near emission nebula RCW 103, describing galactic structure in Norma
23 p4220 A69-42384

Atomic hydrogen departures from LTE computed for models of B star atmospheres, assuming detailed balance in hydrogen lines
24 p4376 A69-42665

Interstellar medium density distribution as function of stellar action spherical coordinates applied to determining stellar motion forces and B stars brightness difference
24 p4390 A69-43776

B- 52 AIRCRAFT

Efficient allocation of maintenance resources in USAF, analyzing B-52 costs and substitution of capital for labor
13 p2382 A69-28041

Stability augmentation system for B-52, noting flight test performance evaluation for structural vibrations and rigid body motions of aircraft
20 p3461 A69-37157

Electrohydraulic servosystem to counteract atmospheric turbulence effects on B-52 global bombers, noting reduction in aircraft fatigue and structural damage
20 p3467 A69-38184

B- 70 AIRCRAFT

Propulsion performance of XB-70A aircraft calculated by gas generator method
20 p3461 A69-37152

XB-70 aircraft test data as applied to SST safety, describing aircraft design, flight characteristics, instrumentation, takeoff and landing, etc
22 p3868 A69-41143

B-103 AIRCRAFT

U BUCCANEER AIRCRAFT

BABBITT METAL

U BEARING ALLOYS

BABOONS

Cardiovascular responses of baboons and dogs subjected to anoxic near vacuum environment by rapid decompression
06 p0875 A69-17846

Neurological impairment in baboons exposed to prolonged decompression simulating high altitude aircraft cabin structural failure, noting neuropathological examination results
07 p1067 A69-19426

Bigemini pattern in baboon social behavior, noting diurnal rhythm independence from social deprivation, light cycling and food supply
24 p4260 A69-42705

BAC AIRCRAFT

NT VC-10 AIRCRAFT

BAC Three-Eleven 220 seat airliner for short and middle distance routes, discussing operating costs, thrust and range
02 p0193 A69-12067

BAC 111 AIRCRAFT

TU-134 jet passenger aircraft performance characteristics noting similarity to BAC 111
13 p2202 A69-27931

BACILLUS

Ribulose diphosphate carboxylase and phosphoribulokinase activity in chemosynthetic autotrophs Thiobacillus thioautotrophicus and Thiobacillus neapolitanus, noting sedimentation and gel filtration characteristics
02 p0199 A69-11866

Defective bacteriophage PBSH in Bacillus subtilis after mitomycin C treatment, showing DNA synthesis and marker frequency change
15 p2555 A69-30446

B Coli commune cultivated on various substrates, studying oxygen consumption under aerobic/ anaerobic conditions
18 p3097 A69-35302

Adenosine triphosphate /ATP/ production in normal cells and sporulation mutants of bacillus subtilis, discussing applications of ATP synthesis response to C sources
22 p3886 A69-41076

BACK INJURIES

Vertebral column fracture resulting from aircraft ejection, studying ejection seat geometry and personal equipment design influence on spinal curvature relation to catapult thrust
23 p4102 A69-41681

BACKFIRE

Short backfire antenna radiation fields calculation by approximate method
02 p0219 A69-12339

Backfire antenna radiation characteristics and physical dimensions for tracking and telemetry applications, including five element array model
19 p3271 A69-36251

BACKGROUND NOISE

Optimal calculator of detection of Gaussian random signal against Gaussian noise background by reducing input signal to white noise
02 p0206 A69-11606

Optimal detection of random signals on background of noise of unknown intensity and persistent false alarm probability
02 p0208 A69-12264

Noise emitted by gas filled cavity perturbed by strong coherent signal computed by Nyquist equation
02 p0211 A69-12448

Signal detection by four terminal receiver network optimal for background Gaussian noise
04 p0557 A69-14776

Optimal detection of deterministic signals with random initial phase on background of unknown intensity noise under condition of constant false alarm probability
04 p0557 A69-14788

Cosmic ray electron energy spectrum compared with galactic radio noise for estimating galactic magnetic field

06 p0992 A69-17377

Signal resolution during space diversity reception with nondirective or weakly directive antennas and noncorrelated receiver background noise, discussing signal processing

06 p0890 A69-17800

Tape flutter and additive noise time base errors in coherent demodulation of suppressed carrier AM multiplex

07 p1082 A69-19119

Discrete signal detection providing optimum SNR for frequency and time domain differences between signal and noise

07 p1088 A69-19676

Extraterrestrial cosmic emissions responsible for background noise of communications engineering, discussing factors affecting frequency sharing with other services

09 p1586 A69-21294

Optimal detection of determinate signal and signal with random amplitude and phase, estimating probability of false and correct detection

09 p1456 A69-22286

Optimal calculator of detection of Gaussian random signal against Gaussian noise background by reducing input signal to white noise

11 p1835 A69-24713

Real time correlator in periodic signal extraction from noise background, discussing multichannel sampler as special case of cross correlation extraction

11 p1837 A69-25094

Bayes theory and nonclassical variation method to solve optimal energy distribution available for identifying weak signals in background noise

14 p2410 A69-28817

Computerized calculation of likelihood coefficients for identifying steady random processes against background noise, minimizing mean risk of erroneous solution

14 p2410 A69-28818

Algorithms for optimal detection of signals on background of normal noise with time varying intensity

15 p2563 A69-30133

Differential equations for optimum reception to synthesized detectors of deterministic signals against nonGaussian background noise using Markov process

15 p2567 A69-30340

Spectral correlation characteristics of amplitude modulated signal with background noise at envelope detector output

15 p2576 A69-30348

General autocorrelation function for input signal composed of two amplitude modulated noise waves and background noise from detecting system composed of half wave element

15 p2569 A69-30805

Logic circuits abstract synthesis for detecting signals against noise background using known conditional quantized signal distributions

16 p2749 A69-31627

Probabilistic analysis of code message distortion due to pulse noise in modulation systems and comparison between linear and quadratic detections

17 p2919 A69-33145

VHF band surface incidental radio noise levels over metropolitan areas compared with airborne data

17 p2921 A69-33672

NaI/Tl/ and CsI/Tl/ scintillation counters effectiveness in recording low energy protons against counter noise background

18 p3138 A69-35255

Target discrimination from background, discussing spatial, spectral, temporal and polarization effects

19 p3373 A69-36054

M-ary detection for optical communication investigated for maximum likelihood detection of one of M Poisson processes in background noise

19 p3276 A69-36486

Representation theory of signal detection in non-Gaussian noise environments applied for improved near optimum system performance [IEEE PAPER 69-TP-10-COM]

19 p3277 A69-36488

Temporal position of pulse signal on noise background determined by measuring signal passage time through linear filter zero point

19 p3278 A69-36596

Discrete signal detection providing optimum SNR for frequency and time domain differences between signal and noise

20 p3488 A69-37458

Phase error in monopulse antenna system attributed to far field background noise sources during passive or active objects tracking

20 p3492 A69-37707

Ionospheric background noise levels and sources determined from Alouette data

20 p3495 A69-37874

Surrounding noise effects on quick check audiometry test reliability, discussing pathological effects

21 p3725 A69-39286

Electronic stethoscopes for use in high background noise environments for patients on air evacuation flights

21 p3667 A69-39444

Radio emission data from 20 May 1966 partial solar eclipse, giving radio noise and brightness distribution data

22 p4010 A69-39986

Error probability of Gaussian signal detector in Gaussian noise background determined from quadratic form of probability distribution density

22 p3901 A69-40955

Point images reference groups identification by human operator with limited visual perception in background noise, comparing results with automatic system using selection algorithms

23 p4109 A69-41955

BACKGROUND RADIATION

French radio astronomy, presenting sky background radiation and solar emission results from Rubis 02 and 04 rockets

02 p0316 A69-11908

Far IR background due to superposition of IR galaxies, noting galaxies contribution to extragalactic radio background

02 p0308 A69-12128

Cosmic microwave background radiation measurement, discussing measurement techniques for antenna temperature at microwave frequencies

02 p0210 A69-12431

Normal galaxies radio emission and brightness of metagalactic radio background

02 p0325 A69-12564

Cosmic ray origins, considering hard protons, X rays, gamma rays, very soft protons, background radiation, charged particles and neutrinos

03 p0497 A69-12932

Earth velocity through 3 K cosmic background radiation, measuring velocity by determining anisotropy of radiation

03 p0511 A69-13475

Extraterrestrial background gamma radiation /0.3-2 Mev/ observations used to derive upper limits for cosmic ray protons and CNO nuclei in interstellar space

03 p0501 A69-13934

Moving isotropic black body radiation, discussing effect on energy flux and earth velocity measurement through 3K cosmic background radiation

04 p0649 A69-15150

Cosmic X ray background production mechanisms

05 p0814 A69-15848

Photomultipliers response to energetic particles in terms of background current using data from OGO experiments

06 p0923 A69-16932

X ray and gamma astronomy, discussing galactic gamma radiation source and diffuse X ray background radiation

06 p0998 A69-16969

Isotropic background cosmic X ray flux measurements using low latitude balloon to minimize atmospheric background, obtaining hard solar X ray flux upper limits

06 p0992 A69-17311

Nonlinear coupling between background illumination and illumination signal producing lateral electrical fields in p-n junction, noting effect on sensitivity of position sensor

07 p1101 A69-18654

Discrete extragalactic X ray sources model for explanation of diffuse X ray background, noting evolutionary aspects

07 p1206 A69-19255

Luminosity distance, distance by apparent size, number counts, background radiation and apparent angular motion of sources in homogeneous anisotropic model universe

07 p1218 A69-19282

Background radiation intensity upper limits for mm and submillimeter wavelengths in interstellar medium, noting intense flux in far IR

07 p1221 A69-19404

Sky background light automatic compensation in stellar photography, using single or double channel photometer

08 p1313 A69-20247

Sky background of soft X ray emission in spectral band explained by emission lines from galaxies

08 p1380 A69-20769

Cosmic microwave background variations produced by nonthermal gravitational radiation, imposing limits on equivalent mass density

08 p1398 A69-20773

Astronomical data on background radiation examined for existence of galactic radio halo

09 p1590 A69-21395

Galactic and intergalactic ionic fine structure transitions effect on background microwave radiation intensity

09 p1590 A69-21445

Cosmological implications of diffuse X ray background, noting Compton black body process effect on isotropic cosmic X rays

09 p1578 A69-22152

Inverse Compton scattering of far IR background radiation proposed as explanation of high energy gamma ray flux

09 p1580 A69-22296

Diffuse cosmic X ray background measured during balloon flight with actively shielded and collimated detector

09 p1584 A69-22767

Universe rotation from observations of microwave background and using closed universe model

10 p1771 A69-22851

Solid hydrogen condensation on graphite grains for microwave background, discussing hydrogen grain promotion of galactic and stellar formation

10 p1776 A69-23216

Diffuse X radiation spectrum below 4 kev measured with beryllium window proportional counter at rocket altitudes

10 p1770 A69-24094

Supplemented data to analyze intergalactic gas diffuse X ray background radiation

10 p1792 A69-24209

Nonthermal intergalactic bremsstrahlung model as isotropic X ray background due to subatomic electron interactions with thermal ionized gas in expanding universe

11 p1947 A69-24595

Polarization of continuum background of planetary nebulae in window in visible spectrum from scattering of nucleus star radiation by electron gas

13 p2339 A69-27567

Cosmic X ray background measurements and Crab Nebula observation during sounding rocket flight

13 p2326 A69-27570

Microwave background radiation by intense sources studied by homogeneous and isotropic Friedmann and steady state models

13 p2339 A69-27574

Night sky background observation by near IR radiation flux, using rocket-borne telescope and ground based equipment

13 p2342 A69-27600

Spotted scattered background contrast relation to scattering system geometry during laser scattering by suspended Lycopodium spores

13 p2273 A69-28550

Ideal quantum receiver to detect coherent narrow band optical signal in presence of thermal background radiation, noting error probability

14 p2414 A69-29502

Extragalactic background radiation intensity in isotropic world models as function of universe thermal history

14 p2514 A69-29769

X ray energy spectrum from Crab Nebula and diffuse background on celestial sphere near galactic anticenter, noting spectral index

15 p2675 A69-30759

Relative motion of 3 K cosmic background radiation with covariant photon equilibrium distribution

15 p2657 A69-31494

Hydroxyl band contamination of emission and background radiation from night sky

16 p2774 A69-31987

High energy cosmic ray proton, electron and photon propagation through cosmic microwave background, discussing mean free paths

16 p2852 A69-32819

Earth motion relation to cosmic background radiation excess determined from radiometer study of galactic radiation

17 p3022 A69-32864

Low pressure and background radiation conditions via cryogenically cooled surfaces, citing data on cryopumping under vacuum conditions for space simulation chambers

17 p3006 A69-33683

Metagalactic light measurements by lunar based night sky photography

18 p3189 A69-34242

Microwave background anisotropy induced by gravitational effects interpreted using spatially flat Friedmann model for substratum

18 p3190 A69-34286

Milky Way continuum radiation at 4170 MHz using parabolic antenna, mapping discrete sources concentration at galactic equator

18 p3200 A69-34996

Radio interferometry for suppressing background variance between microwave radiometer antenna and random terrestrial background

20 p3506 A69-37712

Unresolved background radiation at 2695 MHz surveyed for galactic wing extent determination

20 p3606 A69-37830

Cosmic X ray background spectral measurement from rocket flight near geomagnetic pole

21 p3787 A69-38351

Soft x ray extragalactic background flux measurements, considering correction for absorption by interstellar medium

21 p3788 A69-38541

X rays and gamma rays extragalactic components, calculating background component intensity for given model of universe

21 p3789 A69-38818

Radio background radiation produced by Galaxy, considering energy, isotropy of radiation and black body character

21 p3790 A69-38821

Ariel 3 satellite attempted background radiation measurement between 2-4 MHz to show absorption onset in Galaxy

21 p3806 A69-39258

Temperature fluctuations in microwave background radiation from primeval perturbations compared with perturbations from discrete radio sources

21 p3815 A69-39611

Critique of Shivanandan suggestion of background radiation spectrum distortions

21 p3815 A69-39612

Microwave background radiation in steady state cosmological model, attempting interpretation as discrete extragalactic radio sources population

22 p4029 A69-40765

High energy astronomical diffuse radiation component properties tabulated, discussing power law and thermal X ray background, gamma rays, etc

23 p4207 A69-42319

Observational cosmology developments with radio and X ray astronomy emphasizing existence, origin, effects and anisotropy of excess microwave background

23 p4219 A69-42327

Cosmic radio background noise spectrum near north galactic pole based on Radio Astronomy Explorer satellite experiments

23 p4219 A69-42375

Fluctuations in 3K radiation, considering scattering effect on gravitational fields of galactic clusters and large coherence or wavelength scattering by gravitational radiation

23 p4222 A69-42401

Homogeneous axisymmetric anisotropic cosmological models, analyzing magnetic fields and initial anisotropies effect on 3K radiation and primordial He production

23 p4222 A69-42402

Soft cosmic X ray background flux from rocket observations on 21 September 1968 from White Sands, discussing flux origins

24 p4368 A69-43220

BACKINGS

U BACKUPS

BACKLOBES

Multiplicative feed system for monopulse angle tracking antennas, discussing influence of sidelobe and backlobe responses on control function slope determining antenna bearing angle

20 p3510 A69-37704

BACKSCATTERING

Forward and backward scattered modes over frequency range in multimode nonuniform waveguide, transforming coupled modes telegraphist equations into Volterra equations

01 p0043 A69-10621

Backscattering diagram of Venus at 40 cm determined from Doppler spectrum and reflected signals range energy distribution

02 p0314 A69-11639

Fluctuating radar echoes from cloud targets with vibrating drops, noting amplitude modulation effect of changing cross section on backscattered signals

02 p0208 A69-12021

Raindrop size distribution law effect on radio wave attenuation coefficient and differential effective backscattering cross section of rain

02 p0208 A69-12259

Mode theory of backscattered radar cross section of elongated dielectric bodies capable of sustaining traveling wave

03 p0384 A69-12907

Radar return signal generation for computer simulations of airborne radar systems, using digital computer program for time varying radar backscatter

03 p0429 A69-13199

Polarization of laser radiation scattered forward and back in artificial fog and smoke

03 p0393 A69-13275

Reflections from input and output ducts influence on gain of TWT strophotron amplifier with/without allowance for back radiation

03 p0407 A69-13980

Mie total and differential backscattering cross sections at laser wavelengths for Junge size distribution aerosol models

04 p0609 A69-14290

Electron backscattering from cathode to cathode due to collisions with molecules, assuming isotropy of scattering

05 p0800 A69-15738

Directly backscattered light /echoes/ from dielectric plane surface with roughness and volume scattering, comparing indicatrices with moon echo

06 p0887 A69-17173

Correspondence between HF radar backscatter, optical aurora and electron precipitation, noting application to gross tracking of auroral oval

06 p0918 A69-17383

Backscattering due to collisions for electrons from emitter accelerated through positive ion sheath into plasma in thermionic diodes

06 p0898 A69-17773

Radar backscattering from turbulent rocket exhaust plumes [AIAA PAPER 69-71]

06 p0891 A69-18071

Computational techniques for determining magnetic field geometry for backscatter reflections

07 p1125 A69-18850

Partial reflections from ionosphere, analyzing electron number densities, noting relation between D region ionization increases and small solar proton events

07 p1205 A69-18956

Atmospheric extinction coefficient and backscattering function determined by laser radar using differential equation

07 p1126 A69-18966

Small amplitude surface irregularities effect on backscattering properties of radar calibration metal sphere, using full wave boundary perturbation method

08 p1273 A69-20027

Forward and backscattering of radio waves at electron concentration discontinuity near reflecting ionospheric layer with vertical nonuniformity

09 p1453 A69-21525

HF ionospheric radar ground scatter map showing separated land-sea backscattered radio waves by Doppler technique

09 p1454 A69-21681

Model of auroral backscatter from E region including ionospheric refraction, comparing computations to experimental HF auroral backscatter data for aspect sensitivity

09 p1488 A69-21700

Sporadic E region HF backscatter observed during IQSY, using PPI display

09 p1489 A69-21701

Laser radar atmospheric applications, noting particulate matter mapping, backscatter density profiles and use of lidar

09 p1521 A69-22795

Combination backscattering on ionic sound waves assumed responsible for unexpected features of radio signals reflected from sun

10 p1776 A69-23219

Laser radiation backscatter along oblique paths in atmosphere, calculating transmission over horizontal and oblique paths

10 p1659 A69-24220

Radar backscatter and rocket profiles of ionospheric electron temperature, noting agreement in daytime flight measurements

11 p1951 A69-25162

Polar cap sporadic E investigation with backscatter at 28 MHz, noting geographic distribution, annual and diurnal variations

12 p2069 A69-26464

Optical radar studies of lower atmosphere, giving Mie theory calculations of clear atmosphere volume backscattering cross sections for four laser wavelengths

12 p2033 A69-27001

Optical wavelength backscattering functions for nebulae in Pleiades cluster, noting color differences and surface brightness

13 p2340 A69-27577

Polarization of laser radiation scattered forward and back in artificial fog and smoke

14 p2410 A69-28783

Forward and backscatter soundings compared to verify focusing mechanism of HF sky waves

14 p2435 A69-28967

Multiple scattering of electromagnetic waves in underdense plasma, deriving transport equation for radar backscatter

14 p2412 A69-29453

Radar backscatter analysis for Arctic ice identification, deriving ice surface roughness factors from Kirchhoff-Huygens principle

14 p2416 A69-29530

Spectral density function derivation for energy scattered from underdense turbulent wake

16 p2732 A69-31893

Fluorescence noise in Q switched ruby laser atmospheric backscattering experiments, noting relation to optical radar spurious and enhanced returns

16 p2777 A69-32183

Angle nature from backscattering patterns at radar station with one transmitting and two receiving antennas

16 p2779 A69-32275

Forward and backscattering of radio waves at electron concentration discontinuity near reflecting ionospheric layer with vertical nonuniformity

16 p2754 A69-32520

Backscattered impulse response waveforms of conducting circular cylinder for broadside incidence utilizing Fourier synthesis

17 p2917 A69-32918

Continental and maritime hygroscopic particles associated with increasing relative humidity, determining effect on backscattered power from laser beam using Mie scattering equations

17 p2981 A69-33160

Periodic fading in 42 MHz auroral backscatter by high speed polarization measurements, discussing scatter bursts and pulsating primary electron flux relationship

18 p3102 A69-34950

Wavelength dependence of total and depolarized backscatter laser light cross section for rough metallic surfaces

18 p3172 A69-35011

Radio meteor ionization profiles, discussing electron line density measurements by backscatter system

19 p3283 A69-35992

Backscattering intensity measurements by optical elements at 180 degrees to beam propagation direction, using CW He-Ne laser as radiation source

20 p3554 A69-37609

Terrain radar returns emphasizing surface roughness influence in man-made target backscattering, determining radar cross section with radar range equation

20 p3490 A69-37646

Sporadic E layer large scale irregularities direction and velocity determined by inclined backscatter method, using plan position indicator

20 p3528 A69-37682

HF backscattering characteristics of infinite conducting cylinder with radially inhomogeneous plasma sheath, using Bessel functions, geometrical optics and graphs

20 p3494 A69-37843

Modified geometrical diffraction theory applied to determination of vertically polarized radar backscattering from rear of cylinders and frustums

20 p3495 A69-37851

Lunar surface scattering properties at 2.5 cm wavelength determined using computerized backscattering diagram and equations for obtaining scattering data

20 p3606 A69-37971

Ground backscatter elevation angle recorded by phase comparison method, postulating ionospheric tilts to interpret data

20 p3535 A69-38188

Bistatic auroral backscatter communications conducted by recording CW transmissions from beacon transmitters to study radio aurora

21 p3709 A69-38498

Simulation and display for radar ground-backscatter signatures by computer ray tracing, using model ionosphere containing realistic traveling disturbances

21 p3717 A69-39280

Chemical analysis of lunar surface by devices exploiting alpha particle backscattering and proton production by alphas placed by Surveyor 5, 6 and 7

22 p4012 A69-40088

Electromagnetic backscattering by perfectly conducting prolate spheroid, predicting echo signal in resonance region

23 p4115 A69-41584

HF backscatter, long delay signals and round-the-world echoes as radio wave propagation modes

23 p4116 A69-41602

BACKUPS

Fiber glass reinforced plastic backing phase of composite armor, noting test method for evaluation of performance

09 p1507 A69-22319

Multiwall meteoroid protection design in Apollo program, discussing bumper, backup sheet and honeycomb cells insulation [AIAA PAPER 69-372]

13 p2367 A69-28304

BACKWARD WAVE TUBES

NT CARCINOTRONS
NT HELITRONS

Frequency and power stable backward wave oscillators as energy pumps for molecular and wideband parametric amplifiers used in satellite receivers

07 p1095 A69-18430

X band internal cavity voltage tunable magnetron operating in theta mode, solving output loading, interaction limitations and cavity dimensions

07 p1102 A69-18670

High performance silicon carbide backward diode, discussing device design and operational characteristics

09 p1470 A69-22787

Synchronized backward wave oscillator transmitting tube for space communication stations

13 p2232 A69-28058

Magnetically shielded O type backward wave oscillators for military and commercial applications

13 p2232 A69-28059

Crossed field backward wave tubes gain with stepwise varying interaction space found greater than with constant height interaction space

13 p2237 A69-28583

BACKWARD WAVES

Equations for self oscillating mode of operation for O-type backward wave generator with electrostatically focused electron beam and finite values of amplification parameter

03 p0407 A69-13986

Backward plasma waves in region of anomalous dispersion indicated by opposite directions of RF wave phase and group velocities

11 p1927 A69-25116

BACTERIA

NT AZOTOBACTER
NT BACILLUS
NT ESCHERICHIA
NT HYDROGENOMONAS
NT NITROBACTER
NT PSEUDOMONAS
NT STEAROTHERMOPHILUS

Rats on casein, soybean and Chlorella diets for protein source noting soybean diet produced no appreciable changes in intestinal flora

02 p0197 A69-11490

Electron transport of Halobacterium cutirubrum, discussing spectrophotometric identification of cytochromes

07 p1068 A69-19481

Energy deposits from decay of tritium incorporated into bacteria, using computer simulation for radiation dose distribution

07 p1068 A69-19490

Amber suppressors conversion to ochre suppressors in RNA of bacterium or bacteriophage using uracil mutagen

07 p1068 A69-19493

Ionizing radiation-initiated degradation of deoxyribonucleic acid in bacteria, noting role of defective prophage

07 p1068 A69-19494

Escherichia coli WWU multiauxotrophic revertants with nonsense suppression, noting role in aberrant morphology and in catabolizing thymidine for energy and carbon

07 p1069 A69-19503

Degree of organization in bacterial cell, discussing pool size and DNA synthesis

07 p1069 A69-19505

High vacuum effects on oxidative processes in bacteria and physiological activities of enzymes

15 p2557 A69-31354

Salts and organic solvents effect on halophilic Halobacterium cutirubrum catalase, noting enzyme activity inhibition by cation and anion

18 p3096 A69-35291

BACTERICIDES

Antimicrobial spacecraft materials, discussing feasibility of impregnation or chemical combination of materials with bactericides

05 p0713 A69-15944

Activated carbons and ion exchange resins bactericidal action as function of silver coating techniques

13 p2216 A69-28621

BACTERIOLOGY

Automatic devices to count bacterial colonies Petri dishes consisting of culture plate scanner and data processor

02 p1201 A69-11773

Escherichia coli detection and differentiation from other bacteria by direct gas chromatographic analysis of culture media

03 p0382 A69-13550

Hydrogenomonas eutropha as means of protein food source independent of conventional agriculture for animal feed supplement

10 p1644 A69-23306

Oxygen physiological and biochemical effects on Pseudomonas saccharophila, discussing sucrose uptake, lipid synthesis and polysaccharide formation

15 p2556 A69-31045

B Coli commune cultivated on various substrates, studying oxygen consumption under aerobic/ anaerobic conditions

18 p3097 A69-35302

Ferredoxin from thermophilic and mesophilic Clostridia, noting difference in heat stability due to iron and sulfide environments

22 p3897 A69-41068

BACTERIOPHAGES

Lethal effect of solar UV radiations on dried Coliphage T-1 exposed to space at sounding rocket altitudes

01 p0017 A69-11086

Inactivation of T4 bacteriophage by tritium decay incorporated into DNA and phage protein

07 p1068 A69-19491

Amber suppressors conversion to ochre suppressors in RNA of bacterium or bacteriophage using uracil mutagen

07 p1068 A69-19493

Inhibition of gamma ray induced DNA degradation by infection with bacteriophage

07 p1069 A69-19709

Defective bacteriophage PBSh in Bacillus subtilis after mitomycin C treatment, showing DNA synthesis and marker frequency change

15 p2555 A69-30446

Bacteriophage desoxyribonucleic acid /DNA/ degradation by gamma irradiation in vitro by Co 60, discussing breaks, cross links and molecular weight

23 p4079 A69-41402

Thin films of infectious DNA of bacteriophage bombarded by slow protons, determining differential inactivation cross sections

23 p4081 A69-41431

BAFFLES

Activation energies in baffle stabilized flame deduced from reaction zone using gas chromatography

06 p1035 A69-17930

Hydraulic analog for determining acoustic behavior of baffle cell used in liquid rocket engines, comparing ring and spoke type baffles

09 p1570 A69-22004

Temperature influence of homogeneous kerosene-air mixture on flame stabilization by mechanical and gas dynamic baffle systems

21 p3850 A69-38859

Circular baffle mounted above flat-bottomed cylindrical tank outlet, discussing effect on remaining tank fluid volume and flow behavior under low gravity conditions

21 p3696 A69-39232

BAGS

Small hovercraft simple and bag skirts design characteristics, considering materials

13 p2202 A69-27545

BAILOUT

Ocular injuries during bailout from Vampire aircraft, noting hemorrhages

10 p1649 A69-23380

BAINITE

Bainite beta to alpha transformation in titanium-oxygen system, using high temperature metallography techniques

04 p0613 A69-14559

BAINITIC STEEL

Monograph on effect of boron, zirconium and titanium on austenite transformation of CrMo steels bainite and martensite covering carbides, nitrides, mechanical properties, etc

11 p1903 A69-24634

BAKEOUT

U DEGLASSING

BAKER-NUNN CAMERA

Baker-Nunn photometry from Apollo tracking utilizing photographs for brightness, dynamics and duration of rocket exhausts and venting clouds

15 p2571 A69-31338

BALANCE

Unbalance effects on rigid naval turborotor on oil film bearings in flexibly mounted housings investigated at varying critical speeds and housing stiffness [ASME PAPER 69-DE-9]

14 p2453 A69-28839

Aerospace balancing system with hydrostatic spindle, describing component construction and functions [SAWE PAPER 737]

18 p3118 A69-34890

Skin friction balance for shear stress measurements in presence of ablation, describing balance construction, calibration, flexure range, etc

19 p3292 A69-35735

Pressure loads and balancing force determination in kinematic pairs of link gear of landing mechanism

23 p4062 A69-41415

BALANCED AMPLIFIERS

U PUSH-PULL AMPLIFIERS

BALANCING

Balancing criteria for rotors of rotating machines, discussing acceptable residual specific unbalance, center of gravity displacement and machine vibration tolerance [ASME PAPER 69-VIBR-60]

10 p1804 A69-24149

Dynamic balancing mechanics covering graphical representation, mass asymmetries corrections or adjustment calculations and ballasting equations [SAWE PAPER 736]

18 p3220 A69-34891

BALL BEARINGS

Ball bearings lubrication and wear in cryogenic hydrogen turbopumps by transfer films provided from self lubricating cage

01 p0084 A69-10109

Fatigue life, kinematics, dynamics, etc, of thrust loaded ball bearings, considering inertial effects of hollow balls

01 p0087 A69-10908

Ball bearing test apparatus for evaluation of greases and solid lubricants at high temperatures [ASLE PREPRINT 68AM 7C-2]

01 p0087 A69-10912

Axial rigidity effect of centrifugal force acting on balls of rapidly rotating radial thrust bearing

04 p0605 A69-14606

Sodium nitrite and sodium stearate as grease additives for lubrication of ball bearings running in helium [IME PAPER 1]

07 p1137 A69-18559

Rolling elements for high temperatures, discussing solid film lubricants, unlubricated rolling contact and materials and surface treatment [IME PAPER 2]

07 p1138 A69-18566

Solid lubricant compacts for ball bearing separator materials, describing fabrication, design and friction and wear properties in air and vacuum [ASLE PAPER 68-LC-16]

07 p1139 A69-18626

Cooling requirements for high speed polytetrafluorethylene lubricated ball bearings operating in cold hydrogen gas, developing minimum gas flow rate equation [ASLE PAPER 68-LC-2]

07 p1141 A69-19310

Contact conformity effects on spinning torque and friction coefficient in angular contact ball bearings from lubricated and unlubricated tests [ASME PAPER 68-LUB-10]

15 p2628 A69-30901

High speed ball bearing skidding, proposing analytic model as design tool, discussing effects of thrust load, speed, oil temperature and flow rate
[ASME PAPER 69-LUBS-20]

18 p3140 A69-34377

Steel ball bearing high temperature fatigue life tested with synthetic paraffinic oil, fluorocarbon and polyphenyl ether
[ASME PAPER 69-LUBS-18]

18 p3140 A69-34378

Ball bearing lubrication simulation by rolling disk apparatus, emphasizing surface slip and related thermal effects alterable by geometric expansion
[ASME PAPER 69-LUBS-16]

18 p3140 A69-34380

Elastohydrodynamic solution for ball torque spinning without rolling in nonconforming groove, showing increase in torque with stress and spinning and decreasing conformity
[ASME PAPER 69-LUBS-11]

18 p3140 A69-34381

Polyphenyl ether lubricants and self lubricating materials compared for antifriction ball bearings in thrust reversing actuator gear box
[SAWE PAPER 68-LC-1]

18 p3148 A69-35003

Oxygen concentration effects on oxidation of synthetic paraffinic and type II ester lubricants determined from ball bearing tests at 400 and 450 degrees F

18 p3149 A69-35177

Hydrostatic bearings analysis for high pressure cryogenic rocket engine turbopumps to predict steady state and time dependent performance, noting turbulence, inertia and compressibility

22 p3955 A69-40408

High speed radially resistant ball bearing, analyzing effect of lubrication film on axial rigidity

23 p4169 A69-41555

BALLISTIC CAMERAS

Ballistics room of Royal Belgian Observatory for observation of geodetic satellites

08 p1272 A69-19993

Multiple frame camera with image compensation as ballistic phototeodolite

12 p2084 A69-26153

Schlieren high speed photography systems for ballistic projectile studies, discussing use of gas lasers as nanosecond light sources

12 p2088 A69-26182

High speed photography for hypervelocity aeroballistic ranges, using giant pulse ruby laser for front lighting

19 p3306 A69-35732

BALLISTIC MISSILE EARLY WARNING SYSTEM

Paper-honeycomb sandwich radome structure for protecting monopulse UHF radar antennas used in BMEWS

07 p1111 A69-19537

BALLISTIC MISSILES

NT INTERCONTINENTAL BALLISTIC MISSILES
NT MINUTEMAN ICBM
NT POLARIS MISSILES
NT V-2 MISSILE

Soviet book on inertial control of ballistic rockets covering rocket flight deviations measured by onboard sensors and computer

01 p0113 A69-10994

Psychomotor reactions to zero gravity during ballistic rocket flights, analyzing electrical activity of cortex in animals

06 p0874 A69-17649

Ballistic missile and aircraft operational effectiveness, discussing data collection, reliability, availability and capability surveillance by computer

18 p3145 A69-34500

Reliability assessment of ballistic missile inertial guidance system, discussing objectives and requisites

22 p3953 A69-40028

BALLISTIC RANGES

High enthalpy, Mach and Reynolds number flight studies on ballistic ranges, describing launchers, flight simulation, measuring and recording techniques

06 p0860 A69-17632

Ballistic range tests to study ablation effects on aerodynamic characteristics of ablating and nonablating slender cones
[AIAA PAPER 69-179]

06 p1036 A69-18083

Atmospheric entry testing in terms of velocity-altitude duplication, suggesting multistage rocket propelled aeroballistic range type testing
[AIAA PAPER 69-166]

06 p0907 A69-18189

Electrostatic probes in nonequilibrium collision dominated ionized gas flow ballistic ranges

19 p3291 A69-35716

Electrostatic probes calibration and use for hypersonic wakes behind projectiles in ballistic range

19 p3291 A69-35717

Nanosecond pulse coherent Doppler radar for monostatic measurements of turbulent wakes in shock tunnels and ballistic ranges

19 p3293 A69-35743

BALLISTIC TRAJECTORIES

Monkey psychomotor reactions during ballistic flight, noting alertness reduction during weightlessness

01 p0017 A69-11082

Relative weight of fuel required for flight along prescribed flight trajectory

03 p0519 A69-12964

Approximate method for calculating vertical velocity distribution in atmospheric braking of bodies along ballistic trajectories

04 p0541 A69-14485

Ballistic reentry trajectories, considering point mass motion in central force field under tangential thrust action and spherical atmospheric density distribution

06 p1006 A69-17564

Ablative and insulative performance of reference heat shield materials under transient heating simulating ballistic vehicle reentry trajectory, using plasma jet facility

06 p0907 A69-18110

Ballistic reentry vehicle roll-pitch coupling, showing influence of nose asymmetries

06 p1018 A69-18156

Anomalous roll behavior of spinning ballistic reentry vehicles with compound aerodynamic asymmetry consisting of lateral offset combined with trim angle of attack

06 p1019 A69-18168

Longitudinal stability of unsteady motion of flight vehicle along ballistic trajectory, using linear differential equations

07 p1230 A69-19701

Differential equation for droplet motion along ballistic trajectory in gas flow, noting applicability to solid bodies via computer programming

09 p1483 A69-22222

Psychomotor reaction time and motions, myogenic tonus at rest and precision of monkeys during rocket flights along ballistic curve, noting weightlessness effect

10 p1646 A69-23575

Differential coefficients applied to Izsak-Borchers ballistic trajectory and errors produced by perturbations of initial vectors, applying results to data capsule recovery

16 p2857 A69-32156

Trajectory calculation of axisymmetrical body during ballistic and vertical flight, assuming air drag proportional to square of velocity

17 p2889 A69-32950

Halley Comet rendezvous mission, comparing low thrust mode with ballistic Jupiter or Saturn swingby mode

21 p3809 A69-39360

Laser shadowgraph technique for visual observation of projectiles surface flying at hypersonic velocity along ballistic trajectory

22 p3963 A69-40601

Ballistic equations for mass center movement in vertical plane defined by projectile initial velocity

23 p4183 A69-42482

BALLISTIC VEHICLES

Rolling ballistic vehicles mass and aerodynamic characteristics determined from dynamic motion data by performing Fourier analysis on roll axis equation of motion

06 p0862 A69-18039

Intermittent flow facilities for ballistic and lifting reentry flight simulation including shock tubes, ballistic ranges and shock and gun tunnels

11 p1863 A69-25016

Aerodynamic characteristics of ballistic reentry vehicles from flight test dynamic measurements, illustrating results

18 p3085 A69-34670

BALLISTICS

NT INTERIOR BALLISTICS

NT TERMINAL BALLISTICS

Ballistic deviations of gyropendulum vertical damped by astatic gyroscope

06 p0927 A69-17687

Pyrotechnical devices for two stage solid propellant ballistic rocket, discussing self priming electric cells and auxiliary power and gas generators

10 p1752 A69-23024

Ballistically effective atmospheric parameters for rocket vehicle design manuals involving application of climatological concepts of meteorology

12 p2175 A69-26874

Mathematical models for ballistic limit of single and double wall structures, yielding equations for relation to projectile and target characteristics
[AIAA PAPER 69-370]

13 p2367 A69-28302

Hypervelocity projectile size and density effect on ballistic limit of dual sheet spacecraft meteoroid protection structures, considering penetration of low and high density particles
[AIAA PAPER 69-376]

13 p2367 A69-28306

Ballistic wake structure and jump conditions for plane plasma shock waves with electrostatic turbulence

15 p2660 A69-30914

Stability conditions determination for spinning projectile based on ballistic equations, discussing role of Magnus effect

21 p3772 A69-39294

BALLISTOCARDIOGRAPHY

Amplitude variations in ULF ballistocardiograms of young normal airline stewardesses and applicants, discussing cardiovascular reactivity

09 p1444 A69-22544

Flow rate in ascending aorta, stroke volume and cardiac output determination by ballistocardiography, calculations based on Hagen-Poiseuille theory

17 p2915 A69-33772

BALLOON FLIGHT

Energetic X ray intensities from large and small Magellanic clouds investigated by balloon flight sky survey, noting energy flux upper limits

01 p0150 A69-10370

French balloon types, manufacture, behavior at ceiling, CNES launching center and satellite interrogation

02 p0193 A69-11915

Balloon flown High Altitude Particle Physics Experiments /HAPPE/ for research on high energy cosmic rays and particle interactions

03 p0499 A69-12943

Rigidity spectra of total primary cosmic radiation by ascending or descending balloon-borne detectors in atmosphere, with changing mean response energy

06 p0989 A69-17279

Transistorized multichannel pulse height analyzer and recording system for balloon-borne cosmic ray payloads, discussing performance capacity

06 p0924 A69-17284

Spark chambers for primary cosmic ray study in balloon flights, detailing construction and performance

06 p0924 A69-17285

X ray sources intensity and spectrum variation with time, describing proposed balloon experiments with equatorial launching for performing measurements

06 p0992 A69-17312

Pressure-altitude transducers for atmospheric pressure measurements on balloon flights including diaphragm, thermoconductivity, radioactive density and hypsometer gauges

07 p1132 A69-18873

Northern sky scan for discrete sources of gamma rays in 240 to 1000 kev energy region by telescope on balloon flight

11 p1946 A69-24593

Balloon-borne instrumentation for detection of far IR extended emission regions and bright point sources, describing results of initial flights

13 p2342 A69-27599

Mixed balloon systems for long duration stratospheric flights with open balloon to carry payload and overpressure balloon as stabilizer or aerial buoy

15 p2551 A69-30703

GHOST Balloon Project, emphasizing launch and ascent control and location and life expectancy of superpressure balloons in tropical stratosphere

15 p2551 A69-31361

Zonal winds in temperate latitude analyzed as function of latitude and month from GHOST balloon flights in Southern Hemisphere at 200 mb

17 p2997 A69-33163

Stabilization system design for stratospheric balloon gondolas, discussing optimal system with flywheel and weight combination

17 p2898 A69-33242

Stratospheric balloon vertical oscillations and gondola attitude during long flights

19 p3248 A69-36689

Balloon-borne gondola azimuth stabilization using lunar tracker

20 p3538 A69-37300

EOLE constant level balloon flights in troposphere, discussing short lifetime due to overloading with ice in dense cirrus cloud

21 p3646 A69-38373

Balloon location by low orbit meteorological satellites, discussing balloon movement due to wind and geometric and nongeometric effects on errors

21 p3760 A69-38618

Auroral zone X rays measurement counting rate vs time patterns from balloon flights at Kiruna

21 p3791 A69-39252

Cosmic radiation altitude profiles, giving tabulation of counting rates obtained by SPARMO flights at different locations

21 p3791 A69-39253

Splash and return albedo electrons in cosmic ray electron spectrum between 12 Mev-1 Gev measured by high altitude balloon flight

22 p4005 A69-40510

Earth observations from balloons - Conference, Washington, D.C., February 1969

22 p3864 A69-40803

Wind information obtained for design and operation of tethered or hovering free floating balloon systems

22 p3864 A69-40804

Balloon flights for testing remote sensor systems prior to space flight, considering return beam vidicon and tracking telescope suitability for experimentation

22 p3865 A69-40806

Balloon flights with space available for secondary experiments, discussing launching agencies and experiment design restrictions

22 p3865 A69-40807

Microwave power transmission to high or low altitude balloon systems for stationkeeping, describing flexible diode array rectifier antenna

22 p3870 A69-40809

Hot air balloon observational platform capabilities and advantages compared with helicopters, fixed wing aircraft and He balloons

22 p3865 A69-40810

Acrostatic and aerodynamic characteristics of Dart Vee tethered balloon system

22 p3865 A69-40813

High altitude balloon stationkeeping system combining battery powered propeller and drag chute

22 p3866 A69-40941

BALLOON SOUNDING

Balloon, rocket probe and satellite payloads, noting French contributions and CNES role

02 p0333 A69-11914

Northern California humidity to 32 km utilizing alpha radiation hygrometer and associated balloon sounding equipment

03 p0461 A69-13345

Stratospheric balloons for space research, emphasizing stabilization equipment suitability

03 p0366 A69-13589

Cosmic ray intensity after solar flare shown greater than during quiet periods from balloon data at Murmansk and Mirnyi

04 p0648 A69-14375

Balloon observations of solar far IR spectrum and brightness temperature

04 p0652 A69-14419

Auroral zone X ray measurements obtained by simultaneous balloon flights over Northern Scandinavia

05 p0813 A69-15822

Balloon-borne instrumentation X ray measurements, discussing detector electronics, telemetry, pressure transducer, power supply, environmental tests, energy limit and calibration

05 p0762 A69-15824

Time coding system for recording balloon measurements on magnetic tape

05 p0762 A69-15825

Attitude stabilized balloon telescope for measuring interplanetary scattered light and nightglow

06 p0999 A69-16972

Radiation bursts in subpolar stratosphere recorded by gas discharge counters on board sounding balloons

06 p0921 A69-17744

Upper wind observation and computation accuracy, comparing radar and slide rule instrument errors

06 p0950 A69-17788

Constant level sounding balloon systems providing global data on atmospheric circulation, discussing icing problems and average life improvement

07 p1053 A69-18955

Gamma ray telescope development for balloon-borne astronomy in search for discrete gamma sources and supernova explosions

07 p1134 A69-19192

Nocturnal auroral electron showers configuration and displacement determined from sounding balloon measurement of X rays due to showers braking in upper atmosphere

08 p1308 A69-20281

Ion exchange fuel cells for emitter-receiver on atmospheric constant ceiling balloon, stressing pressure effect on operation and fuel storage

08 p1260 A69-21042

Pilot balloon and radiosonde measurements for p as function of wind direction, velocity and stability, discussing variation with air layers

09 p1535 A69-21516

Centaurus constellation search for gamma rays using balloons, discussing radio and X ray luminosity

09 p1580 A69-22269

Weak X ray sources at 20-100 Kev photon energies observed during balloon flight, finding hard rays from Ara XR-1 and Nor XR-1

09 p1583 A69-22763

High energy X ray observational data for Sagittarius sources scanned by active telescope during February 1968 balloon flight

09 p1583 A69-22764

Spectrum of high energy X ray flux from Sco XR- 1 during balloon flight using active collimator detector and graded shield detector

09 p1584 A69-22766

Statistical distributions of refractive index parameters in tropospheric radio propagation from psychrometer soundings, discussing lapse rate

13 p2254 A69-28428

Proton and alpha particle fluxes above specified vertical geomagnetic cut-off rigidity measured by balloon-borne Cerenkov scintillation counter telescope

14 p2511 A69-28951

Mixed balloon systems for long duration stratospheric flights with open balloon to carry payload and overpressure balloon as stabilizer or aerial buoy

15 p2551 A69-30703

Systematic error pattern in raw data obtained during tracking ROSE balloons by two radar systems, estimating range resolver error

15 p2649 A69-30897

Cadmium sulfides thin film solar cells for supplying power to instrumentation and data telemetry on longer lived balloons

15 p2553 A69-31287

Balloon for in situ measurements of atmospheric optical parameters using two axis sun pointer, spectropolarimeter and airborne telemetry

15 p2615 A69-31288

Balloon-borne UV polarimetry of stars and planets, studying linear polarization between 2000 and 3000 A

15 p2616 A69-31380

Stratospheric balloons launching and nacelles for measurement of cosmic rays, atmosphere high altitude characteristics, discussing French launching center

16 p2734 A69-31759

Hydrogen-oxygen ion exchange membrane fuel cells for sounding balloons, discussing flight duration and power requirements, gas supply pressure effects, etc

16 p2738 A69-32413

Fast atmospheric neutrons flux and spectrum measurement during two balloon flights, tabulating results and evaluating albedo flux during quiet sun period

16 p2851 A69-32616

Vertical distribution of concentration, microstructure and chemical composition of solid aerosol in troposphere and stratosphere from high altitude balloon measurements

18 p3132 A69-35340

M-87 X ray luminosity from balloon-borne detectors, considering background counting rate relation to azimuth

20 p3588 A69-37488

Solar protons intensity increase observed by balloon-borne instruments over Antarctica, describing decay phases

20 p3589 A69-37556

Pilot balloon observation errors due to inaccurate balloon height determination, relating error determination to wind speed and direction errors

20 p3572 A69-37699

Electronic computer for processing observational data from pilot balloons, utilizing algorithms of values in programming for accuracy and time saving

20 p3572 A69-37700

Balloon-borne transmitter consisting of oscillator, driver and final output and connectable automatic frequency control circuit

21 p3682 A69-39251

Buoyant Venus Station balloon for deployment and inflation during parachute descent into Venus atmosphere tested with scale model balloons in wind tunnels

[AIAA PAPER 69-1017]

22 p3922 A69-40389

Diurnal variations of electron flux based on balloon observations near polar cap consistent with geomagnetic cut-off variations of magnetospheric models

22 p4005 A69-40511

Earth observations from balloons - Conference, Washington, D.C., February 1969

22 p3864 A69-40803

Agricultural and forestry applications of tethered balloons, discussing observation angle effect on spectral signature response and signal preprocessing

22 p4053 A69-40805

Hot air balloon observational platform capabilities and advantages compared with helicopters, fixed wing aircraft and He balloons

22 p3865 A69-40810

Photographic platform applications of tethered balloons, discussing powered systems for low and high altitudes and free balloons

22 p3865 A69-40811

Balloon-borne instrument for auroral X ray measurements at Antarctic station, discussing design requirements, circuit characteristics and improvement recommendations

23 p4166 A69-42011

High energy gamma rays point source in Sagittarius indicated from evidence obtained by high altitude balloon flights

24 p4365 A69-42606

Isotropic cosmic X rays measured by balloon-borne scintillation telescope, discussing agreement with electron energy spectral distribution

24 p4368 A69-43185

Solar high energy gamma ray flux abrupt increase detected by neutral particle plastic scintillators at balloon altitude

24 p4371 A69-43612

BALLOONS

NT HIGH ALTITUDE BALLOONS

NT METEOROLOGICAL BALLOONS

NT TETHERED BALLOONS

French balloon types, manufacture, behavior at ceiling, CNES launching center and satellite interrogation

02 p0193 A69-11915

Balloon satellite orbital time and eccentricity correlated, investigating earth shadow and solar radiation effects

19 p3427 A69-36628

Hot air balloon observational platform capabilities and advantages compared with helicopters, fixed wing aircraft and He balloons

22 p3865 A69-40810

Scientific balloon vehicle design and development approaches for altitude, flight duration and payload capacity extension, discussing plastic balloons

22 p3865 A69-40812

BALMER SERIES

IR and violet sulfur lines for Seyfert galaxies, noting substantial reddening in nuclei

02 p0325 A69-12593

Electron temperatures and optical depths for planetary nebulae outer regions derived using radio spectra and Balmer line isophotes

06 p1009 A69-17962

Stark broadening of Balmer H alpha, H beta, H gamma and H delta lines in plasma region in strong magnetic fields

09 p1542 A69-22248

Solar Lyman alpha, Lyman beta and Balmer alpha lines of He 2 for electron temperature and density and optical thickness of emitting layer

10 p1772 A69-22859

Hydrogen balmer lines broadening by Stark and Doppler effects, finding prominences and chromosphere electron concentrations

11 p1955 A69-24389

Photometric and colorimetric characteristics of hot gas optically thin in continuous spectrum with optical thickness of several units in Balmer series lines

12 p2159 A69-26667

Spectrum of abnormal B-type star HR 3817, noting Balmer line profiles and instrumentation

12 p2172 A69-27160

Hydrogen content in Ia supergiant spectra of type B, noting lack of Stark wings of Balmer lines

13 p2348 A69-27722

Ultimate resolvable line dependence of Balmer series on electron density, considering line broadened by Stark and Doppler effects

13 p2351 A69-27865

- Magnetic A star HD 152107 anomalous intensification of Balmer series H lines observed by spectrograms 13 p2352 A69-27873
- Excited hydrogen RF spectral lines from nebula NGC 6618, calculating frequency for transitions by Balmer formula 13 p2353 A69-28433
- Balmer jumps for B star temperature scale, discussing relation between observed Balmer jumps and observed U-B color indices 14 p2518 A69-29132
- Balmer alpha emission for abundance and distribution of hydrogen around earth, relating temporal variations to azimuth 15 p2700 A69-31437
- Balmer line H alpha emission and absorption coefficients measured with hydrogen plasma generated in high current low voltage free burning arc 16 p2822 A69-32040
- Nonocculted areas of Algol during eclipse using Balmer discontinuity spectrophotometric method, determining apparent stellar diameters 16 p2858 A69-32216
- Spectroscopic study of P Cygni showing ionization temperature, Balmer decrement agreement with calculated value and chemical composition 16 p2864 A69-32595
- HD 217050 spectroscopic study, determining Balmer envelope temperature from comparison of homologous Balmer and Paschen lines intensities 18 p3201 A69-35144
- Balmer line spectrum formation in extended atmospheres of Be and shell stars, noting influence of angle of inclination to observer 18 p3204 A69-35349
- Balmer and Ca II/K line profiles computed by program based on model atmospheres, comparing computed and observed data for F stars 19 p3426 A69-36578
- O stars absolute magnitudes scales, discussing use of Balmer discontinuity in magnitude calculations 23 p4213 A69-41699
- Hydrogen balmer lines broadening by Stark and Doppler effects, finding prominences and chromosphere electron concentrations 24 p4390 A69-43779
- BALSA**
- Balsa wood laminates as aircraft structural material noting thermal properties, fire and fatigue resistance, weight savings, etc 01 p0101 A69-10595
- BANACH SPACE**
- Soviet book on linear differential equations in Banach space covering equations with unrestricted operators, continuous semigroups, partial differential equations and asymptotic methods 01 p0106 A69-10996
- Volterra equation generalization by method involving operator for mapping of topological space into Banach space 02 p0270 A69-11534
- Nonlinear A/x/ operators in reflexive Banach space Y characterized by weak closure of values, defining solvability conditions for equations having such operator 10 p1720 A69-23563
- Successive approximation techniques for problems in optimum control theory, considering maximum principle and Banach space 11 p1908 A69-24771
- Boundedness criteria for second order hyperbolic equation boundary value problem solution in Banach space 12 p2122 A69-26573
- Closed linear operators in topological vector space generalized for Banach space case 13 p2288 A69-27734
- Zlmal theorems refinements by means of Banach theorem of fixed points for Liénard differential equation 13 p2289 A69-27925
- Liapunov first stability theorem generalized for differential equations in Banach space 19 p3360 A69-35860
- Fixed point existence in study nonlinear mapping determined on semiordeed Banach space, noting results applicability to integral equations and boundary value problems 19 p3361 A69-36640
- Monotonic minimization algorithm for nonsmooth extremal problems of mathematical programming, game theory, approximations and optimal control in arbitrary Banach space 23 p4181 A69-41524

BAND STRUCTURE OF SOLIDS

- GaAs photoemissive yield spectrum analysis, discussing transition energies and energy band structure models 01 p0140 A69-11254
- Heterojunction band model and carrier transport mechanisms emphasizing applications to heterophotodiodes, solar cells and hetero field effect transistors 02 p0294 A69-11598
- Gray tin band structure, noting Shubnikov-de Haas oscillations, transport properties, piezo-Hall effect, magnetoreflection and free carrier absorption 02 p0295 A69-11783
- Electroreflectance spectra of Ge-Si alloys, noting concentration dependence and band structure of Si and Ge 02 p0295 A69-11784
- Electron band structure of copper-nickel alloys, discussing thermoelectric properties, energy ranges and effect of alloying additions 02 p0301 A69-12765
- Impurity profiles and energy band diagram for cuprous sulfide-CdS heterojunction based on capacitance, Hall and electron microprobe measurements 03 p0368 A69-13075
- Gunn effect and resulting electron transfer mechanism in semiconductor devices 03 p0486 A69-13610
- Bound excitons spectra in CdS, semiconductor band structure and tabulating positions of lines identified with excitons 03 p0488 A69-13784
- Energy structure parameters for ZnTe-CdTe and ZnSe-ZnTe crystals, obtaining forbidden bandwidth dependence on composition 03 p0492 A69-14173
- ZnTe electronic structure from photoemission study, noting emitted electron energy distribution 03 p0493 A69-14239
- Superconductivity and band structure from pseudopotential for zinc and cadmium, analyzing values of electron phonon mass enhancement 04 p0642 A69-14965
- Electron beam modulation of germanium reflectance 05 p0807 A69-15816
- Gallium arsenide injection lasers properties, analyzing band structure, optical transitions, recombination lifetimes, conduction band states, optical gain, etc 05 p0772 A69-16228
- Design theory of esaki diodes relation to internal parameters of degenerate semiconductors, discussing Fermi level position and maximum state density in purity band 05 p0732 A69-16298
- Nonlinear optical coefficients in group IV and III-V semiconductors, calculating contribution from conduction and core electrons [IEEE PAPER V-7] 05 p0776 A69-16329
- BiTeBr semiconductor band structure determined from electrical and optical properties 05 p0810 A69-16609
